Auditor	KPMG Austria GmbH

### Legal notice

The software used performs calculations on the basis of more than the two decimal places displayed. Minor discrepancies cannot be ruled out due to further calculations using published results.

The value of a unit is calculated by dividing the entire value of the investment fund inclusive of its income by the number of units. The total value of the investment fund is calculated on the basis of the current market prices of the securities, money market instruments and subscription rights in the fund plus the value of the fund's financial investments, cash holdings, credit balances, receivables and other rights net of its payables. That value will be calculated by the custodian bank.

The net assets are calculated in accordance with the following principles:

- a) The value of assets quoted or traded on a stock exchange or other regulated market shall be determined, in principle, on the basis of the most recently available price.
- b) Where an asset is not quoted or traded on a stock market or another regulated market or where the price for an asset quoted or traded on a stock market or another regulated market does not appropriately reflect its actual market value, the prices provided by reliable data providers or, alternatively, market prices for equivalent securities or other recognized market valuation methods shall be used.

Raiffeisen KAG uses the method developed by OeKB (Österreichische Kontrollbank AG) to calculate the fund's performance, on the basis of data provided by the custodian bank (where payment of the redemption price is suspended, using indicative values). Some costs – the subscription fee (not exceeding 5.00 % of the invested amount) and any redemption fee (not exceeding 0.00 % of the sold amount) – are not included in the performance calculation. Depending on their concrete value, they will reduce a performance accordingly. Past results do not permit any reliable inferences as to the future performance of the fund.

Dear unitholder,

Raiffeisen Kapitalanlage-Gesellschaft m.b.H. is pleased to present its semi-annual fund report for Raiffeisen European SmallCap for the reporting period from Aug 1, 2017 to Jan 31, 2018. The accounting is based on the price calculation as of Jan 31, 2018.

## Fund investment policy report

The environment for European small cap stocks was favorable in the past six months, with the small cap segment performing slightly better than the broad European market. The reason for the optimism on the stock markets was the economic recovery in Europe. Expectations of growth in Europe were raised slightly over the year. Small caps are usually outperformers in times of rising economic expansion. Future-oriented sectors, such as technology and biotechnology, benefited most from the positive environment.

In the period under review, the fund delivered a performance of 7 %, benefiting from its stock-picking in the financial sector. The company Grenke stood out. Further positive contributions were made by AT&S, Temenos, Umicore and ENCE. Negative contributions ensued from the fund's stock-picking in the industrial sector, where Zumtobel, CTT and Lisi delivered disappointing performances. The fund's portfolio included few technology and biotechnology companies. A number of takeovers occurred in the small cap universe. The fund only benefited from the Stada Arzneimittel takeover which took place in the last half year.

## Makeup of fund assets in EUR

Any discrepancies in terms of the market value or the share of the fund assets result from rounding-off.

**UCITS** refers to units in an undertaking for collective investment in transferable securities

**§ 166 InvFG** refers to units in investment funds in the form of "other asset portfolios"

**§ 166 (1) item 2 InvFG** refers to units in special funds

**§ 166 (1) item 3 InvFG** refers to units in undertakings for collective investment in transferable securities pursuant to § 166 (1) item 3 InvFG  
(such as alternative investments/hedge funds)

**§ 166 (1) item 4 InvFG** refers to units in real estate funds

#### Information on securities lending transactions and repurchase agreements

During the reporting period, no securities lending transactions were performed on behalf of the fund. Accordingly, the information concerning securities lending transactions which is stipulated in § 8 of the Austrian Securities Lending and Repurchase Agreement Ordinance and Art. 13 of Regulation (EU) No. 2015/2365 is not required.

During the reporting period, no repurchase agreements were concluded on behalf of the fund. Accordingly, the information concerning repurchase agreements which is stipulated in § 8 of the Austrian Securities Lending and Repurchase Agreement Ordinance and Art. 13 of Regulation (EU) No. 2015/2365 is not required.

#### Total return swaps and similar derivative instruments

A total return swap is a credit derivative instrument. Income and fluctuations in the value of the underlying financial instrument (underlying instrument or reference asset) are exchanged for fixed interest payments.

The fund did not enter into total return swaps or similar derivative instruments in the period under review.
