#### Legal notice

The software used performs calculations on the basis of more than the two decimal places displayed. Minor discrepancies cannot be ruled out due to further calculations using published results.

The value of a unit is calculated by dividing the entire value of the investment fund inclusive of its income by the number of units. The total value of the investment fund is calculated on the basis of the current market prices of the securities, money market instruments and subscription rights in the fund plus the value of the fund's financial investments, cash holdings, credit balances, receivables and other rights net of its payables. That value will be calculated by the custodian bank.

The net assets are calculated in accordance with the following principles:

- a) The value of assets quoted or traded on a stock exchange or other regulated market shall be determined, in principle, on the basis of the most recently available price.
- b) Where an asset is not quoted or traded on a stock market or another regulated market or where the price for an asset quoted or traded on a stock market or another regulated market does not appropriately reflect its actual market value, the prices provided by reliable data providers or, alternatively, market prices for equivalent securities or other recognized market valuation methods shall be used.

#### Dear unitholder,

Raiffeisen Kapitalanlage-Gesellschaft m.b.H. is pleased to present its annual fund report for Raiffeisen Global Bonds for the financial year from 1 February 2015 to 31 January 2016.

Distribution on 4/5/2015 (net asset value: EUR 55.30) of EUR 0.11, corresponds to 0.001989 units	
Distribution on 1/6/2015 (net asset value: EUR 55.49) of EUR 0.11, corresponds to 0.001982 units	
Distribution on 1/7/2015 (net asset value: EUR 54.05) of EUR 0.11, corresponds to 0.002035 units	
Distribution on 3/8/2015 (net asset value: EUR 54.62) of EUR 0.11, corresponds to 0.002014 units	
Distribution on 1/9/2015 (net asset value: EUR 53.63) of EUR 0.11, corresponds to 0.002051 units	
Distribution on 1/10/2015 (net asset value: EUR 53.82) of EUR 0.11, corresponds to 0.002044 units	
Distribution on 2/11/2015 (net asset value: EUR 54.35) of EUR 0.11, corresponds to 0.002024 units	
Distribution on 1/12/2015 (net asset value: EUR 55.71) of EUR 0.11, corresponds to 0.001975 units	
Distribution on 4/1/2016 (net asset value: EUR 54.24) of EUR 0.11, corresponds to 0.002028 units	
Net asset value per unit at end of financial year in EUR	54.54
Total value incl. units purchased through distribution (1.001603 x 1.001611 x 1.002107 x 1.001989 x 1.001982 x	
1.002035 x 1.002014 x 1.002051 x 1.002044 x 1.002024 x 1.001975 x 1.002028 x 54.54)	55.83
Net income/net reduction per unit	- 0.06
Performance of one unit during the financial year as %	- 0.10
Distributing units (I) (AT0000A1G2K2)	
Net asset value per unit at launch of tranche (1/10/2015) in EUR	101.94
Net asset value per unit at end of financial year in EUR	104.64
Net income/net reduction per unit	2.70
Performance of one unit from launch of tranche (1/10/2015) up to the end of the financial year in $\%$	2.65

Net asset value per unit at start of financial year in EUR	89.49
Outpayment on 1/4/2015 (net asset value: EUR 91.89) of EUR 0.5892, corresponds to 0.006412 units	
Net asset value per unit at end of financial year in EUR	89.53
Total value incl. units purchased through outpayment (1.006412 x 89.53)	90.10
Net income/net reduction per unit	0.61
Performance of one unit during the financial year as %	0.69
Fully reinvested units (R) (AT0000785340)	
Net asset value per unit at start of financial year in EUR	102.19
Net asset value per unit at end of financial year in EUR	102.89
Net income/net reduction per unit	0.70
Performance of one unit during the financial year as %	0.68
Fully reinvested units (I) (AT0000A0MRE1)	
Net asset value per unit at start of financial year in EUR	103.55
Net asset value per unit at end of financial year in EUR	104.64
Net income/net reduction per unit	1.09

The performance is calculated assuming wholesale reinvestment of distributed/paid-out amounts at their net asset value on the distribution/payment date.

The custodian bank calculates the unit value separately for each unit certificate class. Discrepancies may arise in the annual performance figures for individual unit certificate classes.

Raiffeisen KAG uses the method developed by OeKB (Österreichische Kontrollbank AG) to calculate the fund's performance, on the basis of data provided by the custodian bank (where payment of the redemption price is suspended, using indicative values). Some costs – the subscription fee (not exceeding 3.00 % of the invested amount) and any redemption fee (not exceeding 0.00 % of the sold amount) – are not included in the performance calculation. Depending on their concrete value, they will reduce a performance accordingly. Past results do not permit any reliable inferences as to the future performance of the fund.

The result for the past accounting year includes explicitly reported transaction costs in the amount of EUR 143,443.63.

# Capital market report

In the first few weeks of 2016, stock prices plunged the world over. In 2015 most developed stock markets registered gains to a greater or lesser extent. Japan and Europe were among the best markets with growth levels of approx. 10 %. However, European small caps (companies with a market capitalization of less than 5 billion euros) realized gains which were roughly twice as strong. On the other hand, almost all of the emerging markets' stock exchanges suffered losses, particularly those in Asia and Latin America. The picture for bonds was likewise mixed. Despite significant temporary fluctuations, government bonds generally achieved slight gains while corporate bonds weakened somewhat. They came under strong pressure in the final quarter of the year especially, above all in the USA and here high-yield bonds particularly. The bonds and currencies of many emerging markets registered clear losses. However, as in the previous year commodities suffered the strongest losses in value; in many cases, prices slumped to several-year lows. Four issues (which are naturally interdependent) dominated on the markets over the past few months: (1) the future

monetary policy of the US central bank (the Fed), (2) the global economic trend, particularly in relation to China and the USA, (3) the huge decline in the prices of crude oil and other commodities and (4) the exchange rate trend for the US dollar and the Chinese yuan. All four of these issues are likely to strongly influence the global supply of liquidity as well as corporate profits – and thus also the determination of prices on stock, bond and commodities markets.

In all likelihood, the global economy will remain sluggish over the next few quarters. In Europe and the USA, further comparatively weak but nonetheless clearly positive growth is likely. On the other hand, at the present time it is the emerging markets which probably face the largest economic risks. Some countries are strongly benefiting from the low commodities prices, while others are suffering hugely. However, almost all emerging markets need to cut back on the excessive credit growth of the past decade, which is curbing economic activity to a greater or lesser degree.

In mid-December 2015 the Fed raised its key interest rates slightly for the first time in over nine years. However, a huge rise in yields on a broad front in the USA is unlikely. On the contrary, US government bond yields have suffered strong falls over the past few weeks. At the same time, they still significantly exceed those of Japan and the EU. Moreover, the impending devaluation of the Chinese yuan and the strong declines in commodity prices may entail further deflationary potential for the world economy and thus additionally limit the Fed's scope for interest rate rises. In order to counteract deflationary trends, around one year ago the European Central Bank (ECB) launched huge bond-purchasing activities and moved key interest rates in the Eurozone into negative territory. From an economic point of view, this has yielded hardly any success to date. It has mainly weakened the euro's exchange rate while buoying the European financial markets at least temporarily. The ECB may nonetheless be expected to stick with its current strategy. For the time being, it is thus more likely to strengthen the dose than to call into question the "medicine" itself. This means that monetary policy in the Eurozone will probably remain expansionary for a long time to come – there is currently no sign of any significant yield rises.

The yield level is now extremely low almost everywhere. Around 30 % of all government bonds are now providing negative yields. In these cases, the creditor actually pays the debtor for the "right" to lend it money. While this is quite absurd from an economic point of view, it is increasingly considered "normal". In view of continuing low bond yields in the key economic blocs, for these countries' stock markets this "new normality" means inter alia that they are likely less "expensive" than suggested by the valuation models of previous decades. However, corporate profits, on the other hand, are expected to provide only limited support for the stock markets over the next 1-2 years – this is particularly true of the USA and some emerging markets. The financial market environment will certainly remain challenging and should continue to entail stronger price fluctuations over the next few months.

## Fund investment policy report

Raiffeisen Global Bonds comprises a broad and highly diversified global bond portfolio. The fund's strategic orientation encompasses investments in various currency areas and, within these currency areas, investments in a broad range of securities. Its holdings mainly comprise government bonds and also, to a lesser extent, "non-government bonds"/corporate bonds. In line with the fund's global character, Raiffeisen Global Bonds includes bonds from the developed markets as well as emerging markets bonds. In line with this diversification objective, securities are not normally hedged in terms of their currency risk or are only hedged on tactical grounds. The fund also holds emerging markets hold-ings, with the broadest possible level of diversification.

In early October 2015 the fund made some slight changes to its strategic currency exposure. It slightly reduced its holdings in emerging markets and Eastern Europe, but increased its holdings in the Japanese yen in particular. The fund's largest securities currency in pro rata terms is thus the US dollar (approx. 40 % of the fund's volume), followed by the euro (approx. 25 %), the Japanese yen (12 %) and the British pound (around 8 %). Eastern European currencies and emerging markets currencies account for a strategic position in the fund of 3 % and 4 % respectively. The fund's bonds in these various currencies largely consist of government bonds, but to a lesser extent also include corporate bonds. Where necessary or on the basis of its risk/return assessment, the fund deviates from the above figures on tactical grounds or due to varying risk/return expectations for different markets or asset classes. The fund's level of interest-rate sensitivity remained fairly low in historical terms.

Securities lending transactions were entered into in order to generate additional income.

2. Identity of the counterparties for securities lending transactions:

Raiffeisen Bank International AG (as a recognized securities lending system within the meaning of § 84 InvFG)

3. Nature and value of eligible collateral received by the investment fund versus the counterparty risk:

Under the securities lending agreement concluded between the management company and Raiffeisen Bank International AG, Raiffeisen Bank International AG is obliged to deliver collateral for the borrowed securities. Sight deposits (which are not used to purchase further assets and are thus held as deposits with the custodian bank), bonds, equities, convertible bonds and units in investment funds are permitted as collateral. Sight deposits do not undergo any valuation markdown, and the value of the collateral thus amounts to 100 % of the value of the lent securities. Other collateral (bonds, equities, convertible bonds and units in investment funds) will be valued daily on the basis of a value-at-risk calculation. The maximum foreseeable loss for this other collateral is calculated over a period of three business days, with a probability of 99 % (confidence interval). The value determined plus a markup of 10 % represents the applicable valuation markdown. This valuation markdown will amount to at least 5 % of the value of this other collateral. Recognition of this haircut will entail delivery of the required volume of additional collateral.

At the end of the financial year, the collateral had the following makeup:

Sight deposits: 0.00 % Bonds: 59.32 % Equities: 40.68 % Units in investment funds: 0.00 %

4. Fees, direct and indirect operating costs and income of the investment fund resulting from securities lending transactions during the accounting period:

Income: EUR 74,141.14 Costs: N/A

#### Further information on repurchase agreements

The fund did not enter into any repurchase agreements during the period under review.

#### Total return swaps and similar derivative instruments

A total return swap is a credit derivative instrument. Income and fluctuations in the value of the underlying financial instrument (underlying instrument or reference asset) are exchanged for fixed interest payments.

The fund did not enter into total return swaps or similar derivative instruments in the period under review.

### Calculation method for overall risk

Calculation method for overall risk:	Simplified approach	
Calculation method for overall fisk.		

# Remuneration paid to the employees of Raiffeisen Kapitalanlage-Gesellschaft m.b.H. in EUR (financial year 2014 of Raiffeisen Kapitalanlage-Gesellschaft m.b.H.)

Number of employees	incl. waiting allowances: 264 / excl. waiting allowances: 252
Fixed remuneration	21,650,363
Variable remuneration (bonuses)	66,063
Total remuneration for employees	21,716,426
Number of risk-bearers	62
Remuneration for managers	3,438,075
Remuneration for other risk-bearers	3,653,530
Total remuneration for risk-bearers	7,091,605

- The remuneration principles of Raiffeisen Kapitalanlage-Gesellschaft m.b.H. support the business strategy and the long-term goals, interests and values of the company and of the investment funds managed by Raiffeisen Kapitalan-lage-Gesellschaft m.b.H.
- The remuneration principles of Raiffeisen Kapitalanlage-Gesellschaft m.b.H. include measures to avoid conflicts of interest.
- The remuneration principles and policies of Raiffeisen Kapitalanlage-Gesellschaft m.b.H. are consistent with and promote sound and effective risk-taking practices and avoid incentives for any inappropriate risk-taking propensity which exceed the level of risk tolerated by Raiffeisen Kapitalanlage-Gesellschaft m.b.H. or the investment funds under its management.
- The total amount of variable remuneration will not limit the capacity of Raiffeisen Kapitalanlage-Gesellschaft m.b.H. to strengthen its capital base.
- Variable remuneration is not paid by means of instruments or methods which facilitate circumvention of applicable legal requirements.
- Employees in positions of control are rewarded irrespective of the business unit which they supervise, they have an appropriate level of authority and their remuneration is determined on the basis of the fulfillment of their organizational targets in connection with their functions, irrespective of the results of the business activities under their supervision.

- Guaranteed variable remuneration is not consistent with sound risk management or the "pay-for-performance" prin-• ciple and should not be included in future remuneration plans. Guaranteed variable remuneration is the exception:, This is only provided in connection with new hirings and only where Raiffeisen Kapitalanlage-Gesellschaft m.b.H. has a sound and strong capital base. It is limited to the first year of employment.
- Any payments relating to the premature termination of a contract must reflect the performance realized over the rele-• vant period of time and must not reward failures or misconduct.

Raiffeisen Kapitalanlage-Gesellschaft m.b.H. complies with the code of conduct for the Austrian investment fund industry 2012.

Vienna, 19 May 2016 Raiffeisen Kapitalanlage-Gesellschaft m.b.H.

Mag. (FH) Dieter Aigner

Mag. Rainer Sohnabl

# Audit opinion

#### Report on the annual fund report

We have audited the annual fund report as of 31 January 2016 issued by Raiffeisen Kapitalanlage-Gesellschaft m.b.H., Vienna, for its fund Raiffeisen Global Bonds for the financial year from 1 February 2015 to 31 January 2016.

#### Responsibility of the company's statutory representatives for the annual fund report

The company's statutory representatives are responsible for the preparation of this annual fund report and for ensuring that it provides an appropriate overall picture in compliance with Austrian commercial law, the provisions of the Austrian Investment Fund Act and the internal checks which the company's statutory representatives deem necessary in order to enable the preparation of an annual fund report which is free from material intentional or unintentional misstatements.

#### Responsibility of the bank auditor

Our task is to present an opinion regarding this annual fund report on the basis of our audit.

We performed our audit in accordance with § 49 para. 5 of the Austrian Investment Fund Act in accordance with Austrian principles of proper balance sheet auditing. These principles require application of the International Standards on Auditing (ISA). In accordance with these principles, we are required to comply with the code of conduct for our profession and to plan and execute our audit so as to obtain a sufficient degree of certainty as to whether the annual fund report is free from material misstatements.

An audit includes the performance of audit activities in order to obtain documentation concerning the valuations and other information provided in the annual fund report. The audit activities are chosen at the discretion of the bank auditor. This includes an assessment of the risks of material intentional or unintentional misstatements in the annual fund report. In assessing these risks, the bank auditor considers the company's internal control system which is relevant for its preparation of the annual fund report and for ensuring that this annual fund report provides an appropriate overall picture, so as to plan audit activities which are adequate in the given circumstances, but not with the objective of providing an audit opinion regarding the effectiveness of the company's internal control system. An audit also includes an assessment of the appropriateness of the accounting principles applied and the reasonableness of the estimates made by the company's statutory representatives in this accounting as well as an assessment of the overall picture provided by the annual fund report.

In our opinion we have obtained sufficient and suitable documentation as a basis for our audit opinion.

#### Audit outcome

Our audit has not met with any objections. In our view the annual fund report as of 31 January 2016 for Raiffeisen Global Bonds complies with the statutory regulations.

#### Report on activities performed during the past financial year

We have undertaken a critical assessment of the disclosures provided by the management company's management in the annual fund report on its activities in the past financial year, but these were not subject to special audit activities in accordance with the above principles. Accordingly, our audit opinion does not include an evaluation of this information. In the context of the overall picture set out in this annual fund report, these disclosures are consistent with the information provided in the rest of the report.

Vienna, 19 May 2016

KPMG Austria GmbH Wirtschaftsprüfungs- und Steuerberatungsgesellschaft

Wilhelm Kovsca Auditor

# Tax treatment

Please see our website www.rcm.at for detailed information on the fund's tax treatment, prepared on the basis of the audited annual fund report.

## **Fund regulations**

# Fund regulations pursuant to the Austrian Investment Fund Act 2011

The Austrian Financial Market Authority (FMA) has approved the fund regulations for the investment fund **Raiffeisen Global Bonds**, a jointly owned fund pursuant to the Austrian Investment Fund Act (InvFG) 2011, as amended.

The investment fund is a fund complying with the Directive 85/611/EC and is managed by Raiffeisen Kapitalanlage-Gesellschaft m.b.H. (hereinafter: the "management company") which is headquartered in Vienna.

#### Article 1 Fund units

The fund units are embodied in unit certificates with the character of financial instruments which are issued to bearer.

The unit certificates shall be represented by global certificates for each unit class and – at the discretion of the management company – by actual securities.

#### Article 2 Custodian bank (custodian)

Raiffeisen Bank International AG, Vienna, is the investment fund's custodian bank (custodian).

The custodian bank (custodian), the regional Raiffeisen banks, Kathrein Privatbank Aktiengesellschaft, Vienna, and other payment offices referred to in the prospectus are the payment offices for unit certificates and the handover offices for income coupons (actual securities).

#### Article 3 Investment instruments and principles

The following assets pursuant to InvFG may be selected for the investment fund.

The investment fund mainly invests in bonds issued by North American, European or Asian issuers (i.e. more than 51 per cent of its fund assets are invested in the form of directly purchased individual securities which are not held directly or indirectly through investment funds or derivatives).

The following investment instruments are purchased for the fund assets, while complying with the investment focus outlined above.

#### Securities

The fund may purchase securities (including securities with embedded derivative instruments) as permitted by law.

#### Money market instruments

Money market instruments may comprise up to 49 per cent of the fund assets.

#### Securities and money market instruments

Securities or money market instruments issued or guaranteed by the United States of America, Japan, Germany, France or the United Kingdom of Great Britain and Northern Ireland **may exceed 35 per cent** of the fund assets if the fund assets are invested in at least six different issues, with an investment in any single issue not exceeding **30 per cent** of the fund assets.

Not fully paid-in securities or money market instruments and subscription rights for such instruments or other not fully paid-in financial instruments may only be purchased for up to **10 per cent** of the fund assets.

Securities and money market instruments may be purchased if they comply with the criteria concerning listing and trading on a regulated market or a securities exchange pursuant to InvFG.

Securities and money market instruments which do not fulfill the criteria laid down in the above paragraph may be purchased for up to 10 per cent of the fund assets in total.

#### Units in investment funds

Units in investment funds (UCITS, UCI) may each amount to up to 10 per cent of the fund assets – and up to 10 per cent of the fund assets in total – insofar as these UCITS or UCI do not for their part invest more than 10 per cent of their fund assets in units in other investment funds.

#### **Derivative instruments**

Derivative instruments may be used as part of the fund's investment strategy for **up to 49 per cent** of the fund assets (calculated on the basis of market prices) and for hedging purposes.

#### Investment fund's risk measurement method

The investment fund applies the following risk measurement method:

#### Commitment approach

The commitment figure is calculated pursuant to the 3<sup>rd</sup> chapter of the 4<sup>th</sup> Austrian Derivatives Risk Calculation and Reporting Ordinance (*Derivate-Risikoberechnungs- und Meldeverordnung*), as amended.

The overall risk for derivative instruments which are not held for hedging purposes is limited to **75 per cent** of the overall net value of the fund assets.

Please refer to the prospectus for details and comments.

#### Sight deposits or deposits at notice

Sight deposits and deposits at notice with notice periods not exceeding 12 months may amount to **up to 25 per cent** of the fund assets. No minimum bank balance is required.

Within the framework of restructuring of the fund portfolio and/or a justified assumption of impending losses for securities, the investment fund may hold a lower proportion of securities and a higher proportion of sight deposits or deposits at notice with notice periods not exceeding 12 months.

#### Short-term loans

The management company may take up short-term loans of up to 10 per cent of the fund assets for account of the investment fund.

#### Repos

Repurchase agreements may comprise up to 100 per cent of the fund assets.

#### Securities lending

Securities lending transactions may comprise up to 30 per cent of the fund assets.

Investment instruments may only be acquired uniformly for the entire investment fund, not for an individual unit class or for a group of unit classes.

However, this does not apply for currency hedge transactions. These transactions may only be entered into in relation to a single unit class. Expenses and income resulting from a currency hedge transaction shall exclusively be allocated to the relevant unit class.

Please refer to the prospectus for further details concerning Article 3.

#### Article 4 Issuance and redemption modalities

The unit value shall be calculated in EUR or the currency of the unit class. Please refer to the prospectus for further details.

The value of units will be calculated on each day of stock market trading.

#### Issuance and subscription fee

Units will be issued on any banking day.

The issue price is the unit value plus a fee per unit of up to 3 per cent to cover the management company's issuing costs.

Unit issuance shall not in principle be subject to limitation; however, the management company reserves the right temporarily or entirely to discontinue its issuance of unit certificates.

The management company shall be entitled to introduce a graduated subscription fee. Please refer to the prospectus for further details.

#### Redemption and redemption fee

Units will be redeemed on any banking day.

The redemption price is based on the value of a unit. No redemption fee will be charged.

At the request of a unit holder, its unit shall be redeemed out of the investment fund at the applicable redemption price, against surrender of the unit certificate, those income coupons which are not yet due and the renewal certificate.

#### Article 5 Accounting year

The investment fund's accounting year runs from February 1 to January 31.

#### Article 6 Unit classes and appropriation of income

Income-distributing unit certificates, income-retaining unit certificates with capital gains tax deducted and income-retaining unit certificates without capital gains tax deducted may be issued for the investment fund.

Various classes of unit certificates may be issued for this investment fund. The management company may decide to establish unit classes or to issue units in a given unit class. Please refer to the prospectus for further details.

#### Appropriation of income for income-distributing unit certificates (income distribution)

Once costs have been covered, the income received during the past accounting year (interest and dividends) may be distributed at the discretion of the management company. Distribution may be waived subject to due consideration of the unit holders' interests. The distribution of income from the sale of assets of the investment fund including subscription rights shall likewise be at the discretion of the management company. A distribution from the fund assets and interim distributions are also permissible.

The fund assets may not through distributions fall below the minimum volume for a termination which is stipulated by law.

From April 1 of the following accounting year the amounts are to be distributed to the holders of income-distributing unit certificates. Any remaining balances shall be carried forward to a new account.

In any case, from April 1 an amount calculated pursuant to InvFG shall be paid out, to be used where applicable to meet any capital gains tax commitments on the distribution-equivalent return on those unit certificates, unless the management company ensures through appropriate proof from the custodians that at the time of payout the unit certificates may only be held by unitholders who are either not subject to Austrian income or corporate income tax or who fulfill the requirements for an exemption pursuant to § 94 of the Austrian Income Tax Act or for a capital gains tax exemption.

Unit holders' entitlement to the distribution of income shares shall become time-barred after five years. After this period, such income shares shall be treated as income of the investment fund.

# Appropriation of income in case of income-retaining unit certificates with capital gains tax deducted (income retention)

Income during the accounting year net of costs shall not be distributed. In case of income-retaining unit certificates, from April 1 an amount calculated pursuant to InvFG shall be paid out, to be used where applicable to meet any capital gains tax commitments on the distribution-equivalent return on those unit certificates, unless the management company ensures through appropriate proof from the custodians that at the time of payout the unit certificates are only held by unit holders who are either not subject to Austrian income or corporate income tax or who fulfill the requirements for an exemption pursuant to § 94 of the Austrian Income Tax Act or for a capital gains tax exemption.

# Appropriation of income in case of income-retaining unit certificates without capital gains tax deducted (full income retention – domestic and foreign tranches)

Income during the accounting year net of costs shall not be distributed. No payment pursuant to InvFG will be made. April 1 of the following accounting year shall be the key date pursuant to InvFG in case of failure to pay capital gains tax on the annual income.

The management company shall ensure through appropriate proof from the custodians that at the time of payout the unit certificates may only be held by unit holders who are either not subject to Austrian income or corporate income tax or who fulfill the requirements for exemption as per § 94 of the Austrian Income Tax Act or for an exemption from capital gains tax.

If these preconditions have not been met as of the outpayment date, the amount calculated pursuant to InvFG shall be paid out by the custodian bank in the form of credit.

# Appropriation of income in case of income-retaining unit certificates without capital gains tax deducted (full income retention – foreign tranche)

Income-retaining unit certificates without deducted capital gains tax shall only be sold outside Austria.

Income during the accounting year net of costs shall not be distributed. No payment pursuant to InvFG will be made.

The management company shall ensure through appropriate proof that at the time of payout the unit certificates may only be held by unit holders who are either not subject to Austrian income or corporate income tax or who fulfill the requirements for exemption pursuant to § 94 of the Austrian Income Tax Act or for an exemption from capital gains tax.

#### Article 7 Management fee, reimbursement of expenses, liquidation fee

The management company shall receive for its management activity an annual remuneration of up to **1.50 per cent** of the fund assets, calculated on the basis of the values at the end of each month.

The management company is entitled to reimbursement of all expenses associated with its management of the fund.

The management company shall be entitled to introduce a graduated management fee.

The costs arising at the introduction of new unit classes for existing asset portfolios shall be deducted from the unit prices of the new unit classes.

At the liquidation of the investment fund, the custodian bank shall receive remuneration amounting to 0.5 per cent of the fund assets.

Please refer to the prospectus for further details.

#### Appendix

#### List of stock exchanges with official trading and organized markets

#### 1. Stock exchanges with official trading and organized markets in the member states of the EEA

According to Article 16 of Directive 93/22/EEC (investment services in the securities field), each member state is obliged to maintain an up-todate directory of its licensed markets. This directory is to be made available to the other member states and to the Commission. According to this provision, the Commission is obliged to publish once a year a directory of the regulated markets of which it has received notice.

Due to decreasing restrictions and to trading segment specialization, the directory of "regulated markets" is undergoing great changes. In addition to the annual publication of a directory in the official gazette of the European Communities, the Commission will therefore provide an updated version on its official internet site.

#### 1.1. The current directory of regulated markets is available at:

http://mifiddatabase.esma.europa.eu/Index.aspx?sectionlinks\_id=23&language=0&pageName=REGULATED\_MARKETS\_Display&subsection\_ id=01

#### 1.2. The following stock exchanges are to be included in the directory of Regulated Markets:

1.2.1. Luxembourg Euro MTF Luxembourg

#### 1.3. Recognized markets in the EU pursuant to § 67 (2) item 2 InvFG:

Markets in the EEA classified as recognized markets by the relevant supervisory authorities.

#### 2. Stock exchanges in European states which are not members of the EEA

2.1.	Bosnia & Herzegovina:	Sarajevo, Banja Luka
2.2.	Croatia:	Zagreb Stock Exchange
2.3.	Montenegro:	Podgorica
2.4.	Russia:	Moscow (RTS Stock Exchange), Moscow Interbank Currency Exchange (MICEX)
2.5.	Switzerland:	SWX Swiss-Exchange
2.6.	Serbia:	Belgrade
2.7.	Turkey:	Istanbul (for stock market, "National Market" only)

#### 3. Stock exchanges in non-European states

3.1.	Australia:	Sydney, Hobart, Melbourne, Perth
3.2.	Argentina:	Buenos Aires
