The distribution of this Prospectus and the offering of Shares in certain jurisdictions may be restricted and accordingly persons into whose possession this Prospectus may come are required by the Fund to inform themselves of and to observe any such restrictions.

This Prospectus does not constitute an offer or solicitation to any person in any jurisdiction in which such offer or solicitation is not authorised or to any person to whom it would be unlawful to make such offer or solicitation.

service providers are in compliance with the Articles, this Prospectus and the agreements entered into with the relevant third party service providers, as well as the 2010 Law. When delegating a duty or a function, the Management Company shall ensure that nothing in the related agreement shall prevent it from giving at any time further instructions to the party to whom such duty or function has been delegated or from withdrawing the relevant mandate with immediate effect when this is in the interests of the Shareholders.

- 3.10 The Management Company shall be careful, and diligent in the selection, and monitoring of the third parties to whom functions and duties may be delegated, and ensure that the relevant third parties have sufficient experience, and knowledge, as well as the necessary authorisation required to carry out the functions delegated to such third parties.
- 3.11 The following functions have been delegated by the Management Company to third parties:
 - (a) investment management of the Compartments; and
 - (b) marketing and distribution,as further set out in this Prospectus
- 3.12 The Management Company has established and applies a remuneration policy and practices that are consistent with, and promote, sound and effective risk management and that neither encourage risk taking which is inconsistent with the risk profiles, rules, this Prospectus or the Articles nor impair compliance with the Management Company's obligation to act in the best interest of the Fund (the "Remuneration Policy").
- 3.13 The Remuneration Policy includes fixed and variable components of salaries and applies to those categories of staff, including senior management, risk takers, control functions and any employee receiving total remuneration that falls within the remuneration bracket of senior management and risk takers whose professional activities have a material impact on the risk profiles of the Management Company, the Fund or the Compartments.
- 3.14 The Remuneration Policy is in line with the business strategy, objectives, values and interests of the Management Company, the Fund and the Shareholders and includes measures to avoid conflicts of interest.
- 3.15 In particular, the Remuneration Policy will ensure that:
 - (a) the staff engaged in control functions are compensated in accordance with the achievement of the objectives linked to their functions, independently of the performance of the business areas that they control;
 - (b) the assessment of performance is set in a multi-year framework appropriate to the holding period recommended to the investors of the Fund in order to ensure that the assessment process is based on the longer-term performance of the Fund and its investment risks and that the actual payment of performance-based components of remuneration is spread over the same period;
 - (c) the fixed and variable components of total remuneration are appropriately balanced and the fixed component represents a sufficiently high proportion of the total

remuneration to allow the operation of a fully flexible policy on variable remuneration components, including the possibility to pay no variable remuneration component;

- (d) the measurement of performance used to calculate variable remuneration components or pools of variable remuneration components includes a comprehensive adjustment mechanism to integrate all relevant types of current and future risks;
- (e) if at any point of time, the management of the Fund were to account for 50 % or more of the total portfolio managed by the Management Company, at least 50 %, of any variable remuneration component will have to consist of Shares, equivalent ownership interests, or share-linked instruments or equivalent non-cash instruments with equally effective incentives as any of the instruments referred to in this item (e); and
- (f) a substantial portion, and in any event at least 40 %, of the variable remuneration component, is deferred over a period which is appropriate in view of the holding period recommended to the Shareholders and is correctly aligned with the nature of the risks of the Fund.

3.16 Details of the Remuneration Policy, including the persons in charge of determining the fixed and variable remunerations of the staff, a description of the key remuneration elements and an overview of how remuneration is determined, is available on the website www.group.pictet/fps.

3.17 A paper copy of the summarised Remuneration Policy is available free of charge to the Shareholders upon request.

3.18 The Management Company Services Agreement has been entered into for an undetermined period of time, and may be terminated, in particular, by either party upon serving to the other a written notice at least 3 (three) months prior to the termination.

Depository

3.19 Under the terms of the depositary agreement signed on 28 April 2016 (the “Depositary Agreement”), Pictet & Cie (Europe) S.A. has been appointed for an indefinite period as depositary of the Fund (the “Depositary”). The Depositary Agreement may be terminated by either signatory party by 90 days' notice.

3.20 The Depositary was incorporated as a société anonyme (public limited liability company) under Luxembourg law on 3rd November 1989 for an indefinite period. Its fully paid-up capital, as at the date of this Prospectus, amounts to CHF70,000,000.

3.21 The Depositary will assume its functions and responsibilities in accordance with applicable Luxembourg law and regulations and the Depositary Agreement. With respect to its duties under the 2010 Law, the Depositary will ensure the safekeeping of the Fund's assets. The Depositary has also to ensure that the Fund's cash flows are properly monitored in accordance with the 2010 Law.

3.22 In addition, the Depositary will:

- (a) ensure that the sale, issue, repurchase, redemption and cancellation of the Shares are carried out in accordance with Luxembourg law and the Articles;

- (b) ensure that the value of the Shares is calculated in accordance with Luxembourg law and the Articles;
 - (c) carry out the instructions of the Fund and the Management Company, unless they conflict with Luxembourg law or the Articles;
 - (d) ensure that in transactions involving the Fund's assets any consideration is remitted to the Fund within the usual time limits;
 - (e) ensure that the Fund's incomes are applied in accordance with Luxembourg law and the Articles.
- 3.23 The Depositary may delegate its safekeeping duties with respect to the Fund's financial instruments held in custody or any other assets (except for the cash) in accordance with the UCITS Directive, the UCITS-CDR and applicable law.
- 3.24 An up-to-date list of the delegates (and sub-delegates) of the Depositary is available on the website http://www.pictet.com/corporate/fr/home/asset_services/custody_services.html.
- 3.25 The Depositary will be liable to the Fund or to the Shareholders for the loss of the Fund's financial instruments held in custody by the Depositary or its delegates to which it has delegated its custody functions. A loss of a financial instrument held in custody by the Depositary or its delegate will be deemed to have taken place when the conditions of article 18 of the UCITS-CDR are met. The liability of the Depositary for losses other than the loss of the Fund's financial instruments held in custody will be incurred pursuant to the provisions of the Depositary Agreement.
- 3.26 In case of loss of the Fund's financial instruments held in custody by the Depositary or any of its delegates, the Depositary will return financials instruments of identical type or the corresponding amount to the Fund without undue delay. However, the Depositary's liability will not be triggered if the Depositary can prove that the conditions of article 19 of the UCITS-CDR are fulfilled.
- 3.27 In carrying out its functions, the Depositary will act honestly, fairly, professionally, independently and solely in the interest of the Fund and the Shareholders.
- 3.28 Potential conflicts of interest may nevertheless arise from time to time from the provision by the Depositary and/or its affiliates of other services to the Fund, the Management Company and/or other parties. For example, the Depositary and/or its affiliates may act as the custodian and/or administrator of other funds. It is therefore possible that the Depositary (or any of its affiliates) may in the course of its business have conflicts or potential conflicts of interest with those of the Fund and/or other funds for which the Depositary (or any of its affiliates) acts.
- 3.29 Where a conflict or potential conflict of interest arises, the Depositary will have regard to its obligations to the Fund and will treat the Fund and the other funds for which it acts fairly and such that, so far as is practicable, any transactions are effected on terms which are not materially less favourable to the Fund than if the conflict or potential conflict had not existed. Such potential conflicts of interest are identified, managed and monitored in various other ways including, without limitation, the hierarchical and functional separation of the Depositary's

custodian functions from its other potentially conflicting tasks and by the Depositary adhering to its own conflicts of interest policy.

- 3.30 Details of the conflict of interest policy of the Depositary are available on the website www.pictet.com. A paper copy of the summarised conflict of interest policy of the Depositary is available free of charge to the Shareholders upon request.
- 3.31 Under no circumstances will the Depositary be liable to the Fund, the Management Company or any other person for indirect or consequential damages and the Depositary will not in any event be liable for the following direct losses: loss of profits, loss of contracts, loss of goodwill, whether or not foreseeable, even if the Depositary has been advised of the likelihood of such loss or damage and regardless of whether the claim for loss or damage is made in negligence, for breach of contract or otherwise.
- 3.32 The Depositary is not involved, directly or indirectly, with the business affairs, organisation, sponsorship or management of the Fund and is not responsible for the preparation of this document and accepts no responsibility for any information contained in this document other than the above description. The Depositary will not have any investment decision-making role in relation to the Fund. Decisions in respect of the purchase and sale of assets for the Fund, the selection of investment professionals and the negotiation of commission rates are made by the Fund and/or the Management Company and/or their delegates. Shareholders may ask to review the Depositary Agreement at the registered office of the Fund should they wish to obtain additional information as regards the precise contractual obligations and limitations of liability of the Depositary.
- 3.33 The Depositary or the Fund may, at any time, by giving at least 90 days' written notice to the other party, terminate the Depositary's appointment, it being understood that any decision by the Fund to end the Depositary's appointment is subject to the condition that another depositary bank take on the functions and responsibilities of the Depositary within two months as defined in the Articles, provided, furthermore, that if the Fund terminates the Depositary's appointment, the Depositary shall continue to assume the functions of depositary until such time as the Depositary has been dispossessed of all the Fund's assets that it held or had arranged to be held on behalf of the Fund. Should the Depositary revoke the appointment, the Fund shall be required to appoint a new depositary to take on the functions and responsibilities of the Depositary as defined in the Articles within two months, it being understood that, from the date when the notice of termination expires until such time as a new depositary is appointed by the Fund, the Depositary will only be obligated to undertake all necessary measures to ensure that the Shareholders' interests are safeguarded.

- 3.42 The Investment Managers may be assisted by investment advisers (the “Investment Advisers”) as set out in more details in each relevant Appendix. Auditors

- 3.43 The auditing has been entrusted to Deloitte Audit, *Société à responsabilité limitée*, whose registered office is at 560, route de Neudorf, L-2220 Luxembourg.

4. RIGHTS OF THE SHAREHOLDERS

Shares

- 4.1 The Shares in each Compartment are issued in registered and dematerialised form, with no par value and fully paid-up. A holder of dematerialised Shares will have its Shares deposited on a securities account in the name of its beneficiary. Fractions of Shares may be issued up to five decimals. Fractional Shares do not confer the right to vote, however do confer the right to participate, in pro rata, to any proceeds upon liquidation and dividend distributions.
- 4.2 No certificates will be issued. All owners of the Shares will have their names entered into the Shareholders' register which will be held at the Fund's registered office. Shares repurchased by the Fund shall be cancelled.
- 4.3 All Shares are freely transferable and have an equal entitlement to any profits, proceeds of liquidation and dividends relating to the Compartment (or the category of Shares respectively) to which they pertain.
- 4.4 Each Share has one vote. Shareholders are also entitled to the general Shareholder rights as described in the Luxembourg law dated 10th August 1915 on commercial companies and its subsequent amendments, with the exception of pre-emption rights to subscribe to new Shares.
- 4.5 Shareholders will only receive confirmation that their names have been recorded in the Shareholders' register.
- 4.6 The Fund draws the attention of the investors to the fact that any investor will only be able to fully exercise his/her/its investor rights directly against the Fund if the investor is registered himself/herself/itself on in his own name in the Shareholders' register of the Fund. In cases where an investor invests in the Fund through an intermediary investing into the Fund in his/her/its own name but on behalf of the investor, it may not always be possible for the investor to exercise certain Shareholder rights directly against the Fund.

Compartments

- 4.7 The Appendix to this Prospectus lists the current Compartments. The Board of Directors may, at any time, decide to create additional Compartments.
- 4.8 The subscription price for Shares in each Compartment is invested in the assets of the relevant Compartment. In principle, all assets and liabilities related to a specific Compartment are allocated to that Compartment. To the extent that costs and expenses are not directly chargeable to a specific Compartment, they shall be shared out proportionally among the various Compartments according to their net asset values or, if circumstances warrant it, allocated on an equal footing to each Compartment. The assets of a specific Compartment will only meet the liabilities, commitments and obligation relating to such Compartment.

Categories of Shares

- 4.9 The Board of Directors may also decide to create for each Compartment two or more categories of Shares whose assets are generally invested in accordance with the specific investment policy of the relevant Compartment, but where categories of Shares may be distinguished by specific commission and/or redemption structures, by specific exchange-risk hedging policies, by

specific distribution policies and/or by specific management or advisory commission or by other specific characteristics applying to each category of Shares. Such information is, if necessary, defined in the Appendix to the Prospectus.

- 4.10 The Appendix to this Prospectus lists the current categories of Shares.

General Meetings

- 4.11 The annual General Meeting shall be held each year at the Fund's registered office or at any other location in Luxembourg which will be specified in the convening notice to the meeting.
- 4.12 The annual General Meeting shall be held on the fourth Wednesday of March at 11 a.m. or, if this happens to be an official holiday in Luxembourg, on the next Business Day thereafter.
- 4.13 Convening notices shall be sent to all registered Shareholders at least 8 days prior to the annual General Meeting. These notices shall include details of the time and place of this meeting, the agenda, conditions for admission and requirements concerning the quorum and majority voting rules as laid down by Luxembourg law.
- 4.14 The convening notice to a General Meeting may provide that the quorum and majority requirements will be assessed against the number of Shares issued and outstanding at midnight (Luxembourg time) on the fifth day prior to the relevant meeting (the "Record Date") in which case, the right of any Shareholder to participate in the meeting will be determined by reference to his/her/its holding as at the Record Date. In case of dematerialised shares (if issued) the right of a holder of such Shares to attend a General Meeting and to exercise the voting rights attached to such Shares will be determined by reference to the Shares held by this holder as at the time and date provided for by Luxembourg laws and regulations.
- 4.15 In accordance with the Articles and Luxembourg law, all decisions taken by the Shareholders pertaining to the Fund shall be taken at the General Meeting. Any decisions affecting Shareholders in one or several Compartments may be taken by just those Shareholders in the relevant Compartments to the extent that this is permitted by law. In this particular instance, the requirements on quorum and majority voting rules as laid down in the Articles shall apply.

5. SUBSCRIPTIONS

- 5.1 The list of Compartments already in operation is included in Appendix 1 to this Prospectus.
- 5.2 Appendix 1 will be updated to take into account the activation or the decision to activate any added Compartment or any added category of Shares.
- 5.3 Subscriptions for Shares in each Compartment already in operation shall be accepted at the issue price, as defined hereunder in Section 7 "Issue price", at the office of the Depositary as well as at any other establishments authorised to do so by the Fund.
- 5.4 At the discretion of the Board of Directors, Shares may be issued against contributions of Transferable Securities or other eligible assets to the Compartments provided that these assets are Eligible Investments and the contributions comply with the investment policies and restrictions laid out in this Prospectus and have a value equal to the issue price of the Shares concerned. The assets contributed to the Compartment, as described above, will be valued separately in a special report of the Auditor. These contributions in kind of assets are not

subject to brokerage costs. The Board of Directors will only have recourse to this possibility (i) at the request of the relevant investor and (ii) if the transfer does not negatively affect current Shareholders. All costs related to a contribution in kind will be paid for by the Compartment concerned provided that they are lower than the brokerage costs which the Compartment would have paid if the assets concerned had been acquired on the market. If the costs relating to the contribution in kind are higher than the brokerage costs which the Compartment concerned would have paid if the assets concerned had been acquired on the market, the exceeding portion thereof will be supported by the subscriber.

- 5.5 Unless specifically mentioned under Appendix I, for any subscription received by the Fund or by the distributor, prior to 4 p.m., on the last Business Day before the following Valuation Day, the Net Asset Value calculated on the said Valuation Day will be applicable.
- 5.6 For any subscription arriving at the Fund or at the distributor after the deadline set at 4 p.m. on the last Business Day before a Valuation Day, the Net Asset Value applicable will be the Net Asset Value as calculated on the next following Valuation Day.
- 5.7 The amount for the subscription shall be paid or transferred, in the reference currency of the relevant Compartment, into the account of the Depositary, to the order of the Fund with reference to the Compartment(s) concerned within three Business Days counting from the relevant Valuation Day or any other day as set out in the Appendix 1.
- 5.8 The Fund does not permit practices of Market Timing and reserves the right to reject subscription and conversion orders from an investor who the Fund suspects of using such practices and, if appropriate, to take the necessary measures to protect the other investors of the Fund.
- 5.9 The Fund may also, at any time and at its discretion, temporarily discontinue, cease permanently or limit the issue of Shares in one or more Compartments to persons or corporate bodies resident or domiciled in some countries or territories. The Fund may prohibit them from acquiring Shares if such a measure is necessary to protect the Shareholders as a whole and the Fund. In particular, the Fund is entitled to reject, at its discretion, any application to subscribe to Shares.

6. ANTI-MONEY LAUNDERING AND TERRORIST FINANCING REQUIREMENTS

- 6.1 Measures aimed towards the prevention of money laundering as provided by Luxembourg laws and the circulars as issued by the CSSF are the responsibility of the Fund, that delegates to the Administrative Agent such controls.
- 6.2 These measures may require the Administrative Agent to request verification of the identity of any prospective investor. By way of example, an individual may be required to produce a copy of his/her passport or identification card duly certified by a competent authority (e.g. embassy, consulate, notary, police officer, solicitor, financial institution domiciled in a country imposing equivalent identification requirements or any other competent authority. In the case of corporate applicants, this may require, amongst others, production of a certified copy of the certificate of incorporation (and any change of name) and investor's memorandum and articles of association (or equivalent), a recent list of its shareholders showing a recent stake in its capital, printed on the letterhead of the investor duly dated and signed, an authorised signature list and an excerpt of the trade register. It should be noted that the above list is not exhaustive

and that the investors may be required to provide further information to the Administrative Agent in order to ensure the identification of the final beneficial owner of the Shares.

- 6.3 Until satisfactory proof of identity is provided by potential investors or transferees as determined by the Administrative Agent, it reserves the right to withhold issue or approval of registration of transfers of Shares. Similarly, redemption proceeds will not be paid unless compliance with these requirements has been made in full. In any such event, the Administrative Agent will not be liable for any interest, costs or compensation.
- 6.4 In case of a delay or failure to provide satisfactory proof of identity, the Administrative Agent may take such action as it thinks fit.
- 6.5 These identification requirements may be waived by the Administrative Agent in the following circumstances:
- (a) in the case of a subscription through a financial intermediary which is supervised by a regulatory authority which imposes an investors' or transferees' identification obligation equivalent to that required under Luxembourg laws for the prevention of money laundering and to which the financial intermediary is subject;
 - (b) in the case of a subscription through a financial intermediary whose parent is supervised by a regulatory authority which imposes an investors' or transferees' identification obligation equivalent to that required under Luxembourg laws for the prevention of money laundering and where the law applicable to the parent or the group policy imposes an equivalent on its subsidiaries or branches.

7. ISSUE PRICE

- 7.1 The issue price for Shares in each Compartment is equal to the net asset value of each Share (or each category of Shares, respectively) in that Compartment, calculated on the first Valuation Day following the day of subscription.
- 7.2 Under certain circumstances, the Board of Directors has the power to charge a "dilution levy" on the issue price as described hereafter under Section 10 "Dilution Levy". In any case, the effective dilution levy charged on any Valuation Day shall be identical for all issues effected on such day.
- 7.3 The issue price may be increased by sales commissions, which will be paid to intermediaries and do not exceed 5% of the net asset value of each Share.
- 7.4 The issue price will also be increased to cover any duties, taxes and stamp duties which may have to be paid.

8. REDEMPTIONS

General

- 8.0 Shareholders are entitled at any time to redeem all or part of their Shares at the redemption price as further set out in Sections 8.6 to 8.10 headed “Redemption price” below, by addressing an irrevocable application for redemption to the Fund, or other authorised establishments.
- 8.1 For any request for redemption received by the Fund or by a distributor by 4 p.m. at the latest on the last Business Day before a Valuation Day, the Net Asset Value calculated on that Valuation Day shall be applicable.
- 8.2 Unless specifically mentioned under Appendix 1, for any request for redemption received by the Fund or by a distributor after the deadline of 4 p.m. on the last Business Day before a Valuation Day, the Net Asset Value applicable will be calculated on the following Valuation Day thereafter.
- 8.3 If, because of applications for redemption or conversion, it is necessary on a given Valuation Day to repurchase or convert a certain amount as determined by the Board of Directors in relation to the number of the Shares issued in a particular Compartment, the Board of Directors may decide that redemptions or conversions have to be postponed to the Valuation Day. On that Valuation Day, applications for redemption or conversion which had been postponed (and not withdrawn) shall be given priority over applications for redemption or conversion received for that particular Valuation Day (and which had not been postponed).
- 8.4 The Fund is entitled to repurchase, at any time, Shares which have been acquired in violation of a measure of exclusion taken by virtue of the Fund.
- 8.5 The price for the Shares presented for redemption shall be paid by transfer in the reference currency of the Compartment concerned within three Business Days following the date when the net asset value applicable to the redemption was calculated (see Sections 8.6 to 8.10 on “Redemption price” below) or any day as set out in the Appendix 1.

Redemption price

- 8.6 The redemption price for Shares in each Compartment is equal to the net asset value of each Share (or each category of Shares respectively) in that Compartment as calculated on the first applicable day after the application for redemption has been made.
- 8.7 In addition to this, the price may be reduced by a redemption commission of maximum 3% of the net asset value of each Share to be paid to intermediaries.
- 8.8 Under certain circumstances, the Board of Directors has the power to charge a dilution levy on the redemption price as described hereafter under Section 10 “Dilution Levy”. In any case, the effective dilution levy charged on any Valuation Day shall be identical for all redemptions effected on such day.
- 8.9 The redemption price may also be reduced to cover any duties, taxes and stamp duties which might have to be paid.

- 8.10 The redemption price could be higher or lower than the subscription price paid, depending on how the net asset value has changed in the intervening period.

9. CONVERSION

- 9.1 Subject to any potential restriction which may be set out in the Appendix to the Prospectus, any Shareholder may request the conversion of all or part of his/her/its Shares (or categories of Shares, respectively) in one Compartment into Shares of another Compartment, on the basis of the respective Net Asset Values as calculated on the Valuation Day of the Compartments (or category of Shares) concerned plus a conversion commission of maximum 1% of the Net Asset Value of each Share to be paid to intermediaries.
- 9.2 For any conversion requests received by the Fund or by a distributor by 4 p.m. at the latest on the last Business Day before a Valuation Day, the Net Asset Value calculated on the said Valuation Day will be applicable.
- 9.3 For any conversion requests received by the Fund or a distributor after the deadline of 4 p.m. on the last Business Day before a Valuation Day, the Net Asset Value applicable will be calculated on the next following Valuation Day thereafter.
- 9.4 Under certain circumstances, the Board of Directors has the power to charge a dilution levy on the conversion price as described hereafter under the Section 10 "Dilution Levy". In any case, the effective dilution levy charged on any Valuation Day shall be identical for all redemptions effected on such day.

10. DILUTION LEVY

- 10.1 Under certain circumstances (for example, large volumes of deals) investment and/or disinvestments costs may have an adverse effect on the Shareholders' interest in the Fund. In order to prevent this effect, called "dilution", the Board of Directors has the power to charge a dilution levy on the issue, redemption and/or conversion of Shares. If charged, the dilution levy will be paid into the relevant Compartment and will become part of the relevant Compartment.
- 10.2 The dilution levy for each Compartment will be calculated by reference to the costs of dealing in the underlying investments of that Compartment, including any dealing spreads, commission and transfer taxes.
- 10.3 The need to charge a dilution levy will depend on the volume of issues, redemptions or conversions. The Board of Directors may charge a discretionary dilution levy on the issue, redemption and/or conversion of Shares, if in its opinion, the existing Shareholders (for issues) or remaining Shareholders (for redemptions) might otherwise be adversely affected. In particular, the dilution levy may be charged in the following circumstances:
- (a) where a Compartment is in constant decline (large volume of redemption requests);
 - (b) on a Compartment experiencing substantial issues in relation to its size;
 - (c) in the case of "large volumes" of redemptions, subscriptions and /or conversions where "large volumes" refers to net redemptions or subscriptions exceeding 10% of the Compartment's entire assets;

- (d) in all other cases where the Board of Directors considers the interests of Shareholders require the imposition of a dilution levy.

10.4 In any case the dilution levy shall not exceed 2% of the net asset value per Share.

11. CALCULATION OF THE NET ASSET VALUE

- 11.1 The Net Asset Value as well as issue, redemption and conversion prices for Shares are calculated by the Administrative Agent for each Compartment in the Reference Currency used for the Compartment on the basis of the last known prices, at intervals which may vary for each Compartment and are specified in Appendix 1 (the "Valuation Day").
- 11.2 If the Valuation Day is not a Business Day, the Net Asset Value for that Compartment will be calculated on the next Business Day.
- 11.3 The Net Asset Value of a Share in each Compartment will be calculated by dividing the net assets of that Compartment by the total number of Shares outstanding of that Compartment. The Net Asset Value of a Compartment corresponds to the difference between the total assets and the total liabilities of the Compartment.
- 11.4 If different categories of Shares are issued for a Compartment, the Net Asset Value of each category of Shares in the Compartment concerned will be calculated by dividing the total Net Asset Value as calculated for the Compartment concerned and attributable to that category of Shares, by the total number of Shares issued for that category of Shares.
- 11.5 The percentage of the total Net Asset Value of the Compartment concerned attributable to each category of Shares, which was initially identical to the percentage of the number of Shares represented by that category of Shares, will change in respect of the distributions carried out in connection with dividend Shares as follows:
 - (a) Upon payment of a dividend or any other distribution in respect of dividend Shares, the total net assets attributable to that category of Shares will be reduced by the amount of such distribution (the effect being to reduce the percentage of total net assets of the Compartment concerned attributable to dividend Shares), and the total net assets attributable to capitalisation Shares will remain identical (resulting in an increase in the percentage of the total net assets of the Compartment attributable to capitalisation Shares);
 - (b) Upon the capital increase of the Compartment concerned by the issue of new Shares in one of the -category of Shares, the total net assets attributable to the category of Shares concerned will be increased by the amount received for such issue;
 - (c) Upon the redemption by the Compartment concerned of the Shares in a particular category of Shares, the total net assets attributable to the corresponding category of Shares will be reduced by the price paid for the redemption of such Shares;
 - (d) Upon the conversion of the Shares in one category of Shares into Shares in another category of Shares, the total net assets attributable to that category of Shares will be reduced by the net asset value of the Shares thus converted, the total net assets attributable to the category of Shares concerned being increased by that amount.

- 11.6 The Reference Currency of the Fund is the EUR and corresponds to the difference between the total assets and the total liabilities of the Fund. In order to calculate this value, the net assets of each Compartment will, unless they are already expressed in EUR, be converted into EUR, and added together.
- 11.7 The assets of the Fund shall be valued as follows:
- (a) Transferable Securities and Money Market Instruments admitted to official listing on an official stock exchange or traded on any Other Regulated Market will be valued at the last available price, unless such a price is not deemed to be representative of their fair market value.
 - (b) Securities not listed on an official stock exchange or not traded on any Regulated Market and securities with an official listing for which the last available price is not representative of a fair market value will be valued, prudently and in good faith, on the basis of their estimated sale prices.
 - (c) Cash and other liquid assets will be valued at their face value with interest accrued;
 - (d) The units/shares of open-ended UCIs will be valued on the basis of the last known net asset value. The units/shares of closed-ended UCIs will be valued on the basis of the last known market value.
 - (e) Money Market Instruments not listed on stock exchanges or not traded on any Regulated Market and with remaining maturity of less than 12 months are valued at their nominal value, increased by any interest accrued thereon, if any; the total value being amortised in accordance with the amortised cost method.
 - (f) The prices of futures and options admitted to official listing on an official stock exchange or traded on any other organised market are based on the previous day's closing price on the market in question. The prices used are the settlement prices on the futures markets. Futures and options contracts not admitted to official listing on an official stock exchange or traded on any other organised market will be valued at their liquidating value determined pursuant to the policies established in good faith by the Board of Directors, on a basis consistently applied for each different variety of contracts.
 - (g) Swaps shall be priced at their fair value based on the value of the underlying assets (closing or intraday) as well as the characteristics of the underlying commitments.
 - (h) For each Compartment, securities whose value is expressed in a currency other than the reference currency of that Compartment will be converted into that reference currency at the average rate between the last available buy/sell rate in Luxembourg or, failing that, in a financial centre which is most representative for those securities.
- 11.8 The Board of Directors is entitled to adopt any other appropriate principles for valuing the Fund's assets in the event that extraordinary circumstances make it impracticable or inappropriate to determine the values according to the criteria specified above.
- 11.9 In cases when applications for subscription or redemption are sizeable, the Board of Directors may assess the value of the Share on the basis of rates during the trading session on the stock

exchanges or markets during which it was able to buy or sell the necessary securities for the Fund. In such cases, a single method of calculation will be applied to all applications for subscription or redemption received at the same time.

12. SUSPENSION OF THE CALCULATION OF NET ASSET VALUE, ISSUE, REDEMPTION AND CONVERSION PRICES

12.1 The calculation of the Net Asset Value or the issue, redemption and conversion prices of Shares in one or more Compartments may be suspended in the following circumstances:

- (a) When one or more stock exchanges or markets, which provide the basis for valuing a substantial portion of the Fund's assets, or when one or more foreign exchange markets in the currency in which the net asset value of Shares is expressed or in which a substantial portion of the Fund's assets is held, are closed other than for ordinary holidays or if dealings therein are suspended, restricted or subject to major short-term fluctuations.
- (b) When, as a result of political, economic, military, monetary or social events, strikes or other circumstances outside the responsibility and control of the Fund, the disposal of the Fund's assets is not reasonably or normally practicable without being seriously detrimental to the Shareholders' interests.
- (c) In the case of a breakdown in the normal means of communication used to calculate the value of an asset in the Fund or when, for whatever reason, the value of an asset in the Fund cannot be calculated as rapidly and as accurately as required.
- (d) If, as a result of exchange controls or other restrictions on the movement of capital, transactions for the Fund are rendered impracticable or if purchases or sales of the Fund's assets cannot be made at normal rates of exchange.
- (e) In the case of suspension, of the calculation of the net asset value of one or several of the target UCIs in which the Fund has invested a substantial portion of its assets.
- (f) On the occurrence of any event entailing the liquidation of the Fund or one of its Compartments.

12.2 In such cases of suspension, Shareholders who have submitted applications to subscribe to, redeem or convert Shares in Compartments affected by the suspensions shall be notified.

12.3 The Fund may, at any time and at its discretion, temporarily discontinue, cease permanently or limit the issue of Shares in one or more Compartments to persons or corporate bodies resident or domiciled in some countries or territories. The Fund may also prohibit them from acquiring Shares if such a measure is necessary to protect the Shareholders as a whole and the Fund.

13. INCOME DISTRIBUTION

13.1 The Board of Directors reserves the right to introduce a distribution policy which may vary according to Compartments and categories of Shares issued (capitalisation and distribution Shares).

13.2 Each distribution policy will be defined in the Appendices.

- 13.3 For those Compartments that do not comprise categories of Shares, the income will be capitalised on the understanding however that the Board of Directors reserves the right to introduce an income distribution policy. In such cases, dividends may be payable following a decision of the Board of Directors within 6 months after the close of the Business Year.
- 13.4 In addition to the above dividends, the Fund may choose to pay interim dividends.
- 13.5 No distribution may be effected if as a result thereof the net assets of the Fund were to fall below EUR1,250,000 (being provided that Shares of a Target Compartment held by an Investing Compartment will not be taken into account for the purpose of the calculation of the EUR1,250,000 minimum capital requirement).
- 13.6 Dividends and allotments not collected within five years of their due date will lapse and revert to the Compartment.

14. FUND EXPENSES

Advisory fee and Management fee

- 14.1 Each Investment Adviser and/or Investment Manager is entitled to an advisory or management fee, payable on a quarterly basis at an annual rate which could vary according to the Compartments. The applicable rate for each Compartment is determined in Appendix 1 to the Prospectus. This commission is levied on each Compartment at a pro rata rate of its average net assets as determined during the relevant quarter concerned.
- 14.2 The Investment Adviser and/or Investment Manager may use part of the advisory or management fee received by the Fund to remunerate distributors and selling agents.

Performance fee

- 14.3 In respect of certain Compartments, the Investment Manager and/or Investment Adviser may also be entitled to receive a performance fee, as may be specified in the relevant Appendix.

Other expenses

- 14.4 Other costs charged to the Fund include:
- (a) All taxes and duties which might be due on the Fund's assets or income earned by the Fund, in particular the subscription tax (0.05% per annum) charged on the Fund's net assets.
 - (b) Brokerage fees and charges on transactions involving securities in portfolio.
 - (c) Remuneration of the Depositary, its correspondents, the Administrative Agent and the Management Company which shall not, in aggregate, exceed a maximum of 1.6% p.a. (exclusive of any applicable VAT) on the total average net assets of the Fund and which shall be paid on a quarterly basis.
 - (d) Extraordinary costs incurred, particularly for any verification procedures or legal proceedings undertaken to protect the Shareholders' interests.

- (e) The cost of preparing, printing and filing of administrative documents, prospectuses and explanatory memoranda with all authorities, the rights payable for the registration and maintenance of the Fund with all authorities and official stock exchanges, the cost of preparing, translating, printing and distributing periodical reports and other documents required by law or regulations, the cost of accounting and calculating the net asset value, the cost of preparing, distributing and publishing notifications to Shareholders, fees for legal consultants, experts and independent auditors, and all similar operating costs.
- (f) All advertising expenses and other expenditure other than that specified above related directly to the offering and distribution of Shares in foreign countries.

- 14.5 The fees associated with the creation of a new Compartment will be, in principle, exclusively borne by this new Compartment. Nevertheless the Board of Directors may decide, in circumstances where it would appear to be more fair to the Compartments concerned, that the initial setting up costs of the Fund, not yet amortised at the time of the new Compartment is launched, will be equally borne by all existing Compartments including the new Compartment. The Board of Directors may also decide that the costs associated with the opening of new Compartments be borne by the existing Compartments.
- 14.6 All recurring expenditure shall be charged first to the Fund's income, then to realised capital gains, then to the Fund's assets. Other expenditure may be amortised over a period not exceeding five years.
- 14.7 Charges involved in the calculation of the Net Asset Values of the various Compartments shall be spread between the Compartments in proportion to their net assets, except in cases where charges specifically involve one Compartment, in which case they will be charged to that Compartment.
- 14.8 Please refer to the Sections 5, 8, 9 and 10 relating to "Subscriptions", "Redemptions", "Conversions" and "Dilution levy" for further details as to the specific fees and expenses borne by Shareholders.

15. RISK CONSIDERATIONS

The Fund bears the general risks laid down below. However, each Compartment is subject to specific risks, which the Board of Directors will seek to lower, as listed in the relevant Appendix.

Equity Securities

- 15.1 Investing in equity securities may offer a higher rate of return than other investments. However, the risks associated with investments in equity securities may also be higher, because the performance of equity securities depends upon factors which are difficult to predict. Such factors include the possibility of sudden or prolonged market declines and risks associated with individual companies. The fundamental risk associated with equity portfolio is the risk that the value of the investments it holds might decrease in value. Equity security value may fluctuate in response to the activities of an individual company or in response to general market and/or

economic conditions. Historically, equity securities have provided greater long-term returns and have entailed greater short-term risks than other investment choices.

High-yield securities

- 15.2 A Compartment may invest in bonds of issuers that do not have publicly traded equity securities, making it more difficult to hedge the risks associated with such investments (and the Compartment is not required to hedge, and may choose not to do so). High-yield securities that are below investment grade or unrated face on-going uncertainties and exposure to adverse business, financial or economic conditions which could lead to the issuer's inability to meet timely interest and principal payments. The market values of certain of these lower-rated and unrated debt securities tend to reflect individual corporate developments to a greater extent than do higher-rated securities, which react primarily to fluctuations in the general level of interest rates, and tend to be more sensitive to economic conditions than are higher-rated securities. Companies that issue such securities are often highly leveraged and may not have available to them more traditional methods of financing. It is possible that a major economic recession could disrupt severely the market for such securities and may have an adverse impact on the value of such securities. In addition, it is possible that any such economic downturn could adversely affect the ability of the issuers of such securities to repay principal and pay interest thereon and increase the incidence of default of such securities.

Investment in UCIs

- 15.3 Investment in UCIs may embed a duplication of the fees and expenses which will be charged to the Fund, i.e. setting-up, filing and domiciliation costs, subscription, redemption or conversion fees, management fees, depositary bank fees and other service providers' fees. The accumulation of these costs may cause higher costs and expenses that would have been charged to the Fund if the latter had invested directly. The Fund will however seek to avoid any irrational multiplication of costs and expenses to be borne by Shareholders.
- 15.4 Also, the Fund must ensure that its portfolios of target UCIs present appropriate liquidity features to enable them to meet their obligation to redeem or repurchase their Shares. However, there is no guarantee that the market liquidity for such investments will always be sufficient to satisfy redemption requests favourably at the exact time they are submitted. Any absence of liquidity may impact in the liquidity of the Shares and the value of its investments.

Investment in warrants

- 15.5 Investors should be aware of and prepared to accept the greater volatility in the prices of warrants which may result in greater volatility in the price of the Shares. Thus, the nature of the warrants will involve Shareholders in a greater degree of risk than is the case with conventional securities.

Stock market volatility

- 15.6 The Net Asset Value of the Fund will reflect the volatility of the stock market. Stock markets are volatile and can move significantly in response to the issuer, demand and supply, political, regulatory, market and economic developments.

Issuer-specific risk

- 15.7 The value of an individual security or particular type of security can be more volatile than the market as a whole and can perform differently from the value of the market as a whole.

Interest rate risks

- 15.8 The Net Asset Value of the Fund will change in response to fluctuations in interest rates. Generally, interest rate risk involves the risk that when interest rates decline, the market value of bonds tends to increase, and vice versa. The extent to which the price of a bond changes as the interest rates move may differ by the type of the debt securities.

Market risk

- 15.9 Although it is intended that the portfolio of the Fund will be diversified, the investments of the Fund are subject to normal market fluctuations and to the risks inherent in investment in equities, fixed income securities, currency instruments, derivatives and other similar instruments. The prices of the Shares can go down as well as up and investors may not be able to realise their investment objective. Although the Board of Directors will attempt to restrict the exposure of the Fund to market movements, there is no guarantee that this strategy will be successful.

Investment in derivative instruments

- 15.10 The use of futures, options and forward contracts exposes the Fund to additional investment risks. Financial futures prices are highly volatile and influenced by a variety of diverse factors including, i.a., changing supply and demand relationships, government, fiscal, monetary and exchange control programs and policies, national and international political and economic events and government intervention in certain markets, particularly in the currency and interest rate markets.
- 15.11 The trading of options, including options on futures contracts and OTC options, is speculative and highly leveraged. Specific market movements of futures contracts or securities underlying an option cannot be accurately be predicted. The purchaser of an option is subject to the risk of losing the entire purchase price of the option. The writer of an option is subject to the risk of loss resulting from the difference between the premium received for the option and the price of the futures contracts or security underlying the option which the writer must purchase or deliver upon exercise of the option. Options traded OTC are not regulated.
- 15.12 Futures are also subject to illiquid situations when market activity decreases or when a daily price fluctuation limit has been reached.

Foreign exchange/currency risk

- 15.13 Although Shares may be denominated in a particular currency, the Fund may invest its assets in securities denominated in a wide range of currencies, some of which may not be freely convertible. The Net Asset Value of the Fund as expressed in its base currency will fluctuate in accordance with the changes in the foreign exchange rate between that currency and the currencies in which the Fund's investments are denominated. The Fund may therefore be exposed to a foreign exchange/currency risk.

- 15.14 It may not be possible or practicable to hedge against the consequent foreign exchange/currency risk exposure.

Political and/or regulatory risks

- 15.15 The value of the Fund's assets may be affected by uncertainties such as international political developments, changes in government policies, changes in taxation, restrictions on foreign investment and currency repatriation, currency fluctuations and other developments in the laws and regulations of countries in which investment may be made. Furthermore, the legal infrastructure and accounting, auditing and reporting standards in certain countries in which investment may be made may not provide the same degree of investor protection or information to investors as would generally apply in major securities markets.

Settlement risk

- 15.16 The trading and settlement practices on some of the recognised exchanges on which the Fund may invest may not be the same as those in more developed markets. That may increase settlement risk and/or result in delays in realising investments made by the Fund.

Custody risk

- 15.17 Local custody services in some of the market countries in which the Fund may invest may not be the same as those in more developed market countries and there is a transaction and custody risk involved in dealing in such markets.

Taxation

- 15.18 Potential investors' attention is drawn to the taxation risks associated with investing in the Fund. Further details relating to the Luxembourg tax legislation are given under Section 16 "Tax status". However, nothing in this Prospectus may be construed any tax advice and investors should consult their own professional advisers regarding any tax issues in the context of any contemplated investment in the Fund.

Counterparty risk

- 15.19 The Fund may be subject to the risk of the inability of the counterparty, or any other entities in or with which an investment or transaction is made, to perform with respect to transactions, whether due to insolvency, bankruptcy or other causes.

Risk arising from investments in emerging markets

- 15.20 Payment suspensions and default in developing countries are due to various factors, such as political instability, bad financial management, a lack of currency reserves, capital leaving the country, internal conflicts or the lack of the political will to continue servicing the previously contracted debt.
- 15.21 The ability of issuers in the private sector to face their obligations may also be affected by these same factors. Furthermore, these issuers suffer the effect of decrees, laws and regulations introduced by the government authorities. These may be the modification of exchange controls and amendments to the legal and regulatory system, expropriations and nationalisations and the introduction of, or increase in, taxes, such as deduction at source.

- 15.22 Uncertainty due to an unclear legal environment or to the inability to establish firm ownership rights constitute other decisive factors. Added to this are the lack of reliable sources of information in these countries, the non-compliance of accounting methods with international standards and the lack of financial or commercial controls.
- 15.23 In particular, investors' attention is drawn to the fact that, at present, investments in Russia are subject to increased risk as regards the ownership and custody of Transferable Securities: market practice for the custody of bonds is such that these bonds are deposited with Russian institutions that do not always have adequate insurance to cover risk of loss arising from the theft, destruction or disappearance of instruments held in custody.

Investment in Contingent Convertible Bonds

- 15.24 Certain Compartments may invest in Contingent Convertible Bonds. Under the terms of a Contingent Convertible Bond, certain triggering events, including events under the control of the management of the Contingent Convertible Bond's issuer, could cause the permanent write-down to zero of principal investment and/or accrued interest, or a conversion to equity. These triggering events may include (i) a deduction in the issuing bank's Core Tier 1/Common Equity Tier 1 (CT1/CET1) ratio (or other capital ratios) below a pre-set limit, (ii) a regulatory authority, at any time, making a subjective determination that an institution is "nonviable", i.e., a determination that the issuing bank requires public sector support in order to prevent the issuer from becoming insolvent, bankrupt, unable to pay a material part of its debts as they fall due or otherwise carry on its business and requiring or causing the conversion of the Contingent Convertibles Bonds into equity in circumstances that are beyond the control of the issuer or (iii) a national authority deciding to inject capital. The attention of investors investing in Compartments that are allowed to invest in Contingent Convertibles Bonds is drawn to the following risks linked to an investment in this type of instruments.

Conversion risk

- 15.25 Investment in Contingent Convertible Bonds may result in material losses based on certain trigger events. The existence of these trigger events creates a different type of risk from traditional bonds and may more likely result in a partial or total loss of value or alternatively they may be converted into shares of the issuing company which may also have suffered a loss in value.

Coupon cancellation

- 15.26 For Additional Tier 1 (AT1) Contingent Convertible Bonds, coupons may be cancelled in a going concern situation. Coupon payments on such Contingent Convertible Bonds are entirely discretionary and may be cancelled by the issuer at any point, for any reason, and for any length of time. The cancellation of coupon payments on AT1 Contingent Convertible Bonds does not amount to an event of default. Cancelled payments do not accumulate and are instead written off. This significantly increases uncertainty in the valuation of these Contingent Convertible Bonds and may lead to mispricing of risk.

Capital structure inversion risk

- 15.27 Contrary to classic capital hierarchy, holders of Contingent Convertible Bonds may suffer a loss of capital when equity holders do not. In certain scenarios, holders of Contingent Convertible

Bonds will suffer losses ahead of equity holders. This cuts against the normal order of capital structure hierarchy where equity holders are expected to suffer the first loss.

Call extension risk

- 15.28 Most Contingent Convertible Bonds are issued as perpetual instruments, callable at pre-determined levels only with the approval of the competent authority. It cannot be assumed that the perpetual Contingent Convertible Bonds will be called on call date. Perpetual Contingent Convertible Bonds are a form of permanent capital. The investor may not receive return of principal if expected on call date or indeed at any date.

Unknown risk

The structure of Contingent Convertible Bonds is innovative yet untested. In a stressed environment, when the underlying features of these instruments will be put to the test, it is uncertain how they will perform. In the event a single issuer activates a trigger or suspends coupons, will the market view the issue as an idiosyncratic event or systemic? In the latter case, potential price contagion and volatility to the entire asset class is possible. This risk may in turn be reinforced depending on the level of underlying instrument arbitrage. Furthermore in an illiquid market, price formation may be increasingly stressed.

Sector concentration risk

- 15.29 Contingent Convertible Bonds are issued by banking/insurance institutions. If a Compartment invests significantly in Contingent Convertible Bonds its performance will depend to a greater extent on the overall condition of the financial services industry than a Compartment following a more diversified strategy.

Liquidity risk

- 15.30 In certain circumstances finding a ready buyer for Contingent Convertible Bonds may be difficult and the seller may have to accept a significant discount to the expected value of the bond in order to sell it.

Investment in Distressed Securities

- 15.31 Investment in a security issued by a company that is either in default or in high risk of default (“Distressed Securities”) involves significant risk. Such investments will only be made when the relevant Investment Manager believes it is reasonably likely that the issuer of the securities will make an exchange offer or will be the subject of a plan of reorganisation; however, there can be no assurance that such an exchange offer will be made or that such a plan of reorganisation will be adopted or that any securities or other assets received in connection with such an exchange offer or plan of reorganisation will not have a lower value or income potential than anticipated when the investment was made. In addition, a significant period of time may pass between the time at which the investment in Distressed Securities is made and the time that any such exchange offer or plan of reorganisation is completed. During this period, it is unlikely that any interest payments on the Distressed Securities will be received, there will be significant uncertainty as to whether or not the exchange offer or plan of reorganisation will be completed, and there may be a requirement to bear certain expenses to protect the investing Compartment’s interest in the course of negotiations surrounding any potential exchange or

plan of reorganisation. In addition, as a result of participation in negotiations with respect to any exchange offer or plan of reorganisation with respect to an issuer of Distressed Securities, the investing Compartment may be precluded from disposing of such securities. Furthermore, constraints on investment decisions and actions with respect to Distressed Securities due to tax considerations may affect the return realised on the Distressed Securities.

16. TAX STATUS

The Fund is subject to Luxembourg tax legislation.

The Fund

- 16.1 **In accordance with current Luxembourg law, the Fund is not subject to any tax on income, capital gains tax or wealth tax. Moreover, no dividends distributed by the Fund are subject to withholding tax.**
- 16.2 However, income collected by the Fund on securities in its portfolios may be subject to withholding tax which, in normal circumstances, cannot be reclaimed.
- 16.3 The Fund's net assets are subject to a subscription tax of 0.05% per annum (except for certain Compartments or categories of Shares specifically reserved for to Institutional Investors, which benefit from the reduced rate of 0.01% per annum), payable at the end of each quarter and calculated on the basis of the total net assets at the end of the relevant quarter.

Shareholders

- 16.4 According to legislation and current practice in Luxembourg, Shareholders, other than those domiciled, residing or permanently established in Luxembourg and certain former residents of Luxembourg holding more than 10% of the Fund's share capital, are not liable to pay any Luxembourg tax on income, capital gains, donations or legacies. However, it is incumbent upon any purchasers of Shares in the Fund to inform themselves about the relevant legislation and tax regulations applicable to the acquisition, holding and sale of Shares with regard to their residence qualifications and nationality.

17. EXCHANGE OF INFORMATION FOR TAX PURPOSES

- 17.0 The Fund may be required to report certain information about its Shareholders and, as the case may be, about individuals controlling Shareholders that are entities, on an automatic and annual basis to the Luxembourg direct tax administration (*Administration des contributions directes*) in accordance with, and subject to, the Luxembourg law of 21 June 2005 implementing the Council Directive 2003/48/EC of 3 June 2003 on taxation of savings income in the form of interest payments, the Luxembourg law of 24 July 2015 concerning FATCA, and/or the Luxembourg legislation implementing Council Directive 2014/107/EU and the standard for automatic exchange of financial account information in tax matters developed by the OECD with the G20 countries (commonly referred to as the "Common Reporting Standard"), each as amended from time to time (each an "AEOI Law" and collectively the "AEOI Laws"). Such information, which may include personal data (including, without limitation, the name, address, country(ies) of tax residence, date and place of birth and tax identification number(s) of any reportable individual) and certain financial data about the relevant Shares (including, without limitation, their balance or value and gross payments made thereunder), will be transferred by the Luxembourg direct tax administration to the competent authorities of the relevant foreign jurisdictions in accordance with, and subject to, the relevant Luxembourg legislation and international agreements.

- 17.1 Each Shareholder and prospective investor agrees to provide, upon request by the Fund (or its delegates), any such information, documents and certificates as may be required for the purposes of the Fund's identification and reporting obligations under any AEOI Law. The Fund reserves the right to reject any application for Shares or to redeem Shares (i) if the prospective investor or Shareholder does not provide the required information, documents or certificates or (ii) if the Fund (or its delegates) has reason to believe that the information, documents or certificates provided to the Fund (or its delegates) are incomplete or incorrect and the Shareholder does not provide, to the satisfaction of the Fund (or its delegates), sufficient information to cure the situation. Prospective investors and Shareholders should note that incomplete or inaccurate information may lead to multiple and/or incorrect reporting under the AEOI Laws. Neither the Fund nor any other person accepts any liability for any consequences that may result from incomplete or inaccurate information provided to the Fund (or its delegates). Any Shareholder failing to comply with the Fund's information requests may be charged with any taxes and penalties imposed on the Fund attributable to such Shareholder's failure to provide complete and accurate information.
- 17.2 Each Shareholder and prospective investor acknowledges and agrees that the Fund will be responsible to collect, store, process and transfer the relevant information, including the personal data, in accordance with the AEOI Laws. Each individual whose personal data has been processed for the purposes of any AEOI Law has a right of access to his/her personal data and may ask for a rectification thereof in case where such data is inaccurate or incomplete.

18. BUSINESS YEAR

The Business Year runs from January 1st to December 31st of each year.

19. PERIODICAL REPORTS AND PUBLICATIONS

- 19.1 The Fund will publish an audited annual report within 4 months after the end of the Business Year and an un audited semi-annual report within 2 months after the end of the period to which it refers.
- 19.2 The reports include accounts of the Fund and of each Compartment.
- 19.3 All these reports will be made available to the Shareholders at the registered office of the Fund, the Depositary, the distributor and other establishments appointed by the Depositary.
- 19.4 The Net Asset Value per Share of each Compartment as well as the issue and redemption prices will be made to the public at the offices of the Depositary and the distributor.
- 19.5 Any amendments to the Articles will be published in the *Mémorial*.

20. LIFETIME, MERGER AND LIQUIDATION OF THE FUND AND COMPARTMENTS

The Fund

- 20.1 The Fund has been established for an indefinite period, but the Board of Directors may, at any time, propose the dissolution of the Fund to an extraordinary General Meeting.
- 20.2 If the capital of the Fund falls below two thirds of the minimum capital required by the law, the Board of Directors must submit the question of the dissolution of the Fund to a General Meeting

for which no quorum shall be required and which shall decide by a simple majority of the Shares represented at this meeting.

- 20.3 If the capital of the Fund falls below one fourth of the minimum capital, the Directors must submit the question of the dissolution of the Fund to a General Meeting for which no quorum shall be required; dissolution may be resolved by a simple majority of the Shareholders holding one fourth of the Shares represented at this meeting.
- 20.4 The liquidation of the Fund shall be carried out in accordance with the provisions of the 2010 Law which specifies the steps to be taken to enable Shareholders to participate in the liquidation distributions and in the connection provides for deposit in escrow at the *Caisse des Consignations* in Luxembourg of any such amounts which it has not been possible to distribute to the Shareholders at the close of liquidation. Amounts not claimed within the prescribed period are liable to be forfeited in accordance with the provisions of Luxembourg law. The net liquidation proceeds shall be distributed to the Shareholders in proportion to their respective holdings.

Merger of the Fund and the Compartments

- 20.5 In accordance with the provisions of the 2010 Law and of the Articles, the Board of Directors may decide to merge or consolidate the Fund with, or transfer substantially all or part of the Fund's assets to, or acquire substantially all the assets of, another UCITS established in Luxembourg or another EU Member State. For the purpose of this Section 20.5, the term UCITS also refers to a compartment of a UCITS and the term Fund also refers to a Compartment.
- 20.6 Any merger leading to termination of the Fund must be approved by a Shareholders meeting subject to the quorum and the majority requirement applying to the modification of the Articles. For the avoidance of doubt, this provision does not apply in respect of a merger leading to the termination of a Compartment.
- 20.7 Shareholders will receive shares of the surviving UCITS or compartment and, if applicable, a cash payment not exceeding 10% of the net asset value of those shares.
- 20.8 The Fund will provide appropriate and accurate information on the proposed merger to its Shareholders so as to enable them to make an informed judgment of the impact of the merger on their investment and to exercise their rights under this Section 20 and the 2010 Law.
- 20.9 The Shareholders have the right to request, without any charge other than those retained by the Fund to meet disinvestment costs, the redemption of their Shares.
- 20.10 The Board of Directors may decide to allocate the assets of a Compartment to those of another existing Compartment within the Fund or to another Luxembourg UCITS or to another compartment within such other Luxembourg UCITS (the "New Compartment") and to repatriate the Shares of the category of Shares or categories of Shares concerned as Shares of another category of Shares (following a split or consolidation, if necessary, and the payment of the amount corresponding to any fractional entitlement to Shareholders). Such decision will be published in the same manner as described in Section 20.8 above one month before its effectiveness (and, in addition, the publication will contain information in relation to the New Compartment), in order to enable the Shareholders to request redemption of their Shares, free of charge, during such period.

- 20.11 Notwithstanding the powers conferred to the Board of Directors by Section 20.10 above, a contribution of the assets and of the liabilities attributable to any Compartment to another Compartment within the Fund may in any other circumstances be decided by a general meeting of Shareholders of the category of Shares or categories of Shares issued in the Compartment concerned for which there will be no quorum requirements and which will decide upon such a merger by resolution taken by simple majority of those present or represented and voting at such meeting.
- 20.12 If the interest of the Shareholders of the relevant Compartment or in the event that a change in the economic or political situation relating to a Compartment so justifies, the Board of Directors may proceed to the reorganisation of a Compartment by means of a division into two or more Compartments. Information concerning the New Compartment(s) will be provided to the relevant Shareholders. Such publication will be made one month prior to the effectiveness of the reorganisation in order to permit Shareholders to request redemption of their Shares free of charge during such one month prior period.

Liquidation of Compartments

- 20.13 The Board of Directors may also propose to dissolve a Compartment at a General Meeting of that Compartment. The proceedings at this General Meeting shall be subject to quorum requirements in conformity with the Articles and the decision to dissolve the Compartment shall be taken by the majority of the Shares in that Compartment represented at this meeting.
- 20.14 If the net assets of a Compartment fall below the equivalent of EUR2,000,000 the decision to liquidate that Compartment may be taken by the Board of Directors if the latter considers that such liquidation would serve the best interests of the Shareholders. If the Compartment to be liquidated was the last Compartment in operation, the liquidation of this Compartment would be subject to the regulations about liquidation of the Fund.
- 20.15 If a Compartment is dissolved, the liquidation process shall be conducted in conformity with the provisions of the 2010 Law. This legislation stipulates the procedures to be followed to enable Shareholders to share in the proceeds of the liquidation and, in this respect, specifies that any amount not distributed to Shareholders once the dissolution process has been completed shall be first kept at the depositary bank for a period of six months; should the proceeds not be claimed during this period, they will be then surrendered to the *Caisse des Consignations* in Luxembourg. The net proceeds of the liquidation for each Compartment shall be distributed to the Shareholders of that particular Compartment in proportion to the number of Shares held in the relevant Compartment.

22.4 However, each Compartment may:

- (a) hold ancillary liquid assets;
- (b) invest no more than 10% of its net assets in Transferable Securities or Money Market Instruments issued by the same body.

Risk diversification

22.5 Each Compartment may not invest more than 20% of its net assets in deposits made with the same body.

22.6 Furthermore, where any Compartment holds investments in Transferable Securities and Money Market Instruments of any issuing body which individually exceed 5% of the net asset value of such Compartment, the total value of all such investments must not account for more than 40% of the net asset value of such Compartment. This limitation does not apply to deposits and OTC Derivative transactions made with financial institutions subject to prudential supervision.

22.7 The counterparty risk of a Compartment arising from OTC Derivative transactions and efficient portfolio management techniques may not exceed 10% of its net assets when the counterparty is a credit institution referred to in Section 22.3(f) above or 5% in any other case.

22.8 Investment in financial derivative instruments shall only be made provided that the exposure to the underlying assets does not exceed in aggregate the investment limits set forth in Sections 22.4(b), 22.6, 22.7, 22.12 to 22.14, 22.16 and 22.18 of the main part of the Prospectus. When the Compartment invests in index-based financial derivative instruments, these investments do not have to be combined to the limits set forth in Sections 22.4(b), 22.6, 22.7, 22.12 to 22.14, 22.16 and 22.18 of the main part of the Prospectus.

22.9 When a Transferable Security or Money Market Instrument embeds a derivative, the latter must be taken into account when complying with the requirements of Sections 22.10 and 22.11 below as well as with the risk exposure and information requirements laid down in this Prospectus.

- 22.10 The Fund shall ensure that its global exposure relating to derivative instruments does not exceed the total net value of its portfolio.
- 22.11 The exposure is calculated taking into account the current value of the underlying assets, the counterparty risk, foreseeable market movements and the time available to liquidate the positions.
- 22.12 Notwithstanding the individual limits laid down in Sections 22.4(b), 22.6 and 22.7 above, a Compartment may not combine:
- (a) investments in Transferable Securities or Money Market Instruments issued by,
 - (b) deposits made with, and/or
 - (c) exposures arising from OTC Derivative transactions undertaken with,
- a single body in excess of 20% of its net assets.
- 22.13 The limit of 10% laid down in Section 22.4(b) above shall be 35% in respect of Transferable Securities or Money Market Instruments which are issued or guaranteed by a EU Member State, its local authorities or by any Other State or by public international bodies of which one or more EU Member States are members.
- 22.14 The limit of 10% set forth under Section 22.4(b) above is increased up to 25% in respect of qualifying debt securities issued by a credit institution which has its registered office in a EU Member State and which, under applicable law, is submitted to specific public control in order to protect the holders of such qualifying debt securities. For the purposes hereof, “qualifying debt securities” are securities the proceeds of which are invested in accordance with applicable law in assets providing a return which will cover the debt service through to the maturity date of the securities and which will be applied on a priority basis to the payment of principal and interest in the event of a default by the issuer. To the extent that a relevant Compartment invests more than 5% of its net assets in debt securities issued by such an issuer, the total value of such investments may not exceed 80% of the net assets of such Compartment.
- 22.15 The securities and Money Market Instruments specified under (i) and (C)(4) above shall not be included in the calculation of the limit of 40% under (C)(2)(i).
- 22.16 The limits set out in Sections 22.4(b), 22.6, 22.7, 22.12 to 22.14 above may not be aggregated and, accordingly, the value of investments in Transferable Securities and Money Market Instruments issued by the same body, in deposits or derivative instruments made with this body, effected in accordance with Sections 22.4(b), 22.6, 22.7, 22.12 to 22.14 above may not, in any event, exceed a total of 35% of each Compartment’s net asset value.
- 22.17 Companies which are included in the same group for the purposes of consolidated accounts, as defined in accordance with Directive 83/349/EEC or in accordance with recognised international accounting rules, are regarded as a single body for the purpose of calculating the limits contained in Sections 22.4(b) to 22.18 of the main part of the Prospectus.
- 22.18 A Compartment may cumulatively invest up to 20% of its net assets in Transferable Securities and Money Market Instruments within the same group.

- 22.19 Subject to having due regard to the principle of risk spreading, a Compartment need not comply with the limits set out in articles 43 to 46 of the 2010 Law for a period of 6 months following the date of its authorisation and launch.

Exceptions which can be made

- 22.20 **Where any Compartment has invested in accordance with the principle of risk spreading in Transferable Securities and Money Market Instruments issued or guaranteed by a EU Member State, by its local authorities or by any OECD Member State, by certain non-OECD Member States (currently Brazil, Indonesia, Russia, Singapore, Hong-Kong and South-Africa), or by public international bodies of which one or more EU Member States are members, the Fund may invest 100% of the net assets of any Compartment in such Transferable Securities and Money Market Instruments provided that such Compartment must hold securities from at least six different issues and the value of securities from any one issue must not account for more than 30% of the net assets of the Compartment.**
- 22.21 Without prejudice to the limits set forth hereafter under Section 22.32 below, the limits set forth in Sections 22.5 to 22.18 above are raised to a maximum of 20% for investments in shares and/or bonds issued by the same body when the aim of the Compartment's investment policy is to replicate the composition of a certain stock or bond index which is recognised by the CSSF, on the following basis:
- (a) the composition of the index is sufficiently diversified,
 - (b) the index represents an adequate benchmark for the market to which it refers,
 - (c) it is published in an appropriate manner.

The limit of 20% is raised to 35% where that proves to be justified by exceptional market conditions in particular in Regulated Markets where certain Transferable Securities or Money Market Instruments are highly dominant. The investment up to this limit is only permitted for a single issuer.

Investment in UCITS and/or other UCIs

- 22.22 Each Compartment may acquire units of the UCITS and/or other UCIs referred to in Section 22.3(e) above, provided that no more than 20% of a Compartment's net assets are invested in the units of a single UCITS or other UCI.
- 22.23 For the purpose of the application of investment limits, each compartment of a UCI with multiple compartments is to be considered as a separate issuer provided that the principle of segregation of the obligations of the various compartments vis-à-vis third parties is ensured.
- 22.24 Investments made in units of UCIs other than UCITS may not in aggregate exceed 30% of the net assets of a Compartment.
- 22.25 When a Compartment invests in the units of other UCITS and/or other UCIs linked to the Fund by common management or control, or by a substantial direct or indirect holding, or managed by a management company linked to the relevant Investment Manager, no subscription or redemption fees may be charged to the Fund on account of its investment in the units of such other UCITS and/or UCIs.

- 22.26 In respect of a Compartment's investments in UCITS and other UCIs linked to the Fund as described in the preceding Section, the total management fee (excluding any performance fee, if any) charged to such Compartment and each of the UCITS or other UCIs concerned shall not exceed 2.5% of the relevant net assets under management. The Fund will indicate in its annual report the total management fees charged both to the relevant Compartment and to the UCITS and other UCIs in which such Compartment has invested during the relevant period.
- 22.27 The Fund may acquire no more than 25% of the units of the same UCITS and/or other UCI. This limit may be disregarded at the time of acquisition if at that time the gross amount of the units in issue cannot be calculated. In case of a UCITS or other UCI with multiple compartments, this restriction is applicable by reference to all units issued by the UCITS and/or UCI concerned, all Compartments combined.
- 22.28 The underlying investments held by the UCITS or other UCIs in which the Compartments invest do not have to be considered for the purpose of the investment restrictions set forth under Sections 22.5 to 22.18 above.
- 22.29 The investment limits laid down above may be exceeded whenever subscription rights attaching to securities which form part of the Fund's assets are being exercised.
- 22.30 If such limits are exceeded as a result of exercising subscription rights or for reasons beyond the Fund's control, the Fund shall endeavour as a priority aim to redress the balance, while taking due account of the interests of the Shareholders.

Investments between Compartments

- 22.31 A Compartment (the "Investing Compartment") may invest in one or more other Compartments. Any acquisition of shares of another Compartment (the "Target Compartment") by the Investing Compartment is subject to the following conditions:
- (a) the Target Compartment may not invest in the Investing Compartment;
 - (b) the Target Compartment may not invest more than 10% of its net assets in UCITS (including other Compartments) or other UCIs referred to in Section 22.3(e) above;
 - (c) the voting rights attached to the shares of the Target Compartment are suspended during the investment by the Investing Compartment; and
 - (d) the value of the share of the Target Compartment held by the Investing Compartment are not taken into account for the purpose of assessing the compliance with the EUR1,250,000 minimum capital requirement.

Prohibited investments

- 22.32 The Fund is prohibited from:
- (a) borrowing for the account of any Compartment, unless:
 - (i) the loan is only temporary and does not exceed 10% of the net assets of the Compartment in question;

- (ii) the borrowing is in the form of a back-to back loan.
- (b) acquiring shares carrying voting rights which would enable the Fund to exercise significant influence over the management of the issuing body;
- (c) acquiring more than:
 - (i) 10% of the non-voting shares of the same issuer;
 - (ii) 10% of the debt securities of the same issuer,
 - (iii) 10% of the Money Market Instruments of the same issuer.

However, the limits laid down in the second and third incidents above may be disregarded at the time of acquisition if at that time the gross amount of the debt securities or of the Money Market Instruments or the net amount of instruments in issue cannot be calculated.

The limits set out in sub-paragraphs (b) and (c) of Section 22.32 above shall not apply to:

- (i) Transferable Securities and Money Market Instruments issued or guaranteed by a Member State or its local authorities;
- (ii) Transferable Securities and Money Market Instruments issued or guaranteed by any Other State;
- (iii) Transferable Securities and Money Market Instruments issued by public international bodies of which one or more Member States are members; or
- (iv) shares held in the capital of a company incorporated in a non-EU member state which invests its assets mainly in the securities of issuing bodies having their registered office in that state where, under the legislation of that state, such holding represents the only way in which such Compartment's assets may invest in the securities of the issuing bodies of that state, provided, however, that such company in its investment policy complies with the limits laid down in articles 43, 46 and 48(1) and (2) of the 2010 Law.
- (d) making investments in precious metals or certificates representing these
- (e) entering into transactions involving commodities or commodity contracts, except that the Fund may employ techniques and instruments relating to Transferable Securities within the limits set out in Section 23 below;

purchasing or selling real estate or any option, right or interest therein, provided the Fund may invest in securities secured by real estate or interests therein or issued by companies which invest in real estate or interests therein;
- (f) carrying out uncovered sales of Transferable Securities, other financial instruments or Money Market Instruments referred to in Sections 22.3(e), 22.3(g) and 22.3(h) above;

- (g) mortgaging, pledging, hypothecating or otherwise encumbering as security for indebtedness any securities held for the account of any Compartment, except as may be necessary in connection with the borrowings mentioned in sub-paragraph (a) of Section 22.32 above, and then such mortgaging, pledging, or hypothecating may not exceed 10% of the net assets of each Compartment. In connection with swap transactions, option and forward exchange or futures transactions the deposit of securities or other assets in a separate account shall not be considered a mortgage, pledge or hypothecation for this purpose;
- (h) underwriting or sub-underwriting securities of other issuers.

23. EFFICIENT PORTFOLIO MANAGEMENT TECHNIQUES

General

- 23.0 The Fund may employ techniques and instruments relating to Transferable Securities and Money Market Instruments provided that such techniques and instruments are used for the purposes of efficient portfolio management within the meaning of, and under the conditions set out in, applicable laws, regulations and circulars issued by the CSSF from time to time. In particular, those techniques and instruments should not result in a change of the investment objective and policy of a Compartment or should not add substantial supplementary risks in comparison to the stated risk profile of any Compartment.
- 23.1 The risk exposure to a counterparty resulting from efficient portfolio management techniques and OTC Derivatives must be combined when calculating counterparty risk limits referred to under Section 22.7 above.
- 23.2 All revenues arising from efficient portfolio management techniques, net of direct and indirect operational costs and fees, will be returned to the Fund. In particular, fees and cost may be paid to agents of the Fund and other intermediaries providing services in connection with efficient portfolio management techniques as normal compensation of their services. Such fees may be calculated as a percentage of gross revenues earned by the Fund through the use of such techniques. Information on direct and indirect operational costs and fees that may be incurred in this respect as well as the identity of the entities to which such costs and fees are paid – as well as any relationship they may have with the Depositary or Investment Manager – will be available in the annual report of the Fund.

Securities lending and borrowing

- 23.3 The Fund may more specifically enter into securities lending transactions provided that the following rules are complied with in addition to the abovementioned conditions:
 - (a) The borrower in a securities lending transaction must be subject to prudential supervision rules considered by the CSSF as equivalent to those prescribed by EU law;
 - (b) The Fund may only lend securities to a borrower either directly or through a standardised system organised by a recognised clearing institution or through a lending system organised by a financial institution subject to prudential supervision rules considered by the CSSF as equivalent to those provided by the EU law and specialised in this type of transaction;

- (c) The Fund may only enter into securities lending transactions provided that it is entitled at any time under the terms of the agreement to request the return of the securities lent or to terminate the agreement.

Repurchase agreement transactions

- 23.4 The Fund may enter into repurchase agreements that consist of forward transactions at the maturity of which the Fund (seller) has the obligation to repurchase the assets sold and the counterparty (buyer) the obligation to return the assets purchased under the transactions. The Fund may further enter into reverse repurchase agreements that consist of forward transactions at the maturity of which the counterparty (seller) has the obligation to repurchase the asset sold and the Fund (buyer) the obligation to return the assets purchased under the transactions. The Fund may also enter into transactions that consist of the purchase/sale of securities with a clause reserving for the counterparty/Fund the right to repurchase the securities from the Fund/counterparty at a price and term specified by the parties in their contractual arrangements.
- 23.5 The Fund's involvement in such transactions is, however, subject to the additional following rules:
 - (a) The counterparty to these transactions must be subject to prudential supervision rules considered by the CSSF as equivalent to those prescribed by EU law;
 - (b) The Fund may only enter into reverse repurchase agreement and/or repurchase agreement transactions provided that it is able at any time (a) to recall the full amount of cash in a reverse repurchase agreement or any securities subject to a repurchase agreement or (b) to terminate the agreement in accordance with applicable regulations. However, fixed-term transactions that do not exceed seven days should be considered as arrangements on terms that allow the assets to be recalled at any time by the Fund.

Management of collateral and collateral policy

- 23.6 In the context of OTC Derivatives transactions and efficient portfolio management techniques, the Fund may receive collateral with a view to reduce its counterparty risk. This section sets out the collateral policy applied by the Fund in such case. All assets received by the Fund in the context of efficient portfolio management techniques (securities lending, repurchase or reverse repurchase transactions) shall be considered as collateral for the purposes of this section.

Eligible collateral

- 23.7 Collateral received by the Fund or a Compartment may be used to reduce its counterparty risk exposure if it complies with the criteria set out in applicable laws, regulations and circulars issued by the CSSF from time to time notably in terms of liquidity, valuation, issuer credit quality, correlation, risks linked to the management of collateral and enforceability. In particular, collateral should comply with the following conditions:
 - (a) Any collateral received other than cash should be of high quality, highly liquid and traded on a Regulated Market or multilateral trading facility with transparent pricing in order that it can be sold quickly at a price that is close to pre-sale valuation;

- (b) It should be valued on at least a daily basis and assets that exhibit high price volatility should not be accepted as collateral unless suitably conservative haircuts are in place;
- (c) It should be issued by an entity that is independent from the counterparty and is expected not to display a high correlation with the performance of the counterparty;
- (d) It should be sufficiently diversified in terms of country, markets and issuers with a maximum exposure of 20% of the Fund's or Compartment's net assets to any single issuer on an aggregate basis, taking into account all collateral received. By way of derogation, a Compartment may be fully collateralised in different Transferable Securities and Money Market Instruments issued or guaranteed by a EU Member State, one or more of its local authorities, a third country, or a public international body to which one or more EU Member States belong, provided the Compartment receives securities from at least six different issues and any single issue does not account for more than 30% of the Compartment's NAV. Accordingly a Compartment may be fully collateralised in securities issued or guaranteed by an eligible OECD Member State.
- (e) It should be capable of being fully enforced by the Fund at any time without reference to or approval from the counterparty.

23.8 Subject to the abovementioned conditions, collateral received by the Fund may consist of:

- (a) Cash and cash equivalents, including short-term bank certificates and Money Market Instruments;
- (b) Bonds issued or guaranteed by a OECD Member State or by their local public authorities or by supranational institutions and undertakings with EU, regional or worldwide scope;
- (c) Shares or units issued by money market UCIs calculating a daily net asset value and being assigned a rating of AAA or its equivalent;
- (d) Shares or units issued by UCITS investing mainly in bonds/shares mentioned in (e) and (f) below
- (e) Bonds issued or guaranteed by first class issuers offering adequate liquidity
- (f) Shares admitted to or dealt in on a Regulated Market of a EU Member State or on a stock exchange of a OECD Member State, on the condition that these shares are included in a main index

23.9 Notwithstanding the previous Section, in line with the CSSF Circular 14/592, which transposed the Guidelines issued by the European Securities and Market Authority (ESMA) "ESMA/2014/937", at the date of the Prospectus, collateral will be only received in:

- (a) Cash and cash equivalents, including short-term bank certificates and Money Market Instruments.
- (b) Bonds issued or guaranteed by a OECD Member State or by their local public authorities or by supranational institutions and undertakings with EU, regional or worldwide scope.

- (c) To the extent that this policy should be reviewed by the Investment managers, the Prospectus will be amended accordingly.

Level of collateral required

- 23.10 The level of collateral required across all efficient portfolio management techniques or OTC Derivatives will be at least 100% of the exposure to the relevant counterparty. This will be achieved by applying the haircut policy set out under Sections 23.11 to 23.17 below.

Haircut policy

- 23.11 Collateral will be valued on a daily basis, using available market prices and taking into account appropriate discounts which will be determined by the Fund for each asset class based on its haircut policy. This policy takes into account a variety of factors, depending on the nature of the collateral received, such as the issuer's credit standing, the maturity, currency, price volatility of the assets and, where applicable, the outcome of liquidity stress tests carried out by the Fund under normal and exceptional liquidity conditions. No haircut will generally be applied to cash collateral.
- 23.12 In case of non-cash collateral, a haircut will be applied. The Investment Manager will only accept non-cash collateral which does not exhibit high price volatility. The non-cash collateral received on behalf of the Fund will typically be government debts and supranational debt securities.

- 23.13 For non-cash collateral, a haircut of 1% to 8% will be applied as follows:

Government debts and supranational debt securities	Remaining stated maturity of	Haircut applied
	Not exceeding 1 year	1%
	1 to 5 years	3%
	5 to 10 years	4%
	10 to 20 years	7%
	20 to 30 years	8%

- 23.14 Non-cash collateral received by the Fund may not be sold, re-invested or pledged.

- 23.15 Cash collateral received by the Fund can only be:

- (a) placed on deposit with credit institutions which have their registered office in a EU Member State or, if their registered office is located in a third-country, are subject to prudential rules considered by the CSSF as equivalent to those laid down in EU law;
- (b) invested in highly rated government bonds;
- (c) used for the purpose of reverse repurchase transactions provided the transactions are with credit institutions subject to prudential supervision and the Fund is able to recall at any time the full amount of cash on accrued basis;

- (d) invested in short-term money market funds as defined in the Guidelines on a Common Definition of European money market funds.

23.16 Re-invested cash collateral should be diversified in accordance with the diversification requirements applicable to non-cash collateral under Section 23.7 above.

23.17 The Fund may incur a loss in reinvesting the cash collateral it receives. Such a loss may arise due to a decline in the value of the investment made with cash collateral received. A decline in the value of such investment of the cash collateral would reduce the amount of collateral available to be returned by the Fund to the counterparty at the conclusion of the transaction. The Fund would be required to cover the difference in value between the collateral originally received and the amount available to be returned to the counterparty, thereby resulting in a loss to the Fund.

24. RISK MANAGEMENT PROCESS

The Fund will employ a risk-management process which enables it with the Investment Managers to monitor and measure at any time the risk of the positions and their contribution to the overall risk profile of each Compartment. The Fund or the relevant Investment Manager will employ, if applicable, a process for accurate and independent assessment of the value of any OTC Derivatives.

APPENDIX 1

COMPARTMENTS ALREADY IN OPERATION

This Appendix 1 will be updated to take account of any changes in one of the Compartments already operating or whenever a new Compartment is set up.

1. PROTEA FUND – FIXED INCOME*

- 1.1 *The compartment Protea Fund – Fixed Income (the “Compartment”) is strictly dedicated to Institutional Investors

Investors’ profile

- 1.2 The Compartment is a low/medium risk vehicle aiming to provide preservation of capital in euro terms. The Compartment will be suitable for conservative, risk averse investors, for whom income and preservation of principal are their primary objectives over the long term. Investors should be aware, however, that the preservation of capital is not guaranteed.
- 1.3 The recommended duration of placement for investors is 3 to 5 years.

Objectives and investment policy

- 1.4 This Compartment aims to provide capital preservation and income by investing mainly in bonds (including but not limited to fixed-rate or floating-rate securities, zero-coupon bonds and Treasury bonds), with a minimum credit rating of A, measured by any leading credit rating agencies or with quality considered as equivalent by the Investment Manager. The Compartment may also invest in equity and equity related securities, such as ordinary or preferred shares, convertible bonds, and to a lesser extent, subscription rights on Transferable Securities, warrants on Transferable Securities and options on Transferable Securities.
- 1.5 The Compartment may also invest, within the limits set out in Section 22 “Investment restrictions” of the main body of the Prospectus, in other open-ended UCIs.
- 1.6 The choice of investments will not be limited geographically, nor by economic sector, nor in terms of currencies in which investments will be denominated.
- 1.7 If the Investment Manager considers this to be in the best interest of the Shareholders, the Compartment may, for defensive purposes and on an ancillary basis, also hold, up to 100% of its net assets, cash deposits, money market funds and Money Market Instruments whose residual maturity does not exceed 12 months.
- 1.8 Within the limits set forth in the in Section 22 “Investment restrictions” of the main body of the Prospectus, the Compartment may use derivative techniques and instruments for hedging. The aggregate sum of commitment arising from the use of these instruments shall not exceed the value of the Compartment’s net assets.
- 1.9 In particular, the Compartment may use call or put options and/or futures and/or forward contracts on Transferable Securities, interest rates, currencies, indices and other financial instruments, such as swaps agreements, traded on Regulated Markets or OTC.

Risk consideration specific to the Compartment

- 1.10 The Compartment is subject to the specific risks linked to interest rates risks linked to investment in debt securities as well as to risks linked to investments in equity securities and UCIs and market volatility linked to the investment in derivative instruments and warrants; to the extent the Compartment may invest in securities of emerging markets, it may further be subject to risks related to such type of investments. Please refer to the Section 15 headed “Risk considerations” above for further details in this connection.

Global risk exposure

- 1.11 The global risk exposure of the Compartment is monitored by the commitment approach. This approach measures the exposure related to positions on derivative techniques and instruments, which may not exceed the value of the Compartment’s net assets.

Performance

- 1.12 The performance of the Compartment will be disclosed in the KIID of the Compartment. In this connection, investors should note that past performance is not necessarily a guide to future performance. Investors may not get back the full amount invested, as prices of Shares and the income from them may fall as well as rise.

Income distribution policy

- 1.13 This Compartment pursues a policy of achieving capital growth and reinvests income earned; as a result, no dividend shall be paid out.

Reference Currency

- 1.14 The Reference Currency is the EUR.

Frequency of calculation of NAV

2. PROTEA FUND – EQUITY SELECTION

Investors' profile

- 2.1 The compartment Protea Fund – Equity Selection (the “Compartment”) is a medium/high risk vehicle aiming to provide capital growth. It may be suitable for investors who are seeking long term growth potential offered through investment in equities and are more concerned with maximising long term returns than minimising possible short term losses. Hence it requires an investment horizon of at least 3 years.

Objectives and investment policy

- 2.2 The Compartment's objective is to provide capital growth primarily through investment in equity. To achieve this, the Compartment will mainly invest in a selected portfolio of equity and equity related securities of companies worldwide. Investments may include ordinary or preferred shares, convertible bonds, reverse convertible bonds and to a lesser extent, subscription rights on Transferable Securities, warrants on Transferable Securities and options on Transferable Securities. Investment in equity as per the foregoing may be made either directly or indirectly via investment in other UCIs, within the limits set out in in Section 22 “Investment restrictions” of the main body of the Prospectus.
- 2.3 On an ancillary basis, the Compartment may also invest in any kind of debt securities.
- 2.4 The choice of investments will not be limited geographically, nor by economic sector, nor in terms of currencies in which investments will be denominated.

Nonetheless, investments in debt securities, within the meaning of the EU Savings Directive, will be limited to 15% of the Compartment's net assets; in exceptional circumstances only, when market conditions so command, such limit may be exceeded but, in any event, investments of this kind will then not exceed 40% of the Compartment's net assets. It is therefore presently expected that capital gains realised by Shareholders on the disposal of Shares in the Compartment will not be subject to the reporting or withholding requirements imposed by the EU Savings Directive.
- 2.6 Within the limits set out in in Section 22 “Investment restrictions” in the main body of the Prospectus, the Investment Manager may use derivative techniques and instruments for hedging purposes and on an ancillary basis for efficient portfolio management, in order to improve the returns of the Compartment. In particular, the Compartment may use call or put options and/or futures and/or forward contracts on Transferable Securities, interest rates, indices and other financial instruments, such as swaps agreements, traded on Regulated Markets or OTC, including interest rate swaps and total return swaps, as well as currency related derivatives. Always on an ancillary basis, the Compartment may also invest in any kind of structured products provided that the underlying respects the investment policy and investment restrictions.

Risk considerations specific to the Compartment

- 2.7 The Compartment is subject to the specific risks linked to investments in equity securities and UCIs as well as to market volatility linked to the investment in derivative instruments, structured products and warrants. Furthermore, a risk of illiquidity of the Compartment may not be excluded. Finally, to the extent the Compartment may invest in securities of emerging markets, it may further be subject to risks related to such type of investments. For full details of the risks applicable to investing in this Compartment, Shareholders are advised to refer to Section 15 headed "Risk considerations" above for further details in this connection.

In this connection, investors should note that past performance is not necessarily a guide to future performance. In order to further diversify the potentially restricted liquidity of this type of investment, the Compartment will seek to invest preferably through numerous issues and/or issuers.
- 3.7 The investment objective of the Compartment includes preserving a neutral bias; hence no restriction applies to currencies, sectors or regional weights (including emerging markets).
- 3.8 There can be no assurance that the investment objective will be achieved.

Due to the fact that the Sub-fund invests in other UCIs, the Shareholder is exposed to a possible duplication of fees and charges. However, the maximum percentage of the fixed management fee at the level of the target UCIs will be 2%.
- 3.11 In accordance with the investment restrictions described in Section 22 of the main body of the Prospectus, the Compartment may use all types of derivative instrument traded on a Regulated Market for hedging and for investment purposes. Those products may also be concluded OTC, provided that they are contracted with establishments subject to prudential supervision.

Liquidation costs for such assets can be higher than usual and therefore may have a negative impact on the performance of the Compartment.

Frequency of calculation of NAV

- 4.20 Each Wednesday is a Valuation Day. In the event any such Wednesday is not a Business Day, the Valuation Day is on the immediately following Business Day.

Management fee specific to this Compartment

- 4.21 Management fee: 1.5%

Performance fee

- 4.22 The Investment Manager will receive a performance fee, paid quarterly, based on the net asset value, equivalent to 20% of the performance of the NAV per Share exceeding the Reference NAV (as defined hereafter).
- 4.23 The performance fee is calculated on the basis of the NAV after deduction of all expenses, liabilities, and management fees (but not performance fee), and is adjusted to take account of all subscriptions and redemptions.
- 4.24 The performance fee is equal to the out performance of the NAV per Share multiplied by the number of Shares in circulation during the calculation period. No performance fee will be due if the NAV per Share before performance fee turns out to be below the Reference NAV for the calculation period in question.
- 4.25 The reference NAV is the latest NAV per Share after deduction of performance fee during the previous calculation period (the "Reference NAV"). The reference NAV for the first period is the initial NAV per Share.

- 4.27 If Shares are redeemed on a date other than that on which a performance fee is paid while provision has been made for performance fees, the performance fees for which provision has been made and which are attributable to the Shares redeemed will be paid at the end of the period even if provision for performance fees is no longer made at that date. Gains which have not been realised may be taken into account in the calculation and payment of performance fees.

4.28 In case of subscription, the performance fee calculation is adjusted to avoid that this subscription impacts the amount of performance fee accruals. To perform this adjustment, the performance of the NAV per Share against the Reference NAV until the subscription date is not taken into account in the performance fee calculation. This adjustment amount is equal to the product of the number of subscribed Shares by the positive difference between the subscription price and the Reference NAV at the date of the subscription. This cumulated adjustment amount is used in the performance fee calculation until the end of the relevant period and is adjusted in case of subsequent redemptions during the period.

4.29 The calculation period corresponds to each calendar quarter.

4.30 Performance fees are payable within 15 Business Days following the relevant quarter.

4.31 The formula for the calculation of the performance fee is as follows:

$$\begin{aligned}
 F &= 0 && \text{If } (B / E - 1) \leq 0 \\
 F &= (B / E - 1) * E * C * A && \text{If } (B / E - 1) > 0 \\
 \\
 \text{The new Reference NAV} &= D \text{ at the end of the previous period} \\
 \\
 \text{Number of Shares outstanding} &= A \\
 \text{NAV per Share before performance} &= B \\
 \text{Performance fee rate (20\%)} &= C \\
 \text{NAV per Share after performance} &= D \\
 \text{Reference NAV} &= E \\
 \text{Performance fee} &= F
 \end{aligned}$$

Income Distribution Policy

- 8.14 This Compartment pursues a policy of achieving capital growth and reinvests income earned; as a result, no dividend shall be paid out. However, the Directors reserve their right to revise this policy at their discretion.

Frequency of calculation of NAV

- 8.20 The Net Asset Value is calculated on each Wednesday (which is the Valuation Day), based on pricing day as of Tuesday. In the event any such Wednesday is not a Business Day, the Net Asset Value is calculated on the immediately following Business Day.
- 8.21 For information purposes only, the NAV will be calculated as of the last calendar day of the month (the "Non Tradable NAV"). Subscriptions, redemptions and conversions cannot be accepted and dealt on a Non Tradable NAV.

Management fee and performance fee specific to this Compartment

- 8.22 The Fund will pay to the Investment Manager a management fee and an annual performance fee as described as follows:

Management fee

Class I Share	max. 1.5% p.a.
Class R Share	max. 1.5% p.a.

- 8.23 The investment management fee will be calculated, on a monthly basis, in arrear, on the average net assets of the relevant category of Share of the Compartment.

Performance fee

- 8.24 The Investment Manager will receive a performance fee, accrued on each Valuation Day, paid yearly, based on the Net Asset Value, equivalent to 20% of the performance of the NAV per Share over the return of the relevant benchmark index, S&P 500 Total Return Index (SPXT), by applying the high water mark principle.

- 8.25 The high water mark is defined as the last reference outperformance index on which a performance fee has been paid (the “High Water Mark”).
- 8.26 The performance fee is calculated on the basis of the NAV after deduction of all expenses, liabilities, and management fees (but not performance fee), and is adjusted to take account of all subscriptions and redemptions.
- 8.27 Provision will be made for this performance fee on each Valuation Day. If the NAV per Share underperforms the benchmark during the calculation period, the provisions made in respect of the performance fee will be reduced accordingly. If these provisions fall to zero, no performance fee will be payable.
- 8.28 If Shares are redeemed on a date other than that on which a performance fee is paid while provision has been made for performance fees, the performance fees for which provision has been made and which are attributable to the Shares redeemed will be paid at the end of the period even if provision for performance fees is no longer made at that date.
- 8.29 In case of subscription, the performance fee calculation is adjusted to avoid that this subscription impacts the amount of performance fee accruals. To perform this adjustment, the outperformance of the NAV per Share against the benchmark index until the subscription date is not taken into account in the performance fee calculation. This adjustment amount is equal to the product of the number of subscribed Shares by the positive difference between the subscription price and the High Water Mark adjusted by the benchmark performance at the date of the subscription. This cumulated adjustment amount is used in the performance fee calculation until the end of the relevant period and is adjusted in case of subsequent redemptions during the period.
- 8.30 Calculation period shall correspond to each calendar year.
- 8.31 The formula for the calculation of the performance fee is as follows:

Performance fee	: $F = (RI(t) - C) * D * A$ If $RI(t) > C$
Reference Index (Outperformance index)	: $RI(t) = RI(y-1) + (P-M) * E$
High Water Mark (Based on outperformance index RI)	: C (set up annually)
The new High Water Mark	if $F > 0 \Rightarrow RI(y-1)$ if $F = 0 \Rightarrow C(Y-1)$
Number of shares outstanding	: A
NAV per share before performance fee (end of calculation period)	: B
% change of NAV over the calculation period	: $P = B/E - 1$
Benchmark performance over the calculation period	: M
Reference outperformance index of first calculation period)	: RI (=100 at the beginning

Performance fees rate : D=20%
 Reference NAV (adjusted of previous performance fee)
 at the beginning of the period : E

RI(y-1): Reference Index at the end of the precedent calculation period
 C(Y-1): High Water Mark at the end of the precedent calculation period

- 8.32 This performance fee methodology enables the Shareholder to pay a performance fee to the Investment Manager only if:
- (a) the Compartment generates a performance higher than the benchmark; and
 - (b) the outperformance index is higher than the historical highest point (High Water Mark), meaning if the Compartment delivers a negative outperformance one quarter, it has to outperform at least by this negative outperformance before charging a performance fee.
- 8.33 For the first year, the calculation period will run as from the launching date of the Compartment to the 31 December 2015.

Performance fee

- 9.24 The Investment Manager will receive a performance fee, accrued on each valuation date, paid yearly, based on the Net Asset Value, equivalent to 20 % of the performance of the NAV per Share over the return of the relevant benchmark index, MSCI TR NetAC Asia Pacific Ex Japan USD (NDUECAPF Index) by applying the High Water Mark principle.
- 9.25 The high water mark is defined as the last Reference outperformance index, on which a performance fee has been paid (the "High Water Mark").

PROTEA FUND

- 9.26 The performance fee is calculated on the basis of the NAV after deduction of all expenses, liabilities, and management fees (but not performance fee), and is adjusted to take account of all subscriptions and redemptions.
- 9.27 Provision will be made for this performance fee on each Valuation Day. If the NAV per Share underperforms the benchmark during the calculation period, the provisions made in respect of the performance fee will be reduced accordingly. If these provisions fall to zero, no performance fee will be payable.
- 9.28 If Shares are redeemed on a date other than that on which a performance fee is paid while provision has been made for performance fees, the performance fees for which provision has been made and which are attributable to the Shares redeemed will be paid at the end of the period even if provision for performance fees is no longer made at that date.
- 9.29 In case of subscription, the performance fee calculation is adjusted to avoid that this subscription impacts the amount of performance fee accruals. To perform this adjustment, the outperformance of the NAV per Share against the benchmark index until the subscription date is not taken into account in the performance fee calculation. This adjustment amount is equal to the product of the number of subscribed Shares by the positive difference between the subscription price and the High Water Mark adjusted by the benchmark performance at the date of the subscription. This cumulated adjustment amount is used in the performance fee calculation until the end of the relevant period and is adjusted in case of subsequent redemptions during the period.
- 9.30 Calculation period shall correspond to each calendar year.
- 9.31 The formula for the calculation of the performance fee is as follows:

Performance fee	: $F = (RI(t) - C) * D * A$ If $RI(t) > C$
Reference index (outperformance index)	: $RI(t) = RI(y-1) + (P-M) * E$
High Water Mark (based on outperformance index RI)	: C (set up annually)
The new High Water Mark	if $F > 0 \Rightarrow RI(y-1)$ if $F = 0 \Rightarrow C(Y-1)$
Number of Shares outstanding	: A
NAV per Share before performance fee (end of calculation period)	: B
% change of NAV over the calculation period	: $P = B/E - 1$
Benchmark performance over the calculation period	: M
Reference outperformance index	: RI (=100 at the beginning of first calculation period)
Performance fees rate	: D=20%

Reference NAV (adjusted of previous performance fee)
at the beginning of the period : E

RI(y-1): Reference Index at the end of the precedent calculation period
C(Y-1): High Water Mark at the end of the precedent calculation period

- 9.32 This performance fee methodology enables the Shareholder to pay a performance fee to the Investment Manager only if:
- (a) the Compartment generates a performance higher than the benchmark; and
 - (b) the outperformance index is higher than the historical highest point (High Water Mark), meaning if the Compartment delivers a negative outperformance one quarter, it has to outperform at least by this negative outperformance before charging a performance fee.
- 9.33 For the first year, the calculation period will run as from the launching date of the Compartment to the 31 December 2015.

Frequency of calculation of NAV

13.22 The Net Asset Value is calculated on each Wednesday (which is the Valuation Day), based on pricing day as of Tuesday. In the event any such Wednesday is not a Business Day, the Net Asset Value will be calculated on the immediately following Business Day.

Management fee and performance fee specific to this Compartment

13.23 The Fund will pay to the Investment Manager a management fee and an annual performance fee as described as follows:

Management fee

Investment management fee: max.: 1.5% p.a.

The investment management fee will be calculated, on a quarterly basis, in arrear, on the average net assets of the relevant category of Shares.

Performance fee

13.24 The Investment Manager will receive a performance fee, accrued on each Valuation Day, paid yearly, based on the net asset value, equivalent to 10% of the performance of the NAV per Share exceeding the High Water Mark (as defined hereafter).

13.25 The performance fee is calculated on the basis of the NAV after deduction of all expenses, liabilities, and management fees (but not performance fee), and is adjusted to take account of all subscriptions and redemptions.

- 13.26 The performance fee is equal to the out performance of the NAV per Share multiplied by the number of Shares in circulation during the calculation period. No performance fee will be due if the NAV per Share before performance fee turns out to be below the High Water Mark for the calculation period in question.
- 13.27 The high water mark is defined as the greater of the following two figures:

- 13.28 The High Water Mark will be decreased by the dividends paid to Shareholders.

- 13.30 If Shares are redeemed on a date other than that on which a performance fee is paid while provision has been made for performance fees, the performance fees for which provision has been made and which are attributable to the Shares redeemed will be paid at the end of the period even if provision for performance fees is no longer made at that date. Gains which have not been realised may be taken into account in the calculation and payment of performance fees.
- 13.31 In case of subscription, the performance fee calculation is adjusted to avoid that this subscription impacts the amount of performance fee accruals. To perform this adjustment, the performance of the NAV per Share against the High Water Mark until the subscription date is not taken into account in the performance fee calculation. This adjustment amount is equal to the product of the number of subscribed Shares by the positive difference between the subscription price and the High Water Mark at the date of the subscription. This cumulated adjustment amount is used in the performance fee calculation until the end of the relevant period and is adjusted in case of subsequent redemptions during the period.
- 13.32 Calculation period shall correspond to each calendar year.
- 13.33 Performance fees are payable within 20 Business Days following the closing of the yearly accounts.
- 13.34 For the first year, the calculation period will run as from the launching date of the Compartment to 31 December 2015.
- 13.35 The formula for the calculation of the performance fee is as follows:

$$F = 0 \quad \text{If } (B / E - 1) \leq 0$$

$$F = (B / E - 1) * E * C * A \quad \text{If } (B / E - 1) > 0$$

- 14.14 The Compartment may ensure that its total commitment arising from financial derivative instruments, for purposes other than hedging, does not exceed 100% of its net assets.
- 14.15 If the Investment Manager considers this to be in the best interest of the Shareholders, on a temporary basis and for defensive purposes, the Compartment may also, hold, up to 100% of its net assets, liquidities as among others cash deposits, money market funds and Money Market Instruments.

Fees specific to this Compartment

- 20.28 The Fund will pay to the Investment Manager a management fee as described as follows:

Investment management fee

Class I Shares	max.: 1.25% p.a.
Class R Shares	max.: 1.75% p.a.

Other fees

- 20.29 The fees related to distributors and intermediaries will be limited to a maximum of 1% of the subscription amounts.

Performance fee

- 20.30 The Investment Manager will receive a performance fee, accrued on each Valuation Day, paid yearly, based on the Net Asset Value, equivalent to 10% of the performance of the NAV per Share exceeding the High Water Mark (as defined hereafter).
- 20.31 The performance fee is calculated on the basis of the NAV after deduction of all expenses, liabilities, and management fees (but not performance fee), and is adjusted to take account of all subscriptions and redemptions.
- 20.32 The performance fee is equal to the out performance of the NAV per Share multiplied by the number of Shares in circulation during the calculation period. No performance fee will be due if the NAV per Share before performance fee turns out to be below the High Water Mark for the calculation period in question.
- 20.33 The high water mark is defined as the greater of the following two figures:
- (a) the last highest Net Asset Value per Share on which a performance fee has been paid; and
 - (b) the initial NAV per Share,
- hereafter referred to as the “High Water Mark”.
- 20.34 The High Water Mark will be decreased by the dividends paid to Shareholders.
- 20.35 Provision will be made for this performance fee on each Valuation Day. If the NAV per Share decreases during the calculation period, the provisions made in respect of the performance fee will be reduced accordingly. If these provisions fall to zero, no performance fee will be payable.
- 20.36 If Shares are redeemed on a date other than that on which a performance fee is paid while provision has been made for performance fees, the performance fees for which provision has been made and which are attributable to the Shares redeemed will be paid at the end of the period even if provision for performance fees is no longer made at that date. Gains which have not been realised may be taken into account in the calculation and payment of performance fees.
- 20.37 In case of subscription, the performance fee calculation is adjusted to avoid that this subscription impacts the amount of performance fee accruals. To perform this adjustment, the performance of the NAV per Share against the High Water Mark until the subscription date is not taken into account in the performance fee calculation. This adjustment amount is equal to the product of the number of subscribed Shares by the positive difference between the subscription price and the High Water Mark at the date of the subscription. This cumulated adjustment amount is used in the performance fee calculation until the end of the relevant period and is adjusted in case of subsequent redemptions during the period.
- 20.38 Calculation period shall correspond to each calendar year.
- 20.39 Performance fees are payable within 20 Business Days following the closing of the yearly accounts.

PROTEA FUND

20.40 For the first year, the calculation period will run as from the launching date of the Compartment to 31 December 2016.

20.41 The formula for the calculation of the performance fee is as follows:

$$\begin{aligned} F &= 0 && \text{If } (B / E - 1) \leq 0 \\ F &= (B / E - 1) * E * C * A && \text{If } (B / E - 1) > 0 \\ \text{The new high water mark} &= \text{if } F > 0; D \\ &&& \text{If } F = 0; E \\ \text{Number of shares outstanding} &= A \\ \text{NAV per share before performance} &= B \\ \text{Performance fee rate (10\%)} &= C \\ \text{NAV per share after performance} &= D \\ \text{High water mark} &= E \\ \text{Performance fees} &= F \end{aligned}$$

Initial Subscription Period

- 21.21 Benchmark = $0,4 \times \text{S\&P500 index} + 0,4 \times \text{Nikkei225} + 0,2 \times \text{Eurostoxx50}$ (calculation made only with the % performance of each index in its own currency, so without currency effects) (the "Benchmark").

Fees specific to this Compartment

Investment management fee

- 21.22 The Fund will pay to the Investment Manager a management fee up to 2% p.a. in respect of class I Shares and a management fee up to 2.5% p.a. in respect of class R Shares.
- 21.23 The investment management fee will be calculated on a monthly basis, in arrear, on the average net assets of the relevant category of Shares of the Compartment.

Performance fee

- 21.24 The Investment Manager will receive a performance fee, accrued on each Valuation Day, paid yearly, based on the Net Asset Value, equivalent to 20% of the performance of the NAV per Share (measured against the High Water Mark) over the return of the relevant Benchmark (as defined above), calculated since the last performance fee payment.
- 21.25 The performance fee is calculated on the basis of the NAV after deduction of all expenses, liabilities, and management fees (but not performance fee), and is adjusted to take account of all subscriptions and redemptions.
- 21.26 The performance fee is equal to the outperformance of the NAV per Share multiplied by the number of Shares in circulation during the calculation period. No performance fee will be due if the performance of the NAV per Share before performance fee turns out to be below the performance of the Benchmark since the last performance fee payment (or since inception if there were no previous performance fee payment).
- 21.27 The High Water Mark is defined as the last Net Asset Value per Share on which a performance fee has been paid. The first High Water Mark is the initial NAV per share.

The High Water Mark will be decreased by the dividends paid to Shareholders.

- 21.28 Provision will be made for this performance fee on each Valuation Day. If the NAV per Share underperforms the Benchmark during the calculation period, the provisions made in respect of the performance fee will be reduced accordingly. If these provisions fall to zero, no performance fee will be payable.

- 21.29 If Shares are redeemed on a date other than that on which a performance fee is paid while provision has been made for performance fees, the performance fees for which provision has been made and which are attributable to the Shares redeemed will be paid at the end of the period even if provision for performance fees is no longer made at that date. Gains which have not been realised may be taken into account in the calculation and payment of performance fees.
- 21.30 In case of subscription, the performance fee calculation is adjusted to avoid that this subscription impacts the amount of performance fee accruals. To perform this adjustment, the outperformance of the NAV per Share against the Benchmark until the subscription date is not taken into account in the performance fee calculation. This adjustment amount is equal to the product of the number of subscribed Shares by the positive difference between the subscription price and the High Water Mark adjusted by the Benchmark performance at the date of subscription. This cumulated adjustment amount is used in the performance fee calculation until the end of the relevant period and is adjusted in case of subsequent redemptions during the period.
- 21.31 Calculation period shall correspond to each calendar year.
- 21.32 Performance fees are payable within 20 Business Days following the closing of the yearly accounts.
- 21.33 The formula for the calculation of the performance fee is as follows :

$$\begin{aligned}
 F &= 0 && \text{If } [(B / E - 1) - (G / H - 1)] \leq 0 \\
 F &= \frac{[(B / E - 1) - (G / H - 1)] * E * C * A}{\text{If } [(B / E - 1) - (G / H - 1)] > 0} \\
 \text{The new High Water Mark} &= \begin{cases} \text{If } F=0 \Rightarrow E \\ \text{If } F>0 \Rightarrow D \end{cases} \\
 \\
 \text{Number of shares outstanding} &= A \\
 \text{NAV per share before performance} &= B \\
 \text{Performance fee rate (20\%)} &= C \\
 \text{NAV per share after performance} &= D \\
 \text{High Water Mark} &= E \\
 \text{Performance fees} &= F \\
 \text{Benchmark value at the valuation date} &= G \\
 \text{Benchmark value at the last performance fees payment date} &= H
 \end{aligned}$$

- 21.34 This performance fee methodology enables the Shareholder to pay a performance fee to the Investment Manager only if :
- (a) the Compartment generates a performance higher than the Benchmark ; and
 - (b) the outperformance index is higher than the historical highest point (High Water Mark), meaning if the Compartment delivers a negative performance one quarter, it has to outperform at least by this negative outperformance before charging a performance fee.
- 21.35 For the first year, the calculation period will run as from the launching date of the Compartment to 31 December 2016.

Other fees

- 21.36 Subscription fee: up to 3% (but currently at 0%).
- 21.37 Redemption fee : N/A
