# Schroder International Selection Fund

## The Company

Schroder International Selection Fund (the "Company") organised as a "société anonyme" is an open-ended 'umbrella' company incorporated under Luxembourg law, which enables investors to choose from 'Sub-Funds' (specific portfolios of assets and liabilities within the Company having their own net asset value and represented by a separate class or classes of shares) offering different investment objectives. The shares of each Sub-Fund are listed on the Luxembourg Stock Exchange. Prices are also available on Bloomberg and Reuters.

This report covers the year from 1 January 2018 to 31 December 2018. The financial statements are prepared in accordance with Luxembourg regulations relating to undertakings for collective investment. The last day on which prices were calculated was 31 December 2018, the last working day of the year and 28 December 2018, for Schroder ISF EURO Equity, Schroder ISF European Large Cap, Schroder ISF Italian Equity, Schroder ISF Japanese Equity, Schroder ISF Swiss Equity, Schroder ISF Asian Smaller Companies, Schroder ISF China A, Schroder ISF Emerging Markets, Schroder ISF Emerging Markets Equity Alpha, Schroder ISF European Alpha Focus, Schroder ISF European Special Situations, Schroder ISF Global Emerging Market Opportunities, Schroder ISF Global Emerging Markets Smaller Companies, Schroder ISF Japanese Opportunities, Schroder ISF Japanese Smaller Companies, Schroder ISF Korean Equity, Schroder ISF Swiss Equity Opportunities, Schroder ISF Swiss Small & Mid Cap Equity, Schroder ISF Taiwanese Equity, Schroder ISF Japan DGF and Schroder ISF Multi-Asset PIR Italia. At the date of this report, 124 Sub-Funds were available for investment. Please refer to the current prospectus for the investment objectives of the Sub-Funds as well as details of investment restrictions. The monthly factsheets for each Sub-Fund can be obtained from the Company's registered office and are also available on the website of Schroder Investment Management (Europe) S.A. (<http://www.schroders.lu>).

Hereafter, names of the Funds will be preceded by "Schroder ISF", e.g. Schroder ISF Global Equity Alpha.

Schroders is a FATCA compliant organisation. The FATCA classification of this entity and its GIIN is as follows: FATCA entity classification: FFI; Sponsoring entity: Schroder Investment Management (Europe) S.A.; Sponsoring entity GIIN: 4RIMT7.00000.SP.442

## Corporate Governance

The Company is subject to corporate governance based on:

1. Its obligations as defined by the UCITS Directive 2009/65/EC dated 13 July 2009, as implemented in Luxembourg law which is available for inspection at the registered office of the Company at 5, rue Höhenhof, 1736 Senningerberg, Grand Duchy of Luxembourg.
2. Its articles of incorporation which are available for inspection at the registered office of the Company and at the Luxembourg corporate and trade register, Registre de Commerce et des Sociétés ("RCSL").

3. Its obligations in respect of the management of the Company, for which the Company has appointed Schroder Investment Management (Europe) S.A. (the "Management Company"), which is subject to the requirements of the Management Company Directive 2010/43/EC, as implemented in Luxembourg law.
4. The Association of the Luxembourg Fund Industry ("ALFI") code of conduct, the principles of which the Company has voluntarily adopted.

## Internal Control and Risk Management Systems

The Board of Directors is responsible for establishing and maintaining adequate internal control and risk management systems of the Company in relation to the financial reporting process. Such systems are designed to manage rather than eliminate the risk of error or fraud in achieving the Company's financial reporting objectives and can only provide reasonable and not absolute assurance against material misstatement or loss.

The Board of Directors has contracted with the Management Company to put procedures in place to ensure all relevant accounting records are properly maintained and are readily available, including the production of annual and semi-annual reports. The annual and semi-annual reports of the Company are required to be approved by the Board of Directors of the Company and filed with the Commission de Surveillance du Secteur Financier ("CSSF") and, in the case of annual reports, with the RCSL.

The annual statutory financial statements are required to be audited by independent auditors who report to the Board of Directors on their findings.

The Board meets at least four times a year and ensures that the Company maintains high standards of integrity and control in its operations and that it possesses adequate governance and means of control as law and regulation demand.

# Directors' Report

## Introduction

The directors of the Company submit their report and the unaudited financial statements for the year ended 31 December 2018.

## Activities during the year

On 31 December 2018, the total net assets of the Company were EUR 92,631,538,118 compared to EUR 103,619,780,532 on 31 December 2017, representing a decrease of 10.60%.

### 1. New Sub-Funds

During the year under review, 9 new Sub-Funds were made available for investment within the Company:

- 29 January 2018** Schroder ISF Dynamic Indian Income Bond
- 27 June 2018** Schroder ISF All China Equity
- 6 August 2018** Schroder ISF Asian Credit Opportunities
- 12 December 2018** Schroder ISF European Sustainable Equity  
Schroder ISF Global Disruption
- 13 December 2018** Schroder ISF Global Sustainable Convertible Bond
- 17 December 2018** Schroder ISF Global Multi-Factor Equity  
Schroder ISF Sustainable Multi-Factor Equity  
Schroder ISF QEP Global ESG ex Fossil Fuels

### 2. New share classes

We have introduced a new share class designation for distribution shares which will allow us to launch multiple fixed distribution share classes with different distribution rates for the same fund. This will be identified in the share class name by the introduction of several characters as follows:

Distribution frequency (*M = monthly, Q = quarterly, S = semi-annual, A = annual*)  
Distribution type (*F = fixed or V = variable*)  
Currency carry (C)  
Different distribution rates

*This will enable the launch of multiple fixed distribution share classes with different distribution rates for the same fund.*

*The actual fixed percentage or amount will not be displayed in the name, instead a numerical suffix will differentiate the share classes (e.g. 2,3,n).*

In addition to the 44 share classes launched in new Sub-Funds on launch dates, the following share classes were also made available during the year under review:

- 17 January 2018** Schroder ISF Emerging Markets Equity Alpha E Acc
- 14 February 2018** Schroder ISF Emerging Asia IZ Acc EUR

# Investment Managers' Report

## Economic review

2018 began on a positive note with investor sentiment buoyed by the confirmation of a major US tax reform package in late 2017. However, some higher US inflation readings caused concern that the Federal Reserve (Fed) may need to hike interest rates more rapidly than the market had been expecting. Trade tensions also began to build and fears over the impact of a trade war between the US and China dominated much of the period.

Trade tariffs were applied to steel, aluminium, solar panels and washing machines early on in the year. The EU, Canada and China responded in kind. This would prove only a taste of things to come, with Washington releasing its first list of proposed China specific tariffs in April. The trade war intensified during the year but a temporary period of détente was reached in late 2018, with a new tranche of tariffs being put on hold while negotiations between the US and China took place in early 2019.

Despite the uncertainty caused by the trade wars, US economic activity remained robust. GDP growth for Q3 was an annualised 3.5%, albeit slowing from 4.2% in Q2. Employment data also remained strong. The US Federal Reserve (Fed) raised interest rates four times over the year, taking the Fed Funds target rate to 2.25-2.50% in December 2018. However, market worries grew that the central bank could be "over-tightening" monetary policy and at the end of the year the Fed lowered its forecast for future rate increases.

The eurozone started the year with forward-looking indicators suggesting growth would slow and that proved to be the case. Political risk returned with Italy holding an inconclusive election which eventually saw two populist parties form a coalition government. There then ensued a stand-off with the EU over the 2019 budget plans, which was only resolved towards year-end. Meanwhile, new emissions standards were brought in for all new cars sold from September. This caused a huge backlog of supply for manufacturers, with testing times taking much longer. European industrial production and retail sales slumped as a result. Nonetheless, the European Central Bank (ECB) ended its quantitative easing programme as planned in December 2018.

In the UK, the focus continued to be on its plans to leave the EU. Negotiations continued all year and the autumn saw a Withdrawal Agreement reached that would lead to a transition period until the end of 2020, with the future relationship yet to be negotiated. A backstop agreement was bolted on to temporarily solve the Irish border issue; however, the clause which requires a "mutual review mechanism" to end the backstop met a frosty reception in Westminster. As of the end of the year, the UK parliament had not approved the Withdrawal Agreement.

In Japan, Prime Minister Abe won his ruling party leadership election, keeping him on track to become the longest serving PM in Japanese history. He reaffirmed his plan to hike VAT to 10% in 2019. Over the summer, Japan was struck by a series of natural disasters and extreme weather. A combination of earthquakes, heavy flooding, extreme heat and typhoons caused hundreds of casualties and economic activity to contract in the third quarter.

In emerging markets, the fall-out from the US-China trade war was a dominant concern for many countries. Chinese economic growth slowed and the central bank took measures to stimulate the economy. There were notable elections in a number of emerging markets. Jacob Zuma resigned as president of South Africa after intense pressure from his own ANC party over corruption allegations. His deputy, Cyril Ramaphosa, took over. Mexico's election saw left-wing populist Andres Manuel Lopez Obrador (AMLO) emerge victorious. Jair Bolsonaro took victory in Brazil's October elections, the far-right candidate defeating the establishment parties on an anti-corruption platform. Argentina and Turkey both saw currency crises during the year. Argentina turned to a bailout package from the IMF while Turkey's central bank was forced to raise interest rates dramatically to 24%.

## Equity market review

Global equities, as represented by the MSCI World index, returned -8.7% (in US dollars) over the year. Most of the weakness was concentrated in the second half of the year and the final quarter in particular saw significant market volatility. US equities held up better than those in many other regions but the S&P 500 still delivered a negative return of -4.4% (US dollars). Even the previously unshakeable FAANG (Facebook, Amazon, Apple, Netflix, Google) stocks were not immune to the sell-off as data breaches and flagging sales hit all five, which were trading on gravity defying multiples to begin with.

The export-oriented markets of the eurozone and Japan were hit by uncertainty around the trade wars. Europe's MSCI EMU index returned -12.7% (in euros) and Japan's Topix returned -16%. The yen's status as a perceived safe haven saw it strengthen over the year, creating another headwind for Japanese exporters. The UK's FTSE All-Share returned -9.5% in sterling terms.

In emerging markets, countries closely linked to open global trade tended to fare poorly. The MSCI Emerging Markets index returned -14.6% in US dollar terms. Brazil was the best-performing emerging market country -0.5%. as its new president was seen as market friendly. Turkey was the year's worst performer, thanks to a collapse in the lira, with equities losing investors -41.1% in dollar terms.

*Source for all equity market data is Thomson Reuters DataStream*

## Bond market review

The past year saw volatility return to global financial markets amid building macro uncertainty and continued withdrawal of central bank support. US 10-year yields increased from 2.41% to 2.68%. They rose for much of the year on strong data, reaching the 52-week high of 3.23% in early-October, before retracing in Q4 due to pronounced risk aversion.

# Investment Managers' Report (cont)

Europe saw a continued and sustained weakening in economic activity. Bund 10-year yields declined from 0.42% to 0.25% over the year. Political developments in Italy unsettled markets, with significant volatility in Italian government yields and corporate bonds as a populist coalition government formed around mid-year, proposing expansive fiscal policies. Italy's 10-year spread over Bunds peaking at 327 basis points (bps) in November, after the EU rejected the budget proposal, but then narrowed markedly. Over the year, Italy's 10-year yields increased from 2.00% to 2.74%.

Corporate bonds had a difficult year, producing negative total returns and underperforming government bonds. The ICE BofAML Global Corporate Index returned -1.7%, an excess return of -2.6%, as spreads widened by 61bps. Global high yield (HY) returned -2.4% as spreads widened by 191bps. The majority of the spread widening occurred in the fourth quarter. This was especially the case for HY. While limited supply had supported the market for much of the year, sentiment deteriorated markedly into year-end amid sharp declines across risk assets. Weaker sectors included energy (impacted by the substantial falls in oil prices), capital goods and insurance (which tends to be exposed to market falls).

*Source for government bond market data is Bloomberg. Source for corporate bonds is ICE BofAML.*

## Outlook

Schroders economists have reduced their 2019 global growth forecast to 2.9%, marking the third consecutive quarterly downgrade. The global inflation forecast has increased to 2.9% for 2019 in spite of cheaper oil prices and slowing growth. This reflects stagflationary pressures as trade tensions look set to continue this year. The latest downgrade to global growth is driven by cuts to the eurozone and emerging markets. For 2020, Schroders economists forecast a further slowdown in global growth to 2.5%, primarily driven by the US.

For the US, the Fed is expected to raise rates once in 2019 to take the policy rate to 2.75% by June this year. UK rates are also expected to increase twice in 2019, assuming a smooth exit from the EU. In an effort to begin policy normalisation, the ECB is forecast to raise rates in September 2019. The Bank of Japan is expected to tweak the yield curve control policy to allow more flexibility around the 10-year government bond target. Meanwhile, the People's Bank of China is likely to ease the reserve requirement ratio and policy rates lower. Russia is expected to ease, but the interest rate cycle is expected to turn upwards in India and Brazil.

# Notes to the Financial Statements as at 31 December 2018

## The Company

The Company was incorporated in Luxembourg on 5 December 1968 as a 'société anonyme'. Pursuant to an Extraordinary General Meeting of Shareholders held on 31 January 1989, the form and name of the Company, as well as its establishment period, was changed to a 'société d'investissement à capital variable' ('SICAV') established for an unlimited period under the name of Schroder International Selection Fund. The company qualifies as an undertaking for collective investment (UCI) regulated by the provisions of Part I of the Luxembourg Law of 17 December 2010, as amended, regarding undertaking for collective investment (the '2010 law').

## Classes of Shares

At the date of this report, twenty four classes of shares are available within the Funds: A, A1, AX, B, C, CN, CX, D, E, F, I, IA, IB, IC, IZ, J, R, S, U, X, X1, X2, Y and Z shares.

All Funds offer A, B and C shares, apart from the following Funds:

Shares are generally issued as Accumulation shares. Distribution shares may be issued within any Fund at the Directors' discretion. A list of available Distribution shares may be obtained upon request at the Management Company.

In accordance with the provisions of the current prospectus, the Directors may also offer classes in multiple currency denominations. The respective Investment Managers have the ability to hedge the shares of such classes in relation to the Fund currency or in relation to currencies in which the relevant Fund's underlying assets are denominated. Where hedging of this kind is undertaken, the respective Investment Managers may engage, for the exclusive account of such share class, in currency forwards, currency futures, currency option transactions and swaps in order to preserve the value of the reference currency against the Fund currency. Where undertaken, the effects of this hedging will be reflected in the Net Asset Value and, therefore, in the performance of such additional share class. Similarly, any expenses arising from such hedging transactions will be borne by the class in relation to which they have been incurred. The classes of share available for each Fund are set out in detail in the current prospectus. The Directors may decide from time to time for some or all of the Bond Funds to issue duration hedged share classes. Duration hedged share classes utilise hedging strategies that seek to reduce the share class' sensitivity to changes in interest rate movements. There is no assurance that these hedging strategies will be successful. Where undertaken, the effects of this hedging will be reflected in the Net Asset Value and, therefore, in the performance of the share class. Similarly, any expenses arising from such hedging transactions will be borne by the duration hedged share class. The performance of the duration hedged share classes may underperform other share classes in the Bond Funds depending on interest rate movements. Duration hedged share classes can be issued in relation to any type of available share classes of Bond Funds.

The naming convention used for the share classes is as follows:

A Acc for base currency share class;  
A Acc 'CCY' for a multicurrency share class;  
A Acc 'CCY' Hedged for a hedged share class.

## Minimum Subscription Amount, Minimum Additional Subscription Amount and Minimum Holding Amount

In accordance with the provisions of the current prospectus, minimum amounts for subscription, additional subscription and holding are as follows:

**A, A1, AX, B, C, CN, CX, D, E, F, U and Y Shares** The minimum initial subscription, additional subscription and holding amount is EUR 1,000 or USD 1,000 or their near equivalent in any other freely convertible currency.\*\*

F shares will only be offered to investors who, at the time the relevant subscription order is received, are Singapore Investors utilising the Central Provident Fund ("CPF") to subscribe into the Company.

U Shares will only be available, with the prior agreement of the Management Company, through certain Distributors. U Shares will only be available for distribution in non-EEA countries.

Y Shares are only available at the Management Company's discretion to certain clients of Schroders. Before the Management Company can accept a subscription into Y Shares, a legal agreement must be in place between the Investor and Schroders containing terms specific to investment in Y Shares.

E Shares will only be available with prior agreement of the Management Company.

**I, J and IE Shares** The minimum initial subscription and holding amount is EUR 5,000,000 or USD 5,000,000 or their near equivalent in any other freely convertible currency. The minimum additional subscription amount is EUR 2,500,000 or USD 2,500,000 or their near equivalent in any other freely convertible currency.\*\*

I shares will only be offered to investors who, at the time the relevant subscription order is received, are clients of Schroders with an agreement covering the charging structure relevant to the clients' investments in such shares and who are Institutional Investors.

J Shares will only be offered to and can only be acquired by Japanese Fund of Funds, which are Institutional Investors.

**IA Shares** The minimum initial subscription and holding amount is EUR 250,000,000 or USD 250,000,000 or their near equivalent in any other freely convertible currency. The minimum additional subscription amount is EUR 20,000,000 or USD 20,000,000 or their near equivalent in any other freely convertible currency.\*\*

**IB Shares** The minimum initial subscription and holding amount is EUR 300,000,000 or their near equivalent in any other freely convertible currency. The minimum additional subscription amount is EUR 20,000,000 or their near equivalent in any other freely convertible currency.\*\*

**IC Shares** The minimum initial subscription and holding amount is EUR 350,000,000 or their near equivalent in any other freely convertible currency. The minimum additional subscription amount is EUR 20,000,000 or their near equivalent in any other freely convertible currency.\*\*

**IZ & Z Shares** The minimum initial subscription and holding amount is EUR 100,000,000 or USD 100,000,000 or their near equivalent in any other freely convertible currency. The minimum additional subscription amount is EUR 20,000,000 or USD 20,000,000 or their near equivalent in any other freely convertible currency.\*\*

IZ Shares will only be offered to and can only be acquired by Institutional Investors, with prior agreement of the Management Company.

Z Shares will be offered in limited circumstances to professional investors for distribution in certain countries and through certain Distributors, with the prior agreement of the Management Company.

\*\* These minima may be waived from time to time at the discretion of the Directors.

# Notes to the Financial Statements as at 31 December 2018 (cont)

## Minimum Subscription Amount, Minimum Additional Subscription Amount and Minimum Holding Amount (cont)

### X Shares

The minimum initial subscription and holding amount is EUR 25,000,000 or their near equivalent in any other freely convertible currency. The minimum additional subscription amount is EUR 12,500,000 or their near equivalent in any other freely convertible currency.\*\*

X shares will only be available, with prior agreement of the Management Company, to institutional investors, as may be defined from time to time by the guidelines or recommendations issued by the Luxembourg supervisory authority.

### X1 Shares

The minimum initial subscription and holding amount is EUR 22,500,000 or their near equivalent in any other freely convertible currency. The minimum additional subscription amount is EUR 12,500,000 or their near equivalent in any other freely convertible currency.\*\*

### X2 Shares

The minimum initial subscription and holding amount is EUR 20,000,000 or their near equivalent in any other freely convertible currency. The minimum additional subscription amount is EUR 12,500,000 or their near equivalent in any other freely convertible currency.\*\*

X1 and X2 shares will only be available, with prior agreement of the Management Company, to institutional investors, as may be defined from time to time by the guidelines or recommendations issued by the Luxembourg supervisory authority.

### R and S Shares

There are no minimum subscription or holding amounts.

\*\* These minima may be waived from time to time at the discretion of the Directors.

Further details on specific features of the different classes of shares and the conditions under which initial and distribution fees are calculated can be found in the current prospectus.

## Net Asset Value

### Calculation of Net Asset Value per Share

The Net Asset Value per share of each class is calculated on each Dealing Day in the currency of the relevant class. It is calculated by dividing the Net Asset Value attributable to each class, being the proportionate value of its assets less its liabilities, by the number of shares of such class then in issue. The resulting sum is rounded to the nearest four decimal places\*. Further details on rules that apply in valuing total assets can be found in the current prospectus.

### Valuation of the Assets of the Company

The value of securities, financial derivative instruments and assets is determined on the basis of the last available price on the stock exchange or any other regulated market on which those securities or assets are traded or admitted for trading. Where such securities or other assets are quoted or dealt in on more than one stock exchange or any other regulated market, the Directors shall make regulations for the order of priority in which stock exchanges or other regulated markets shall be used for the provision of prices of securities or other assets.

If a security is not traded on or admitted to any official stock exchange or any other regulated market or, in the case of securities so traded or admitted, the last available price does not reflect their true value, the Directors are required to proceed on the basis of their expected sales price, which shall be valued with prudence and in good faith.

Liquid assets and money market instruments are usually valued on an amortised cost basis.

Financial derivative instruments, which are not listed on any official stock exchange or any other regulated market, are valued in accordance with market practice. The swaps are valued at their fair value based on the underlying securities (at close of business or intraday) as well as on the characteristics of the underlying commitments.

Units or shares in undertakings for collective investments are valued on the basis of their last available net asset value.

The value of any cash in hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued as aforesaid and not yet received shall be deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof shall be arrived at after making such discount as the Company may consider appropriate in such case to reflect the true value thereof.

# Notes to the Financial Statements as at 31 December 2018 (cont)

## Net Asset Value (cont)

Any assets or liabilities in currencies other than the base currencies of the Sub-Funds will be converted using the relevant spot rate quoted by a bank or other responsible financial institution.

If any of the aforesaid valuation principles do not reflect the valuation method commonly used in specific markets or if any such valuation principles do not seem accurate for the purpose of determining the value of the Company's assets, the Directors may fix different valuation principles in good

faith and in accordance with generally accepted valuation principles and procedures.

The Directors are authorised to apply other appropriate valuation principles for the assets of the Sub-Funds and/or the assets of a given class if the aforesaid valuation methods appear impossible or inappropriate due to extraordinary circumstances or events.

As of 31 December 2018, fair valuation pricing was applied to the following securities:

| Security Name   | Sub-Fund   |
|---|--|
| Sole Realisation Co. plc  | Schroder ISF UK Equity                                 |

# Notes to the Financial Statements as at 31 December 2018 (cont)

## Fair Value Pricing

In accordance with the provisions of the current prospectus, fair value pricing may be implemented to protect the interests of the Company's shareholders against market timing practices. Accordingly, if a Fund is primarily invested in markets that are closed for business at the time the Fund is valued, the Directors may, during periods of market volatility and by derogation from the provisions above under 'Calculation of Net Asset Value per share', cause the Fund Administrator to allow for the Net Asset Value per share to be adjusted to reflect more accurately the fair value of the Fund's investments at the point of valuation.

The level of adjustment is based upon the movement in a chosen surrogate up until the point of valuation, provided that such movement exceeds the threshold as determined by

the Directors for the relevant Fund. The surrogate will usually be in the form of a futures index but might also be a basket of securities, which the Directors believe is strongly correlated to and representative of the performance of the Fund. Where an adjustment is made as per the foregoing, it is applied consistently to all classes of shares in the same Fund.

During the year under review, fair value pricing was applied to 15 Sub-Funds. The Directors, however, reserve the right to extend the implementation of fair value pricing in respect of other Sub-Funds whenever they deem it appropriate.

The Sub-Funds in relation to which fair value pricing was applied during the year under review as well as details of the relevant reference indices, thresholds and surrogates are shown in the following table:

| Sub-Fund                                  | Threshold | Surrogate                                   |
|---|-----------|---|
| Schroder ISF Global Climate Change Equity | 0.50%     | CME S&P 500 Index Futures                   |
| Schroder ISF Global Dividend Maximiser    | 0.50%     | CME S&P 500 Index Futures                   |
| Schroder ISF Global Equity                | 0.50%     | CME S&P 500 Index Futures                   |

# Notes to the Financial Statements as at 31 December 2018 (cont)

## Exchange Rates

The exchange rates used for the calculation of the combined total in Euro of the financial Statement as at 31 December 2018 are:

- 1 EUR = 1.144609966 USD;
- 1 EUR = 0.895065672 GBP;
- 1 EUR = 1.126410667 CHF;
- 1 EUR = 125.935711493 JPY;
- 1 EUR = 8.964585253 HKD;
- 1 EUR = 7.867819983 CNH

## Swing Pricing Adjustment

A Fund may suffer dilution of the Net Asset Value per Share due to investors buying or selling Shares in a Fund at a price that does not reflect the dealing and other costs that arise when security trades are undertaken by the Investment Manager to accommodate cash inflows or outflows. In order to counter this impact, a Swing Pricing mechanism may be adopted to protect the interests of Shareholders of the Fund. If on any Valuation Date, the aggregate net transactions in Shares of a Fund exceed a pre-determined threshold, as determined and reviewed for each Fund on a quarterly basis by the Management Company, the Net Asset Value per Share

may be adjusted upwards or downwards to reflect net inflows and net outflows respectively.

The net inflows and net outflows is determined by the Management Company based on the latest available information at the time of calculation of the Net Asset Value per Share. The Swing Pricing mechanism may be applied across all Sub-Funds. The extent of the price adjustment will be set by the Management Company to reflect dealing and other costs. Such adjustment may vary from Fund to Fund and will not exceed 2% of the original Net Asset Value per Share.

The swing pricing mechanism has been applied to the Company's Sub-Funds since 12 January 2009.

On 31 December 2018, the last working day of the year under review, swing pricing adjustment was applied to Schroder ISF China Opportunities, Schroder ISF Emerging Markets, Schroder ISF Global Energy, Schroder ISF Latin America, Schroder ISF Global Multi-Asset Flexible, Schroder ISF Global Conservative Convertible Bond, Schroder ISF Global Corporate Bond, Schroder ISF Global Credit Duration Hedged and Schroder ISF RMB Fixed Income. The official Net Asset Values per share of these Sub-Funds following the application of the swing pricing adjustment are shown in the following table. All other financial information stated in this report is shown before any adjustments for swing pricing.

# Notes to the Financial Statements as at 31 December 2018 (cont)

## Taxation

The Company is not subject to any taxes in Luxembourg on income or capital gains. The only tax to which the Company in Luxembourg is subject is the 'taxe d'abonnement' to a rate of 0.05% per annum based on the net asset value of each Fund at the end of the relevant quarter, calculated and paid quarterly. In respect of any Share Class or Fund which comprises only institutional Investors (within the meaning of Article 174 of the Law), the tax levied will be at the rate of 0.01% per annum.

## Changes in the Funds

A list specifying the total purchases and sales for each Fund, which took place during the year under review, may be obtained free of charge upon request at the Company's registered office.

## Disclosure of Transaction Costs

The transaction costs are broker commission fees and taxes related to the purchase and sale of transferable securities. The transaction costs are shown net of the corresponding elements of the swing pricing factors that were applied when net flows in a Fund exceeded 1% on any business day during the year under review. Custodian transaction costs are not

The transactions costs for the year under review are as follows:

| Sub-Funds  | Currency | Transaction costs |

\* Please refer to the Directors' Report for details of all corporate actions that occurred during the year under review.

## Transactions made for a Purpose other than Hedging

In accordance with the provisions of the current prospectus, the Company may, for a purpose other than hedging, purchase and sell futures contracts, forward foreign exchange contracts, financial derivative instruments that are traded OTC including, without limitation, total return swaps, contracts for difference or other financial derivative instruments with similar characteristics and equity swaps provided that the Company will only enter into equity swap transactions with highly rated financial institutions specialised in this type of transactions.

## Securities Lending

There has been no securities lending activity on the Company's Sub-Funds since December 2012.

included in this table, please refer to the 'Custodian Fees' shown in the Statement of Operations. Bond Sub-Funds will generally show the figure of zero as the broker commission fees are included in the spread, which is excluded from the calculation pursuant to Annex I, Schedule B, Chapter V of Directive 2009/65/EC of the European Parliament.

### Investing in Russian securities

Those Sub-Funds with an investment objective that allows investment in Russian securities may invest directly in Russian securities that are traded on the Moscow Exchange. Securities traded on the Russian Trading Stock Exchange can be treated as investments in securities dealt in on a Regulated Market.

### Investment Restriction

To ensure eligibility for the French Plan d'Épargne en Actions (PEA), Schroder ISF EURO Equity, Schroder ISF European Dividend Maximiser, Schroder ISF European Alpha Focus, Schroder ISF European Large Cap, Schroder ISF UK Equity and Schroder ISF UK Opportunities will invest at least 75% of their assets in equity securities issued by companies which have their head office in the European Union, or in an EEA state that has signed a tax agreement with France, including a clause on combating fraud and tax avoidance.

## Information for Residents of the Hong Kong SAR

### Registration of Sub-Funds

On 31 December 2018, all the Sub-Funds of the Company, except for those indicated in the table below were registered for sale in Hong Kong SAR.

In relation to the Sub-Funds that were registered in Hong Kong SAR, only A, A1, C and D shares were available for retail investors.

## Soft Commission Arrangements

Pursuant to the requirements of the Hong Kong Securities and Futures Commission regulations, the following statement is made:

Soft commission arrangements have been undertaken in respect of the Company. Services which are paid for through or by soft commission were in majority limited to the following areas:

- research, analysis or price information including computer or other information facilities;
- portfolio valuations;
- performance measurement.

## Transactions with Connected Persons

The Company has entered into agreements and arrangements with Schroder Investment Management Limited and its affiliates, under which a management fee, performance fee

and a transfer agency fee are payable. These agreements and arrangements have been entered into in the ordinary course of business and on normal commercial terms. The details of the management fees and performance fees are set out in the Notes to the Financial Statements.

In addition, the Management Company is entitled to receive the customary charges for its services as administration agent, coordinator, domiciliary agent, global distributor, principal paying agent and registrar and transfer agent. These fees accrue daily at an annual rate of up to 0.25% by reference to the Net Asset Value of the relevant Fund and are paid monthly in arrears.

Further details on fees payable by the Company can be found in the current prospectus. No transactions of the Company were effected through a broker who is a connected person of the Management Company, the Investment Adviser, or the Directors of the Company.

## Expense Subsidy

The administration fees, custodian fees, distribution fees, management fees and statutory fees are calculated and accrued daily by reference to the Net Asset Value of the Sub-Funds and are paid monthly. These fees were monitored to ensure the total expenses incurred were not deemed to be significant relative to the Net Asset Value of the Sub-Funds (above threshold agreed by the Board of Directors).

The following table shows the share classes whose TER was above the designated CAP as at 31 December 2018.

| Sub-Fund and class                               | TER Cap |
|--|---------|

## Directors' Fees

For the year from 1 January 2018 until 31 December 2018, Eric Bertrand, Marie-Jeanne Chevremont-Lorenzini and Bernard Herman each received in remuneration the amount of EUR 54,167 and Daniel de Fernando Garcia received in remuneration the amount of EUR 50,000.

The remaining directors have waived their remuneration.

## Management Fees

The Investment Managers are entitled to receive management fees for their services, which are calculated and accrued daily by reference to the Net Asset Value of the Sub-funds and are paid monthly. No management fees are payable out of the net assets for I and J share classes, however the Investors are charged directly by Schroders. The actual rates payable as at 31 December 2018, which vary from Fund to Fund and from share class to share class are set out in the following tables. Please refer to the Director's report for changes to the management fees that occurred during the year under review:

## Performance Fees

In accordance with the provisions of the current prospectus, performance fees terms were applied to 9 Sub-Funds. Accordingly, the Investment Managers of the relevant Sub-Funds are entitled to receive from the Sub-Funds a performance fee, in addition to management fee, provided that the increase in the Net Asset Value per share of the Sub-Funds over the calendar year outperforms their relevant benchmarks over the same period, in accordance with the high water mark principle, i.e. by reference to the Net Asset Value per Share at the end of any previous performance period (the High Water Mark). The performance period shall normally be each financial year except that where the Net Asset Value per Share as at the end of the financial year is lower than the High Water Mark, the performance period will commence on the date of the High Water Mark.

If a performance fee is introduced on a Fund during a financial year, then its first performance period will commence on the date on which such fee is introduced. The performance fee is 15% of the outperformance (except for Schroder ISF European Alpha Focus, Schroder ISF QEP Global Equity Market Neutral\*\*, which is set at 10%, and for Schroder ISF European Alpha Absolute Return, Schroder ISF European Equity Absolute Return and Schroder ISF European Market Neutral and Schroder ISF European Sustainable Absolute Return which is set at 20%) and is payable annually in January. Further details of the calculation of the performance fees can be found in the current prospectus.

The Sub-Funds in relation to which performance fees were calculated during the year under review as well as details of the relevant Investment Managers and benchmarks are set out in the following table.

| Sub-Fund  | Investment Manager                              | Benchmark                                       |
|---|---|---|
| Schroder ISF European Alpha Absolute Return     | Schroder Investment Management Limited          | 3 Month EUR London Interbank Offer Rate Act 360 |
| Schroder ISF European Alpha Focus               | Schroder Investment Management Limited          | MSCI Europe Net TR                              |

## Cash Collateral Reinvestment

For the purpose of counterparty risk mitigation, Sub-funds with currency hedging transactions related to hedged share classes will pay or receive cash collateral on a daily basis from the counterparty, thus reducing their exposure over the duration of the forward contract.

Investment Managers may reinvest the cash collateral they receive from their counterparty in connection with currency hedging.

Collateral receivable or payable at the maturity date of the forward contracts are shown in the Statement of Net Assets as 'Hedged Currency Class Forward Contract Collateral Receivable/Payable'. Collateral calls receivable or payable are shown in the Statement of Net Assets as 'Net Hedged Currency Class Forward Contract Collateral Calls Receivable/Payable'.

## Forward Foreign Exchange Contracts

Outstanding forward foreign exchange contracts were valued at the last available price on 31 December 2018, by reference to the forward rate of exchange applicable to the maturity of the contracts. The unrealised appreciation/(depreciation) is shown in the Statement of Net Assets under 'Net unrealised

appreciation/(depreciation) on forward foreign exchange contracts'. As at 31 December 2018, the following Sub-funds were committed to outstanding forward foreign exchange contracts:

# Notes to the Financial Statements as at 31 December 2018 (cont)

# Notes to the Financial Statements as at 31 December 2018 (cont)

## Inflation Swaps

The Company invests in inflation swaps as part of the investment strategy. Inflation swaps were valued with the last available price on 31 December 2018, at their intrinsic value. The valuation method involves the determination of the net present value of future cash flows at the closing

date. The result of these revaluations together with any interest receivable/payable in relation to inflation swaps is shown in the Statement of Net Assets under 'Net unrealised appreciation/(depreciation) on inflation swaps contracts'.

As at 31 December 2018, the following Sub-Funds were committed to inflation swaps:

# Notes to the Financial Statements as at 31 December 2018 (cont)

## Interest Rate Swaps

In order to hedge against interest rate fluctuations, the Company may enter into interest rate swaps provided:

- The commitments deriving there from do not exceed the value of the relevant assets to be hedged; and
- The total amount of such transactions does not exceed the level necessary to cover the risk of the fluctuation of the value of the assets concerned.

Such contracts must be denominated in the currencies in which the assets of such Sub-Fund are denominated, or in

currencies which are likely to fluctuate in a similar manner and must be either listed on an exchange or dealt in on a Regulated Market. Interest rate swaps were valued at the last available price on 31 December 2018 at their intrinsic value. The valuation method involves a current value of each interest rate and capital series converted into the currency of the Sub-Fund on the closing date. The result of these revaluations together with any interest receivable/payable in relation to interest rate swaps on 31 December 2018 is shown in the Statement of Net Assets under 'Net unrealised appreciation/(depreciation) on interest rate swaps contracts'.

As at 31 December 2018, the following Sub-Funds were committed to interest rate swaps:

| Description                                     | Counterparty   | Nominal Amount | Currency | Maturity Date | Unrealised Appreciation/ (Depreciation) |

# Notes to the Financial Statements as at 31 December 2018 (cont)

## Total Return Swaps

The Company may use total return swaps. A total return swap is a bilateral financial contract which allows the Company to enjoy all of the cash flow benefits of an asset without actually owning this asset (the 'Reference Asset'). The Company will have to pay a periodic fee (fixed or floating payment) in exchange of its right to receive the total return of the Reference Asset (coupons, dividends and capital gains or losses). The Reference Asset can be almost any asset, index or basket of asset which constitutes an eligible investment for the Company. The Company may use such instruments to seek exposure to an eligible market or for hedging purposes.

The Company will only enter into a total return swap transaction with highly rated financial institutions specialised in this type of transaction. In addition, the use of total return swap must comply with the investment objectives and policies and risk profile of the relevant Sub-Fund. The total commitments arising from the use of total return swaps

together with the total commitments arising from the use of other derivative instruments may not, at anytime, exceed the net assets of the relevant Sub-Fund.

The total return swaps were valued at the last available price on 31 December 2018. The unrealised gain or loss on total return swaps at the year end is represented by the values of interests to be received (or paid), based on relevant swap agreements' interest rates less (or plus, respectively), the value of the performance to be paid (or received, respectively), based on the total return value of underlying assets, which is made of the current fair value of the bonds plus the coupon for such debt instruments for the relevant swap period. The unrealised appreciation/(depreciation) is shown in the Statement of Net Assets under 'Net unrealised appreciation/(depreciation) on total return swaps contracts'.

As at 31 December 2018, the following Sub-Funds were committed to total return swaps:

## Commitments

Schroder ISF Global Diversified Growth committed to invest EUR 5,000,000 in Schroder Private Equity Fund of Funds IV Class C (the 'Underlying Fund') in a secondary purchase transaction representing 5,000,000 shares at an initial price of EUR 1.00 per share.

As at 31 December 2018, the Board deem all shares repurchased to date to be fully paid.

The payment of 20% of shareholders' original equity commitments has so far been waived by the Directors of Schroder Private Equity Fund of Funds IV plc, leaving 15% of shareholders' original equity commitments outstanding. The Board reserve their right to call shareholders' outstanding equity commitments at their discretion.

## Subsequent Events

On **6 February 2019**, the following share classes were launched:

Schroder ISF Global Recovery EZ Dis AV

Schroder ISF European Alpha Absolute Return A Dis SV

Schroder ISF Emerging Market Bond C Dis MV

Schroder ISF Global Credit Income A1 Dis MV1

As at 21 March 2019, all UCITS fund ranges are fully registered in the UK. As required by the Financial Conduct Authority (FCA), Schroders entered into Temporary Permissions Regime (TPR).

This regime will allow Schroders funds to be distributed and marketed in the UK/ to UK investors after Brexit.

## Audit Report

To the Shareholders of  
**Schroder International Selection Fund**

---

### *Our opinion*

In our opinion, the accompanying financial statements give a true and fair view of the financial position of Schroder International Selection Fund and of each of its sub-funds (the "Fund") as at 31 December 2018, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

### **What we have audited**

The Fund's financial statements comprise:

- the statement of net assets as at 31 December 2018;
- the portfolio of investments as at 31 December 2018;
- the statement of operations for the year then ended;
- the statement of changes in net assets for the year then ended; and
- the notes to the financial statements, which include a summary of significant accounting policies.

---

### *Basis for opinion*

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" (CSSF). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the "Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the financial statements" section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Fund in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements. We have fulfilled our other ethical responsibilities under those ethical requirements.

---

### *Other information*

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our audit report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

---

### *Responsibilities of the Board of Directors of the Fund for the financial statements*

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

---

*PricewaterhouseCoopers, Société coopérative, 2 rue Gerhard Mercator, B.P. 1443, L-1014 Luxembourg  
T: +352 494848 1, F: +352 494848 2900, www.pwc.lu*

*Cabinet de révision agréé. Expert-comptable (autorisation gouvernementale n°10028256)  
R.C.S. Luxembourg B 65 477 - TVA LU25482518*

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

### ***Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the financial statements***

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit.

We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control;
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund;
- conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the Fund to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

\*\* The data shown is based on the last available pricing day, 28 December 2018.

\*\*\*\*\* Schrodgers has agreements in place to receive rebates on the management fees of some underlying investments. Accruals are booked on a weekly basis to reflect payments due to the sub-funds and also to reflect payments received to the sub-funds. The income derived for the year under review is shown in the Statement of Operations under 'Income from management fee rebates'.

\*\*\*\*\* The Management Company of Schroder ISF Global Diversified Growth has undertaken to subsidise the underlying management fees of certain investments made by the fund. Accruals for the subsidy are booked on a monthly basis.

The notes on pages 19 to 298 form an integral part of these financial statements.

\*\* The data shown is based on the last available pricing day, 28 December 2018.

\*\*\*\*\* Schrodgers has agreements in place to receive rebates on the management fees of some underlying investments. Accruals are booked on a weekly basis to reflect payments due to the sub-funds and also to reflect payments received to the sub-funds. The income derived for the year under review is shown in the Statement of Operations under 'Income from management fee rebates'.

\*\*\*\*\* The Management Company of Schroder ISF Global Diversified Growth has undertaken to subsidise the underlying management fees of certain investments made by the fund. Accruals for the subsidy are booked on a monthly basis.

The notes on pages 19 to 298 form an integral part of these financial statements.

\*\*\*\*\* Schrodgers has agreements in place to receive rebates on the management fees of some underlying investments. Accruals are booked on a weekly basis to reflect payments due to the sub-funds and also to reflect payments received to the sub-funds. The income derived for the year under review is shown in the Statement of Operations under 'Income from management fee rebates'.

\*\*\*\*\* The Management Company of Schroder ISF Global Diversified Growth has undertaken to subsidise the underlying management fees of certain investments made by the fund. Accruals for the subsidy are booked on a monthly basis.

The notes on pages 19 to 298 form an integral part of these financial statements.
