Auditor	KPMG Austria GmbH

Legal notice

The software used performs calculations on the basis of more than the two decimal places displayed. Minor discrepancies cannot be ruled out due to further calculations using published results.

The value of a unit is calculated by dividing the entire value of the investment fund inclusive of its income by the number of units. The total value of the investment fund is calculated on the basis of the current market prices of the securities, money market instruments and subscription rights in the fund plus the value of the fund's financial investments, cash holdings, credit balances, receivables and other rights net of its payables. That value will be calculated by the custodian bank.

The net assets are calculated in accordance with the following principles:

- a) The value of assets quoted or traded on a stock exchange or other regulated market shall be determined, in principle, on the basis of the most recently available price.
- b) Where an asset is not quoted or traded on a stock market or another regulated market or where the price for an asset quoted or traded on a stock market or another regulated market does not appropriately reflect its actual market value, the prices provided by reliable data providers or, alternatively, market prices for equivalent securities or other recognized market valuation methods shall be used.

Raiffeisen KAG uses the method developed by OeKB (Österreichische Kontrollbank AG) to calculate the fund's performance, on the basis of data provided by the custodian bank (where payment of the redemption price is suspended, using indicative values). Some costs – the subscription fee (not exceeding 3.00 % of the invested amount) and any redemption fee (not exceeding 0.00 % of the sold amount) – are not included in the performance calculation. Depending on their concrete value, they will reduce a performance accordingly. Past results do not permit any reliable inferences as to the future performance of the fund.

Dear unitholder,

Raiffeisen Kapitalanlage-Gesellschaft m.b.H. is pleased to present its semi-annual fund report for Raiffeisen Global Bonds for the reporting period from Feb 1, 2018 to Jul 31, 2018. The accounting is based on the price calculation as of Jul 31, 2018.

Fund investment policy report

Raiffeisen Global Bonds comprises a broad and highly diversified global bond portfolio. The fund's strategic orientation encompasses investments in various currency areas and, within these currency areas, investments in a broad range of securities. Its holdings mainly comprise government bonds and also, to a lesser extent, "non-government bonds"/corporate bonds. Complying with the fund's global character, Raiffeisen Global Bonds includes bonds from the developed markets as well as emerging markets bonds. In line with this diversification objective, securities are not normally hedged in terms of either their currency or their interest rate risk, or are only hedged on tactical grounds. The fund also specifically holds emerging markets bonds, generally through (sub-)funds. It does so with the goal of efficient management of its emerging markets holdings, with the broadest possible level of diversification.

The fund's largest securities currency pro rata (as of the reporting date and in overall terms) is the US dollar (approx. 40 % of the fund's volume), followed by the euro (approx. 30 %), the Japanese yen (approx. 16 %) and the British pound (around 8 %). Together, eastern European currencies and emerging markets currencies account for strategic positions in the fund of approx. 1 % and 3 % respectively. As of the reporting date, the fund's level of interest rate sensitivity was approx. 7 years. This is roughly in line with the average level of the last few years.

The fund's bonds in these various currencies largely consist of government bonds and to a lesser extent of corporate bonds. Where necessary or on the basis of its risk/return assessment, the fund deviates from the above figures on tactical grounds or due to varying risk/return expectations for different markets or asset classes. In historical terms, the proportion of corporate bonds was in line with the average, while the proportion of holdings of foreign-currency securities was roughly in line with the longer-term trend.

Securities lending transactions were entered into in order to generate additional income.

Makeup of fund assets in EUR

Any discrepancies in terms of the market value or the share of the fund assets result from rounding-off.

UCITS refers to units in an undertaking for collective investment in transferable securities

§ 166 InvFG refers to units in investment funds in the form of "other asset portfolios"

§ 166 (1) item 2 InvFG refers to units in special funds

§ 166 (1) item 3 InvFG refers to units in undertakings for collective investment in transferable securities pursuant to § 166 (1) item 3 InvFG
(such as alternative investments/hedge funds)

§ 166 (1) item 4 InvFG refers to units in real estate funds

TOTAL	36,957,113.76	31.04 %

- Nature and value of eligible collateral received by the investment fund versus the counterparty risk:

Under the securities lending master agreement concluded between the management company and Raiffeisen Bank International AG, Raiffeisen Bank International AG is obliged to provide collateral for loaned securities. Sight deposits, bonds, equities and units in investment funds are permitted as collateral. The bonds used as collateral may be issued by sovereigns, supranational issuers and/or companies etc. No stipulations apply in relation to the terms of these bonds. Within the scope of provision of collateral, pursuant to § 4 of the Austrian Securities Lending and Repurchase Agreement Ordinance (Verordnung zu Wertpapierleih- und Pensionsgeschäften, WPV), diversification and correlation with risk diversification achieved through quantitative issuer limits in particular and appropriate liquidity for collateral for the purpose of tradability and realizability will be ensured. Sight deposits are not subject to any haircut. The value of this collateral calculated on each day of stock market trading thus amounts to 100 % of the value of the loaned securities. Other collateral (bonds, equities and units in investment funds) will be valued – likewise on each day of stock market trading – on the basis of a value-at-risk calculation. The maximum foreseeable loss for this other collateral is calculated over a period of three business days, with a probability of 99 % (confidence interval). The value determined plus a markup of 10 % represents the applicable valuation markdown. This valuation markdown will amount to at least 5 % of the value of this other collateral. Recognition of this haircut will entail delivery of the required volume of additional collateral on each day of stock market trading.

On the reporting date the collateral had the following makeup:

Sight deposits: 0.00 %

Bonds: 34.78 %

Equities: 63.46 %

Units in investment funds: 1.76 %

Asset class	Rating	Share
Bonds	a	18.38 %

		1.76 %

In relation to securities lending transactions, the investment fund is not entirely collateralized by means of securities which are either issued or guaranteed by an EEA member state.

Collateral holding period: unlimited

Period of securities lending:

Duration / Days	< 1 day	1-7 days	7-30 days	30-90 days	90-360 days
	0 %	0 %	1 %	0 %	99 %

Country of counterparty (Raiffeisen Bank International AG): Austria

Settlement: bilateral

- Reuse of collateral:

Collateral received is not reused.

- Custody of collateral which the investment fund has received in connection with securities lending transactions:

Sight deposits are held as a deposit on an account with a credit institution determined by the management company. Other collateral is held on a security deposit account of the management company with Raiffeisen Bank International AG (custodian bank) and is likewise not reused.

- Custody of collateral which the investment fund has provided in connection with securities lending transactions:

Within the limits stipulated by law (§ 84 InvFG), the management company is merely permitted to lend securities to third parties. However, it is not permitted to borrow securities. Accordingly, the investment fund will not provide any collateral within the scope of securities lending transactions.

Further information on repurchase agreements

During the reporting period, no repurchase agreements were concluded on behalf of the fund. Accordingly, the information concerning repurchase agreements which is stipulated in § 8 of the Austrian Securities Lending and Repurchase Agreement Ordinance and Art. 13 of Regulation (EU) No. 2015/2365 is not required.

Total return swaps and similar derivative instruments

A total return swap is a credit derivative instrument. Income and fluctuations in the value of the underlying financial instrument (underlying instrument or reference asset) are exchanged for fixed interest payments.

The fund did not enter into total return swaps or similar derivative instruments in the period under review.

Raiffeisen Kapitalanlage-Gesellschaft m.b.H. complies with the code of conduct for the Austrian investment fund industry 2012.
