The Autorité des marchés financiers (AMF) warns the public about the activities of Evolution Market Group Inc., a company apparently headquartered in the Republic of Panama.

Operating under the trade name Finanzas Forex, the company uses the Internet to contact investors residing in France, in particular. It offers purportedly safe, profitable and long-lived investments that supposedly generate monthly returns of between 10% and 20%, depending on the type of plan. The company also offers clients the possibility of earning commissions on investments made by people whom they sponsor.

The AMF points out that Evolution Market Group Inc. - Finanzas Forex has not been authorised to conduct direct marketing activities or operate as an investment services provider in France. Furthermore, a warning about the company has been issued by the AMF's Spanish counterpart, Comisión Nacional del Mercado de Valores.

Potential investors who may be contacted by Evolution Market Group Inc. - Finanzas Forex are therefore advised to exercise utmost caution. More generally, the AMF advises the public to carefully examine Internet-based offers of high-yielding investments on the foreign exchange markets.
