

ANNUAL FUND REPORT
PM 2
A CO-OWNERSHIP FUND PURSUANT TO §2 (1) AND (2)
OF THE AUSTRIAN INVESTMENT FUND ACT
(INVESTMENTFONDSGESETZ, INVFG) 2011
FOR THE ACCOUNTING YEAR FROM
JANUARY 1, 2019 TO
DECEMBER 31, 2019

General information regarding the Management Company

Supervisory Dr. Mathias Bauer, Chairman

Board Mag. Dieter Rom, Deputy Chairman

Mag. Claudia Badstöber (to 9/23/2019)

Mag. Natalie Flatz

Mag. Markus Wiedemann

Mag.(FH) Katrin Zach (since 9/23/2019)

Management

Board

Mag. Peter Reisenhofer, Management Board Spokesperson/CEO

MMag. Silvia Wagner, CEFA, Deputy Management Board Spokesperson/CFO

Dipl.Ing.Dr. Christoph von Bonin, Managing Director/CIO

Mag. Guido Graninger, MBA, Managing Director/CFO (to 8/6/2019)

Dr. Stefan Klocker, CFA, Managing Director/CIO

State

Mag. Wolfgang Nitsche (to 12/31/2019)

commissioner

HR Mag. Maria Hacker-Ostermann (to 11/30/2019)

MR Dr. Thomas Limberg (since 12/1/2019)

MR Mag. Christoph Kreutler, MBA (since 1/1/2020)

Custodian bank

Liechtensteinische Landesbank (Österreich) AG, Vienna

Bank auditor

PwC Wirtschaftsprüfung GmbH

Fund auditor

BDO Austria GmbH, Wirtschaftsprüfungs- und Steuerberatungsgesellschaft

Details of remuneration¹

pursuant to §20 (2) Items 5 and 6 of the Austrian Alternative Investment Funds Manager Act (Alternative Investmentfonds Manager-Gesetz, AIFMG) and Annex I Schedule B Item 9 of InvFG 2011 for the financial year 2018 of LLB Invest Kapitalanlagegesellschaft m.b.H. (formerly "Semper Constantia Invest GmbH") ("Mgt. Co.", "LBI")

Total remuneration paid to employees (incl. managers ²) of the	
Management Company:	EUR 2,772,326.23
of which fixed remuneration:	EUR 2,514,193.16
of which variable performance-related remuneration (bonuses):	EUR 258,133.07
Number of employees (incl. managers) as of 12/31/2018:	33.00
Full-time equivalent (as of 12/31/2018):	31.14
of which beneficiaries "Identified Staff") ³ :	7
Total remuneration paid to managers:	EUR 937,920.44
Total remuneration paid to (other) risk bearers (excl. managers):	EUR 104,303.34
Total remuneration paid to employees with supervisory roles:	EUR 125,643.86
Remuneration paid to employees with the same level of income as	
managers and (other) risk bearers due to their overall	EUR 1,167,867.64
remuneration:	
Payment of carried interests (profit-sharing):	N/A
Outcome of the review of the remuneration policy by the	
remuneration committee of the Supervisory Board at a meeting	No irregularities
held on 5/13/2019:	

A breakdown of the above-mentioned remuneration is not provided for the individual investment fund, since this is not possible.⁴

The last significant change to the remuneration policy was implemented with effect as of 4/1/2019, and the Austrian Financial Market Authority was notified accordingly on 2/20/2019.

The Management Company does not (directly) pay any remuneration to employees/managers of the external management company which has been appointed by way of delegation/outsourcing (LGT Bank (Österreich) AG, Vienna).⁵ The external management company does not publish any information on the remuneration paid to its employees/managing directors.

Remuneration policy principles:

The remuneration policy of LBI is consistent with the business strategy and the goals, values and long-term interests of LBI and of the investment funds under its management. The remuneration system takes into consideration a long-term approach, business success and the assumption of risk. Precautions have been implemented to prevent conflicts of interest.

The goal of the remuneration policy of LBI is for compensation – in particular, the variable salary component – for assumption of inherent business risks within the individual divisions of LBI to be provided only insofar as this is compatible with the risk appetite of LBI. The Management Board of LBI draws up the risk strategy and the principles of risk policy, subject to discussion with the remuneration committee and the Supervisory Board. It also consults Operational Risk Management and Compliance. In particular, the remuneration policy must be compatible with the risk profiles and the fund regulations of the funds managed by LBI.

3

¹Gross annual amounts; excluding employer's contributions; including any non-cash remuneration/benefits

²At the Management Company, conceptually equivalent to a "director" within the meaning of InvFG 2011 and an "executive" within the meaning of AIFMG, i.e. persons who actually manage the company's business

³ The beneficiaries pursuant to §20 (2) Item 5 AIFMG and Annex I Schedule B Item 9.1 of InvFG 2011 are managers (=executives/directors), higher-level managerial employees, (other) risk bearers and employees with supervisory roles

⁴Art. 107 (3) of the delegated EU Regulation No 231/2013

⁵ Q&A, ESMA [item ii, ESMA34-32-352 (page 7) and ESMA34-43-392 (page 42)]

Principles for variable remuneration:

Variable remuneration will exclusively be paid out in accordance with the internal guidelines for LBI's remuneration policy. The system reflects a long-term approach, business success and the assumption of risk. Moreover, employees are obliged not to implement any measures or to pursue any activities which would entail the achievement of agreed goals by entering into a disproportionate level of risk or by entering into risks which – on the basis of an objective assessment – they would not have entered into in the absence of the agreement on variable remuneration.

As a rule, variable remuneration will be determined on the basis of a performance assessment at the level of individual employees, but also including the performance of the department or division in question and the overall performance of LBI, as well as its risk position.

For the performance assessment of the managers, the higher-level management, the risk buyers and other risk buyers as well as employees with supervisory roles (hereinafter jointly: "Identified Staff"), their influence over the performance of the department and the company will be considered and weighted accordingly. This will likewise already be considered in defining the relevant set of goals. This set of goals comprises the quantitative goals which may be influenced by the employee as well as relevant qualitative goals. These goals must be proportionate to one another and appropriately structured in line with the employee's position. If it is not possible to define any quantitative goals for certain positions, the relevant qualitative goals will be emphasized. As well as relevant income and risk goals – which must reflect a long-term approach – any set of goals must also include goals in keeping with the position in question – such as compliance, quality, training, organization and documentation goals etc.

The following positions are "Identified Staff":

- Supervisory Board
- Management
- Head of Compliance
- Head of Finance
- Head of Internal Audit
- Head of Risk Management (Back Office and Operational Risk Management)
- Head of Legal
- Head of Human Resources
- Head of Operations
- Fund managers whose variable remuneration exceeds the materiality threshold (see below)

In regard to the overall remuneration, fixed earnings must be proportionate to the variable remuneration (hereinafter also referred to as a "Bonus"). The value of the variable remuneration is limited. As a rule, it may amount to up to 30%, max. 100% of the fixed annual earnings.

The Bonus will be paid to "Identified Staff" subject to a materiality threshold. This threshold will not have been reached if the variable remuneration is less than 25% of the (fixed) annual salary in question and does not exceed EUR 30,000. Accordingly, the following distinction applies for variable remuneration for "Identified Staff":

- If the variable remuneration is below the above-mentioned materiality threshold, the Bonus will be paid out immediately and in full, 100% in cash.
- If the variable remuneration exceeds the above-mentioned materiality threshold, then (in overall terms) as a rule half of the Bonus will be provided in cash and the other half in the form of "non-cash instruments". Concretely, these instruments shall be units of representative investment funds of LBI (hereinafter: "Funds"). For the variable remuneration, the following allocation and apportionment scheme will apply for (the timing of) payment: i) as a rule, 60% of the Bonus will be paid immediately (50% in cash and 50% in the form of funds); ii) the remainder will not be paid out immediately and will instead be apportioned over the following three financial years as a rule (50% in cash and 50% in the form of funds). Moreover, "Identified Staff" may not immediately dispose of the Funds upon receipt and must hold them

⁶Over the course of this apportionment period, every year – at the end of the financial year – the results in the base year will be evaluated from the point of view of a long-term approach. Depending on the outcome of this evaluation process, the financial position and the risk trend, part payments may also be made each year. If this annual evaluation does not result in a reduction of the variable remuneration or its outright loss, in principle payment will be made annually over the course of the apportionment period in the form of further part payments and in three equal portions.

for a minimum period of two years (for managers) or one year (for the other members of the "Identified Staff").

Remuneration committee

LBI has established a remuneration committee consisting of at least 3 members of the Supervisory Board of LBI who do not perform any management tasks. As a committee, this remuneration committee is independent in overall terms. The chairman of the remuneration committee must be an independent member who does not perform any management tasks.

The remuneration committee shall support and advise the Supervisory Board in drafting the remuneration policy of LBI, giving particular consideration to the mechanisms applied to ensure that the remuneration system appropriately reflects any types of risk as well as liquidity and the assets managed and that the remuneration policy is compatible overall with the business strategy and with the goals, values and interests of LBI and the funds under its management.

ANNUAL FUND REPORT

for PM 2, a co-ownership fund pursuant to §2 (1) and (2) InvFG 2011 for the accounting year from January 1, 2019 to December 31, 2019

Dear unitholder,

LLB Invest Kapitalanlagegesellschaft m.b.H. is pleased to present its report for PM 2 for the past accounting year.

1. Comparative overview of the past five accounting years

			Accumulation fund AT0000A21M69	I

Payment (AT0000A21M69)

The payment of EUR 1.9580 per accumulation unit will be made from February 17, 2020 by the custodian banks.

The bank redeeming the coupon is obliged to use the payment resulting from accumulation units for settlement of investment income tax at a rate of EUR 1.9580 (rounded-off), where no grounds for an exemption apply.

Payment (AT0000A21M77)

The payment of EUR 2.7395 per accumulation unit will be made from February 17, 2020 by the custodian banks.

The bank redeeming the coupon is obliged to use the payment resulting from accumulation units for settlement of investment income tax at a rate of EUR 2.7395 (rounded-off), where no grounds for an exemption apply.

Payment (AT0000A21M85)

The payment of EUR 3.2878 per accumulation unit will be made from February 17, 2020 by the custodian banks.

The bank redeeming the coupon is obliged to use the payment resulting from accumulation units for settlement of investment income tax at a rate of EUR 3.2878 (rounded-off), where no grounds for an exemption apply.

Payment (AT0000A21M93)

The payment of EUR 4.0762 per accumulation unit will be made from February 17, 2020 by the custodian banks.

The bank redeeming the coupon is obliged to use the payment resulting from accumulation units for settlement of investment income tax at a rate of EUR 4.0762 (rounded-off), where no grounds for an exemption apply.

Units outstanding at start of accounting year: 5,933.00000 accumulation units (AT0000A21M69) and 9,606.00000 accumulation units (AT0000A21M77) and 5,285.00000 accumulation units (AT0000A21M85) and 1.00000 accumulation units (AT0000A21M93)

⁵⁾ Units outstanding at end of accounting year: 11,483.00000 accumulation units (AT0000A21M69) and 17,566.00000 accumulation units (AT0000A21M77) and 7,902.00000 accumulation units (AT0000A21M85) and 14,572.00000 accumulation units (AT0000A21M93)

For the subfunds of the fund, the investment companies managing these subfunds have charged management fees of between 0.01% and 2.00% per annum. These investment companies have not charged any subscription fees for the purchase of units.

Calculation method for overall level of risk: commitment approach

Total return swaps or similar derivative instruments

A total return swap is a credit derivative for which the income and fluctuations in value of the underlying financial instrument (the underlying instrument or reference asset) are exchanged for fixed interest payments.

In the period under review the fund did not make any use of securities financing transactions or total return swaps (within the meaning of Regulation (EU) 2015/2365 of the European Parliament and of the Council on reporting and transparency of securities financing transactions), where these are permitted according to its fund regulations.

Collateral in the form of demand deposits and bonds was provided for any OTC derivatives in which the fund invested in the period under review, in order to reduce the level of counterparty risk (default risk).

LLB Invest Kapitalanlagegesellschaft m.b.H. complies with the 2012 Code of Conduct of the Austrian Investment Fund Industry.

3. Financial markets and investment policy

After the world stock markets came under huge pressure at the end of 2018, a sustained recovery ensued at the start of the first quarter. This reflected Federal Reserve decision-makers' relativization of the USA's future interest rate trajectory as well as the White House having toned down its rhetoric in relation to the global trade conflict. US labor market data also had a positive impact, in January in particular, pointing to a surprisingly strong level of job creation and the continuing robust state of the US economy. While statements at the start of the reporting period still supported a prospective agreement between China and the USA on the key issues affecting these two countries' global trade activities, the distance between the two parties suddenly widened in February. In March, the announced increase in punitive tariffs was postponed, and signs of macroeconomic weakness and the central banks were at the forefront of deliberations. This was particularly true of the ECB, which once again began to adopt a significantly more expansionary monetary policy stance. In macroeconomic terms, attention mainly focused on very weak industry purchasing manager indicators in the Eurozone as well as disappointing data points from China. While the ECB adopted a de facto more expansionary policy, the FED was restrained in its communications, at least in terms of its rhetoric. This initially stimulated market participants' risk-taking propensity and, after they had shaken off their concerns over the economy in March, the markets began to price in positive developments in April. Favorable economic data from China – this time, not just purchasing manager indicators – provided a positive surprise. Many of the other relevant macroeconomic data points likewise exceeded expectations. The economic outlook accordingly picked up considerably, particularly for the Eurozone's export-driven countries. The recovery which began in January thus continued on the stock markets. In May, the financial markets once again focused on the trade dispute between the USA and China. Due to reciprocal tariff increases, this began to escalate significantly more strongly than at the start of the year, and the stock markets therefore came under pressure around the globe. Market participants' risk appetite continuously declined over the course of the month and only began to stabilize in June thanks to the central banks' expansionary announcements. On both sides of the Atlantic, monetary policy decision-makers emphasized that, in case of a further decline in momentum, they would implement new expansionary measures in support of the economy. The ECB played a particularly significant role here and considerably expanded its forward guidance. It thus did a great deal to calm the situation. The volatility which had already been apparent over the first six months of the year continued in the third quarter, on the basis of risk factors similar to those in previous months. August's price setbacks are attributable to the geopolitical crises which recurrently flared up, while in September a recovery began amid more moderate rhetoric over the trade dispute. As in the previous

months, the central banks likewise helped to calm the situation, with both the FED and the ECB cutting their key interest rates. The ECB even once again expanded the scope of its open market operations, this time for an indefinite duration. This also reflected the context of cooling economic data for manufacturing industry in particular.

The year ended with an upbeat picture overall, both in terms of the performance figures for the individual sub-asset classes for the year as a whole and in terms of the macroeconomic situation for the world's major economies. As well as manufacturing industry, the service sector likewise bottomed out/embarked on a recovery. The leading indicators likewise suggested continuing global growth. However, this notwithstanding significant geopolitical risks remained intact at the turn of the year.

In the first quarter, the fund slightly reduced its equity exposure following strong increases in the first few weeks. It also trimmed its risk positions in the fixed income segment, and on the commodities side (in the form of certificates for which delivery in physical form is excluded and in the form of UCITS-compliant investment funds) the fund swapped its commodities exposure for a systematic rule-based strategy. At the end of Q1, the fund reduced its China exposure and switched this for a broad-based emerging markets tracker. At the start of the second quarter, extensive portfolio rebalancing was implemented for all of the fund's asset classes, and the fund subsequently increased its holdings in the corporate bond segment. At the end of Q2, the fund increased a hedge position in the US equities segment. At the start of the third quarter, it adapted its inflation-linked exposure. US inflation-linked bonds were swapped for their globally diversified counterparts. Toward the end of the quarter, the fund realized profits in the precious metals segment and made selective adjustments to its exposure in the fixed income segment. At the start of the fourth quarter, a further hedge transaction, of an optional nature, was entered into in the US equities segment. The fund slightly increased its European-oriented equities halfway through the period and, in the final third of the period, ramped up its gold exposure.

There is "a risk of valuation prices for certain securities deviating from their actual selling prices due to pricing on illiquid markets (valuation risk)".

CME Chicago Mercantile Exchange

The value of a unit is calculated by dividing the entire value of the investment fund inclusive of its income by the number of units. The total value of the investment fund is calculated on the basis of the current market prices of the securities, money market instruments and subscription rights in the fund plus the value of the fund's financial investments, cash holdings, credit balances, receivables and other rights, less its liabilities. That value will be calculated by the custodian bank.

The net assets are calculated in accordance with the following principles:

- a) In general, the value of assets quoted or dealt in on a stock exchange or on another regulated market will be determined on the basis of the most recently available price.
- b) If an asset is not quoted or dealt in on a stock exchange or another regulated market or if the price for an asset quoted or dealt in on a stock exchange or another regulated market does not appropriately reflect its actual market value, the prices provided by reliable data providers or, alternatively, market prices for equivalent securities or other recognized valuation methods will be used.

Vienna, March 31, 2020

LLB Invest Kapitalanlagegesellschaft m.b.H.

The Management Board

5. Audit certificate*)

Report on the annual fund report

Audit opinion

We have audited the attached annual fund report issued by LLB Invest Kapitalanlagegesellschaft m.b.H., Vienna, for its fund

PM 2

a co-ownership fund pursuant to §2 (1) and (2) InvFG 2011,

comprising the statement of assets as of December 31, 2019, the statement of income for the accounting year ending on this date and the other particulars stipulated in Annex I Schedule B of the Austrian Investment Fund Act 2011 (InvFG 2011).

In our view, the annual fund report complies with the statutory requirements and provides a true and fair view of the fund's net assets and financial position as of December 31, 2019 and of the fund's earnings position for the accounting year ending on this date, in compliance with Austrian commercial law and the provisions of InvFG 2011.

Basis for the audit opinion

We performed our audit pursuant to §49 (5) of InvFG 2011 whilst complying with the Austrian principles of proper auditing. These principles require application of the International Standards on Auditing (ISA). Our responsibilities on the basis of these requirements and standards are outlined in further detail in the "Responsibilities of the auditor for the audit of the annual fund report" section of our audit certificate. We are independent from the company, in compliance with Austrian commercial law and professional standards, and we have fulfilled our other professional duties in accordance with these requirements. In our view, the documentation which we have obtained is sufficient and appropriate in order to serve as a basis for our audit opinion.

Responsibilities of the company's legal representatives and the Supervisory Board for the annual fund report

The company's legal representatives are responsible for the preparation of the annual fund report and for ensuring that it provides a true and fair view of the fund's net assets, financial and earnings position in compliance with Austrian commercial law and the provisions of InvFG 2011. The company's legal representatives are also responsible for the internal controls which they deem necessary in order to enable the preparation of an annual fund report which is free from material (intentional or unintentional) misrepresentations.

The supervisory board is responsible for monitoring the company's accounting process in relation to the funds under its management.

Responsibilities of the auditor for the audit of the annual fund report

Our goals are to establish sufficient certainty as to whether the annual fund report as a whole is free from material (intentional or unintentional) misrepresentations and to issue an audit certificate which includes our audit opinion. Sufficient certainty means a high level of certainty – but not a guarantee – that an orderly audit performed in accordance with the recognized Austrian principles – which require application of the ISA – will always uncover any material misrepresentation. Misrepresentations may result from malicious acts or on the basis of errors and will be deemed material where they may be reasonably expected – either individually or collectively – to influence the economic decisions made by users on the basis of this annual fund report.

As part of an audit complying with the recognized Austrian principles of orderly auditing – which require application of the ISA – we exercise due discretion throughout our audit and maintain a critical distance.

In addition, the following applies:

- We identify and evaluate the risks of material (intentional or unintentional) misrepresentations in the annual fund report, plan audit activities in response to these risks, implement these activities and obtain audit documentation which is sufficient and suitable in order to serve as a basis for our audit opinion. The risk of material misrepresentations resulting from malicious acts not being uncovered is greater than the risk resulting from errors, since malicious acts may include fraudulent collaboration, falsifications, deliberate incompleteness, misleading representations or the suspension of internal controls.
- We obtain a picture of the internal control system which is relevant for the audit so as to plan audit activities which are adequate in the given circumstances, but not with the objective of providing an audit opinion regarding the effectiveness of the company's internal control system.
- We evaluate the adequacy of the accounting methods applied by the company's legal representatives as well as the reasonableness of the legal representatives' estimates in the accounting as well as the related disclosures.
- We evaluate the overall picture, the structure and the contents of the annual fund report including the disclosures and whether the annual fund report provides a true and fair view of the underlying business transactions and events.
- We discuss matters with the Supervisory Board including the planned scope of the audit and its schedule as well as significant audit findings, including any significant shortcomings in the internal control system that we identify in the course of our audit.

Other information

The company's legal representatives are responsible for the other information provided. This other information comprises all of the information included in the annual fund report, with the exception of the statement of assets, the statement of income, the other disclosures required under Annex I Schedule B of InvFG 2011 and the audit certificate.

Our audit opinion for the annual fund report does not cover this other information, and we do not provide any sort of assurance in this regard.

In connection with our audit of the annual fund report, we are responsible for reading this other information and for considering whether there are any material inconsistencies between this other information and the annual fund report or on the basis of our knowledge obtained in the course of our audit or whether this information appears to have been otherwise materially misrepresented. If we reach the conclusion on the basis of our activities that this other information has been materially misrepresented, we must report this. We have nothing to report in this respect.

Vienna, March 31, 2020

- Under §240 (3) BAO, private investors are able to apply to their competent tax office for reimbursement of the investment income tax or claim this as part of their income tax assessment. 1)
- For corporate investors, this tax exemption and the associated offsetting of investment income tax against income tax/corporate income tax are granted as part of the tax assessment. Profit shares resulting from investments in corporate bodies in the EU, Norway and from investments in foreign corporate bodies which are analogous to an Austrian corporate body within the scope of §7 (3) and whose countries of residence and Austria provide each other with comprehensive administrative assistance are exempt from corporate income tax for legal persons and private foundations pursuant to §10 (1) Items 5 and 6 KStG, as amended by the Austrian Taxation Amendment Act (Abgabenänderungsgesetz, AÄG) 2011.
- The fictitious offsettable amount in accordance with the double taxation agreement (matching credit) may only be claimed as part of a tax assessment.
- In principle, not relevant for private investors and corporate investors/natural persons as the foreign dividends have taxation at source status upon deduction of the investment income tax. In individual cases (in case of direct recourse to the double taxation agreement), these amounts may be offset as part of a tax assessment and the investment income tax reimbursed.
- The amount offset may not exceed the Austrian income/corporate income tax applicable pro rata for the corresponding capital income, whereby sources of income outside this fund must also be taken into consideration.
- Withheld taxes are only offsettable/reimbursable for unitholders holding certificates as of the cut-off date for the financial statements.

 The applicable double taxation agreements stipulate that upon application the withholding taxes levied in the relevant source country are to be reimbursed where not offsettable. The reimbursement applications must be submitted by the relevant unitholders. The necessary forms may be obtained from the website of the Austrian Federal Finance Ministry (https://www.bmf.gv.at)
- For private investors and corporate investors/natural persons, the investment income has taxation at source status upon deduction of the investment income tax. In individual cases (if the income tax is less than the investment income tax), these amounts may be taxed as part of a tax assessment and the investment income tax may be (partially) offset or reimbursed.
- Not applicable for corporate investors presenting an investment income tax exemption declaration in accordance with §94 Item 5 EStG 1988. If no such declaration is presented, the investment income tax is offsettable against the income tax/corporate income tax, where taxation at source status does not apply. 9)
- For private investors, income is taxed at source upon deduction of investment income tax. For corporate investors/natural persons, taxation at source status only applies in relation to 10) income attracting investment income tax (excluding capital gains pursuant to §27 (3) and (4) EStG). In individual cases (if the income tax is less than the investment income tax), these amounts may be taxed as part of a tax assessment and the investment income tax may be (partially) offset or reimbursed.
- For private foundations, these amounts are subject to taxation (including the optional interest portion for which the foundation is unable to opt for investment income tax deduction in the absence of a legal framework)
- 121 Investment income tax withheld for capital gains in relation to natural persons' business assets may be offset against income tax.
- For taxpayers who are required to prepare balance sheets, the corresponding balance-sheet item must be written down accordingly. 13)
- To avoid double taxation, dividend-equivalent income will increase the acquisition costs, while distributions will reduce the acquisition costs for the fund unit. The custodian bank will take into consideration the revised acquisition costs for customers' portfolios which are subject to investment income tax. 14)
- The actual maximum setoff amount per unit is determined as follows, deviating from the values specified here: Total amount of offsettable taxes (amount under 8.1.1. to 8.1.6 multiplied by the number of units at the end of the fund's financial year) divided by the number of units as of the reporting date. 15)

- Under §240 (3) BAO, private investors are able to apply to their competent tax office for reimbursement of the investment income tax or claim this as part of their income tax assessment. 1) For corporate investors, this tax exemption and the associated offsetting of investment income tax against income tax/corporate income tax are granted as part of the tax assessment.
- Profit shares resulting from investments in corporate bodies in the EU, Norway and from investments in foreign corporate bodies which are analogous to an Austrian corporate body within the scope of §7 (3) and whose countries of residence and Austria provide each other with comprehensive administrative assistance are exempt from corporate income tax for legal persons and private foundations pursuant to §10 (1) Items 5 and 6 KStG, as amended by the Austrian Taxation Amendment Act (Abgabenänderungsgesetz, AÄG) 2011. The fictitious offsettable amount in accordance with the double taxation agreement (matching credit) may only be claimed as part of a tax assessment.
- In principle, not relevant for private investors and corporate investors/natural persons as the foreign dividends have taxation at source status upon deduction of the investment income tax. In individual cases (in case of direct recourse to the double taxation agreement), these amounts may be offset as part of a tax assessment and the investment income tax reimbursed.
- 5) The amount offset may not exceed the Austrian income/corporate income tax applicable pro rata for the corresponding capital income, whereby sources of income outside this fund must also be taken into consideration.
- Withheld taxes are only offsettable/reimbursable for unitholders holding certificates as of the cut-off date for the financial statements.
- The applicable double taxation agreements stipulate that upon application the withholding taxes levied in the relevant source country are to be reimbursed where not offsettable. The reimbursement applications must be submitted by the relevant unitholders. The necessary forms may be obtained from the website of the Austrian Federal Finance Ministry
- For private investors and corporate investors/natural persons, the investment income has taxation at source status upon deduction of the investment income tax. In individual cases (if 8) the income tax is less than the investment income tax), these amounts may be taxed as part of a tax assessment and the investment income tax may be (partially) offset or reimbursed. Not applicable for corporate investors presenting an investment income tax exemption declaration in accordance with §94 Item 5 EStG 1988. If no such declaration is presented, the
- 9)
- investment income tax is offsettable against the income tax/corporate income tax, where taxation at source status does not apply.

 For private investors, income is taxed at source upon deduction of investment income tax. For corporate investors/natural persons, taxation at source status only applies in relation to 10) income attracting investment income tax (excluding capital gains pursuant to §27 (3) and (4) EStG). In individual cases (if the income tax is less than the investment income tax), these amounts may be taxed as part of a tax assessment and the investment income tax may be (partially) offset or reimbursed.
- 11) For private foundations, these amounts are subject to taxation (including the optional interest portion for which the foundation is unable to opt for investment income tax deduction in the absence of a legal framework).
- Investment income tax withheld for capital gains in relation to natural persons' business assets may be offset against income tax 121
- For taxpayers who are required to prepare balance sheets, the corresponding balance-sheet item must be written down accordingly
- To avoid double taxation, dividend-equivalent income will increase the acquisition costs, while distributions will reduce the acquisition costs for the fund unit. The custodian bank will 14) take into consideration the revised acquisition costs for customers' portfolios which are subject to investment income tax.

 The actual maximum setoff amount per unit is determined as follows, deviating from the values specified here: Total amount of offsettable taxes (amount under 8.1.1. to 8.1.6 multiplied
- 15) by the number of units at the end of the fund's financial year) divided by the number of units as of the reporting date.

- Under §240 (3) BAO, private investors are able to apply to their competent tax office for reimbursement of the investment income tax or claim this as part of their income tax assessment. 1)
- For corporate investors, this tax exemption and the associated offsetting of investment income tax against income tax/corporate income tax are granted as part of the EU, Norway and from investments in foreign corporate bodies which are analogous to an Austrian corporate body 2) within the scope of §7 (3) and whose countries of residence and Austria provide each other with comprehensive administrative assistance are exempt from corporate income tax for legal persons and private foundations pursuant to §10 (1) Items 5 and 6 KStG, as amended by the Austrian Taxation Amendment Act (Abgabenänderungsgesetz, AÄG) 2011.
- The fictitious offsettable amount in accordance with the double taxation agreement (matching credit) may only be claimed as part of a tax assessment.

 In principle, not relevant for private investors and corporate investors/natural persons as the foreign dividends have taxation at source status upon deduction of the investment income 4) tax. In individual cases (in case of direct recourse to the double taxation agreement), these amounts may be offset as part of a tax assessment and the investment income tax reimbursed. The amount offset may not exceed the Austrian income/corporate income tax applicable pro rata for the corresponding capital income, whereby sources of income outside this fund must
- also be taken into consideration.
- Withheld taxes are only offsettable/reimbursable for unitholders holding certificates as of the cut-off date for the financial statements.
- The applicable double taxation agreements stipulate that upon application the withholding taxes levied in the relevant source country are to be reimbursed where not offsettable. The reimbursement applications must be submitted by the relevant unitholders. The necessary forms may be obtained from the website of the Austrian Federal Finance Ministry (https://www.bmf.gv.at).
- For private investors and corporate investors/natural persons, the investment income has taxation at source status upon deduction of the investment income tax. In individual cases (if the income tax is less than the investment income tax), these amounts may be taxed as part of a tax assessment and the investment income tax may be (partially) offset or reimbursed.
- Not applicable for corporate investors presenting an investment income tax exemption declaration in accordance with §94 Item 5 EStG 1988. If no such declaration is presented, the investment income tax is offsettable against the income tax/corporate income tax, where taxation at source status does not apply. 9)
- For private investors, income is taxed at source upon deduction of investment income tax. For corporate investors/natural persons, taxation at source status only applies in relation to income attracting investment income tax (excluding capital gains pursuant to §27 (3) and (4) EStG). In individual cases (if the income tax is less than the investment income tax), these 10)
- amounts may be taxed as part of a tax assessment and the investment income tax may be (partially) offset or reimbursed.

 For private foundations, these amounts are subject to taxation (including the optional interest portion for which the foundation is unable to opt for investment income tax deduction in the absence of a legal framework)
- Investment income tax withheld for capital gains in relation to natural persons' business assets may be offset against income tax
- For taxpayers who are required to prepare balance sheets, the corresponding balance-sheet item must be written down accordingly.

 To avoid double taxation, dividend-equivalent income will increase the acquisition costs, while distributions will reduce the acquisition costs for the fund unit. The custodian bank will take into consideration the revised acquisition costs for customers' portfolios which are subject to investment income tax.
- The actual maximum setoff amount per unit is determined as follows, deviating from the values specified here: Total amount of offsettable taxes (amount under 8.1.1. to 8.1.6 multiplied by the number of units at the end of the fund's financial year) divided by the number of units as of the reporting date. 15)

- Under §240 (3) BAO, private investors are able to apply to their competent tax office for reimbursement of the investment income tax or claim this as part of their income tax assessment. 1) For corporate investors, this tax exemption and the associated offsetting of investment income tax against income tax/corporate income tax are granted as part of the tax assessment.
- Profit shares resulting from investments in corporate bodies in the EU, Norway and from investments in foreign corporate bodies which are analogous to an Austrian corporate body within the scope of §7 (3) and whose countries of residence and Austria provide each other with comprehensive administrative assistance are exempt from corporate income tax for legal 2) persons and private foundations pursuant to §10 (1) Items 5 and 6 KStG, as amended by the Austrian Taxation Amendment Act (Abgabenänderungsgesetz, AÄG) 2011. The fictitious offsettable amount in accordance with the double taxation agreement (matching credit) may only be claimed as part of a tax assessment.
- In principle, not relevant for private investors and corporate investors/natural persons as the foreign dividends have taxation at source status upon deduction of the investment income tax. In individual cases (in case of direct recourse to the double taxation agreement), these amounts may be offset as part of a tax assessment and the investment income tax reimbursed.
- 5) The amount offset may not exceed the Austrian income/corporate income tax applicable pro rata for the corresponding capital income, whereby sources of income outside this fund must also be taken into consideration.
- Withheld taxes are only offsettable/reimbursable for unitholders holding certificates as of the cut-off date for the financial statements.

 The applicable double taxation agreements stipulate that upon application the withholding taxes levied in the relevant source country are to be reimbursed where not offsettable. The reimbursement applications must be submitted by the relevant unitholders. The necessary forms may be obtained from the website of the Austrian Federal Finance Ministry
- 8) For private investors and corporate investors/natural persons, the investment income has taxation at source status upon deduction of the investment income tax. In individual cases (if the income tax is less than the investment income tax), these amounts may be taxed as part of a tax assessment and the investment income tax may be (partially) offset or reimbursed. Not applicable for corporate investors presenting an investment income tax exemption declaration in accordance with §94 Item 5 EStG 1988. If no such declaration is presented, the
- 9)
- investment income tax is offsettable against the income tax/corporate income tax, where taxation at source status does not apply.

 For private investors, income is taxed at source upon deduction of investment income tax. For corporate investors/natural persons, taxation at source status only applies in relation to 10) income attracting investment income tax (excluding capital gains pursuant to §27 (3) and (4) EStG). In individual cases (if the income tax is less than the investment income tax), these amounts may be taxed as part of a tax assessment and the investment income tax may be (partially) offset or reimbursed.
- 11) For private foundations, these amounts are subject to taxation (including the optional interest portion for which the foundation is unable to opt for investment income tax deduction in the absence of a legal framework).
- Investment income tax withheld for capital gains in relation to natural persons' business assets may be offset against income tax.
- For taxpayers who are required to prepare balance sheets, the corresponding balance-sheet item must be written down accordingly.
- To avoid double taxation, dividend-equivalent income will increase the acquisition costs, while distributions will reduce the acquisition costs for the fund unit. The custodian bank will 14) take into consideration the revised acquisition costs for customers' portfolios which are subject to investment income tax.

 The actual maximum setoff amount per unit is determined as follows, deviating from the values specified here: Total amount of offsettable taxes (amount under 8.1.1. to 8.1.6 multiplied
- 15) by the number of units at the end of the fund's financial year) divided by the number of units as of the reporting date.

Fund Regulations pursuant to InvFG 2011

The Austrian Financial Market Authority (FMA) has approved the Fund Regulations for the Investment Fund **PM 2**, a co-ownership fund pursuant to the **2011 Austrian Investment Fund Act, as amended** (InvFG).

The Investment Fund is an undertaking for collective investment in transferable securities (UCITS) and is managed by LLB Invest Kapitalanlagegesellschaft m.b.H. (hereinafter: the "Management Company") which is headquartered in Vienna.

Article 1 - Co-ownership interests

The co-ownership interests are embodied in unit certificates that are negotiable instruments which are issued to bearer.

The unit certificates are represented by global certificates for each unit class. Therefore, physical securities certificates cannot be issued.

Article 2 - Custodian bank (depositary)

The Investment Fund's custodian bank (depositary) is Liechtensteinische Landesbank (Österreich) AG, Vienna.

The custodian bank (depositary) and other paying agents referred to in the Prospectus are the paying agents for unit certificates.

Article 3 - Investment instruments and principles

The following assets may be selected for the Investment Fund, as stipulated in InvFG:

PM 2 pursues an investment goal of long-term capital growth.

Bonds or other securitized debt securities may be purchased for the Investment Fund directly or indirectly through other investment funds or derivative instruments, together with money market instruments, for **up to 100 per cent** of the assets of the Fund.

In addition, international equities and equity-equivalent securities may be purchased directly or indirectly through other investment funds or derivative instruments for **up to 100 per cent** of the assets of the Fund.

The following investment instruments are purchased for the assets of the Fund, subject to compliance with the above description.

- Securities

Securities (including securities featuring embedded derivative instruments) may be purchased for **up to 100 per cent** of the assets of the Fund.

Money market instruments

Money market instruments may be purchased for **up to 100 percent** of the assets of the Fund.

Securities and money market instruments

Not fully paid-in securities or money market instruments and subscription rights for such instruments or other not fully paid-in financial instruments may be purchased.

Securities and money market instruments may be purchased where they comply with the criteria for listing and trading on a regulated market or a stock exchange pursuant to InvFG.

Securities and money market instruments which do not fulfill the criteria laid down in the above paragraph may be purchased for **up to 10 per cent** of the assets of the Fund in aggregate.

Units of investment funds

Units of investment funds (UCITS, UCIs) may each be purchased for up to 20 percent of the assets of the Fund – and up to 100 percent of the assets of the Fund in aggregate – insofar as these UCITS or UCIs do not for their part invest more than 10 percent of their fund assets in units of other investment funds.

Units of UCIs may be purchased for **up to 30 percent** of the assets of the Fund **in aggregate**.

Derivative instruments

Derivative instruments may account for **up to 100 percent** of the assets of the Fund within the framework of the Investment Fund's investment strategy and for hedging purposes.

Investment fund's risk measurement method

The Investment Fund uses the following risk measurement method:

Commitment approach

The commitment value is calculated pursuant to the 3rd chapter of the 4th Austrian Derivatives Risk Calculation and Reporting Ordinance (*Derivate-Risikoberechnungs- und Meldeverordnung*, DeRiMV), as amended.

Demand deposits and callable deposits

Demand deposits and callable deposits with a term not exceeding 12 months may amount to **up to 100 percent** of the assets of the Fund.

Short-term loans

The Management Company may take up short-term loans of **up to 10 per cent** of the assets of the Fund for account of the Investment Fund.

Repurchase agreements

Not applicable.

Securities lending

Not applicable.

- Investment instruments may only be acquired uniformly for the entire investment fund, not for an individual unit class or for a group of unit classes.
- However, this does not apply for currency hedging transactions. These transactions may also be entered into exclusively in relation to a single unit class. Expenses and income resulting from a currency hedging transaction shall exclusively be allocated to the relevant unit class.

Article 4 - Issuance and redemption procedures

The unit value will be calculated in **EUR**.

The value of units will be calculated **on any Austrian banking day**, except for Good Friday and New Year's Eve.

Issuance and subscription fee

Units will be issued on any Austrian banking day, except for Good Friday and New Year's Eve.

The issue price is the unit value plus a fee per unit of **max. 10 per cent** to cover the Management Company's issuing costs, rounded up to the nearest cent.

Issuance of the units shall not be limited in principle; however, the Management Company reserves the right to cease issuing unit certificates either temporarily or permanently.

The Management Company shall be entitled to introduce a graduated subscription fee.

Redemption and redemption fee

Units will be redeemed on any Austrian banking day, except for Good Friday and New Year's Eve. The redemption price corresponds to the unit value, rounded down to the nearest 1 cent.

No redemption fee will be charged.

At the request of a unitholder, his unit shall be redeemed out of the Investment Fund at the applicable redemption price against surrender of the unit certificate.

Article 5 - Accounting year

The Investment Fund's accounting year corresponds to the calendar year.

Article 6 - Unit classes and application of income

Distribution unit certificates and/or accumulation unit certificates with investment income tax paid and accumulation unit certificates without investment income tax paid may be issued for the Investment Fund, with each certificate documenting one unit or fractions thereof.

Various classes of unit certificates may be issued for this Investment Fund. The establishment of unit classes and issuance of units in a given unit class are at the discretion of the Management Company.

Application of income for distribution unit certificates (income distribution)

The income received during the past accounting year (interest and dividends), net of expenses, may be distributed at the discretion of the Management Company. The Management Company may opt not to make any distribution, subject to due consideration of the interests of the unitholders. The distribution of income from the sale of assets of the Investment Fund, including subscription rights, is likewise at the discretion of the Management Company. The fund assets may be distributed. Interim distributions are permitted. The fund assets may not, as a result of distributions, fall below the minimum volume for a termination which is stipulated by law.

These amounts will be distributed to holders of distribution unit certificates from **February 15** of the following accounting year. The remainder will be carried forward to new account.

In any case, from **February 15** the amount calculated pursuant to InvFG must be paid out, to be used, where applicable, to meet any investment income tax liability on the dividend-equivalent income for those unit certificates unless the Management Company ensures, by furnishing proof from the custodian institutions, that at the time of payment, the unit certificates are only held by unitholders who are either not subject to Austrian income tax or corporate income tax or who fulfill the requirements for exemption pursuant to §94 EStG or for an investment income tax exemption.

Application of income for accumulation unit certificates with investment income tax paid (income accumulation)

The income received during the accounting year that remains, net of expenses, will not be distributed. In case of accumulation unit certificates, from **February 15** the amount calculated pursuant to InvFG must be paid out, to be used, where applicable, to meet any investment income tax liability on the dividend-equivalent income for those unit certificates unless the Management Company ensures, by furnishing proof from the custodian institutions, that at the time of payment, the unit certificates are only held by unitholders who are either not subject to Austrian income tax or corporate income tax or who fulfill the requirements for exemption pursuant to §94 EStG or for an investment income tax exemption.

Application of income for accumulation unit certificates without payment of investment income tax (full income accumulation)

The income received during the accounting year that remains, net of expenses, will not be distributed. No payment pursuant to InvFG will be made. The key date pursuant to InvFG in case of non-payment of investment income tax on the Fund's annual income is 4 months after the end of the accounting year.

The Management Company must ensure, by furnishing proof from the custodian institutions, that at the time of payment the unit certificates are only held by unitholders who are either not subject to Austrian income tax or corporate income tax or who fulfill the requirements for exemption pursuant to §94 EStG or for an investment income tax exemption.

If these preconditions have not been met as of the payment date, the amount calculated pursuant to InvFG shall be paid out by the custodian bank in the form of credit.

 Application of income for accumulation unit certificates without payment of investment income tax (full income accumulation, foreign tranche)

Accumulation unit certificates without payment of investment income tax will be exclusively distributed outside Austria.

The income received during the accounting year that remains, net of expenses, will not be distributed. No payment pursuant to InvFG will be made.

The Management Company must ensure, by furnishing appropriate proof, that at the time of payment the unit certificates are only held by unitholders who are either not subject to Austrian income tax or corporate income tax or who fulfill the requirements for exemption pursuant to §94 EStG or for an investment income tax exemption.

Article 7 - Management fee, reimbursement of expenses, liquidation fee

For its management activity, the Management Company receives annual remuneration of up to **2 per cent p.a.** This remuneration will be calculated on the basis of the month-end values, accrued daily and paid out monthly.

The Management Company shall be entitled to introduce a graduated management fee.

The Management Company is entitled to reimbursement of all expenses associated with its management activities.

The costs arising at the introduction of new unit classes for existing asset portfolios shall be deducted from the unit prices of the new unit classes.

At the liquidation of the Investment Fund, the liquidator shall receive remuneration amounting to **0.50 per cent** of the assets of the Fund.

Please refer to the Prospectus for further information regarding this Investment Fund.

Annex

List of stock exchanges with official trading and organized markets

1. Stock exchanges with official trading and organized markets in the Member States of the EEA as well as stock exchanges in European countries outside of the Member States of the EEA which are considered to be equivalent to regulated markets

Each Member State is required to maintain an updated list of markets authorized by it. Such list is to be made available to the other Member States and to the European Commission.

Pursuant to the Directive, the European Commission is obliged to publish once per year a list of the regulated markets of which it has received notice.

Due to increasing deregulation and to trading segment specialization, the list of "regulated markets" is undergoing great changes. Consequently, the European Commission will, in addition to yearly publication of a list in the Official Journal of the European Union, maintain an updated version of this list on its official website.

With the expected withdrawal of the United Kingdom of Great Britain and Northern Ireland (GB) from the EU, GB will lose its status as an EEA Member State and the stock exchanges/regulated markets based there will accordingly lose their status as EEA stock exchanges/regulated markets. In this event, we would like to point out that the following stock exchanges and regulated markets based in GB:

Cboe Europe Equities Regulated Market – Integrated Book Segment, London Metal Exchange, Cboe Europe Equities Regulated Market – Reference Price Book Segment, Cboe Europe Equities Regulated Market – Off-Book Segment, London Stock Exchange Regulated Market (derivatives), NEX Exchange Main Board (non-equity), London Stock Exchange Regulated Market, NEX Exchange Main Board (equity), Euronext London Regulated Market, ICE FUTURES EUROPE - AGRICULTURAL PRODUCTS DIVISION, ICE FUTURES EUROPE - FINANCIAL PRODUCTS DIVISION, ICE FUTURES EUROPE - EQUITY PRODUCTS DIVISION and Gibraltar Stock Exchange

1.1. will be considered to be third-country stock exchanges and recognized regulated markets expressly provided for in these Fund Regulations within the meaning of InvFG 2011 and the UCITS Directive. The current list of regulated markets is available at:

https://reqisters.esma.europa.eu/publication/searchReqister?core=esma_reqisters_upreq 7
