Legal notice

The software used performs calculations on the basis of more than the two decimal places displayed. Minor discrepancies cannot be ruled out due to further calculations using published results.

The value of a unit is calculated by dividing the entire value of the investment fund inclusive of its income by the number of units. The total value of the investment fund is calculated on the basis of the current market prices of the securities, money market instruments and subscription rights in the fund plus the value of the fund's financial investments, cash holdings, credit balances, receivables and other rights net of its payables. That value will be calculated by the custodian bank.

The net assets are calculated in accordance with the following principles:

- a) The value of assets quoted or traded on a stock exchange or other regulated market shall be determined, in principle, on the basis of the most recently available price.
- b) Where an asset is not quoted or traded on a stock market or another regulated market or where the price for an asset quoted or traded on a stock market or another regulated market does not appropriately reflect its actual market value, the prices provided by reliable data providers or, alternatively, market prices for equivalent securities or other recognized market valuation methods shall be used.

Dear unitholder,

Raiffeisen Kapitalanlage-Gesellschaft m.b.H. is pleased to present its annual fund report for Raiffeisen Energy Equities for the financial year from Jun 1, 2017 to May 31, 2018. The accounting is based on the price calculation as of May 30, 2018.

Development of the fund assets and income statement

Performance in financial year (fund performance)

Distributing units (R) (AT0000688668)

Net asset value per unit at start of financial year in EUR	104.60
Distribution on Aug 16, 2017 (net asset value: EUR 96.69) of EUR 1.0500, corresponds to 0.010859 units	
Net asset value per unit at end of financial year in EUR	116.75
Total value incl. units purchased through distribution (1.010859 x 116.75)	118.02
Net income/net reduction per unit	13.42

Performance of one unit during the financial year in % **12.83**

Distributing units (RZ) (AT0000A1TWR6)

Net asset value per unit at start of financial year in EUR	93.29
Distribution on Aug 16, 2017 (net asset value: EUR 87.30) of EUR 0.0000, corresponds to 0.000000 units	
Net asset value per unit at end of financial year in EUR	106.21
Total value incl. units purchased through distribution (1.000000 x 106.21)	106.21
Net income/net reduction per unit	12.92

Performance of one unit during the financial year in % **13.85**

Reinvested units (R) (AT0000688676)

Net asset value per unit at start of financial year in EUR	117.52
Outpayment on Aug 16, 2017 (net asset value: EUR 109.82) of EUR 0.0000, corresponds to 0.000000 units	
Net asset value per unit at end of financial year in EUR	132.64
Total value incl. units purchased through outpayment (1.000000 x 132.64)	132.64
Net income/net reduction per unit	15.12

Performance of one unit during the financial year in % **12.87**

Reinvested units (RZ) (AT0000A1TWQ8)

Net asset value per unit at start of financial year in EUR	93.29
Outpayment on Aug 16, 2017 (net asset value: EUR 87.25) of EUR 0.0000, corresponds to 0.000000 units	
Net asset value per unit at end of financial year in EUR	106.06
Total value incl. units purchased through outpayment (1.000000 x 106.06)	106.06
Net income/net reduction per unit	12.77

Performance of one unit during the financial year in % **13.69**

Fully reinvested units (R) (AT0000688684)

Net asset value per unit at start of financial year in EUR	119.00
Net asset value per unit at end of financial year in EUR	134.30
Net income/net reduction per unit	15.30

Performance of one unit during the financial year in % **12.86**

Fully reinvested units (RZ) (AT0000A1TWS4)

Net asset value per unit at start of financial year in EUR	93.29
Net asset value per unit at end of financial year in EUR	106.35
Net income/net reduction per unit	13.06
Performance of one unit during the financial year in %	14.00

The performance is calculated assuming wholesale reinvestment of distributed/paid-out amounts at their net asset value on the distribution/payment date.

The custodian bank calculates the unit value separately for each unit certificate class. Discrepancies may arise in the annual performance figures for individual unit certificate classes.

Raiffeisen KAG uses the method developed by OeKB (Österreichische Kontrollbank AG) to calculate the fund's performance, on the basis of data provided by the custodian bank (where payment of the redemption price is suspended, using indicative values). Some costs – the subscription fee (not exceeding 5.00 % of the invested amount) and any redemption fee (not exceeding 0.00 % of the sold amount) – are not included in the performance calculation. Depending on their concrete value, they will reduce a performance accordingly. Past results do not permit any reliable inferences as to the future performance of the fund.

Development of fund assets in EUR

Fund assets on May 31, 2017 (794,994.499 units)	92,893,732.26	
Distribution on Aug 16, 2017 (EUR 1.0500 x 61,522.279 distributing units (R) (AT0000688668))		-64,598.39

	56,113.12
Overall fund result	13,290,370.94

The result for the past financial year includes explicitly reported transaction costs (incl. external transaction-related costs, see item 15a "Transaction costs" in section II of the prospectus) in the amount of 90,394.52 EUR.

Capital market report

At the beginning of the year, the stock markets added to the substantial gains that they had recorded in 2017.

A significant downward correction occurred thereafter, but since then most markets have turned upwards again.

The long-term uptrends of most stock markets are still intact. They are supported by very low interest rates, positive economic data, and higher growth expectations. Corporate profits are also rising substantially.

Inflation anxiety, a looming reduction of global liquidity and the threat of global trade wars have led to visibly higher market volatilities. Euro-area bourses faced additional headwinds from a strong Euro and more recently from the political turbulences surrounding Italy. Stock exchanges in the emerging markets outperformed developed markets once again over the past year but they have weakened lately. Bond markets have been facing an increasingly challenging environment for quite some time now. Over the past twelve months, yields have risen substantially in the USA, especially for short and medium maturities. In turn, they got more attractive for investors. The rising U.S. yields have also affected European bond markets, albeit to a much smaller extent. Emerging market bonds in hard currency were hit especially hard by higher U.S. interest rates as well as by tightening global dollar liquidity.

Despite their extremely low yields, corporate bonds in Europe delivered another year of positive performance in 2017. In the current calendar year, their returns oscillate around zero. Yield spreads over government bonds widened considerably recently. In turn, corporate bonds have become a more attractive alternative to government bonds for many investors. Most commodities gained significantly in 2017. Industrial metals were the front-runners for most parts of the year. Since the final quarter of 2017, oil prices have taken the lead and rose substantially. The US dollar was weak for most parts of 2017 but it has started to recover over the past few months. The euro was very strong for most part, which in turn reduced the performance of assets denominated in foreign currencies for euro-based investors. The US central bank (FED) has raised the key interest rate in March 2018, for a sixth time in the current interest rate cycle. Two or three more hikes may follow later this year. On top of this, the Fed will gradually reduce its enormous bond holdings. However, despite the extremely low starting level, the Fed's overall scope for interest-rate hikes is likely to be much lower than in the past. The decade-long upward trend for bond prices in the USA may well be over, and a long-term trend change could be in the making. This development will most likely rub off on the Eurozone, albeit to a considerably reduced extent. Unlike the US central bank, the European Central Bank (ECB) is still maintaining its ultra-loose monetary policy for the time being, with negative interest rates and bond purchases. However, it has reduced the latter and will likely end in December 2018. Nevertheless, key interest rate hikes - if any - are unlikely to happen before mid-2019. The unprecedentedly loose monetary policy pursued by key central banks over the past few years reflected a very weak global economic growth trend. However, many regions have now returned to robust growth. Inflation is picking up in most of the world's major economic regions. The impact of a gradual reduction of the generous liquidity supply on global growth and price trends remains to be seen.

By historical standards, the yield levels are very low almost everywhere in the world. To date, this "new normal" of consistently low bond yields in the key economic blocs has provided strong support for stock prices. Nonetheless, several stock markets – particularly in the USA – sport rather ambitious valuation levels and are thus increasingly prone to corrections. The market environment will certainly remain challenging and may once again entail stronger price fluctuations over the next few months. At present, the positive factors still predominate on the stock markets, while most government bond markets may continue to experience headwinds over the coming months.

Fund investment policy report

The price of oil is by far the most important factor for many of the equities featured in the fund. Brent oil picked up by an impressive 54 % in the period under review. In our view, there were three key reasons for this price trend. On the one hand, the level of demand for oil was very strong last year and this remains the case in the year 2018 to date. The rate of growth exceeds average levels over the past 10 years. On the other hand, on the supply side OPEC has implemented a cutback in production considerably more rigorously than in the past. The significant decline in oil production in Venezuela, an OPEC member, due to that country's economic problems was a further ingredient. Finally, geopolitical factors – above all, the USA's withdrawal from the nuclear deal with Iran – resulted in a clear rise in the geopolitical risk premium on the price of oil. This cocktail meant that the market largely ignored the ongoing rapid growth in the volume of US shale oil production.

In this environment, the major, integrated oil and gas groups achieved significant profit growth, but their stock price trends nonetheless lagged behind the trend for the price of oil (Brent) in many cases. In this 12-month period, Exxon Mobil registered a price gain a little short of one percent. On the other hand, a number of exclusively oil-producing firms and some companies in the oil service industry achieved significant price gains, in some cases even in the three-digit percentage range. In the fund itself, PGS (+ 117 %) and Genel (+ 187 %) stand out.

The fund implemented the following significant transactions:

Developed markets

Purchased: McDermott, US Silica, Vestas Wind Systems, Targa Resources, Tenaris, Snam Spa, Encana

Additional purchases: Tourmaline Oil, Weatherford, Range Resources

Sold: Imperial Oil, ARC Resources, OMV, Parsley Energy, Keyera

Emerging markets

Purchased: Ecopetrol, China Oilfield Service, Formosa Petrochemical, Hindustan Petroleum, Perusahaan Gas,

Additional purchases: MOL

Sold: AKR Corporindo, OMV Petrom, Pektim Petrokimya, Sapura Energy

Information on securities lending transactions and repurchase agreements

During the reporting period, no securities lending transactions were performed on behalf of the fund. Accordingly, the information concerning securities lending transactions which is stipulated in § 8 of the Austrian Securities Lending and Repurchase Agreement Ordinance and Art. 13 of Regulation (EU) No. 2015/2365 is not required.

During the reporting period, no repurchase agreements were concluded on behalf of the fund. Accordingly, the information concerning repurchase agreements which is stipulated in § 8 of the Austrian Securities Lending and Repurchase Agreement Ordinance and Art. 13 of Regulation (EU) No. 2015/2365 is not required.

Total return swaps and similar derivative instruments

A total return swap is a credit derivative instrument. Income and fluctuations in the value of the underlying financial instrument (underlying instrument or reference asset) are exchanged for fixed interest payments.

The fund did not enter into total return swaps or similar derivative instruments in the period under review.

Calculation method for overall risk

Calculation method for overall risk

Simplified approach

Remuneration paid to the employees of Raiffeisen Kapitalanlage-Gesellschaft m.b.H. in EUR (financial year 2017 of Raiffeisen Kapitalanlage-Gesellschaft m.b.H.)

Total number of employees	245
Number of risk-bearers	83
Fixed remuneration	21,133,401.94
Variable remuneration (bonuses)	4,033,484.17
Total remuneration for employees	25,166,886.11
of which remuneration for managing directors	1,363,876.85
of which remuneration for managers (risk-bearers)	2,522,848.03
of which remuneration for other risk-bearers	8,394,504.63
of which remuneration for employees in positions of control	232,087.44
of which remuneration for employees in the same income bracket as managing directors and risk-bearers due to their overall remuneration	0.00
Total remuneration for risk-bearers	12,513,316.95

- The remuneration guidelines (“remuneration guidelines”) issued by Raiffeisen Kapitalanlage-Gesellschaft m.b.H. serve as a binding framework for fulfillment of the remuneration policy and practice requirements stipulated in §§ 17 (a) to (c) of the Austrian Investment Fund Act (InvFG), § 11 of the Austrian Alternative Investment Fund Managers Act (AIFMG) and Enclosure 2 to § 11 AIFMG. Fixed and variable remuneration components are determined on the basis of these remuneration guidelines.

Raiffeisen Kapitalanlage-Gesellschaft m.b.H. has established a systematic, structured, differentiating and incentivizing compensation system which reflects the company’s values as well as clear and consistent outline conditions. Its employees’ compensation comprises fixed salary components as well as variable salary components for some positions. This remuneration – in particular, the variable salary component (where applicable) – reflects an objective organizational structure (“job grades”).

Compensation is determined on the basis of regular market comparisons and in accordance with local remuneration practice. The goal is to encourage employees’ long-term loyalty to the company while also promoting their performance and their development within the framework of a management or specialist career path.

At Raiffeisen Kapitalanlage-Gesellschaft m.b.H., an employee’s basic salary (fixed remuneration) is non-discretionary remuneration which does not vary in accordance with the performance of the company (earnings before interest and tax) or of the specific employee (individual target achievement). It primarily reflects relevant professional experience and organizational responsibility, as outlined in the employee’s job description as part of his terms of employment. The employee’s fixed salary is determined on the basis of his market value, his individual qualifications and the position which he holds at Raiffeisen Kapitalanlage-Gesellschaft m.b.H. Raiffeisen Kapitalanlage-Gesellschaft m.b.H. uses all of the standard remuneration management instruments (e.g. domestic and foreign remuneration studies, salary bands, position grading).

The employee’s variable salary reflects the achievement of company and performance targets which are specified and reviewed within the scope of a performance management process. Employees’ targets are specified on the basis of the company’s strategic targets, the targets of their organizational unit or department and their function. Target agreements are concluded and the employee’s level of target achievement (= performance) is determined through annual performance appraisals (“MBO system”).

The target structure at Raiffeisen Kapitalanlage-Gesellschaft m.b.H. differentiates between qualitative targets – which include individual targets or division and department targets – and quantitative targets, e.g. performance and income targets, and also quantifiable project targets. Every manager is also assigned management targets. Quantitative one-year or multiple-year targets also apply within the scope of the company's core activities of sales and fund management.

- Since the performance period 2015, in accordance with the regulatory requirements a portion of the variable remuneration for risk-bearers is paid out in the form of units in an investment fund managed by Raiffeisen Kapitalanlage-Gesellschaft m.b.H. In addition, as required by law portions of the variable remuneration of risk-bearers are deferred and paid out over a period of several years.
- The supervisory board of Raiffeisen Kapitalanlage-Gesellschaft m.b.H. resolves the general remuneration policy principles specified by the remuneration committee, reviews them at least once a year and is responsible for their implementation and for monitoring of this issue. The supervisory board most recently fulfilled this duty on Nov 30, 2017. It has not identified any need for changes or any irregularities in relation to the remuneration policy of Raiffeisen Kapitalanlage-Gesellschaft m.b.H.
- In addition, at least once per year a central and independent internal review determines whether the company's remuneration policy has been implemented in accordance with the applicable remuneration regulations and procedures. The internal auditing division of Raiffeisen Kapitalanlage-Gesellschaft m.b.H. published its most recent report on Aug 22, 2017. This report has not resulted in any material findings concerning the remuneration policy of Raiffeisen Kapitalanlage-Gesellschaft m.b.H.
- The remuneration policy of Raiffeisen Kapitalanlage-Gesellschaft m.b.H. has not been subject to any significant changes in the reporting period.

Remuneration principles of Raiffeisen Kapitalanlage-Gesellschaft m.b.H.

- The remuneration principles of Raiffeisen Kapitalanlage-Gesellschaft m.b.H. support the business strategy and the long-term goals, interests and values of the company and of the investment funds managed by Raiffeisen Kapitalanlage-Gesellschaft m.b.H.
- The remuneration principles of Raiffeisen Kapitalanlage-Gesellschaft m.b.H. include measures to avoid conflicts of interest.
- The remuneration principles and policies of Raiffeisen Kapitalanlage-Gesellschaft m.b.H. are consistent with and promote sound and effective risk-taking practices and avoid incentives for any inappropriate risk-taking propensity which exceed the level of risk tolerated by Raiffeisen Kapitalanlage-Gesellschaft m.b.H. or the investment funds under its management.
- The total amount of variable remuneration will not limit the capacity of Raiffeisen Kapitalanlage-Gesellschaft m.b.H. to strengthen its capital base.
- Variable remuneration is not paid by means of instruments or methods which facilitate circumvention of applicable legal requirements.
- Employees in positions of control are rewarded irrespective of the business unit which they supervise, they have an appropriate level of authority and their remuneration is determined on the basis of the fulfillment of their organizational targets in connection with their functions, irrespective of the results of the business activities under their supervision.

- Guaranteed variable remuneration is not consistent with sound risk management or the “pay-for-performance” principle and should not be included in future remuneration plans. Guaranteed variable remuneration is the exception:., This is only provided in connection with new hirings and only where Raiffeisen Kapitalanlage-Gesellschaft m.b.H. has a sound and strong capital base. It is limited to the first year of employment.
- Any payments relating to the premature termination of a contract must reflect the performance realized over the relevant period of time and must not reward failures or misconduct.

Raiffeisen Kapitalanlage-Gesellschaft m.b.H. complies with the code of conduct for the Austrian investment fund industry 2012.

Audit opinion

Report on the annual fund report

Audit opinion

We have audited the annual fund report issued by Raiffeisen Kapitalanlage-Gesellschaft m.b.H., Vienna, for its fund Raiffeisen Energy Equities, consisting of the portfolio of investments as of May 31, 2018, the income statement for the financial year ending as of this date and the other disclosures required under Annex I Schedule B of the 2011 Austrian Investment Fund Act (Investmentfondsgesetz, InvFG).

In our view, the annual fund report complies with applicable statutory requirements and provides a true and fair view of the net assets and financial position as of May 31, 2018 as well as the earnings position for the fund for the financial year ending as of this date, in compliance with Austrian commercial law, the provisions of InvFG 2011.

Basis for the audit opinion

We performed our audit in accordance with § 49 (5) InvFG 2011 in accordance with Austrian principles of orderly auditing. These principles require application of the International Standards on Auditing (ISA). Our responsibilities on the basis of these requirements and standards are outlined in further detail in the “Responsibilities of the auditor for the audit of the annual fund report” section of our audit certificate. We are independent from the company, in compliance with Austrian commercial law and professional standards, and we have fulfilled our other professional duties in accordance with these requirements. In our view, we have obtained sufficient and suitable audit documentation as a basis for our audit opinion.

Responsibilities of the company’s legal representatives and the supervisory board for the annual fund report

The company’s legal representatives are responsible for the preparation of the annual fund report and for ensuring that it provides a true and fair view of the fund’s net assets, financial and earnings position in compliance with Austrian commercial law and the provisions of InvFG 2011. The company’s legal representatives are also responsible for the internal controls which they deem necessary in order to enable the preparation of an annual fund report which is free from material (intentional or unintentional) misrepresentations.

The supervisory board is responsible for monitoring the company’s accounting process in relation to the funds under its management.

Responsibilities of the auditor for the audit of the annual fund report

Our goals are to establish sufficient certainty as to whether the annual fund report as a whole is free from material (intentional or unintentional) misrepresentations and for issuing an audit certificate which includes our audit opinion. Sufficient certainty means a high level of certainty – but not a guarantee – that an orderly audit performed in accordance with the recognized Austrian principles – which require application of the ISA – will always uncover any material misrepresentation. Misrepresentations may result from malicious acts or on the basis of errors and will be deemed material where they may be reasonably expected – either individually or collectively – to influence the economic decisions made by users on the basis of this annual fund report.

As part of an audit complying with the recognized Austrian principles of orderly auditing – which require application of the ISA – we exercise due discretion throughout our audit and maintain a critical distance.

In addition, the following applies:

- We identify and evaluate the risks of material (intentional or unintentional) misrepresentations in the annual fund report, plan audit activities in response to these risks, implement these activities and obtain audit documentation which is sufficient and suitable in order to serve as a basis for our audit opinion. The risk of material misrepresentations resulting from malicious acts not being uncovered is greater than the risk resulting from errors, since malicious acts may include fraudulent collaboration, falsifications, deliberate incompleteness, misleading representations or the suspension of internal controls.
- We obtain a picture of the internal control system which is relevant for the audit so as to plan audit activities which are adequate in the given circumstances, but not with the objective of providing an audit opinion regarding the effectiveness of the company's internal control system.
- We evaluate the adequacy of the accounting methods applied by the company's legal representatives as well as the reasonableness of the legal representatives' estimates in the accounting as well as the related disclosures.
- We evaluate the overall picture, the structure and the contents of the annual fund report including the disclosures and whether the annual fund report provides a true and fair view of the underlying business transactions and events.
- We discuss matters with the supervisory board including the planned scope of the audit and its schedule as well as significant audit findings, including any significant shortcomings in the internal control system that we identify in the course of our audit.

Other information

The company's legal representatives are responsible for the other information provided. This other information comprises all of the information included in the annual fund report, with the exception of the portfolio of investments, the income statement, the other disclosures required under Annex I Schedule B InvFG 2011 and the audit certificate.

Our audit opinion for the annual fund report does not cover this other information, and we do not provide any sort of assurance in this regard.

In connection with our audit of the annual fund report, we are responsible for reading this other information and for considering whether there are any material inconsistencies between this other information and the annual fund report or on the basis of our knowledge obtained in the course of our audit or whether this information appears to have been otherwise materially misrepresented. If we reach the conclusion on the basis of our activities that this other information has been materially misrepresented, we must report this. We have nothing to report in this respect.

Tax treatment

Once the new reporting framework comes into effect (from Jun 6, 2016), Österreichische Kontrollbank (OeKB) will prepare the details of the tax arrangements for the fund and publish them on www.profitweb.at. The tax documents are available for downloading for all funds. The tax documents are also available on our website www.rcm.at. Please visit www.profitweb.at for detailed information on offsettable and reimbursable foreign taxes.

Fund regulations

Fund regulations pursuant to the Austrian Investment Fund Act 2011

The Austrian Financial Market Authority (FMA) has approved the fund regulations for the investment fund **Raiffeisen Energy Equities**, a jointly owned fund pursuant to the Austrian Investment Fund Act (InvFG) 2011, as amended.

The investment fund is a Directive-compliant fund and is managed by Raiffeisen Kapitalanlage-Gesellschaft m.b.H. (hereinafter: the "management company") which is headquartered in Vienna.

Article 1 Fund units

The fund units are embodied in unit certificates with the character of financial instruments which are issued to bearer.

The unit certificates shall be represented by global certificates for each unit class and – at the discretion of the management company – by actual securities.

Article 2 Custodian bank (custodian)

Raiffeisen Bank International AG, Vienna, is the investment fund's custodian bank (custodian).

The custodian bank (custodian), the regional Raiffeisen banks, Kathrein Privatbank Aktiengesellschaft, Vienna, and other paying agents referred to in the prospectus are the paying agents for unit certificates and the handover offices for income coupons (actual securities).

Article 3 Investment instruments and principles

The following assets pursuant to InvFG may be selected for the investment fund.

The investment fund mainly invests (i.e. more than 51 % of its fund assets are invested in the form of directly purchased individual securities which are not held directly or indirectly through investment funds or derivatives) in international equities and equity-equivalent securities issued by companies in the oil & gas, energy infrastructure and service, electricity and gas supply industries and other sectors of the energy industry.

The following investment instruments are purchased for the fund assets, while complying with the investment focus outlined above.

Securities

The fund may purchase securities (including securities with embedded derivative instruments) as permitted by law.

Money market instruments

Money market instruments may comprise **up to 49 %** of the fund assets.

Securities and money market instruments

Not fully paid-in securities or money market instruments and subscription rights for such instruments or other not fully paid-in financial instruments may only be purchased for up to **10 %** of the fund assets.

Securities and money market instruments may be purchased if they comply with the criteria concerning listing and trading on a regulated market or a securities exchange pursuant to InvFG.

Securities and money market instruments which do not fulfill the criteria laid down in the above paragraph may be purchased for up to 10 % of the fund assets in total.

Units in investment funds

Units in investment funds (UCITS, UCI) may each amount to up to 10 % of the fund assets – and up to 10 % of the fund assets in total – insofar as these UCITS or UCI do not for their part invest more than 10 % of their fund assets in units in other investment funds.

Derivative instruments

Derivative instruments may be used as part of the fund's investment strategy for up to 49 % of the fund assets (calculated on the basis of market prices) and for hedging purposes.

Investment fund's risk measurement method

The investment fund applies the following risk measurement method:

Commitment approach

The commitment figure is calculated pursuant to the 3rd chapter of the 4th Austrian Derivatives Risk Calculation and Reporting Ordinance (Derivate-Risikoberechnungs- und Meldeverordnung, DeRiMV), as amended.

The overall risk for derivative instruments which are not held for hedging purposes is limited to 60 % of the overall net value of the fund assets.

Please refer to the prospectus for details and comments.

Sight deposits or deposits at notice

Sight deposits and deposits at notice with terms not exceeding 12 months may amount to up to 25 % of the fund assets. No minimum bank balance is required.

Within the framework of restructuring of the fund portfolio and/or a justified assumption of impending losses for securities, the investment fund may hold a lower proportion of securities and a higher proportion of sight deposits or deposits at notice with terms not exceeding 12 months.

Short-term loans

The management company may take up short-term loans of up to 10 % of the fund assets for account of the investment fund.

Repos

Repurchase agreements may comprise up to 100 % of the fund assets.

Securities lending

Securities lending transactions may comprise up to 30 % of the fund assets.

Investment instruments may only be acquired uniformly for the entire investment fund, not for an individual unit class or for a group of unit classes.

However, this does not apply for currency hedge transactions. These transactions may only be entered into in relation to a single unit class. Expenses and income resulting from a currency hedge transaction shall exclusively be allocated to the relevant unit class.

Please refer to the prospectus for further details concerning Article 3.

Article 4 Issuance and redemption modalities

The unit value shall be calculated in EUR or the currency of the unit class.

Please refer to the prospectus for further details.

The value of units will be calculated on each day of stock market trading.

Issuance and subscription fee

Units will be issued on any banking day.

The issue price is the unit value plus a fee per unit of **up to 5 %** to cover the management company's issuing costs.

Unit issuance shall not in principle be subject to limitation; however, the management company reserves the right temporarily or entirely to discontinue its issuance of unit certificates.

The management company shall be entitled to introduce a graduated subscription fee.
Please refer to the prospectus for further details.

Redemption and redemption fee

Units will be redeemed on any banking day.

The redemption price is based on the value of a unit. No redemption fee will be charged.

At the request of a unitholder, its unit shall be redeemed out of the investment fund at the applicable redemption price, against surrender of the unit certificate, those income coupons which are not yet due and the renewal certificate.

Article 5 Accounting year

The investment fund's accounting year runs from June 1 to May 31.

Article 6 Unit classes and appropriation of income

Income-distributing unit certificates, income-retaining unit certificates with capital gains tax deducted and income-retaining unit certificates without capital gains tax deducted may be issued for the investment fund.

Various classes of unit certificates may be issued for this investment fund. The management company may decide to establish unit classes or to issue units in a given unit class. Please refer to the prospectus for further details.

Appropriation of income for income-distributing unit certificates (income distribution)

Once costs have been covered, the income received during the past accounting year (interest and dividends) may be distributed at the discretion of the management company. Distribution may be waived subject to due consideration of the unitholders' interests. The distribution of income from the sale of assets of the investment fund including subscription rights shall likewise be at the discretion of the management company. A distribution from the fund assets and interim distributions are also permissible.

The fund assets may not through distributions fall below the minimum volume for a termination which is stipulated by law.

From August 16 of the following accounting year the amounts are to be distributed to the holders of income-distributing unit certificates. Any remaining balances shall be carried forward to a new account.

In any case, from August 16 an amount calculated pursuant to InvFG shall be paid out, to be used where applicable to meet any capital gains tax commitments on the distribution-equivalent return on those unit certificates, unless the management company ensures through appropriate proof from the custodians that at the time of payout the unit certificates may only be held by unitholders who are either not subject to Austrian income or corporate income tax or who fulfill the requirements for an exemption pursuant to § 94 of the Austrian Income Tax Act or for a capital gains tax exemption.

Unitholders' entitlement to the distribution of income shares shall become time-barred after five years. After this period, such income shares shall be treated as income of the investment fund.

Appropriation of income in case of income-retaining unit certificates with capital gains tax deducted (income retention)

Income during the accounting year net of costs shall not be distributed. In case of income-retaining unit certificates, from August 16 an amount calculated pursuant to InvFG shall be paid out, to be used where applicable to meet any capital gains tax commitments on the distribution-equivalent return on those unit certificates, unless the management company ensures through appropriate proof from the custodians that as of the payment date the unit certificates are only held by unitholders who are either not subject to Austrian income or corporate income tax or who fulfill the requirements for an exemption pursuant to § 94 of the Austrian Income Tax Act or for a capital gains tax exemption.

Appropriation of income in case of income-retaining unit certificates without capital gains tax deducted (full income retention – domestic and foreign tranches)

Income during the accounting year net of costs shall not be distributed. No payment pursuant to InvFG will be made. August 16 of the following accounting year shall be the key date pursuant to InvFG in case of failure to pay capital gains tax on the annual income.

The management company shall ensure through appropriate proof from the custodians that at the time of payout the unit certificates may only be held by unitholders who are either not subject to Austrian income or corporate income tax or who fulfill the requirements for exemption as per § 94 of the Austrian Income Tax Act or for a capital gains tax exemption.

If these preconditions have not been met as of the payment date, the amount calculated pursuant to InvFG shall be paid out by the custodian bank in the form of credit.

Appropriation of income in case of income-retaining unit certificates without capital gains tax deducted (full income retention – foreign tranche)

Income-retaining unit certificates without deducted capital gains tax shall only be sold outside Austria.

Income during the accounting year net of costs shall not be distributed. No payment pursuant to InvFG will be made.

The management company shall ensure through appropriate proof that as of the payment date the unit certificates may only be held by unitholders who are either not subject to Austrian income or corporate income tax or who fulfill the requirements for exemption pursuant to § 94 of the Austrian Income Tax Act or for a capital gains tax exemption.

Article 7 Management fee, reimbursement of expenses, liquidation fee

The management company shall receive for its management activity an annual remuneration of up to **2.0 %** of the fund assets, calculated on the basis of the values at the end of each month.

The management company is entitled to reimbursement of all expenses associated with its management of the fund.

The management company shall be entitled to introduce a graduated management fee.

The costs arising at the introduction of new unit classes for existing asset portfolios shall be deducted from the unit prices of the new unit classes.

At the liquidation of the investment fund, the custodian bank shall receive remuneration amounting to **0.5 %** of the fund assets.

Please refer to the prospectus for further details.

Appendix

List of stock exchanges with official trading and organized markets

1. Stock exchanges with official trading and organized markets in the member states of the EEA

According to Article 16 of Directive 93/22/EEC (investment services in the securities field), each member state is obliged to maintain an up-to-date directory of its licensed markets. This directory is to be made available to the other member states and to the Commission.

According to this provision, the Commission is obliged to publish once a year a directory of the regulated markets of which it has received notice.

Due to decreasing restrictions and to trading segment specialization, the directory of "regulated markets" is undergoing great changes. In addition to the annual publication of a directory in the official gazette of the European Communities, the Commission will therefore provide an updated version on its official internet site.

1.1. The current directory of regulated markets is available at:

http://mifiddatabase.esma.europa.eu/Index.aspx?sectionlinks_id=23&language=0&pageName=REGULATED_MARKETS_Display&subsection_id=0¹

1.2. The following stock exchanges are to be included in the directory of Regulated Markets:

1.2.1. Luxembourg Euro MTF Luxembourg

1.3. Recognized markets in the EU pursuant to § 67 (2) item 2 InvFG:

Markets in the EEA classified as recognized markets by the relevant supervisory authorities.

2. Stock exchanges in European states which are not members of the EEA

2.1.	Bosnia & Herzegovina:	Sarajevo, Banja Luka
2.2.	Croatia:	Zagreb Stock Exchange
2.3.	Montenegro:	Podgorica
2.4.	Russia:	Moscow (RTS Stock Exchange), Moscow Interbank Currency Exchange (MICEX)
2.5.	Switzerland:	SWX Swiss-Exchange
2.6.	Serbia:	Belgrade
2.7.	Turkey:	Istanbul (for Stock Market, "National Market" only)

3. Stock exchanges in non-European states
