\* For the multi-currency, hedged and duration hedged classes, the rate of the management fees is the same as the one applicable to the base currency equivalent classes. The TER figures presented in the table represent the maximum TER rate. Please refer to the Expense Subsidy section of the Notes to the Financial Statements for the details of TER Cap.

\*\* Please refer to the Directors' Report for details of all corporate actions that occurred during the year under review.

\* For the multi-currency, hedged and duration hedged classes, the rate of the management fees is the same as the one applicable to the base currency equivalent classes. The TER figures presented in the table represent the maximum TER rate. Please refer to the Expense Subsidy section of the Notes to the Financial Statements for the details of TER Cap.

\*\* Please refer to the Directors' Report for details of all corporate actions that occurred during the year under review.

# Appendix III – Global exposure and leverage (Unaudited)

## Method used to calculate global exposure

The following sections indicate whether the UCITS global exposure is managed under a commitment approach, a relative Value at Risk (relative VaR) approach or an absolute Value at Risk (absolute VaR) approach.

For funds managed under a VaR approach, additional information is provided on the VaR model, the VaR benchmark, the regulatory VaR limit usage and the level of leverage reached.

### 1. Commitment approach

The approach used for the funds with low derivative usage or funds which limit their derivatives commitment to 100% or less of their Net Asset Value.

# Appendix III – Global exposure and leverage (Unaudited) (cont)

## Information on the VaR limit usage & level of leverage

The level of leverage is an indication of the derivative usage and of any leverage generated by the reinvestment of cash received as collateral when using efficient portfolio management techniques. It does not take into account other physical assets directly held in the portfolio of the relevant Funds. The figure is not representative of the maximum amount that a fund could lose, as it includes the derivatives used to protect the Net Asset Value of a fund as well as the derivatives backed by risk free assets and derivatives which do not generate any incremental exposure, leverage or market risk from an economic perspective. The reported leverage figure is therefore not a true representation of the economic leverage<sup>1</sup> in the fund. The level of leverage disclosed is based on the total notional value<sup>2</sup> of all financial derivative instruments held by a fund and is expressed as a percentage of fund's Net Asset Value. For the purpose of this calculation the holdings and offset derivative positions ('long' and 'short' positions) do not cancel each other out and the figure is a sum of the total holdings (except for forwards used for currency hedging purposes).

| Sub-Fund                                  | Regulation VaR limit utilisation |         |         |                  |

## Information on the VaR limit usage & level of leverage

The level of leverage is an indication of the derivative usage and of any leverage generated by the reinvestment of cash received as collateral when using efficient portfolio management techniques. It does not take into account other physical assets directly held in the portfolio of the relevant Funds. The figure is not representative of the maximum amount that a fund could lose, as it includes the derivatives used to protect the Net Asset Value of a fund as well as the derivatives backed by risk free assets and derivatives which do not generate any incremental exposure, leverage or market risk from an economic perspective. The reported leverage figure is therefore not a true representation of the economic leverage<sup>1</sup> in the fund. The level of leverage disclosed is based on the total notional value<sup>2</sup> of all financial derivative instruments held by a fund and is expressed as a percentage of fund's Net Asset Value. For the purpose of this calculation the holdings and offset derivative positions ('long' and 'short' positions) do not cancel each other out and the figure is a sum of the total holdings (except for forwards used for currency hedging purposes).

# Appendix IV – Securities Financing Transactions (Unaudited)

The Sub-Funds engage in Securities Financing Transactions (SFT) (as defined in Article 3 of Regulation (EU) 2015/2365, securities financing transactions include repurchase transactions, securities or commodities lending and securities or commodities borrowing, buy-sell back transactions or sell-buy back transactions and margin lending transactions). In accordance with Article 13 of the Regulation, the Sub-Funds' involvement relating to their exposure on total return swaps for the year ended 31 December 2018 is detailed below:

## Schroder ISF QEP Global Value Plus

### Global Data

#### Amount of assets engaged in total return swaps

| Amount of Assets - Long Positions<br>USD  | % of AUM |
|---|----------|
| 38,145,180                                | 63.34%   |
| Amount of Assets - Short Positions<br>USD | % of AUM |
| 29,382,528                                | 48.79%   |
| Amount of Assets - Total<br>USD           | % of AUM |
| 67,527,708                                | 112.13%  |

### Concentration Data

#### Ten largest collateral issuers (across all SFT and total return swaps)

As at 31 December 2018, there are no collateral securities and commodities received in respect of total return swaps.

#### Top ten counterparties

| Counterparty  | Gross Volume of Outstanding Transactions<br>USD |
|---------------|---|
| HSBC Bank plc | 15,344,489                                      |
| UBS AG London | 52,183,219                                      |

The Sub-Fund only deals with two counterparties for its total return swaps.

### Aggregate Transaction Data

#### Type and quality of collateral

As at 31 December 2018, no collateral was received in respect of total return swaps.

#### Maturity tenor of collateral

As at 31 December 2018, no collateral was received in respect of total return swaps.

#### Currency of collateral

As at 31 December 2018, no collateral was received in respect of total return swaps.

#### Maturity tenor of total return swaps

| Maturity         | Long Positions<br>USD | Short Positions<br>USD | Total<br>USD      |

## Schroder ISF QEP Global Value Plus (cont)

### Country in which counterparties for total return swaps are established

| Counterparty  | Country        |
|---------------|----------------|
| HSBC Bank plc | United Kingdom |
| UBS AG London | United Kingdom |

### Settlement and clearing

The Sub-Fund utilises bi-lateral settlement and clearing with its counterparties for total return swaps.

### Re-use of Collateral

The Sub-Fund does not reuse or reinvest collaterals received, if any, on total return swaps.

### Safekeeping of Collateral

#### Collateral received

As at 31 December 2018, no collateral was received in respect of total return swaps.

#### Collateral granted

As at 31 December 2018, no collateral was granted in respect of total return swaps.

### Return and Cost

For the year ended 31 December 2018, data on return and cost in respect of total return swaps are as follows:

#### Return

|                                       | Return*<br>USD     |
|---------------------------------------|--------------------|
| Net interest on swaps                 | 1,083,186          |
| Net realised gains                    | 217,430            |
| Net change in unrealised depreciation | (4,100,310)        |
|                                       | <b>(2,799,694)</b> |

\* expressed in absolute terms

Return on total return swaps disclosed above are included as part of 'Net interest on swaps' disclosed in the Statement of Operations and 'Net realised gains/(losses) on total return swaps contracts' and 'Net change in unrealised appreciation/(depreciation) on total return swaps contracts' in the Statement of Changes in Net Assets.

#### Cost

The costs attributed to total return swaps held during the year were included in the spread.

### Currency of collateral

As at 31 December 2018, collateral was received in respect of total return swaps as follows:

| Currency | Market Value USD |
|----------|------------------|
| USD      | 270,000          |
|          | <b>270,000</b>   |

### Maturity tenor of total return swaps

| Maturity         | Long Positions USD | Short Positions USD | Total USD         |
|------------------|--------------------|---------------------|-------------------|
| less than 1 day  | -                  | -                   | -                 |
| 1 to 7 days      | -                  | -                   | -                 |
| 1 to 4 weeks     | -                  | -                   | -                 |
| 1 to 3 months    | -                  | -                   | -                 |
| 3 to 12 months   | -                  | -                   | -                 |
| more than 1 year | 15,270,750         | -                   | 15,270,750        |
| open maturity    | -                  | -                   | -                 |
|                  | <b>15,270,750</b>  | <b>-</b>            | <b>15,270,750</b> |

### Country in which counterparties for total return swaps are established

| Counterparty                                 | Country                  |
|--|--------------------------|
| Australia and New Zealand Banking Group Ltd. | Australia                |
| Citigroup Global Markets Ltd.                | United States of America |
| Standard Chartered Bank                      | United Kingdom           |

### Settlement and clearing

The Sub-Fund utilises bi-lateral settlement and clearing with its counterparties for total return swaps.

### Re-use of Collateral

The Sub-Fund does not reuse or reinvest collaterals received, if any, on total return swaps.

### Safekeeping of Collateral

#### Collateral received

Custody of collateral received in respect of total return swaps is as follows:

| Custodian                        | Market Value USD |
|----------------------------------|------------------|
| J.P. Morgan Bank Luxembourg S.A. | 270,000          |

#### Collateral granted

The proportion of collateral held in segregated accounts or in pooled accounts, or in any other accounts in respect of total return swaps is as follows:

| Account type | Market Value USD |
|--------------|------------------|
| Segregated   | 2,220,000        |
| Pooled       | -                |
| Other        | -                |
|              | <b>2,220,000</b> |

\* Please refer to the Directors' Report for details of all corporate actions that occurred during the year under review.

# Appendix IV – Securities Financing Transactions (Unaudited) (cont)

## Schroder ISF Asian Bond Total Return\* (cont)

OTC derivative transactions entered into by the Sub-Fund under an ISDA Master agreement are netted together for collateral purposes. Therefore, collateral disclosures provided above are in respect of all OTC derivative transactions and not just total return swaps.

### Return and Cost

For the year ended 31 December 2018, data on return and cost in respect of total return swaps are as follows:

#### Return

|                                       | Return*<br>USD     |
|---------------------------------------|--------------------|
| Net interest on swaps                 | 1,256,793          |
| Net realised gains                    | –                  |
| Net change in unrealised depreciation | (2,443,471)        |
|                                       | <b>(1,186,678)</b> |

\* expressed in absolute terms

Return on total return swaps disclosed above are included as part of 'Net interest on swaps' disclosed in the Statement of Operations and 'Net realised gains/(losses) on total return swaps contracts' and 'Net change in unrealised appreciation/(depreciation) on total return swaps contracts' in the Statement of Changes in Net Assets.

#### Cost

The costs attributed to total return swaps held during the year were included in the spread.

## Schroder ISF Asian Local Currency Bond

### Global Data

#### Amount of assets engaged in total return swaps

# Appendix V – Remuneration Disclosure

## UCITS remuneration disclosures for Schroder Investment Management Luxembourg S.A. (SIM Europe) for the year to 31 December 2017

These disclosures form part of the non-audited section of this annual report and accounts and should be read in conjunction with the Schroders plc Remuneration Report on pages 62 to 90 of the 2017 Annual Report & Accounts (available on the Group's website – [www.schroders.com/ir](http://www.schroders.com/ir)), which provides more information on the activities of our Remuneration Committee and our remuneration principles and policies.

The UCITS Material Risk Takers ('UCITS MRTs') of SIM Europe are individuals whose roles within the Schroders Group can materially affect the risk of SIM Europe or any UCITS fund that it manages. These roles are identified in line with the requirements of the UCITS Directive and guidance issued by the European Securities and Markets Authority.

The Remuneration Committee of Schroders plc has established a remuneration policy to ensure the requirements of the UCITS Directive are met for all UCITS MRTs. The Remuneration Committee and the Board of Schroders plc review remuneration strategy at least annually. The directors of SIM Europe are responsible for the adoption of the remuneration policy, for reviewing its general principles at least annually, for overseeing its implementation and for ensuring compliance with relevant local legislation and regulation. During 2017 the Remuneration Policy was reviewed and changes were made to ensure compliance with the UCITS/AIFMD remuneration requirements.

The implementation of the remuneration policy is, at least annually, subject to independent internal review for compliance with the policies and procedures for remuneration adopted by the Board of SIM Europe and the Remuneration Committee. The most recent review found no fundamental issues but resulted in a range of more minor recommendations, principally improvements to process and policy documentation.

The total spend on remuneration is determined based on a profit share ratio, measuring variable remuneration charge against pre-bonus profit, and from a total compensation ratio, measuring total remuneration expense against net income. This ensures that the interests of employees are aligned with Schroders financial performance. In determining the remuneration spend each year, the underlying strength and sustainability of the business is taken into account, along with reports on risk, legal and compliance matters from the heads of those areas.

The remuneration data that follows reflects amounts paid in respect of performance during 2017.

- The total amount of remuneration paid by SIM Europe to its 259 staff was €27.5 million of which €21.2 was fixed remuneration (e.g. salaries, benefits in kind) and €6.3 was variable remuneration (e.g. annual bonus awards or deferred bonus awards). Employees of other Schroders Group entities who serve as Directors of SIM Europe receive no additional fees in respect of their role on the Board of SIM Europe.
- The following disclosures relate to UCITS MRTs of SIM Europe. Most of those UCITS MRTs were employed by and provided services to other Schroders group companies and clients. As a result, only a portion of remuneration for those individuals is included in the aggregate remuneration figures that follow, based on an objective apportionment to reflect the balance of each role using relevant regulated AUM as a proportion of the total AUM within the scope of each role. The aggregate total remuneration paid to the 174 UCITS MRTs of SIM Europe in respect of the financial year ended 31 December 2017, and attributed to SIM Europe or the UCITS funds that it manages, is €33.6 million, of which €8.2 million was paid to senior management, €21.3 million was paid to MRTs deemed to be taking risk on behalf of SIM Europe or the UCITS funds that it manages and €4.1 million was paid to other UCITS MRTs.

For additional qualitative information on remuneration policies and practices see [www.schroders.com/rem-disclosures](http://www.schroders.com/rem-disclosures).
