## General Information

### Principal Activities

GAM Star Fund p.l.c. (the “Company”) was incorporated and registered in Ireland under the Companies Acts, 1963 to 2013 as an investment company with variable capital on 20 February 1998 and is authorised by the Central Bank of Ireland as an Undertaking for Collective Investment in Transferable Securities pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 1989, and is subject to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (the “UCITS Regulations”).

It is an umbrella type company, in that shares may be issued in relation to different funds (the “Funds”) from time to time. A separate portfolio of assets will be maintained for each Fund and will be invested in accordance with the investment objective and policies applicable to such a Fund as set out on pages 3 to 7. Segregated liability exists between Funds.

Certain Funds are authorised for sale in Austria, Belgium, Chile, Finland, France, Germany, Hong Kong, Italy, Japan, Liechtenstein, Luxembourg, Macau, the Netherlands, Norway, Peru, Portugal, Singapore, Spain, Switzerland, Sweden, Taiwan, United Arab Emirates and the UK.

SFC authorisation is not a recommendation or endorsement of a product nor does it guarantee the commercial merits of a product or its performance. It does not mean the product is suitable for all investors nor is it an endorsement of its suitability for any particular investor or class of investors.

### Directors

The Directors of the Company for the period ended 31 December 2014 were:

Andrew Bates  
David Dillon  
Andrew Hanges  
William Norris  
Burkhard Poschadel

Each of the Directors served for the entire period.

### Application for shares

All applications should be made directly to the Manager or via the German information and distribution agent of the Company, the Austrian paying agent of the Company, or via the Swiss representative of the Company. Shares will be purchased on the relevant Dealing Day and a contract note will be sent to the purchaser. Prospective shareholders should note that the price of shares may go down as well as up.

### Redemption of shares

Redemption of shares and requests for the switch of shares can be submitted via the German paying agent of the Company, the Austrian paying agent of the Company, the Swiss representative of the Company or directly to the Manager. This should be done in writing by post, by facsimile, by email or by telephone.

### Publication of Prices

Prices are quoted in the Financial Times, the South China Morning Post and the Hong Kong Economic Journal; in Switzerland on the internet platforms [www.swissfunddata.ch](http://www.swissfunddata.ch) and [www.fundinfo.com](http://www.fundinfo.com).

### Reports

Annual and semi-annual reports are made available to all shareholders.

### Purchases and Sales

Please contact the Manager or other local GAM Contacts (as per page 510) to obtain a complete list of all purchases and sales for any Fund free of charge.

### Prospectus

Further details concerning the Funds are contained in the Prospectus, the Key Investor Information Documents of the Company and the Articles of Incorporation. Copies of these, as well as copies of the annual and semi-annual reports, are available on application to the Manager, to the UK facilities agent, the Hong Kong representative office, the German and Austrian information agent as well as to the Swiss representative free of charge.

### Place of performance and forum in Switzerland

In the case of shares which are distributed in Switzerland or from Switzerland, the place of performance and the forum are at the Counterparties of the Swiss representative of the Fund in Zürich.

### Reporting Fund Status (relevant to UK Shareholders only)

It is the policy of the Company to apply to HM Revenue and Customs (“HMRC”) for certification of all Share classes (with the exception of GAM Star Alpha Spectrum and the non UK RFS classes of the relevant Funds) as reporting funds as defined in the Offshore Funds (Tax) Regulations 2009.

## Investment Objectives

The investment objectives of each Fund are set out below.

### GAM Star Absolute Return Bond

The investment objective of the Fund is to invest at least 85% of its assets in Julius Baer Multibond Absolute Return Bond Fund (the "Master Fund"), the investment objective of which is to achieve a long term positive (absolute) return in both rising and falling financial markets while observing the principle of risk diversification. The Master Fund is a sub-fund of Julius Baer Multibond which is established as a société d'investissement, a capital variable, and is authorised by the Commission de Surveillance du Secteur Financier in Luxembourg ("CSSF") as a UCITS. The Master Fund is managed by GAM International Management Limited, which has also been appointed as Co-Investment Manager of the Fund.

### GAM Star Absolute Return Bond Defender

The investment objective of the Fund is to invest at least 85% of its assets in Julius Baer Multibond Absolute Return Bond Fund Defender (the "Master Fund"), the investment objective of which is to achieve a long term positive (absolute) return in both rising and falling financial markets while observing the principle of risk diversification. The Master Fund is a sub-fund of Julius Baer Multibond which is established as a société d'investissement, a capital variable, and is authorised by the Commission de Surveillance du Secteur Financier in Luxembourg ("CSSF") as a UCITS. The Master Fund is managed by GAM International Management Limited, which has also been appointed as Co-Investment Manager of the Fund.

### GAM Star Absolute Return Bond Plus

The investment objective of the Fund is to invest at least 85% of its assets in Julius Baer Multibond Absolute Return Bond Fund Plus (the "Master Fund"), the investment objective of which is to achieve a long term positive (absolute) return in both rising and falling financial markets while observing the principle of risk diversification. The Master Fund is a sub-fund of Julius Baer Multibond which is established as a société d'investissement, a capital variable, and is authorised by the Commission de Surveillance du Secteur Financier in Luxembourg ("CSSF") as a UCITS. The Master Fund is managed by GAM International Management Limited, which has also been appointed as Co-Investment Manager of the Fund.

### GAM Star Alpha Asia

(Approved on 10 July 2014. Not yet launched)

The investment objective of the Fund is to achieve long term capital appreciation. The Fund seeks to achieve this objective by taking long and short positions primarily in equities or equity related derivative contracts of companies with principal offices or significant business activities in Asia. Such companies will be listed on or dealt in Recognised Markets globally (including in Emerging Markets as described in the Prospectus) and up to 10% of its Net Asset Value may be invested in unlisted equities of such companies.

### GAM Star Alpha Spectrum

The investment objective of the Fund is to seek to achieve an attractive return on capital while simultaneously attempting to limit the risk of capital loss. The Fund aims to achieve this investment objective by gaining exposure to equity, fixed income and trading strategies. Such exposure may be achieved principally through investment in open-ended collective investment schemes deploying equity long only, equity hedge, fixed income and trading strategies.

### GAM Star Alpha Technology

The investment objective of the Fund is to achieve long term capital appreciation. The Fund seeks to achieve this objective by taking long and short positions primarily in equities or equity related derivative contracts of technology related companies. Such companies will be listed on or dealt in Recognised Markets globally (including in Emerging Markets as described in the prospectus) and up to 10% of its Net Asset Value may be invested in unlisted equities of such companies.

### GAM Star Alternative Fixed Income

The investment objective of the Fund is to seek to achieve consistent positive returns over the long term while observing the principle of risk diversification. The Fund aims to achieve this investment objective by investing at least two thirds of its net assets in Fixed Income Securities of all kinds of levels of creditworthiness, durations and currencies which are issued or guaranteed by Member States, non- Member States, their sub-divisions, agencies or instrumentalities or by communities or cities in "recognised countries" (being OECD member countries and all other countries in Europe, North and South America, Africa, Asia and the Pacific Rim) including Emerging Markets (as per the prospectus).

### GAM Star Asian Equity

The investment objective of the Fund is to achieve capital appreciation through investment primarily in quoted securities which are issued by public companies with principal offices or significant business activities in the Asian region, excluding Japan.

### GAM Star Asia-Pacific Equity

The investment objective of the Fund is to achieve long-term capital appreciation through investing, primarily in quoted equity securities, in companies with principal offices in the Pacific Basin, including Australia, China, Hong Kong, India, Indonesia, Japan, Malaysia, New Zealand, Pakistan, the Philippines, Singapore, South Korea, Sri Lanka, Taiwan and Thailand.

### GAM Star Balanced

The investment objective of the Fund is to seek to achieve an attractive return on capital while simultaneously attempting to limit the risk of capital loss. This investment objective may be achieved primarily through investment in open-ended collective investment schemes which gain exposure to equities, Fixed Income Securities, property, commodities and currencies as set out in the Prospectus. The Fund will not invest directly in property or commodities and such indirect exposure shall be generated as described in the Prospectus.

### GAM Star Barclays Diversified Alternatives

The investment objective of the Fund is to provide consistent above-average, risk-adjusted returns on capital with a low long term correlation with traditional asset classes such as equities and bonds. The investment objective is achieved by the Co-Investment Manager using financial derivative instruments to gain exposure primarily to the Barclays Capital Investable Indices (each an Index and collectively the "Indices") which in turn invest to varying degrees in the four basic asset classes of equities listed or traded worldwide, Fixed Income Securities, currencies and commodities.

## **GAM Star Capital Appreciation US Equity**

The investment objective of the Fund is to achieve long-term capital appreciation. It will be the policy of the Fund to invest primarily in equities and other equity related securities (including preferred shares, convertible bonds, American Depositary Receipts and exchange traded funds) which are issued by companies with principal offices in the United States of America, which exercise their primary economic activity in the United States of America, or which are listed on or dealt in a Recognised Market in the United States of America.

## **GAM Star Cat Bond**

The investment objective of the Fund is to seek to generate returns through selective investment in a global portfolio of catastrophe bonds ("CAT Bonds"). CAT Bonds are debt securities that transfer the risk of catastrophic events from insurance companies, reinsurance companies, corporations, governments, etc. to the capital markets.

## **GAM Star Cautious**

The investment objective of the Fund is to seek to achieve long term capital growth with lower volatility than a fund which invests solely in equities. The Fund aims to achieve this investment objective primarily through investment in open-ended collective investment schemes which provide exposure to equities, Fixed Income Securities, property, commodities and currencies as set out in the Prospectus.

## **GAM Star China A Equity**

(Approved on 12 December 2014. Not yet launched)

The investment objective of the Fund is to achieve capital appreciation. GAM International Management Limited and GAM Hong Kong Limited, which have been appointed as Co-Investment Managers to the Fund, intend to achieve this investment objective through investment primarily in China A shares listed on or dealt in the Shanghai Stock Exchange ("SSE") or the Shenzhen Stock Exchange ("SZSE") ("China A Shares").

## **GAM Star China Equity**

The investment objective of the Fund is to achieve capital appreciation through investment primarily in quoted equity securities listed on or dealt in any Recognised Market and which are issued by companies with principal offices or significant business activities in the People's Republic of China and Hong Kong.

## **GAM Star Composite Global Equity**

The investment objective of the Fund is to achieve long term capital appreciation with the aim of generating a capital return in excess of global equity markets over the medium to long term. The Fund intends to pursue its investment objective by gaining exposure principally to equity strategies. Such exposure may be achieved principally through investment in open ended collective investment schemes deploying equity long only and equity hedge strategies. The Fund may also invest in exchange traded funds which are listed or traded on Recognised Markets worldwide in order to gain exposure to such strategies. The Fund may also invest in unlisted collective investment schemes in accordance with the provisions of the UCITS regulations.

## **GAM Star Continental European Equity**

The investment objective of the Fund is to achieve long-term capital appreciation through investing primarily in quoted equity and equity related securities (including but not limited to warrants), listed on or dealt in Recognised Markets within the EU which are issued by companies with principal offices in Europe other than the United Kingdom.

## **GAM Star Credit Opportunities (EUR)**

The investment objective of the Fund is to achieve long-term capital gain in Euro. It will be the policy of the Fund to seek to achieve its investment objective through investment principally in income bearing or accruing securities with fixed principal amounts including government bonds, corporate bonds, junior debt securities, preferred shares, convertible securities and contingent capital notes.

## **GAM Star Credit Opportunities (GBP)**

The investment objective of the Fund is to achieve long-term capital gain in Sterling. It will be the policy of the Fund to seek to achieve its investment objective through investment principally in income bearing or accruing securities with fixed principal amounts including government bonds, corporate bonds, junior debt securities, preferred shares, convertible securities and contingent capital notes.

## **GAM Star Credit Opportunities (USD)**

The investment objective of the Fund is to achieve long-term capital gain in US dollars. It will be the policy of the Fund to seek to achieve its investment objective through investment principally in income bearing or accruing securities with fixed principal amounts including government bonds, corporate bonds, junior debt securities, preferred shares, convertible securities and contingent capital notes.

## **GAM Star Defensive**

The investment objective of the Fund is to seek to achieve long term capital growth. The Fund aims to achieve this investment objective primarily through investment in open-ended collective investment schemes which provide exposure to equities, Fixed Income Securities, property, commodities and currencies as set out in the Prospectus.

## **GAM Star Discretionary FX**

The investment objective of the Fund is to achieve absolute returns over the medium term arising out of the Fund's participation in the global currency and related markets.

## **GAM Star Dynamic Global Bond**

The investment objective of the Fund is to maximise total investment return generated from a combination of income, capital appreciation and currency gains. The Fund aims to achieve this investment objective principally through investment either directly or through the use of associated financial derivative instruments in a broadly diversified portfolio of fixed income securities and currencies.

## **GAM Star Emerging Asia Equity**

The investment objective of the Fund is to achieve capital appreciation through investment primarily in quoted securities listed on or dealt in any Recognised Market and which are issued by companies with principal offices in countries of the Association of Southeast Asian Nations including Indonesia, Malaysia, Philippines, Singapore, Thailand, Vietnam and the Indian Subcontinent including India, Pakistan and Sri Lanka. It will be the policy of the Fund to invest primarily in equity securities of these issuers.

## **GAM Star Emerging Equity**

The investment objective of the Fund is to achieve long term capital appreciation. The Fund seeks to achieve this objective through investing primarily in shares of companies listed on or dealt in Recognised Markets in Emerging Markets or which are listed on or dealt in Recognised Markets outside of the Emerging Markets but which have material exposure to the Emerging Markets.

## **GAM Star Emerging Market Rates**

The investment objective of the Fund is to achieve absolute return regardless of market conditions through investment in a portfolio of local and hard currency bonds and other fixed income securities from emerging markets worldwide.

## **GAM Star European Equity**

The investment objective of the Fund is to achieve long-term capital appreciation through investing primarily in quoted equity securities issued by companies with principal offices in Europe, including Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, the Netherlands, Norway, Portugal, Russia, Spain, Sweden, Switzerland, Turkey and the United Kingdom.

## **GAM Star Flexible Global Portfolio**

The investment objective of the Fund is to achieve capital appreciation by gaining exposure to one or more of the following asset classes: financial indices, open-ended collective investment schemes, exchange traded funds, exchange traded commodities, Fixed Income Securities, equities, equity related securities, derivative instruments, cash, cash equivalents, Money Market Instruments and closed-ended funds. Allocations will be made at the Co-Investment Manager's discretion, both within each asset class and among the asset classes. The Fund need not be invested in any or all of the asset classes at any one time.

## **GAM Star Frontier Markets Bond**

(Approved 2 October 2012. Not yet launched)

The investment objective of the Fund is to maximise return through both capital appreciation and income. It will be the normal policy of the Fund to seek to achieve this objective by investing primarily either directly or through the use of credit linked notes or associated financial derivative instruments described in the Prospectus in a broadly diversified portfolio of frontier markets fixed income securities and currencies of the frontier markets.

## **GAM Star GAMCO US Equity**

The investment objective of the Fund is to achieve long-term capital appreciation. It will be the policy of the Fund to invest primarily in a diversified portfolio of equities (i) issued by companies with principal offices in the United States of America and/or (ii) which are listed on Recognised Markets in the United States of America. Whilst the Fund will primarily invest in the equities described above, it may also invest in other equities listed on Recognised Markets worldwide.

## **GAM Star Global Convertible Bond**

The investment objective of the Fund is to achieve long-term capital gain. It will be the normal policy of the Fund to seek to achieve this objective through investment principally in a diversified portfolio of convertible securities and warrants globally. Issuers of these securities may be located in any country worldwide, including Emerging Markets.

## **GAM Star Global Diversified**

(Approved on 6 February 2014. Not yet launched)

The investment objective of the Fund is to provide capital appreciation. It will be the normal policy of the Fund to invest primarily in shares and other equity related securities (which shall comprise of warrants, rights issues and preferred stock) listed on or dealt in recognised markets worldwide.

## **GAM Star Global Equity**

The investment objective of the Fund is to seek to achieve long term capital growth. The Fund aims to achieve this investment objective primarily through investment in open-ended collective investment schemes which provide exposure to equities, Fixed Income Securities, property, commodities and currencies as set out below. The Fund will not invest directly in property or commodities and such indirect exposure shall be generated as described in the Prospectus.

## **GAM Star Global Quality**

The investment objective of the Fund is to provide capital appreciation primarily through investment in quoted equity securities listed on or dealt in Recognised Markets on a worldwide basis. The Fund emphasises investment in companies in developed countries such as the United States, the countries of Western Europe and certain countries in the Pacific Basin, which include but are not limited to Australia, Hong Kong, Japan, New Zealand and Singapore.

## **GAM Star Global Rates**

The investment objective of the Fund is to achieve absolute returns. The Fund employs a process of economic analysis to identify fundamental trends within both the fixed income and global currency markets. There are both medium term and short term based themes involved in the Fund's strategy.

## **GAM Star Global Selector**

The investment objective of the Fund is to achieve long term capital appreciation by investing primarily in a focused, concentrated portfolio of worldwide quoted equity and equity related securities (including, but not limited to warrants), listed on or dealt in Recognised Markets on a worldwide basis.

## **GAM Star Growth**

The investment objective of the Fund is to seek to achieve long term capital growth. The Fund aims to achieve this investment objective primarily through investment in open-ended collective investment schemes which provide exposure to equities, Fixed Income Securities, property, commodities and currencies as set out in the Prospectus. The Fund will not invest directly in property or commodities and such indirect exposure shall be generated as described in the Prospectus.

## **GAM Star India Equity**

(Approved on 12 December 2014. Launched 31 December 2014)

The investment objective of the Fund is to achieve long-term capital appreciation. It is the policy of the Fund to invest primarily in a diversified portfolio of equity and equity related securities and/or other derivative instruments of companies listed or dealt on any Recognised Market with principal offices in India or significant business activities, assets or resources related to India.

## **GAM Star Japan Equity**

The investment objective of the Fund is to achieve long-term capital appreciation through investing primarily in quoted equity securities in Japan issued by companies with principal office in Japan. It will be the policy of the Fund to invest primarily in equities.

## **GAM Star Keynes Quantitative Strategies**

The investment objective of the Fund is to seek to achieve an attractive return on capital while simultaneously attempting to limit the risk of capital loss. The Fund aims to achieve this investment objective through the use of systematic quantitative models.

## **GAM Star Local Emerging Bond**

(Launched 8 August 2014)

The investment objective of the Fund is to invest at least 85% of its assets in Julius Baer Multibond Local Emerging Bond (the “Master Fund”), the investment objective of which is to achieve above-average returns in the long term while observing the principle of risk diversification. The Master Fund is a sub-fund of Julius Baer Multibond which is established as a société d’investissement, a capital variable, and is authorised by the Commission de Surveillance du Secteur Financier in Luxembourg (“CSSF”) as a UCITS. The Master Fund is managed by GAM International Management Limited, which has also been appointed as Co-Investment Manager of the Fund.

## **GAM Star Local EM Rates and FX**

The investment objective of the Fund is to achieve a total return through exposure principally to emerging market fixed and floating rate debt instruments and currencies. It will be the normal policy of the Fund to seek to achieve this objective by investing either directly or indirectly via credit linked notes or derivatives, in fixed and floating rate debt securities issued or guaranteed by (i) governments or their agencies of or (ii) companies incorporated under the laws of or deriving a significant part of their economic activity from, one or more emerging markets or one or more developed countries which is or are undergoing a period of fiscal stress.

## **GAM Star MBS Total Return**

(Launched 23 July 2014)

The Fund’s primary investment objective is to seek to generate returns through selective investment in a diversified portfolio of mortgage-backed debt securities (“MBS”). The Fund may also invest to a lesser extent in asset-backed debt securities (“ABS”) as well as debt securities (such as bonds and notes) issued by corporations and governments. Such debt securities may pay fixed, floating and inverse floating rates of interest and may include zero coupon obligations.

## **GAM Star North American Growth**

(Approved on 6 February 2014. Not yet launched)

The objective of the Fund is to provide capital appreciation. The Fund aims to achieve this investment objective primarily through investment in equity and equity related securities (which shall comprise of warrants, rights issues and preferred stock) of companies listed on or dealt on Recognised Markets in the United States and Canada.

## **GAM Star North of South EM Equity**

The investment objective of the Fund is to achieve long term capital appreciation. The Fund seeks to achieve this objective through investing primarily in equity and equity related securities (such as warrants and rights issues) of companies listed on or dealt in Recognised Markets in Emerging Markets or which are listed on or dealt in Recognised Markets outside of the Emerging Markets but which generate the bulk of their earnings in Emerging Markets.

## **GAM Star Systematic FX**

(Launched 11 August 2014)

The investment objective of the Fund is to achieve long-term capital appreciation based on an analysis of the foreign exchange market microstructure and the identification of short term trading opportunities. There can be no assurance that the Fund will achieve its investment objective.

## **GAM Star Tactical Opportunities**

The investment objective of the Fund is to seek to achieve capital appreciation via unconstrained tactical asset allocation. The Fund aims to achieve this investment objective by gaining exposure either directly or indirectly through the use of derivatives to a range of asset classes including equities, fixed income securities, currencies, commodities and property as described in the Prospectus. The Fund will not invest directly in property or commodities.

## **GAM Star Technology**

The investment objective of the Fund is to achieve long-term capital appreciation. It will be the policy of the Fund to invest primarily in a globally diversified portfolio of technology related companies. The Fund seeks to achieve this objective through investing primarily in equity and equity related securities (such as warrants and rights issues) of companies listed on or dealt in Recognised Markets worldwide, and up to 10% of its net assets in unlisted equities, in each case which demonstrate long term growth opportunities within the broader technology sector or whose business models are driven by new technologies.

## **GAM Star UK Diversified**

(Approved on 6 February 2014. Not yet launched)

The investment objective of the Fund is to provide capital appreciation. The Fund aims to achieve this investment objective primarily through investment in quoted equity and equity related securities (which shall comprise of warrants, rights issues and preferred stock) which are (i) listed on or dealt in recognised markets in the UK, (ii) issued by companies with principal offices in the UK or (iii) issued by companies which exercise their primary economic activity in the UK.

## **GAM Star US All Cap Equity**

The investment objective of the Fund is to achieve long-term capital appreciation through investing primarily in quoted securities in the United States of America issued by companies with principal offices in the United States of America. The Fund will invest in a broad spread of equities, and may invest in fixed income securities and preferred stock listed on or dealt in a Recognised Market in the United States of America. It will be the policy of the Fund to invest primarily in equities.

## **GAM Star Worldwide Equity**

The investment objective of the Fund is to provide capital appreciation primarily through investment in quoted securities on a worldwide basis. It will be the policy of the Fund to invest mainly in equities.

## **GAM Star Absolute Emerging Markets**

(Terminated 12 September 2011)

The investment objective of the Fund is to achieve a positive absolute return over the long-term regardless of market conditions. The Fund seeks to achieve this objective by taking long and short positions primarily in equities or equity related derivative contracts primarily in companies listed on or dealt in Recognised Markets worldwide and active in emerging markets.

## **General**

In addition, please note the following in relation to the investment objectives and policies of the Funds:

(i) any Fund, the name of which contains a reference to a specific type of security, country or region will invest at least two thirds of its non-liquid assets in that specific type of security, country or region;

(ii) any Fund, the name of which contains a specific reference to a specific currency, will invest at least two thirds of its non-liquid assets in securities denominated in that specific currency;

(iii) where the investment policy of a Fund states that investments are made “primarily” in a specific type of security, country or region, that Fund will invest either directly or indirectly (through the use of financial derivative instruments) at least two thirds of its non-liquid assets in that specific type of security, country or region;

(iv) where the investment policy of a Fund refers to investments in companies of a specific country or region, this means (in the absence of any other definition) that these companies will have their registered office in the specific country or region stated, notwithstanding their being listed on any stock exchange mentioned in the investment policy of the Fund.

(v) a Recognised Market is any exchange or market on which the Company may invest and which is regulated, recognised, open to the public and operating regularly. A list of these exchanges and markets is listed in the Prospectus.

(vi) the term “Emerging Markets” is generally understood to refer to the market of countries that are in the process of developing into modern industrialised states and thus display a high degree of potential but also entail a greater degree of risk.

<b>GAM Star Worldwide Equity</b>	US dollar

The Company is an umbrella fund with segregated liability between Funds. Accordingly any liability incurred on behalf of or attributable to any Fund of the Company shall be discharged solely out of the assets of that Fund, and neither the Company nor any director, receiver, examiner, liquidator, provisional liquidator or other person shall apply, nor be obliged to apply, the assets of any such Fund in satisfaction of any liability incurred on behalf of or attributable to any other Fund of the Company, irrespective of when such liability was incurred.

### 2. Accounting policies

The significant accounting policies and estimations techniques adopted by the Company are as follows:

These policies have been consistently applied to all periods presented unless otherwise stated.

#### (a) Basis of preparation of financial statements

The semi-annual report has been prepared in accordance with accounting standards generally accepted in Ireland, Irish Statute comprising the Companies Acts, 1963 to 2013, and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) and the provisions of the Hong Kong Code on Unit Trusts and Mutual Funds. The financial reporting framework that has been applied in the preparation of the financial statements is Irish law and accounting standards issued by the Financial Reporting Council and promulgated by the Institute of Chartered Accountants in Ireland (Generally Accepted Accounting Practice in Ireland).

#### (b) Investments at fair value

##### Classification

This category has two sub-categories: financial assets and liabilities held for trading, and those designated by management at fair value through profit or loss at inception. Financial assets or liabilities held for trading are acquired or incurred principally for the purpose of selling or repurchasing in the short term. Derivatives are also categorised as held for trading, as the Company does not designate any derivatives as hedges in a hedging relationship.

##### Recognition/Derecognition

Normal-way purchases and sales are recognised on trade date – the date on which the Company commits to purchase or sell the asset. Investments are derecognised when the rights to receive cash flows from the investments have expired or the Company has transferred substantially all risks and rewards of ownership.

##### Measurement

Financial Assets and Liabilities are initially recognised at fair value, and transaction costs for all financial assets/liabilities carried at fair value through profit or loss are expensed as incurred. Subsequent to initial recognition, all financial assets and liabilities at fair value through profit or loss are measured at fair value.

The computation of realised gains and losses on sales of financial assets and liabilities at fair value through profit or loss is made on the basis of average cost.

## Fair value estimation

The fair value of financial instruments traded in active markets (such as publicly traded derivatives and trading securities) is based on quoted market prices at the balance sheet date. The quoted market price used for financial assets held by the Company is the bid price and for financial liabilities, the ask price. When the Company holds derivatives with offsetting market risks it uses mid-market prices as a basis for establishing fair values for the offsetting risk positions and applies the bid or asking price to the net open position, as appropriate.

Shares or units in any collective investment scheme which provides for those shares or units to be redeemed at the option of their holder out of the assets of the undertaking shall be valued at the last published unaudited net asset value per share.

The Company may from time to time invest in financial instruments that are not traded in an active market (for example in over the counter derivatives). The fair value is determined by using valuation techniques. The Company uses a variety of methods and makes assumptions that are based on market conditions existing at each balance sheet date. Valuation techniques used include the use of comparable recent arm's length transactions, discounted cash flow analysis, option pricing models and other valuation techniques commonly used by market participants. Any such securities are disclosed in the portfolio statements.

## Critical accounting estimates and assumptions

Management makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition seldom equal the actual related results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are outlined below.

## Financial derivatives

The Funds may hold derivatives for investment purposes and/or efficient portfolio management purposes as described in the relevant Supplement to the Prospectus.

- (i) When entering into a forward foreign currency exchange contract, the Fund agrees to receive or deliver a fixed quantity of foreign currency for an agreed price upon an agreed future date. These contracts are valued daily at the forward rate and the Fund's equity therein, representing unrealised gains or losses on the contracts, is included in the Balance Sheet. The unrealised gain/(loss) on open forward exchange contracts is calculated by reference to the difference between the contracted rate and the rate to close out the contract.

A class of Shares of a Fund may be designated in a currency other than the functional currency of the Fund. Changes in the exchange rate between the functional currency and such designated currency may lead to a depreciation of the value of such Shares as expressed in the designated currency. Depreciation of that nature may also occur as a result of changes in the exchange rate between the designated currency of a particular class and the currency of denomination of the assets of the Fund attributable to that class. The Fund's Investment Manager may or may not try to mitigate these risks by using financial instruments such as forward currency exchange contracts. Although hedging strategies may not necessarily be used in relation to each class of Share within a Fund, the financial instruments used to implement such strategies shall be assets/ liabilities of the Fund as a whole. However the gains/losses on and the costs of the relevant financial instruments will accrue solely to the relevant class of Shares of the Fund.

There were open forward foreign currency exchange contracts at 31 December 2014, and these are disclosed on the relevant Portfolio Statement of each Fund on pages 8 to 305.

- (ii) A futures contract obligates one party to sell and the other party to purchase a specific instrument for an agreed price on an agreed

future date. Initial margin deposits made with respect to futures contracts are recognised as assets due from the Fund's broker (the Fund's agent in acquiring the futures position). Subsequent changes in the daily valuation of open contracts are recognised as unrealised gains or losses. Variation margin payments are made or received on traded futures as appreciation or depreciation occurs. Futures contracts are valued using quoted daily settlement prices established by the exchange on which they trade. Realised gains or losses are recognised when a contract is closed.

There were open futures contracts at 31 December 2014, and these are disclosed on the relevant Portfolio Statement of each Fund on pages 8 to 305.

## (iii) Options

An option gives the buyer the right, but not the obligation, to buy (call) or sell (put) a financial instrument. Options held by the Funds which are dealt on a recognised market are valued using a settlement price as determined by the recognised market in question. Where a settlement price is not available, the value is the probable realisation value estimated with care and good faith by the Manager. Exchange traded options are valued at the settlement price determined by the relevant exchange. These are valued daily.

## (iv) Credit default swaps

When the Fund enters into a credit default swap agreement, an amount equal to the premium paid is recorded as an asset and is subsequently fair valued on the Balance Sheet. Credit default swap agreements are fair valued on the valuation date based upon an estimate of the credit spread of the underlying reference asset, an estimate of expected volatility and recovery rates and/or broker quotes.

## (v) Contracts for difference

Contracts for difference are OTC derivatives which take advantage of the economical benefits which are not afforded through investing directly in certain securities markets. A Fund may purchase equity contracts for difference as a means of gaining exposure to the economic performance and cash flows of an equity security without the need for taking or making physical delivery of the security. A contract for difference is a financial instrument linked to an underlying share price. Consequently, no rights are acquired or obligations incurred relating to the underlying share and the Fund may buy or sell depending on the fund manager's view of a company's share price. Contracts for difference are highly leveraged instruments and for a small deposit it is possible for a Fund to hold a position much greater than would be possible with a traditional investment. These are valued daily based on quoted market prices at the balance sheet date. The fair value of contracts for differences is the difference between the opening price and the volume weighted average price of the financial instrument multiplied by the number of shares specified within the contract.

## (vi) Interest rate swaps

Interest rate swaps may be used as a substitute for a physical security or a less expensive or more liquid way of obtaining desired exposures. These are valued daily, usually using a number of quotes from market makers.

## (vii) Currency swaps

Currency swaps are generally used to manage a Fund's currency exposures. They may be used as a substitute for physical securities or a less expensive or more liquid way of obtaining desired exposures. These are valued daily usually using a number of quotes from market makers.

## Notes to the Financial Statements

### 2. Accounting policies *continued*

#### (viii) Total return swaps

Total Return swaps may be used as a substitute for investing in standardised exchange traded funds, futures or options contracts. Total return swaps involve the exchange of the right to receive the total return, dividends or coupons plus capital gains or losses, of a specified reference asset, index or basket of assets against the right to make fixed or floating payments. Any assets to be received by the Fund will be consistent with the investment policies of the Fund. Where the Fund enters into a total return swap on a net basis, the two payment streams are netted out, with the Fund receiving or paying, as the case may be, only the net amount of the two payments. These are valued daily via a pricing model.

#### (ix) Debt securities

Debt securities are valued on the basis of dealer supplied quotations or by using a pricing service selected by the Manager. The fair value of the instrument is estimated using valuation techniques if a quoted market price is not available from a broker/dealer or a third party pricing service. Valuation methods include the use of recent unaffiliated market transactions, reference to the current fair value of another instrument that is substantially the same, discounted cash flow techniques or any other valuation technique that provides a reliable estimate of prices obtained in actual market transactions.

#### (x) Swaptions

Swaptions may be used to give a fund the option to enter into an interest rate swap agreement on a specified future date in exchange for an option premium. Swaptions would generally be used to manage a fund's interest rate and volatility exposures. They may be used as a substitute for physical securities or a less expensive or more liquid way of obtaining desired exposures.

#### (c) Investments

Under FRS 29 the Company is required to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The guidance establishes three levels of the fair value hierarchy as follows:

Level 1: Inputs that reflect unadjusted quoted prices in active markets for identical assets or liabilities that the Company has the ability to access at the measurement date;

Level 2: Inputs other than quoted prices from active markets that are observable for the asset or liability either directly or indirectly, including inputs from markets that are not considered to be active;

Level 3: Inputs that are unobservable and are significant to the valuation.

The Company uses the "market approach" valuation technique to value its investments. A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. However, the determination of what constitutes "observable" may require significant judgement but can generally be considered as that market data which is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market. The categorization of a financial instrument within the hierarchy is based upon the pricing transparency of the instrument and does not necessarily correspond to the risk of that instrument.

Investments typically classified within level 1 include active listed equities, exchange traded derivatives and certain Government bonds. Investments typically classified within level 2 include investments in corporate bonds, certain Government bonds, certain listed equities and over the counter derivatives. Investment funds are also considered level 2 investments if

there is evidence that redemptions occurred during the year and there were no restrictions preventing redemptions at the year end. As level 2 investments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or non-transferability. Such adjustments are generally based on available market information. Investments typically classified within level 3 include certain corporate bonds, private equities and investment funds that have suspended redemptions, created side pocket classes or imposed gates. Within level 3, the use of the market approach generally consists of using comparable market transactions.

## (d) Income from Investments

All dividends on investments are quoted ex dividend up to the balance sheet date. Bank and other interest receivable is accrued up to this date.

Bond interest income on investments in debt securities is recognised when earned using the effective interest method. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument to the net carrying amount of the financial asset or liability.

Cash inflows relating to interest payments on swaps are treated as swap income.

## (e) Foreign Currency Translation

### Functional currency and Presentation currency

The financial statements of the individual Funds are prepared in the functional currency of the respective Fund which is also the presentation currency. The functional currency of each Fund is listed on page 326. The functional currency of the Company is US dollar as this reflects the global exposure of the Funds, their shareholders and the markets in which the Funds are available. The aggregated balance sheet of the Company is prepared in the presentation currency of the Company, the US dollar. Amounts of the individual Funds in overseas currencies are translated for the purpose of the aggregation of this report using exchange rates as at 31 December 2014.

### Transactions and balances

Foreign currency transactions are translated into the functional currency of the individual Funds using the average exchange rates (as an approximation of actual).

### (f) Fees and expenses

Fees and expenses are accounted for on an accruals basis and are charged against income and used in determining the distribution.

### (g) Allocation of income

All the income of the Funds after deduction of expenses, will be allocated between holders of accumulation shares and holders of income shares in accordance with their respective interests.

## Notes to the Financial Statements

### (h) Equalisation

An equalisation account is maintained by each Fund so that the amount distributed is the same for all shares of the same type notwithstanding different dates of issue. A sum equal to that part of the price of a share which reflects the net income at the date of issue or redemption is booked to the equalisation account and added or deducted to/ from the first dividend or accumulation in the same accounting period as that in which the shares are issued or redeemed.

### (i) Redeemable participating shares

The issued redeemable participating share capital is at all times equal to the net asset value of the Company. Redeemable participating shares are redeemable at the shareholders option and are classified as financial liabilities. Redeemable shares can be put back to the Company at any time for cash equal to a proportionate share of the Company's net asset value. The redeemable share is carried at the redemption amount that is payable at the balance sheet date if the holder exercises the right to put the share back to the Company. Each Fund's NAV per share is calculated by dividing the "Net Asset Value" of each Fund being the value of its assets less its liabilities by the numbers of shares of each Fund then in issue.

### (j) Distributions

Dividend distributions to redeemable participating shareholders are classified as finance costs. Where both Income Shares and Accumulation Shares in a Fund are in issue, all income of a Fund after deduction of expenses will be allocated between holders of Accumulation Shares and holders of Income Shares in accordance with their respective interests.

### (k) Taxes

Liabilities relating to uncertain tax positions are accrued only when such liabilities are probable and can be estimated with reasonable accuracy.

### (l) Bank interest expenses

Bank interest expenses relate to a bank overdraft which is repayable on demand.

## 3. Securities lending

During the period ended from 30 June 2014 to 31 December 2014, the Company participated in securities lending with J.P. Morgan Chase Bank N.A. London. The Company and the Manager receive 90 per cent and 10 per cent respectively of the securities lending income earned.

The Company earned securities lending income of US\$71,993 (30 June 2014: US\$41,518) in respect of GAM Star Alpha Technology, US\$471,750 (30 June 2014: US\$294,640) in respect of GAM Star Technology and US\$10,713 (30 June 2014: US\$38,415) in respect of GAM Star Global Quality.

The Manager also received securities lending income of US\$7,999 (30 June 2014: US\$4,613) in respect of GAM Star Alpha Technology, US\$52,417 (30 June 2014: US\$32,738) in respect of GAM Star Technology and US\$1,190 (30 June 2014: US\$4,268) in respect of GAM Star Global Quality.

J.P. Morgan Chase Bank N.A. London earned securities lending income of US\$30,409 (30 June 2014: US\$14,967) in respect of GAM Star Alpha Technology, US\$198,173 (30 June 2014: US\$122,035) in respect of GAM Star Technology and US\$3,013 (30 June 2014: US\$10,723) in respect of GAM Star Global Quality.

## 3. Securities lending (continued)

As at 31 December 2014, the fair value of securities lent and collateral received by GAM Star Alpha Technology was US\$2,350,863 and US\$2,495,140 respectively. The fair value of securities lent and collateral received by GAM Star Global Quality was US\$3,244,371 and US\$3,471,895 respectively. The fair value of securities lent and collateral received by GAM Star Technology was US\$53,642,988 and US\$57,406,945 respectively. No other Fund had securities on loan at 31 December 2014.

As at 30 June 2014, the fair value of securities lent and collateral received by GAM Star Alpha Technology was US\$5,580,408 and US\$5,900,647 respectively. The fair value of securities lent and collateral received by GAM Star Global Quality was US\$5,627,677 and US\$5,964,266 respectively. The fair value of securities lent and collateral received by GAM Star Technology was US\$38,382,197 and US\$40,651,026 respectively. No other Fund had securities on loan at 30 June 2014.

The collateral noted above, consisted of sovereign bonds issued by the governments of the following countries: United States of America, Germany, France, Austria, Belgium, the Netherlands and the United Kingdom.

## 4. Taxation

Under current Irish law and practice, the Company qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997 (as amended). It is not chargeable to Irish tax on its income and gains. However, tax can arise on the happening of a "Chargeable Event" in the Company. A Chargeable Event includes any distribution payments to shareholders or any encashment, cancellation, redemption or transfer of Shares.

No Irish tax will arise on the Company in respect of Chargeable Events in respect of a shareholder who is not an Irish Resident and not Ordinarily Resident for tax purposes in Ireland at the time of the Chargeable Event provided that the appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act 1997, (as amended), are held by the Company; and certain exempted Irish resident investors who have provided the Company with the necessary signed statutory declarations. Following changes introduced by Finance Act 2010, investment undertakings will no longer be required to obtain relevant declarations from shareholders who are neither Irish Resident nor Ordinarily Resident in Ireland where the investment undertaking is not actively marketed to Irish investors and the Irish Revenue have given the investment undertaking the appropriate approval. With effect from 3 April 2010 a chargeable event will not arise if at the time of the chargeable event appropriate equivalent measures have been put in place by the Company to ensure that shareholders in the Company are neither Irish Resident nor Ordinarily Resident in Ireland and the Company has received approval from the Irish Revenue Commissioners to this effect and the approval has not been withdrawn.

Dividends, interest and capital gains (if any) which the Company receives with respect to its investments may be subject to taxes, including withholding taxes, in the countries in which the issuers of the investments are located and such taxes may not be recoverable by the Company or its shareholders.

## 5. Exchange rates

The rates of exchange used to translate assets and liabilities to US dollars at the period end are:

## 6. Soft commission arrangements

During the period, the Delegate Investment Managers of GAM Star Capital Appreciation US Equity, GAM Star Global Quality, Gam Star Global Selector, GAM Star North of South EM Equity, GAM Star US All Cap Equity and GAM Star Worldwide Equity entered into soft commission arrangements with third parties under which the third party provides each Delegate Investment Manager with research and research products which are used to assist in the provision of investment services to the relevant Fund.

The Co-Investment Manager in respect of GAM Star Alpha Technology, GAM Star Asia-Pacific Equity, GAM Star Continental European Equity, GAM Star Emerging Equity, GAM Star European Equity, GAM Star Japan Equity and GAM Star Technology entered into commission sharing arrangements with third parties under which the third party commissions are used to provide other third party research products to assist in the provision of investment services to the relevant Fund. No other Fund engaged in soft commission arrangements during the year.

## 7. Related Party Transactions

### 7.a Transactions with the Directors

Andrew Bates and David Dillon as partners in Dillon Eustace, legal advisers to the Company, may have an interest in the following transactions with Dillon Eustace for the period from 30 June 2014 to 31 December 2014:

- US\$114,284 (12 months to 30 June 2014: US\$187,459) paid to Dillon Eustace for legal fees.
- US\$36,294 (12 months to 30 June 2014: US\$35,180) paid to Dillon Eustace for the provision of Directors.

Burkhard Poschadel received a fee of US\$9,074 (12 months to 30 June 2014: US\$17,590).

Andrew Hanges and William Norris have waived their entitlement to Directors fees for the periods ended 31 December 2014 and 30 June 2014. William Norris is a director and Burkhard Poschadel is an Independent non-executive director of the Manager.

The above were entered into in the ordinary course of business and on normal commercial terms.

### 7.b Transactions with connected parties (for the purposes of UCITS 14.5) The Board of Directors are satisfied:

(i) that there are arrangements (evidenced by written procedures) in place to ensure that all transactions with connected parties (for the purposes of UCITS 14.5) are carried out as if negotiated at arm's length and in the best interest of shareholders and

(ii) that any transactions with related parties entered into during the year complied with the obligation of (i) above.

## Notes to the Financial Statements

### 14. Efficient Portfolio Management for Investment Purposes

Subject to the conditions and within the limits from time to time laid down by the Central Bank of Ireland, and except as otherwise stated in the investment objective and policies of a Fund, the Investment Managers and/or Co-Investment Manager(s) may employ, for certain Funds, investment techniques and instruments such as futures, options, forward foreign currency contracts and other derivatives for investment purposes or efficient portfolio management. Furthermore, new techniques and instruments may be developed which may be suitable for use by a Fund in the future, and a Fund may employ such techniques and instruments subject to the prior approval of, and any restrictions imposed by, the Central Bank of Ireland.

For UCITS which have engaged in efficient portfolio management techniques, new disclosures are required under UCITS Notice 8.4. The Investment Managers of the Funds have identified that all financial derivative instruments are transactions designed to deliver additional returns through Efficient Portfolio Management. A UCITS is required to disclose the revenues arising from efficient portfolio management techniques for the entire reporting period together with the direct and indirect operational costs and fees incurred.

Details of all open transactions at the period end are disclosed in the Portfolio of Investments.

### Stocklending transactions

Certain Funds may also utilise stocklending agreements for efficient portfolio management purposes as described above. In such transactions the Fund may temporarily transfer its securities to a borrower, with agreement by the borrower to return equivalent securities to the Fund at a pre-agreed time. Refer to note 3 for further information on securities lending.

### 15. Dividend distribution

The Directors have declared the following dividend Distribution per share for the period ended 31 December 2014:

	Dividend per share 31 July 2014	Dividend per share 31 August 2014	Dividend per share 30 September 2014	Dividend per share 31 October 2014	Dividend per share 30 November 2014	Dividend per share 31 December 2014

## **16. Adjustment from Bid Fair Value to Middle Market Prices**

To determine the net asset value of the Company for subscriptions and redemptions, investments are normally valued based on middle market prices as of 23:00 hours UK time in accordance with the Prospectus. Net assets attributable to shareholders represent a liability on the Balance Sheet and are therefore carried at the redemption amount (using middle market prices) that would be payable at the Balance Sheet date if the shareholders exercised their right to redeem shares in the Company. However as per note 2(b) the market prices used in these financial statements for financial reporting purposes are the bid prices for financial assets and the ask prices for financial liabilities.

The difference between the dealing middle market prices and the bid/ ask prices represent an adjustment to the carrying amount of the net assets attributable to shareholders and are recognised in the Profit and Loss Account. The cumulative differences are included as "Adjustments from bid fair value to middle market prices" on the Balance Sheet.

These adjustments are required for financial reporting purposes only and have no impact on the subscription and redemption prices that shareholders deal at.

## **17. Contingent liabilities**

The Directors are not aware of any Contingent liabilities.

## **18. Changes to the Prospectus**

On 12 December 2014, a new version of the Prospectus was approved by the Central Bank of Ireland which included the following new funds: GAM Star China A Equity and GAM Star India Equity.

## **19. Post Balance sheet events**

A proposal relating to the restructure of GAM Star Emerging Equity was approved by shareholders at an extraordinary general meeting held on 15 January 2015. As a result of the restructure, shareholders of GAM Star Emerging Equity will become shareholders of Julius Baer Multistock - Emerging Equity Fund, a sub-fund of Julius Baer Multistock, with effect from 25 February 2015.

GAM Star Fund p.l.c. is authorised as a UCITS pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 1989 and is subject to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) and is a recognised scheme under the Financial Services and Markets Act 2000.

This semi-annual report is issued by the Company and made available to the shareholders by the Manager, which is regulated by the Central Bank of Ireland in respect of its fund administration and management activities. The Manager does not conduct investment business in the UK nor does it intend doing so. As the Manager is not an authorised person for the purposes of the Financial Conduct Authority, the contents of this report have been approved for issue in the UK by GAM London Limited, 20 King Street, London SW1Y 6QY (authorised and regulated by the Financial Conduct Authority) for the provision of investment services.

This report is not an invitation to subscribe for shares in any Funds described herein and is by way of information only. Subscriptions

will only be received and shares issued on the basis of the current Prospectus for the Company. Shares in the Company are not available for sale in any jurisdiction in which such a sale would be prohibited. This document is not available for distribution in any jurisdiction where such distribution would be prohibited. Without limiting the generality of the preceding statement, in particular, shares in the Company are not available to US residents generally.

Investment involves risk. Please refer to the Prospectus for details of the risk factors, particularly those associated with investments in emerging markets and financial derivative instruments. Past performance is not a guide to future performance. The price of shares can go down as well as up and may be affected by changes in the rates of exchange. An investor may not get back the amount invested. No recommendation is made positive or otherwise regarding the individual securities mentioned in this document.

This document is intended solely for the use of the person to whom it is sent and may not be reproduced for any other person.
