In the case of shares which are distributed in Switzerland or from Switzerland, the place of performance and the forum are at the domicile of the Swiss representative of the Fund in Zürich.

Reporting Fund Status (relevant to UK Shareholders only)

It is the policy of the Company to apply to HM Revenue and Customs ("HMRC") for certification of all share classes (with the exception of GAM Star Alpha Spectrum and the non UK RFS Classes of the relevant Funds) as reporting funds as defined in the Offshore Funds (Tax) Regulations 2009.

Investment Objectives

The investment objectives of each Fund are set out below.

GAM Star Absolute Return Bond

(Fund terminated on 23 July 2019)

The investment objective of the Fund was to invest at least 85% of its assets in GAM Multibond Absolute Return Bond Fund (the "Master Fund"), the investment objective of which was to achieve a long term positive (absolute) return in both rising and falling financial markets while observing the principle of risk diversification. The Master Fund is a sub-fund of GAM Multibond which is established as a societe d'investissement, a capital variable, and is authorised by the Commission de Surveillance du Secteur Financier in Luxembourg ("CSSF") as a UCITS. The Master Fund is managed by GAM International Management Limited, which has also been appointed as Co-Investment Manager of the Fund.

GAM Star Absolute Return Bond Defender

(Fund terminated on 23 July 2019)

The investment objective of the Fund was to invest at least 85% of its assets in GAM Multibond Absolute Return Bond Fund Defender (the "Master Fund"), the investment objective of which was to achieve a long term positive (absolute) return in both rising and falling financial markets while observing the principle of risk diversification. The Master Fund is a sub-fund of GAM Multibond which is established as a societe d'investissement, a capital variable, and is authorised by the Commission de Surveillance du Secteur Financier in Luxembourg ("CSSF") as a UCITS. The Master Fund is managed by GAM International Management Limited, which has also been appointed as Co-Investment Manager of the Fund.

GAM Star Absolute Return Bond Plus

(Fund terminated on 23 July 2019)

The investment objective of the Fund was to invest at least 85% of its assets in GAM Multibond Absolute Return Bond Fund Plus (the "Master Fund"), the investment objective of which was to achieve a long term positive (absolute) return in both rising and falling financial markets while observing the principle of risk diversification. The Master Fund is a sub-fund of GAM Multibond which is established as a societe d'investissement, a capital variable, and is authorised by the Commission de Surveillance du Secteur Financier in Luxembourg ("CSSF") as a UCITS. The Master Fund is managed by GAM International Management Limited, which has also been appointed as Co-Investment Manager of the Fund.

GAM Star Absolute Return Macro

(Fund terminated on 17 July 2019)

The investment objective of the Fund was to seek to achieve consistent positive returns over the long term while observing the principle of risk diversification. The Fund aimed to achieve this by blending discretionary and model driven investment strategies which may generate exposure (either directly or indirectly through the use of financial derivative instruments) principally to fund income instruments and currencies.

GAM Star Alpha Spectrum

The investment objective of the Fund is to seek to achieve an attractive return on capital while simultaneously attempting to limit the risk of capital loss. The Fund aims to achieve this investment objective by gaining exposure to equity, fixed income and trading strategies. Such exposure may be achieved principally through investment in open-ended collective investment schemes deploying equity long only, equity hedge, fixed income and trading strategies.

GAM Star Alpha Technology

The investment objective of the Fund is to achieve long term capital appreciation. The Fund seeks to achieve this objective by taking long and short positions primarily in equities or equity related derivative contracts of technology related companies. Such companies will be listed on or dealt in Recognised Markets globally (including in Emerging Markets as described in the Prospectus) and up to 10% of its Net Asset Value ("NAV") may be invested in unlisted equities of such companies.

GAM Star Asian Equity

The investment objective of the Fund is to achieve capital appreciation through investment primarily in quoted securities which are issued by public companies with principal offices or significant business activities in the Asian region, excluding Japan.

GAM Star Asia-Pacific Equity

The investment objective of the Fund is to achieve long-term capital appreciation through investing, primarily in quoted equity securities, in companies with principal offices in the Pacific Basin, including Australia, China, Hong Kong, India, Indonesia, Japan, Malaysia, New Zealand, Pakistan, the Philippines, Singapore, South Korea, Sri Lanka, Taiwan and Thailand.

GAM Star Global Balanced

The investment objective of the Fund is to seek to achieve an attractive return on capital while simultaneously attempting to limit the risk of capital loss. This investment objective may be achieved primarily through investment in open-ended collective investment schemes which gain exposure to equities, Fixed Income Securities, property, commodities and currencies as set out in the Prospectus. The Fund will not invest directly in property or commodities and such indirect exposure shall be generated as described in the Prospectus.

GAM Star Capital Appreciation US Equity

The investment objective of the Fund is to achieve long-term capital appreciation. It will be the policy of the Fund to invest primarily in equities and other equity related securities (including preferred shares, convertible bonds, American Depositary Receipts and exchange traded funds) which are issued by companies with principal offices in the United States of America, which exercise their primary economic activity in the United States of America, or which are listed on or dealt in a Recognised Market in the United States of America.

GAM Star Cat Bond

The investment objective of the Fund is to seek to generate returns through selective investment in a global portfolio of catastrophe bonds ("Cat Bonds"). Cat Bonds are debt securities that transfer the risk of catastrophic events from insurance companies, reinsurance companies, corporations, governments, etc. to the capital markets.

GAM Star Global Cautious

The investment objective of the Fund is to seek to achieve long term capital growth with lower volatility than a fund which invests solely in equities. The Fund aims to achieve this investment objective primarily through investment in open-ended collective investment schemes which provide exposure to equities, Fixed Income Securities, property, commodities and currencies as set out in the Prospectus.

GAM Star China A Equity

(Approved on 12 December 2014. Not yet launched)

The investment objective of the Fund is to achieve capital appreciation. GAM International Management Limited and GAM Hong Kong Limited, which have been appointed as Co-Investment Managers to the Fund, intend to achieve this investment objective through investment primarily in China A shares listed on or dealt in the Shanghai Stock Exchange ("SSE") or the Shenzhen Stock Exchange ("SZSE") ("China A Shares").

GAM Star China Bond

(Approved on 27 September 2016. Not yet launched.)

The investment objective of the Fund is to provide long-term capital growth and income. The Fund seeks to achieve this investment objective through investment primarily in Fixed Income Securities and Money Market Instruments denominated in Renminbi ("RMB") issued by entities located in the People's Republic of China (the "PRC") or by entities which carry out a predominant proportion of their business activities in the PRC. The Fund may also invest up to 100% of net assets in instruments issued by government, government agencies, supra-national agencies located in the PRC in accordance with the requirements set out in the Investment Restrictions section of the Prospectus.

GAM Star China Equity

The investment objective of the Fund is to achieve capital appreciation through investment primarily in quoted equity securities listed on or dealt in any Recognised Market and which are issued by companies with principal offices or significant business activities in the People's Republic of China and Hong Kong.

GAM Star China Focus

(Approved on 12 October 2015. Not yet launched)

The investment objective of the Fund is to achieve capital appreciation through investment primarily in equity securities of small or medium sized companies listed on or dealt in any Recognised Market and which are issued by companies with principal offices or significant business activities in the People's Republic of China and Hong Kong.

GAM Star Composite Global Equity

The investment objective of the Fund is to achieve long term capital appreciation with the aim of generating a capital return in excess of global equity markets over the medium to long term. The Fund intends to pursue its investment objective by gaining exposure principally to equity strategies. Such exposure may be achieved principally through investment in open ended collective investment schemes deploying equity long only and equity hedge strategies. The Fund may also invest in exchange traded funds which are listed or traded on Recognised Markets worldwide in order to gain exposure to such strategies. The Fund may also invest in unlisted collective investment schemes in accordance with the provisions of the UCITS Regulations.

GAM Star Continental European Equity

The investment objective of the Fund is to achieve long-term capital appreciation through investing primarily in quoted equity and equity related securities (including but not limited to warrants), listed on or dealt in Recognised Markets within the EU which are issued by companies with principal offices in Europe other than the United Kingdom.

GAM Star Credit Opportunities (EUR)

The investment objective of the Fund is to achieve long-term capital gain in Euro. It will be the policy of the Fund to seek to achieve its investment objective through investment principally in income bearing or accruing securities with fixed principal amounts including government bonds, corporate bonds, junior debt securities, preferred shares, convertible securities and contingent capital notes.

GAM Star Credit Opportunities (GBP)

The investment objective of the Fund is to achieve long-term capital gain in Sterling. It will be the policy of the Fund to seek to achieve its investment objective through investment principally in income bearing or accruing securities with fixed principal amounts including government bonds, corporate bonds, junior debt securities, preferred shares, convertible securities and contingent capital notes.

GAM Star Credit Opportunities (USD)

The investment objective of the Fund is to achieve long-term capital gain in US dollars. It will be the policy of the Fund to seek to achieve its investment objective through investment principally in income bearing or accruing securities with fixed principal amounts including government bonds, corporate bonds, junior debt securities, preferred shares, convertible securities and contingent capital notes.

GAM Star Global Defensive

The investment objective of the Fund is to seek to achieve long term capital growth. The Fund aims to achieve this investment objective primarily through investment in open-ended collective investment schemes which provide exposure to equities, Fixed Income Securities, property, commodities and currencies as set out in the Prospectus.

GAM Star Discretionary FX

(Terminated on 28 February 2019)

The investment objective of the Fund was to achieve absolute returns over the medium term arising out of the Fund's participation in the global currency and related markets.

GAM Star Dynamic Global Bond

(Fund terminated on 17 July 2019)

The investment objective of the Fund was to maximise total investment return generated from a combination of income, capital appreciation and currency gains. The Fund aimed to achieve this investment objective principally through investment either directly or through the use of associated financial derivative instruments in a broadly diversified portfolio of Fixed Income Securities and currencies.

GAM Star Global Dynamic Growth

The investment objective of the Fund is to seek to achieve long term capital growth. The Fund aims to achieve this investment objective primarily through investment in open-ended collective investment schemes which provide exposure to equities, Fixed Income Securities, property, commodities and currencies as set out in the terms of the Prospectus. The Fund will not invest directly in property or commodities and such indirect exposure shall be generated as described in the terms of the Prospectus.

GAM Star Emerging Equity

The investment objective of the Fund is to achieve long term capital appreciation. The Fund seeks to achieve this objective through investing primarily in equity and equity related securities (such as warrants and rights issues) of companies listed on or dealt in Recognised Markets in Emerging Markets or which are listed on or dealt in Recognised Markets outside of the Emerging Markets but which generate the bulk of their earnings in Emerging Markets.

GAM Star Emerging Market Rates

The investment objective of the Fund is to achieve absolute return regardless of market conditions through investment in a portfolio of local and hard currency bonds and other fixed income securities from emerging markets worldwide.

GAM Star European Equity

The investment objective of the Fund is to achieve long-term capital appreciation through investing primarily in quoted equity securities issued by companies with principal offices in Europe, including Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, the Netherlands, Norway, Portugal, Russia, Spain, Sweden, Switzerland, Turkey and the United Kingdom. It will be the policy of the Fund to invest primarily in equities.

GAM Star Flexible Global Allocation EUR

(Approved on 21 December 2018. Not yet launched)

The Company is an umbrella fund with segregated liability between Funds. Accordingly any liability incurred on behalf of or attributable to any Fund of the Company shall be discharged solely out of the assets of that Fund, and neither the Company nor any director, receiver, examiner, liquidator, provisional liquidator or other person shall apply, nor be obliged to apply, the assets of any such Fund in satisfaction of any liability incurred on behalf of or attributable to any other Fund of the Company, irrespective of when such liability was incurred.

2. Accounting policies

The significant accounting policies and estimations techniques adopted by the Company are as follows:

These policies have been consistently applied to all periods presented unless otherwise stated.

GAM Star Target Return and GAM Star Target Return Plus terminated on 23 October 2019 and 21 August 2019 respectively and therefore the unaudited half-yearly report for these Funds have been prepared on a non-going concern basis.

(a) Basis of preparation

This unaudited half-yearly report has been prepared in accordance with the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) and under the CBI (Supervision & Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019, as amended (together, the "UCITS Regulations").

(b) Investments at fair value

Classification

This category has two sub-categories: financial assets and liabilities held for trading, and those designated at fair value through profit or loss at inception. Financial assets or liabilities held for trading are acquired or incurred principally for the purpose of selling or repurchasing in the short term. Derivatives are also categorised as held for trading, as the Company does not designate any derivatives as hedges in a hedging relationship.

Notes to the Unaudited Half-Yearly Report

2. Accounting policies, continued

(b) Investments at fair value, continued

Recognition/Derecognition

Purchases and sales are recognised on trade date – the date on which the Company commits to purchase or sell the asset. Investments are derecognised when the rights to receive cash flows from the investments have expired or the Company has transferred substantially all risks and rewards of ownership

Measurement

Financial assets and liabilities are initially recognised at fair value, and transaction costs for all financial assets/liabilities carried at fair value through profit or loss are expensed as incurred. Subsequent to initial recognition, all financial assets and liabilities at fair value through profit or loss are measured at fair value.

Fair value estimation

The fair value of financial instruments traded in active markets (such as publicly traded derivatives and trading securities) is based on quoted market prices at the balance sheet date. The quoted market price used for financial assets and liabilities held by the Company is the mid price.

In the case of any security not listed, quoted or dealt with on a regulated market or for which no quotation or value is readily available which would provide a fair valuation, or in respect of which the price is unrepresentative, the fair value of such security is determined by the Directors or other competent person appointed by the Directors and approved for the purpose by the Depositary, using the market approach which consists of estimating the fair value of these securities using a comparable multiple of revenue for similar guideline public companies.

Shares or units in any collective investment scheme which provides for those shares or units to be redeemed at the option of their holder out of the assets of the undertaking shall be valued at the last published unaudited NAV per share.

The Company may from time to time invest in financial instruments that are not traded in an active market (for example in over the counter derivatives). The fair value is determined by using valuation techniques. The Company uses a variety of methods and makes assumptions that are based on market conditions existing at each balance sheet date. Valuation techniques used include the use of comparable recent arm's length transactions, discounted cash flow analysis, option pricing models and other valuation techniques commonly used by market participants. Any such securities are disclosed in the portfolio statements.

Critical accounting estimates and assumptions

Management makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition seldom equal the actual related results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial period are outlined below.

Debt securities

Debt securities are valued on the basis of dealer supplied quotations or by using a pricing service selected by the Manager. The fair value of the instrument is estimated using valuation techniques if a quoted market price is not available from a broker/dealer or a third party pricing service. Valuation methods include the use of recent unaffiliated market transactions, reference to the current fair value of another instrument that is substantially the same, discounted cash flow techniques or any other valuation technique that provides a reliable estimate of prices obtained in actual market transactions.

Financial derivatives

Funds may hold derivatives for investment purposes and/or efficient portfolio management purposes as described in the relevant Supplement to the Prospectus.

- (i) Forward foreign currency exchange contract
When entering into a forward foreign currency exchange contract, the Funds agree to receive or deliver a fixed quantity of foreign currency for an agreed price upon an agreed future date. These contracts are valued daily at the forward rate and the Fund's equity therein, representing unrealised gains or losses on the contracts, is included in the Balance Sheet. The unrealised gain/(loss) on open forward exchange contracts is calculated by reference to the difference between the contracted rate and the rate to close out the contract.
- (ii) Futures contract
A futures contract obligates one party to sell and the other party to purchase a specific instrument for an agreed price on an agreed future date. Initial margin deposits made with respect to futures contracts are recognised as assets due from the Fund's broker (agent in acquiring the futures position). Subsequent changes in the daily valuation of open contracts are recognised as unrealised gains or losses. Variation margin payments are made or received on traded futures as appreciation or depreciation occurs. Futures contracts are valued using quoted daily settlement prices established by the exchange on which they trade. Realised gains or losses are recorded when a contract is closed. Futures contracts are included in financial assets at fair value when the fair value is positive, and in financial liabilities when the fair value is negative in the Balance Sheet.
- (iii) Options contract
An option contract gives the buyer the right, but not the obligation, to buy (call) or sell (put) a financial instrument. Options held by the Funds which are dealt on a recognised market are valued using a settlement price as determined by the recognised market in question. Where a settlement price is not available, the value is the probable realisation value estimated with care and good faith by the Manager. Exchange traded options are valued at the settlement price determined by the relevant exchange. These are valued daily. Options contracts are included in financial assets at fair value when the fair value is positive, and in financial liabilities when the fair value is negative in the Balance Sheet.
- (iv) Credit default swaps
In a credit default swap contract, one party makes payments to another party in exchange for the right to receive a specified return (or to put a security) if a credit event (e.g., default or similar event) occurs with respect to a reference entity or entities. A seller of credit default protection receives periodic payments in return for its obligation to pay the principal amount of a debt security (or other agreed-upon value) to the other party upon the occurrence of a credit event. If no credit event occurs, the seller has no payment obligations so long as there is no early termination. Credit default swap agreements are fair valued on the valuation date using market vendors. Credit default swaps are included in financial assets at fair value when the fair value is positive, and in financial liabilities when the fair value is negative in the Balance Sheet.

Notes to the Unaudited Half-Yearly Report

2. Accounting policies, continued

(b) Investments at fair value, continued

(v) Contracts for difference

Contracts for difference are over the counter (“OTC”) derivatives which take advantage of the economical benefits which are not afforded through investing directly in certain securities markets. Funds may purchase equity contracts for difference as a means of gaining exposure to the economic performance and cash flows of an equity security without the need for taking or making physical delivery of the security. A contract for difference is a financial instrument linked to an underlying share price. Consequently, no rights are acquired or obligations incurred relating to the underlying share and the Fund may buy or sell depending on the fund manager’s view of a company’s share price. Contracts for difference are highly leveraged instruments and for a small deposit it is possible for a Fund to hold a position much greater than would be possible with a traditional investment. These are valued daily based on quoted market prices at the balance sheet date. Contracts for difference are included in financial assets at fair value when the fair value is positive, and in financial liabilities when the fair value is negative in the Balance Sheet.

The fair value of contracts for differences is the difference between the opening price and the volume weighted average price of the financial instrument multiplied by the number of shares specified within the contract.

(vi) Interest rate swaps

Interest rate swaps may be used as a substitute for a physical security or a less expensive or more liquid way of obtaining desired exposures. These are valued daily, usually using market vendors. Interest rate swaps are included in financial assets at fair value when the fair value is positive, and in financial liabilities when the fair value is negative in the Balance Sheet.

Some of the interest rate swaps are centrally cleared positions. In a centrally cleared swap, immediately following execution of the swap agreement, the swap contract is novated to a clearing counterparty and the Funds face the clearing counterparty through a broker. Upon entering into a centrally cleared swap the Funds are required to deposit initial margin with the broker in the form of cash in an amount that varies depending on the size and risk profile of the swap.

(vii) Total return swaps

Total return swaps may be used as a substitute for investing in standardised exchange traded funds, futures or options contracts. Total return swaps involve the exchange of the right to receive the total return, dividends or coupons plus capital gains or losses, of a specified reference asset, index or basket of assets against the right to make fixed or floating payments. Any assets to be received by the Funds will be consistent with the investment policies of the Funds. Where the Funds enter into a total return swap on a net basis, the two payment streams are netted out, with the Funds receiving or paying, as the case may be, only the net amount of the two payments. These are valued daily using market vendors, except GAM Systematic Alternative Risk Premia which uses the counterparties valuation. Total return swaps are included in financial assets at fair value when the fair value is positive, and in financial liabilities when the fair value is negative in the Balance Sheet.

(viii) Inflation swaps

Inflation swaps would typically be used for investment purposes where a fixed payment is exchanged for a variable payment linked to a measure of inflation. These are valued daily using market vendors. Inflation swaps are included in financial assets at fair value when the fair value is positive, and in financial liabilities when the fair value is negative in the Balance Sheet.

3. Fair value hierarchy

The Company classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The guidance establishes three levels of the fair value hierarchy as follows:

Level 1: Inputs that reflect unadjusted quoted prices in active markets for identical assets or Liabilities that the Company has the ability to access at the measurement date;

Level 2: Inputs other than quoted prices from active markets that are observable for the asset or liability either directly or indirectly, including inputs from markets that are not considered to be active;

Level 3: Inputs that are unobservable and are significant to the valuation.

The Company uses the “market approach” valuation technique to value its investments. A financial instrument’s level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. However, the determination of what constitutes “observable” may require significant judgement but can generally be considered as that market data which is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market. The categorisation of a financial instrument within the hierarchy is based upon the pricing transparency of the instrument and does not necessarily correspond to the risk of that instrument.

Investments typically classified within level 1 include active listed equities, exchange traded derivatives and certain government bonds. Investments typically classified within level 2 include investments in corporate bonds, certain government bonds, certain listed equities and over the counter derivatives. Investment funds are also considered level 2 investments if there is evidence that redemptions occurred during the year and there were no restrictions preventing redemptions at the year end. As level 2 investments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or non-transferability. Such adjustments are generally based on available market information. Investments typically classified within level 3 include certain corporate bonds, private equities and investment funds that have suspended redemptions, created side pocket classes or imposed gates. Within level 3, the use of the market approach generally consists of using comparable market transactions. At 30 June 2019, the fair value of the level 3 investments of GAM Star Absolute Return Macro and GAM Star Dynamic Global Bond investments in unquoted debt securities was derived from a discounted cash flow model based on contractual future cash flows to be received, discounted at an appropriate rate. The key unobservable input was the discount rate applied to contractual future cash flows, the main element of which was the margin to reflect credit risk. The discount rate was an Interpolated UK Gilt yield matching the average life of the asset plus the purchase price credit spread (400bps).

Notes to the Unaudited Half-Yearly Report

5. Taxation

Under current Irish law and practice, the Company qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997 (as amended). It is not chargeable to Irish tax on its income and gains. However, tax can arise on the happening of a "Chargeable Event" in the Company. A Chargeable Event includes any distribution payments to shareholders or any encashment, cancellation, redemption or transfer of Shares.

No Irish tax will arise on the Company in respect of Chargeable Events in respect of a shareholder who is not an Irish Resident and not Ordinarily Resident for tax purposes in Ireland at the time of the Chargeable Event provided that the appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act 1997, (as amended), are held by the Company; and certain exempted Irish resident investors who have provided the Company with the necessary signed statutory declarations. Following changes introduced by Finance Act 2010, investment undertakings will no longer be required to obtain relevant declarations from shareholders who are neither Irish Resident nor Ordinarily Resident in Ireland where the investment undertaking is not actively marketed to Irish investors and the Irish Revenue have given the investment undertaking the appropriate approval. With effect from 3 April 2010 a chargeable event will not arise if at the time of the chargeable event appropriate equivalent measures have been put in place by the Company to ensure that shareholders in the Company are neither Irish Resident nor Ordinarily Resident in Ireland and the Company has received approval from the Irish Revenue Commissioners to this effect and the approval has not been withdrawn.

Dividends, interest and capital gains (if any) which the Company receives with respect to its investments may be subject to taxes, including withholding taxes, in the countries in which the issuers of the investments are located and such taxes may not be recoverable by the Company or its shareholders.

7. Use of derivatives for Efficient Portfolio Management

Subject to the conditions and within the limits from time to time laid down by the Central Bank, and except as otherwise stated in the investment objective and policies of a Fund, the Investment Managers and/or Co-Investment Manager(s) may employ, for certain Funds, investment techniques and instruments such as futures, options, forward foreign currency exchange contracts and other derivatives for investment purposes or efficient portfolio management. Furthermore, new techniques and instruments may be developed which may be suitable for use by a Fund in the future, and a Fund may employ such techniques and instruments subject to the prior approval of, and any restrictions imposed by, the Central Bank.

For UCITS which have engaged in efficient portfolio management techniques, disclosures are required under the Central Bank UCITS Regulations. The Investment Managers of the Funds have identified that all financial derivative instruments are transactions designed to deliver additional returns through Efficient Portfolio Management.

Details of all open transactions at the period end are disclosed in the Portfolio of Investments.

Securities lending transactions

Certain Funds may also utilise stock lending agreements for efficient portfolio management purposes as described above. In such transactions, the Fund may temporarily transfer its securities to a borrower, with agreement by the borrower to return equivalent securities to the Fund at a pre-agreed time. Refer to note 4 for further information on securities lending.

Notes to the Unaudited Half-Yearly Report

8. Significant agreements and transactions with related parties

The Company and the Directors

Andrew Bates is a partner of Dillon Eustace, legal advisers to the Company and may have an interest in the following transactions and balances with Dillon Eustace.

- The Company paid US\$139,235 (12 months to 30 June 2019: US\$236,314) paid to Dillon Eustace for legal fees during the period.
- Dillon Eustace up to 30 September 2019 received a fee at the annual rate of €20,000 (12 months to 30 June 2019: €20,000) gross subject to income tax deductions for the provision of a Director to the Company. With effect from 1 October 2019 the annual fee was increased to €30,000.

David Dillon, Daniel O'Donovan and Deborah Reidy up to 30 September 2019 each received a fee at the annual rate of €20,000 (2018: €20,000) gross subject to income tax deductions for their services as Directors to the Company. With effect from 1 October 2019 the annual fee was increased to €30,000.

Kaspar Boehni was appointed as a Director of the Company on 5 July 2019.

The Company and the Manager, the Sponsor and the Investment Managers

At the period end, accrued expenses included amounts owing to the Manager, the Sponsor and the Investment Managers of US\$10,199,402 (30 June 2019: US\$8,570,728).

See note 4 for details of securities lending income earned by the Manager.

Any such transactions have been entered into the ordinary course of business and on normal commercial terms.

The Directors are not aware of any other related party transactions except for those disclosed in these financial statements.

The Company invests in other funds that are also managed by the investment managers of the Company. These trades have been carried out at arm's length in the ordinary course of business. The terms and returns received by the Company in making these investments were no more favourable than those received by other investors investing into the same share classes. There are no management fees charged on these investments at the Company level.

Transactions with Connected Persons (for the purposes of Central Bank UCITS Regulation 43(1))

The Board are satisfied:

- (i) that there are arrangements (evidenced by written procedures) in place to ensure that all transactions with connected persons (for the purposes of Central Bank of Ireland UCITS Regulation 43(1)) are conducted at arm's length and in the best interest of shareholders and
- (ii) that any transactions with connected persons entered into during the period complied with the obligation of (i) above as attested by the Manager through regular updates to the Board.

14. Securities financing transactions

Article 13 of Regulation (EU) 2015/2365 on transparency of securities financing transactions (“SFTs”) and of reuse and amending Regulation (EU) No 648/2012, requires UCITS investment companies to provide the following information on the use made of SFTs and total return swaps (“TRSs”).

Securities lending

The below table details the value of securities on loan as a proportion of the Funds’ total lendable assets and NAV as at 31 December 2019 and the income/returns earned for the year ended 31 December 2019. Total lendable assets are those assets held within the portfolio of the Funds that utilise security lending.

GAM Star Alpha Technology

Currency	Securities on loan	
	% of lendable assets	% of NAV
US\$	2.49	2.01

Please refer to note 4 for details on how the total income earned on securities lending transactions is split between the Company and the Securities Lending Agent and how much income was earned by each party during the period ended 31 December 2019.

The following tables detail the value of securities on loan and associated collateral received, analysed by borrowing counterparty as at 31 December 2019:

GAM Star Alpha Technology

Counterparty	Country of establishment	Securities on loan US\$	Non-cash Collateral received US\$
UBS	United Kingdom	609,058	640,726
		609,058	640,726

Notes to the Unaudited Half-Yearly Report

14. Securities financing transactions, continued

There was only one counterparty in use for security lending purposes as at 31 December 2019. All securities lending contracts are settled on a bi-lateral basis. Non-cash collateral received in relation to securities lending transactions cannot be sold, re-invested or pledged.

The following table provides an analysis of the type, quality and maturity tenor of non-cash collateral received and posted by the Funds in respect of securities lending transactions as at 31 December 2019.

GAM Star Alpha Technology

Collateral type	Currency	Maturity Tenor			Total
		Less than one year	One to five years	Greater than five years	
Sovereign Debt	US\$	24,252	272,890	343,584	640,726

The maturity tenor analysis for Sovereign Debt securities received as collateral is based on the contractual maturity date. All non-cash collateral received by the Funds is held by the Depository (or through its delegates) as at 31 December 2019.

The following table lists the ten largest issuers* by value of non-cash collateral received by the Funds across securities lending transactions as at 31 December 2019.

GAM Star Alpha Technology

Collateral issuer	Value US\$	% of NAV
US Government	640,726	2.12

* There were no other issuers of non-cash collateral as at 31 December 2019.

Total Return Swaps

The below table details the value of total return swaps held as a proportion of the Funds' NAV as at 31 December 2019:

Fund	Value US\$	% of NAV
GAM Systematic Alternative Risk Premia	(680,333)	(0.27)
GAM Star Tactical Opportunities	195,042	0.45
	(485,291)	0.18

Listed below are the top 10 counterparties used for total return swaps and the collateral received:

GAM Systematic Alternative Risk Premia

Counterparty	Country of establishment	Value US\$	Collateral received US\$
Citigroup	United Kingdom	12,247	3,233,504
JP Morgan	United States	143,133	3,020,000
MacQuarie Bank	United Kingdom	(835,713)	28,100,000
		(680,333)	34,353,504

GAM Star Tactical Opportunities

Counterparty	Country of establishment	Value US\$	Collateral received US\$
Morgan Stanley	United Kingdom	195,042	–
		195,042	–

All total return swaps held by the Funds are settled as bi-lateral contracts.

All derivative instruments (including total return swaps) are entered into by the Funds under an International Swaps and Derivatives Associations, Inc. Agreement ("ISDA Agreement") or similar agreement. An ISDA Agreement is a bilateral agreement between the Funds and a counterparty that governs all derivative instruments (including total return swaps) entered into by the parties. The parties' exposures under the ISDA Agreement are netted and collateralised together, therefore any collateral disclosures provided are in respect of all derivative instruments entered into by the Funds under the ISDA Agreement, not just total return swaps. All collateral received/posted by the Funds in relation to the ISDA Agreement is cash as at 31 December 2019. All of the cash balances have an open maturity. The cash collateral received and disclosed above is custodied with the depository. Cash collateral received may be reinvested in accordance with the requirements of the Central Bank at the discretion of the Investment Manager.

Notes to the Unaudited Half-Yearly Report
