PROSPECTUS

NOVEMBER 2018

No person is authorised to give any information other than that contained in the Prospectus and in documents referred to herein. The original English text of this Prospectus is the legal and binding version.

NOTE TO THE READERS

The attention of the reader is drawn to the fact that this Prospectus is composed of two parts.

The main part of the Prospectus describes the nature of PROTEA FUND (the “Fund”), presents its general terms and conditions and sets out its management and investment parameters which apply to the Fund as well as to the different Compartments that compose the Fund.

The second part groups the appendices relating to each of the Compartments in operation. The investment policy of each Compartment, as well as its specific features, are described in the appendices attached to the end of the main body of the Prospectus.

The appendices are an integral part of this Prospectus; they will be updated with the creation of each new Compartment.

Finally, investors or individuals related to potential investors are hereby informed that the Annex I to the Prospectus headed “Privacy Notice” (the “Privacy Notice”) applies to the processing of their personal data by the Fund. If investors share personal data on individuals relating to such investors with the Fund, investors must ensure that they have provided a fair processing notice informing the data subjects of the Fund’s processing of such personal data as described in the Privacy Notice, including notifying data subjects of any updates to the Privacy Notice. Where required, investors must obtain the necessary consent from data subjects to the processing of personal data as described in the Privacy Notice. Investors who share personal data relating to such investors with the Fund shall indemnify and hold the Fund harmless for any and against all direct and indirect damages and financial consequences arising from any breach of these warranties.

For further information, please refer to the table of contents on page 2 of this Prospectus.

SUMMARY

The main part of the Prospectus describes the nature of the Fund, presents its general terms and conditions and sets out its management and investment parameters which apply to the Fund as well as to the different Compartments that compose the Fund.

The Directors, whose names appear hereafter, accept responsibility for the information contained in this document. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure that such is the case) the information contained in this document is in accordance with the facts and does not omit anything likely to affect the importance of such information. The Directors accept responsibility accordingly.

The Shares are offered solely on the basis of the information and representations contained in this Prospectus and any further information given or representations made by any person may not be relied upon as having been authorised by the Fund, the Directors and/or the Management Company. Neither the delivery of this Prospectus nor the issue of Shares shall under any circumstances create any implication that there has been no change in the affairs of the Fund since the date hereof.

The information contained in this Prospectus will be supplemented by the KIIDs, the financial statements and further information contained in the latest annual and semi-annual reports of the Fund, copies of which may be obtained free of charge from the registered office of the Fund.

The Fund is an open-ended investment company organised as a *société d'investissement à capital variable* (SICAV). The Fund is registered under Part I of the law dated 17 December 2010 on undertakings for collective investment, as may be amended from time to time (the "2010 Law"). This registration does not require any Luxembourg authority to approve or disapprove either the adequacy or accuracy of this Prospectus or the investments held by the Fund.

The distribution of this Prospectus and the offering of Shares in certain jurisdictions may be restricted and accordingly persons into whose possession this Prospectus may come are required by the Fund to inform themselves of and to observe any such restrictions.

This Prospectus does not constitute an offer or solicitation to any person in any jurisdiction in which such offer or solicitation is not authorised or to any person to whom it would be unlawful to make such offer or solicitation.

United States: None of the Shares have been, nor will be registered under the United States Securities Act of 1933 and the Shares may not be offered or sold directly or indirectly in the United States of America or to any U.S. Person, as this term is defined by the Regulation S under the Securities Act of 1933 ("U.S. Person"). In addition, the Shares may not be offered or sold to any corporation controlled by, or a majority of whose Shares are held by U.S. Persons.

Furthermore, no person that could be considered as a U.S. taxpayer, as per the United States of America laws and regulations (as may be amended from time to time) is entitled to be registered in the books of the Fund as a Shareholder. The same applies to an entity which is held, for at least 10% of its Shares and/or interests, by such a U.S. taxpayer.

Generally: the above information is for general guidance only, and it is the responsibility of any person or persons in possession of this Prospectus and wishing to make application for Shares to inform

themselves of, and to observe, all applicable laws and regulations of any relevant jurisdiction. Prospective applicants for Shares should inform themselves as to legal requirements also applying and any applicable exchange control regulations and applicable taxes in the countries of their respective citizenship, residence or domicile.

For further information, please refer to the table of contents of this Prospectus. If you are in any doubt about the contents of this document you should consult your stockbroker, bank manager, accountant or other professional adviser.

In view of economic and share market risks, no assurance can be given that the Fund will achieve its investment objectives and the value of the Shares can rise or fall.

The Fund draws the investors' attention to the fact that any investor will only be able to fully exercise his investor rights directly against the Fund, notably the right to participate in General Meetings, if the investor is registered himself/herself/itself and in his/her/its own name in the Shareholders' register of the Fund. In cases where an investor invests in the Fund through an intermediary investing into the Fund in his/her/its own name but on behalf of the investor, it may not be possible for the investor to exercise certain Shareholder rights directly against the Fund. Investors are advised to take advice on their rights.

Benchmark Regulation

In accordance with the provisions of the Benchmark Regulation, supervised entities may use benchmarks in the EU if the benchmark is provided by an administrator which is included in the register of administrators and benchmarks maintained by ESMA pursuant to Article 36 of the Benchmark Regulation (the "Register"). Benchmark administrators located in the EU whose indices are used by the Company benefit from the transitional provisions under the Benchmark Regulation and accordingly may not yet appear on the Register. Benchmark administrators located in the EU should apply for authorisation or registration as an administrator under the Benchmark Regulation and be inscribed in the Register by 1 January 2020. Benchmark administrators located in a third country whose indices are used by the Company benefit from the transitional arrangements afforded under the Benchmark Regulation and accordingly may not appear on the Register. Benchmark administrators whose indices are used by the Company are detailed in the description of the Sub-Funds.

The Management Company maintains a written plan setting out the actions that will be taken in the event that an index materially changes or ceases to be provided. The written plan is available upon request and free of charge at the registered office of the Management Company.

DEFINITIONS

In this Prospectus, the following defined terms shall have the following meanings:

“2010 Law”	Means the law dated 17 December 2010 on undertakings for collective investment, as may be amended from time to time;
“Administrative Agent”	Means FundPartner Solutions (Europe) S.A. acting as central administrative agent of the Fund;
“Articles”	Means the articles of incorporation of the Fund as the same may be amended, supplemented or otherwise modified from time to time;
“Appendix”	Means each supplement to this Prospectus describing the specific features of a Compartment. Each such supplement is to be regarded as an integral part of the Prospectus;
“Auditor”	Means Deloitte Audit, <i>Société à responsabilité limitée</i> ;
“Board of Directors”	Means the board of directors of the Fund;
“Benchmark Regulation”	Means EU Regulation 2016/1011 of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds;

“Management Company”	Means FundPartner Solutions (Europe) S.A.;
“Management Company Services Agreement”	Means the agreement between the Fund and the Management Company as amended, supplemented or otherwise modified from time to time;
“Margin Lending Transaction”	Means a transaction in which a counterparty extends credit in connection with the purchase, sale, carrying or trading of securities, but not including other loans that are secured by collateral in the form of securities;
“Market Timing”	Means any market timing practice within the meaning of Circular 04/146 or as that term may be amended or revised by the CSSF in any subsequent circular, i.e., an arbitrage method through which an investor systematically subscribes and redeems or converts units or shares of the same Luxembourg undertaking for collective investment within a short time period, by taking advantage of time differences and/or imperfections or deficiencies in the methods of determination of the net asset value of the UCI;
“Money Market Instruments”	Means instruments normally dealt in on a money market which are liquid and have a value which can be accurately determined at any time;
“Net Asset Value” or “NAV”	Means, (i) in relation to the Fund, the value of the net assets of the Fund, (ii) in relation to each Compartment, the value of the net assets attributable to such Compartment, and (iii) in relation to each category of Shares in a Compartment, the value of the net assets attributable to such category of Shares, in each case, calculated in accordance with the provisions of the Articles and the Prospectus;
“Net Asset Value per Share” or “NAV per Share”	Means the Net Asset Value of the relevant Compartment divided by the number of Shares in issue at the relevant time (including Shares in relation to which a Shareholder has requested redemption) or if a Compartment has more than one category of Shares in issue, the portion of the Net Asset Value of the relevant Compartment attributable to a particular category of Shares divided by the number of Shares of such category of Shares in the relevant Compartment which are in issue at the relevant time (including Shares in relation to which a Shareholder has requested redemption);
“NOK”	Means Norwegian Krone, the currency of Norway;
“OECD”	Means the Organisation for Economic Co-operation and Development;

“OECD Member State”	Means any of the member States of the OECD;
“OTC”	Means over-the-counter;
“OTC Derivative”	Means any financial derivative instrument dealt in over-the-counter;
“Other Regulated Market”	Means a market which is regulated, operates regularly and is recognised and open to the public, namely a market (i) that meets the following cumulative criteria: liquidity; multilateral order matching (general matching of bid and ask prices in order to establish a single price); transparency (the circulation of complete information in order to give clients the possibility of tracking trades, thereby ensuring that their orders are executed in current conditions); (ii) on which the securities are dealt in at a certain fixed frequency, (iii) which is recognised by a state or a public authority which has been delegated by that state or by another entity which is recognised by that state or by that public authority such as a professional association and (iv) on which the securities dealt in are accessible to the public;
“Other State”	Means any state of Europe which is not a EU Member State and any state of America, Africa, Asia, Australia and Oceania and, as appropriate, of the OECD;
“PRC”	Means The People's Republic of China and for the purpose herein, excluding Hong Kong, Macau and Taiwan;
“Prospectus”	Means the sales prospectus relating to the issue of Shares in the Fund, as amended from time to time;
“Reference Currency”	Means, in relation to each Compartment, the currency in which the Net Asset Value of such Compartment is calculated, as stipulated in the Appendix of the relevant Compartment;
“Regulated Market”	Means a regulated market as defined by the Directive 2004/39/EC of the European Parliament and of the Council of 21 April 2004 on markets in financial instruments (the “Directive 2004/39/CE”), namely a market which appears on the list of the regulated markets drawn up by each Member State, which functions regularly, is characterised by the fact that regulations issued or approved by the competent authorities define the conditions for the operations of the market, the conditions for access to the market and the conditions that must be satisfied by a financial instrument before it can effectively be dealt in on the market, requiring compliance with all the reporting and transparency requirements laid down by the Directive 2004/39/CE;
“REITs”	Means real estate investment trusts;
“Repurchase Transaction”	Means a transaction governed by an agreement by which a counterparty transfers securities or guaranteed rights relating to title to securities where that guarantee is issued by a recognised exchange which holds the rights to

the securities and the agreement does not allow a counterparty to transfer or pledge a particular security to more than one counterparty at a time, subject to a commitment to repurchase them, or substituted securities of the same description at a specified price on a future date specified, or to be specified, by the transferor, being a Repurchase Transaction agreement for the counterparty selling the securities and a reverse Repurchase Transaction agreement for the counterparty buying them;

"Section"	Means a section of this Prospectus;
"Securities Act"	Means the U.S. Securities Act of 1933, as amended;
"Securities Financing Transaction or SFT"	Means (i) a Repurchase Transaction; (ii) Securities Lending and Securities Borrowing; (iii) a Buy-sell Back Transaction or Sell-buy Back Transaction; (iv) a Margin Lending Transaction as defined under the SFTR;
"Securities Lending or Securities Borrowing"	Means a transaction by which a counterparty transfers subject to a commitment that the borrower will return equivalent securities on a future date or when requested to do so by the transferor, that transaction being considered as securities lending for the counterparty transferring the securities and being considered as securities borrowing for the counterparty to which they are transferred;
"SFT Agent"	Means any person involved in SFTs and/or TRS as agent, broker, collateral agent or service provider and that is paid fees, commissions, costs or expenses out of the Fund's assets or any Compartment's assets (which can be the counterparty of a Compartment in an SFT and/or a TRS);
"SFTR"	Means Regulation (EU) 2015/2365 of the European Parliament and of the Council of 25 November 2015 on transparency of securities financing transactions and of reuse and amending Regulation (EU) No 648/2012;
"Shareholder"	Means a person who is the registered holder of Shares in the Fund;
"Shares"	Means shares in the Fund, of such category of Shares and denominated in such currencies and relating to such Compartments as may be issued by the Fund from time to time;
"Target Compartment"	Has the meaning as set out in Section 22.31 of the main body of the Prospectus;
"Transferable Securities"	Means • shares and other securities equivalent to shares; • bonds and other debt instruments; • any other negotiable securities which carry the right to acquire any such transferable securities by subscription or to exchanges, with the exclusion of techniques and instruments, within the meaning of the 2010 Law;

"TRS"	TRS means total return swap, i.e., a derivative contract as defined in point (7) of article 2 of the SFTR in which one counterparty transfers the total economic performance, including income from interest and fees, gains and losses from price movements, and credit losses, of a reference obligation to another counterparty;
"UCI"	Means an undertaking for collective investment within the meaning of article 1, paragraph (2), points a) and b) of the UCITS Directive, whether situated in a EU Member State or not, provided that: • such UCI is authorised under laws which provide that it is subject to supervision that is considered by the CSSF to be equivalent to that laid down in EU law, and that cooperation between authorities is sufficiently ensured; • the level of guaranteed protection for Shareholders in such UCI is equivalent to that provided for Shareholders in a UCITS, and in particular that the rules on asset segregation, borrowing, lending, and uncovered sales of Transferable Securities and Money Market Instruments are equivalent to the requirements of the UCITS Directive; • the business of such UCI is reported in half-yearly and annual reports to enable an assessment to be made of the assets and liabilities, income and operations over the reporting period;
"UCITS"	Means an undertaking for collective investment in transferable securities under the UCITS Directive;
"UCITS-CDR"	Means the Commission Delegated Regulation of 17 December 2015 supplementing Directive 2009/65/EC with regard to obligations of depositaries;
"UCITS Directive"	Means Directive 2009/65/EC;
"United States" or "U.S."	Means the United States of America (including the States, the District of Columbia and the Commonwealth of Puerto Rico), its territories, possessions and all other areas subject to its jurisdiction;
"USD"	Means the United States Dollar, the currency of the United States of America;
"U.S. Person"	Means, unless otherwise determined by the Directors, (i) a natural person who is a resident of the United States; (ii) a corporation, partnership or other entity, other than an entity organised principally for passive investment, organised under the laws of the United States and which has its principal place of business in the United States; (iii) an estate or trust, the income of which is subject to United States income tax regardless of the source; (iv) a pension plan for the employees, officers or principals of an entity organised and with its principal place of business in the United States; (v) an entity organised principally for passive investment such as a pool, investment

company or other similar entity; provided, that units of participation in the entity held by persons who qualify as U.S. Persons or otherwise as qualified eligible persons represent in the aggregate ten per cent or more of the beneficial interests in the entity, and that such entity was formed principally for the purpose of investment by such persons in a commodity pool the operator of which is exempt from certain requirements of Part 4 of the U.S. Commodity Futures Trading Commission's regulations by virtue of its participants being non-U.S. Persons; or (vi) any other "U.S. Person" as such term may be defined in Regulation S under the Securities Act, or in regulations adopted under the U.S. Commodity Exchange Act, as amended;

"Valuation Day"

Means each Business Day as at which the Net Asset Value will be determined for each category of Shares in each Compartment, unless otherwise stipulated in the Appendix of the relevant Compartment.

MAIN PART OF THE PROSPECTUS

1. LEGAL STATUS

- 1.1 PROTEA FUND is an investment company with variable capital ("*société d'investissement à capital variable*" - SICAV) governed by Luxembourg law, established in accordance with the provisions of Part I of the 2010 Law.
- 1.2 The Fund was incorporated in accordance with the provisions of Part I of the law of 30 March 1988 relating to undertakings for collective investment for an indefinite period on 10 January 2001, with an initial capital of EUR35,000 under the name PROTEA FUND and its Articles were published in the Luxembourg Official Gazette on 22 February 2001. They were last amended by notarial act dated 21 July 2010.
- 1.3 The Fund is registered with the Luxembourg trade and companies register under number B80092.
- 1.4 The Fund's capital shall at all times be equal to the value of its total net assets; it may never fall below the minimum capital as required by law. This minimum capital shall be reached within a period of six months following registration of the Fund in the official list of UCIs by the CSSF.

2. INVESTMENT OBJECTIVES AND FUND STRUCTURE

- 2.1 The purpose of the Fund is to offer investors access to a world-wide selection of markets and a variety of investment techniques via a range of speciality products ("Compartments") included under a same and single structural umbrella.
- 2.2 The investment policy implemented in the various Compartments shall be laid down by the Board of Directors. A broad spread of risks will be achieved by diversifying investments over a large number of Transferable Securities and other assets permitted by the 2010 Law. The selection of securities will not be limited - except under the terms of the restrictions specified in the Section 22 "Investment Restrictions" below - as regards geographical area or economic consideration, nor as regards the type of eligible instruments.
- 2.3 The net assets forming each Compartment are represented by Shares which may belong to different categories of Shares. All the Compartments together form the Fund. Where different categories of Shares are issued, the information pertaining thereto is given in on the Appendix.
- 2.4 The Board of Directors is entitled to create new Compartments. A list of those Compartments in existence at present, together with a description of their investment policy and main features, is attached as Appendix to this Prospectus.
- 2.5 This list forms an integral part of this Prospectus and will be updated whenever new Compartments are created.

3. ORGANISATION OF MANAGEMENT AND ADMINISTRATION

- 3.1 The Board of Directors is responsible for managing the Fund, monitoring its operations as well as specifying and implementing investment policy.

- 3.2 Notwithstanding the foregoing, the Fund may designate a management company, in accordance with the relevant provisions of the 2010 Law.

Management Company

Corporate information

- 3.3 The Directors have appointed FundPartner Solutions (Europe) S.A. to serve as its designated management company of the Fund (the “Management Company”) within the meaning of the 2010 Law and pursuant to a management company services agreement entered into between the Fund and the Management Company with effect as of 29 March 2014 (the “Management Company Services Agreement”).
- 3.4 FundPartner Solutions (Europe) S.A. was incorporated as a *société anonyme* (public limited liability company) under Luxembourg law for an indefinite period on 17 July 2008, under the denomination Funds Management Company S.A. Its fully paid-up capital is CHF6,250,000 at the date of this Prospectus.

Duties

- 3.5 The Management Company will provide, subject to the overall control of the Board of Directors, and without limitation: (i) asset management services; (ii) central administration, registrar and transfer agency services; and (iii) distribution services to the Fund. The rights and duties of the Management Company are further set out in articles 101 et seq. of the 2010 Law.
- 3.6 The Management Company must at all time act honestly and fairly in conducting its activities in the best interests of the Shareholders, and in conformity with the 2010 Law, this Prospectus and the Articles.
- 3.7 The Management Company is vested with the day-to-day management and administration of the Fund. In fulfilling its duties pursuant to the 2010 Law, and the Management Company Services Agreement, the Management Company is authorised, for the purposes of the efficient conduct of its business, to delegate, under its responsibility and control, and with the prior consent of the Fund, and subject to the approval of the CSSF, part, or all of its functions and duties to any third party, which, having regard to the nature of the functions, and duties to be delegated, must be qualified and capable of undertaking the duties in question.
- 3.8 The Management Company will require any such agent to which the Management Company intends to delegate its duties to comply with the provisions of the Prospectus, the Articles, and the relevant provisions of the Management Company Services Agreement, as well as the 2010 Law.
- 3.9 In relation to any delegated duty, the Management Company shall implement appropriate control mechanisms, and procedures, including risk management controls, and regular reporting processes in order to ensure the effective supervision of the third parties to whom functions, and duties have been delegated, and that the services provided by such third party service providers are in compliance with the Articles, this Prospectus and the agreements entered into with the relevant third party service providers, as well as the 2010 Law. When delegating a duty or a function, the Management Company shall ensure that nothing in the related agreement shall prevent it from giving at any time further instructions to the party to

whom such duty or function has been delegated or from withdrawing the relevant mandate with immediate effect when this is in the interests of the Shareholders.

- 3.10 The Management Company shall be careful, and diligent in the selection, and monitoring of the third parties to whom functions and duties may be delegated, and ensure that the relevant third parties have sufficient experience, and knowledge, as well as the necessary authorisation required to carry out the functions delegated to such third parties.
- 3.11 The following functions have been delegated by the Management Company to third parties:
- (a) investment management of the Compartments; and
 - (b) marketing and distribution,
- as further set out in this Prospectus
- 3.12 The Management Company has established and applies a remuneration policy and practices that are consistent with, and promote, sound and effective risk management and that neither encourage risk taking which is inconsistent with the risk profiles, rules, this Prospectus or the Articles nor impair compliance with the Management Company's obligation to act in the best interest of the Fund (the "Remuneration Policy").
- 3.13 The Remuneration Policy includes fixed and variable components of salaries and applies to those categories of staff, including senior management, risk takers, control functions and any employee receiving total remuneration that falls within the remuneration bracket of senior management and risk takers whose professional activities have a material impact on the risk profiles of the Management Company, the Fund or the Compartments.
- 3.14 The Remuneration Policy is in line with the business strategy, objectives, values and interests of the Management Company, the Fund and the Shareholders and includes measures to avoid conflicts of interest.
- 3.15 In particular, the Remuneration Policy will ensure that:
- (a) the staff engaged in control functions are compensated in accordance with the achievement of the objectives linked to their functions, independently of the performance of the business areas that they control;
 - (b) the assessment of performance is set in a multi-year framework appropriate to the holding period recommended to the investors of the Fund in order to ensure that the assessment process is based on the longer-term performance of the Fund and its investment risks and that the actual payment of performance-based components of remuneration is spread over the same period;
 - (c) the fixed and variable components of total remuneration are appropriately balanced and the fixed component represents a sufficiently high proportion of the total remuneration to allow the operation of a fully flexible policy on variable remuneration components, including the possibility to pay no variable remuneration component;

- (d) the measurement of performance used to calculate variable remuneration components or pools of variable remuneration components includes a comprehensive adjustment mechanism to integrate all relevant types of current and future risks;
- (e) if at any point of time, the management of the Fund were to account for 50 % or more of the total portfolio managed by the Management Company, at least 50 %, of any variable remuneration component will have to consist of Shares, equivalent ownership interests, or share-linked instruments or equivalent non-cash instruments with equally effective incentives as any of the instruments referred to in this item (e); and
- (f) a substantial portion, and in any event at least 40 %, of the variable remuneration component, is deferred over a period which is appropriate in view of the holding period recommended to the Shareholders and is correctly aligned with the nature of the risks of the Fund.

3.16 Details of the Remuneration Policy, including the persons in charge of determining the fixed and variable remunerations of the staff, a description of the key remuneration elements and an overview of how remuneration is determined, is available on the website www.group.pictet/fps.

3.17 A paper copy of the summarised Remuneration Policy is available free of charge to the Shareholders upon request.

3.18 The Management Company Services Agreement has been entered into for an undetermined period of time, and may be terminated, in particular, by either party upon serving to the other a written notice at least 3 (three) months prior to the termination.

Depository

3.19 Under the terms of the depositary agreement signed on 28 April 2016 (the "Depositary Agreement"), Pictet & Cie (Europe) S.A. has been appointed for an indefinite period as depositary of the Fund (the "Depositary"). The Depositary Agreement may be terminated by either signatory party by 90 days' notice.

3.20 The Depositary was incorporated as a société anonyme (public limited liability company) under Luxembourg law on 3rd November 1989 for an indefinite period. Its fully paid-up capital, as at the date of this Prospectus, amounts to CHF70,000,000.

3.21 The Depositary will assume its functions and responsibilities in accordance with applicable Luxembourg law and regulations and the Depositary Agreement. With respect to its duties under the 2010 Law, the Depositary will ensure the safekeeping of the Fund's assets. The Depositary has also to ensure that the Fund's cash flows are properly monitored in accordance with the 2010 Law.

3.22 In addition, the Depositary will:

- (a) ensure that the sale, issue, repurchase, redemption and cancellation of the Shares are carried out in accordance with Luxembourg law and the Articles;
- (b) ensure that the value of the Shares is calculated in accordance with Luxembourg law and the Articles;

- (c) carry out the instructions of the Fund and the Management Company, unless they conflict with Luxembourg law or the Articles;
 - (d) ensure that in transactions involving the Fund's assets any consideration is remitted to the Fund within the usual time limits;
 - (e) ensure that the Fund's incomes are applied in accordance with Luxembourg law and the Articles.
- 3.23 The Depositary may delegate its safekeeping duties with respect to the Fund's financial instruments held in custody or any other assets (except for the cash) in accordance with the UCITS Directive, the UCITS-CDR and applicable law.
- 3.24 An up-to-date list of the delegates (and sub-delegates) of the Depositary is available on the website http://www.pictet.com/corporate/fr/home/asset_services/custody_services.html.
- 3.25 The Depositary will be liable to the Fund or to the Shareholders for the loss of the Fund's financial instruments held in custody by the Depositary or its delegates to which it has delegated its custody functions. A loss of a financial instrument held in custody by the Depositary or its delegate will be deemed to have taken place when the conditions of article 18 of the UCITS-CDR are met. The liability of the Depositary for losses other than the loss of the Fund's financial instruments held in custody will be incurred pursuant to the provisions of the Depositary Agreement.
- 3.26 In case of loss of the Fund's financial instruments held in custody by the Depositary or any of its delegates, the Depositary will return financial instruments of identical type or the corresponding amount to the Fund without undue delay. However, the Depositary's liability will not be triggered if the Depositary can prove that the conditions of article 19 of the UCITS-CDR are fulfilled.
- 3.27 In carrying out its functions, the Depositary will act honestly, fairly, professionally, independently and solely in the interest of the Fund and the Shareholders.
- 3.28 Potential conflicts of interest may nevertheless arise from time to time from the provision by the Depositary and/or its affiliates of other services to the Fund, the Management Company and/or other parties. For example, the Depositary and/or its affiliates may act as the custodian and/or administrator of other funds. It is therefore possible that the Depositary (or any of its affiliates) may in the course of its business have conflicts or potential conflicts of interest with those of the Fund and/or other funds for which the Depositary (or any of its affiliates) acts.
- 3.29 Where a conflict or potential conflict of interest arises, the Depositary will have regard to its obligations to the Fund and will treat the Fund and the other funds for which it acts fairly and such that, so far as is practicable, any transactions are effected on terms which are not materially less favourable to the Fund than if the conflict or potential conflict had not existed. Such potential conflicts of interest are identified, managed and monitored in various other ways including, without limitation, the hierarchical and functional separation of the Depositary's custodian functions from its other potentially conflicting tasks and by the Depositary adhering to its own conflicts of interest policy.

- 3.30 Details of the conflict of interest policy of the Depositary are available on the website www.pictet.com. A paper copy of the summarised conflict of interest policy of the Depositary is available free of charge to the Shareholders upon request.
- 3.31 Under no circumstances will the Depositary be liable to the Fund, the Management Company or any other person for indirect or consequential damages and the Depositary will not in any event be liable for the following direct losses: loss of profits, loss of contracts, loss of goodwill, whether or not foreseeable, even if the Depositary has been advised of the likelihood of such loss or damage and regardless of whether the claim for loss or damage is made in negligence, for breach of contract or otherwise.
- 3.32 The Depositary is not involved, directly or indirectly, with the business affairs, organisation, sponsorship or management of the Fund and is not responsible for the preparation of this document and accepts no responsibility for any information contained in this document other than the above description. The Depositary will not have any investment decision-making role in relation to the Fund. Decisions in respect of the purchase and sale of assets for the Fund, the selection of investment professionals and the negotiation of commission rates are made by the Fund and/or the Management Company and/or their delegates. Shareholders may ask to review the Depositary Agreement at the registered office of the Fund should they wish to obtain additional information as regards the precise contractual obligations and limitations of liability of the Depositary.
- 3.33 The Depositary or the Fund may, at any time, by giving at least 90 days' written notice to the other party, terminate the Depositary's appointment, it being understood that any decision by the Fund to end the Depositary's appointment is subject to the condition that another depositary bank take on the functions and responsibilities of the Depositary within two months as defined in the Articles, provided, furthermore, that if the Fund terminates the Depositary's appointment, the Depositary shall continue to assume the functions of depositary until such time as the Depositary has been dispossessed of all the Fund's assets that it held or had arranged to be held on behalf of the Fund. Should the Depositary revoke the appointment, the Fund shall be required to appoint a new depositary to take on the functions and responsibilities of the Depositary as defined in the Articles within two months, it being understood that, from the date when the notice of termination expires until such time as a new depositary is appointed by the Fund, the Depositary will only be obligated to undertake all necessary measures to ensure that the Shareholders' interests are safeguarded.

Administrative Agent

- 3.34 The Administrative Agent, whose task are fulfilled by the Management Company, is responsible for the provision of accounting services (in particular, carrying out the calculation of the NAV of the Fund and the drafting of the financial statements), processing subscriptions for, redemptions and conversions (if any) of, Shares, calculating issue and redemption proceeds and maintaining the records of the Fund as well as other general administrative services to the Fund, as further detailed in the relevant agreement, and Paying Agent of the Fund responsible for, the payment of dividends and redemption proceeds (if any).
- 3.35 The Administrative Agent is entitled to a fee calculated on the net assets of the Fund and payable on a quarterly basis, as further detailed under Section 14 "Fund Expenses" of the main part of the Prospectus. The fees paid to the Administrative Agent will be shown in the Fund's financial statements.

Investment Managers and Investment Advisors

- 3.36 The Board of Directors is vested with the widest powers to act in any circumstances in the name of the Fund, subject to any powers explicitly granted by law or by the Articles to its General Meeting. The Board of Directors has delegated this duty to the Management Company.
- 3.37 The Board of Director is responsible for the determination of the investment policy pursued by each of its Compartments The Management Company is responsible for the general management of the Fund.
- 3.38 The Management Company may appoint, at the request and with the consent of the Fund, one or more several investment managers in respect of certain Compartments, as described in the Appendix of the relevant Compartment (the “Investment Managers”).
- 3.39 Each Investment Manager will be in charge of the day-to-day management of (all or portion of) the assets of the Compartments for which it has been appointed as investment manager and will deal in the relevant investments on account of the relevant Compartments on a discretionary, subject to and in accordance with instructions received from the Management Company from time to time, and in accordance with each Compartment’s investment objective, policy and restrictions.
- 3.40 With the consent of the Fund and the Management Company or, as the case by be, the CSSF, each Investment Manager may delegate its investment management function to third parties in respect of one or more Compartments for which it has been appointed as investment manager, in which case such delegation will be described in the relevant Appendix.
- 3.41 Each Investment Manager may, on its own responsibility, appoint one or more investment advisors for each Compartment for which it has been appointed as investment manager (the “Investment Advisor”). Their mission will be to advise it on investment opportunities and obtain assistance for the Compartments whose assets it manages.
- 3.42 The Investment Managers may be assisted by investment advisers (the “Investment Advisers”) as set out in more details in each relevant Appendix. The Investment Advisers will provide the Investment Managers with recommendations, advice and opinions regarding investment choice and selection of securities and any other assets that make up the portfolio of the various Compartments.

Auditors

- 3.43 The auditing has been entrusted to Deloitte Audit, *Société à responsabilité limitée*, whose registered office is at 560, route de Neudorf, L-2220 Luxembourg.

4. RIGHTS OF THE SHAREHOLDERS

Shares

- 4.1 The Shares in each Compartment are issued in registered and dematerialised form, with no par value and fully paid-up. A holder of dematerialised Shares will have its Shares deposited on a securities account in the name of its beneficiary. Fractions of Shares may be issued up to five decimals. Fractional Shares do not confer the right to vote, however do confer the right to participate, in pro rata, to any proceeds upon liquidation and dividend distributions.

- 4.2 No certificates will be issued. All owners of the Shares will have their names entered into the Shareholders' register which will be held at the Fund's registered office. Shares repurchased by the Fund shall be cancelled.
- 4.3 All Shares are freely transferable and have an equal entitlement to any profits, proceeds of liquidation and dividends relating to the Compartment (or the category of Shares respectively) to which they pertain.
- 4.4 Each Share has one vote. Shareholders are also entitled to the general Shareholder rights as described in the Luxembourg law dated 10th August 1915 on commercial companies and its subsequent amendments, with the exception of pre-emption rights to subscribe to new Shares.
- 4.5 Shareholders will only receive confirmation that their names have been recorded in the Shareholders' register.
- 4.6 The Fund draws the attention of the investors to the fact that any investor will only be able to fully exercise his/her/its investor rights directly against the Fund if the investor is registered himself/herself/itself on in his own name in the Shareholders' register of the Fund. In cases where an investor invests in the Fund through an intermediary investing into the Fund in his/her/its own name but on behalf of the investor, it may not always be possible for the investor to exercise certain Shareholder rights directly against the Fund.

Compartments

- 4.7 The Appendix to this Prospectus lists the current Compartments. The Board of Directors may, at any time, decide to create additional Compartments.
- 4.8 The subscription price for Shares in each Compartment is invested in the assets of the relevant Compartment. In principle, all assets and liabilities related to a specific Compartment are allocated to that Compartment. To the extent that costs and expenses are not directly chargeable to a specific Compartment, they shall be shared out proportionally among the various Compartments according to their net asset values or, if circumstances warrant it, allocated on an equal footing to each Compartment. The assets of a specific Compartment will only meet the liabilities, commitments and obligation relating to such Compartment.

Categories of Shares

- 4.9 The Board of Directors may also decide to create for each Compartment two or more categories of Shares whose assets are generally invested in accordance with the specific investment policy of the relevant Compartment, but where categories of Shares may be distinguished by specific commission and/or redemption structures, by specific exchange-risk hedging policies, by specific distribution policies and/or by specific management or advisory commission or by other specific characteristics applying to each category of Shares. Such information is, if necessary, defined in the Appendix to the Prospectus.
- 4.10 Certain categories of Shares in certain Compartments, indicated in the Appendix to the Prospectus, may, on the decision of the Board, be subdivided into several sub-classes with a different reference currency than the Reference Currency of the Compartment. The attention of investors is drawn to the fact that, depending on whether foreign exchange hedging instruments are used in respect of each such category of Shares, an investor may be exposed to

the risk that the Net Asset Value of one category of Shares denominated in a given currency may fluctuate in a way that compares unfavourably to that of another category of Shares denominated in another currency. To the extent permitted by the Prospectus, and in relation to sub-classes that are denominated in a currency other than the Reference Currency of a Compartment, the Fund may employ techniques and instruments intended to provide protection, so far as possible, against movements of the currency in which the relevant sub-class is denominated. Any decision to hedge will be systematically applied. All costs and expenses associated with the financial instruments, if any, used for the purpose of hedging foreign exchange risks related to the sub-class concerned will be allocated to that sub-class only.

- 4.11 The Appendix to this Prospectus lists the current categories of Shares.

General Meetings

- 4.12 The annual General Meeting shall be held each year at the Fund's registered office or at any other location in Luxembourg which will be specified in the convening notice to the meeting.
- 4.13 The annual General Meeting shall be held on the fourth Wednesday of March at 11 a.m. or, if this happens to be an official holiday in Luxembourg, on the next Business Day thereafter.
- 4.14 Convening notices shall be sent to all registered Shareholders at least 8 days prior to the annual General Meeting. These notices shall include details of the time and place of this meeting, the agenda, conditions for admission and requirements concerning the quorum and majority voting rules as laid down by Luxembourg law.
- 4.15 The convening notice to a General Meeting may provide that the quorum and majority requirements will be assessed against the number of Shares issued and outstanding at midnight (Luxembourg time) on the fifth day prior to the relevant meeting (the "Record Date") in which case, the right of any Shareholder to participate in the meeting will be determined by reference to his/her/its holding as at the Record Date. In case of dematerialised shares (if issued) the right of a holder of such Shares to attend a General Meeting and to exercise the voting rights attached to such Shares will be determined by reference to the Shares held by this holder as at the time and date provided for by Luxembourg laws and regulations.
- 4.16 In accordance with the Articles and Luxembourg law, all decisions taken by the Shareholders pertaining to the Fund shall be taken at the General Meeting. Any decisions affecting Shareholders in one or several Compartments may be taken by just those Shareholders in the relevant Compartments to the extent that this is permitted by law. In this particular instance, the requirements on quorum and majority voting rules as laid down in the Articles shall apply.

5. SUBSCRIPTIONS

- 5.1 The list of Compartments already in operation is included in Appendix 1 to this Prospectus.
- 5.2 Appendix 1 will be updated to take into account the activation or the decision to activate any added Compartment or any added category of Shares.
- 5.3 Subscriptions for Shares in each Compartment already in operation shall be accepted at the issue price, as defined hereunder in Section 7 "Issue price", at the office of the Depositary as well as at any other establishments authorised to do so by the Fund.

- 5.4 At the discretion of the Board of Directors, Shares may be issued against contributions of Transferable Securities or other eligible assets to the Compartments provided that these assets are Eligible Investments and the contributions comply with the investment policies and restrictions laid out in this Prospectus and have a value equal to the issue price of the Shares concerned. The assets contributed to the Compartment, as described above, will be valued separately in a special report of the Auditor. These contributions in kind of assets are not subject to brokerage costs. The Board of Directors will only have recourse to this possibility (i) at the request of the relevant investor and (ii) if the transfer does not negatively affect current Shareholders. All costs related to a contribution in kind will be paid for by the Compartment concerned provided that they are lower than the brokerage costs which the Compartment would have paid if the assets concerned had been acquired on the market. If the costs relating to the contribution in kind are higher than the brokerage costs which the Compartment concerned would have paid if the assets concerned had been acquired on the market, the exceeding portion thereof will be supported by the subscriber.
- 5.5 Unless specifically mentioned under Appendix I, for any subscription received by the Fund or by the distributor, prior to 4 p.m., on the last Business Day before the following Valuation Day, the Net Asset Value calculated on the said Valuation Day will be applicable.
- 5.6 For any subscription arriving at the Fund or at the distributor after the deadline set at 4 p.m. on the last Business Day before a Valuation Day, the Net Asset Value applicable will be the Net Asset Value as calculated on the next following Valuation Day.
- 5.7 The amount for the subscription shall be paid or transferred, in the reference currency of the relevant Compartment or category/class of Shares, into the account of the Depositary, to the order of the Fund with reference to the Compartment(s) concerned within three Business Days counting from the relevant Valuation Day or any other day as set out in the Appendix 1.
- 5.8 The Fund does not permit practices of Market Timing and reserves the right to reject subscription and conversion orders from an investor who the Fund suspects of using such practices and, if appropriate, to take the necessary measures to protect the other investors of the Fund.
- 5.9 The Fund may also, at any time and at its discretion, temporarily discontinue, cease permanently or limit the issue of Shares in one or more Compartments to persons or corporate bodies resident or domiciled in some countries or territories. The Fund may prohibit them from acquiring Shares if such a measure is necessary to protect the Shareholders as a whole and the Fund. In particular, the Fund is entitled to reject, at its discretion, any application to subscribe to Shares.

6. ANTI-MONEY LAUNDERING AND TERRORIST FINANCING REQUIREMENTS

- 6.1 Measures aimed towards the prevention of money laundering as provided by Luxembourg laws and the circulars as issued by the CSSF are the responsibility of the Fund, that delegates to the Administrative Agent such controls.
- 6.2 These measures may require the Administrative Agent to request verification of the identity of any prospective investor. By way of example, an individual may be required to produce a copy of his/her passport or identification card duly certified by a competent authority (e.g. embassy, consulate, notary, police officer, solicitor, financial institution domiciled in a country imposing

equivalent identification requirements or any other competent authority). In the case of corporate applicants, this may require, amongst others, production of a certified copy of the certificate of incorporation (and any change of name) and investor's memorandum and articles of association (or equivalent), a recent list of its shareholders showing a recent stake in its capital, printed on the letterhead of the investor duly dated and signed, an authorised signature list and an excerpt of the trade register. It should be noted that the above list is not exhaustive and that the investors may be required to provide further information to the Administrative Agent in order to ensure the identification of the final beneficial owner of the Shares.

- 6.3 Until satisfactory proof of identity is provided by potential investors or transferees as determined by the Administrative Agent, it reserves the right to withhold issue or approval of registration of transfers of Shares. Similarly, redemption proceeds will not be paid unless compliance with these requirements has been made in full. In any such event, the Administrative Agent will not be liable for any interest, costs or compensation.
- 6.4 In case of a delay or failure to provide satisfactory proof of identity, the Administrative Agent may take such action as it thinks fit.
- 6.5 These identification requirements may be waived by the Administrative Agent in the following circumstances:
 - (a) in the case of a subscription through a financial intermediary which is supervised by a regulatory authority which imposes an investors' or transferees' identification obligation equivalent to that required under Luxembourg laws for the prevention of money laundering and to which the financial intermediary is subject;
 - (b) in the case of a subscription through a financial intermediary whose parent is supervised by a regulatory authority which imposes an investors' or transferees' identification obligation equivalent to that required under Luxembourg laws for the prevention of money laundering and where the law applicable to the parent or the group policy imposes an equivalent on its subsidiaries or branches.

7. ISSUE PRICE

- 7.1 The issue price for Shares in each Compartment is equal to the net asset value of each Share (or each category of Shares, respectively) in that Compartment, calculated on the first Valuation Day following the day of subscription.
- 7.2 Under certain circumstances, the Board of Directors has the power to charge a "dilution levy" on the issue price as described hereafter under Section 10 "Dilution Levy". In any case, the effective dilution levy charged on any Valuation Day shall be identical for all issues effected on such day.
- 7.3 The issue price may be increased by sales commissions, which will be paid to intermediaries and do not exceed 5% of the net asset value of each Share.
- 7.4 The issue price will also be increased to cover any duties, taxes and stamp duties which may have to be paid.

8. REDEMPTIONS

General

- 8.1 Shareholders are entitled at any time to redeem all or part of their Shares at the redemption price as further set out in Sections 8.7 to 8.11 headed “Redemption price” below, by addressing an irrevocable application for redemption to the Fund, or other authorised establishments.
- 8.2 For any request for redemption received by the Fund or by a distributor by 4 p.m. at the latest on the last Business Day before a Valuation Day, the Net Asset Value calculated on that Valuation Day shall be applicable.
- 8.3 Unless specifically mentioned under Appendix 1, for any request for redemption received by the Fund or by a distributor after the deadline of 4 p.m. on the last Business Day before a Valuation Day, the Net Asset Value applicable will be calculated on the following Valuation Day thereafter.
- 8.4 If, because of applications for redemption or conversion, it is necessary on a given Valuation Day to repurchase or convert a certain amount as determined by the Board of Directors in relation to the number of the Shares issued in a particular Compartment, the Board of Directors may decide that redemptions or conversions have to be postponed to the Valuation Day. On that Valuation Day, applications for redemption or conversion which had been postponed (and not withdrawn) shall be given priority over applications for redemption or conversion received for that particular Valuation Day (and which had not been postponed).
- 8.5 The Fund is entitled to repurchase, at any time, Shares which have been acquired in violation of a measure of exclusion taken by virtue of the Fund.
- 8.6 The price for the Shares presented for redemption shall be paid by transfer in the reference currency of the Compartment concerned within three Business Days following the date when the net asset value applicable to the redemption was calculated (see Sections 8.7 to 8.11 on “Redemption price” below) or any day as set out in the Appendix 1.

Redemption price

- 8.7 The redemption price for Shares in each Compartment is equal to the net asset value of each Share (or each category of Shares respectively) in that Compartment as calculated on the first applicable day after the application for redemption has been made.
- 8.8 In addition to this, the price may be reduced by a redemption commission of maximum 3% of the net asset value of each Share to be paid to intermediaries.
- 8.9 Under certain circumstances, the Board of Directors has the power to charge a dilution levy on the redemption price as described hereafter under Section 10 “Dilution Levy”. In any case, the effective dilution levy charged on any Valuation Day shall be identical for all redemptions effected on such day.
- 8.10 The redemption price may also be reduced to cover any duties, taxes and stamp duties which might have to be paid.

- 8.11 The redemption price could be higher or lower than the subscription price paid, depending on how the net asset value has changed in the intervening period.

9. CONVERSION

- 9.1 Subject to any potential restriction which may be set out in the Appendix to the Prospectus, any Shareholder may request the conversion of all or part of his/her/its Shares (or categories of Shares, respectively) in one Compartment into Shares of another Compartment, on the basis of the respective Net Asset Values as calculated on the Valuation Day of the Compartments (or category of Shares) concerned plus a conversion commission of maximum 1% of the Net Asset Value of each Share to be paid to intermediaries.
- 9.2 For any conversion requests received by the Fund or by a distributor by 4 p.m. at the latest on the last Business Day before a Valuation Day, the Net Asset Value calculated on the said Valuation Day will be applicable.
- 9.3 For any conversion requests received by the Fund or a distributor after the deadline of 4 p.m. on the last Business Day before a Valuation Day, the Net Asset Value applicable will be calculated on the next following Valuation Day thereafter.
- 9.4 Under certain circumstances, the Board of Directors has the power to charge a dilution levy on the conversion price as described hereafter under the Section 10 "Dilution Levy". In any case, the effective dilution levy charged on any Valuation Day shall be identical for all redemptions effected on such day.

10. DILUTION LEVY

- 10.1 Under certain circumstances (for example, large volumes of deals) investment and/or disinvestments costs may have an adverse effect on the Shareholders' interest in the Fund. In order to prevent this effect, called "dilution", the Board of Directors has the power to charge a dilution levy on the issue, redemption and/or conversion of Shares. If charged, the dilution levy will be paid into the relevant Compartment and will become part of the relevant Compartment.
- 10.2 The dilution levy for each Compartment will be calculated by reference to the costs of dealing in the underlying investments of that Compartment, including any dealing spreads, commission and transfer taxes.
- 10.3 The need to charge a dilution levy will depend on the volume of issues, redemptions or conversions. The Board of Directors may charge a discretionary dilution levy on the issue, redemption and/or conversion of Shares, if in its opinion, the existing Shareholders (for issues) or remaining Shareholders (for redemptions) might otherwise be adversely affected. In particular, the dilution levy may be charged in the following circumstances:
- (a) where a Compartment is in constant decline (large volume of redemption requests);
 - (b) on a Compartment experiencing substantial issues in relation to its size;
 - (c) in the case of "large volumes" of redemptions, subscriptions and /or conversions where "large volumes" refers to net redemptions or subscriptions exceeding 10% of the Compartment's entire assets;

- (d) in all other cases where the Board of Directors considers the interests of Shareholders require the imposition of a dilution levy.

10.4 In any case the dilution levy shall not exceed 2% of the net asset value per Share.

11. CALCULATION OF THE NET ASSET VALUE

11.1 The Net Asset Value as well as issue, redemption and conversion prices for Shares are calculated by the Administrative Agent for each Compartment in the Reference Currency used for the Compartment on the basis of the last known prices, at intervals which may vary for each Compartment and are specified in Appendix 1 (the "Valuation Day").

11.2 If the Valuation Day is not a Business Day, the Net Asset Value for that Compartment will be calculated on the next Business Day.

11.3 The Net Asset Value of a Share in each Compartment will be calculated by dividing the net assets of that Compartment by the total number of Shares outstanding of that Compartment. The Net Asset Value of a Compartment corresponds to the difference between the total assets and the total liabilities of the Compartment.

11.4 If different categories of Shares are issued for a Compartment, the Net Asset Value of each category of Shares in the Compartment concerned will be calculated by dividing the total Net Asset Value as calculated for the Compartment concerned and attributable to that category of Shares, by the total number of Shares issued for that category of Shares.

11.5 The percentage of the total Net Asset Value of the Compartment concerned attributable to each category of Shares, which was initially identical to the percentage of the number of Shares represented by that category of Shares, will change in respect of the distributions carried out in connection with dividend Shares as follows:

- (a) Upon payment of a dividend or any other distribution in respect of dividend Shares, the total net assets attributable to that category of Shares will be reduced by the amount of such distribution (the effect being to reduce the percentage of total net assets of the Compartment concerned attributable to dividend Shares), and the total net assets attributable to capitalisation Shares will remain identical (resulting in an increase in the percentage of the total net assets of the Compartment attributable to capitalisation Shares);
- (b) Upon the capital increase of the Compartment concerned by the issue of new Shares in one of the -category of Shares, the total net assets attributable to the category of Shares concerned will be increased by the amount received for such issue;
- (c) Upon the redemption by the Compartment concerned of the Shares in a particular category of Shares, the total net assets attributable to the corresponding category of Shares will be reduced by the price paid for the redemption of such Shares;
- (d) Upon the conversion of the Shares in one category of Shares into Shares in another category of Shares, the total net assets attributable to that category of Shares will be reduced by the net asset value of the Shares thus converted, the total net assets attributable to the category of Shares concerned being increased by that amount.

- 11.6 The Reference Currency of the Fund is the EUR and corresponds to the difference between the total assets and the total liabilities of the Fund. In order to calculate this value, the net assets of each Compartment will, unless they are already expressed in EUR, be converted into EUR, and added together.
- 11.7 The assets of the Fund shall be valued as follows:
- (a) Transferable Securities and Money Market Instruments admitted to official listing on an official stock exchange or traded on any Other Regulated Market will be valued at the last available price, unless such a price is not deemed to be representative of their fair market value.
 - (b) Securities not listed on an official stock exchange or not traded on any Regulated Market and securities with an official listing for which the last available price is not representative of a fair market value will be valued, prudently and in good faith, on the basis of their estimated sale prices.
 - (c) Cash and other liquid assets will be valued at their face value with interest accrued;
 - (d) The units/shares of open-ended UCIs will be valued on the basis of the last known net asset value. The units/shares of closed-ended UCIs will be valued on the basis of the last known market value.
 - (e) Money Market Instruments not listed on stock exchanges or not traded on any Regulated Market and with remaining maturity of less than 12 months are valued at their nominal value, increased by any interest accrued thereon, if any; the total value being amortised in accordance with the amortised cost method.
 - (f) The prices of futures and options admitted to official listing on an official stock exchange or traded on any other organised market are based on the previous day's closing price on the market in question. The prices used are the settlement prices on the futures markets. Futures and options contracts not admitted to official listing on an official stock exchange or traded on any other organised market will be valued at their liquidating value determined pursuant to the policies established in good faith by the Board of Directors, on a basis consistently applied for each different variety of contracts.
 - (g) Swaps shall be priced at their fair value based on the value of the underlying assets (closing or intraday) as well as the characteristics of the underlying commitments.
 - (h) For each Compartment, securities whose value is expressed in a currency other than the reference currency of that Compartment will be converted into that reference currency at the average rate between the last available buy/sell rate in Luxembourg or, failing that, in a financial centre which is most representative for those securities.
- 11.8 The Board of Directors is entitled to adopt any other appropriate principles for valuing the Fund's assets in the event that extraordinary circumstances make it impracticable or inappropriate to determine the values according to the criteria specified above.
- 11.9 In cases when applications for subscription or redemption are sizeable, the Board of Directors may assess the value of the Share on the basis of rates during the trading session on the stock

exchanges or markets during which it was able to buy or sell the necessary securities for the Fund. In such cases, a single method of calculation will be applied to all applications for subscription or redemption received at the same time.

12. SUSPENSION OF THE CALCULATION OF NET ASSET VALUE, ISSUE, REDEMPTION AND CONVERSION PRICES

12.1 The calculation of the Net Asset Value or the issue, redemption and conversion prices of Shares in one or more Compartments may be suspended in the following circumstances:

- (a) When one or more stock exchanges or markets, which provide the basis for valuing a substantial portion of the Fund's assets, or when one or more foreign exchange markets in the currency in which the net asset value of Shares is expressed or in which a substantial portion of the Fund's assets is held, are closed other than for ordinary holidays or if dealings therein are suspended, restricted or subject to major short-term fluctuations.
- (b) When, as a result of political, economic, military, monetary or social events, strikes or other circumstances outside the responsibility and control of the Fund, the disposal of the Fund's assets is not reasonably or normally practicable without being seriously detrimental to the Shareholders' interests.
- (c) In the case of a breakdown in the normal means of communication used to calculate the value of an asset in the Fund or when, for whatever reason, the value of an asset in the Fund cannot be calculated as rapidly and as accurately as required.
- (d) If, as a result of exchange controls or other restrictions on the movement of capital, transactions for the Fund are rendered impracticable or if purchases or sales of the Fund's assets cannot be made at normal rates of exchange.
- (e) In the case of suspension, of the calculation of the net asset value of one or several of the target UCIs in which the Fund has invested a substantial portion of its assets.
- (f) On the occurrence of any event entailing the liquidation of the Fund or one of its Compartments.

12.2 In such cases of suspension, Shareholders who have submitted applications to subscribe to, redeem or convert Shares in Compartments affected by the suspensions shall be notified.

12.3 The Fund may, at any time and at its discretion, temporarily discontinue, cease permanently or limit the issue of Shares in one or more Compartments to persons or corporate bodies resident or domiciled in some countries or territories. The Fund may also prohibit them from acquiring Shares if such a measure is necessary to protect the Shareholders as a whole and the Fund.

13. INCOME DISTRIBUTION

13.1 The Board of Directors reserves the right to introduce a distribution policy which may vary according to Compartments and categories of Shares issued (capitalisation and distribution Shares).

13.2 Each distribution policy will be defined in the Appendices.

- 13.3 For those Compartments that do not comprise categories of Shares, the income will be capitalised on the understanding however that the Board of Directors reserves the right to introduce an income distribution policy. In such cases, dividends may be payable following a decision of the Board of Directors within 6 months after the close of the Business Year.
- 13.4 In addition to the above dividends, the Fund may choose to pay interim dividends.
- 13.5 No distribution may be effected if as a result thereof the net assets of the Fund were to fall below EUR1,250,000 (being provided that Shares of a Target Compartment held by an Investing Compartment will not be taken into account for the purpose of the calculation of the EUR1,250,000 minimum capital requirement).
- 13.6 Dividends and allotments not collected within five years of their due date will lapse and revert to the Compartment.

14. FUND EXPENSES

Advisory fee and Management fee

- 14.1 Each Investment Adviser and/or Investment Manager is entitled to an advisory or management fee, payable on a quarterly basis at an annual rate which could vary according to the Compartments. The applicable rate for each Compartment is determined in Appendix 1 to the Prospectus. This commission is levied on each Compartment at a pro rata rate of its average net assets as determined during the relevant quarter concerned.
- 14.2 The Investment Adviser and/or Investment Manager may use part of the advisory or management fee received by the Fund to remunerate distributors and selling agents.

Performance fee

- 14.3 In respect of certain Compartments, the Investment Manager and/or Investment Adviser may also be entitled to receive a performance fee, as may be specified in the relevant Appendix.

Other expenses

- 14.4 Other costs charged to the Fund include:
- (a) All taxes and duties which might be due on the Fund's assets or income earned by the Fund, in particular the subscription tax (0.05% per annum) charged on the Fund's net assets.
 - (b) Brokerage fees and charges on transactions involving securities in portfolio.
 - (c) Remuneration of the Depositary, its correspondents, the Administrative Agent and the Management Company which shall not, in aggregate, exceed a maximum of 1.6% p.a. (exclusive of any applicable VAT) on the total average net assets of the Fund and which shall be paid on a quarterly basis.
 - (d) Extraordinary costs incurred, particularly for any verification procedures or legal proceedings undertaken to protect the Shareholders' interests.

- (e) The cost of preparing, printing and filing of administrative documents, prospectuses and explanatory memoranda with all authorities, the rights payable for the registration and maintenance of the Fund with all authorities and official stock exchanges, the cost of preparing, translating, printing and distributing periodical reports and other documents required by law or regulations, the cost of accounting and calculating the net asset value, the cost of preparing, distributing and publishing notifications to Shareholders, fees for legal consultants, experts and independent auditors, and all similar operating costs.
- (f) All advertising expenses and other expenditure other than that specified above related directly to the offering and distribution of Shares in foreign countries.

- 14.5 The fees associated with the creation of a new Compartment will be, in principle, exclusively borne by this new Compartment. Nevertheless the Board of Directors may decide, in circumstances where it would appear to be more fair to the Compartments concerned, that the initial setting up costs of the Fund, not yet amortised at the time of the new Compartment is launched, will be equally borne by all existing Compartments including the new Compartment. The Board of Directors may also decide that the costs associated with the opening of new Compartments be borne by the existing Compartments.
- 14.6 All recurring expenditure shall be charged first to the Fund's income, then to realised capital gains, then to the Fund's assets. Other expenditure may be amortised over a period not exceeding five years.
- 14.7 Charges involved in the calculation of the Net Asset Values of the various Compartments shall be spread between the Compartments in proportion to their net assets, except in cases where charges specifically involve one Compartment, in which case they will be charged to that Compartment.
- 14.8 Please refer to the Sections 5, 8, 9 and 10 relating to "Subscriptions", "Redemptions", "Conversions" and "Dilution levy" for further details as to the specific fees and expenses borne by Shareholders.

15. RISK CONSIDERATIONS

The Fund bears the general risks laid down below. However, each Compartment is subject to specific risks, which the Board of Directors will seek to lower, as listed in the relevant Appendix.

Equity Securities

- 15.1 Investing in equity securities may offer a higher rate of return than other investments. However, the risks associated with investments in equity securities may also be higher, because the performance of equity securities depends upon factors which are difficult to predict. Such factors include the possibility of sudden or prolonged market declines and risks associated with individual companies. The fundamental risk associated with equity portfolio is the risk that the value of the investments it holds might decrease in value. Equity security value may fluctuate in response to the activities of an individual company or in response to general market and/or

economic conditions. Historically, equity securities have provided greater long-term returns and have entailed greater short-term risks than other investment choices.

High-yield securities

- 15.2 A Compartment may invest in bonds of issuers that do not have publicly traded equity securities, making it more difficult to hedge the risks associated with such investments (and the Compartment is not required to hedge, and may choose not to do so). High-yield securities that are below investment grade or unrated face on-going uncertainties and exposure to adverse business, financial or economic conditions which could lead to the issuer's inability to meet timely interest and principal payments. The market values of certain of these lower-rated and unrated debt securities tend to reflect individual corporate developments to a greater extent than do higher-rated securities, which react primarily to fluctuations in the general level of interest rates, and tend to be more sensitive to economic conditions than are higher-rated securities. Companies that issue such securities are often highly leveraged and may not have available to them more traditional methods of financing. It is possible that a major economic recession could disrupt severely the market for such securities and may have an adverse impact on the value of such securities. In addition, it is possible that any such economic downturn could adversely affect the ability of the issuers of such securities to repay principal and pay interest thereon and increase the incidence of default of such securities.

Investment in UCIs

- 15.3 Investment in UCIs may embed a duplication of the fees and expenses which will be charged to the Fund, i.e. setting-up, filing and domiciliation costs, subscription, redemption or conversion fees, management fees, depositary bank fees and other service providers' fees. The accumulation of these costs may cause higher costs and expenses that would have been charged to the Fund if the latter had invested directly. The Fund will however seek to avoid any irrational multiplication of costs and expenses to be borne by Shareholders.
- 15.4 Also, the Fund must ensure that its portfolios of target UCIs present appropriate liquidity features to enable them to meet their obligation to redeem or repurchase their Shares. However, there is no guarantee that the market liquidity for such investments will always be sufficient to satisfy redemption requests favourably at the exact time they are submitted. Any absence of liquidity may impact in the liquidity of the Shares and the value of its investments.

Investment in warrants

- 15.5 Investors should be aware of and prepared to accept the greater volatility in the prices of warrants which may result in greater volatility in the price of the Shares. Thus, the nature of the warrants will involve Shareholders in a greater degree of risk than is the case with conventional securities.

Stock market volatility

- 15.6 The Net Asset Value of the Fund will reflect the volatility of the stock market. Stock markets are volatile and can move significantly in response to the issuer, demand and supply, political, regulatory, market and economic developments.

Issuer-specific risk

- 15.7 The value of an individual security or particular type of security can be more volatile than the market as a whole and can perform differently from the value of the market as a whole.

Interest rate risks

- 15.8 The Net Asset Value of the Fund will change in response to fluctuations in interest rates. Generally, interest rate risk involves the risk that when interest rates decline, the market value of bonds tends to increase, and vice versa. The extent to which the price of a bond changes as the interest rates move may differ by the type of the debt securities.

Market risk

- 15.9 Although it is intended that the portfolio of the Fund will be diversified, the investments of the Fund are subject to normal market fluctuations and to the risks inherent in investment in equities, fixed income securities, currency instruments, derivatives and other similar instruments. The prices of the Shares can go down as well as up and investors may not be able to realise their investment objective. Although the Board of Directors will attempt to restrict the exposure of the Fund to market movements, there is no guarantee that this strategy will be successful.

Investment in derivative instruments

- 15.10 The use of futures, options and forward contracts exposes the Fund to additional investment risks. Financial futures prices are highly volatile and influenced by a variety of diverse factors including, i.a., changing supply and demand relationships, government, fiscal, monetary and exchange control programs and policies, national and international political and economic events and government intervention in certain markets, particularly in the currency and interest rate markets.
- 15.11 The trading of options, including options on futures contracts and OTC options, is speculative and highly leveraged. Specific market movements of futures contracts or securities underlying an option cannot be accurately be predicted. The purchaser of an option is subject to the risk of losing the entire purchase price of the option. The writer of an option is subject to the risk of loss resulting from the difference between the premium received for the option and the price of the futures contracts or security underlying the option which the writer must purchase or deliver upon exercise of the option. Options traded OTC are not regulated.
- 15.12 Futures are also subject to illiquid situations when market activity decreases or when a daily price fluctuation limit has been reached.

Specific risk relating to the use of TRS

- 15.13 Because it does not involve physically holding the securities, synthetic replication through total return (or unfunded swaps) and fully-funded swaps can provide a means to obtain exposure to difficult-to-implement strategies that would otherwise be very costly and difficult to have access to with physical replication. Synthetic replication therefore involves lower costs than physical replication. Synthetic replication however involves counterparty risk. If a Compartment engages in OTC Derivatives, there is the risk – beyond the general counterparty

risk – that the counterparty may default or not be able to meet its obligations in full. Where the Fund and any of its Compartments enters into TRS on a net basis, the two payment streams are netted out, with each Compartment receiving or paying, as the case may be, only the net amount of the two payments. TRS entered into on a net basis do not involve the physical delivery of investments, other underlying assets or principal. Accordingly, it is intended that the risk of loss with respect to TRS is limited to the net amount of the difference between the total rate of return of a reference investment, index or basket of investments and the fixed or floating payments. If the other party to a TRS defaults, in normal circumstances the Fund's or relevant Compartment's risk of loss consists of the net amount of total return payments that the Fund or Compartment is contractually entitled to receive.

Synthetic leverage

- 15.14 A Compartment's portfolio may be leveraged by using financial derivative instruments (including OTC Derivatives) i.e. as a result of its transactions in the futures, options and swaps markets. A low margin deposit is required in futures trading and the low cost of carrying cash positions permit a degree of leverage, which may result in exaggerated profits or losses to an investor. A relatively small price movement in a futures position or the underlying instrument may result in substantial losses to the Compartment resulting in a similar decline to the Net Asset Value per Share. The writer of an option is subject to the risk of loss resulting from the difference between the premium received for the option and the price of the futures contract or security underlying the option which the writer must purchase or deliver upon exercise of the option. Contracts for differences and swaps may also be used to provide synthetic short exposure to a transferable security.

Foreign exchange/currency risk

- 15.15 Although Shares may be denominated in a particular currency, the Fund may invest its assets in securities denominated in a wide range of currencies, some of which may not be freely convertible. The Net Asset Value of the Fund as expressed in its base currency will fluctuate in accordance with the changes in the foreign exchange rate between that currency and the currencies in which the Fund's investments are denominated. The Fund may therefore be exposed to a foreign exchange/currency risk.
- 15.16 It may not be possible or practicable to hedge against the consequent foreign exchange/currency risk exposure.

Political and/or regulatory risks

- 15.17 The value of the Fund's assets may be affected by uncertainties such as international political developments, changes in government policies, changes in taxation, restrictions on foreign investment and currency repatriation, currency fluctuations and other developments in the laws and regulations of countries in which investment may be made. Furthermore, the legal infrastructure and accounting, auditing and reporting standards in certain countries in which investment may be made may not provide the same degree of investor protection or information to investors as would generally apply in major securities markets.

Settlement risk

- 15.18 The trading and settlement practices on some of the recognised exchanges on which the Fund may invest may not be the same as those in more developed markets. That may increase settlement risk and/or result in delays in realising investments made by the Fund.

Custody risk

- 15.19 Local custody services in some of the market countries in which the Fund may invest may not be the same as those in more developed market countries and there is a transaction and custody risk involved in dealing in such markets.

Taxation

- 15.20 Potential investors' attention is drawn to the taxation risks associated with investing in the Fund. Further details relating to the Luxembourg tax legislation are given under Section 16 "Tax status". However, nothing in this Prospectus may be construed any tax advice and investors should consult their own professional advisers regarding any tax issues in the context of any contemplated investment in the Fund.

Counterparty risk

- 15.21 The Fund may be subject to the risk of the inability of the counterparty, or any other entities in or with which an investment or transaction is made, to perform with respect to transactions, whether due to insolvency, bankruptcy or other causes.

Risk arising from investments in emerging markets

- 15.22 Payment suspensions and default in developing countries are due to various factors, such as political instability, bad financial management, a lack of currency reserves, capital leaving the country, internal conflicts or the lack of the political will to continue servicing the previously contracted debt.
- 15.23 The ability of issuers in the private sector to face their obligations may also be affected by these same factors. Furthermore, these issuers suffer the effect of decrees, laws and regulations introduced by the government authorities. These may be the modification of exchange controls and amendments to the legal and regulatory system, expropriations and nationalisations and the introduction of, or increase in, taxes, such as deduction at source.
- 15.24 Uncertainty due to an unclear legal environment or to the inability to establish firm ownership rights constitute other decisive factors. Added to this are the lack of reliable sources of information in these countries, the non-compliance of accounting methods with international standards and the lack of financial or commercial controls.
- 15.25 In particular, investors' attention is drawn to the fact that, at present, investments in Russia are subject to increased risk as regards the ownership and custody of Transferable Securities: market practice for the custody of bonds is such that these bonds are deposited with Russian institutions that do not always have adequate insurance to cover risk of loss arising from the theft, destruction or disappearance of instruments held in custody.

Investment in Contingent Convertible Bonds

- 15.26 Certain Compartments may invest in Contingent Convertible Bonds. Under the terms of a Contingent Convertible Bond, certain triggering events, including events under the control of the management of the Contingent Convertible Bond's issuer, could cause the permanent write-down to zero of principal investment and/or accrued interest, or a conversion to equity. These triggering events may include (i) a deduction in the issuing bank's Core Tier 1/Common Equity Tier 1 (CT1/CET1) ratio (or other capital ratios) below a pre-set limit, (ii) a regulatory authority, at any time, making a subjective determination that an institution is "nonviable", i.e., a determination that the issuing bank requires public sector support in order to prevent the issuer from becoming insolvent, bankrupt, unable to pay a material part of its debts as they fall due or otherwise carry on its business and requiring or causing the conversion of the Contingent Convertibles Bonds into equity in circumstances that are beyond the control of the issuer or (iii) a national authority deciding to inject capital. The attention of investors investing in Compartments that are allowed to invest in Contingent Convertibles Bonds is drawn to the following risks linked to an investment in this type of instruments.

Conversion risk

- 15.27 Investment in Contingent Convertible Bonds may result in material losses based on certain trigger events. The existence of these trigger events creates a different type of risk from traditional bonds and may more likely result in a partial or total loss of value or alternatively they may be converted into shares of the issuing company which may also have suffered a loss in value.

Coupon cancellation

- 15.28 For Additional Tier 1 (AT1) Contingent Convertible Bonds, coupons may be cancelled in a going concern situation. Coupon payments on such Contingent Convertible Bonds are entirely discretionary and may be cancelled by the issuer at any point, for any reason, and for any length of time. The cancellation of coupon payments on AT1 Contingent Convertible Bonds does not amount to an event of default. Cancelled payments do not accumulate and are instead written off. This significantly increases uncertainty in the valuation of these Contingent Convertible Bonds and may lead to mispricing of risk.

Capital structure inversion risk

- 15.29 Contrary to classic capital hierarchy, holders of Contingent Convertible Bonds may suffer a loss of capital when equity holders do not. In certain scenarios, holders of Contingent Convertible Bonds will suffer losses ahead of equity holders. This cuts against the normal order of capital structure hierarchy where equity holders are expected to suffer the first loss.

Call extension risk

- 15.30 Most Contingent Convertible Bonds are issued as perpetual instruments, callable at pre-determined levels only with the approval of the competent authority. It cannot be assumed that the perpetual Contingent Convertible Bonds will be called on call date. Perpetual Contingent Convertible Bonds are a form of permanent capital. The investor may not receive return of principal if expected on call date or indeed at any date.

Unknown risk

The structure of Contingent Convertible Bonds is innovative yet untested. In a stressed environment, when the underlying features of these instruments will be put to the test, it is uncertain how they will perform. In the event a single issuer activates a trigger or suspends coupons, will the market view the issue as an idiosyncratic event or systemic? In the latter case, potential price contagion and volatility to the entire asset class is possible. This risk may in turn be reinforced depending on the level of underlying instrument arbitrage. Furthermore in an illiquid market, price formation may be increasingly stressed.

Sector concentration risk

- 15.31 Contingent Convertible Bonds are issued by banking/insurance institutions. If a Compartment invests significantly in Contingent Convertible Bonds its performance will depend to a greater extent on the overall condition of the financial services industry than a Compartment following a more diversified strategy.

Liquidity risk

- 15.32 In certain circumstances finding a ready buyer for Contingent Convertible Bonds may be difficult and the seller may have to accept a significant discount to the expected value of the bond in order to sell it.

Investment in Distressed and Defaulted Securities

- 15.33 Investment in a security issued by a company that is either in default ("Defaulted Securities") or in high risk of default ("Distressed Securities") involves significant risk. Distressed Securities have a credit rating between maximum CC and minimum C (as measured by Standard and Poor) or equivalent (as measured by any leading credit agencies or with quality considered as equivalent by the Investment Manager) and Defaulted Securities have a maximum credit rating of D (as measured by Standard and Poor) or equivalent (as measured by any leading credit agencies or with quality considered as equivalent by the Investment Manager). Such investments will only be made when the relevant Investment Manager believes it is reasonably likely that the issuer of the securities will make an exchange offer or will be the subject of a plan of reorganisation; however, there can be no assurance that such an exchange offer will be made or that such a plan of reorganisation will be adopted or that any securities or other assets received in connection with such an exchange offer or plan of reorganisation will not have a lower value or income potential than anticipated when the investment was made. In addition, a significant period of time may pass between the time at which the investment in Distressed Securities and Defaulted Securities is made and the time that any such exchange offer or plan of reorganisation is completed. During this period, it is unlikely that any interest payments on the Distressed Securities and Defaulted Securities will be received, there will be significant uncertainty as to whether or not the exchange offer or plan of reorganisation will be completed, and there may be a requirement to bear certain expenses to protect the investing Compartment's interest in the course of negotiations surrounding any potential exchange or plan of reorganisation. In addition, as a result of participation in negotiations with respect to any exchange offer or plan of reorganisation with respect to an issuer of Distressed Securities and Defaulted Securities, the investing Compartment may be precluded from disposing of such securities. Furthermore, constraints on investment decisions and actions with respect to

Distressed Securities and Defaulted Securities due to tax considerations may affect the return realised on the Distressed Securities and Defaulted Securities.

Investments in Sukuks and Convertible Sukuks

- 15.34 Sukuks, like all fixed income securities, are exposed to a number of risks such as counterparty or credit risks. Price changes in Sukuk are influenced predominantly by interest rate developments in the capital markets, which in turn are influenced by macro-economic factors. Sukuk could suffer when capital market interest rates rise, while they could increase in value when capital market interest rate fall. The price changes also depend on the term or residual time to maturity of the Sukuk. In general, Sukuk with shorter terms have less price risks than Sukuk with longer terms. However, they generally have lower returns and, because of the more frequent due dates of the securities portfolios, involve higher re-investment costs.
- 15.35 Investments in Sukuks issued by governments or government related entities from countries referred as emerging or frontier markets bear additional risks linked to the specifics of such countries (e.g. currency fluctuations, political and economics uncertainties, repatriation restrictions, etc).
- 15.36 Convertible Sukuks are generally subject to the risks associated with debt securities, such as credit risk, liquidity risk and interest rate risk. Convertible Sukuks are also subject to the risk of being reclassified as Sharia'h non-compliant. Such reclassification may affect the price and liquidity of the Convertible Sukuks.

EPM Techniques and SFTs

- 15.37 A Compartment may enter into Repurchase Transaction agreements and reverse Repurchase Transaction agreements as a buyer or as a seller subject to the conditions and limits set out in Section 23.10(b) of the main body of the Prospectus. If the other party to a Repurchase Transaction agreement or reverse Repurchase Transaction agreement should default, the Compartment might suffer a loss to the extent that the proceeds from the sale of the underlying securities and/or other collateral held by the Compartment in connection with the Repurchase Transaction agreement or reverse Repurchase Transaction agreement are less than the repurchase price or, as the case may be, the value of the underlying securities. In addition, in the event of bankruptcy or similar proceedings of the other party to the Repurchase Transaction agreement or reverse Repurchase Transaction agreement or its failure otherwise to perform its obligations on the repurchase date, the Compartment could suffer losses, including loss of interest on or principal of the security and costs associated with delay and enforcement of the Repurchase Transaction agreement or reverse Repurchase Transaction agreement.
- 15.38 A Compartment may enter into Securities Lending transactions subject to the conditions and limits set out in Section 23.10(a) of the main body of the Prospectus. If the other party to a Securities Lending transaction should default, the Compartment might suffer a loss to the extent that the proceeds from the sale of the collateral held by the Compartment in connection with the Securities Lending transaction are less than the value of the securities lent. In addition, in the event of the bankruptcy or similar proceedings of the other party to the Securities Lending transaction or its failure to return the securities as agreed, the Compartment could suffer losses, including loss of interest on or principal of the securities and costs associated with delay and enforcement of the Securities Lending agreement.

- 15.39 The Compartments will only use Repurchase Transaction agreements, reverse Repurchase Transaction agreements or Securities Lending transactions for the purpose of either reducing risks (hedging) or generating additional capital or income for the relevant Compartment. When using such techniques, the Compartments will comply at all times with the provisions set out in Section 23 of the main body of the Prospectus. The risks arising from the use of Repurchase Transaction agreements, reverse Repurchase Transaction agreements and Securities Lending transactions will be closely monitored and techniques (including collateral management) will be employed to seek to mitigate those risks.
- 15.40 A Compartment may also incur a loss in reinvesting cash collateral received. Such a loss may arise due to a decline in the value of the investments made. A decline in the value of such investments would reduce the amount of collateral available to be returned by the Compartment to the counterparty as required by the terms of the transaction. The Compartment would be required to cover the difference in value between the collateral originally received and the amount available to be returned to the counterparty, thereby resulting in a loss to the Compartment.
- 15.41 Securities Lending, Repurchase Transaction or reverse Repurchase Transaction also entail operational risks such as the non-settlement or delay in settlement of instructions and legal risks related to the documentation used in respect of such transactions.
- 15.42 The Fund may enter into Securities Lending, Repurchase Transaction or reverse Repurchase Transaction with other companies. Affiliated counterparties, if any, will perform their obligations under any Securities Lending, Repurchase Transaction or reverse Repurchase Transaction concluded with the Fund in a commercially reasonable manner. In addition, the Investment Manager will select counterparties and enter into transactions in accordance with best execution and at all times in the best interests of the respective Compartment and its Shareholders. However, Shareholders should be aware that the Investment Manager may face conflicts between its role and its own interests or that of affiliated counterparties.
- 15.43 The use of EPM Techniques, in particular with respect to the quality of the collateral received and/or reinvested, may lead to several risks such as liquidity risk, counterparty risk, issuer risk, valuation risk and settlement risk, which can have an impact on the performance of the Compartment concerned.
- 15.44 In respect of Margin Lending Transactions, the Fund and any of its Compartments cannot extend credit and may only receive credit subject to the restrictions in the main body of the Prospectus.
- 15.45 The use of Repurchase Transaction agreements, reverse Repurchase Transaction agreements and Securities Lending transactions is generally not expected to have a material adverse impact on a Compartment's performance or risk profile, subject to the above described risk factors.

Investments in China

Country and market risk

- 15.46 Investing in the People's Republic of China (**PRC**) is subject to the risks of investing in emerging markets – outlined above – and additional risks which are specific to the PRC market. The economy of China is in a state of transition from a planned economy to a more market oriented

economy and investments may be sensitive to changes in law and regulation together with political, social or economic policy which includes possible government intervention. In extreme circumstances, a Compartment investing in the PRC may incur losses due to limited investment capabilities, or may not be able to fully implement or pursue its investment objectives or strategy, due to local investment restrictions, illiquidity of the PRC domestic securities market, and/or delay or disruption in execution and settlement of trades. Any Compartment investing directly (or indirectly through a UCITS and other UCIs) in China may be adversely affected by such losses.

- 15.47 China is one of the world's largest emerging markets. As with investing in any emerging market country, investments in China may be subject to greater risk of loss than investments made in a developed market. This is due, among other things, to greater market volatility, lower trading volume, greater risk of market shut down, and more governmental limitations with respect to foreign-inward investment. The companies in which a Compartment invests may be held to lower disclosure, corporate governance, accounting and reporting standards than companies listed or traded in more developed markets. In addition, some of the securities held by a Compartment may be subject to higher transaction and other costs, foreign ownership limits, the imposition of taxes, or may have liquidity issues which make such securities more difficult to sell at reasonable prices. These factors may increase the volatility and hence the risk of an investment in a Compartment investing in China.

Legal risk

- 15.48 The PRC legal system is based on written statutes and their interpretation by the Supreme People's Court. Prior court decisions may be cited for reference but have no precedent value. Since 1979, the PRC government has been developing a comprehensive system of commercial laws, and considerable progress has been made in introducing laws and regulations dealing with economic matters such as foreign investment, corporate organisation and governance, commerce, taxation and trade. However, because of the limited volume of published cases and judicial interpretation and their non-binding nature, the interpretation and enforcement of these regulations involves significant uncertainties. Given the short history of the PRC system of commercial laws, the PRC regulatory and legal framework may not be as well developed as those of developed countries. In addition, as the PRC legal system develops, no assurance can be given that changes in such laws and regulations, their interpretation or their enforcement will not have a material adverse effect on the relevant Compartment's onshore business operations. The PRC government heavily regulates the domestic exchange of foreign currencies within the PRC. PRC law requires that all domestic securities transactions must be settled in renminbi (the **RMB**) (other than trading of B shares which are not available for foreign investors under the Stock Connect as defined below), places significant restrictions on the remittance of foreign currency, and strictly regulates currency exchange from RMB.

Stock connect

- 15.49 The Shanghai-Hong Kong Stock Connect and the Shenzhen-Hong Kong Stock Connect (together, the **Stock Connect**) is a securities trading and clearing linked programme developed by the Hong Kong Exchanges and Clearing Limited (the **HKEx**), the Shanghai Stock Exchange (**SSE**), the Shenzhen Stock Exchange (**SZSE**) and the China Securities Depository and Clearing Co., Ltd. (**CSDCC**), with an aim to achieve mutual stock market access between the PRC and Hong Kong.

- 15.50 Each of the Shanghai-Hong Kong Stock Connect and the Shenzhen-Hong Kong Stock Connect comprises a northbound trading link (the **Northbound Trading Link**) for investment in PRC shares and a southbound trading link (the **Southbound Trading Link**) for investment in Hong Kong shares. Under the Northbound Trading Link, Hong Kong and overseas investors (including the relevant Compartment), through their Hong Kong brokers and a securities trading service company established by the Stock Exchange of Hong Kong Limited (**SEHK**) are able to trade eligible shares listed on the SSE or the SZSE by routing orders to the SSE or the SZSE (as the case may be). Under the Southbound Trading Link, eligible investors, through PRC securities firms and a securities trading service company established by the SSE, are able to trade eligible shares listed on the SEHK by routing orders to the SEHK.

Eligible securities

- 15.51 Initially, Hong Kong and overseas investors are only able to trade certain stocks listed on the SSE market (the **SSE Securities**) and the SZSE market (the **SZSE Securities**). It is expected that the list of eligible securities will be subject to review.

Trading day

- 15.52 Investors (including the relevant Compartment) will only be allowed to trade on the other market on days where both markets are open for trading, and banking services are available in both markets on the corresponding settlement days.

Trading quota

- 15.53 Trading under the Stock Connect will be subject to a daily quota (the **Daily Quota**), which will be separate for Northbound and Southbound trading. The Daily Quota limits the maximum net buy value of cross-boundary trades by all investors (including the relevant Compartment) under the Stock Connect each day. The quotas are utilised on a first-come-first-serve basis. The SEHK will monitor the quota and publish the remaining balance of the Northbound Daily Quota at scheduled times on the HKEx's website. The Daily Quota may change in the future. The Investment Manager and/or the Management Company will not notify investors in case of a change of quota.

Settlement and custody

- 15.54 The Hong Kong Securities Clearing Company Limited (**HKSCC**) is responsible for the clearing, settlement and the provision of depository, nominee and other related services of the trades executed by Hong Kong market participants and investors. SSE Securities or SZSE Securities acquired by an investor through Northbound Trading is maintained with such investor's broker's or custodian's stock account with the Central Clearing and Settlement System (**CCASS**) operated by HKSCC.

Currency

- 15.55 Hong Kong and overseas investors (including a Compartment) will trade and settle SSE Securities and SZSE Securities in RMB only.

Trading fees

- 15.56 In addition to paying trading fees and stamp duties in connection with China A-share trading, a Compartment may be subject to other fees and taxes concerned with income arising from stock transfers which are determined by the relevant authorities.

Coverage of Investor Compensation Fund

- 15.57 A Compartment's investments through Northbound trading under Stock Connect is not covered by Hong Kong's Investor Compensation Fund (the **Hong Kong's Investor Compensation Fund**). Hong Kong's Investor Compensation Fund is established to pay compensation to investors of any nationality who suffer pecuniary losses as a result of default of a licensed intermediary or authorised financial institution in relation to exchange-traded products in Hong Kong. Since default in Northbound trading via Stock Connect do not involve products listed or traded in the SEHK or the Hong Kong Futures Exchanges Limited, such trading is not covered by Hong Kong's Investor Compensation Fund. Furthermore, since a Compartment is carrying out Northbound trading through securities brokers in Hong Kong but not PRC brokers, such trading is not protected by the China Securities Investor Protection Fund in the PRC.

Foreign shareholding restrictions

- 15.58 Pursuant to relevant rules and regulations, foreign investors holding China A-shares (including through the Stock Connect) are subject to the following shareholding restrictions:
- (a) the shareholding of any single foreign investor in an A-share listed company must not exceed 10% of such company's total issued shares; and
 - (b) the aggregate shareholding in the A shares of all foreign investors in an A-share listed company must not exceed 30% of such company's total issued shares.
- 15.59 When aggregate foreign shareholding in the A shares of an individual A-share listed company exceeds the 30% threshold, the foreign investors concerned will be requested to sell the relevant China A-shares on a last-in-first-out basis within 5 trading days. If the 30% threshold is exceeded due to trading via Stock Connect, the SEHK will identify the exchange participant(s) concerned and require a force-sell. As a result, it is possible that a Compartment may be required to unwind its positions where it has invested in a China A-share listed company in respect of which the aggregate foreign shareholding threshold has been exceeded.
- 15.60 The SSE, SZSE and the SEHK (as the case may be) will issue warnings as the aggregate foreign shareholding of an SSE Security or SZSE Security approaches 30%. Northbound Trading buy orders will be suspended once the aggregate foreign shareholding reaches 28% and will resume when it drops back to 26%. Northbound Trading sell orders will not be affected.
- 15.61 Further information about the Stock Connect is available at the website: http://www.hkex.com.hk/mutual-market/stock-connect?sc_lang=en.

Stock Connect risk

- 15.62 A Compartment's investments through the Stock Connect may be subject to the following risks:

- 15.63 In the event that a Compartment's ability to invest in China A-shares through the Stock Connect on a timely basis is adversely affected, the Compartment's ability to achieve its investment objective may be affected.

Quota limitations

- 15.64 The Stock Connect is subject to quota limitations. In particular, once the remaining balance of the Northbound Daily Quota drops to zero or the Northbound Daily Quota is exceeded during the opening call session, new buy orders will be rejected (though investors will be allowed to sell their cross-boundary securities regardless of the quota balance). The Compartment's ability to invest in China A-shares through the Stock Connect may be affected.

Front-end monitoring risk

- 15.65 PRC regulations require that in order for an investor to sell any China A-share on a certain trading day, there must be sufficient China A-shares in the investor's account with the SEHK Participant who acts as the selling broker before market opens on that day. If there are insufficient China A-shares in the investor's account with the SEHK Participant who acts as the selling broker, the sell order will be rejected by the SSE or the SZSE. The SEHK carries out pre-trade checking on SSE Securities and SZSE Securities sell orders of its participants (i.e. stock brokers) to ensure that this requirement is satisfied. This means that investors must transfer SSE Securities and SZSE Securities to the accounts of its brokers before the market opens on the day of selling. If an investor fails to meet this deadline, it will not be able to sell SSE Securities or SZSE Securities on the relevant trading day. Because of this requirement, investors may not be able to dispose of holdings of SSE Securities or SZSE Securities in a timely manner. This also raises concerns as to counterparty risks as securities may need to be kept by brokers overnight.
- 15.66 To facilitate investors whose SSE Securities or SZSE Securities are maintained with custodians to sell their SSE Securities or SZSE Securities without having to pre-deliver the SSE Securities or SZSE Securities from their custodians to their executing brokers, the HKEx introduced an enhanced pre-trade checking model in March 2015, under which an investor may request its custodian to open a Special Segregated Account (SPSA) in CCASS to maintain its holdings in SSE Securities and SZSE Securities. Such investors only need to transfer SSE Securities or SZSE Securities from its SPSA to its designated broker's account after execution and not before placing the sell order. If a Compartment is unable to utilise this model, it would have to deliver SSE Securities or SZSE Securities to brokers before the trading day and the above risks may still apply.

Legal and beneficial ownership risk

- 15.67 The SSE Securities and the SZSE Securities in respect of a Compartment will be held by the Depository (or its delegate) in accounts in CCASS maintained by the HKSCC as central securities depository in Hong Kong. The HKSCC in turn holds the SSE Securities and the SZSE Securities, as the nominee holder, through an omnibus securities account in its name registered with the CSDCC. The precise nature and rights of a Compartment as the beneficial owner of the SSE Securities and the SZSE Securities through HKSCC as nominee is not well defined under PRC law. There is lack of a clear definition of, and distinction between, legal ownership and beneficial ownership under PRC law and there have been few cases involving a nominee account structure in the PRC courts. The exact nature and methods of enforcement of the rights and interests of a Compartment under PRC law is also uncertain.

- 15.68 In the unlikely event that HKSCC becomes subject to winding up proceedings in Hong Kong there is a risk that the SSE Securities and the SZSE Securities may not be regarded as held for the beneficial ownership of a Compartment or as part of the general assets of HKSCC available for general distribution to its creditors.

Nominee arrangements

- 15.69 HKSCC is the nominee holder of the SSE Securities and SZSE Securities acquired by Hong Kong and overseas investors through Stock Connect.
- 15.70 The China Securities Regulatory Commission Stock Connect rules expressly provide that investors enjoy the rights and benefits of the securities acquired through Stock Connect in accordance with applicable laws. Such rules are departmental regulations having legal effect in the PRC. However, the application of such rules is untested, and there is no assurance that PRC courts will recognise such rules (for example, in liquidation proceedings of PRC companies).
- 15.71 It should be noted that, under the CCASS Rules, HKSCC as nominee holder shall have no obligation to take any legal action or court proceedings to enforce any rights on behalf of the investors in respect of the SSE Securities and SZSE Securities in the PRC or elsewhere. Therefore, although a Compartment's ownership may be ultimately recognised, the Compartment may suffer difficulties or delays in enforcing its rights in SSE Securities or SZSE Securities.

Suspension risk

- 15.72 Each of the SEHK, the SSE and the SZSE reserves the right to suspend Northbound and/or Southbound trading if necessary for ensuring an orderly and fair market and that risks are managed prudently. Consent from the relevant regulator would be sought before a suspension is triggered. Where a suspension in the Northbound trading is effected, a Compartment's ability to access the China A-share market through the Stock Connect will be adversely affected.

Differences in trading day

- 15.73 The Stock Connect only operates on days when both the PRC and Hong Kong markets are open for trading and when banks in both markets are open on the corresponding settlement days. So it is possible that there are occasions when it is a normal trading day for the PRC market but Hong Kong investors (such as a Compartment) cannot carry out any China A-shares trading. Due to the differences in trading days, a Compartment may be subject to a risk of price fluctuations in China A-shares on a day that the PRC stock markets are open for trading but the Hong Kong stock market is closed.

Operational risk

- 15.74 The Stock Connect provides a new channel for investors from Hong Kong and overseas to access the China stock market directly. The Stock Connects are premised on the functioning of the operational systems of the relevant market participants. Market participants are able to participate in this programme subject to meeting certain information technology capability, risk management and other requirements as may be specified by the relevant exchange and/or clearing house.

- 15.75 Market participants generally have configured and adapted their operational and technical systems for the purpose of trading China A-shares through the Stock Connect. However, it should be appreciated that the securities regimes and legal systems of the two markets differ significantly and in order for the programme to operate, market participants may need to address issues arising from the differences on an on-going basis.
- 15.76 Further, the "connectivity" in the Stock Connect requires routing of orders across the border. SEHK has set up an order routing system to capture, consolidate and route the cross boundary orders input by exchange participants. There is no assurance that the systems of the SEHK and market participants will function properly or will continue to be adapted to changes and developments in both markets. In the event that the relevant systems failed to function properly, trading in both markets through the programme could be disrupted.

Recalling of eligible stocks

- 15.77 If a stock is recalled from the scope of eligible stocks for trading via the Stock Connect, the stock can only be sold and cannot be bought. This may affect a Compartment's ability to invest in China A-shares through the Stock Connect.

Broker risk

- 15.78 Where a Compartment relies on only one broker to invest via Stock Connect and for any reason, the Investment Manager is unable to use the relevant broker, the operation and its ability to invest would be adversely affected. A Compartment may also incur losses due to the acts or omissions of any of the broker(s) in the execution or settlement of any transaction via Stock Connect.

Clearing and settlement risk

- 15.79 The HKSCC and CSDCC establish clearing links and each has become a participant of each other to facilitate clearing and settlement of cross-boundary trades. For cross-boundary trades initiated in a market, the clearing house of that market will on one hand clear and settle with its own clearing participants, and on the other hand undertake to fulfil the clearing and settlement obligations of its clearing participants with the counterparty clearing house. Should the remote event of CSDCC default occur and the CSDCC be declared as a defaulter, HKSCC's liabilities in Northbound trades under its market contracts with clearing participants will be limited to assisting clearing participants in pursuing their claims against the CSDCC. HKSCC will in good faith seek recovery of the outstanding stocks and monies from the CSDCC through available legal channels or through the CSDCC's liquidation. In that event, a Compartment may suffer delay in the recovery process or may not be able to fully recover its losses from the CSDCC.

Regulatory risk

- 15.80 The Stock Connect is evolving, and will be subject to regulations promulgated by regulatory authorities and implementation rules made by the stock exchanges in the PRC and Hong Kong. Further, new regulations may be promulgated from time to time by the regulators in connection with operations and cross-border legal enforcement in connection with cross-border trades under the Stock Connect. The regulations are untested and there is no certainty as to how they will be applied, and are subject to change. There can be no assurance that the Stock Connect will not be abolished.

Risks of investing in China A-shares

- 15.81 The securities markets in the PRC, including the A-share markets, are still in a stage of development, and may be characterised by higher liquidity risk than markets in more developed countries, which may in turn result in higher transaction costs and price volatility. In addition, the PRC's securities markets are undergoing a period of growth and change, which lead to uncertainties and potentially result in difficulties in the settlement and recording of transactions and in interpreting and applying the relevant regulations. The PRC's regulatory authorities have only recently been given the power and duty to prohibit fraudulent and unfair market practices relating to securities markets, such as insider trading and market abuse, and to regulate substantial acquisitions of shares and takeovers of companies. All of these factors may lead to a higher level of volatility and instability associated with the PRC securities markets relative to more developed markets.
- 15.82 The liquidity and price volatility associated with China A-share markets are subject to greater risks of government intervention (for example, to suspend trading in particular stocks) and imposition of trading band restrictions for all or certain stocks from time to time. In addition, China A-shares traded in the PRC are still subject to trading band limits that restrict maximum gain or loss in stock prices, which means the prices of stocks may not necessarily reflect their underlying value. Such factors may affect the performance of, or cause disruption to the liquidity of the relevant Compartment.

16. TAX STATUS

The Fund is subject to Luxembourg tax legislation.

The Fund

- 16.1 **In accordance with current Luxembourg law, the Fund is not subject to any tax on income, capital gains tax or wealth tax. Moreover, no dividends distributed by the Fund are subject to withholding tax.**
- 16.2 However, income collected by the Fund on securities in its portfolios may be subject to withholding tax which, in normal circumstances, cannot be reclaimed.
- 16.3 The Fund's net assets are subject to a subscription tax of 0.05% per annum (except for certain Compartments or categories of Shares specifically reserved for to Institutional Investors, which benefit from the reduced rate of 0.01% per annum), payable at the end of each quarter and calculated on the basis of the total net assets at the end of the relevant quarter.

Shareholders

- 16.4 According to legislation and current practice in Luxembourg, Shareholders, other than those domiciled, residing or permanently established in Luxembourg and certain former residents of Luxembourg holding more than 10% of the Fund's share capital, are not liable to pay any Luxembourg tax on income, capital gains, donations or legacies. However, it is incumbent upon any purchasers of Shares in the Fund to inform themselves about the relevant legislation and tax regulations applicable to the acquisition, holding and sale of Shares with regard to their residence qualifications and nationality.

17. EXCHANGE OF INFORMATION FOR TAX PURPOSES

- 17.1 The Fund may be required to report certain information about its Shareholders and, as the case may be, about individuals controlling Shareholders that are entities, on an automatic and annual basis to the Luxembourg direct tax administration (*Administration des contributions directes*) in accordance with, and subject to, the Luxembourg law of 21 June 2005 implementing the Council Directive 2003/48/EC of 3 June 2003 on taxation of savings income in the form of interest payments, the Luxembourg law of 24 July 2015 concerning FATCA, and/or the Luxembourg legislation implementing Council Directive 2014/107/EU and the standard for automatic exchange of financial account information in tax matters developed by the OECD with the G20 countries (commonly referred to as the “Common Reporting Standard”), each as amended from time to time (each an “AEOI Law” and collectively the “AEOI Laws”). Such information, which may include personal data (including, without limitation, the name, address, country(ies) of tax residence, date and place of birth and tax identification number(s) of any reportable individual) and certain financial data about the relevant Shares (including, without limitation, their balance or value and gross payments made thereunder), will be transferred by the Luxembourg direct tax administration to the competent authorities of the relevant foreign jurisdictions in accordance with, and subject to, the relevant Luxembourg legislation and international agreements.
- 17.2 Each Shareholder and prospective investor agrees to provide, upon request by the Fund (or its delegates), any such information, documents and certificates as may be required for the purposes of the Fund’s identification and reporting obligations under any AEOI Law. The Fund reserves the right to reject any application for Shares or to redeem Shares (i) if the prospective investor or Shareholder does not provide the required information, documents or certificates or (ii) if the Fund (or its delegates) has reason to believe that the information, documents or certificates provided to the Fund (or its delegates) are incomplete or incorrect and the Shareholder does not provide, to the satisfaction of the Fund (or its delegates), sufficient information to cure the situation. Prospective investors and Shareholders should note that incomplete or inaccurate information may lead to multiple and/or incorrect reporting under the AEOI Laws. Neither the Fund nor any other person accepts any liability for any consequences that may result from incomplete or inaccurate information provided to the Fund (or its delegates). Any Shareholder failing to comply with the Fund’s information requests may be charged with any taxes and penalties imposed on the Fund attributable to such Shareholder’s failure to provide complete and accurate information.
- 17.3 Each Shareholder and prospective investor acknowledges and agrees that the Fund will be responsible to collect, store, process and transfer the relevant information, including the personal data, in accordance with the AEOI Laws. Each individual whose personal data has been processed for the purposes of any AEOI Law has a right of access to his/her personal data and may ask for a rectification thereof in case where such data is inaccurate or incomplete.

18. BUSINESS YEAR

The Business Year runs from January 1st to December 31st of each year.

19. PERIODICAL REPORTS AND PUBLICATIONS

- 19.1 The Fund will publish an audited annual report within 4 months after the end of the Business Year and an un audited semi-annual report within 2 months after the end of the period to which it refers.
- 19.2 The reports include accounts of the Fund and of each Compartment.
- 19.3 All these reports will be made available to the Shareholders at the registered office of the Fund, the Depositary, the distributor and other establishments appointed by the Depositary.
- 19.4 The Net Asset Value per Share of each Compartment as well as the issue and redemption prices will be made to the public at the offices of the Depositary and the distributor.
- 19.5 Any amendments to the Articles will be published in the Luxembourg Official Gazette.

20. LIFETIME, MERGER AND LIQUIDATION OF THE FUND AND COMPARTMENTS

The Fund

- 20.1 The Fund has been established for an indefinite period, but the Board of Directors may, at any time, propose the dissolution of the Fund to an extraordinary General Meeting.
- 20.2 If the capital of the Fund falls below two thirds of the minimum capital required by the law, the Board of Directors must submit the question of the dissolution of the Fund to a General Meeting for which no quorum shall be required and which shall decide by a simple majority of the Shares represented at this meeting.
- 20.3 If the capital of the Fund falls below one fourth of the minimum capital, the Directors must submit the question of the dissolution of the Fund to a General Meeting for which no quorum shall be required; dissolution may be resolved by a simple majority of the Shareholders holding one fourth of the Shares represented at this meeting.
- 20.4 The liquidation of the Fund shall be carried out in accordance with the provisions of the 2010 Law which specifies the steps to be taken to enable Shareholders to participate in the liquidation distributions and in the connection provides for deposit in escrow at the *Caisse des Consignations* in Luxembourg of any such amounts which it has not been possible to distribute to the Shareholders at the close of liquidation. Amounts not claimed within the prescribed period are liable to be forfeited in accordance with the provisions of Luxembourg law. The net liquidation proceeds shall be distributed to the Shareholders in proportion to their respective holdings.

Merger of the Fund and the Compartments

- 20.5 In accordance with the provisions of the 2010 Law and of the Articles, the Board of Directors may decide to merge or consolidate the Fund with, or transfer substantially all or part of the Fund's assets to, or acquire substantially all the assets of, another UCITS established in Luxembourg or another EU Member State. For the purpose of this Section 20.5, the term UCITS also refers to a compartment of a UCITS and the term Fund also refers to a Compartment.

- 20.6 Any merger leading to termination of the Fund must be approved by a Shareholders meeting subject to the quorum and the majority requirement applying to the modification of the Articles. For the avoidance of doubt, this provision does not apply in respect of a merger leading to the termination of a Compartment.
- 20.7 Shareholders will receive shares of the surviving UCITS or compartment and, if applicable, a cash payment not exceeding 10% of the net asset value of those shares.
- 20.8 The Fund will provide appropriate and accurate information on the proposed merger to its Shareholders so as to enable them to make an informed judgment of the impact of the merger on their investment and to exercise their rights under this Section 20 and the 2010 Law.
- 20.9 The Shareholders have the right to request, without any charge other than those retained by the Fund to meet disinvestment costs, the redemption of their Shares.
- 20.10 The Board of Directors may decide to allocate the assets of a Compartment to those of another existing Compartment within the Fund or to another Luxembourg UCITS or to another compartment within such other Luxembourg UCITS (the "New Compartment") and to repatriate the Shares of the category of Shares or categories of Shares concerned as Shares of another category of Shares (following a split or consolidation, if necessary, and the payment of the amount corresponding to any fractional entitlement to Shareholders). Such decision will be published in the same manner as described in Section 20.8 above one month before its effectiveness (and, in addition, the publication will contain information in relation to the New Compartment), in order to enable the Shareholders to request redemption of their Shares, free of charge, during such period.
- 20.11 Notwithstanding the powers conferred to the Board of Directors by Section 20.10 above, a contribution of the assets and of the liabilities attributable to any Compartment to another Compartment within the Fund may in any other circumstances be decided by a general meeting of Shareholders of the category of Shares or categories of Shares issued in the Compartment concerned for which there will be no quorum requirements and which will decide upon such a merger by resolution taken by simple majority of those present or represented and voting at such meeting.
- 20.12 If the interest of the Shareholders of the relevant Compartment or in the event that a change in the economic or political situation relating to a Compartment so justifies, the Board of Directors may proceed to the reorganisation of a Compartment by means of a division into two or more Compartments. Information concerning the New Compartment(s) will be provided to the relevant Shareholders. Such publication will be made one month prior to the effectiveness of the reorganisation in order to permit Shareholders to request redemption of their Shares free of charge during such one month prior period.

Liquidation of Compartments

- 20.13 The Board of Directors may also propose to dissolve a Compartment at a General Meeting of that Compartment. The proceedings at this General Meeting shall be subject to quorum requirements in conformity with the Articles and the decision to dissolve the Compartment shall be taken by the majority of the Shares in that Compartment represented at this meeting.

- 20.14 If the net assets of a Compartment fall below the equivalent of EUR2,000,000 the decision to liquidate that Compartment may be taken by the Board of Directors if the latter considers that such liquidation would serve the best interests of the Shareholders. If the Compartment to be liquidated was the last Compartment in operation, the liquidation of this Compartment would be subject to the regulations about liquidation of the Fund.
- 20.15 If a Compartment is dissolved, the liquidation process shall be conducted in conformity with the provisions of the 2010 Law. This legislation stipulates the procedures to be followed to enable Shareholders to share in the proceeds of the liquidation and, in this respect, specifies that any amount not distributed to Shareholders once the dissolution process has been completed shall be first kept at the depositary bank for a period of six months; should the proceeds not be claimed during this period, they will be then surrendered to the *Caisse des Consignations* in Luxembourg. The net proceeds of the liquidation for each Compartment shall be distributed to the Shareholders of that particular Compartment in proportion to the number of Shares held in the relevant Compartment.

21. DOCUMENTS AVAILABLE FOR INSPECTION

The following documents are deposited and kept available for inspection at the Fund's registered office:

- the Articles;
- the latest annual and semi-annual reports of the Fund;
- the KIIDs;
- the Depositary Agreement;
- the Management Company Services Agreement;
- each Investment Management Agreement;
- each Investment Advisory Agreement.

22. INVESTMENT RESTRICTIONS

- 22.1 The Fund has adopted the following restrictions relating to the investment of the Fund's assets and its activities. These restrictions and policies may be amended from time to time by of the Fund if and as it shall deem it to be in the best interests of the Fund, in which case this Prospectus will be updated.
- 22.2 The investment restrictions imposed by Luxembourg law must be complied with by each Compartment.

Investments in eligible assets

- 22.3 Investments in the Fund shall comprise exclusively:
- (a) Transferable Securities and Money Market Instruments listed or dealt on a Regulated Market; and /or

- (b) Transferable Securities and Money Market Instruments dealt on an Other Regulated Market in a EU Member State; and /or
- (c) Transferable Securities and Money Market Instruments admitted to official listing on a stock exchange in an Other State or dealt on an Other Regulated Market in an Other State; and/or
- (d) recently issued Transferable Securities and Money Market Instruments, provided that the terms of issue include an undertaking that application will be made for admission to official listing on a Regulated Market, an official stock exchanges in an Other State or on an Other Regulated Market referred to above under Sections 22.3(a) to 22.3(c) of the main part of the Prospectus and that such a listing will be obtained within one year of the date of issue;
- (e) units/shares of UCITS and/or other UCIs, whether situated in a EU Member State or not, provided that:
 - (i) such other UCIs have been authorised under the laws which provide that they are subject to supervision considered by the CSSF to be equivalent to that laid down in EU law, and that cooperation between authorities is sufficiently ensured (at the time of the present Prospectus, the EU law and/or OCDE Member States as well as Hong Kong, Jersey, Guernsey and Liechtenstein);
 - (ii) the level of protection for Shareholders in such other UCIs is equivalent to that provided for Shareholders in a UCITS, and in particular that the rules on assets segregation, borrowing, lending, and uncovered sales of Transferable Securities and Money Market Instruments are equivalent to the requirements of the UCITS Directive;
 - (iii) the business of such other UCIs is reported in half-yearly and annual reports to enable an assessment of the assets and liabilities, income and operations over the reporting period;
 - (iv) no more than 10% of the assets of the UCITS or of the other UCIs, whose acquisition is contemplated, can, according to their constitutional documents, in aggregate be invested in units/shares of other UCITS or other UCIs; and/or
- (f) deposits with credit institutions which are repayable on demand or have the right to be withdrawn, and maturing in no more than 12 months, provided that the credit institution has its registered office in a EU Member State or, if the registered office of the credit institution is situated in an Other State provided that it is subject to prudential rules considered by the CSSF as equivalent to those laid down in EU law; and/or
- (g) financial derivative instruments, including equivalent cash-settled instruments, dealt in on a Regulated Market, stock exchange in an Other State or on an Other Regulated Market referred to under Sections 22.3(a) to 22.3(c) of the main part of the Prospectus above, and/or OTC Derivatives, provided that:

- (i) the underlying consists of instruments covered by this Section 22.3, financial indices, interest rates, foreign exchange rates or currencies, in which the Compartments may invest according to their respective investment objective;
 - (ii) the counterparties to OTC Derivative transactions are institutions subject to prudential supervision, and belonging to the categories approved by the CSSF;
 - (iii) the OTC Derivatives are subject to reliable and verifiable valuation on a daily basis and can be sold, liquidated or closed by an offsetting transaction at any time at their fair value at the Fund's initiative; and/or
- (h) Money Market Instruments other than those dealt in on a Regulated Market or on an Other Regulated Market, if the issue or the issuer of such instruments are themselves regulated for the purpose of protecting investors and savings, and provided that such instruments are:
- (i) issued or guaranteed by a central, regional or local authority or by a central bank of an EU member state, the European Central Bank, the European Union or the European Investment Bank, an Other State or, in case of a Federal State, by one of the members making up the federation, or by a public international body to which one or more Member States belong, or
 - (ii) issued by an undertaking any securities of which are dealt in on Regulated Markets or Other Regulated Market referred to Sections 22.3(a) to 22.3(c) of the main part of the Prospectus above, or
 - (iii) issued or guaranteed by an establishment subject to prudential supervision, in accordance with criteria defined by EU law, or by an establishment which is subject to and complies with prudential rules considered by the CSSF to be at least as stringent as those laid down by EU law, or
 - (iv) issued by other bodies belonging to the categories approved by the CSSF provided that investments in such instruments are subject to investor protection equivalent to that laid down in the first, the second or the third indent and provided that the issuer is a company whose capital and reserves amount to at least ten million Euro (EUR10,000,000) and which presents and publishes its annual accounts in accordance with Directive 78/660/EEC, is an entity which, within a Group of Companies which includes one or several listed companies, is dedicated to the financing of the group or is an entity which is dedicated to the financing of securitisation vehicles which benefit from a banking liquidity line.
- (i) In addition, the Fund may invest a maximum of 10% of the net assets of any Compartment in Transferable Securities and Money Market Instruments other than those referred to under Section 22.3 above.

22.4 However, each Compartment may:

- (a) hold ancillary liquid assets;

- (b) invest no more than 10% of its net assets in Transferable Securities or Money Market Instruments issued by the same body.

Risk diversification

- 22.5 Each Compartment may not invest more than 20% of its net assets in deposits made with the same body.
- 22.6 Furthermore, where any Compartment holds investments in Transferable Securities and Money Market Instruments of any issuing body which individually exceed 5% of the net asset value of such Compartment, the total value of all such investments must not account for more than 40% of the net asset value of such Compartment. This limitation does not apply to deposits and OTC Derivative transactions made with financial institutions subject to prudential supervision.
- 22.7 The counterparty risk of a Compartment arising from OTC Derivative transactions and EPM Techniques may not exceed 10% of its net assets when the counterparty is a credit institution referred to in Section 22.3(f) above or 5% in any other case.
- 22.8 Investment in financial derivative instruments shall only be made provided that the exposure to the underlying assets does not exceed in aggregate the investment limits set forth in Sections 22.4(b), 22.6, 22.7, 22.12 to 22.14, 22.16 and 22.18 of the main part of the Prospectus. When the Compartment invests in index-based financial derivative instruments, these investments do not have to be combined to the limits set forth in Sections 22.4(b), 22.6, 22.7, 22.12 to 22.14, 22.16 and 22.18 of the main part of the Prospectus.
- 22.9 When a Transferable Security or Money Market Instrument embeds a derivative, the latter must be taken into account when complying with the requirements of Sections 22.10 and 22.11 below as well as with the risk exposure and information requirements laid down in this Prospectus.
- 22.10 The Fund shall ensure that its global exposure relating to derivative instruments does not exceed the total net value of its portfolio.
- 22.11 The exposure is calculated taking into account the current value of the underlying assets, the counterparty risk, foreseeable market movements and the time available to liquidate the positions.
- 22.12 Notwithstanding the individual limits laid down in Sections 22.4(b), 22.6 and 22.7 above, a Compartment may not combine:
 - (a) investments in Transferable Securities or Money Market Instruments issued by,
 - (b) deposits made with, and/or
 - (c) exposures arising from OTC Derivative transactions undertaken with,
 a single body in excess of 20% of its net assets.
- 22.13 The limit of 10% laid down in Section 22.4(b) above shall be 35% in respect of Transferable Securities or Money Market Instruments which are issued or guaranteed by a EU Member State, its local authorities or by any Other State or by public international bodies of which one or more EU Member States are members.

- 22.14 The limit of 10% set forth under Section 22.4(b) above is increased up to 25% in respect of qualifying debt securities issued by a credit institution which has its registered office in a EU Member State and which, under applicable law, is submitted to specific public control in order to protect the holders of such qualifying debt securities. For the purposes hereof, “qualifying debt securities” are securities the proceeds of which are invested in accordance with applicable law in assets providing a return which will cover the debt service through to the maturity date of the securities and which will be applied on a priority basis to the payment of principal and interest in the event of a default by the issuer. To the extent that a relevant Compartment invests more than 5% of its net assets in debt securities issued by such an issuer, the total value of such investments may not exceed 80% of the net assets of such Compartment.
- 22.15 The securities and Money Market Instruments specified under (i) and (C)(4) above shall not be included in the calculation of the limit of 40% under (C)(2)(i).
- 22.16 The limits set out in Sections 22.4(b), 22.6, 22.7, 22.12 to 22.14 above may not be aggregated and, accordingly, the value of investments in Transferable Securities and Money Market Instruments issued by the same body, in deposits or derivative instruments made with this body, effected in accordance with Sections 22.4(b), 22.6, 22.7, 22.12 to 22.14 above may not, in any event, exceed a total of 35% of each Compartment’s net asset value.
- 22.17 Companies which are included in the same group for the purposes of consolidated accounts, as defined in accordance with Directive 83/349/EEC or in accordance with recognised international accounting rules, are regarded as a single body for the purpose of calculating the limits contained in Sections 22.4(b) to 22.18 of the main part of the Prospectus.
- 22.18 A Compartment may cumulatively invest up to 20% of its net assets in Transferable Securities and Money Market Instruments within the same group.
- 22.19 Subject to having due regard to the principle of risk spreading, a Compartment need not comply with the limits set out in articles 43 to 46 of the 2010 Law for a period of 6 months following the date of its authorisation and launch.

Exceptions which can be made

- 22.20 **Where any Compartment has invested in accordance with the principle of risk spreading in Transferable Securities and Money Market Instruments issued or guaranteed by a EU Member State, by its local authorities or by any OECD Member State, by certain non-OECD Member States (currently Brazil, Indonesia, Russia, Singapore, Hong-Kong and South-Africa), or by public international bodies of which one or more EU Member States are members, the Fund may invest 100% of the net assets of any Compartment in such Transferable Securities and Money Market Instruments provided that such Compartment must hold securities from at least six different issues and the value of securities from any one issue must not account for more than 30% of the net assets of the Compartment.**
- 22.21 Without prejudice to the limits set forth hereafter under Section 22.32 below, the limits set forth in Sections 22.5 to 22.18 above are raised to a maximum of 20% for investments in shares and/or bonds issued by the same body when the aim of the Compartment's investment policy is to replicate the composition of a certain stock or bond index which is recognised by the CSSF, on the following basis:

- (a) the composition of the index is sufficiently diversified,
- (b) the index represents an adequate benchmark for the market to which it refers,
- (c) it is published in an appropriate manner.

The limit of 20% is raised to 35% where that proves to be justified by exceptional market conditions in particular in Regulated Markets where certain Transferable Securities or Money Market Instruments are highly dominant. The investment up to this limit is only permitted for a single issuer.

Investment in UCITS and/or other UCIs

- 22.22 Each Compartment may acquire units of the UCITS and/or other UCIs referred to in Section 22.3(e) above, provided that no more than 20% of a Compartment's net assets are invested in the units of a single UCITS or other UCI.
- 22.23 For the purpose of the application of investment limits, each compartment of a UCI with multiple compartments is to be considered as a separate issuer provided that the principle of segregation of the obligations of the various compartments vis-à-vis third parties is ensured.
- 22.24 Investments made in units of UCIs other than UCITS may not in aggregate exceed 30% of the net assets of a Compartment.
- 22.25 When a Compartment invests in the units of other UCITS and/or other UCIs linked to the Fund by common management or control, or by a substantial direct or indirect holding, or managed by a management company linked to the relevant Investment Manager, no subscription or redemption fees may be charged to the Fund on account of its investment in the units of such other UCITS and/or UCIs.
- 22.26 In respect of a Compartment's investments in UCITS and other UCIs linked to the Fund as described in the preceding Section, the total management fee (excluding any performance fee, if any) charged to such Compartment and each of the UCITS or other UCIs concerned shall not exceed 2.5% of the relevant net assets under management. The Fund will indicate in its annual report the total management fees charged both to the relevant Compartment and to the UCITS and other UCIs in which such Compartment has invested during the relevant period.
- 22.27 The Fund may acquire no more than 25% of the units of the same UCITS and/or other UCI. This limit may be disregarded at the time of acquisition if at that time the gross amount of the units in issue cannot be calculated. In case of a UCITS or other UCI with multiple compartments, this restriction is applicable by reference to all units issued by the UCITS and/or UCI concerned, all Compartments combined.
- 22.28 The underlying investments held by the UCITS or other UCIs in which the Compartments invest do not have to be considered for the purpose of the investment restrictions set forth under Sections 22.5 to 22.18 above.
- 22.29 The investment limits laid down above may be exceeded whenever subscription rights attaching to securities which form part of the Fund's assets are being exercised.

- 22.30 If such limits are exceeded as a result of exercising subscription rights or for reasons beyond the Fund's control, the Fund shall endeavour as a priority aim to redress the balance, while taking due account of the interests of the Shareholders.

Investments between Compartments

- 22.31 A Compartment (the "Investing Compartment") may invest in one or more other Compartments. Any acquisition of shares of another Compartment (the "Target Compartment") by the Investing Compartment is subject to the following conditions:
- (a) the Target Compartment may not invest in the Investing Compartment;
 - (b) the Target Compartment may not invest more than 10% of its net assets in UCITS (including other Compartments) or other UCIs referred to in Section 22.3(e) above;
 - (c) the voting rights attached to the shares of the Target Compartment are suspended during the investment by the Investing Compartment; and
 - (d) the value of the share of the Target Compartment held by the Investing Compartment are not taken into account for the purpose of assessing the compliance with the EUR1,250,000 minimum capital requirement.

Prohibited investments

- 22.32 The Fund is prohibited from:
- (a) borrowing for the account of any Compartment, unless:
 - (i) the loan is only temporary and does not exceed 10% of the net assets of the Compartment in question;
 - (ii) the borrowing is in the form of a back-to back loan.
 - (b) acquiring shares carrying voting rights which would enable the Fund to exercise significant influence over the management of the issuing body;
 - (c) acquiring more than:
 - (i) 10% of the non-voting shares of the same issuer;
 - (ii) 10% of the debt securities of the same issuer,
 - (iii) 10% of the Money Market Instruments of the same issuer.

However, the limits laid down in the second and third incidents above may be disregarded at the time of acquisition if at that time the gross amount of the debt securities or of the Money Market Instruments or the net amount of instruments in issue cannot be calculated.

The limits set out in sub-paragraphs (b) and (c) of Section 22.32 above shall not apply to:

- (i) Transferable Securities and Money Market Instruments issued or guaranteed by a Member State or its local authorities;
 - (ii) Transferable Securities and Money Market Instruments issued or guaranteed by any Other State;
 - (iii) Transferable Securities and Money Market Instruments issued by public international bodies of which one or more Member States are members; or
 - (iv) shares held in the capital of a company incorporated in a non-EU member state which invests its assets mainly in the securities of issuing bodies having their registered office in that state where, under the legislation of that state, such holding represents the only way in which such Compartment's assets may invest in the securities of the issuing bodies of that state, provided, however, that such company in its investment policy complies with the limits laid down in articles 43, 46 and 48(1) and (2) of the 2010 Law.
- (d) making investments in precious metals or certificates representing these
- (e) entering into transactions involving commodities or commodity contracts, except that the Fund may employ techniques and instruments relating to Transferable Securities within the limits set out in Section 23 below;
- purchasing or selling real estate or any option, right or interest therein, provided the Fund may invest in securities secured by real estate or interests therein or issued by companies which invest in real estate or interests therein;
- (f) carrying out uncovered sales of Transferable Securities, other financial instruments or Money Market Instruments referred to in Sections 22.3(e), 22.3(g) and 22.3(h) above;
- (g) mortgaging, pledging, hypothecating or otherwise encumbering as security for indebtedness any securities held for the account of any Compartment, except as may be necessary in connection with the borrowings mentioned in sub-paragraph (a) of Section 22.32 above, and then such mortgaging, pledging, or hypothecating may not exceed 10% of the net assets of each Compartment. In connection with swap transactions, option and forward exchange or futures transactions the deposit of securities or other assets in a separate account shall not be considered a mortgage, pledge or hypothecation for this purpose;
- (h) underwriting or sub-underwriting securities of other issuers.

23. INVESTMENTS IN FINANCIAL DERIVATIVE INSTRUMENTS AND USE OF EFFICIENT PORTFOLIO MANAGEMENT TECHNIQUES

General

- 23.1 The Fund may employ techniques and instruments relating to Transferable Securities and Money Market Instruments (**EPM Techniques**) provided that such EPM Techniques are used for the purposes of efficient portfolio management within the meaning of, and under the conditions set out in, applicable laws, regulations and circulars issued by the CSSF from time to time.

23.2 The use of EPM Techniques is subject to the following conditions:

- (a) they are economically appropriate in that they are realised in a co-effective way;
- (b) they are entered into for one or more of the following specific aims:
 - (i) reduction of risk;
 - (ii) reduction of cost;
 - (iii) generation of additional capital or income for the relevant Compartment with a level of risk which is consistent with its risk profile and applicable risk diversification rules;
- (c) their risks are adequately captured by the Fund's risk management process; and
- (d) they are taken into account by the Management Company when developing its liquidity risk management process in order to ensure that the Fund is able to comply at any time with its redemption obligations.

23.3 The Fund and any of its Compartments may in particular enter into swap contracts relating to any financial instruments or indices, including TRS. TRS involve the exchange of the right to receive the total return, coupons plus capital gains or losses, of a specified reference asset, index or basket of assets against the right to make fixed or floating payments. As such, the use of TRS or other derivatives with similar characteristics allows gaining synthetic exposure to certain markets or underlying assets without investing directly (and/or fully) in these underlying assets.

23.4 The Fund and any of its Compartments may employ SFTs for reducing risks (hedging), generating additional capital or income or for cost reduction purposes. Any use of SFT and TRS for investment purposes will be in line with the risk profile and risk diversification rules applicable to any Compartments. Investors should refer to the risk factors in Section 15 of the main body of the Prospectus for special risk considerations applicable to the use of SFT and TRS.

23.5 The risk exposure to a counterparty resulting from EPM Techniques (including SFTs) and OTC Derivatives (including TRS) must be combined when calculating counterparty risk limits referred to under Section 22.7 above.

23.6 Except as otherwise set out in the relevant Appendix, all revenues arising from EPM Techniques, net of direct and indirect operational costs and fees, will be returned to the Fund. The revenues (if any) linked to the TRS will be fully allocated to the relevant Compartment and will be included in the valuation of the TRS. There will neither be any costs nor fees specific to TRS charged to any Compartment that would constitute revenue for the Management Company or the relevant Investment Manager. The fees of any agent involved in EPM Techniques or TRS may not exceed 20% of the total income generated by these EPM Techniques or TRS. Such fees may be calculated as a percentage of gross revenues earned by the Fund through the use of such techniques. The remaining income will accrue to the relevant Compartment. Information on direct and indirect operational costs and fees that may be incurred in this respect as well as the identity of the entities to which such costs and fees are

paid will be available in the annual report of the Fund. Certain SFT Agents may be affiliated with the Management Company. None of the SFT Agents or counterparties to the OTC Derivative transactions (including TRS) are affiliated with the Fund or any Investment Manager.

23.7 Assets subject to SFTs and TRS will be safe-kept by the Depositary.

23.8 The Fund's semi-annual and annual reports will further contain additional information on the use of SFTs and TRS in line with Section A of the Annex of the SFTR.

Eligible counterparties

23.9 The counterparties to SFTs and TRS will be selected and approved through a robust selection process and will be establishments located in OECD Member States and have a minimum rating of BBB- or the equivalent by any leading rating agencies. The Management Company's risk management team will assess the creditworthiness of the proposed counterparties, their expertise in the relevant transaction, the costs of service and others factors related to best execution in line with the Management Company's best execution policy.

Securities Lending and Repurchase Transactions

23.10 The EPM Techniques that may be employed by the Compartments in accordance with Section 23.2 of the main body of the Prospectus above includes SFTs that are subject to the conditions set out below:

- (a) When entering into a Securities Lending agreement, the Fund will ensure that it is able at any time to recall any security that has been lent out or terminate the Securities Lending agreement.
- (b) When entering into a reverse Repurchase Transaction agreement, the Fund will ensure that it is able at any time to recall:
 - (i) the full amount of cash or to terminate the reverse Repurchase Transaction on either an accrued basis or a mark-to-market basis. When the cash is callable at any time on a mark-to-market basis, the mark-to-market value of the reverse Repurchase Transaction will be used for the calculation of the net asset value of the relevant Compartment; and/or
 - (ii) any securities subject to the Repurchase Transaction agreement or to terminate the Repurchase Transaction agreement into which it has entered.
- (c) Fixed-term Repurchase Transaction and reverse Repurchase Transaction agreements that do not exceed seven days will be considered as arrangements on terms that allow the assets to be recalled at any time by the Fund.

23.11 The Management Company takes into account these EPM Techniques when developing its liquidity risk management process in order to ensure that the Fund is able to comply at any time with its redemption obligations.

23.12 Unless otherwise specified in an Appendix in respect of a Compartment, the Compartments will not use SFT or TRS. If a Compartment intends to make use of SFTs or TRS, the relevant

Appendix will include the disclosures requirements of the SFTR and in particular, the maximum and expected portion of assets that may be subject to SFTs or TRS, as well as the types of assets that are subject to SFTs or TRS.

Management of collateral and collateral policy for OTC Derivatives transactions and EPM Techniques

- 23.13 In the context of OTC Derivatives transactions (including TRS) and EPM Techniques (including SFTs), the Fund may receive collateral with a view to reduce its counterparty risk. This section sets out the collateral policy applied by the Fund in such case. All assets received by the Fund in the context of EPM Techniques (Securities Lending, Repurchase or reverse Repurchase Transactions) shall be considered as collateral for the purposes of this section.
- 23.14 The risks linked to the use of SFT and TRS as well as risks linked to the collateral management, such as operational, custody and legal risks and, where applicable, the risks arising from its reuse are further described hereunder in Section 15 of the main body of the Prospectus.

Eligible collateral

- 23.15 Collateral received by the Fund or a Compartment may be used to reduce its counterparty risk exposure if it complies with the criteria set out in applicable laws, regulations and circulars issued by the CSSF from time to time notably in terms of liquidity, valuation, issuer credit quality, correlation, risks linked to the management of collateral and enforceability. In particular, collateral should comply with the following conditions:
- (a) Any collateral received other than cash should be of high quality, highly liquid and traded on a Regulated Market or multilateral trading facility with transparent pricing in order that it can be sold quickly at a price that is close to pre-sale valuation;
 - (b) It should be valued on at least a daily basis and assets that exhibit high price volatility should not be accepted as collateral unless suitably conservative haircuts are in place;
 - (c) It should be issued by an entity that is independent from the counterparty and is expected not to display a high correlation with the performance of the counterparty;
 - (d) It should be sufficiently diversified in terms of country, markets and issuers with a maximum exposure of 20% of the Fund's or Compartment's net assets to any single issuer on an aggregate basis, taking into account all collateral received. By way of derogation, a Compartment may be fully collateralised in different Transferable Securities and Money Market Instruments issued or guaranteed by a EU Member State, one or more of its local authorities, a third country, or a public international body to which one or more EU Member States belong, provided the Compartment receives securities from at least six different issues and any single issue does not account for more than 30% of the Compartment's NAV. Accordingly a Compartment may be fully collateralised in securities issued or guaranteed by an eligible OECD Member State.
 - (e) It should be capable of being fully enforced by the Fund at any time without reference to or approval from the counterparty.

- 23.16 Subject to the abovementioned conditions, collateral received by the Fund may consist of:

- (a) Cash and cash equivalents, including short-term bank certificates and Money Market Instruments;
- (b) Bonds issued or guaranteed by a OECD Member State or by their local public authorities or by supranational institutions and undertakings with EU, regional or worldwide scope;
- (c) Shares or units issued by money market UCIs calculating a daily net asset value and being assigned a rating of AAA or its equivalent;
- (d) Shares or units issued by UCITS investing mainly in bonds/shares mentioned in (e) and (f) below
- (e) Bonds issued or guaranteed by first class issuers offering adequate liquidity
- (f) Shares admitted to or dealt in on a Regulated Market of a EU Member State or on a stock exchange of a OECD Member State, on the condition that these shares are included in a main index

23.17 Notwithstanding the previous Section, in line with the CSSF Circular 14/592, which transposed the Guidelines issued by the European Securities and Market Authority (ESMA) “ESMA/2014/937”, at the date of the Prospectus, collateral will be only received in:

- (a) Cash and cash equivalents, including short-term bank certificates and Money Market Instruments.
- (b) Bonds issued or guaranteed by a OECD Member State or by their local public authorities or by supranational institutions and undertakings with EU, regional or worldwide scope.
- (c) To the extent that this policy should be reviewed by the Investment managers, the Prospectus will be amended accordingly.

23.18 Collateral posted in favour of a Compartment under a title transfer arrangement should be held by the Depositary or one of its delegates or sub-delegates. Collateral posted in favour of a Compartment under a security interest arrangement (eg, a pledge) can be held by a third party custodian which is subject to prudential supervision, and which is unrelated to the provider of the collateral.

Level of collateral required

23.19 The level of collateral required across all EPM Techniques or OTC Derivatives will be at least 100% of the exposure to the relevant counterparty. This will be achieved by applying the haircut policy set out under Sections 23.20 to 23.26 below.

Haircut policy

23.20 Collateral will be valued on a daily basis, using available market prices and taking into account appropriate discounts which will be determined by the Fund for each asset class based on its haircut policy. This policy takes into account a variety of factors, depending on the nature of the collateral received, such as the issuer’s credit standing, the maturity, currency, price volatility of

the assets and, where applicable, the outcome of liquidity stress tests carried out by the Fund under normal and exceptional liquidity conditions. No haircut will generally be applied to cash collateral.

23.21 In case of non-cash collateral, a haircut will be applied. The Investment Manager will only accept non-cash collateral which does not exhibit high price volatility. The non-cash collateral received on behalf of the Fund will typically be government debts and supranational debt securities.

23.22 For non-cash collateral, a haircut of 1% to 8% will be applied as follows:

Government debts and supranational debt securities	Remaining stated maturity of	Haircut applied
	Not exceeding 1 year	1%
	1 to 5 years	3%
	5 to 10 years	4%
	10 to 20 years	7%
	20 to 30 years	8%

23.23 Non-cash collateral received by the Fund may not be sold, re-invested or pledged.

23.24 Cash collateral received by the Fund can only be:

- (a) placed on deposit with credit institutions which have their registered office in a EU Member State or, if their registered office is located in a third-country, are subject to prudential rules considered by the CSSF as equivalent to those laid down in EU law;
- (b) invested in highly rated government bonds;
- (c) used for the purpose of reverse repurchase transactions provided the transactions are with credit institutions subject to prudential supervision and the Fund is able to recall at any time the full amount of cash on accrued basis;
- (d) invested in short-term money market funds as defined in the Guidelines on a Common Definition of European money market funds.

23.25 Re-invested cash collateral should be diversified in accordance with the diversification requirements applicable to non-cash collateral under Section 23.15 above.

23.26 The Fund may incur a loss in reinvesting the cash collateral it receives. Such a loss may arise due to a decline in the value of the investment made with cash collateral received. A decline in the value of such investment of the cash collateral would reduce the amount of collateral available to be returned by the Fund to the counterparty at the conclusion of the transaction. The Fund would be required to cover the difference in value between the collateral originally received and the amount available to be returned to the counterparty, thereby resulting in a loss to the Fund.

24. RISK MANAGEMENT PROCESS

The Fund will employ a risk-management process which enables it with the Investment Managers to monitor and measure at any time the risk of the positions and their contribution to the overall risk profile of each Compartment. The Fund or the relevant Investment Manager will employ, if applicable, a process for accurate and independent assessment of the value of any OTC Derivatives.

APPENDIX 1

COMPARTMENTS ALREADY IN OPERATION

This Appendix 1 will be updated to take account of any changes in one of the Compartments already operating or whenever a new Compartment is set up.

1. PROTEA FUND – FIXED INCOME*

- 1.1 *The compartment Protea Fund – Fixed Income (the “Compartment”) is strictly dedicated to Institutional Investors

Investors’ profile

- 1.2 The Compartment is a low/medium risk vehicle aiming to provide preservation of capital in euro terms. The Compartment will be suitable for conservative, risk averse investors, for whom income and preservation of principal are their primary objectives over the long term. Investors should be aware, however, that the preservation of capital is not guaranteed.
- 1.3 The recommended duration of placement for investors is 3 to 5 years.

Objectives and investment policy

- 1.4 This Compartment aims to provide capital preservation and income by investing mainly in bonds (including but not limited to fixed-rate or floating-rate securities, zero-coupon bonds and Treasury bonds), with a minimum credit rating of A, measured by any leading credit rating agencies or with quality considered as equivalent by the Investment Manager. The Compartment may also invest in equity and equity related securities, such as ordinary or preferred shares, convertible bonds, and to a lesser extent, subscription rights on Transferable Securities, warrants on Transferable Securities and options on Transferable Securities.
- 1.5 The Compartment may also invest, within the limits set out in Section 22 “Investment restrictions” of the main body of the Prospectus, in other open-ended UCIs.
- 1.6 The choice of investments will not be limited geographically, nor by economic sector, nor in terms of currencies in which investments will be denominated.
- 1.7 If the Investment Manager considers this to be in the best interest of the Shareholders, the Compartment may, for defensive purposes and on an ancillary basis, also hold, up to 100% of its net assets, cash deposits, money market funds and Money Market Instruments whose residual maturity does not exceed 12 months.
- 1.8 Within the limits set forth in the in Section 22 “Investment restrictions” of the main body of the Prospectus, the Compartment may use derivative techniques and instruments for hedging. - 1.9 In particular, the Compartment may use call or put options and/or futures and/or forward contracts on Transferable Securities, interest rates, currencies, indices and other financial instruments, such as swaps agreements, traded on Regulated Markets or OTC.

Risk consideration specific to the Compartment

- 1.10 The Compartment is subject to the specific risks linked to interest rates risks linked to investment in debt securities as well as to risks linked to investments in equity securities and UCIs and market volatility linked to the investment in derivative instruments and warrants; to the extent the Compartment may invest in securities of emerging markets, it may further be subject to risks related to such type of investments. Please refer to the Section 15 headed “Risk considerations” above for further details in this connection.

Global risk exposure

- 1.11 The global risk exposure of the Compartment is monitored by the commitment approach. This approach measures the exposure related to positions on derivative techniques and instruments, which may not exceed the value of the Compartment’s net assets.

Performance

- 1.12 The performance of the Compartment will be disclosed in the KIID of the Compartment. In this connection, investors should note that past performance is not necessarily a guide to future performance. Investors may not get back the full amount invested, as prices of Shares and the income from them may fall as well as rise.

Income distribution policy

- 1.13 This Compartment pursues a policy of achieving capital growth and reinvests income earned; as a result, no dividend shall be paid out.

Reference Currency

- 1.14 The Reference Currency is the EUR.

Frequency of calculation of NAV

- 1.15 The Net Asset Value of the Compartment shall be calculated (i) on the first Business Day of each month as well as (ii) on the fifteenth calendar day of each month and if such day is not a Business Day, on the immediately following Business Day (each a Valuation Day).

2. PROTEA FUND – TRADING

Investors' profile

- 2.1 The compartment Protea Fund – Trading (the “Compartment”) is a high risk vehicle aiming to provide capital growth. It may be suitable for investors who are more concerned with maximising long term returns than minimising possible short term losses. Hence it requires an investment horizon of at least 5 years.

Objectives and investment policy

- 2.2 The Compartment's objective is to provide a long-term capital appreciation through exposure to any type of bonds, any type of equity and equity related securities of companies worldwide, which the Investment Manager believes offer the best potential for high future profitability.
- 2.3 In order to achieve its objective, the Compartment may invest:
- (a) directly in equity and equity related securities (including but not limited to ordinary or preferred shares, convertibles bonds), debt securities of all types (including but not limited to fixed-rate or floating securities, zero-coupon bonds and treasury bonds), ABS, MBS, CLO;
 - (b) in UCIs having as main objective to invest or grant an exposure to the above-mentioned asset classes; and/or
 - (c) in any Transferable Securities (such as structured products, as described below) linked (or offering an exposure) to the performance of the above-mentioned asset classes.
- 2.4 Investments in asset-backed securities and mortgage-backed securities can be made up to 20% of the net assets of the Compartment.
- 2.5 The proportion of assets invested in debt securities may be greater or smaller depending on the outlook for the financial markets.
- 2.6 The choice of investments will neither be limited by a specific asset type, geographical area (including emerging markets), economic sector nor in terms of currencies in which investments will be denominated. However, depending on financial market conditions, a particular focus can be placed in a single asset type, country (or some countries) and/or in a single currency and/or in a single economic sector.
- 2.7 If the Investment Manager considers this to be in the best interest of the Shareholders, the Compartment may also, hold, up to 100% of its net assets, liquid assets as among others cash deposits, money market funds and Money Market Instruments.
- 2.8 Within the limits set out in Section 22 “Investment restrictions” of the main body of the Prospectus, the Investment Manager may use all types of derivatives instruments traded on a Regulated Market and/or OTC, provided they are contracted with leading financial institutions specialised in this type of transactions for hedging and for investment purposes in order to improve the return of the Compartment. In particular, the Compartment may take exposure through any derivative investments such as but not limited to warrants, futures, options, swaps (including but not limited to contracts for difference, credit default swaps and forwards on any

underlying including, but not limited to, commodities and precious metals (only cash settled), currencies (including non-delivery forwards), interest rates, Transferable Securities, indexes (including but not limited to commodities, precious metals or volatility indexes). The Compartment may ensure that its total commitment arising from derivative instruments, for purposes other than hedging, does not exceed the total net value of its portfolio.

- 2.9 The Compartment may invest in structured products, provided that the underlying respect the investment policy and investment restrictions, such as but not limited to certificates, bonds or other Transferable Securities whose returns are or are not correlated with changes in an index (including but not limited to commodities, precious metals, volatility), interest rates, Transferable Securities, private equity or basket of Transferable Securities or an UCI or commodities and precious metals (cash settled only). Those investments may not be used to elude the investment policy of the Compartment.
- 2.10 Due to increased volatility of the markets, the portfolio of the Compartment may have an annual turnover consequently much higher than for a traditional management, which may subsequently entail additional costs for the Compartment, such as the related transaction fees.

Risk considerations specific to the Compartment

- 2.11 The Compartment is subject to the specific risks linked to investments in equity securities and UCIs as well as to market volatility linked to the investment in derivative instruments and structured products. Furthermore, a risk of illiquidity of the Compartment may not be excluded.
- 2.12 The low level of investment diversification as well as the intensive trading activity may result in a high volatility of the net asset value.
- 2.13 Subject to the assets allocation, the Compartment may also be subject to the specific risks linked to investments in emerging markets.
- 2.14 For full details of the risks applicable to investing in this Compartment, Shareholders are advised to refer to Section 15 "Risk considerations" of the main part of the Prospectus.

Global risk exposure

- 2.15 The global risk exposure of the Compartment is monitored by the commitment approach. This approach measures the exposure related to positions on derivative techniques and instruments, which may not exceed the value of the Compartment's net assets.

Income distribution Policy

- 2.16 This Compartment pursues a policy of achieving capital growth and reinvests income earned; as a result, no dividend shall be paid out. However, the Directors reserve their right to revise this policy at their discretion.

Reference Currency

- 2.17 The Reference Currency is the EUR.

Management of the Compartment

- 2.18 In relation to investment opportunities for the Compartment, the Management Company has appointed Banque Pictet & Cie S.A., whose registered office is at 60, route des Acacias, CH – 1211 Geneva 73, Switzerland, as Investment Manager, under the term of an Investment Management Agreement dated 28 March 2014.
- 2.19 The Investment Manager has appointed Pictet Advisory Services (Overseas) Ltd, whose registered office is at Bayside Executive Park, Building No. 1, West Bay Street and Blake Road, Nassau, Bahamas, as Investment Adviser under the terms of an Investment Advisory Agreement dated 28 March 2014.

Frequency of calculation of NAV

- 2.20 Each Wednesday is a Valuation Day. In the event any such Wednesday is not a Business Day, the Valuation Day is on the immediately following Business Day.

Management fee specific to this Compartment

- 2.21 Management fee: 1.5%

Performance fee

- 2.22 The Investment Manager will receive a performance fee, paid quarterly, based on the net asset value, equivalent to 20% of the performance of the NAV per Share exceeding the Reference NAV (as defined hereafter).
- 2.23 The performance fee is calculated on the basis of the NAV after deduction of all expenses, liabilities, and management fees (but not performance fee), and is adjusted to take account of all subscriptions and redemptions.
- 2.24 The performance fee is equal to the out performance of the NAV per Share multiplied by the number of Shares in circulation during the calculation period. No performance fee will be due if the NAV per Share before performance fee turns out to be below the Reference NAV for the calculation period in question.
- 2.25 The reference NAV is the latest NAV per Share after deduction of performance fee during the previous calculation period (the "Reference NAV"). The reference NAV for the first period is the initial NAV per Share.
- 2.26 Provision will be made for this performance fee on each Valuation Day. If the NAV per Share decreases during the calculation period, the provisions made in respect of the performance fee will be reduced accordingly. If these provisions fall to zero, no performance fee will be payable.
- 2.27 If Shares are redeemed on a date other than that on which a performance fee is paid while provision has been made for performance fees, the performance fees for which provision has been made and which are attributable to the Shares redeemed will be paid at the end of the period even if provision for performance fees is no longer made at that date. Gains which have not been realised may be taken into account in the calculation and payment of performance fees.

2.28 In case of subscription, the performance fee calculation is adjusted to avoid that this subscription impacts the amount of performance fee accruals. To perform this adjustment, the performance of the NAV per Share against the Reference NAV until the subscription date is not taken into account in the performance fee calculation. This adjustment amount is equal to the product of the number of subscribed Shares by the positive difference between the subscription price and the Reference NAV at the date of the subscription. This cumulated adjustment amount is used in the performance fee calculation until the end of the relevant period and is adjusted in case of subsequent redemptions during the period.

2.29 The calculation period corresponds to each calendar quarter.

2.30 Performance fees are payable within 15 Business Days following the relevant quarter.

2.31 The formula for the calculation of the performance fee is as follows:

$$\begin{aligned}
 F &= 0 && \text{If } (B / E - 1) \leq 0 \\
 F &= (B / E - 1) * E * C * A && \text{If } (B / E - 1) > 0 \\
 \\
 \text{The new Reference NAV} &= D \text{ at the end of the previous period} \\
 \\
 \text{Number of Shares outstanding} &= A \\
 \text{NAV per Share before performance} &= B \\
 \text{Performance fee rate (20\%)} &= C \\
 \text{NAV per Share after performance} &= D \\
 \text{Reference NAV} &= E \\
 \text{Performance fee} &= F
 \end{aligned}$$

Initial Subscription Date

2.32 On 3 March 2009, with payment date on 9 March 2009, at the Initial Subscription Price of EUR100 per Share.

- 5.10 For hedging and for any other purposes, within the limits set out in Section 22 of the main body of the Prospectus, the Compartment may use all types of financial derivative instruments traded on a Regulated Market and/or OTC, provided they are contracted with leading financial institutions specialized in this type of transactions. In particular, the Compartment may take exposure through any financial derivative instruments such as but not limited to warrants, futures, options, swaps (such as, contracts for difference or credit default swaps) and forwards on any underlying in line with the 2010 Law as well as the investment policy of the Compartment, including but not limited to, currencies (including non-delivery forwards), interest rates, Transferable Securities, basket of Transferable Securities, indexes (including but not limited to commodities, precious metals or volatility indexes), and UCIs.

- 5.11 The Compartment may also invest in structured products, such as but not limited to credit-linked notes, certificates or any other Transferable Securities whose returns are correlated with changes in, among others, an index selected in accordance with the article 9 of the Grand-Ducal Regulation (including indexes on volatility, commodities, precious metals, etc.), currencies, exchange rates, Transferable Securities or a basket of Transferable Securities or a UCI investment at all times in compliance with the Grand-Ducal Regulation. Investments in asset-backed securities and mortgage-backed securities can be made up to 20% of the net assets of the Compartment. In compliance with the Grand-Ducal Regulation, the Compartment may also invest in structured products without embedded derivatives, correlated with changes in commodities (including precious metals) with cash settlement. Those investments may not be used to elude the investment policy of the Compartment.
- 5.12 The Compartment's investments in Russia, other than those which are listed on the Moscow Interbank Currency Exchange (MICEX) and on the Russian Trading System (RTS) (which are recognised as Regulated Markets), combined with investments that are made in other assets as referred in Section 22.3(i) of the main body of the Prospectus shall not exceed 10% of the net assets of the Compartment.
- 5.13 If the Investment Manager considers this to be in the best interest of the Shareholders, the Compartment may also hold, on a temporary basis, up to 100% of its net assets, in liquidities such as among others cash deposits, money market funds and Money Market Instruments.

Risk considerations specific to the Compartment

- 5.14 The Compartment is subject to risks linked to equity markets, interest rates or currency fluctuations and to the risks inherent in all investments. Therefore, no assurance can be given that the invested capital will be preserved, or that capital appreciation will occur.
- 5.15 The attention of prospective investors is drawn to the fact that the use of financial derivative instruments with the aim of increasing results may entail certain risks, which may in turn have a negative impact on the overall performance of the Compartment.
- 5.16 Due to the increasing volatility of the market, the portfolio may be subject to a high rotation, with the consequent increase in transaction fees.
- 5.17 Investors should refer to Section 15 "Risk considerations" of the main body of the Prospectus for further details in this connection.
- 5.18 Investors should be aware that, due to the political and economic situations in emerging countries, investment in this Compartment presents greater risk and is intended only for investors who are able to bear and assume this increased risk.
- 5.19 Investments in specific countries may mean that diversification in country and economic area terms is slight. The performance can also differ significantly from the general trend of the global equity markets.

Global risk Exposure

- 5.20 The global risk exposure of the Compartment is monitored by the commitment approach. This approach measures the exposure related to positions on derivative techniques and instruments, which may not exceed the value of the Compartment's net assets.

Performance

- 5.21 The performance of the Compartment will be disclosed in the KIID of the Compartment. In this connection, investors should note that past performance is not necessarily a guide to future performance. Investors may not get back the full amount invested, as prices of Shares and the income from them may fall as well as rise.

Income distribution Policy

- 5.22 This Compartment pursues an income distribution policy. Any dividend will be paid after the annual General Meeting, at the latest within 6 months after the close of the Business Year. However, the Directors reserve their right to revise this policy at their discretion.

Reference Currency

- 5.23 The Reference Currency is the EUR.

Management of the Compartment

- 5.24 The Management Company has appointed LGT Bank (Switzerland) A.G., whose registered office is at Glärnischstrasse 34. P.O, Box, CH – 8022 Zurich, Switzerland, as Investment Manager to manage the investments of the Compartment under the terms of the Investment Management Agreement dated on 28 March 2014.

Frequency of calculation of NAV

- 5.25 The net asset value of the Compartment shall be calculated (i) on the first Business Day of each month as well as (ii) on the fifteenth calendar day of each month and if such day is not a Business Day, on the immediately following Business Day (each a Valuation Day).

Management fee specific to this Compartment

- 5.26 Management fee: Maximum 1% per annum, payable quarterly and calculated on assets of the Compartment.

Initial Subscription Date

- 5.27 On 21 December 2009, with payment date on 28 December 2009 at the Initial Subscription Price of EUR100 per Share.

6. PROTEA FUND – BAM US EQUITIES

Investors' profile

- 6.1 The compartment Protea Fund – BAM US Equities (the “Compartment”) is a medium/high risk vehicle aiming to provide capital growth. It may be suitable for investors who are seeking long term growth potential offered through investment in equities and are more concerned with maximising long term returns than minimising possible short term losses. Hence it requires an investment horizon of at least 3 years.

Objectives and investment policy

- 6.2 The Compartment's objective is to deliver superior performance in relative term over the medium to long term horizon. There can be no assurance that the investment objective will be achieved.
- 6.3 To achieve this, the Compartment will mainly invest in a select portfolio of equities and equity related securities (such as rights, REITs, global depositary receipts) of companies which are domiciled, headquartered or exercise the predominant part of their economic activity in the United States of America.
- 6.4 Except the geographical focus, the choice of investments will neither be limited by an economic sector nor in terms of currencies in which investments will be denominated. However, depending on financial market conditions, a particular focus can be placed in a single country (or some countries) and/or in a single currency and/or in a single economic sector.
- 6.5 On an ancillary basis, the Compartment may invest in any other type of eligible assets, such as debt securities, Money Market Instruments, structured products (as described below), UCIs or cash.
- 6.6 However:
- (a) The Compartment's investments in units or shares of UCITS and/or other UCIs as referred to in Section 22.3(e) of the main body of the Prospectus, shall not exceed 10% of the net assets of the Compartment.
 - (b) Investments in debt securities, within the meaning of the EU Savings Directive, will be limited to 25% of the Compartment's net assets. It is therefore presently expected that capital gains realised by Shareholders on the disposal of Shares in the Compartment will not be subject to the reporting or withholding requirements imposed by the EU Savings Directive.
 - (c) If the Investment Manager considers this to be in the best interest of the Shareholders, on a temporary basis and for defensive purposes, the Compartment may also, hold, up to 100% of its net assets, liquidities as among others cash deposits, money market funds (within the 10% limit above-mentioned) and Money Market Instruments.
- 6.7 Structured products used will be instruments, such as but not limited to notes, certificates or any other Transferable Securities whose returns are correlated with changes in equities, equity related securities or a basket of equities or equities securities, in line with the investment policy and at all times in compliance with the Grand-Ducal Regulation.

- 6.8 Those investments may not be used to elude the investment policy of the Compartment.
- 6.9 For hedging and for any other purposes, within the limits set out in Section 22 “Investment restrictions” of the main body of the Prospectus, the Compartment may use all types of financial derivative instruments traded on a Regulated Market and/or OTC provided they are contracted with leading financial institutions specialised in this type of transactions and subject to regulatory supervision. However, the Investment Manager intends to use principally, for hedging purposes, options, futures and forward exchange contracts, having underlying in line with the investment policy. Those investments may not be used to elude the investment policy of the Compartment.
- 6.10 The Compartment may ensure that its total commitment arising from financial derivative instruments, for purposes other than hedging, does not exceed 100% of its net assets.

Risk considerations specific to the Compartment

- 6.11 The Compartment is subject to specific risks linked to investments in equity securities denominated in various currencies, to market volatility linked to equity securities and to market volatility linked to the investment in derivative instruments. Please refer to the Section 15 headed “Risk considerations” of the main body of the Prospectus for further details in this connection.

Global risk exposure

- 6.12 The Compartment’s global risk exposure is monitored by using the commitment approach. This approach measures the global exposure related to positions on financial derivative instruments (“FDIs”) which may not exceed the Compartment’s net asset value.

Performance

- 6.13 The performance of the Compartment will be disclosed in the KIIDs of the Compartment. In this connection, investors should note that past performance is not necessarily a guide to future performance. Investors may not get back the full amount invested, as prices of Shares and the income from them may fall as well as rise.

Income Distribution Policy

- 6.14 This Compartment pursues a policy of achieving capital growth and reinvests income earned; as a result, no dividend shall be paid out. However, the Directors reserve their right to revise this policy at their discretion.

Categories of Shares of the Compartment

- 6.15
- (a) I Class of Shares: strictly dedicated to Institutional Investors;
 - (b) R Class of Shares: available to all type of investors.

Reference Currency

- 6.16 The Reference Currency is the USD.

Payment of the subscription price or redemption price

- 6.17 The amount for the subscription shall be paid or transferred as further set out in Section 5.7 of the main body of Prospectus within two Business Days counting from the relevant Valuation Day as set out below.
- 6.18 The price for the shares of the Compartment presented for redemption shall be paid by transfer in the Reference Currency of the Compartment concerned within two Business Days following the date when the Net Asset Value applicable to the redemption was calculated.

Investment management of the Compartment

- 6.19 In relation to investment opportunities for the Compartment, the Management Company has appointed Bruellan SA, whose registered office is at Rue Sigismond-Thallberg, CH-1201 Geneva, Switzerland, as Investment Manager under the terms of an Investment Management Agreement dated 31 December 2014.

Frequency of calculation of NAV

- 6.20 The Net Asset Value of the Compartment shall be calculated daily on each Business Day (the "Calculation Day"), on the basis of the pricing of the preceding Business Day (the "Valuation Day"). If such Valuation Day is not a Business Day, the Net Asset Value will be calculated the immediately following Business Day.

Management fee and performance fee specific to this Compartment

- 6.21 The Fund will pay to the Investment Manager a management fee and an annual performance fee as described as follows:

Management fee

Class I Share	max. 1.5% p.a.
Class R Share	max. 1.5% p.a.

- 6.22 The investment management fee will be calculated, on a monthly basis, in arrear, on the average net assets of the relevant category of Share of the Compartment.

Performance fee

- 6.23 The Investment Manager will receive a performance fee, accrued on each Valuation Day, paid yearly, based on the Net Asset Value, equivalent to 20% of the performance of the NAV per Share over the return of the relevant benchmark index, S&P 500 Total Return Index (SPXT), by applying the high water mark principle.

- 6.24 As of the date of this Prospectus, Standard & Poor's Financial Services LLC, the administrator of the SPXT index is not on the list of administrators held with ESMA in accordance with article 36 of the Benchmark Regulation. The administrator of the SPXT index benefits from the transitional provisions under Article 51 of the Benchmark Regulation.
- 6.25 The high water mark is defined as the last reference outperformance index on which a performance fee has been paid (the "High Water Mark").
- 6.26 The performance fee is calculated on the basis of the NAV after deduction of all expenses, liabilities, and management fees (but not performance fee), and is adjusted to take account of all subscriptions and redemptions.
- 6.27 Provision will be made for this performance fee on each Valuation Day. If the NAV per Share underperforms the benchmark during the calculation period, the provisions made in respect of the performance fee will be reduced accordingly. If these provisions fall to zero, no performance fee will be payable.
- 6.28 If Shares are redeemed on a date other than that on which a performance fee is paid while provision has been made for performance fees, the performance fees for which provision has been made and which are attributable to the Shares redeemed will be paid at the end of the period even if provision for performance fees is no longer made at that date.
- 6.29 In case of subscription, the performance fee calculation is adjusted to avoid that this subscription impacts the amount of performance fee accruals. To perform this adjustment, the outperformance of the NAV per Share against the benchmark index until the subscription date is not taken into account in the performance fee calculation. This adjustment amount is equal to the product of the number of subscribed Shares by the positive difference between the subscription price and the High Water Mark adjusted by the benchmark performance at the date of the subscription. This cumulated adjustment amount is used in the performance fee calculation until the end of the relevant period and is adjusted in case of subsequent redemptions during the period.
- 6.30 Calculation period shall correspond to each calendar year.
- 6.31 The formula for the calculation of the performance fee is as follows:

Performance fee	: $F = (RI(t) - C) * D * A$ If $RI(t) > C$
Reference Index (Outperformance index)	: $RI(t) = RI(y-1) + (P-M) * E$
High Water Mark (Based on outperformance index RI) The new High Water Mark	: C (set up annually) if $F > 0 \Rightarrow RI(y-1)$ if $F = 0 \Rightarrow C(Y-1)$
Number of shares outstanding	: A
NAV per share before performance fee (end of calculation period)	: B
% change of NAV over the calculation period	: $P = B/E - 1$

Benchmark performance over the calculation period	: M
Reference outperformance index	: RI (=100 at the beginning of first calculation period)
Performance fees rate	: D=20%
Reference NAV (adjusted of previous performance fee) at the beginning of the period	: E
RI(y-1): Reference Index at the end of the precedent calculation period	
C(Y-1): High Water Mark at the end of the precedent calculation period	

- 6.32 This performance fee methodology enables the Shareholder to pay a performance fee to the Investment Manager only if:
- (a) the Compartment generates a performance higher than the benchmark; and
 - (b) the outperformance index is higher than the historical highest point (High Water Mark), meaning if the Compartment delivers a negative outperformance one quarter, it has to outperform at least by this negative outperformance before charging a performance fee.
- 6.33 For the first year, the calculation period will run as from the launching date of the Compartment to the 31 December 2015.

7. PROTEA FUND – BAM ASIA-PACIFIC EQUITIES EX JAPAN

Investors' profile

- 7.1 The Protea Fund – BAM Asia Pacific Equities Ex Japan (the “Compartment”) is a medium/high risk vehicle aiming to provide capital growth. It may be suitable for investors who are seeking long term growth potential offered through investments in equities and are more concerned with maximising long term returns than minimising possible short term losses. Hence it requires an investment horizon of at least 3 years.

Objectives and investment policy

- 7.2 The Compartment's objective is to deliver superior performance in relative term over the medium to long term horizon. There can be no assurance that the investment objective will be achieved.
- 7.3 To achieve this, the Compartment will mainly invest in a select portfolio of equities and equity related securities (such as rights) of companies which are domiciled, headquartered or exercise the predominant part of their economic activity in any country of the Asia Pacific region (excluding Japan).
- 7.4 Except the geographical focus, the choice of investments will neither be limited by an economic sector nor in terms of currencies in which investments will be denominated. However, depending on financial market conditions, a particular focus can be placed in a single country (or some countries) and/or in a single currency and/or in a single economic sector.
- 7.5 As some countries of the Asia Pacific region can be considered as emerging countries, it is understood that the Compartment can be exposed to risk of emerging countries. Furthermore if Japan is not part of the main investments, the Compartment is not prohibited to invest in Japanese securities.
- 7.6 On an ancillary basis, the Compartment may invest in any other type of eligible assets, such as debt securities, Money Market Instruments, structured products (as described below), UCIs or cash.
- 7.7 However:
- (a) The Compartment's investments in units or shares of UCITS and/or other UCIs as referred to in Section 22.3(e) of the main body of the Prospectus, shall not exceed 10% of the net assets of the Compartment.
 - (b) Investments in debt securities, within the meaning of the EU Savings Directive, will be limited to 25% of the Compartment's net assets. It is therefore presently expected that capital gains realised by Shareholders on the disposal of Shares in the Compartment will not be subject to the reporting or withholding requirements imposed by the EU Savings Directive.

- 7.8 Structured products used will be instruments, such as but not limited to notes, certificates or any other Transferable Securities whose returns are correlated with changes in equities, equity related securities or a basket of equities or equities securities, in line with the investment policy and at all times in compliance with the Grand-Ducal Regulation.
- 7.9 Those investments may not be used to elude the investment policy of the Compartment.
- 7.10 For hedging and for any other purposes, within the limits set out in the investment restrictions of the main body of the Prospectus, the Compartment may use all types of financial derivative instruments traded on a Regulated Market and/or OTC provided they are contracted with leading financial institutions specialised in this type of transactions and subject to regulatory supervision. However, the Investment Manager intends to use principally, for hedging purposes, options, futures and forward exchange contracts, having underlying in line with the investment policy. Those investments may not be used to elude the investment policy of the Compartment.

Risk considerations specific to the Compartment

- 7.11 The Compartment is subject to specific risks linked to investments in equity securities denominated in various currencies, to market volatility linked to equity securities and to investments in derivative instruments. To the extent the Compartment may invest in securities of emerging markets, it may further be subject to risks related to such type of investments. Please refer to the Section 15 headed “Risk considerations” above for further details in this connection.

Global risk exposure

- 7.12 The Compartment’s global risk exposure is monitored by using the commitment approach. This approach measures the global exposure related to positions on FDIs which may not exceed the Compartment’s net asset value.

If the NAV per Share underperforms the benchmark during the calculation period, the provisions made in respect of the performance fee will be reduced accordingly. If these provisions fall to zero, no performance fee will be payable.
- 8.29 If Shares are redeemed on a date other than that on which a performance fee is paid while provision has been made for performance fees, the performance fees for which provision has been made and which are attributable to the shares redeemed will be paid at the end of the period even if provision for performance fees is no longer made at that date.
- 8.30 In case of subscription, the performance fee calculation is adjusted to avoid that this subscription impacts the amount of performance fee accruals. To perform this adjustment, the outperformance of the NAV per Share against the benchmark index until the subscription date is not taken into account in the performance fee calculation. This adjustment amount is equal to the product of the number of subscribed Shares by the positive difference between the subscription price and the High Water Mark adjusted by the benchmark performance at the date of the subscription. This cumulated adjustment amount is used in the performance fee calculation until the end of the relevant period and is adjusted in case of subsequent redemptions during the period.
- 8.31 Calculation period shall correspond to each calendar year.
- 8.32 The formula for the calculation of the performance fee is as follows:

Performance fee	: $F = (RI(t) - C) * D * A$ If $RI(t) > C$
Reference index (outperformance index)	: $RI(t) = RI(y-1) + (P-M) * E$
High Water Mark (based on outperformance index RI) The new High Water Mark	: C (set up annually) if $F > 0 \Rightarrow RI(y-1)$ if $F = 0 \Rightarrow C(Y-1)$
Number of Shares outstanding	: A
NAV per Share before performance fee (end of calculation period)	: B
% change of NAV over the calculation period	: $P = B/E - 1$
Benchmark performance over the calculation period	: M
Reference outperformance index	: RI (=100 at the beginning of first calculation period)
Performance fees rate	: $D = 20\%$

Reference NAV (adjusted of previous performance fee)
at the beginning of the period : E

RI(y-1): Reference Index at the end of the precedent calculation period
C(Y-1): High Water Mark at the end of the precedent calculation period

- 8.33 This performance fee methodology enables the Shareholder to pay a performance fee to the Investment Manager only if:
- (a) the Compartment generates a performance higher than the benchmark; and
 - (b) the outperformance index is higher than the historical highest point (High Water Mark), meaning if the Compartment delivers a negative outperformance one quarter, it has to outperform at least by this negative outperformance before charging a performance fee.
- 8.34 For the first year, the calculation period will run as from the launching date of the Compartment to the 31 December 2015.

9. PROTEA FUND – MONOGRAM

Investors' profile

- 9.1 The compartment Protea Fund – Monogram (the "Compartment") is a medium risk vehicle aiming to provide capital growth. It may be suitable for investors who are seeking capital appreciation. Hence it requires an investment horizon of at least 3 years.

Objectives and investment policy

- 9.2 The Compartment's objective is to principally offer an exposure to the following asset classes: debt securities (including Money Market Instruments), equities and equity related securities, currencies, cash. There can be no assurance that the investment objective will be achieved.
- 9.3 The "debt security" asset class will be achieved via a main exposure to investment grade debt securities.
- 9.4 The Investment Manager intends to maintain maximum flexibility in its trading and investment strategy in order to take advantage of buying or selling opportunities.
- 9.5 Accordingly, the Investment Manager has no self-imposed restrictions relating to its trading and investment strategies, although under normal market conditions the Investment Manager aims to maintain a diversified portfolio of assets.
- 9.6 In order to achieve its objective, the Compartment will mainly invest:
- (a) directly in the securities/asset classes above-mentioned; and/or
 - (b) in UCI having as main objective to invest or grant an exposure to the above-mentioned asset classes.
- 9.7 The choice of investments will neither be limited by geographical area (including emerging markets), economic sector nor in terms of currencies in which investments will be denominated. However, depending on financial market conditions, a particular focus can be placed in a single country (or some countries) and/or in a single currency and/or in a single economic sector.
- 9.8 Furthermore, the exposure to each of the above-mentioned asset classes can change from time to time as return expectations shift; it is understood that the Compartment may invest up to 100% of its assets in any one of the asset classes.
- 9.9 The Compartment's investments in Russia, other than those which are listed on the MICEX - RTS and any Other Regulated Markets in Russia, combined with investments that are made in other assets as referred Section 22.3(i) of the main body of the Prospectus, shall not exceed 10% of the net assets of the Compartment.
- 9.10 On an ancillary basis, the Compartment may invest in structured products, such as but not limited to notes, certificates or any other Transferable Securities whose returns are correlated with changes in, among others, an index selected in accordance with the article 9 of the Grand-Ducal Regulation, currencies, exchange rates, Transferable Securities or a basket of Transferable Securities or a UCI, at all times in compliance with the Grand-Ducal Regulation.

- 9.11 In compliance with the Grand-Ducal Regulation, the Compartment may also invest in structured products without embedded derivatives, correlated with changes in commodities (including precious metals) with cash settlement. Those investments may not be used to elude the investment policy of the Compartment.
- 9.12 For hedging and for any other purposes, within the limits set out in Section 22 "Investment restrictions" of the main body of the Prospectus, the Compartment may use all types of financial derivative instruments traded on a Regulated Market and/or OTC provided they are contracted with leading financial institutions specialised in this type of transactions and subject to regulatory supervision. However, in normal market conditions, the Investment Manager intends to use only futures, options and forward exchange contracts.

Risk considerations specific to the Compartment

- 9.13 The Compartment is subject to the specific risks linked to investments in equity securities and UCIs as well as to interest rates risks linked to investment in debt securities and market volatility linked to the investment in derivative instruments. To the extent the Compartment may invest in securities of emerging markets, it may further be subject to risks related to such type of investments. Please refer to the Section 15 headed "Risk considerations" above for further details in this connection.

Global risk exposure

- 9.14 The Compartment's global risk exposure is monitored by using the VaR approach which aims to estimate the maximum potential loss that the Compartment could suffer within a certain time horizon (one month) and with a certain confidence level (99% confidence interval), in normal market conditions. More specifically, the Compartment uses the absolute VaR option, whereby the Compartment's VaR is limited to 20%.
- 9.15 In addition, stress tests will be carried out in order to manage additional risks related to possible abnormal market movements at a specific point of time.
- 9.16 The expected level of leverage of this Compartment is 200% (gross commitment). This figure is computed as the sum of the absolute notionals of the FDI, whereby a large part of these FDIs are used for hedging purposes. Depending on market conditions, higher leverage levels may be used to increase the hedging component of the Compartment and/or generate a higher market exposure.

Performance

- 9.17 The performance of the Compartment will be disclosed in the KIIDs of the Compartment. In this connection, investors should note that past performance is not necessarily a guide to future performance. Investors may not get back the full amount invested, as prices of shares and the income from them may fall as well as rise.

Income distribution Policy

- 9.18 This Compartment pursues a policy of achieving capital growth and reinvests income earned; as a result, no dividend shall be paid out. However, the Directors reserve their right to revise this policy at their discretion.

Categories of Shares

9.19

- (a) I Shares Class, strictly dedicated to Institutional Investors;
- (b) R Shares Class, for all types of investors.

Sub-classes of Shares

9.20

- (a) USD Sub-Class Shares, expressed in USD;
- (b) GBP Sub-Class Shares, expressed in GBP;
- (c) EUR Sub-Class Shares, expressed in EUR.

Reference Currency

9.21 The Reference Currency is the USD.

9.22 For reporting purposes, the assets of the Compartment are consolidated in USD. However, sub-classes of shares in this Compartment are also offered in GBP ("GBP Sub-Class Shares") or in EUR ("EUR Sub-Class Shares").

9.23 The GBP Sub-Class Shares and the EUR Sub-Class Shares (the "Hedged Shares") aim to systematically hedge to a large extent the exchange risk GBP/USD and EUR/USD.

Management of the Compartment

9.24 In relation to investment opportunities for the Compartment, the Management Company has appointed Monogram Capital Management LLP, whose registered office is at 3, Lloyd's Avenue, London EC3N 3DS, United Kingdom, as Investment Manager under the terms of an Investment Management Agreement dated 1 December 2014.

Frequency of calculation of NAV

9.25 The Net Asset Value is calculated on each Wednesday (which is a Valuation Day). In the event any Wednesday is not a Business Day, the NAV will be calculated on the immediately following Business Day.

9.26 For information purpose only, the NAV will be calculated as of the last calendar of the month (the "Non Tradable NAV"). Subscriptions, redemptions and conversions cannot be accepted and dealt on a Non Tradable NAV.

Management fee specific to this Compartment

9.27 Management fee: 1% p.a.

Performance fee

- 9.28 The Investment Manager will receive a performance fee, accrued on each valuation date, paid yearly, based on the Net Asset Value, equivalent to 10 % of the performance of the NAV per Share exceeding the High Water Mark (as defined hereafter).
- 9.29 The performance fee is calculated on the basis of the NAV after deduction of all expenses, liabilities, and management fees (but not performance fee), and is adjusted to take account of all subscriptions and redemptions.
- 9.30 The performance fee is equal to the out performance of the NAV per share multiplied by the number of Shares in circulation during the calculation period. No performance fee will be due if the NAV per Share before performance fee turns out to be below the High Water Mark for the calculation period in question.
- 9.31 The high water mark is defined as the greater of the following two figures:
- (a) the last highest Net Asset Value per Share on which a performance fee has been paid; and
 - (b) the initial NAV per Share,
- hereinafter referred to as the “High Water Mark”.
- 9.32 Provision will be made for this performance fee on each Valuation Day. If the NAV per Share decreases during the calculation period, the provisions made in respect of the performance fee will be reduced accordingly. If these provisions fall to zero, no performance fee will be payable.
- 9.33 If Shares are redeemed on a date other than that on which a performance fee is paid while provision has been made for performance fees, the performance fees for which provision has been made and which are attributable to the Shares redeemed will be paid at the end of the period even if provision for performance fees is no longer made at that date. Gains which have not been realised may be taken into account in the calculation and payment of performance fees.
- 9.34 In case of subscription, the performance fee calculation is adjusted to avoid that this subscription impacts the amount of performance fee accruals. To perform this adjustment, the performance of the NAV per Share against the High Water Mark until the subscription date is not taken into account in the performance fee calculation. This adjustment amount is equal to the product of the number of subscribed Shares by the positive difference between the subscription price and the High Water Mark at the date of the subscription. This cumulated adjustment amount is used in the performance fee calculation until the end of the relevant period and is adjusted in case of subsequent redemptions during the period.
- 9.35 Calculation period shall correspond to each calendar year.
- 9.36 Performance fees are payable within 20 Business Days following the closing of the yearly accounts.
- 9.37 The formula for the calculation of the performance fee is as follows:

PROTEA FUND

F	=	0
		If $(B / E - 1) \leq 0$
F	=	$(B / E - 1) * E * C * A$
		If $(B / E - 1) > 0$
The new High Water Mark	=	if $F > 0$; D
If $F=0$; E		
Number of Shares outstanding	=	A
NAV per Share before performance	=	B
Performance fee rate (10%)	=	C
NAV per Share after performance	=	D
High Water Mark	=	E
Performance fees	=	F

- 9.38 For the first year, the calculation period will run as from the launching date of the Compartment to the 31 December 2015.

Initial Subscription Period

- 9.39 27 January 2015, with payment date on 28 January 2015 at the Initial Subscription Price of USD10,000, GBP10,000 or EUR10,000 per Share (in respect of the relevant sub-class of Shares of the Compartment).
- 9.40 The minimum amount of subscription during the initial subscription period will be USD100,000 for the USD Sub-Class Shares, GBP 100,000 for the GBP Sub-Class Shares and EUR100,000 for the EUR Sub-Class Shares.
- 9.41 Following the initial subscription period there will be no minimum subscription amount.

10. PROTEA FUND – CRAWFORD LAKE US EQUITIES FUND

Investors' profile

- 10.1 The compartment Protea Fund – Crawford Lake US Equities Fund (the “Compartment”) is a medium risk vehicle aiming to provide growth of capital. The Compartment is suitable for investors who are seeking superior risk adjusted returns by employing a long/short trading oriented strategy focused principally on investments in public equity securities.
- 10.2 The investment horizon should be at least 3 years.

Objectives and investment policy

- 10.3 The Compartment’s objective is to provide capital growth. There can be no guarantee that such objective will be achieved. Investors’ attention is drawn to the fact that the Investment Manager may limit the overall size of the Compartment. The Compartment will mainly offer an exposure to equities and equity related securities (such as depositary receipts) of companies which are domiciled, headquartered or exercise their main activity in the United States (U.S.).
- 10.4 The Investment Manager intends to follow a long/short equity strategy.
- 10.5 Traditional long positions are coupled with (synthetic) long and short positions, which will be achieved through the use of financial derivative instruments.
- 10.6 The Investment Manager utilizes a hybrid approach to investing by combining both fundamental and technical analysis. The combination of these complementary strategies is intended to produce uncorrelated returns and position the Compartment to perform well regardless of market conditions.
- 10.7 Typically, between 40% and 70% of the Compartment’s net assets will be deployed in catalyst driven long/short equity positions. A brief description of the selection process, is as follows:
- (a) The Investment Manager scours the market for investment opportunities using both technical and fundamental screens. The investment process focuses on names where technical indicators and corporate fundamentals are aligned such that the Investment Manager believes price action, either positive or negative, is sustainable. Potential candidates are reviewed to assess the alignment of favourable fundamental and technical factors.
 - (b) The purpose of fundamental analysis is to narrow the universe of potential investments and determine that underlying fundamentals are sound and generally favourable (or negative in the case of a short sale). The purpose of technical analysis is to check that price action is sustainable based on market conditions. If price movement is deemed sustainable (generally targeting approximately 10-30% return in 3 months or less), the Investment Manager evaluates entry point and position sizing considerations. The equity long/short portfolio is directional and generally accounts for approximately 40-70% of the overall Compartment’s equity exposure.
 - (c) As regards market capitalisation, the Compartment may invest in small capitalisations (caps), mid-caps, and large caps.

- 10.8 In order to achieve its objective, the Compartment will mainly invest:
- (a) directly in the securities mentioned under Section 10.3 above; and/or
 - (b) in undertakings for collective investment (UCIs: UCITS and/or other UCIs referred to in Section 22.3(e) of the main body of the Prospectus) having as main objective to invest in the securities mentioned under Section 10.3 above; and/or
 - (c) in any Transferable Securities linked (or offering an exposure) to the performance of the securities mentioned under Section 10.3 above; and/or
 - (d) in financial derivative instruments having as underlying or offering an exposure to the securities mentioned under Section 10.3 above.
- 10.9 Due to the use of financial derivative instruments, the Compartment may hold a substantial part of its assets in the form of cash deposits, money market UCIs and Money Market Instruments.
- 10.10 Except the main focus on the U.S., the choice of investments will not be limited geographically, nor by economic sector, nor in terms of currencies in which investments will be denominated. However, depending on financial market conditions, a particular focus can be placed in a single currency and/or in a single economic sector.
- 10.11 On an ancillary basis (up to 49% of its net assets), the Compartment may invest in any other type of Eligible Investments, such as, but not limited to, debt securities and UCIs (other than those above-mentioned), including from issuers located outside of the U.S.
- 10.12 For hedging and for investment purposes, within the limits set out in Section 22 “Investment restrictions” of the main body of the Prospectus, the Compartment may use all types of financial derivative instruments traded on a Regulated Market and/or OTC provided they are contracted with leading financial institutions specialised in this type of transactions and subject to regulatory supervision.
- 10.13 Nevertheless, in normal market conditions, the Investment Manager intends to use options on equities (including on volatility).
- 10.14 If the Investment Manager considers this to be in the best interest of the Shareholders, on a temporary basis and for defensive purposes, the Compartment may also, hold, up to 100% of its net assets, liquidities as among others cash deposits, money market UCIs and Money Market Instruments.

Risk considerations specific to the Compartment

- 10.15 The Compartment is subject to the specific risks linked to investments in equity securities, financial derivative instruments and UCIs as well as to interest rates risks linked to investment in debt securities and market volatility linked to the investment in derivative instruments.
- 10.16 Please refer to the Section 15 of the main body of the Prospectus headed “Risk considerations” above for further details in this connection.

Global risk exposure

- 10.17 The Compartment's global risk exposure is monitored by using the commitment approach. This approach measures the global exposure related to positions on financial derivative instruments which may not exceed the Compartment's Net Asset Value.
- 10.18 The Compartment will ensure that its total commitment arising from financial derivative instruments, for purposes other than hedging, does not exceed 100% of its net assets.

Performance

- 10.19 The performance of the Compartment will be disclosed in the KIIDs of the Compartment. In this connection, investors should note that past performance is not necessarily a guide to future performance. Investors may not get back the full amount invested, as prices of shares and the income from them may fall as well as rise.

Income distribution policy

- 10.20 This Compartment pursues a policy of achieving capital growth and reinvests income earned; as a result, no dividend shall be paid out. However, the Directors reserve their right to revise this policy at their discretion.

Categories of Shares

- 10.21 Please note that this Compartment has a capacity limit of ca. USD 250 million, above which the Compartment may be closed to further subscriptions.
- 10.22 Likewise, the Management Company reserves the right to cap the maximum holding per Shareholder to 10% of the Compartment's outstanding Shares and to reject subscription orders that would result in any Shareholder holding more than 10% of the Compartment's outstanding Shares.

Management fee and performance fee specific to this Compartment

- 10.32 The Fund will pay to the Investment Manager a management fee and a performance fee as described as follows:

Investment management fee:

- 10.33 The Compartment will pay to the Investment Manager a management fee as follows:

Class R (USD)	Up to 2.00% p.a.
Class I (USD)	Up to 2.00% p.a.

- 10.34 The investment management fee will be calculated, on a monthly basis, in arrear, on the average net assets of the relevant category of Shares and will be payable monthly.

Performance fee

- 10.35 The Investment Manager will receive a performance fee, accrued on each Valuation Day, paid quarterly, based on the Net Asset Value (NAV), equivalent to 20 % of the performance of the NAV per Share exceeding the High Water Mark (as defined hereafter).

- 10.36 The performance fee is calculated on the basis of the NAV after deduction of all expenses, liabilities, and management fees (but not performance fee), and is adjusted to take account of all subscriptions and redemptions.

- 10.37 The performance fee is equal to the out performance of the NAV per Share multiplied by the number of Shares in circulation during the calculation period. No performance fee will be due if the NAV per Share before performance fee turns out to be below the High Water Mark for the calculation period in question.

- 10.38 The high water mark is defined as the greater of the following two figures:

- (a) the last highest Net Asset Value per Share on which a performance fee has been paid; and
 - (b) the initial NAV per Share,
- hereafter referred to as the “High Water Mark”.

- 10.39 The High Water Mark will be decreased by the dividends paid to Shareholders.

- 10.40 Provision will be made for this performance fee on each Valuation Day. If the NAV per Share decreases during the calculation period, the provisions made in respect of the performance fee will be reduced accordingly. If these provisions fall to zero, no performance fee will be payable.
- 10.41 If Shares are redeemed on a date other than that on which a performance fee is paid while provision has been made for performance fees, the performance fees for which provision has been made and which are attributable to the Shares redeemed will be paid at the end of the period even if provision for performance fees is no longer made at that date. Gains which have not been realised may be taken into account in the calculation and payment of performance fees.
- 10.42 In case of subscription, the performance fee calculation is adjusted to avoid that this subscription impacts the amount of performance fee accruals. To perform this adjustment, the performance of the NAV per Share against the High Water Mark until the subscription date is not taken into account in the performance fee calculation. This adjustment amount is equal to the product of the number of subscribed Shares by the positive difference between the subscription price and the High Water Mark at the date of the subscription. This cumulated adjustment amount is used in the performance fee calculation until the end of the relevant period and is adjusted in case of subsequent redemptions during the period.
- 10.43 Calculation period shall correspond to each quarter.
- 10.44 Performance fees are payable within 20 Business Days following the end of the relevant quarter.
- 10.45 For the year 2017, the first calculation period will run from 11 October 2017 until 31 December 2017.
- 10.46 The formula for the calculation of the performance fee is as follows:

$$F = \begin{cases} 0 & \text{If } (B / E - 1) \leq 0 \\ (B / E - 1) * E * C * A & \text{If } (B / E - 1) > 0 \end{cases}$$

The new High Water Mark = $\begin{cases} F & \text{if } F > 0; D \\ E & \text{If } F = 0; E \end{cases}$

Number of Shares outstanding = A

NAV per Share before performance = B

Performance fee rate (20%) = C

NAV per Share after performance = D

High Water Mark = E

Performance fees = F

11. PROTEA FUND – ORCHARD EUROPE EQUITIES

Investors' profile

- 11.1 The compartment Protea Fund – Orchard Europe Equities (the “Compartment”) is a medium/high risk vehicle aiming to provide capital growth. It may be suitable for investors who are seeking long term growth potential offered through investment in European equities with an investment horizon of at least 3 years.

Objectives and investment policy

- 11.2 The Compartment's objective is to provide capital growth primarily through investment in equity. To achieve this, the Compartment will have an exposure to a select portfolio of equity and equity related securities (among others subscription rights, convertibles bonds, reverse convertibles bonds, etc.) of companies which are domiciled, headquartered or exercise their main activity in Europe (including UK, East European countries, Russia).
- 11.3 This exposure will be obtained mainly by investing directly in the securities/asset classes mentioned above.
- 11.4 However the Compartment may also invests in other eligible assets such as:

- 11.5 Except the focus on Europe, the choice of investments will not be limited geographically, nor by economic sector, nor by issuer rating, nor in terms of currencies in which investments will be denominated. In case of opportunities, the Compartment may invest up to 15% in emerging countries.
- 11.6 Non-investment grade securities as measured by any leading credit agencies or with quality considered as equivalent by the Investment Manager will be limited to 20% of the net assets. In case of discrepancies of ratings, the higher score will apply.
- 11.7 The Compartment's investments in Russia, other than those which are listed on the MICEX - RTS and any Other Regulated Markets in Russia, combined with investments that are made in other assets as referred in Section 22.3(i) of the main body of the Prospectus, shall not exceed 10% of the net assets of the Compartment.
- 11.8 The Compartment may invest up to 10% in structured products, such as but not limited to notes, certificates or any other transferable securities whose returns are correlated with changes in, among others, equities or a basket of equities, Transferable Securities, indices, currency at all times in compliance with the Grand-Ducal Regulation. Those investments may not be used to elude the investment policy of the Compartment.

- 11.9 For hedging and for any other purposes, within the limits set out in Section 22 "Investment restrictions" of the main body of the Prospectus, the Compartment may use all types of financial derivative instruments traded on a Regulated Market and/or OTC provided they are contracted with leading financial institutions specialised in this type of transactions and subject to regulatory supervision. However, the Investment Manager intends to use principally options, futures and forward exchange contracts on currencies (including non-delivery forwards), interest rates, Transferable Securities, basket of Transferable Securities, indices (including volatility indices) and UCIs.
- 11.10 The Compartment does not intend to use credit default swaps and contracts for difference.
- 11.11 Total commitment arising from financial derivative instruments, for purposes other than hedging, does not exceed 100% of its net assets.
- 11.12 The Compartment may not invest more than 10% in UCITS or other UCIs.
- 11.13 If the Investment Manager considers this to be in the best interest of the Shareholders, the Compartment may, for defensive purposes hold up to 100% in cash and equivalents, cash deposits, money market funds and Money Market Instruments.

Risk considerations specific to the Compartment

- 11.14 The Compartment is subject to the specific risks linked to investments in equity securities and UCIs as well as to interest rates risks linked to investment in debt securities and market volatility linked to the investment in derivative instruments.
- 11.15 Please refer to the Section 15 headed "Risk considerations" above for further details in this connection.

Global risk exposure

- 11.16 The Compartment's global risk exposure is monitored by using the commitment approach. This approach measures the global exposure related to positions on FDIs which may not exceed the Compartment's Net Asset Value.

Performance

- 11.17 The performance of the Compartment will be disclosed in the KIIDs of the Compartment. In this connection, investors should note that past performance is not necessarily a guide to future performance. Investors may not get back the full amount invested, as prices of Shares and the income from them may fall as well as rise.

Income Distribution Policy

- 11.18 This Compartment pursues a policy of achieving capital growth and reinvests income earned, as a result, no dividend shall be paid out. However, the Directors reserve their right to revise this policy at their discretion.

The investment management fee will be calculated, on a quarterly basis, in arrear, on the average net assets of the relevant category of Shares.

Performance fee

11.24 The Investment Manager will receive a performance fee, accrued on each Valuation Day, paid yearly, based on the net asset value, equivalent to 10% of the performance of the NAV per Share exceeding the High Water Mark (as defined hereafter).

11.25 The performance fee is calculated on the basis of the NAV after deduction of all expenses, liabilities, and management fees (but not performance fee), and is adjusted to take account of all subscriptions and redemptions.

- 11.26 The performance fee is equal to the out performance of the NAV per Share multiplied by the number of Shares in circulation during the calculation period. No performance fee will be due if the NAV per Share before performance fee turns out to be below the High Water Mark for the calculation period in question.
- 11.27 The high water mark is defined as the greater of the following two figures:
- (a) The last highest Net Asset Value per Share on which a performance fee has been paid and;
 - (b) The initial NAV per Share,
- hereafter referred to as the "High Water Mark".
- 11.28 The High Water Mark will be decreased by the dividends paid to Shareholders.
- 11.29 Provision will be made for this performance fee on each Valuation Day. If the NAV per Share decreases during the calculation period, the provisions made in respect of the performance fee will be reduced accordingly. If these provisions fall to zero, no performance fee will be payable.
- 11.30 If Shares are redeemed on a date other than that on which a performance fee is paid while provision has been made for performance fees, the performance fees for which provision has been made and which are attributable to the Shares redeemed will be paid at the end of the period even if provision for performance fees is no longer made at that date. Gains which have not been realised may be taken into account in the calculation and payment of performance fees.
- 11.31 In case of subscription, the performance fee calculation is adjusted to avoid that this subscription impacts the amount of performance fee accruals. To perform this adjustment, the performance of the NAV per Share against the High Water Mark until the subscription date is not taken into account in the performance fee calculation. This adjustment amount is equal to the product of the number of subscribed Shares by the positive difference between the subscription price and the High Water Mark at the date of the subscription. This cumulated adjustment amount is used in the performance fee calculation until the end of the relevant period and is adjusted in case of subsequent redemptions during the period.
- 11.32 Calculation period shall correspond to each calendar year.
- 11.33 Performance fees are payable within 20 Business Days following the closing of the yearly accounts.
- 11.34 For the first year, the calculation period will run as from the launching date of the Compartment to 31 December 2015.
- 11.35 The formula for the calculation of the performance fee is as follows:

$$F = 0 \quad \text{If } (B / E - 1) \leq 0$$

$$F = (B / E - 1) * E * C * A \quad \text{If } (B / E - 1) > 0$$

12. PROTEA FUND – OCTOGONE BALANCED FUND

Investors' profile

- 12.1 The Compartment Protea Fund – Octogone Balanced Fund (the “Compartment”) is a medium risk vehicle aiming to provide moderate capital growth in the reference currency over an investment cycle.
- 12.2 The Compartment will be suitable for investors with a moderate risk profile who seek a balanced moderate growth as their primary objectives over the long term. The recommended duration of placement for investors is 3 to 5 years.
- 12.3 There can be no guarantee that the Compartment’s objective will be achieved.

Objectives and investment policy

- 12.4 The Compartment aims to offer an exposure to a balanced portfolio of the following asset classes: debt securities (sovereign debt and corporate debt) including Money Market Instruments, equities and equity related securities, currencies and cash.
- 12.5 In order to achieve its objective, the Compartment will mainly invest:
- (a) directly in the securities/asset classes mentioned in the previous Section; and/or
 - (b) in UCIs having as main objective to invest or grant an exposure to the above-mentioned asset classes; and/or
 - (c) in any Transferable Securities (such as structured products, as described below) linked or offering an exposure to the performance of the above-mentioned asset classes.
- 12.6 The choice of investments will neither be limited by geographical area (including emerging markets), economic sector nor in terms of currencies in which investments will be denominated. However, depending on financial market conditions, a particular focus can be placed in a single country (or some countries) and/or in a single currency and/or in a single economic sector.
- 12.7 Furthermore, the exposure to each of the above-mentioned asset classes can change from time to time, and (i) it is understood that the “currencies and cash” asset class should remain relatively small in normal financial market conditions and could be increased for defensive purposes; and (ii) the Investment Manager intends to be exposed (via direct and indirect investments) up to 70% of the Compartment’s net assets in the “equities” asset class and also up to 70% of the Compartment’s net assets in the “debt securities” asset class.
- 12.8 These upper limits must be understood as a long term guide and are, therefore, indicative. Depending on investment opportunities and market conditions, the Compartment may deviate from these limits at any time.
- 12.9 The Compartment can be exposed to investment grade and non-investment grade debt securities, without any particular restriction, even if it is the intention of the Investment Manager to give greater place to investment grade securities.

- 12.10 The Compartment's investments in Russia, other than those which are listed on the MICEX - RTS and any Other Regulated Markets in Russia, combined with investments that are made in other assets as referred Section 22.3(i) of the main body of the Prospectus, shall not exceed 10% of the net assets of the Compartment.
- 12.11 The Compartment may invest in structured products, such as but not limited to notes, certificates or any other transferable securities, whose returns are correlated with changes in equities, debt securities or a basket of equities or debt securities in line with the investment policy and at all times in compliance with the Grand-Ducal Regulation.
- 12.12 For hedging and for any other purposes, within the limits set out in the investment restrictions of the main body of the Prospectus, the Compartment may use all types of financial derivative instruments traded on a Regulated Market and/or OTC provided they are contracted with leading financial institutions specialised in this type of transactions and subject to regulatory supervision.
- 12.13 However, the Investment Manager intends to use principally options and futures having underlyings in line with the investment policy, currency swaps and forward exchange contracts on currencies.
- 12.14 The Compartment may ensure that its total commitment arising from financial derivative instruments, for purposes other than hedging, does not exceed 100% of its net assets.
- 12.15 If the Investment Manager considers this to be in the best interest of the Shareholders, on a temporary basis and for defensive purposes, the Compartment may also, hold, up to 100% of its net assets, liquidities as among others cash deposits, money market funds and Money Market Instruments.
- 12.16 The Compartment may use EPM Techniques within the limits described below as percentages of the Compartment's net assets:

	Maximum percentage	Expected percentage
Repurchase Transactions	10%	0%
Reverse Repurchase Transactions	10%	0%
Securities Lending	10%	0%

SFTs may have as underlying assets any financial instrument in which the Compartment may invest in accordance with its investment strategy and policy.

Risk considerations specific to the Compartment

- 12.17 The Compartment is subject to the specific risks linked to investments in equity securities, to interest rates risks linked to investment in debt securities, and to market volatility linked to the investment in derivative instruments and structured products. Furthermore, the Compartment may invest part of the assets in less liquid securities.
- 12.18 The low level of investment diversification as well as the intensive trading activity may result in a high volatility of the net asset value.

- 12.19 Subject to the assets allocation, the Compartment may also be subject to the specific risks linked to investments in Emerging Markets.
- 12.20 For full details of the risks applicable to investing in this Compartment, Shareholders are advised to refer to Section 15 “Risk considerations” above in the Prospectus.

Global risk exposure

- 12.21 The global risk exposure of the Compartment is monitored by the commitment approach. This approach measures the exposure related to positions on derivative techniques and instruments, which may not exceed the value of the Compartment’s net assets.

Income distribution policy

- 12.22 This Compartment pursues a policy of achieving capital growth and reinvests income earned; as a result, no dividend shall be paid out. However, the Directors reserve their right to revise this policy at their discretion.

Categories of Shares

- 12.23
- (a) “USD” Class of Shares, expressed in USD;
 - (b) “EUR” Class of Shares, expressed in EUR;
 - (c) “CHF” Class of Shares, expressed in CHF;
 - (d) “NOK” Class of Shares, expressed in NOK;

Reference Currency of the Compartment

- 12.24 The Reference Currency is the USD.
- 12.25 The Shares issued in a currency other than the Reference Currency of the Compartment are systematically hedged.

Management of the Compartment

- 12.26 In relation to investment opportunities for the Compartment, the Management Company has appointed Octogone Europe, a Luxembourg public limited liability company, whose registered office is at 68-70, Boulevard de la Pétrusse, L-2320 Luxembourg, Grand Duchy of Luxembourg, as Investment Manager, under the term of an Investment Management Agreement dated 14 May 2018 and effective as of 30 September 2018.

Frequency of calculation of NAV

- 12.27 The net asset value of the Compartment will be calculated each Tuesday (the “Calculation Day”), on the basis of the pricing of the preceding day (the “Valuation Day”). In the event that a Tuesday is not a Business Day, the net asset value of the Compartment will be calculated the immediately following Business Day.

Investment management fee specific to this Compartment

- 12.28 Up to 1% p.a., calculated on the Net Asset Value of the relevant category of Shares.
- 12.29 The Investment management fee is the maximum amount for the investment management fee charged at the level of the category of Shares as well as at the level of the UCI in which the Compartment is invested.
- 12.30 The investment management fee will be paid, out of the assets of the Compartment, on a quarterly basis.

Performance fee

- 12.31 The Investment Manager will receive a performance fee, accrued on each Valuation Day, paid yearly, based on the Net Asset Value, equivalent to 5 % of the performance of the NAV per Share exceeding the High Water Mark (as defined hereafter).
- 12.32 The performance fee is calculated on the basis of the NAV after deduction of all expenses, liabilities, and management fees (but not performance fee), and is adjusted to take account of all subscriptions and redemptions.
- 12.33 The performance fee is equal to the out performance of the NAV per Share multiplied by the number of Shares in circulation during the calculation period. No performance fee will be due if the NAV per Share before performance fee turns out to be below the High Water Mark for the calculation period in question.
- 12.34 The high water mark is defined as the greater of the following two figures:
 - (a) the last highest Net Asset Value per Share on which a performance fee has been paid; and
 - (b) the initial NAV per Share,

hereafter referred to as the "High Water Mark".
- 12.35 The High Water Mark will be decreased by the dividends paid to Shareholders.
- 12.36 Provision will be made for this performance fee on each Valuation Day. If the NAV per Share decreases during the calculation period, the provisions made in respect of the performance fee will be reduced accordingly. If these provisions fall to zero, no performance fee will be payable.
- 12.37 If Shares are redeemed on a date other than that on which a performance fee is paid while provision has been made for performance fees, the performance fees for which provision has been made and which are attributable to the Shares redeemed will be paid at the end of the period even if provision for performance fees is no longer made at that date. Gains which have not been realised may be taken into account in the calculation and payment of performance fees.
- 12.38 In case of subscription, the performance fee calculation is adjusted to avoid that this subscription impacts the amount of performance fee accruals. To perform this adjustment, the performance of the NAV per Share against the High Water Mark until the subscription date is

not taken into account in the performance fee calculation. This adjustment amount is equal to the product of the number of subscribed Shares by the positive difference between the subscription price and the High Water Mark at the date of the subscription. This cumulated adjustment amount is used in the performance fee calculation until the end of the relevant period and is adjusted in case of subsequent redemptions during the period.

- 12.39 Calculation period shall correspond to each calendar year.
- 12.40 Performance fees are payable within 20 Business Days following the closing of the yearly accounts.
- 12.41 For the first year, the calculation period will run as from the launching date of the Compartment to 31 December 2015.
- 12.42 The formula for the calculation of the performance fee is as follows:

F	=	0
		If $(B / E - 1) \leq 0$
F	=	$(B / E - 1) * E * C * A$
		If $(B / E - 1) > 0$
The new High Water Mark	=	if $F > 0$; D
		If $F = 0$; E
Number of Shares outstanding	=	A
NAV per Share before performance	=	B
Performance fee rate (5%)	=	C
NAV per Share after performance	=	D
High Water Mark	=	E
Performance fees	=	F

Initial Subscription Period

- 12.43 From 8 May 2015 to 18 May 2015, at the initial subscription price of 100 USD, 100 EUR, 100 CHF, and 100 NOK, in respect of the relevant Class of Shares.

13. PROTEA FUND – BAM GLOBAL BONDS

Investors' profile

- 13.1 The compartment Protea Fund – BAM Global Bonds (the “Compartment”) is a medium risk vehicle aiming to provide regular income and capital growth.
- 13.2 The recommended duration of placement for investors is 3 to 5 years.

Objectives and investment policy

- 13.3 The objective of the Compartment is to provide the investors with long-term capital appreciation of their investment mainly through all opportunities across the fixed income universe denominated in any currency.
- 13.4 To achieve this, the Compartment will mainly invest in worldwide debt securities (including convertible bonds of any type)
- (a) issued by corporate or sovereign issuers; and
 - (b) with a minimum credit quality of “non-investment grade speculative”.
- 13.5 The credit quality referred above relates to classification from any leading credit agencies and/or considered as equivalent by the Investment Manager. In case of discrepancies, the higher credit quality shall apply.
- 13.6 Except the credit quality focus, the choice of investments will neither be limited by geographical area (including emerging markets), economic sector nor in terms of currencies in which investments will be denominated. However, depending on financial market conditions, a particular focus can be placed in a single country (or some countries) and/or in a single currency and/or in a single economic sector.
- 13.7 On an ancillary basis, the Compartment may invest in any other type of eligible assets, such as equities, Money Market Instruments, structured products (as described below), UCIs and cash. The Compartment may also invest up to 10% of its net assets in Contingent Convertible Bonds.
- 13.8 The Compartment's investments in units or shares of UCITS and/or other UCIs as referred to in Section 22.3(e) of the main body of the Prospectus, shall not exceed 10% of the net assets of the Compartment.
- 13.9 The Compartment's investments in Russia, other than those which are listed on the MICEX - RTS and any Other Regulated Markets in Russia, combined with investments that are made in other assets as referred in Section 22.3(i) of the main body of the Prospectus, shall not exceed 10% of the net assets of the Compartment.
- 13.10 Structured products used will be instruments such as but not limited to notes, certificates or any other Transferable Securities whose returns are correlated with changes in debt securities or a basket of debt securities, in line with the investment policy and at all times in compliance with the Grand-Ducal Regulation. Those investments may not be used to elude the investment policy of the Compartment.

- 13.11 The Investment Manager intends to use, for hedging and for any other purposes, futures offering an exposure to debt securities, and forward exchange contracts on currencies.
- 13.12 Nevertheless, to a lesser extent, for hedging and for any other purposes, the Compartment may use all types of financial derivative instruments traded on a Regulated Market and/or OTC (including credit default swaps) provided they are contracted with leading financial institutions specialised in this type of transactions and subject to regulatory supervision.
- 13.13 The Compartment may ensure that its total commitment arising from financial derivative instruments, for purposes other than hedging, does not exceed 100% of its net assets.
- 13.14 If the Investment Manager considers this to be in the best interest of the Shareholders, on a temporary basis and for defensive purposes, the Compartment may also, hold, up to 100% of its net assets, liquidities as among others cash deposits, money market funds and Money Market instruments.

Risk considerations specific to the Compartment

- 13.15 The Compartment is subject to specific risks linked to investments in debt securities denominated in various currencies. Please refer to the Section 15 headed “Risk considerations” above for further details in this connection.

Global risk exposure

- 13.16 The Compartment’s global risk exposure is monitored by using the commitment approach. This approach measures the global exposure related to positions on FDIs which may not exceed the Compartment’s net asset value.

Performance

- 13.17 The performance of the Compartment will be disclosed in the KIIDs of the Compartment. In this connection, investors should note that past performance is not necessarily a guide to future performance. Investors may not get back the full amount invested, as prices of Shares and the income from them may fall as well as rise.

Income distribution policy

- 13.18 This Compartment pursues a policy of achieving capital growth and reinvests income earned; as a result, no dividend shall be paid out. However, the Directors reserve their right to revise this policy at their discretion.

15. PROTEA FUND – SPIRIT EUROPEAN GLOBAL LEADERS

Investors' profile

- 15.1 The compartment Protea Fund – Spirit European Global Leaders (the “Compartment”) is a medium/high risk vehicle aiming to provide capital growth. It may be suitable for investors who are seeking long term growth potential offered through investment in equities and are more concerned with maximising long term returns than minimising possible short term losses, hence it requires an investment horizon of at least 3 years.
- 15.2 There can be no assurance that the investment objective will be achieved.

Objectives and investment policy

- 15.3 The Compartment's objective is to deliver superior performance in both absolute and relative term over the medium to long term horizon.
- 15.4 The Compartment's objective is to achieve long-term capital growth for the investor and to outperform the STOXX Europe 600 index with a lower realised volatility by investing in the companies that are identified as the European Global Leaders.
- 15.5 The stock selection is based on the identification of long term investment themes and on operational criteria (value creation and cash flow generation).
- 15.6 The European Global Leaders are quality companies that the Investment Manager identifies, based on the criteria described above, as fit for a long-term investment. The stocks selected for an investment are recognised as corporate success stories delivering clear and constant outperformance. European Global Leaders are designed to be a core investment for investors seeking to invest in high-quality companies with strong fundamentals and good long-term prospects.
- 15.7 The allocation of investments within the Compartment will be done with respect to the company's capitalisation and the aim to maintain a well-diversified portfolio.
- 15.8 To achieve this, the Compartment will invest at least 75% of its net assets in equities or equity-related securities (ADR, GDR, subscription rights) of companies which are domiciled, headquartered or exercise the predominant part of their economic activity in Europe (including United Kingdom, Switzerland and the Scandinavian countries).
- 15.9 Except the geographical focus, the choice of investments will neither be limited by an economic sector nor in terms of currencies in which investments will be denominated. However, depending on financial market conditions, a particular focus can be placed in a single country (or some countries) and/or in a single currency and/or in a single economic sector.
- 15.10 Up to 25% of its net assets, the Compartment may invest in any other type of eligible assets, such as UCIs (UCITS and/or other UCIs), cash and cash equivalent.

15.11 However:

- The Compartment's investments in units or shares of UCIs (UCITS and/or UCIs other than UCITS referred in Section 22.3(e) of the main body of the Prospectus), shall not exceed 10% of the net assets of the Compartment.
- If the Investment Manager considers this to be in the best interest of the Shareholders, the Compartment may also hold, on a temporary basis and for defensive purposes, up to 100% of its net assets, in liquidities as among others cash deposits, money market UCIs (within the 10% limit above-mentioned) and Money Market Instruments.

15.12 For hedging and for investment purposes, within the limits set out in Section 22 “Investment restrictions” in the main body of the Prospectus, the Compartment may use all types of financial derivative instruments traded on a Regulated Market and/or OTC provided they are contracted with leading financial institutions specialised in this type of transactions and subject to regulatory supervision. However, the Investment Manager intends to use principally, options, futures and forward exchange contracts.

Risk considerations specific to the Compartment

15.13 The Compartment is subject to specific risks linked to investments in equity securities denominated in various currencies as well as to market volatility linked to equity.

15.14 The attention of prospective investors is drawn to the fact that the acquisition of financial derivative instruments with the aim of increasing results may entail certain risks, which may in turn have a negative impact on the overall performance of the Compartment. Please refer to the Section 15 headed “Risk considerations” above for further details in this connection.

Global risk exposure

15.15 The global risk exposure of the Compartment is monitored by the commitment approach. This approach measures the exposure related to positions on derivative techniques and instruments which may not exceed the value of the Compartment’s net assets. The Compartment will ensure that its total commitment arising from financial derivative instruments, for purposes other than hedging, does not exceed 100% of its net assets.

Performance

15.16 The performance of the Compartment will be disclosed in the KIIDs of the Compartment. In this connection, investors should note that past performance is not necessarily a guide to future performance. Investors may not get back the full amount invested, as prices of Shares and the income from them may fall as well as rise.

Income distribution policy

15.17 This Compartment pursues a policy of achieving capital growth and reinvests income earned; as a result, no dividend shall be paid out. However, the Directors reserve their right to revise this policy at their discretion.

15.19 The Reference Currency is the EUR.

15.20 The Class R (H) Shares and the Class I (H) Shares aim to systematically hedge to a large extent the exchange risk EUR/USD.

Management of the Compartment

15.21 In relation to investment opportunities for the Compartment, the Management Company has appointed Spirit Asset Management S.A., whose registered office is at 31-33, avenue Pasteur, L-2311 Luxembourg, Grand Duchy of Luxembourg, as Investment Manager, under the terms of an Investment Management Agreement dated 28 April 2016.

15.22 The Investment Manager is an independent wealth manager, incorporated in Luxembourg since December 2014.

15.23 The Investment Manager is regulated by the CSSF, and offers a comprehensive range of investment management services, together with its banking partners in Luxembourg and abroad. The Investment Manager is audited by KPMG Luxembourg, *Société coopérative* as external auditor.

Frequency of calculation of NAV

15.24 The Net Asset Value of the Compartment shall be calculated daily on each Business Day (the "Calculation Day"), on the basis of the pricing of the preceding Business Day (the "Valuation

Day"). If such Valuation Day is not a Business Day, the Net Asset Value of the Compartment will be calculated the immediately following Business Day.

Cut-off times

- 15.25 For any subscription, redemption or conversion request received by the Fund, prior to 4 p.m. Luxembourg time, on the Valuation Day, the Net Asset Value calculated on the said Valuation Day will be applicable.
- 15.26 For any subscription, redemption and conversion request arriving at the Fund after the deadline set at 4 p.m. Luxembourg time on the Valuation Day, the Net Asset Value applicable will be the Net Asset Value as calculated on the next following Valuation Day.

Payment of the subscription price or redemption price

- 15.27 The amount for the subscription shall be paid or transferred as further set out in the main body of the Prospectus within two Business Days after the relevant Valuation Day.
- 15.28 The price for the shares of the Compartment presented for redemption shall be paid by transfer in the reference currency of the Compartment concerned within three Business Days after the relevant Valuation Day.

Calculation Day	One Business Day following the Pricing Day.
Settlement Day	Subscription: within 2 Business Days after the relevant Valuation Day Redemption: within 3 Business Days after the relevant Valuation Day Conversion: within 3 Business Days after the relevant Valuation Day

Fees specific to this Compartment

- 15.29 The Fund will pay to the Investment Manager a management fee as described as follows:

Investment management fee

Class I Shares and Class I(H) Shares	max.: 1.25% p.a.
Class R Shares and Class R(H) Shares	max.: 1.75% p.a.

Other fees

- 15.30 The fees related to distributors and intermediaries will be limited to a maximum of 1% of the subscription amounts.
- 15.31 The fees related to the hedging of Class I(H) Shares and Class R(H) Shares performed by the Depositary will be limited to a maximum of 0.05% p.a. (with a minimum annual amount of EUR5,000).

Performance fee

- 15.32 The Investment Manager will receive a performance fee, accrued on each Valuation Day, paid yearly, based on the Net Asset Value, equivalent to 10% of the performance of the NAV per Share exceeding the High Water Mark (as defined hereafter).
- 15.33 The performance fee is calculated on the basis of the NAV after deduction of all expenses, liabilities, and management fees (but not performance fee), and is adjusted to take account of all subscriptions and redemptions.
- 15.34 The performance fee is equal to the out performance of the NAV per Share multiplied by the number of Shares in circulation during the calculation period. No performance fee will be due if the NAV per Share before performance fee turns out to be below the High Water Mark for the calculation period in question.
- 15.35 The high water mark is defined as the greater of the following two figures:
- (a) the last highest Net Asset Value per Share on which a performance fee has been paid; and
 - (b) the initial NAV per Share,
- hereafter referred to as the “High Water Mark”.
- 15.36 The High Water Mark will be decreased by the dividends paid to Shareholders.
- 15.37 Provision will be made for this performance fee on each Valuation Day. If the NAV per Share decreases during the calculation period, the provisions made in respect of the performance fee will be reduced accordingly. If these provisions fall to zero, no performance fee will be payable.
- 15.38 If Shares are redeemed on a date other than that on which a performance fee is paid while provision has been made for performance fees, the performance fees for which provision has been made and which are attributable to the Shares redeemed will be paid at the end of the period even if provision for performance fees is no longer made at that date. Gains which have not been realised may be taken into account in the calculation and payment of performance fees.
- 15.39 In case of subscription, the performance fee calculation is adjusted to avoid that this subscription impacts the amount of performance fee accruals. To perform this adjustment, the performance of the NAV per Share against the High Water Mark until the subscription date is not taken into account in the performance fee calculation. This adjustment amount is equal to the product of the number of subscribed Shares by the positive difference between the

subscription price and the High Water Mark at the date of the subscription. This cumulated adjustment amount is used in the performance fee calculation until the end of the relevant period and is adjusted in case of subsequent redemptions during the period.

- 15.40 Calculation period shall correspond to each calendar year.
- 15.41 Performance fees are payable within 20 Business Days following the closing of the yearly accounts.
- 15.42 For the first year, the calculation period will run as from the launching date of the Compartment to 31 December 2016.
- 15.43 The formula for the calculation of the performance fee is as follows:

$$F = \begin{cases} 0 & \text{If } (B / E - 1) \leq 0 \\ (B / E - 1) * E * C * A & \text{If } (B / E - 1) > 0 \end{cases}$$

The new high water mark = $\begin{cases} \text{if } F > 0; D \\ \text{If } F = 0; E \end{cases}$

Number of shares outstanding = A

NAV per share before performance = B

Performance fee rate (10%) = C

NAV per share after performance = D

High water mark = E

Performance fees = F

Initial Subscription Period

- 15.44 From 20 June 2016 to 21 June 2016, at the Initial Subscription Price per Share as described in Section 15.18 above.

16. PROTEA FUND – GLOBAL EQUITY FUND

Investors' profile

- 16.1 The compartment Protea Fund – Global Equity Fund (the “Compartment”) has an objective of medium to long term capital growth from a portfolio of World equities investments. It may be suitable for investors who are seeking long term growth potential offered through investment in equities and are more concerned with maximising long term returns than minimising possible short term losses. Hence it requires an investment horizon of at least 5 years.

Objectives and investment policy

- 16.2 The investment selection is a process based on a combination of “Top-Down” approach and “Bottom-Up stock picking” selection.
- 16.3 To implement its philosophy and achieve its investment objective, the Compartment will mainly invest in equities investments such as stocks, ADR, GDR, etc. in accordance with article 2 of the Grand-Ducal Regulation.
- 16.4 There will be no restriction in terms of geographical exposure (including emerging countries), economic sector nor in terms of currencies. However, depending on financial market conditions, a particular focus can be placed in a single country (or some countries) and/or in a single currency and/or in a single economic sector.
- 16.5 The Compartment may also invest up to 49% of its net assets in any other type of eligible assets, such as debt securities, Money Market Instruments, UCIs (within the 10% limit below) or cash.
- 16.6 However, the Compartment may invest directly in the assets listed below, subject to the following limits:
- maximum 10% of its net assets in UCIs (UCITS and/or other UCIs) referred to in Section 22.3(e) of the main body of the Prospectus;
 - debt securities with credit rating of minimum investment grade. Credit ratings referred above are those measured by any leading credit rating agencies or with quality considered as equivalent by the Investment Manager in the absence of any official rating. In case of dual rating, the higher rating shall apply.
- 16.7 On a temporary basis and for defensive purposes, the Compartment may also hold, up to 100% of its net assets in liquid assets, such as cash and cash equivalents, cash deposits, money market UCIs (within the limits set out under Section 16.6 above) and Money Market Instruments, treasury bills and other short-term sovereign securities.
- 16.8 For hedging and for investment purposes, within the limits set out in Section 22 “Investment restrictions” of the main body of the Prospectus, the Compartment may use all types of financial derivative instruments traded on a Regulated Market and/or OTC, provided they are contracted with leading financial institutions specialised in this type of

transactions and subject to regulatory supervision. However, in normal market conditions, the Investment Manager intends to use mainly futures on stock indices, options on equities and forward exchange contracts on currencies.

Risk considerations specific to the Compartment

- 16.9 The Compartment is subject to specific risks linked to investments in equity securities denominated in various currencies, to market volatility linked to equity securities and to market volatility linked to investments in derivative instruments. Please refer to Section 15 headed “Risk considerations” in the main body of the Prospectus for further details in this connection.

Global risk exposure

- 16.10 The Compartment’s global risk exposure is monitored by using the commitment approach. This approach measures the global exposure related to positions on financial derivative instruments which may not exceed the Compartment’s Net Asset Value.

Performance

- 16.11 The performance of the Compartment will be disclosed in the KIIDs of the Compartment. In this connection, investors should note that past performance is not necessarily a guide to future performance. Investors may not get back the full amount invested, as prices of Shares and the income from them may fall as well as rise.

Income distribution policy

- 16.12 This Compartment pursues a policy of achieving capital growth and reinvests income earned, as a result, no dividend will be paid out. However, the Directors reserve their right to revise this policy at their discretion.

17. PROTEA FUND – ORCADIA GLOBAL SUSTAINABLE BALANCED

Investors' profile

- 17.1 The compartment Protea Fund – Orcadia Global Sustainable Balanced (the “Compartment”) is a medium risk vehicle aiming to provide capital growth. It may be suitable for investors who are seeking long term growth potential offered through an exposure to the equities markets and bonds markets. Hence it requires an investment horizon of at least 7 years.
- 17.2 There can be no guarantee that the Compartment’s objective will be achieved.

Objectives and investment policy

- 17.3 The Compartment’s objective is to provide capital growth by offering mainly an exposure to the following asset classes: debt securities of any type (including Money Market Instruments), equities and equity related securities (such as subscription rights, closed-ended REITs, global depositary receipts).
- 17.4 The Compartment will have a focus on countries, companies and organisations which contribute to sustainable development, covering the Environmental, Social and Governance (“ESG”) criteria. Meaning that under normal market conditions, ESG investments will represent at least 50% of the Compartment’s portfolio (assets excluding cash and cash equivalents).
- 17.5 Regarding direct investments in corporate debt securities or equities and equity related securities, the Investment Manager should mainly invest in issuers which are part of the MSCI ESG universe.
- 17.6 As of the date of this Prospectus, MSCI Limited, the administrator of the MSCI ESG index is on the list of administrators held with ESMA in accordance with article 36 of the Benchmark Regulation.
- 17.7 In order to achieve its objective, the Compartment will mainly invest:
- (a) directly in the securities/asset classes mentioned in Section 17.3; and/or
 - (b) in UCIs (UCITS and/or other UCIs referred to in Section 22.3(e) of the main body of the Prospectus), having as main objective to invest or grant an exposure to the above-mentioned securities/asset classes.
- 17.8 The proportion of assets devoted to each asset class varies over time. However, without being a constraint, the Investment Manager intends to have an exposure (via direct and in indirect investments):
- (a) of maximum of 65% of the Compartment’s net assets to the equity asset class; and
 - (b) between 20% and 65% of the Compartment’s net assets to the debt securities asset class.
- 17.9 The choice of investments will neither be limited by geographical area (except emerging markets limited to 20% of the Compartment’s net assets), economic sector, currencies in which investments will be denominated, nor in terms of credit rating of the debt securities. However,

depending on financial market conditions, a particular focus can be placed in a single country (or some countries) and/or in a single currency and/or in a single economic sector.

- 17.10 On an ancillary basis, the Compartment may invest in any other type of eligible assets, such as cash, UCIs with other underlying than those above-mentioned and structured products (as described below).
- 17.11 The Compartment may invest in structured products with or without embedded derivatives in accordance with article 41 of the 2010 Law and article 2 of the Grand-Ducal Regulation, such as, but not limited to, credit-linked notes, certificates or any other Transferable Securities whose returns are correlated with changes in, among others, equities, bonds, an index (including indices on volatility, commodities, precious metals, etc.) selected in accordance with the article 9 of the Grand-Ducal Regulation, currencies, exchange rates, Transferable Securities or a basket of Transferable Securities or a UCI, at all times in compliance with the Grand-Ducal Regulation.
- 17.12 In compliance with article 41 of the 2010 Law and article 2 of the Grand-Ducal Regulation, the Compartment may also invest in structured products without embedded derivatives, correlated with changes in commodities (including precious metals) with cash settlement. Those investments may not be used to elude the investment policy of the Compartment.
- 17.13 The Compartment may also invest up to 10% of its net assets in Contingent Convertible Bonds.
- 17.14 For hedging and for investment purposes, within the limits set out in Section 22 "Investment restrictions" in the main body of the Prospectus, the Compartment may use all types of financial derivative instruments traded on a Regulated Market and/or OTC provided they are contracted with leading financial institutions specialized in this type of transactions and subject to regulatory supervision.
- 17.15 Nevertheless, in normal market conditions, the Investment Manager intends to use listed options and futures offering an exposure to equities or debt securities and currency derivatives (such as forward foreign exchange contracts).
- 17.16 It is understood that:
 - (a) As the investment policy can be achieved via UCIs, the Compartment can at any time invest more than 50% of its net assets in UCIs (UCITS and or other UCIs referred to in Section 22.3(e) of the main body of the Prospectus). It may result in duplication of certain costs. In addition to the costs borne by the Compartment as part of its daily management, management fees will be indirectly levied via the target UCIs that it holds. The total investment management fees may not exceed 5%; the performance and advisory fees are covered by the term "investment management fees".
 - (b) The Compartment can be exposed to investment grade and non-investment grade debt securities, without any particular restriction.
 - (c) If the Investment Manager considers this to be in the best interest of the Shareholders, on a temporary basis and for defensive purposes, the Compartment may also hold up to 100% of its net assets in liquidities as among others cash deposits, money market UCIs (UCITS and/or other UCIs referred to in Section 22.3(e) of the main body of the Prospectus) and Money Market Instruments.

Risk considerations specific to the Compartment

- 17.17 The assets of the Compartment are subject to market fluctuations and the risks inherent to any investment in bonds and equities. Please refer to the Section 15 headed "Risk considerations" above for further details in this connection.

Global risk exposure

- 17.18 The global risk exposure of the Compartment is monitored by the commitment approach. The Compartment may ensure that its total commitment arising from financial derivative instruments, for purposes other than hedging, does not exceed 100% of the Compartment's net assets.

Performance

- 17.19 The performance of the Compartment will be disclosed in the KIIDs of the Compartment. In this connection, investors should note that past performance is not necessarily a guide to future performance. Investors may not get back the full amount invested, as prices of Shares and the income from them may fall as well as rise.

Income distribution policy

- 17.20 No dividend shall be paid out to Shareholders of Class A Acc, Class B Acc, Class C Acc, Class D Acc and Class O Acc. However, the Directors reserve their right to revise this policy at their discretion.
- 17.21 Dividends will be paid to Shareholders of Class A Dis, Class B Dis, Class C Dis, Class D Dis and Class O Dis after the annual General Meeting, at the latest within 6 months after the close of the Business Year. However, the Directors reserve their right to revise this policy at their discretion.

18. PROTEA FUND – DIVERSIFIED

Investors' profile

- 18.1 The compartment Protea Fund - Diversified (the “Compartment”) is a low risk vehicle aiming to provide a stable capital growth. It may be suitable for investors who are seeking defensive approach offered through an exposure to UCITS eligible funds. Hence it requires an investment horizon of at least 5 years.

Objectives and investment policy

- 18.2 The Compartment is a fund of funds, employing a multi-assets approach to offer an indirect exposure to various strategies as diversified as multi-assets allocation, flexible allocation, absolute return, long/short, global macro, CTA, risk premia through UCITS eligible funds.
- 18.3 In order to achieve its objective, the Compartment will mainly invest in eligible UCIs (UCITS and/or other UCIs referred to in Section 22.3(e) of the main body of the Prospectus) having as main objective to invest or grant an exposure to the above-mentioned strategies. Due to the fact that the Compartment invests a substantial portion in other UCIs, Shareholders are exposed to a duplication of fees and charges. By derogation to Section 22.26 of the main body of the Prospectus, the total management fee (excluding any performance fee, if any) charged to this Compartment in accordance with Section 18.10 below and each of the target UCIs may exceed 2.5% of the relevant net assets under management. However, Compartment will not invest in target UCIs which charge a management fee in excess of 2.5% of their net assets.
- 18.4 The choice of investments will neither be limited by geographical area (including emerging markets), economic sector, fund strategy nor in terms of currencies in which investments will be denominated. However, depending on financial market conditions, a particular focus can be placed in a single country (or some countries) and/or in a single currency in the best interest of Shareholders.
- 18.5 On an ancillary basis (up to 49% of its net assets), the Compartment may invest in any other Eligible Investments, such as Transferable Securities, structured products (as detailed below), Money Market Instruments, cash and cash equivalents. The Compartment is not intended to invest in defaulted nor distressed securities.
- 18.6 The Compartment may invest up to 20% of its net assets in structured products provided that the underlying assets respects the investment policy and investment restrictions of the Compartment and complies with article 41 of the 2010 Law and article 2 of the Grand-Ducal Regulation. Structured products include but are not limited to, notes, certificates, convertible and reverse convertible bonds and any other Transferable Securities whose returns are correlated with changes in, among others, equities, debts, basket of Transferable Securities, currencies, financial indices selected in accordance with article 9 of the Grand-Ducal Regulation. Within this limit, in case of opportunities and in compliance with the Grand-Ducal Regulation, the Compartment may invest up to 10% of its net assets in structured products (without embedded derivatives and which comply with article 41 of the 2010 Law) which give exposure to precious metals, such as exchange-traded commodities (ETCs) and exchange-traded funds (ETFs) (e.g. ETFs Gold Bullion securities with cash settlement). For the avoidance of doubt, the Investment Manager does not intend to invest in contingent convertible instruments.

- 18.7 For hedging and for investment purposes, the Compartment may use financial derivative instruments within the limits and descriptions set out in the Prospectus. However, the Investment Manager intends to use principally options and futures as well as forward exchange contracts on currencies.
- 18.8 If the Investment Manager considers this to be in the best interest of the Shareholders, on a temporary basis and for defensive purposes, the Compartment may also, hold, up to 100% of its net assets, liquidities as among others cash deposits, money market UCIs (UCITS and/or other UCIs referred to in Section 22.3(e) of the main body of the Prospectus) and Money Market Instruments.

Risk considerations specific to the Compartment

- 18.9 The assets of the Compartment are subject to market fluctuations and the risks inherent to investments in UCIs as well as to market volatility linked to the investment in derivative instruments, Money Market Instruments and structured products. Furthermore, a risk of illiquidity of the Compartment may not be excluded. Finally, to the extent the Compartment may invest in securities of emerging markets, it may further be subject to risks related to such type of investments.
- 18.10 The attention of prospective investors is drawn to the fact that substantial Investments in target UCIs may embed a duplication of fees and expenses which will be charged to the Compartment. The accumulation of these costs may have a negative impact on the overall performance of the Compartment.
- 18.11 For full details of the risks applicable to investing in this Compartment, Shareholders are advised to refer to Section 15 headed "Risk considerations" of the main body of the Prospectus.

Global risk exposure

- 18.12 The global risk exposure of the Compartment is monitored by the commitment approach. This approach measures the global exposure related to positions on financial derivative instruments which may not exceed the Compartment's Net Asset Value.
- 18.13 The Compartment will ensure that its total commitment arising from financial derivative instruments, for purposes other than hedging, does not exceed 100% of its net assets.

Performance

- 18.14 The performance of the Compartment will be disclosed in the KIIDs of the Compartment. In this connection, investors should note that past performance is not necessarily a guide to future performance. Investors may not get back the full amount invested, as prices of Shares and the income from them may fall as well as rise.

Income distribution policy

- 18.15 This Compartment pursues a policy of achieving capital growth and reinvests income earned; as a result, no dividend shall be paid out. However, the Directors reserve their right to revise this policy at their discretion.

19. PROTEA FUND – THE SEVEN PILLARS INCOME OPPORTUNITY FUND

Investors' profile

- 19.1 The compartment Protea Fund – The Seven Pillars Income Opportunity Fund (the “Compartment”) is a medium risk vehicle aiming to provide steady capital appreciation by predominantly reinvesting income from a balanced bond and dividend paying equities portfolio. It may be suitable for investors who are seeking long term capital appreciation offered through an exposure to the equities markets and bonds markets with lower volatility than normally present in either market. Hence it requires an investment horizon of at least 3 years.

Objectives and investment policy

- 19.2 The Compartment aims to achieve attractive risk-adjusted investment returns over time and deliver high quality long term capital growth and income across market cycles. The Investment Manager believes the balanced fund approach, with the ability to vary the asset allocation components between fixed income, equities and cash, will provide the opportunity to source income from the asset class offering the optimal risk/reward characteristics.
- 19.3 The Compartment's investment approach seeks fixed income-like returns with considerably lower risk under normal circumstances. A significant portion of the Compartment's assets will be invested in the securities of companies which meet all of the following criteria:
- (a) Companies with a long-term track record of generating above cost-of-capital returns across business cycles with limited revenue and profit volatility.
 - (b) Companies with conservative balance sheets, i.e. limited financial leverage.
 - (c) Companies whose managements have proven long-term credentials in terms strategic and operational decision-making as well as capital allocation.
 - (d) Companies whose equity trades at an attractive discount to intrinsic value and which have a long-term dividend-paying track record with current dividend yields at an attractive spread versus prevailing bond yields.
- 19.4 There can be no guarantee that the Compartment's objective will be achieved.
- 19.5 The Compartment will offer an exposure to the following asset classes/securities:
- (a) equities and equity related securities (such as closed-ended REITs (up to 15% of the Compartment's net assets), global depositary receipts, convertible bonds, reverse convertible bonds); and/or
 - (b) debt securities of any type (government and corporate), including Money Market Instruments; and/or
 - (c) cash.
- 19.6 In order to achieve its objective, the Compartment will mainly invest:

- (a) directly in the securities/asset classes mentioned in the previous paragraph; and/or
- (b) in financial derivative instruments having as underlying or offering an exposure to the above-mentioned asset classes (such as futures, options, TRS and credit default swaps, within the limits set out in Section 22 of the main body of the Prospectus).

19.7 The proportion of assets devoted to each asset class can vary over time.

19.8 The choice of investments will neither be limited by geographical area (including emerging markets), economic sector, currencies in which investments will be denominated, nor in terms of credit rating of the debt securities. However, depending on financial market conditions, a particular focus can be placed in a single country (or some countries) and/or in a single currency and/or in a single economic sector and/or in a single asset class.

Furthermore:

- (a) The Compartment's investments in units or shares of UCIs (UCITS and/or UCIs other than UCITS, referred to in Section 22.3(e) of the main body of the Prospectus), shall not exceed 10% of the net assets of the Compartment.
- (b) The Compartment may also invest up to 20% of its net assets in Contingent Convertible Bonds.
- (c) The Compartment may also invest up to 10% of its net assets in inflation linked securities.
- (d) The Compartment may also invest up to 10% of its net assets in Distressed Securities.
- (e) The Compartment can be exposed to investment grade and non-investment grade debt securities. However the lowest rating foreseen for investments is CCC- or unrated as measured by any leading credit rating agencies or with quality considered as equivalent by the Investment Manager.
- (f) The Compartment may also invest up to 20% of its net assets in structured products (other than convertible debt securities), such as, but not limited to, participatory notes (P-notes), notes, certificates or any other Transferable Securities whose returns are correlated with changes in, among others, equities, debt securities, basket of Transferable Securities, financial indices, currencies, at all time in compliance with the Grand-Ducal Regulation. The Investment Manager does not intend to invest in structured products with embedded derivatives (except convertible debt securities).

19.9 If the Investment Manager considers this to be in the best interest of the Shareholders, on a temporary basis and for defensive purposes, the Compartment may also hold, up to 100% of its net assets in liquid assets, such as cash deposits, money market UCIs (within the 10% limit above) and Money Market Instruments.

19.10 For hedging and for investment purposes, within the limits set out in Section 22 "Investment restrictions" in the main body of the Prospectus, the Compartment may use all types of financial derivative instruments traded on a Regulated Market and/or OTC provided they are contracted with leading financial institutions specialised in this type of transactions and subject to regulatory supervision.

- 19.11 Nevertheless, in normal market conditions, the Investment Manager intends to use options and futures offering an exposure to equities or debt securities, TRS and credit default swaps, volatility financial derivative instruments, currency derivatives (such as forward foreign exchange contracts).
- 19.12 TRS and credit default swaps will be used to a limited extend including to achieve the Compartment's investment policy.
- 19.13 The Compartment may use EPM Techniques and TRS within the limits described below as percentages of the Compartment's net assets:

	Maximum percentage	Expected percentage
TRS	10%	0%
Repurchase Transactions	10%	0%
Reverse Repurchase Transactions	10%	0%
Securities Lending	10%	0%

SFTs, TRS and other financial derivative instruments that display the same characteristics may have as underlying assets any financial instrument in which the Compartment may invest in accordance with its investment strategy and policy.

Risk considerations specific to the Compartment

- 19.14 The assets of the Compartment are subject to market fluctuations and the risks inherent to any investment in bonds and equities.
- 19.15 In addition, the Compartment is subject to specific risks linked to the following investments:
- in Distressed Securities;
 - in Contigent Convertible Bonds; and
 - in high-yield securities.
- 19.16 Please refer to the Section 15 headed "Risk considerations" of the main body of the Prospectus for further details in this connection. In particular, please refer to the Sections 15.1, 15.2, 15.26 to 15.32 and 15.33.

Global risk exposure

- 19.17 The global risk exposure of the Compartment is monitored by the commitment approach. The Compartment may ensure that its total commitment arising from financial derivative instruments, for purposes other than hedging, does not exceed 100% of the Compartment's net assets.

Performance

- 19.18 The performance of the Compartment will be disclosed in the KIIDs of the Compartment. In this connection, investors should note that past performance is not necessarily a guide to future

performance. Investors may not get back the full amount invested, as prices of Shares and the income from them may fall as well as rise.

Income distribution policy

19.19 This Compartment pursues an income accumulation policy.

Fees specific to this Compartment

Investment management fee

- 19.29 The Fund will pay to the Investment Manager a management fee up to 1.25% p.a. in respect of class A Shares.
- 19.30 The investment management fee will be calculated on a monthly basis, in arrear, on the average net assets of the relevant Category of Shares.

Performance fee

- 19.31 The Investment Manager will receive a performance fee, accrued on each Valuation Day, paid yearly, based on the Net Asset Value ("NAV"), equivalent to 10 % of the performance of the

NAV per Share (measured against the High Water Mark (as defined below)) over the performance of the USD 3 month Libor during the relevant period (the “Hurdle”).

- 19.32 The performance fee is calculated on the basis of the NAV after deduction of all expenses, liabilities, and management fees (but not performance fee), and is adjusted to take account of all subscriptions and redemptions.
- 19.33 The performance fee is equal to the outperformance of the NAV per Share multiplied by the number of Shares in circulation during the calculation period. No performance fee will be due if the NAV per Share before performance fee turns out to be below the High Water Mark plus the Hurdle for the calculation period.
- 19.34 The High Water Mark is defined as the greater of the following two figures:
 - (a) the latest NAV per Share on which a performance fee has been paid; and
 - (b) the initial NAV per Share;hereafter referred to as the “High Water Mark”.
- 19.35 The High Water Mark will be decreased by the dividends paid to Shareholders.
- 19.36 Provision will be made for this performance fee on each Valuation Day. If the NAV per Share decreases during the calculation period, the provisions made in respect of the performance fee will be reduced accordingly. If these provisions fall to zero, no performance fee will be payable.
- 19.37 If Shares are redeemed on a date other than that on which a performance fee is paid while provision has been made for performance fees, the performance fees for which provision has been made and which are attributable to the Shares redeemed will be paid at the end of the period even if provision for performance fees is no longer made at that date. Gains which have not been realised may be taken into account in the calculation and payment of performance fees.
- 19.38 In case of subscription, the performance fee calculation is adjusted to avoid that this subscription impacts the amount of performance fee accruals. To perform this adjustment, the outperformance of the NAV per Share against the hurdle yield until the subscription date is not taken into account in the performance fee calculation. This adjustment amount is equal to the product of the number of subscribed Shares by the positive difference between the subscription price and the High Water Mark adjusted by the hurdle yield at the date of the subscription. This cumulated adjustment amount is used in the performance fee calculation until the end of the relevant period and is adjusted in case of subsequent redemptions during the period.
- 19.39 Calculation period shall correspond to each Business Year. For the first year, the calculation period will run as from the launching date of the Compartment to 31 December 2016.
- 19.40 Performance fees are payable within 20 Business Days following the closing of the yearly accounts.
- 19.41 The formula for the calculation of the performance fee is as follow:

PROTEA FUND

19.42

F	=	0
		If $[(B / E - 1) - X] \leq 0$
F	=	$[(B / E - 1) - X] * E * C * A$
		If $[(B / E - 1) - X] > 0$
The new High Water Mark	=	Max(E ; D) at the last end of period
Number of Shares outstanding	=	A
NAV per Share before performance	=	B
Performance fee rate (10%)	=	C
NAV per Share after performance	=	D
High Water Mark	=	E
Performance fees	=	F
Hurdle yield based on USD 3 month Libor compounded at each Valuation Day during the relevant period	=	X

Initial Subscription Period

- 19.43 From 8 December 2016 to 15 December 2016, at the Initial Subscription Price per Share as described under Section 19.20 above.

20. PROTEA FUND – WEALTHEON WORLD EQUITY

Investors' profile

- 20.1 The compartment Protea Fund – Wealtheon World Equity (the “Compartment”) is intended for investors with a medium to high risk tolerance and seeking a potentially higher yield by an exposure to world equity markets. The investment horizon should be considered long term.

Objectives and investment policy

- 20.2 The Compartment aims to achieve long term capital growth by investing in the global equity markets, while targeting especially companies that the Investment Manager considers to have above average potential for growth and / or present attractive valuations. Investment in equity as per the foregoing may be made mainly directly and indirectly via Eligible UCIs (as defined below). Portfolio construction is based on a top down approach based on geographical, sectoral allocation combined with stock picking.
- 20.3 In order to achieve its objectives, the Compartment will mainly invest in equity and equity related securities worldwide (such as ordinary or preferred shares, certificates, ADR, GDR, notes, etc.):
- directly in the securities/asset classes mentioned above; and/or
 - UCIs that comply with article 41 (1) (e) of the 2010 Law (“Eligible UCIs”) having as main objective to invest in the above-mentioned asset classes.
- 20.4 The choice of investments will neither be limited by geographical area (including emerging markets), an economic sector nor in terms of currencies in which investments will be denominated. However, depending on financial market conditions, a particular focus can be placed in a single country and/or in a single economic sector and/or in a single currency.
- 20.5 Up to 49% of its net assets, the Compartment may invest in any other type of eligible assets, such as corporate or sovereign debt securities, structured products, REITs, Money Market Instruments, cash and cash equivalents or Eligible UCIs investing in above mentioned asset classes (each, as detailed and subject to the restrictions below).
- 20.6 The Compartment's investments in Russia, other than those which are listed on the Moscow Exchange (which is recognised as Regulated Market), combined with investments that are made in other assets as referred in Section 22.3 (i) of the main body of the Prospectus shall not exceed 10% of the net assets of the Compartment.
- 20.7 However, the Compartment may invest directly in the assets listed below, subject to the following limits:
- Convertible and Contingent Convertible Bonds up to 10% of the net assets;
 - Investment in closed-ended collective real estate investments, notably closed-ended REITs, closed-ended real estate investment funds and closed-ended real estate investment companies will not exceed 10% of the net assets.

- Structured products up to 20% of the net assets provided that the underlying respects the investment policy and investment restrictions and complies with article 41 of the 2010 Law and article 2 of the Grand-Ducal Regulation, such as but not limited to notes, certificates, any other transferable securities whose returns are correlated with changes in, among others, equities, debts, basket of transferable securities, financial indices selected in accordance with article 9 of the Grand-Ducal Regulation, currency at all times in compliance with the Grand-Ducal Regulation. Within this limit, in case of opportunities and in compliance with the Grand-Ducal Regulation, the Compartment may invest in structured products without embedded derivatives which comply with article 41 of the 2010 Law, correlated with changes in commodities and precious metals such as ETFs Gold Bullion securities with cash settlement. Those investments may not be used to elude the investment policy of the Compartment;
- In normal market conditions, investments in debt securities and interest bearing instruments (including money market instruments) will be limited to 25% of the net assets with a minimum credit rating of investment grade (as measured by any leading credit rating agencies or with quality considered as equivalent by the Investment Manager in the absence of any official rating). In case of dual rating, the higher rating shall apply.
- Within the limits set out in the main body of the Prospectus, the investment policy can be achieved indirectly via investments in Eligible UCIs. Total investment in Eligible UCIs will represent less than 50% of the Compartment's net assets. Due to the fact that the Compartment may invest a substantial portion in other UCIs, the Shareholder is exposed to a possible duplication of fees and charges. However, the maximum percentage of the fixed management fee at the level of the target UCIs will be 2%.

20.8 If the Investment Manager considers this to be in the best interest of the Shareholders, on a temporary basis and for defensive purposes, the Compartment may also hold, up to 100% of its net assets, liquidities, such as cash deposits, money market UCIs and Money Market Instruments.

20.9 For hedging and for investment purposes, the Compartment may use all types of financial derivative instruments traded on a Regulated Market and/or OTC, provided they are contracted with leading financial institutions specialised in this type of transactions. In particular, the Compartment may take exposure through any financial derivative instruments such as but not limited to warrants, futures, options, swaps and forwards on any underlying in line with the 2010 Law as well as the investment policy of the Compartment, including but not limited to, currencies (including non-delivery forwards), interest rates, Transferable Securities, basket of Transferable Securities, indices (including volatility indices) and UCIs.

20.10 However, the Investment Manager intends to use principally options and futures and forward exchange contracts on currencies.

20.11 The Compartment does not intend to use contracts for difference.

Risk considerations specific to the Compartment

- 20.12 The Compartment is subject to the specific risks linked to investments in equity securities and UCIs, to interest rates risks linked to investments in debt securities as well as risks linked to the use of financial derivative instruments and Contingent Convertible Bonds.
- 20.13 For full details of the risks applicable to investing in this Compartment, Shareholders are advised to refer to Section 15 “Risk considerations” of the main body of the Prospectus.
- 20.14 Investors should be aware that, due to the political and economic situations in emerging countries, investment in this Compartment presents greater risk and is intended only for investors who are able to bear and assume this increased risk.

Global risk exposure

- 20.15 The Compartment’s global risk exposure is monitored by using the commitment approach. This approach measures the global exposure related to positions on financial derivative instruments which may not exceed the Compartment’s Net Asset Value.
- 20.16 The Compartment will ensure that its total commitment arising from financial derivative instruments, for purposes other than hedging, does not exceed 100% of its net assets.

Performance

- 20.17 The performance of the Compartment will be disclosed in the KIIDs of the Compartment. In this connection, investors should note that past performance is not necessarily a guide to future performance. Investors may not get back the full amount invested, as prices of Shares and the income from them may fall as well as rise.

Income distribution policy

- 20.18 No dividend shall be paid out to Shareholders of this Compartment. However, the Directors reserve their right to revise this policy at their discretion.

21. PROTEA FUND – PULSAR STABLE RETURN FUND

Investors' profile

- 21.1 The compartment Protea Fund – PULSAR Stable Return Fund (the “Compartment”) is a medium risk vehicle aiming to provide capital growth. It may be suitable for investors who are seeking long term growth potential offered through an exposure to the equities markets and bonds markets. Hence it requires an investment horizon of at least 5 years.

Objectives and investment policy

- 21.2 The Compartment is a fund of funds, employing a multi-assets approach to offer an indirect exposure to a balanced portfolio of debt securities (sovereign debt and corporate debt) as well as Money Market Instruments, equities and equity related securities.
- 21.3 The objective of the Compartment is to achieve a balanced portfolio through investments in funds. The Compartment may be exposed indirectly and to a lesser extent directly to rated and unrated debt securities. The Compartment may invest up to 49% of its net assets in unrated or non-investment grade debt securities. Credit ratings referred above are those measured by any leading credit rating agencies or with quality considered as equivalent by the Investment Manager in the absence of any official rating. In case of dual official rating by any two any leading credit rating agencies, the higher rating shall apply. The lowest rating foreseen for investments in debt securities with a credit rating is CCC-. The Compartment will not invest in defaulted nor distressed securities.
- 21.4 In order to achieve its objective, the Compartment will mainly invest in eligible UCIs (UCITS and/or other UCIs referred to in Section 21.3(e) of the main body of the Prospectus) having as main objective to invest or grant an exposure to the above-mentioned asset classes. Due to the fact that the Compartment invests a substantial portion in other UCIs, the Shareholders are exposed to a possible duplication of fees and charges. However, by way of derogation from Section 22.26 of the main body of the Prospectus, the maximum percentage of the fixed management fee at the level of the target UCIs will be 2%.
- 21.5 The choice of investments will neither be limited by geographical area (including emerging markets), economic sector, credit ratings nor in terms of currencies in which investments will be denominated. However, depending on financial market conditions, a particular focus can be placed in a single country (or some countries) and/or in a single currency in the best interest of Shareholders.
- 21.6 Up to 49% of its net assets, the Compartment may invest in any other type of UCIs (having as underlying assets other than those mentioned in Section 21.3 above), other Eligible Investments such as direct investments in transferable securities (equities, equity related securities, debt, money market instruments, cash and cash equivalents).
- 21.7 For hedging and for investment purposes, the Compartment may use financial derivative instruments within the limits and descriptions set out in the Prospectus. However, the Investment Manager intends to use principally options and futures and forward exchange contracts on currencies.

- 21.8 If the Investment Manager considers this to be in the best interest of the Shareholders, on a temporary basis and for defensive purposes, the Compartment may also, hold, up to 100% of its net assets, liquidities as among others cash deposits, money market UCIs (UCITS and/or other UCIs referred to in Section 21.3(e) of the main body of the Prospectus) and Money Market Instruments.

Risk considerations specific to the Compartment

- 21.9 The Compartment is subject to the specific risks linked to (i) investments in equity securities and UCIs, (ii) to interest rates risks linked to investments in debt securities, (iii) risks linked to the use of financial derivative instruments and (iv) risks linked to investments in high yield securities. To the extent the Compartment may invest in securities of emerging markets, it may further be subject to risks related to such type of investments.
- 21.10 In addition, the attention of prospective investors is drawn to the fact that substantial Investments in target UCIs may embed a duplication of fees and expenses which will be charged to the Compartment. The accumulation of these costs may have a negative impact on the overall performance of the Compartment.
- 21.11 For full details of the risks applicable to investing in this Compartment, Shareholders are advised to refer to Section 15 “Risk considerations” of the main body of the Prospectus.

Global risk exposure

- 21.12 The Compartment’s global risk exposure is monitored by using the commitment approach. This approach measures the global exposure related to positions on financial derivative instruments which may not exceed the Compartment’s Net Asset Value.
- 21.13 The Compartment will ensure that its total commitment arising from financial derivative instruments, for purposes other than hedging, does not exceed 100% of its net assets.

Performance

- 21.14 The performance of the Compartment will be disclosed in the KIIDs of the Compartment. In this connection, investors should note that past performance is not necessarily a guide to future performance. Investors may not get back the full amount invested, as prices of Shares and the income from them may fall as well as rise.

Income distribution policy

- 21.15 No dividend shall be paid out to Shareholders of this Compartment. However, the Directors reserve their right to revise this policy at their discretion.

22. PROTEA FUND – FIXED INCOME KEY SOLUTIONS FUND

Investors' profile

- 22.1 The compartment Protea Fund - Fixed Income Key Solutions Fund (the “Compartment”) is a medium risk vehicle aiming to provide preservation of capital. The Compartment is suitable for investors for whom preservation of capital is their primary objective over the long term. The investment horizon should be at least 3 years.

Objectives and investment policy

- 22.2 The Compartment aims at offering exposure to the debt securities market to investors with a medium risk profile and for whom the preservation of capital over time is the main objective. There can be no guarantee that the Compartment's objective will be achieved.
- 22.3 The Compartment will offer an exposure to debt securities (such as fixed and floating rate instruments, convertible bonds), including Money Market Instruments:
- (a) issued by corporate or sovereign issuers, and
 - (b) with an “investment grade” or “non-investment grade” credit rating (or equivalent) assigned to the issue or the issuer, as defined by at least one leading credit rating agency.
- 22.4 In order to achieve its objective, the Compartment will mainly invest:
- (a) directly in the securities mentioned under Section 22.3 above; and/or
 - (b) in undertakings for collective investment (UCIs: UCITS and/or other UCIs referred to in Section 22.3(e) of the main body of the Prospectus) having as main objective to invest in the securities mentioned under Section 22.3 above.
- 22.5 The choice of investments will neither be limited by geographical area (including emerging markets), economic sector, currencies in which investments will be denominated, nor in terms of credit rating of the debt securities (including non-rated debt securities). However, depending on financial market conditions, a particular focus can be placed in a single country (or some countries) and/or in a single currency and/or in a single economic sector.
- 22.6 On an ancillary basis, the Compartment may hold cash and cash equivalents.
- 22.7 Furthermore, the Compartment may invest up to 20% of its net assets in Contingent Convertible Bonds.
- 22.8 It is understood that:
- (a) the Compartment can be exposed to non-investment grade debt securities (up to 40% of its net assets), including Distressed Securities (up to 10% of its net assets);
 - (b) investment grade debt securities may be subject to the risk of being downgraded to non-investment grade debt securities. In the event of downgrading in the credit ratings of a security or an issuer, the Compartment may, at the discretion of the Investment

Manager, and in the best interests of the Compartment's shareholders, continue to hold those debt securities which have been downgraded provided that in any case the Compartment's maximum exposure to Distressed Securities will be limited to a maximum of 10% of its net assets; and

- (c) the maximum percentage of the fixed management fee at the level of the target UCIs will be 1.5%.

- 22.9 If the Investment Manager considers this to be in the best interest of the Shareholders, on a temporary basis and for defensive purposes, the Compartment may also hold, up to 100% of its net assets in liquid assets, such as cash deposits, money market UCIs and Money Market Instruments.
- 22.10 For hedging and for investment purposes, within the limits set out in Section 22 "Investment restrictions" in the main body of the Prospectus, the Compartment may use all types of financial derivative instruments traded on a Regulated Market and/or OTC provided they are contracted with leading financial institutions specialized in this type of transactions and subject to regulatory supervision.
- 22.11 Nevertheless, in normal market conditions, the Investment Manager intends to use futures offering an exposure to debt securities, credit default swaps and currency derivatives (such as forward foreign exchange contracts).

Risk considerations specific to the Compartment

- 22.12 The assets of the Compartment are subject to market fluctuations and the risks inherent to investments in UCIs as well as investment in bonds and to market volatility linked to the investment in derivative instruments and Money Market Instruments. Furthermore, a risk of illiquidity of the Compartment may not be excluded. In addition, to the extent the Compartment may invest in securities of emerging markets, it may further be subject to risks related to such type of investments.
- 22.13 The attention of prospective investors is also drawn to the fact that substantial investments in target UCIs may embed a duplication of fees and expenses which will be charged to the Compartment. The accumulation of these costs may have a negative impact on the overall performance of the Compartment.
- 22.14 Finally, the Compartment is subject to specific risks linked to the following investments in:
 - (a) Distressed Securities; and
 - (b) Contingent Convertible Bonds.

- 22.15 For full details of the risks applicable to investing in this Compartment, Shareholders are advised to refer to Section 15 "Risk considerations" of the main body of the Prospectus.

Global risk exposure

- 22.16 The global risk exposure of the Compartment is monitored by the commitment approach. This approach measures the global exposure related to positions on financial derivatives instruments which may not exceed the Compartment's Net Asset Value.

- 22.17 The Compartment will ensure that its total commitment arising from financial derivative instruments, for purposes other than hedging, does not exceed 100% of its net assets.

Performance

- 22.18 The performance of the Compartment will be disclosed in the KIIDs of the Compartment. In this connection, investors should note that past performance is not necessarily a guide to future performance. Investors may not get back the full amount invested, as prices of Shares and the income from them may fall as well as rise.

Income distribution policy

- 22.19 This Compartment pursues a policy of achieving capital growth and reinvests income earned; as a result, no dividend shall be paid out. However, the Directors reserve their right to revise this policy at their discretion.

23. PROTEA FUND – MRB CONVERTIBLE BONDS FUND

Investors' profile

- 23.1 The compartment Protea Fund – MRB Convertible Bonds Fund (the “Compartment”) is intended for dynamic investors who are driven by capital gains within of horizon of five years, and who have a high tolerance to risk and are able to absorb temporary, even if substantial, losses. The Compartment is not oriented towards investors who are looking for a short term speculative investment, or might need their capital back in the short term.

Objectives and investment policy

- 23.2 The investment objective of the Compartment is to achieve long-term asset-value growth, mainly through investments in convertible instruments. Such investment policy is implemented by giving special attention to the risk – reward-balance offered by an investment, its capital protection and its liquidity.
- 23.3 The Compartment invests at least two third of its net assets in a global debt portfolio including any type of convertible bonds and other similar debt securities whose characteristics expose them to fluctuations in underlying equities (such as fixed and/or floating or index rate bonds, bonds convertible into equities, bonds redeemable into equities, exchangeable bonds, synthetic convertible bonds (segregated purchase of bonds and options or convertible bonds and options), convertibles sukuks (as detailed below), Rule 144A convertible securities (according to the limit below), equity warrant bonds, redeemable equity warrant bonds, bonds convertible into new or existing equities). If the Investment Manager considers that investment opportunities in convertibles are not satisfactory, the Compartment may also invest in the best interest of the Shareholders in Money Market Instruments and/or cash equivalent debt securities.
- 23.4 The Compartment may invest up to one third of its net assets in any other type of eligible assets such as equities and Eligible UCIs (as defined below) (within the 10% limit below).
- 23.5 The choice of investments will neither be limited by geographic area (including emerging countries), or an economic sector, nor in terms of currencies in which investments will be denominated. Furthermore, depending on financial market conditions, a particular focus can be placed on a single country and/or on a single economic sector and/or on a single currency.
- 23.6 The Compartment is also subject to the following investment restrictions:
- The Compartment may invest in debt securities from issuers with any credit rating, i.e., investment grade, high-yield and unrated (as measured by leading credit agencies or with quality considered as equivalent by the Investment Manager in the absence of any official rating). It is understood that the Investment Manager does not rely solely or mechanically on credit ratings of credit rating agencies and also applies its own analysis of the creditworthiness of issuers or debt issues.
 - The Compartment may invest up to 100% of its net assets in high yield and unrated securities/issuers. When investing in unrated debt securities/issuers, the lowest internal rating applied, at the time of purchase, by the Investment Manager is such that no added debt securities should lead to more than 10% of its net assets having an

equivalent rating below B-, as defined by one of the leading credit agencies or, in the absence of a leading agency's rating, its own analysis of the creditworthiness of issuers or debt issues.

- The Compartment may invest up to 10% of its net assets in debt from distressed or defaulted issuers. The Investment Manager may keep downgraded securities and will sell them on a discretionary basis, according to the conditions on the relevant market and the Investment Manager's related forecasts (within the 10% limit above).
- The Compartment cannot invest more than 10% of its net assets in Contingent Convertible Bonds.
- Convertible Sukuks are convertible bonds (Mudarabah, Wakalah) issued by entities incorporated in countries following Sharia'h law (Malaysia, Indonesia, UAE, Saudi Arabia, etc.), entities which often use a legal structure called Sukuk. The Sukuk concept in general implies that a bond, instead of paying interest, pays participation to the profit of an investment, profit which is usually computed with reference to an interest rate. Therefore the interest payment of such bond could be forfeited without creating a default, in case the underlying investment is not profitable. The principal repayment is however still due at maturity. It is not the intention of the Compartment to invest more than 10% of its net assets into convertible bonds issued under a Sukuk structure.
- Rule 144A Securities, which can be invested into by the Compartment under the conditions that:
 - (a) such securities respect the article 2 of the Grand-Ducal Regulation,
 - (b) such securities are either admitted to official listing on a Regulated Market or are dealt in on an Other Regulated Market which operates regularly and is recognised and open to the public,
 - (c) such securities are recently issued transferable securities which will be admitted to official listing on a stock exchange or other market (as described above) within a year. The securities are issued with an undertaking to register with the US Securities and Exchanges Commission within one year of issue;
 - (d) Investments in Rule 144A Securities, which would not comply with any of the above conditions, shall, together with the transferable securities eligible under Section 22.4 (b) of Chapter 22 "Investment Restrictions" of this Prospectus, not exceed 10% of the Compartment's net assets.
- The Compartment may invest up to 10% of its net assets in UCIs that comply with article 41 (1) (e) of the 2010 Law ("Eligible UCIs").
- The Compartment may invest up to 10% of its net assets in structured products provided that the underlying respects the investment policy and investment restrictions and complies with Article 41 of the 2010 Law and Article 2 of the Grand-Ducal Regulation of 2008. Structured products include, but are not limited to, notes, certificates, and any other Transferable Securities whose returns are correlated with changes in, among others, equities, debts, currencies, basket of Transferable Securities,

financial indices at all-time selected in accordance with the Grand-Ducal Regulation of 2008. For the avoidance of doubt, convertible investments listed in the main policy above are not part of this limit.

- 23.7 If the Investment Manager considers this to be in the best interest of the Shareholders, the Compartment may also, on a temporary basis and for defensive purposes, hold up to 100% of its net assets in liquidities, such as cash deposits, money market UCIs (within the above-mentioned 10% limit) and Money Market Instruments.
- 23.8 For hedging and investment purposes, within the limits set out in the Investment Restrictions, the Compartment may use all types of financial derivative instruments traded on a Regulated Market and/or OTC Derivatives provided they are contracted with leading financial institutions specialised in this type of transactions. In particular, the Compartment may take exposure through any financial derivative instruments such as but not limited to warrants, futures, swaps, options and forwards on any underlying in line with the 2010 Act and with the Investment Policy, including but not limited to, currencies, interest rates, Transferable Securities, basket of Transferable Securities, indices (including volatility index) and UCIs.
- 23.9 In normal market conditions, the Investment Manager intends to use options, forwards, swaps and futures offering an exposure to Transferable Securities (among others single stocks, ...), financial indices (including volatility index), interest rates, and/or currency derivatives (such as forward foreign exchange contracts or currency swaps).
- 23.10 The aggregate sum of commitment arising from the use of these instruments shall not exceed the value of the Compartment's net assets.

Risk considerations specific to the Compartment

- 23.11 The Compartment is subject to the specific risks linked to investments in equity securities and UCIs as well as to interest rates risks linked to investments in debt securities.
- 23.12 In particular, the Compartment is subject to specific risks linked to the following investments:
- in Distressed Securities;
 - in high-yield securities;
 - unrated issuers and securities with equivalent credit risks to those rated as high-yield by rating agencies; and
 - Convertible Sukuks.
- 23.13 For full details of the risks applicable to investing in this Compartment, Shareholders are advised to refer to Section 15 "Risk considerations" of the main body of the Prospectus.

Global risk exposure

- 23.14 The Compartment's global risk exposure is monitored by using the commitment approach. This approach measures the global exposure related to positions on financial derivative instruments which may not exceed the Compartment's Net Asset Value.

- 23.15 The Compartment will ensure that its total commitment arising from financial derivative instruments, for purposes other than hedging, does not exceed 100% of its net assets.

Performance

- 23.16 The performance of the Compartment will be disclosed in the KIIDs of the Compartment. In this connection, investors should note that past performance is not necessarily a guide to future performance. Investors may not get back the full amount invested, as prices of Shares and the income from them may fall as well as rise.

Income distribution policy

- 23.17 No dividend shall be paid out to Shareholders of this Compartment. However, the Directors reserve their right to revise this policy at their discretion.

24. PROTEA FUND – G2 US ALPHA

Investors' profile

- 24.1 The Protea Fund – G2 US Alpha (the “Compartment”) is a medium risk vehicle aiming to provide capital growth. It may be suitable for investors who are seeking medium to long term growth potential offered through investment in U.S. equities.

Objectives and investment policy

- 24.2 The Compartment's objective is to provide capital appreciation mainly through investments in U.S. equities and in UCIs offering an exposure to US equities. To achieve this, the Compartment will use a systematic (computer driven) approach of investing in U.S. equity securities and in Eligible UCIs (as defined below) with the purpose to exploit persistent market inefficiencies over a short (6 months) to medium (18 months) time horizon.

- 24.3 The Compartment will mainly invest:

- directly in equities and equity related securities (such as depositary receipts) of companies which are domiciled, headquartered or exercise their main activity in the United States of America; and/or
- in UCITS and/or other UCIs that comply with article 41 (1) (e) of the 2010 Law (“Eligible UCIs”) (such as but not limited to trackers or exchange traded funds and other UCIs) having as main objective to invest or grant exposure to the above-mentioned asset class (within the below mentioned 10% limit in UCITS and/or other UCIs).

- 24.4 On an ancillary basis (up to 49% of the Compartment's net assets), within the limits provided by the 2010 Law, the Compartment may invest in any other Eligible Investments, such as in equities other than the above mentioned, corporate or sovereign debt securities, REITs, Money Market Instruments, cash and cash equivalents or other Eligible UCIs investing in above mentioned asset classes (each as detailed and subject to the restrictions below).

- 24.5 However, the Compartment may invest directly in the assets listed below, subject to the following limits:

- Investments in units or shares in Eligible UCIs limited to a maximum of 10% of the Compartment's net assets.
- Investments in closed-ended collective real estate investments, notably closed-ended REITs, closed-ended real estate investment UCIs and closed-ended real estate investment companies will not exceed 10% of the Compartment's net assets.

- 24.6 Except the focus on the U.S.A., the choice of investments will not be limited by economic sector, nor in terms of currencies in which investments will be denominated. However, depending on financial market conditions, a particular focus can be placed in a single currency and/or in a single economic sector.

- 24.7 For hedging and for any other purposes, within the limits set out in the investment restrictions in the main body of the Prospectus, the Compartment may use all types of financial derivative instruments traded on a Regulated Market and/or OTC provided they are contracted with

leading financial institutions specialised in this type of transactions and subject to regulatory supervision. In particular, the Investment Manager intends to use principally options, futures, contracts for differences (CFD) offering an exposure to U.S. equities and forward exchange contracts on currencies.

24.8 The Compartment does not intend to use credit default swaps.

24.9 If the Investment Manager considers this to be in the best interest of the Shareholders, the Compartment may, for defensive purposes hold up to 100% of its net assets, in cash and cash equivalents, cash deposits, money market UCIs and Money Market Instruments.

Risk considerations specific to the Compartment

24.10 The Compartment is subject to the specific risks linked to investments in equity securities and UCIs, and to market volatility linked to the investment in financial derivative instruments.

24.11 For full details of the risks applicable to investing in this Compartment, Shareholders are advised to refer to Section 15 "Risk considerations" above in the Prospectus.

Global risk exposure

24.12 The Compartment's global risk exposure is monitored by using the commitment approach. This approach measures the global exposure related to positions on financial derivative instruments which may not exceed the Compartment's Net Asset Value.

24.13 The Compartment will ensure that its total commitment arising from financial derivative instruments, for purposes other than hedging, does not exceed 100% of its net assets.

Performance

24.14 The performance of the Compartment will be disclosed in the KIIDs of the Compartment. In this connection, investors should note that past performance is not necessarily a guide to future performance. Investors may not get back the full amount invested, as prices of Shares and the income from them may fall as well as rise.

Income distribution policy

24.15 No dividend shall be paid out to Shareholders of this Compartment. However, the Directors reserve their right to revise this policy at their discretion.

26. PROTEA FUND – SWIFTSURE TECHNOLOGY FUND

Investors' profile

- 26.1 The compartment Protea Fund - Swiftsure Technology Fund (the “Compartment”) is a medium/high risk vehicle aiming to provide capital growth. It may be suitable for investors who are seeking long term growth potential by investing in equities. Hence it requires an investment horizon of at least 3 years.

Objectives and investment policy

- 26.2 The investment objective of the Compartment is to achieve long term capital appreciation by way of investing in a globally diversified portfolio of companies that, according to the Investment Manager, contribute to or profit from the value chain of major secular technology themes. Companies that are being disrupted by the themes are sold short, with the Compartment maintaining a long-bias.
- 26.3 The Compartment has a “thematic long/short” equity strategy. It will mainly invest in equity and equity related securities (such as depositary receipts or preferred stock) by companies within the information technology, telecommunication services, consumer discretionary and industrial sectors. The companies will be principally domiciled and/or headquartered and/or having their predominant activity in developed markets as defined by the Investment Manager, such as but not limited to: Australia, Austria, Belgium, Canada, Denmark, Finland, France, Germany, Hong Kong, Ireland, Israel, Italy, Japan, Luxembourg, the Netherlands, New Zealand, Norway, Portugal, Singapore, South Korea, Spain, Sweden, Switzerland, Taiwan, the United Kingdom, and the United States.
- 26.4 To implement a “thematic long/short strategy”, the Compartment will use derivative instruments such as contracts for difference (“CFD”), futures or options on equity and equity indices. The derivative instruments will generally be used to gain a short exposure to certain equities or equity related securities while the long exposure will in general be achieved through direct investment in the targeted securities.
- 26.5 The Investment Manager will identify core themes offering attractive long-term investment opportunities to Shareholders. The Compartment will be invested in accordance with these themes. The themes will change from time to time.
- 26.6 To achieve its objective, the Compartment will mainly have exposure:
- directly in the above-mentioned securities; and/or
 - in UCITS and/or other UCIs (such as but not limited to trackers or exchange traded funds and other UCIs) having as main objective to invest or grant exposure to the above-mentioned asset class (within the below mentioned 10% limit in UCITS and/or other UCIs); and/or
 - in financial derivative instruments having as underlying or offering an exposure (short or long) to the above-mentioned securities (such as but not limited to CFD, options, futures).

- 26.7 In pursuit of its investment policy and due to the use of financial derivative instruments, the Compartment can invest up to 100% of its net assets in cash deposits, money market funds and Money Market Instruments.
- 26.8 On an ancillary basis (up to 49% of its net assets), within the limits provided by the 2010 Law, the Compartment may invest in any type of other eligible assets in addition to those referred to above (such as any type of debt securities, structured products, Money Market Instruments or UCIs).
- 26.9 However, the Compartment may invest directly in the assets listed below, subject to the following limits:
- Investments in units or shares in collective investment schemes (UCITS and/or other UCIs) are limited to a maximum of 10% of the Compartment's net assets (including money market funds).
 - Investments in closed-ended collective real estate investments, notably closed-ended REITs, closed-ended real estate investment funds and closed-ended real estate investment companies will not exceed 10% of the Compartment's net assets.
 - Structured products up to 20% of the net assets provided that the underlying respects the investment policy and investment restrictions and complies with article 41 of the 2010 Law and article 2 of the Grand-Ducal Regulation, such as but not limited to notes, certificates, any other transferable securities whose returns are correlated with changes in, among others, equities, debts, basket of transferable securities, currencies, financial indices selected in accordance with article 9 of the Grand-Ducal Regulation. Within this limit, in compliance with the Grand-Ducal Regulation, the Compartment may invest up to 10% of its net assets in convertible and contingent convertible instruments (including Contingent Convertible Bonds) and up to 10% in structured products without embedded derivatives which comply with article 41 of the 2010 Law, correlated with changes in commodities and precious metals such as ETFs Gold Bullion securities with cash settlement. Those investments may not be used to elude the investment policy of the Compartment.
 - The Compartment's investments in Russia, other than those which are listed on the Moscow Exchange and any other regulated markets in Russia, combined with investments that are made in other assets as referred to in Section 22.3(a) of the main body of the Prospectus, shall not exceed 10% of the net assets of the Compartment.
- 26.10 Aside the focus on the themes and developed markets, depending on financial market conditions, a particular focus can be placed in a single country (or some countries) and/or in a single currency and/or in a single theme. To a lesser extent, the Compartment may invest in emerging countries.
- 26.11 The Compartment's investment approach will be based on thematic trends which the Investment Manager believes should be able to deliver superior returns over time.
- 26.12 If the Investment Manager considers this to be in the best interest of the Shareholders, the Compartment may, as a temporary defensive stance, hold, up to 100% of its net assets, in liquid

assets such as cash and cash equivalents, cash deposits, money market UCIs and Money Market Instruments.

- 26.13 For hedging and for any other purposes, the Compartment may use all types of financial derivative instruments traded on a Regulated Market and/or over the counter (“OTC”) provided they are contracted with leading financial institutions specialised in this type of transactions and subject to regulatory supervision. The Compartment may take exposure through any financial derivative instruments such as but not limited to futures, options, contracts for difference and forwards on underlyings in line with the 2010 Law and any other related regulation as well as with the investment policy of the Compartment, including but not limited to, currencies (including non-delivery forwards), interest rates, transferable securities, basket of transferable securities, indices (including but not limited volatility indices,) and UCIs.
- 26.14 The Compartment is authorized to use techniques and instruments on transferable securities, money market instruments, currencies and other eligible assets for the purpose of hedging, efficient portfolio management or investment purposes under the conditions set out in Section 26.15 below, in applicable laws, regulations and circulars issued by the CSSF from time to time.
- 26.15 The Compartment may use EPM Techniques and TRS within the limits described below as percentages of the Compartment’s net assets:

	Maximum percentage	Expected percentage
TRS	200%	60%
Repurchase Transactions	0%	0%
Reverse Repurchase Transactions	0%	0%
Securities Lending	100%	0%

SFTs, TRS and other financial derivative instruments that display the same characteristics may have as underlying assets any financial instrument in which the Compartment may invest in accordance with its investment strategy and policy.

Risk considerations specific to the Compartment

- 26.16 The Compartment is subject to the specific risks linked to investments in equity securities denominated in various currencies, in UCIs as well as to risks linked to the use of financial derivative instruments, Contingent Convertible Bonds, Money Market Instruments and structured products. For full details of the risks applicable to investing in this Compartment, Shareholders are advised to refer to Section 15 headed “Risk considerations” of the main body of the Prospectus for further details in this connection.

Global risk exposure

- 26.17 The Compartment’s global risk exposure is monitored by using the VaR approach which aims to estimate the maximum potential loss that the Compartment could suffer within a certain time horizon (one month) and with a certain confidence level (99% confidence interval), in normal market conditions. More specifically, the Compartment uses the absolute VaR option, whereby the Compartment's VaR is limited to 20%.

26.18 In addition, stress tests will be carried out in order to manage additional risks related to possible abnormal market movements at a specific point of time.

26.19 The expected level of leverage of this Compartment is 250% (gross commitment). This figure is computed as the sum of the absolute notionals of the FDI. Depending on market conditions, higher leverage levels may be used to increase the hedging component of the Compartment and/or generate a higher market exposure.

Performance

26.20 The performance of the Compartment will be disclosed in the KIIDs of the Compartment. In this connection, investors should note that past performance is not necessarily a guide to future performance. Investors may not get back the full amount invested, as prices of Shares and the income from them may fall as well as rise.

Management of the Compartment

26.25 The Management Company has appointed Thornbridge Investment Management LLP, whose registered office is 1 Fore Street, Fore Street Avenue, London, England, EC2Y 9 DT, United Kingdom, as Investment Manager under the terms of an Investment Management Agreement.

26.26 The Investment Manager has appointed Swiftsure Partners Limited, whose registered office is at 14 Cromwell Grove, London W6 7RG, as its appointed representative under the terms of an FCA appointed representative agreement and Swiftsure Partners Limited will act as investment adviser in respect of the Compartment (the "Investment Adviser").

Frequency of calculation of NAV

26.27 The Net Asset Value of the Compartment shall be calculated daily on each Business Day (the "Calculation Day"), on the basis of the pricing of the preceding Business Day (the "Valuation Day"). If such Valuation Day is not a Business Day, the Net Asset Value will be calculated the immediately following Business Day.

Cut-off times

26.28 For any subscription, redemption or conversion request received by the Fund, prior to 3 p.m. Luxembourg time, on the Valuation Day, the Net Asset Value calculated based on the Calculation Day will be applicable.

26.29 For any subscription, redemption or conversion request arriving at the Fund after the deadline set at 3 p.m. Luxembourg time, on the Valuation Day, the Net Asset Value applicable will be the Net Asset Value as calculated based on the following Calculation Day.

Payment of the subscription price or redemption price

26.30 The amount for the subscription shall be paid or transferred within three Business Days after the relevant Valuation Day.

26.31 The price for the shares of the Compartment presented for redemption shall be paid by transfer in the reference currency of the Compartment concerned within three Business Days from the relevant Valuation Day.

Calculation Day	Each Business Day.
Settlement Day	Subscription: within three Business Days after the relevant Valuation Day. Redemption: within three Business Days after the relevant Valuation Day. Conversion: within three Business Days after the relevant Valuation Day.

Fees specific to this Compartment

- 26.32 The Fund will pay to the Investment Manager a management fee in respect of each category of Shares as disclosed under Section 26.22 above.
- 26.33 The investment management fee will be calculated on a quarterly basis, in arrear, on the average net assets of the relevant category of Shares.
- 26.34 The Investment Adviser will be remunerated directly by the Investment Manager.

Performance fee

- 26.35 The Investment Manager will receive a performance fee, accrued on each Valuation Day, paid quarterly, based on the Net Asset Value ("NAV"), equivalent to a percentage, as disclosed under Section 26.22 above, of the performance of the NAV per share exceeding the High Water Mark (as defined below) and above the pro-rated annual yield of USD 1 month Libor ("Hurdle Yield"). The performance fee is calculated on the basis of the NAV after deduction of all expenses, liabilities, and management fees (but not performance fee), and is adjusted to take account of all subscriptions and redemptions.
- 26.36 The performance fee is equal to the outperformance of the NAV per Share multiplied by the number of Shares in circulation during the calculation period. No performance fee will be due if the NAV per Share before performance fee turns out to be below the High Water Mark for the relevant calculation period.
- 26.37 The high water mark is defined as the greater of the following two figures:
- (a) the latest NAV per Share on which a performance fee has been paid; and
 - (b) the initial NAV per Share;

hereafter referred to as the “High Water Mark”.

- 26.38 The High Water Mark will be decreased by the dividends paid to Shareholders.
- 26.39 Provision will be made for this performance fee on each Valuation Day. If the NAV per Share decreases during the calculation period, the provisions made in respect of the performance fee will be reduced accordingly. If these provisions fall to zero, no performance fee will be payable.
- 26.40 If Shares are redeemed on a date other than that on which a performance fee is paid while provision has been made for performance fees, the performance fees for which provision has been made and which are attributable to the Shares redeemed will be paid at the end of the period even if provision for performance fees is no longer made at that date. Gains which have not been realised may be taken into account in the calculation and payment of performance fees.
- 26.41 In case of subscription, the performance fee calculation is adjusted to avoid that this subscription impacts the amount of performance fee accruals. To perform this adjustment, the performance of the NAV per Share against the High Water Mark until the subscription date is not taken into account in the performance fee calculation. This adjustment amount is equal to the product of the number of subscribed Shares by the positive difference between the subscription price and the High Water Mark adjusted by the Hurdle Yield at the date of the subscription. This cumulated adjustment amount is used in the performance fee calculation until the end of the relevant period and is adjusted in case of subsequent redemptions during the period.
- 26.42 Calculation period shall correspond to each calendar quarter.
- 26.43 Performance fees are payable within 20 Business Days following the end of the quarter.
- 26.44 The formula for the calculation of the performance fee is as follow:

$$\begin{aligned}
 F &= 0 && \text{If } [(B / E - 1) - X] \leq 0 \\
 F &= [(B / E - 1) - X] * E * C * A && \text{If } [(B / E - 1) - X] > 0 \\
 \text{The new High Water Mark} &= \text{Max}(E ; D) \text{ at the last end of period} \\
 \text{Number of shares outstanding} &= A \\
 \text{NAV per share before performance fee paid} &= B \\
 \text{Performance fee rate (Section 26.22)} &= C \\
 \text{NAV per share after performance fee paid} &= D \\
 \text{High Water Mark} &= E \\
 \text{Performance fees} &= F
 \end{aligned}$$

Hurdle Yield based on pro-rata annual yield = X
of USD 1 Month Libor compounded at each
valuation date during the current calculation
period. The Hurdle Yield will be reset to nil at
the beginning of each calculation period.

- 26.45 From 30 June 2017 to 14 July 2017, at the Initial Subscription Price per Share as described under Section 26.22 above.

27. PROTEA FUND – AKTARUS

Investors' profile

- 27.1 The compartment Protea Fund – Aktarus (the “Compartment”) is a medium-high risk vehicle aiming to provide growth of capital. The Compartment is suitable for investors who are seeking capital growth over a medium to long term and who are able to tolerate price fluctuation.
- 27.2 The investment horizon should be at least four (4) years.

Objectives and investment policy

- 27.3 The Compartment aims to achieve capital appreciation over the medium to long-term by taking long and short positions across a large range of asset classes (as mentioned below), based on internal analysis and quantitative systematic models.
- 27.4 The Investment Manager intends to employ the following investment strategies:
- *Momentum & Trend*: the strategy has the goal of capturing medium and short term trends within the investment universe. The strategy aims at identifying price momentum at an early stage, hence benefiting from the potential trend. The investment approach is systematic and disciplined. Automatic systems constantly scan the universe according to pre-set rules. Both the final decision and the timing of execution are left to the Investment Manager.
 - *Volatility Arbitrage*: the strategy aims to capture relative anomalies and inconsistencies between implied volatilities of major global indices, sectors and global assets. The approach is systematic, proprietary quantitative models analyse the volatility dynamics and generate trading indications. Investments are dynamically adjusted to achieve the volatility target.
 - *Premium Alpha*: the strategy aims at capturing the implied risk-premium of different instruments and underlyings. The strategy may invest a portion of the profits to purchase calls and put options to protect the portfolio from sudden volatility spikes and market crashes. Investments are dynamically adjusted to achieve the portfolio volatility target.

It is understood that the Investment Manager can, sometimes use only one of the three above-mentioned strategies, and can also employ other investment strategies (however they will always be in line with the objective described under Section 27.3 above).

- 27.5 There can be no guarantee that the Compartment's objective will be achieved.
- 27.6 The Compartment will offer an exposure to the following asset classes: equities and equity related securities, debt securities of any type with at least an investment grade rating (including Money Market Instruments), cash, currencies, commodities (including precious metals).
- 27.7 In order to achieve its objective, the Compartment will mainly invest:
- directly in the securities/asset classes mentioned in the previous paragraph (except for commodities); and/or

- in financial derivative instruments having as underlying or offering an exposure to the above-mentioned asset classes (including volatility indices).
- 27.8 Due to the use of financial derivative instruments, the Compartment may hold a substantial part of its assets in the form of cash deposits, money market UCIs (UCITS and/or other UCIs referred to in Section 22.3(e) of the main body of the Prospectus) and Money Market Instruments.
- 27.9 The Compartment may also invest up to 10% of its net assets in Contingent Convertible Bonds.
- 27.10 The proportion of assets devoted to each asset class varies over time, and sometimes the Compartment can be exposed to several or only one of the above asset classes.
- 27.11 The choice of investments will neither be limited by geographical area (including emerging markets), economic sector, currencies in which investments will be denominated. However, depending on financial market conditions, a particular focus can be placed in a single country (or some countries) and/or in a single currency and/or in a single economic sector and/or in a single asset class (excluding commodities asset class).
- 27.12 Up to 49% of its net assets, the Compartment may invest in any other type of Eligible Investments, such as eligible UCIs (UCITS and/or other UCIs referred to in Section 22.3(e) of the main body of the Prospectus) (other than those above-mentioned).
- 27.13 The Compartment may invest in structured products with or without embedded derivatives in accordance with article 41 of the 2010 Law and article 2 of the Grand-Ducal Regulation, such as, but not limited to, credit-linked notes, certificates or any other Transferable Securities whose returns are correlated with changes in, among others, equities, bonds, an index (including indices on volatility, commodities, precious metals, etc.) selected in accordance with article 9 of the Grand-Ducal Regulation, currencies, exchange rates, Transferable Securities or a basket of Transferable Securities or a UCI, at all times in compliance with the Grand-Ducal Regulation.
- 27.14 In compliance with article 41 of the 2010 Law and article 2 of the Grand-Ducal Regulation, the Compartment may also invest in structured products without embedded derivatives, correlated with changes in commodities (including precious metals) with cash settlement.
- 27.15 For hedging and for investment purposes, within the limits set out in Section 22 “Investment restrictions” of the main body of the Prospectus, the Compartment may use all types of financial derivative instruments traded on a Regulated Market and/or OTC provided they are contracted with leading financial institutions specialised in this type of transactions and subject to regulatory supervision.
- 27.16 Nevertheless, in normal market conditions, the Investment Manager intends to use options and futures, volatility financial derivative instruments, contracts for difference and currency derivatives (such as forward foreign exchange contracts).
- 27.17 If the Investment Manager considers this to be in the best interest of the shareholders, on a temporary basis and for defensive purposes, the Compartment may also, hold, up to 100% of its net assets, liquidities as among others cash deposits, money market UCIs and Money Market Instruments.

Risk considerations specific to the Compartment

- 27.18 The Compartment is subject to the specific risks linked to (i) investments in equity securities and UCIs, (ii) to interest rates risks linked to investments in debt securities, (iii) the use of financial derivative instruments, (iv) use of synthetic leverage, (v) investments in high yield securities, (vi) investments in Contingent Convertible Bonds, (vii) investments in structured products and (viii) investments in commodities. To the extent the Compartment may invest in securities of emerging markets, it may further be subject to risks related to such type of investments.
- 27.19 Please refer to the Section 15 headed “Risk considerations” of the main body of the Prospectus for further details in this connection.

Global risk exposure

- 27.20 The Compartment’s global risk exposure is monitored by using the VaR approach which aims to estimate the maximum potential loss that the Compartment could suffer within a certain time horizon (one month) and with a certain confidence level (99% confidence interval), in normal market conditions.
- 27.21 More specifically, the Compartment uses the absolute VaR option, whereby the Compartment's VaR is limited to 20%.
- 27.22 In addition, stress tests will be carried out in order to manage additional risks related to possible abnormal market movements at a specific point of time.
- 27.23 The expected level of leverage of this Compartment will be around 500% and maximum level of leverage of this Compartment is 800% (gross commitment). This figure is computed as the sum of the absolute notionals of the FDI, whereby a large part of these FDIs are used for hedging purposes. As above-mentioned under Section 27.15, the Investment Manager intends to mainly use exchange traded options and futures (on financial indices or single stocks), contracts for difference and currency derivatives. Depending on market conditions, higher leverage levels may be used to increase the hedging component of the Compartment and/or generate a higher market exposure.

Performance

- 27.24 The performance of the Compartment will be disclosed in the KIIDs of the Compartment. In this connection, investors should note that past performance is not necessarily a guide to future performance. Investors may not get back the full amount invested, as prices of Shares and the income from them may fall as well as rise.

Income distribution policy

- 27.25 No dividend shall be paid out to Shareholders of this Compartment. However, the Board of Directors reserves its right to revise this policy at its discretion.

Management of the Compartment

27.28 In relation to investment opportunities for the Compartment, the Management Company has appointed MOMentum Alternative Investments S.A., with registered office at Via Lisano 3, CH-6900 Massagno (Lugano), Switzerland, as investment manager of the Compartment, under the terms of an investment management agreement.

27.29 The Investment Manager is regulated by the FINMA (Switzerland).

Frequency of calculation of NAV

27.30 The Net Asset Value of the Compartment shall be calculated daily on each Business Day (the "Calculation Day"), on the basis of the pricing of the preceding Business Day (the "Valuation Day").

Payment of the subscription price or redemption price

27.31 By way of derogation from the main body of the Prospectus, the amount for the subscription shall be paid or transferred within up to three (3) Business Days counting from the relevant Calculation Day as set out below.

27.32 By way of derogation from the main body of Prospectus, redemption proceeds will be paid within up to three (3) Business Days following the relevant Calculation Day.

⁸ "ACC" is an acronym for "accumulation".

Settlement Day	Subscription: within three (3) Business Days after the relevant Calculation Day. Redemption: within three (3) Business Days after the relevant Calculation Day.

Fees specific to this Compartment

Investment management fee

27.33 The Fund will pay to the Investment Manager a management fee as follows:

Class B	Up to 2% p.a.
Class C	Up to 1.25% p.a.

27.34 The investment management fee will be calculated on a quarterly basis, in arrear, on the average net assets of the relevant category of Shares of the Compartment.

Performance fee

27.35 The Investment Manager will receive a performance fee, accrued on each valuation date, paid yearly, based on the net asset value (NAV), equivalent to 10 % of the performance of the NAV per share (measured against the reference NAV) over the performance of the EONIA during the current period.

27.36 As of the date of this Prospectus, European Money Markets Institute, the administrator of the EONIA index is not on the list of administrators held with ESMA in accordance with article 36 of the Benchmark Regulation. The administrator of the EONIA index benefits from the transitional provisions under Article 51 of the Benchmark Regulation.

27.37 The performance fee is calculated on the basis of the NAV after deduction of all expenses, liabilities, and management fees (but not performance fee), and is adjusted to take account of all subscriptions and redemptions.

- 27.38 The performance fee is equal to the outperformance of the NAV per share multiplied by the number of shares in circulation during the calculation period. No performance fee will be due if the NAV per share before performance fee turns out to be below the reference NAV for the calculation period in question.
- 27.39 The Reference NAV is defined as the greater of the following two figures:
- The latest NAV per share after deduction of performance fee during the previous calculation period; and
 - The latest Reference NAV.
- 27.40 The Reference NAV will be decreased by the dividends paid to shareholders.
- 27.41 Provision will be made for this performance fee on each valuation date. If the NAV per share decreases during the calculation period, the provisions made in respect of the performance fee will be reduced accordingly. If these provisions fall to zero, no performance fee will be payable.
- 27.42 If shares are redeemed on a date other than that on which a performance fee is paid while provision has been made for performance fees, the performance fees for which provision has been made and which are attributable to the shares redeemed will be paid at the end of the period even if provision for performance fees is no longer made at that date. Gains which have not been realized may be taken into account in the calculation and payment of performance fees.
- 27.43 In case of subscription, the performance fee calculation is adjusted to avoid that this subscription impacts the amount of performance fee accruals. To perform this adjustment, the outperformance of the NAV per share against the hurdle rate until the subscription date is not taken into account in the performance fee calculation. This adjustment amount is equal to the product of the number of subscribed shares by the positive difference between the subscription price and the Reference NAV adjusted by the hurdle at the date of the subscription. This cumulated adjustment amount is used in the performance fee calculation until the end of the relevant period and is adjusted in case of subsequent redemptions during the period.
- 27.44 Calculation period shall correspond to each calendar year.
- 27.45 Performance fees are payable within 20 business days following the closing of the yearly accounts.
- 27.46 The formula for the calculation of the performance fee is as follows:

$$\begin{aligned}
 F &= 0 \\
 &\text{If } [(B / E - 1) - X] \leq 0 \\
 F &= [(B / E - 1) - X] * E * C * A \\
 &\text{If } [(B / E - 1) - X] > 0 \\
 \text{The new Reference NAV} &= \text{Max}(E ; D) \text{ at the last end of period} \\
 \text{Number of shares outstanding} &= A
 \end{aligned}$$

28. PROTEA FUND – SYSTEMATIC EQUITY FUND

Investors' profile

- 28.1 The compartment Protea Fund – Systematic Equity Fund (the “Compartment”) is an equity risk vehicle aiming to provide long-term total return in the reference currency over an investment cycle.
- 28.2 The Compartment will be suitable for investors seeking capital appreciation opportunities through equity investments with an aggressive risk profile and an attractive growth over the long term. The recommended duration of placement for investors is 3 to 5 years with a similar volatility to major equity indices.
- 28.3 There can be no guarantee that the Compartment’s objective will be achieved.

Objectives and investment policy

- 28.4 The Compartment aims to offer an exposure to a selected portfolio of equities and equity related securities (such as depositary receipts and closed-ended REITs) of companies which are domiciled, headquartered or exercise their main activity in Europe (including United Kingdom) and/or the United States (U.S.).
- 28.5 In order to achieve its objective, the Compartment will invest at least 75% of its nets assets:
- directly in the securities/asset class mentioned under Section 28.4 above; and/or
 - in eligible undertakings for collective investment (UCIs: UCITS and/or other UCIs referred to in Section 22.3(e) of the main body of the Prospectus), having as main objective to invest or grant an exposure to the asset class mentioned under Section 28.4 above (within the below mentioned 10% limit in UCITS and/or other UCIs).
- 28.6 However, the Compartment may also invest up to 25% of its net assets in other eligible assets such as:
- (a) other equities;
 - (b) debt securities with credit rating of investment grade as measured by any leading credit rating agencies or with quality considered as equivalent by the Investment Manager in the absence of any official rating. In case of dual official rating, the higher rating shall apply;
 - (c) Money Market Instruments and cash deposits; and
 - (d) UCITS and/or other UCIs to a maximum of 10% of the Compartment’s net assets.
- 28.7 Aside the geographical focus on the U.S. and Europe (including United Kingdom), the choice of investments will not be limited by economic sector nor in terms of currencies in which investments will be denominated. However, depending on financial market conditions, a particular focus can be placed in a single country (or some countries) and/or in a single currency and/or in a single economic sector.

- 28.8 For hedging or for investment purposes, within the limits referred to in Section 22 “Investment restrictions” of the main body of the Prospectus, the Compartment may use all types of financial derivative instruments traded on a Regulated Market and/or OTC Derivatives provided they are contracted with leading financial institutions specialised in this type of transactions and subject to regulatory supervision. However, the Investment Manager intends to use principally options and futures having an underlying in line with the investment policy, currency swaps and forward exchange contracts on currencies.
- 28.9 The Compartment may ensure that its total commitment arising from financial derivative instruments, for purposes other than hedging, does not exceed 100% of its net assets.
- 28.10 If the Investment Manager considers this to be in the best interest of the Shareholders, the Compartment may also hold, on a temporary basis and for defensive purposes, up to 100% of its net assets in cash, cash deposits, money market funds and Money Market Instruments.

Risk considerations specific to the Compartment

- 28.11 The Compartment is subject to the specific risks linked to investments in equity securities, financial derivative instruments and UCIs and market volatility linked to the investment in derivative instruments.
- 28.12 Please refer to the Section 15 of the main body of the Prospectus headed “Risk considerations” above for further details in this connection.

Global risk exposure

- 28.13 The global risk exposure of the Compartment is monitored by the commitment approach. This approach measures the exposure related to positions on financial derivative instruments which may not exceed the value of the Compartment’s net assets.

Performance

- 28.14 The performance of the Compartment will be disclosed in the KIIDs of the Compartment. In this connection, investors should note that past performance is not necessarily a guide to future performance. Investors may not get back the full amount invested, as prices of shares and the income from them may fall as well as rise.

Income distribution policy

- 28.15 This Compartment pursues a policy of achieving capital growth and reinvests income earned; as a result, no dividend shall be paid out. However, the Directors reserve their right to revise this policy at their discretion.

Investment Management of the Compartment

28.18 The Management Company has appointed Octogone Europe, a Luxembourg public limited liability company, whose registered office is at 68-70, Boulevard de la Pétrusse, L-2320 Luxembourg, Grand Duchy of Luxembourg, as Investment Manager under the terms of an Investment Management Agreement dated 31 August 2018 and effective as of 1 October 2018.

Frequency of calculation of NAV

28.19 The Net Asset Value is calculated each Monday (the "Calculation Day"), on the basis of the pricing of the preceding Business Day (the "Valuation Day"). In the event the Calculation Day is not a Business Day, the Net Asset Value of the Compartment will be calculated on the immediately following Business Day.

Cut-off times

28.20 For any subscription, redemption or conversion request received by the Fund, prior to 4 p.m. Luxembourg time, on the Business Days preceding the Valuation Day, the Net Asset Value calculated based on the Valuation Day will be applicable.

28.21 For any subscription, redemption or conversion request arriving at the Fund after the deadline set at 4 p.m. Luxembourg time, on the Business Days preceding the Valuation Day, the Net Asset Value applicable will be the Net Asset Value as calculated based on the following Valuation Day.

Conversion

28.22 Subject to the eligibility criteria for each category of Shares, Shareholders may request the conversion of all or part of their Shares into another category of Shares within the Compartment without additional costs. Conversions into Shares of another Compartment are not permitted.

Payment of the subscription price or redemption price

28.23 The amount for the subscription shall be paid or transferred within three Business Days from the relevant Valuation Day.

28.24 The price for the shares of the Compartment presented for redemption shall be paid by transfer in the reference currency of the Compartment concerned within three Business Days from the relevant Valuation Day.

Cut-off	Subscription: 4 p.m. Luxembourg time, one Business Day before the Valuation Day. Redemption: 4 p.m. Luxembourg time, one Business Day before the Valuation Day. Conversion: 4 p.m. Luxembourg time, one Business Day before the Valuation Day.

Calculation Day	Weekly, on each Monday. In the event that a Monday is not a Business Day, the Net Asset Value of the Compartment will be calculated on the immediate following Business Day.
Settlement Day	Subscription: within three Business Days after the relevant Valuation Day. Redemption: within three Business Days after the relevant Valuation Day.

Investment management fee specific to this Compartment

28.25 The Compartment will pay to the Investment Manager an investment management fee as follows:

Class USD	Up to 1% p.a.
Class EUR	Up to 1% p.a.

28.26 The investment management fee will be calculated, on a quarterly basis, in arrear, on the average net assets of the relevant category of Shares.

Performance fee

28.27 The Investment Manager will receive a performance fee, accrued on each valuation date, paid yearly, based on the net asset value (NAV), equivalent to 5 % of the performance of the NAV per share exceeding the high water mark (as defined hereafter).

- 28.28 The performance fee is calculated on the basis of the NAV after deduction of all expenses, liabilities, and management fees (but not performance fee), and is adjusted to take account of all subscriptions and redemptions.
- 28.29 The performance fee is equal to the out performance of the NAV per share multiplied by the number of shares in circulation during the calculation period. No performance fee will be due if the NAV per share before performance fee turns out to be below the high water mark for the calculation period in question.
- 28.30 The high water mark is defined as the greater of the following two figures:
- The last highest Net Asset Value per Share on which a performance fee has been paid and;
 - The initial NAV per share.
- 28.31 The High Water Mark will be decreased by the dividends paid to shareholders
- 28.32 Provision will be made for this performance fee on each Valuation Point. If the NAV per share decreases during the calculation period, the provisions made in respect of the performance fee will be reduced accordingly. If these provisions fall to zero, no performance fee will be payable.
- 28.33 If shares are redeemed on a date other than that on which a performance fee is paid while provision has been made for performance fees, the performance fees for which provision has been made and which are attributable to the shares redeemed will be paid at the end of the period even if provision for performance fees is no longer made at that date. Gains which have not been realised may be taken into account in the calculation and payment of performance fees.
- 28.34 In case of subscription, the performance fee calculation is adjusted to avoid that this subscription impacts the amount of performance fee accruals. To perform this adjustment, the performance of the NAV per share against the High Water Mark until the subscription date is not taken into account in the performance fee calculation. This adjustment amount is equal to the product of the number of subscribed shares by the positive difference between the subscription price and the High Water Mark at the date of the subscription. This cumulated adjustment amount is used in the performance fee calculation until the end of the relevant period and is adjusted in case of subsequent redemptions during the period.
- 28.35 Calculation period shall correspond to each calendar year.
- 28.36 Performance fees are payable within 20 business days following the closing of the yearly accounts.
- 28.37 The formula for the calculation of the performance fee is as follows:

$$F = 0 \quad \text{If } (B / E - 1) \leq 0$$

$$F = (B / E - 1) * E * C * A \quad \text{If } (B / E - 1) > 0$$

Initial Subscription Period

28.38 From 26 February 2018 to 2 March 2018, at the Initial Subscription Price per Share as described under Section 28.16 above.

29. PROTEA FUND – AGILIS UCITS

Investors' profile

- 29.1 The compartment Protea Fund – Agilis UCITS (the “Compartment”) aims to provide capital growth with a lower volatility than equities.
- 29.2 The Compartment may be suitable for investors who are seeking long term growth potential by investing in a diversified portfolio of assets. Hence it requires an investment horizon of at least 5 years.

Objectives and investment policy

- 29.3 The investment objective of the Compartment is to offer a multi-asset allocation with a worldwide exposure to a variety of asset classes: equities and equity-related securities (including closed-ended REITS and depositary receipts), debt securities of any type (including non-investment grade debt securities, ABS, MBS within the limits mentioned below), commodities, cash, and money market instruments.
- 29.4 In order to achieve its objective, the Compartment will mainly invest:
- directly in the securities/asset classes mentioned under Section 29.3 above (except for commodities); and/or
 - in eligible undertakings for collective investment (UCI: UCITS and/or other UCIs referred to in Section 22.3(e) of the main body of the Prospectus) having as main objective to invest in the asset class mentioned under Section 29.3 above; and/or
 - in Transferable Securities (such as structured investment products, as defined below) giving exposure to the asset classes mentioned under Section 29.3 above; and/or
 - in financial derivative instruments having as underlying or offering an exposure to the securities/asset classes mentioned under Section 29.3 above.
- 29.5 The choice of investments will neither be limited by a geographical area (including emerging markets), a particular economic sector nor in terms of currencies in which investments will be denominated. However, depending on financial market conditions, a particular focus can be placed in a single country (or some countries) and/or one economic sector and/or in a single currency.
- 29.6 However, the Compartment may invest directly in the assets listed below, subject to the following limits:
- (a) Contingent Convertible Bonds up to 5% of the net assets of the Compartment;
 - (b) Convertible Bonds up to 15% of the net assets of the Compartment;
 - (c) Investments in debt securities with a “non-investment grade” credit rating, having a minimum credit rating of CCC- or equivalent (as measured by any leading credit agencies or with quality considered as equivalent by the Investment Manager) up to 50% of the net assets of the Compartment. Furthermore, and independently of the

above minimum credit rating, the Compartment may invest up to 5% of its net assets in Distressed and Defaulted Securities. Debt securities may be subject to the risk of being downgraded. In the event of downgrading in the credit ratings of a security or an issuer, the Compartment may, at the discretion of the Investment Manager, and in the best interests of the Compartment's shareholders, continue to hold those debt securities which have been downgraded provided that in any case the Compartment's maximum exposure to Distressed and Defaulted Securities will be limited to a maximum of 5% of its net assets.

- (d) Investments in asset-backed securities and mortgage-backed securities up to 20% of the net assets of the Compartment.
- (e) Structured products up to 20% of the net assets provided that the underlying respects the investment policy and investment restrictions and complies with article 41 of the 2010 Law and article 2 of the Grand-Ducal Regulation, such as but not limited to credit-linked notes, certificates or any other Transferable Securities whose returns are correlated with changes in, among others, an index selected in accordance with article 9 of the Grand-Ducal Regulation (including indices on volatility, commodities, precious metals, etc.), currencies, exchange rates, Transferable Securities or a basket of Transferable Securities or a UCI. In compliance with the Grand-Ducal Regulation, the Compartment may also invest up to 20% of net assets in structured products without embedded derivatives, correlated with changes in commodities (including precious metals) with cash settlement. Those investments may not be used to elude the investment policy of the Compartment.
- (f) Investment in closed-ended collective real estate investments, notably closed-ended REITs, closed-ended real estate investment funds and closed-ended real estate investment companies will not exceed 20% of the net assets.
- (g) Investments in Chinese companies will be made through ADRs, GDRs or Hong Kong listed Chinese companies (i.e. China H-shares) and via China A-shares. In order to invest in China A-shares, the Compartment may use the Shanghai – Hong Kong Stock Connect and/or the Shenzhen – Hong Kong Stock Connect. These investments will not exceed 20% of the Compartment's net assets.
- (h) Investments in units or shares of UCITS and/or other UCIs (referred to in Section 22.3(e) of the main body of the Prospectus) meeting the criteria listed in art. 41 (1) (e) of the 2010 Law (the "Eligible UCIs") will not exceed 50% of the Compartment's net assets. Due to the fact that the Compartment may invest a substantial portion in other UCIs, the Shareholder is exposed to a possible duplication of fees and charges. However, the maximum percentage of the fixed management fee at the level of the target UCIs will be 2%.

29.7 For hedging and for investment purposes, within the limits set out in the Section 22 "Investment restrictions" of the main body of the Prospectus, the Compartment may use all types of financial derivative instruments traded on a Regulated Market and/or OTC Derivatives provided they are contracted with leading financial institutions specialised in this type of transactions and subject to regulatory supervision. The Compartment may take exposure through any financial derivative instruments such as but not limited to futures, options,

contracts for difference, swaps (including credit default swaps) and forwards on underlyings in line with the 2010 Law and any other related regulation as well as with the investment policy of the Compartment, including but not limited to, currencies (including non-delivery forwards), interest rates, transferable securities, basket of transferable securities, indices (including but not limited to commodities, precious metals or volatility indices) and UCIs.

- 29.8 If the Investment Manager considers this to be in the best interest of the Shareholders, the Compartment may also hold, on a temporary basis and for defensive purposes up to 100% of its net assets, liquidities, such as cash deposits, money market UCIs (UCITS and/or other UCIs referred to in Section 22.3(e) of the main body of the Prospectus) and Money Market Instruments.
- 29.9 The Compartment may use EPM Techniques within the limits described below as percentages of the Compartment's net assets:

	MAXIMUM PERCENTAGE	EXPECTED PERCENTAGE
Repurchase Transactions	50%	0%
Reverse Repurchase Transactions	50%	0%
Securities Lending	50%	0%
TRS	100%	30%

Risk considerations specific to the Compartment

- 29.10 The Compartment is subject to the specific risks linked to (i) investments in equity securities denominated in various currencies and UCIs, (ii) to interest rates risks linked to investments in debt securities, (iii) the use of financial derivative instruments, (iv) investments in Contingent Convertible Bonds, (v) investments in structured products, (vi) investments in Distressed and Defaulted Securities, (vii) investments in commodities, (viii) investment in Money Market Instruments and (ix) investments in China. To the extent the Compartment may invest in securities of emerging markets, it may further be subject to risks related to such type of investments.

Please refer to Section 15 headed "Risk considerations" of the main body of the Prospectus for further details in this connection.

Global risk exposure

- 29.11 The Compartment's global risk exposure is monitored by using the VaR approach which aims to estimate the maximum potential loss that the Compartment could suffer within a certain time horizon (one month) and with a certain confidence level (99% confidence interval), in normal market conditions. More specifically, the Compartment uses the absolute VaR option, whereby the Compartment's VaR is limited to 20%.
- 29.12 In addition, stress tests will be carried out in order to manage additional risks related to possible abnormal market movements at a specific point of time.

29.13 The expected level of leverage of this Compartment is 250% (gross commitment). This figure is computed as the sum of the absolute notionals of the FDI, whereby a large part of these FDIs are used for hedging purposes. Depending on market conditions, higher leverage levels may be used to increase the hedging component of the Compartment and/or generate a higher market exposure.

Performance

29.14 The performance of the Compartment will be disclosed in the KIIDs of the Compartment. In this connection, investors should note that past performance is not necessarily a guide to future performance. Investors may not get back the full amount invested, as prices of Shares and the income from them may fall as well as rise.

Income distribution policy

29.15 No dividend shall be paid out to Shareholders of this Compartment. However, the Board of Directors reserves its right to revise this policy at its discretion.

30. PROTEA FUND – ORCADIA EQUITIES EMU SRI EX-FOSSIL

Investors' profile

- 30.1 The compartment Protea Fund – Orcadia Equities EMU SRI Ex-Fossil (the “Compartment”) is a high risk vehicle aiming to provide capital growth. It may be suitable for investors who are seeking long term growth potential offered through an exposure to equities markets.
- 30.2 The Compartment requires an investment horizon of at least seven (7) years.
- 30.3 There can be no guarantee that the Compartment’s objective will be achieved.

Objectives and investment policy

- 30.4 The Compartment’s objective is to provide capital growth by offering mainly an exposure to equities and equity related securities (such as subscription rights, closed-ended REITs).
- 30.5 The Compartment will have a focus on companies across all economic sectors (except companies of the energy sector that own oil, gas and coal reserves) which are located in the European Economic and Monetary Union (“EMU”) and contribute to sustainable development, covering the Socially Responsible Investment (“SRI”) criteria. Meaning that under normal market conditions, EMU SRI investments (excluding companies of the energy sector) will represent at least 90% of the Compartment’s portfolio (assets excluding cash and cash equivalents). The Compartment will also aim to avoid to invest in companies that are conducting non-compulsory animal testing for non-medical purposes. In this context, primary research on socially responsible investments will be conducted by an external service provider on behalf of the Compartment.
- 30.6 In order to achieve its objective, the Compartment will mainly invest directly in the securities/asset classes mentioned above.
- 30.7 On an ancillary basis (up to 49% of its net assets), the Compartment may invest in any other type of eligible assets, such as cash, Money Market Instruments, UCIs and structured products (as described below).
- 30.8 However, the Compartment’s investments in units or shares of UCIs (UCITS and/or other UCIs as referred to in Section 22.3(e) of the main body of the Prospectus), shall not exceed 10% of the net assets of the Compartment.
- 30.9 The Compartment may invest in structured products with or without embedded derivatives in accordance with article 41 of the 2010 Law and article 2 of the Grand-Ducal Regulation, such as, but not limited to, credit-linked notes, certificates or any other Transferable Securities whose returns are correlated with changes in, among others, equities, an index (including indices on volatility) selected in accordance with the article 9 of the Grand-Ducal Regulation, currencies, exchange rates, Transferable Securities or a basket of Transferable Securities or a UCI, at all times in compliance with the Grand-Ducal Regulation.
- 30.10 For hedging and for investment purposes, within the limits set out in Section 22 “Investment restrictions” of the main body of the Prospectus, the Compartment may use all types of financial derivative instruments traded on a Regulated Market and/or OTC provided they are

contracted with leading financial institutions specialised in this type of transactions and subject to regulatory supervision.

- 30.11 Nevertheless, in normal market conditions, the use of financial derivative instruments should be limited and will only consist in listed options and futures offering an exposure to equities.
- 30.12 If the Investment Manager considers this to be in the best interest of the Shareholders, on a temporary basis and for defensive purposes, the Compartment may also hold up to 100% of its net assets in liquidities as among others cash deposits, money market UCIs (within the 10% limit above-mentioned) and Money Market Instruments.

Risk considerations specific to the Compartment

- 30.13 The assets of the Compartment are subject to market fluctuations and the specific risks linked to investments in equity securities, in UCIs as well as to risks linked to the use of financial derivative instruments, Money Market Instruments and structured products.
- 30.14 Please refer to the Section 15 of the main body of the Prospectus headed “Risk considerations” above for further details in this connection.

Global risk exposure

- 30.15 The global risk exposure of the Compartment is monitored by the commitment approach. The Compartment may ensure that its total commitment arising from financial derivative instruments, for purposes other than hedging, does not exceed 100% of the Compartment’s net assets.

Performance

- 30.16 The performance of the Compartment will be disclosed in the KIIDs of the Compartment. In this connection, investors should note that past performance is not necessarily a guide to future performance. Investors may not get back the full amount invested, as prices of shares and the income from them may fall as well as rise.

Income distribution policy

- 30.17 This Compartment pursues a policy of achieving capital growth and reinvests income earned, as a result, no dividend shall be paid out. However, the Directors reserve their right to revise this policy at their discretion.

31. PROTEA FUND – NAO SUSTAINABLE EUROPE

Investors' profile

- 31.1 The compartment Protea Fund – NAO Sustainable Europe (hereinafter the “Compartment”) is a high risk vehicle aiming to provide capital growth. It may be suitable for investors who are seeking long term growth potential offered through an exposure to the equities markets. Hence it requires an investment horizon of at least 5 years.
- 31.2 There can be no assurance that the investment objective will be achieved.

Objectives and investment policy

- 31.3 The objective of the Compartment is to achieve capital appreciation over the medium and long-term while giving due consideration to environmental, social and governance (“ESG”) criteria.
- 31.4 Following a fundamental analysis of the stocks, the selection is based on the identification of long-term investment themes and on operational criteria (liquidity, value creation and cash flow generation).
- 31.5 The Compartment also seeks to identify sustainable and responsible companies whose business activities include, but are not restricted to, the development, the production, the promotion or the marketing of technologies, services or products which contribute to environment protection and life improvement.
- 31.6 To achieve its objective, the Compartment will invest at least 75% of its Net Assets in equities and equity-like securities issued by companies:
- With a suitable ESG profile, as determined by the Investment Manager; and
 - Which are listed on the stock exchanges of European countries within the Organisation for Economic Co-operation and Development (“OECD”);
 - Which are domiciled, headquartered or exercise the predominant part of their economic activity within European countries (for the sake of clarity including the United Kingdom and Switzerland) of the OECD, Japan and the United States.
- 31.7 However, the Compartment will not invest in ABS/MBS.
- 31.8 Except the geographical restriction and the focus on the ESG criteria, the choice of investments will not be limited by an economic sector or by the currency in which investments will be denominated. However, depending on market conditions, a particular focus can be placed on a single country and/or on a single currency and/or on a single economic sector.
- 31.9 The remaining assets can be invested in the following financial assets (which will not follow necessarily the ESG criteria): money market instruments, cash and equivalents; undertakings for collective investment (UCIs) within the 10% limit below-mentioned; financial derivative instruments.

31.10 However:

- The Compartment's investments in units or shares of UCIs (UCITS and/or UCIs other than UCITS referred in Section 22.3(e) of the main body of the Prospectus), shall not exceed 10% of the net assets of the Compartment.
- If the Investment Manager considers this to be in the best interest of the Shareholders, the Compartment may also hold, on a temporary basis and for defensive purposes, up to 100% of its net assets, in liquidities as among others cash deposits, money market UCIs (within the 10% limit above-mentioned) and Money Market Instruments.

Financial derivative instruments

31.11 For hedging and for investment purposes, within the limits set out in Section 22 "Investment restrictions" of the main body of the Prospectus, the Compartment may use all types of financial derivative instruments traded on a Regulated Market and/or OTC provided they are contracted with leading financial institutions specialized in this type of transactions and subject to regulatory supervision.

31.12 However, the Investment Manager intends to use principally options and/or futures on equities and currency financial derivatives.

31.13 The Compartment may use EPM Techniques within the limits described below as percentages of the Compartment's net assets:

	Maximum percentage	Expected percentage
Repurchase Transactions	20%	0%
Reverse Repurchase Transactions	20%	0%
Securities Lending	0%	0%
TRS	0%	0%

31.14 SFTs may have as underlying assets any financial instrument in which the Compartment may invest in accordance with its investment strategy and policy.

Risk considerations specific to the Compartment

31.15 The Compartment is subject to the specific risks linked to investments in equity securities and UCIs, and to market volatility linked to the investment in financial derivative instruments.

31.16 Please refer to the Section 15 of the main body of the Prospectus headed "Risk considerations" for further details in this connection.

Global risk exposure

31.17 The Compartment's global risk exposure is monitored by using the commitment approach. This approach measures the global exposure related to positions on FDIs which may not exceed the Compartment's net asset value.

31.18 The Compartment will ensure that its total commitment arising from financial derivative instruments, for purpose other than hedging, does not exceed 100% of its net assets.

Performance

31.19 The performance of the Compartment will be disclosed in the KIIDs of the Compartment. In this connection, investors should note that past performance is not necessarily a guide to future performance. Investors may not get back the full amount invested, as prices of shares and the income from them may fall as well as rise.

Income distribution policy

31.20 This Compartment pursues a policy of achieving capital growth and reinvests income earned; as a result, no dividend shall be paid out. However, the Directors reserve their right to revise this policy at their discretion.

32. PROTEA FUND – BPSA VOL PREMIUM FUND

Investors' profile

- 32.1 The compartment Protea Fund – BPSA Vol Premium Fund (the “Compartment”) is a medium risk vehicle aiming to provide capital appreciation. The Compartment is suitable for investors who seek to benefit from the “implied to realised” risk premium historically observed in the U.S. equity market. Hence, it requires an investment horizon of 1 year.

Objectives and investment policy

- 32.2 The investment objective of the Compartment is to take profit from the difference between the implied and the realised volatility of the US equity market. The investment strategy aims to capture the spread between the implied volatility (as measured by the VIX, a volatility index) and the 20 Day realised volatility of the S&P500 index.
- 32.3 The Compartment will mainly offer an exposure to the Bovay US Vol Premium ER USD index (hereafter the “Bovay Index”), the “Excess Return” version of the Bovay Vol Premium USD Index launched on 15 November 2015. The Bovay Index (Index Bloomberg Ticker JMLNVPUS <Index>), advised by Bovay & Partenaires S.A., is exposed between 0% and 100% to the J.P. Morgan Volemont US Short-Only Strategy index (the “Volemont”).
- 32.4 The Volemont seeks to capitalise on the long-term trend of the realised volatility of the S&P500 index (the “SPX Index”). This realised volatility is tending to be less than the implied volatility of that equity index. Thus, the Volemont sells synthetically 20-calendar day variance swaps on the SPX Index on a daily basis.
- 32.5 The Bovay Index, the Volemont and the SPX Index are financial indices selected in accordance with article 9 of the Grand-Ducal Regulation.
- 32.6 The objective is to be exposed to the Volemont index in favourable periods, especially when the VIX has risen and the carry is positive.
- 32.7 In order to achieve its objective, the Compartment will mainly invest:
- (a) in financial derivative instruments, such as total return swaps; and/or
 - (b) in investment grade debt securities and money market instruments; and/or
 - (c) in cash.
- 32.8 However, at any time and on a permanent basis, as a measure of capital preservation, the exposure of the Bovay index to the Volemont index can vary between 0% and 100%, due notably to market conditions and the Investment Manager's convictions. In a waking state, with typically low VIX and low realised volatility, the exposure will be low to average. However, in more active states, when the levels of the VIX and the realised volatility increase, the Investment Manager will increase the exposure of the Bovay index to the Volemont index.
- 32.9 Except the geographical focus on the U.S., the choice of investments will not be limited geographically, nor by economic sector, nor in terms of currencies in which investments will be

denominated. However, depending on financial market conditions, a particular focus can be placed in a single currency and/or in a single economic sector.

- 32.10 On an ancillary basis, the Compartment may invest in any other type of eligible assets, such as equities and UCIs. However, the Compartment will not invest more than 10% of its net assets in UCIs.
- 32.11 For hedging and for investment purposes, as referred in the chapter “Investment restrictions”, the Compartment may use all types of financial derivative instruments (including volatility derivatives) traded on a Regulated Market and/or OTC provided they are contracted with leading financial institutions specialised in this type of transactions and subject to regulatory supervision.
- 32.12 If the Investment Manager considers this to be in the best interest of the Shareholders, on a temporary basis and for defensive purposes, the Compartment may also hold up to 100% of its net assets, liquidities as among others cash deposits, money market UCIs (within the 10% above-mentioned limit) and money market instruments.
- 32.13 The Compartment may use EPM Techniques within the limits described below as percentages of the Compartment’s net assets:

	Maximum percentage	Expected percentage
Repurchase Transactions	0%	0%
Reverse Repurchase Transactions	0%	0%
Securities Lending	0%	0%
TRS	100%	100%

32.14 Bovay Index details

The Bovay Index sponsor and calculation agent is J.P. Morgan Securities plc and Bovay & Partenaires S.A. is the index allocator. The Bovay index, was established on 18 May 2018 (and on November 1st, 2015 for its Total Return version). For further information on the Bovay Index, investors are invited to consult the following website: www.bovay.ch/vol_premium.html. The complete breakdown of this index, historical performance information and index calculation method are available on the same page. Investors may obtain a paper version of the index rulebook on written request to the email address specified in the above-mentioned web page.

The Bovay Index has an exposure to one constituent (the “Constituent”): the Volemont (J.P. Morgan Volemont US Short-Only Strategy index).

The Constituent seeks to extract the “implied to realised” risk premium historically observed in the US equity market. This is implemented by the Constituent being short synthetic variance swaps. The index allocator will determine the exposure to this method by providing the weight to the Constituent from time to time. The weight to the Constituent is rebalanced based on the closing levels of the precedent business day.

The exposure of the Bovay Index to the Volemont index is rebalanced on a discretionary basis. It can be rebalanced on a daily basis but for the next business day by the index allocator. Such rebalancing has a cost as established in the index rules on the Bovay website. An estimate of the annual costs applied to the portfolio (based on an average exposure of 30% of the Bovay Index to the Volemont Index) ranges from 2% to 3% in respect of the Bovay Index and from 4% to 6% in respect of the Volemont index.

After transaction costs, the Volemont will generally yield a positive return, the carry, when the realised volatility of the SPX Index is consistently less than the implied volatility of the SPX Index, which may occur under normal market conditions.

Everyday, a variance swap is sold and its price is based on the implied volatility. On maturity date, 20 business days later, this variance swap has matured and its final price is then calculated on the realised volatility. A portion, 1/20 of the nominal, is settled and this operation is repeated every Business Day.

As of the date of this Prospectus, J.P. Morgan Securities plc, the administrator of the Bovay Index and of the Volemont index and (ii) Standard & Poor's Financial Services LLC, the administrator of the SPX Index, are not on the list of administrators held with ESMA in accordance with article 36 of the Benchmark Regulation. J.P. Morgan Securities plc benefits from the transitional provisions under Article 51 of the Benchmark Regulation to apply for admission on the list and Standard & Poor's Financial Services LLC benefits from a transitional period until 1 January 2020 to apply for (i) prior recognition in accordance with article 32 of the Benchmark Regulation or (ii) endorsement in accordance with article 33 of the Benchmark Regulation.

Risk considerations specific to the Compartment

- 32.15 The Compartment is subject to specific risks linked to market volatility linked to equity securities, to investments in financial derivative instruments, to interest rates risks linked to investments in debt securities and to the investment in Money Market Instruments.
- 32.16 Please refer to the Section 15 of the main body of the Prospectus headed "Risk considerations" above for further details in this connection.

Global risk exposure

- 32.17 The Compartment's global risk exposure is monitored by using the VaR approach which aims to estimate the maximum potential loss that the Compartment could suffer within a certain time horizon (one month) and with a certain confidence level (99% confidence interval), in normal market conditions. More specifically, the Compartment uses the absolute VaR option, whereby the Compartment's VaR is limited to 20%.
- 32.18 In addition, stress tests will be carried out in order to manage additional risks related to possible abnormal market movements at a specific point of time.
- 32.19 The expected level of leverage of this Compartment is 100% (gross commitment). This figure is computed as the sum of the absolute notional of the FDI, whereby a large part of these FDIs are used for hedging purposes. Depending on market conditions, higher leverage levels may be

used to increase the hedging component of the Compartment and/or generate a higher market exposure.

Performance

- 32.20 The performance of the Compartment will be disclosed in the KIIDs of the Compartment. In this connection, investors should note that past performance is not necessarily a guide to future performance. Investors may not get back the full amount invested, as prices of Shares and the income from them may fall as well as rise.

Income distribution policy

- 32.21 This Compartment pursues a policy of achieving capital growth and reinvests income earned, as a result, no dividend shall be paid out.

Calculation Day	One Business Day following the Valuation Day.
Settlement Day	Subscription: within three Business Days after the relevant Valuation Day. Redemption: within three Business Days after the relevant Valuation Day.

Fees specific to this Compartment

Investment management fee

- 32.31 The Compartment will pay to the Investment Manager a management fee as follows:

A USD	Up to 1.1% p.a.
A EUR (hedged)	Up to 1.1% p.a.
A CHF (hedged)	Up to 1.1% p.a.

- 32.32 The investment management fee will be calculated, on a monthly basis, in arrear, on the average net assets of the relevant category of Shares and will be payable monthly.

Performance fee

- 32.33 The Investment Manager will receive a performance fee, accrued on each Valuation Day, paid yearly, based on the Net Asset Value, equivalent to 10 % of the performance of the NAV per Share exceeding the High Water Mark (as defined hereafter).
- 32.34 The performance fee is calculated on the basis of the NAV after deduction of all expenses, liabilities, and management fees (but not performance fee), and is adjusted to take account of all subscriptions and redemptions.
- 32.35 The performance fee is equal to the out performance of the NAV per Share multiplied by the number of Shares in circulation during the calculation period. No performance fee will be due if the NAV per Share before performance fee turns out to be below the high water mark for the calculation period in question.
- 32.36 The high water mark is defined as the greater of the following two figures:
- (a) The last highest NAV per Share on which a performance fee has been paid; and
 - (b) The initial NAV per Share.
- 32.37 The High Water Mark will be decreased by the dividends paid to Shareholders.
- 32.38 Provision will be made for this performance fee on each Valuation Day. If the NAV per Share decreases during the calculation period, the provisions made in respect of the performance fee will be reduced accordingly. If these provisions fall to zero, no performance fee will be payable.
- 32.39 If Shares are redeemed on a date other than that on which a performance fee is paid while provision has been made for performance fees, the performance fees for which provision has been made and which are attributable to the Shares redeemed will be paid at the end of the period even if provision for performance fees is no longer made at that date. Gains which have not been realized may be taken into account in the calculation and payment of performance fees.
- 32.40 In case of subscription, the performance fee calculation is adjusted to avoid that this subscription impacts the amount of performance fee accruals. To perform this adjustment, the performance of the NAV per Share against the High Water Mark until the subscription date is not taken into account in the performance fee calculation. This adjustment amount is equal to the product of the number of subscribed Shares by the positive difference between the subscription price and the High Water Mark at the date of the subscription. This cumulated adjustment amount is used in the performance fee calculation until the end of the relevant period and is adjusted in case of subsequent redemptions during the period.
- 32.41 Calculation period shall correspond to each calendar year.
- 32.42 Performance fees are payable within 20 Business Days following the closing of the yearly accounts.

32.43 The formula for the calculation of the performance fee is as follows:

$$\begin{aligned}
 F &= 0 \\
 &\text{If } (B / E - 1) \leq 0 \\
 F &= (B / E - 1) * E * C * A \\
 &\text{If } (B / E - 1) > 0 \\
 \text{The new high water mark} &= \text{if } F > 0; D \\
 &\text{If } F = 0; E \\
 \text{Number of Shares outstanding} &= A \\
 \text{NAV per Share before performance} &= B \\
 \text{Performance fee rate (10\%)} &= C \\
 \text{NAV per Share after performance} &= D \\
 \text{High water mark} &= E \\
 \text{Performance fees} &= F
 \end{aligned}$$

32.44 The Investment Manager will receive a performance fee, accrued on each Valuation Day, paid yearly, based on the Net Asset Value, equivalent to 10 % of the performance of the NAV per Share exceeding the High Water Mark (as defined hereafter).

Initial Subscription Period

32.45 From 23 November 2018 to 14 December 2018, at the initial subscription price of 100, in respect of the relevant Class of Shares.

ANNEX 1

PRIVACY NOTICE

1. SCOPE OF THIS PRIVACY NOTICE

- 1.1 Investors who are individuals as well as individuals related to investors (including notably contact persons, representatives, agents, shareholders and beneficial owners) are hereby informed about the processing of their personal data (i.e. data by which individuals may be directly or indirectly identified) as well as of their rights in accordance with the Data Protection Legislation.
- 1.2 **Data Protection Legislation** means Regulation 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data (the “**GDPR**”), as well as any other applicable laws, regulations and sector recommendations containing rules for the protection of individuals with regard to the processing of personal data, as such legislation and guidance may be complemented, amended, replaced or repealed from time to time.
- 1.3 Unless otherwise defined herein, the terms “personal data”, “data subject”, “data controller”, “data processor” and “processing” (including the verb “to process”) shall have the meaning given to them in the applicable Data Protection Legislation.

2. DATA CONTROLLER

- 2.1 Any personal data provided to or collected in connection with an investment into the Fund will be processed (i.e. used, stored, transmitted, etc.) in accordance with this Privacy Notice by the Fund, acting as data controller.
- 2.2 If investors or individuals related to investors have any questions or comments or want to exercise their rights, they may contact the Fund’s manager at: europa-data-protection@pictet.com.
- 2.3 Other actors involved in the management of the investor relationship may process personal data for their own purposes in their capacity as data controllers (for instance the Administrative Agent and the relevant Investment Manager). In such case, these processing activities take place under the sole responsibility of these independent controllers and are governed by separate privacy notices.

3. PERSONAL DATA BEING PROCESSED

- 3.1 Information provided to the Fund may include but is not limited to:
 - Identification data (e.g.: name, e-mail, postal address, telephone number, country of residence);
 - Personal characteristics (e.g.: nationality, date and place of birth);
 - Government issued identifiers (e.g.: passport, identification card, tax identification number, national insurance number);

- Financial information (e.g.: bank details, credit history and credit score, income and other relevant information about the Investor's financial situation);
- Tax domicile and other tax related documents and information;
- Knowledge and experience in investment matters, including investments previously made;
- Origin of funds and assets;
- Communication data (e.g.: exchange of letters, telephone recordings, e-mail); and
- Any other personal information Investors have provided directly to the Fund,

(the **Personal Data**).

- 3.2 The Fund may collect Personal Data directly from the investors or individuals related to the investors or from other public or private legitimate sources.

4. PURPOSES FOR WHICH PERSONAL DATA IS BEING PROCESSED

- 4.1 The Fund processes the Personal Data where such processing is necessary:

For the conclusion and performance of a contract if the investor is an individual

- 4.2 This includes the processing of Personal Data for the purpose of the provision of investor-related services including account administration, handling of orders, management of subscription, redemption and transfer of shares, maintaining the register of Investors and distributions, managing distributions including the allocations of profit and loss between Investors, internal audit validations, communications and more generally performance of services requested by and operations in accordance with the instructions of the investor.

For compliance with legal and regulatory obligations

- 4.3 This includes the processing of Personal Data for the purpose of compliance with applicable legal and regulatory obligations such as the applicable legislation on markets in financial instruments ("MiFID"), Know-Your-Customer ("KYC"), and Anti-Money Laundering and Combating the Financing of Terrorism ("AML/CFT"), accounting obligations, complying with requests from, and requirements of, local or foreign regulatory or law enforcement authorities, tax identification and, as the case may be, reporting, notably under the act of 18 December 2015 concerning the automatic exchange of financial account information in tax matters implementing Council Directive 2011/16/EU on Administrative Cooperation in the field of Taxation (as amended by Council Directive 2014/107/EU), which is notably aimed at the implementation by financial institutions of reporting and due diligence rules which are fully consistent with those set out in OECD's standard for automatic exchange of financial account information (commonly referred to as the "CRS"), the act of 24 July 2015 approving the Agreement between the Grand Duchy of Luxembourg and the Government of the United States of America in view to improve international tax compliance and relating to the dispositions of the United States of America concerning the exchange of information commonly called the "FATCA", as the afore mentioned laws may be modified from time to time, and any other

automatic exchange of information (“AEI”) regimes to which the Fund may be subject from time to time.

- 4.4 With respect to FATCA and/or CRS purposes, (i) Personal Data may be processed and transferred to the Luxembourg Direct Tax Authority who may transfer such data to the competent foreign tax authorities, including the US Internal Revenue Service or any other US competent authority, only for the purposes provided for in the FATCA and the CRS rules as well as to service providers for the purpose of effecting the reporting on the Fund’s behalf and (ii) for each information request sent to the Investors, addressing such information requests is mandatory and failure to respond may result in incorrect or double reporting.

For the purpose of legitimate interests

- 4.5 Personal Data will be processed for risk management and fraud prevention purposes, for the evaluation of the investor’s financial needs, monitoring the investor’s financial situation including assessing its creditworthiness and solvency, to manage litigation and for marketing purposes. The Fund may also process Personal Data to the extent required for the establishment, exercise or defence of legal claims, for the protection of the rights of another natural or legal person or in the context of mergers, acquisitions and divestitures and the management of transactions related thereto.
- 4.6 If Personal Data was provided to the Fund by the investor (especially where the investor is a legal entity), the Fund may also process Personal Data relating to investor-related individuals in its legitimate interest for the purposes of the provision of investor-related services including account administration, handling of orders, evaluation of the investor’s financial needs, monitoring the investor’s financial situation including assessing its creditworthiness and solvency, management of subscription, redemption and transfer of Shares, maintaining the register of investors and distributions, managing distributions including the allocations of profit and loss between Investors, internal audit validations, communications and more generally the performance of services requested by and operations in accordance with the instructions of the investor.

Based on consent

- 4.7 This includes the use and further processing of Personal Data with the investor’s or the individual related to the investor’s consent (which consent may be withdrawn at any time, without affecting the lawfulness of processing based on consent before its withdrawal), e.g. for the purpose of receiving marketing materials (about products and services of the group of companies to which the Fund belongs or those of its commercial partners) or recommendations about services.

5. PERSONAL DATA BEING PROCESSED

- 5.1 Investors or individuals related to investors only have to provide those Personal Data that are necessary for the formation and termination of the relationship with the Fund and that are required for the Fund to comply with its legal obligations. Without the provision of these Personal Data, the Fund will not be able to enter into or continue the execution of the contract with the investor or to perform a transaction.

6. DATA RECIPIENT

6.1 The Fund may disclose Personal Data to recipients such as:

- any third parties as may be required or authorised by law (including but not limited to public administrative bodies and local or foreign public and judicial authorities, including any competent regulators);
- any third parties acting on the Fund's behalf, such as service providers, the Administrative Agent and the relevant Investment Manager, including their respective advisers, auditors, delegates, agents and service providers;
- any subsidiary or affiliate of the Fund (and their respective representatives, employees, advisers, agents, delegates, agents and service providers);
- any of the Fund's respective shareholders, representatives, employees, advisers, agents or delegates;
- persons acting on behalf of investors, such as payment recipients, beneficiaries, account nominees, intermediaries, correspondent and agent banks, clearing houses, clearing or settlement systems, market counterparties, upstream withholding agents, swap or trade repositories, stock exchanges, companies in which the Investor has an interest in securities; and
- parties involved in connection with any business reorganization, transfer, disposal, merger or acquisition on the level of the Fund.

7. TRANSFER OF PERSONAL DATA

7.1 For the purposes listed above, Personal Data will be transferred to any of the aforementioned recipients and service providers in countries located in or outside of the European Economic Area (the "EEA").

7.2 Personal Data may be transferred to the following countries located outside of the EEA: Switzerland.

7.3 Personal Data may be transferred to a country outside of the EEA on the basis of the fact that the European Commission has decided that such country ensures an adequate level of protection. Certain countries in which recipients and data processors may be located and to which Personal Data may be transferred may however not have the same level of protection of Personal Data as the one afforded in the EEA. Personal Data transferred to countries outside of the EEA in such case will be protected by appropriate safeguards such as standard contractual clauses approved by the European Commission. The investors who are individuals and individuals related to Investors whose data may be covered by such transfer may obtain a copy of such safeguards by contacting the Fund at the contact details set out in Section 2 above.

8. DATA RETENTION PERIOD

8.1 The Fund is subject to various retention and documentation obligations, which inter alia follow from the commercial code (*Code de Commerce*) and from AML/CFT and KYC legislation. The retention periods provided by those laws vary from five to ten years. If any relevant legal

claims are brought, the Fund may continue to process the Personal Data for such additional periods as necessary in connection with such claims.

- 8.2 The retention period will also be determined by the legal limitation periods that can for example be set forth by the commercial code and amount to up to ten years after the end of the contractual relationship with the investor.

9. AUTOMATED DECISION MAKING PROCESS INCLUDING PROFILING

- 9.1 The Fund does not use automated decision-making or profiling. Should the Fund use these procedures in individual cases, it will inform investors separately.

10. INDIVIDUAL'S RIGHTS

- 10.1 The following rights apply to the investor who is an individual and to individuals related to the investor (whether the latter is an individual or not) whose Personal Data have been provided to the Fund. All references made to investors below are deemed to refer to the individuals related to such investors if the investors are not themselves individuals.

Right to information, rectification, erasure and restriction of processing

- 10.2 Investors may request to obtain at no costs, within reasonable intervals, and in a timely manner, the communication of their Personal Data being processed, as well as all information on the origin of those data.
- 10.3 Investors have the right to rectify their Personal Data held about them that are inaccurate.
- 10.4 In cases where the accuracy of the Personal Data is contested, the processing is unlawful, or where investors have objected to the processing of their Personal Data, investors may ask for the restriction of the processing of such Personal Data. This means that Personal Data will, with the exception of storage, only be processed with or for the establishment, exercise or defence of legal claims, for the protection of the rights of another natural or legal person or for reasons of important public interest of the European Union or of an EU Member State. In case a processing is restricted, investors will be informed before the restriction of processing is lifted.
- 10.5 Investors may request the deletion of Personal Data held about them, without undue delay when the use or other processing of such Personal Data is no longer necessary for the purposes described above, and notably when consent relating to a specific processing has been withdrawn or where the processing is not or no longer lawful for other reasons.

Right to withdraw consent

- 10.6 Investors have the right to withdraw their consent at any time, without affecting the lawfulness of processing based on consent before its withdrawal.

Right to object

- 10.7 Investors may object to processing of their Personal Data which is based on the legitimate interests pursued by the Fund or by a third party. In such a case the Fund will no longer process these Personal Data unless the Fund has compelling legitimate grounds for the

processing which override investors' interests, rights and freedoms or for the establishment, exercise or defence of legal claims.

- 10.8 The investors' right to object is not bound to any formalities.

Right to data portability

- 10.9 Where the processing of data is based on consent or the execution of a contract with investors, investors also have the right to data portability for information they provided to the Fund – this means that investors can obtain a copy of their data in a commonly use electronic format so that they can manage and transmit it to another data controller.

Right to lodge a complaint

- 10.10 In addition to the rights listed above, should an investor or an individual related to an investor consider that the Fund does not comply with the applicable privacy rules, or has concerns with regards to the protection of their Personal Data, they may file a complaint with the Luxembourg data protection authority (the *Commission Nationale pour la Protection des Données* - CNPD) or another European data protection authority (e.g. in the country of residence of the investor).

11. AMENDMENT OF THIS PRIVACY NOTICE

- 11.1 This Privacy Notice may be amended from time to time to ensure that full information about all processing activities is provided. Changes to the Privacy Notice will be notified by appropriate means.
