The last significant change to the remuneration policy was implemented with effect as of 4/1/2019, and the Austrian Financial Market Authority was notified accordingly on 2/20/2019.

The Management Company does not (directly) pay any remuneration to employees/managers of the external management company which has been appointed by way of delegation/outsourcing.<sup>5</sup> The external management company does not publish any information on the remuneration paid to its employees/managing directors.

### Remuneration policy principles:

The remuneration policy of LBI is consistent with the business strategy and the goals, values and long-term interests of LBI and of the investment funds under its management. The remuneration system takes into consideration a long-term approach, business success and the assumption of risk. Precautions have been implemented to prevent conflicts of interest.

The goal of the remuneration policy of LBI is for compensation – in particular, the variable salary component – for assumption of inherent business risks within the individual divisions of LBI to be provided only insofar as this is compatible with the risk appetite of LBI. The Management Board of LBI draws up the risk strategy and the principles of risk policy, subject to discussion with the remuneration committee and the Supervisory Board. It also consults Operational Risk Management and Compliance. In particular, the remuneration policy must be compatible with the risk profiles and the fund regulations of the funds managed by LBI.

<sup>1</sup>Gross annual amounts; excluding employer's contributions; including any non-cash remuneration/benefits

<sup>2</sup>At the Management Company, conceptually equivalent to a "director" within the meaning of InvFG 2011 and an "executive" within the meaning of AIFMG, i.e. persons who actually manage the company's business

<sup>3</sup>The beneficiaries pursuant to §20 (2) Item 5 AIFMG and Annex I Schedule B Item 9.1 of InvFG 2011 are managers (=executives/directors), higher-level managerial employees, (other) risk bearers and employees with supervisory roles

<sup>4</sup>Art. 107 (3) of the delegated EU Regulation No 231/2013

<sup>5</sup>Q&A, ESMA [item ii, ESMA34-32-352 (page 7) and ESMA34-43-392 (page 42)]

### Principles for variable remuneration:

Variable remuneration will exclusively be paid out in accordance with the internal guidelines for LBI's remuneration policy. The system reflects a long-term approach, business success and the assumption of risk. Moreover, employees are obliged not to implement any measures or to pursue any activities which would entail the achievement of agreed goals by entering into a disproportionate level of risk or by entering into risks which – on the basis of an objective assessment – they would not have entered into in the absence of the agreement on variable remuneration.

As a rule, variable remuneration will be determined on the basis of a performance assessment at the level of individual employees, but also including the performance of the department or division in question and the overall performance of LBI, as well as its risk position.

For the performance assessment of the managers, the higher-level management, the risk buyers and other risk buyers as well as employees with supervisory roles (hereinafter jointly: "Identified Staff"), their influence over the performance of the department and the company will be considered and weighted accordingly. This will likewise already be considered in defining the relevant set of goals. This set of goals comprises the quantitative goals which may be influenced by the employee as well as relevant qualitative goals. These goals must be proportionate to one another and appropriately structured in line with the employee's position. If it is not possible to define any quantitative goals for certain positions, the relevant qualitative goals will be emphasized. As well as relevant income and risk goals – which must reflect a long-term approach – any set of goals must also include goals in keeping with the position in question – such as compliance, quality, training, organization and documentation goals etc.

The following positions are "Identified Staff":

- Supervisory Board
- Management
- Head of Compliance
- Head of Finance
- Head of Internal Audit
- Head of Risk Management (Back Office and Operational Risk Management)
- Head of Legal
- Head of Human Resources
- Head of Operations
- Fund managers whose variable remuneration exceeds the materiality threshold (see below)

In regard to the overall remuneration, fixed earnings must be proportionate to the variable remuneration (hereinafter also referred to as a "Bonus"). The value of the variable remuneration is limited. As a rule, it may amount to up to 30%, max. 100% of the fixed annual earnings.

The Bonus will be paid to "Identified Staff" subject to a materiality threshold. This threshold will not have been reached if the variable remuneration is less than 25% of the (fixed) annual salary in question and does not exceed EUR 30,000. Accordingly, the following distinction applies for variable remuneration for "Identified Staff":

- If the variable remuneration is below the above-mentioned materiality threshold, the Bonus will be paid out immediately and in full, 100% in cash.
- If the variable remuneration exceeds the above-mentioned materiality threshold, then (in overall terms) as a rule half of the Bonus will be provided in cash and the other half in the form of "non-cash instruments". Concretely, these instruments shall be units of representative investment funds of LBI (hereinafter: "Funds"). For the variable remuneration, the following allocation and apportionment scheme will apply for (the timing of) payment: i) as a rule, 60% of the Bonus will be paid immediately (50% in cash and 50% in the form of funds); ii) the remainder will not be paid out immediately and will instead be apportioned over the following three financial years as a rule (50% in cash and 50% in the form of funds).<sup>6</sup> Moreover, "Identified Staff" may not immediately dispose of the Funds upon receipt and must hold them for a minimum period of two years (for managers) or one year (for the other members of the "Identified Staff").

#### Remuneration committee

LBI has established a remuneration committee consisting of at least 3 members of the Supervisory Board of LBI who do not perform any management tasks. As a committee, this remuneration committee is independent in overall terms. The chairman of the remuneration committee must be an independent member who does not perform any management tasks.

The remuneration committee shall support and advise the Supervisory Board in drafting the remuneration policy of LBI, giving particular consideration to the mechanisms applied to ensure that the remuneration system appropriately reflects any types of risk as well as liquidity and the assets managed and that the remuneration policy is compatible overall with the business strategy and with the goals, values and interests of LBI and the funds under its management.

---

<sup>6</sup>Over the course of this apportionment period, every year – at the end of the financial year – the results in the base year will be evaluated from the point of view of a long-term approach. Depending on the outcome of this evaluation process, the financial position and the risk trend, part payments may also be made each year. If this annual evaluation does not result in a reduction of the variable remuneration or its outright loss, in principle payment will be made annually over the course of the apportionment period in the form of further part payments and in three equal portions.

## **ANNUAL FUND REPORT**

### **for PM 3 (USD), a co-ownership fund pursuant to §2 (1) and (2) InvFG 2011 for the accounting year from December 1, 2019 to November 30, 2020**

Dear unitholder,

LLB Invest Kapitalanlagegesellschaft m.b.H. is pleased to present its report for PM 3 (USD) for the past accounting year.

#### Current statement on the coronavirus situation (as of July 2, 2020):

The economic environment changed dramatically once the coronavirus, which had originated in China, rapidly spread to other countries in late February and it thus became clear that the attempts at rapid containment had failed. While the disease itself is likely, in future, to cause a level of economic damage similar to that for influenza – which generally has little impact on economists' forecasts – the restrictive measures implemented as part of efforts to slow the spread of the disease, in order to avoid a collapse of the healthcare system, are having a highly adverse effect on the global economy and thus also on the stock markets.

While the coronavirus does represent a real threat for older and sick people, once the current state of emergency has ended, humanity will return to business as usual. Through concerted efforts, governments and central banks are therefore likely to be able to prevent mass layoffs and a huge new financial crisis. The residual risk of major industrialized nations disabling their economies for a period of several months by means of emergency measures has significantly decreased over the past few weeks and months. Another genuine financial crisis, including the risk of national bankruptcies, is thus not currently considered a very likely prospect. In fact, initial measures to ease the restrictions have already been implemented globally, and economic activity has picked up accordingly.

The situation on the financial markets has therefore eased considerably, even if temporary setbacks are certainly possible due to the current recession as well as the relatively expensive valuations.

#### Current statement on the coronavirus measures implemented by the company (as of July 2, 2020)

The company implemented appropriate measures when the lockdown was imposed in March of the current year. The crisis is not currently expected to have any lasting impact on the company.

Calculation method for overall level of risk: commitment approach

### **Total return swaps or similar derivative instruments**

A total return swap is a credit derivative for which the income and fluctuations in value of the underlying financial instrument (the underlying instrument or reference asset) are exchanged for fixed interest payments.

In the period under review the fund did not make any use of securities financing transactions or total return swaps (within the meaning of Regulation (EU) 2015/2365 of the European Parliament and of the Council on reporting and transparency of securities financing transactions), where these are permitted according to its fund regulations.

Collateral in the form of demand deposits and bonds was provided for any OTC derivatives in which the fund invested in the period under review, in order to reduce the level of counterparty risk (default risk).

LLB Invest Kapitalanlagegesellschaft m.b.H. complies with the 2012 Code of Conduct of the Austrian Investment Fund Industry.

### 3. Financial markets and investment policy

The year 2019 ended with an upbeat picture overall, both in terms of the performance figures for the individual sub-asset classes for the year as a whole and in relation to the macroeconomic situation for the world's major economies. As well as manufacturing industry, the service sector likewise bottomed out/embarked on a recovery. The leading indicators likewise suggested continuing global growth. However, this notwithstanding significant geopolitical risks remained intact at the turn of the year. The capital markets started out in 2020 with significant price gains, and global stock markets reached new highs. Following the outbreak of the coronavirus crisis in Asia and initially only minor price losses on the global stock exchanges, the capital markets then suffered a collapse of unprecedented velocity once the virus spread throughout the rest of the world. In the second quarter of 2020, the measures implemented in March and April to curb the spread of coronavirus resulted in the fastest and strongest decline in economic activity witnessed since the middle of the last century. However, thanks to generous monetary and fiscal policy responses and initial easing of coronavirus restrictions, over the course of the second quarter of 2020 there were already signs of a recovery of economic activity, and prices which had suffered strong falls began to climb again. The stock market trend was highly positive in every region. In the bond market, too, every sub-category realized a positive return, and the credit segment achieved a particularly strong recovery. The euro performed strongly against the US dollar, the Japanese yen and the British pound and was unchanged against the Swiss franc. In the third quarter of 2020, various upstream indicators remained positive, and the economic recovery from the most severe recession since the Second World War continued. The generous monetary and fiscal stimulus measures buoyed the global stock exchanges. Moreover, companies' earnings season was better than market participants had anticipated and inspired optimism among investors. On a quarterly basis, despite a weak phase in September stock markets performed strongly around the world. Every segment of the bond market gained ground, and credit investments in particular. September was characterized by temporary turbulence on the stock markets. Europe was again hit by the pandemic, the USA's stimulus package had yet to materialize, the US president briefly fell sick with COVID-19, and his Democratic challenger was riding high in the polls. The US election, the dramatic re-escalation of the coronavirus situation and fears that fresh lockdowns would wipe out what was in any case a fragile economic recovery resulted in heightened nervousness on the markets. On the stock exchanges, prices fell strongly as some countries such as France already effectively opted to lock down, while others such as Germany and Switzerland sought to avoid a complete standstill by means of a broad-based slowdown. Despite some weaker economic data during the second coronavirus wave, global stock markets registered significant gains in November on the strength of hopes of the imminent availability of an efficient Covid-19 vaccine, and US equities reached new all-time highs.

Throughout the period, on tactical grounds the fund overweighted equities, relative to its strategic orientation, and underweighted government bonds. The fund reduced its equities allocation in the first quarter, on tactical grounds, on account of the subdued market environment. Towards the end of the first quarter and over the course of Q2, the fund then increased its equities exposure and moved this into an overweight position. The fund also made use of a listed private equity vehicle in its alternative segment. Halfway through the year, the fund repeatedly executed rebalancing trades in order to maintain its tactical allocation and, in its bond segment, extended the duration on the dollar yield curve by means of an ETF position. In the third quarter, the fund then reduced its equities exposure again, due to political uncertainty as well as uncertainty affecting the real economy, before returning this to an overweight position once the outlook improved. The fund switched over instruments in its bond allocation and once again executed rebalancing trades in all of its main asset classes, in response to strong market movements.

There is "a risk of valuation prices for certain securities deviating from their actual selling prices due to pricing on illiquid markets (valuation risk)".

CME	CME Chicago Mercantile Exchange							

The value of a unit is calculated by dividing the entire value of the investment fund inclusive of its income by the number of units. The total value of the investment fund is calculated on the basis of the current market prices of the securities, money market instruments and subscription rights in the fund plus the value of the fund's financial investments, cash holdings, credit balances, receivables and other rights, less its liabilities. That value will be calculated by the custodian bank.

The net assets are calculated in accordance with the following principles:

- a) In general, the value of assets quoted or dealt in on a stock exchange or on another regulated market will be determined on the basis of the most recently available price.
- b) If an asset is not quoted or dealt in on a stock exchange or another regulated market or if the price for an asset quoted or dealt in on a stock exchange or another regulated market does not appropriately reflect its actual market value, the prices provided by reliable data providers or, alternatively, market prices for equivalent securities or other recognized valuation methods will be used.

LLB Invest Kapitalanlagegesellschaft m.b.H.

The Management Board

## **5. Audit certificate<sup>\*)</sup>**

### **Report on the annual fund report**

#### **Audit opinion**

We have audited the attached annual fund report issued by LLB Invest Kapitalanlagegesellschaft m.b.H., Vienna, for its fund

#### **PM 3 (USD)**

a co-ownership fund pursuant to §2 (1) and (2) InvFG 2011,

comprising the statement of assets as of November 30, 2020, the statement of income for the accounting year ending on this date and the other particulars stipulated in Annex I Schedule B of the Austrian Investment Fund Act 2011 (InvFG 2011).

In our view, the annual fund report complies with the statutory requirements and provides a true and fair view of the fund's net assets and financial position as of November 30, 2020 and of the fund's earnings position for the accounting year ending on this date, in compliance with Austrian commercial law and the provisions of InvFG 2011.

#### **Basis for the audit opinion**

We performed our audit pursuant to §49 (5) of InvFG 2011 whilst complying with the Austrian principles of proper auditing. These principles require application of the International Standards on Auditing (ISA). Our responsibilities on the basis of these requirements and standards are outlined in further detail in the "Responsibilities of the auditor for the audit of the annual fund report" section of our audit certificate. We are independent from the company, in compliance with Austrian commercial law and professional standards, and we have fulfilled our other professional duties in accordance with these requirements. In our view, the documentation which we have obtained is sufficient and appropriate in order to serve as a basis for our audit opinion.

#### **Responsibilities of the company's legal representatives and the Supervisory Board for the annual fund report**

The company's legal representatives are responsible for the preparation of the annual fund report and for ensuring that it provides a true and fair view of the fund's net assets, financial and earnings position in compliance with Austrian commercial law and the provisions of InvFG 2011. The company's legal representatives are also responsible for the internal controls which they deem necessary in order to enable the preparation of an annual fund report which is free from material (intentional or unintentional) misrepresentations.

The Supervisory Board is responsible for monitoring the company's accounting process in relation to the funds under its management.

## **Responsibilities of the auditor for the audit of the annual fund report**

Our goals are to establish sufficient certainty as to whether the annual fund report as a whole is free from material (intentional or unintentional) misrepresentations and to issue an audit certificate which includes our audit opinion. Sufficient certainty means a high level of certainty – but not a guarantee – that an orderly audit performed in accordance with the recognized Austrian principles – which require application of the ISA – will always uncover any material misrepresentation. Misrepresentations may result from malicious acts or on the basis of errors and will be deemed material where they may be reasonably expected – either individually or collectively – to influence the economic decisions made by users on the basis of this annual fund report.

As part of an audit complying with the recognized Austrian principles of orderly auditing – which require application of the ISA – we exercise due discretion throughout our audit and maintain a critical distance.

In addition, the following applies:

- We identify and evaluate the risks of material (intentional or unintentional) misrepresentations in the annual fund report, plan audit activities in response to these risks, implement these activities and obtain audit documentation which is sufficient and suitable in order to serve as a basis for our audit opinion. The risk of material misrepresentations resulting from malicious acts not being uncovered is greater than the risk resulting from errors, since malicious acts may include fraudulent collaboration, falsifications, deliberate incompleteness, misleading representations or the suspension of internal controls.
- We obtain a picture of the internal control system which is relevant for the audit so as to plan audit activities which are adequate in the given circumstances, but not with the objective of providing an audit opinion regarding the effectiveness of the company's internal control system.
- We evaluate the adequacy of the accounting methods applied by the company's legal representatives as well as the reasonableness of the legal representatives' estimates in the accounting as well as the related disclosures.
- We evaluate the overall picture, the structure and the contents of the annual fund report including the disclosures and whether the annual fund report provides a true and fair view of the underlying business transactions and events.
- We discuss matters with the Supervisory Board including the planned scope of the audit and its schedule as well as significant audit findings, including any significant shortcomings in the internal control system that we identify in the course of our audit.

## Other information

The company's legal representatives are responsible for the other information provided. This other information comprises all of the information included in the annual fund report, with the exception of the statement of assets, the statement of income, the other disclosures required under Annex I Schedule B of InvFG 2011 and the audit certificate.

Our audit opinion for the annual fund report does not cover this other information, and we do not provide any sort of assurance in this regard.

In connection with our audit of the annual fund report, we are responsible for reading this other information and for considering whether there are any material inconsistencies between this other information and the annual fund report or on the basis of our knowledge obtained in the course of our audit or whether this information appears to have been otherwise materially misrepresented. If we reach the conclusion on the basis of our activities that this other information has been materially misrepresented, we must report this. We have nothing to report in this respect.

- Under §240 (3) BAO, private investors are able to apply to their competent tax office for reimbursement of the investment income tax or claim this as part of their income tax assessment. For corporate investors, this tax exemption and the associated offsetting of investment income tax against income tax/corporate income tax are granted as part of the tax assessment.
- Profit shares resulting from investments in corporate bodies in the EU, Norway and from investments in foreign corporate bodies which are analogous to an Austrian corporate body within the scope of §7 (3) and whose countries of residence and Austria provide each other with comprehensive administrative assistance are exempt from corporate income tax for legal persons and private foundations pursuant to §10 (1) Items 5 and 6 KStG, as amended by the Austrian Taxation Amendment Act (*Abgabenänderungsgesetz*, AAG) 2011.
- The fictitious offsettable amount in accordance with the double taxation agreement (matching credit) may only be claimed as part of a tax assessment.
- In principle, not relevant for private investors and corporate investors/natural persons as the foreign dividends have taxation at source status upon deduction of the investment income tax. In individual cases (in case of direct recourse to the double taxation agreement), these amounts may be offset as part of a tax assessment and the investment income tax reimbursed.
- The amount offset may not exceed the Austrian income/corporate income tax applicable pro rata for the corresponding capital income, whereby sources of income outside this fund must also be taken into consideration.
- Withheld taxes are only offsettable/reimbursable for unitholders holding certificates as of the cut-off date for the financial statements.
- The applicable double taxation agreements stipulate that upon application the withholding taxes levied in the relevant source country are to be reimbursed where not offsettable. The reimbursement applications must be submitted by the relevant unitholders. The necessary forms may be obtained from the website of the Austrian Federal Finance Ministry (<https://www.bmf.gv.at>).
- For private investors and corporate investors/natural persons, the investment income has taxation at source status upon deduction of the investment income tax. In individual cases (if the income tax is less than the investment income tax), these amounts may be taxed as part of a tax assessment and the investment income tax may be (partially) offset or reimbursed.
- Not applicable for corporate investors presenting an investment income tax exemption declaration in accordance with §94 Item 5 EStG 1988. If no such declaration is presented, the investment income tax is offsettable against the income tax/corporate income tax, where taxation at source status does not apply.

- 10) For private investors, income is taxed at source upon deduction of investment income tax. For corporate investors/natural persons, taxation at source status only applies in relation to income attracting investment income tax (excluding capital gains pursuant to §27 (3) and (4) EStG). In individual cases (if the income tax is less than the investment income tax), these amounts may be taxed as part of a tax assessment and the investment income tax may be (partially) offset or reimbursed.
- 11) For private foundations, these amounts are subject to taxation (including the optional interest portion for which the foundation is unable to opt for investment income tax deduction in the absence of a legal framework).
- 12) Investment income tax withheld for capital gains in relation to natural persons' business assets may be offset against income tax.
- 13) For taxpayers who are required to prepare balance sheets, the corresponding balance-sheet item must be written down accordingly.
- 14) To avoid double taxation, dividend-equivalent income will increase the acquisition costs, while distributions will reduce the acquisition costs for the fund unit. The custodian bank will take into consideration the revised acquisition costs for customers' portfolios which are subject to investment income tax.
- 15) The actual maximum setoff amount per unit is determined as follows, deviating from the values specified here: Total amount of offsettable taxes (amount under 8.1.1. to 8.1.6 multiplied by the number of units at the end of the fund's financial year) divided by the number of units as of the reporting date.

## Tax treatment per accumulation unit for PM 3 (USD)

All figures relate to the units outstanding as of the cut-off date for the financial statements and to Austrian investors with unlimited tax liability. Investors whose headquarters, place of residence or place of normal domicile is outside Austria must comply with applicable national legislation.

- 1) Under §240 (3) BAO, private investors are able to apply to their competent tax office for reimbursement of the investment income tax or claim this as part of their income tax assessment. For corporate investors, this tax exemption and the associated offsetting of investment income tax against income tax/corporate income tax are granted as part of the tax assessment.
- 2) Profit shares resulting from investments in corporate bodies in the EU, Norway and from investments in foreign corporate bodies which are analogous to an Austrian corporate body within the scope of §7 (3) and whose countries of residence and Austria provide each other with comprehensive administrative assistance are exempt from corporate income tax for legal persons and private foundations pursuant to §10 (1) Items 5 and 6 KStG, as amended by the Austrian Taxation Amendment Act (*Abgabenänderungsgesetz, AAG*) 2011.
- 3) The fictitious offsettable amount in accordance with the double taxation agreement (matching credit) may only be claimed as part of a tax assessment.
- 4) In principle, not relevant for private investors and corporate investors/natural persons as the foreign dividends have taxation at source status upon deduction of the investment income tax. In individual cases (in case of direct recourse to the double taxation agreement), these amounts may be offset as part of a tax assessment and the investment income tax reimbursed.
- 5) The amount offset may not exceed the Austrian income/corporate income tax applicable pro rata for the corresponding capital income, whereby sources of income outside this fund must also be taken into consideration.
- 6) Withheld taxes are only offsettable/reimbursable for unitholders holding certificates as of the cut-off date for the financial statements.
- 7) The applicable double taxation agreements stipulate that upon application the withholding taxes levied in the relevant source country are to be reimbursed where not offsettable. The reimbursement applications must be submitted by the relevant unitholders. The necessary forms may be obtained from the website of the Austrian Federal Finance Ministry (<https://www.bmf.gv.at>).
- 8) For private investors and corporate investors/natural persons, the investment income has taxation at source status upon deduction of the investment income tax. In individual cases (if the income tax is less than the investment income tax), these amounts may be taxed as part of a tax assessment and the investment income tax may be (partially) offset or reimbursed.
- 9) Not applicable for corporate investors presenting an investment income tax exemption declaration in accordance with §94 Item 5 EStG 1988. If no such declaration is presented, the investment income tax is offsettable against the income tax/corporate income tax, where taxation at source status does not apply.
- 10) For private investors, income is taxed at source upon deduction of investment income tax. For corporate investors/natural persons, taxation at source status only applies in relation to income attracting investment income tax (excluding capital gains pursuant to §27 (3) and (4) EStG). In individual cases (if the income tax is less than the investment income tax), these amounts may be taxed as part of a tax assessment and the investment income tax may be (partially) offset or reimbursed.
- 11) For private foundations, these amounts are subject to taxation (including the optional interest portion for which the foundation is unable to opt for investment income tax deduction in the absence of a legal framework).
- 12) Investment income tax withheld for capital gains in relation to natural persons' business assets may be offset against income tax.
- 13) For taxpayers who are required to prepare balance sheets, the corresponding balance-sheet item must be written down accordingly.
- 14) To avoid double taxation, dividend-equivalent income will increase the acquisition costs, while distributions will reduce the acquisition costs for the fund unit. The custodian bank will take into consideration the revised acquisition costs for customers' portfolios which are subject to investment income tax.
- 15) The actual maximum setoff amount per unit is determined as follows, deviating from the values specified here: Total amount of offsettable taxes (amount under 8.1.1. to 8.1.6 multiplied by the number of units at the end of the fund's financial year) divided by the number of units as of the reporting date.

## Tax treatment per accumulation unit for PM 3 (USD)

All figures relate to the units outstanding as of the cut-off date for the financial statements and to Austrian investors with unlimited tax liability. Investors whose headquarters, place of residence or place of normal domicile is outside Austria must comply with applicable national legislation.

- 1) Under §240 (3) BAO, private investors are able to apply to their competent tax office for reimbursement of the investment income tax or claim this as part of their income tax assessment. For corporate investors, this tax exemption and the associated offsetting of investment income tax against income tax/corporate income tax are granted as part of the tax assessment.
- 2) Profit shares resulting from investments in corporate bodies in the EU, Norway and from investments in foreign corporate bodies which are analogous to an Austrian corporate body within the scope of §7 (3) and whose countries of residence and Austria provide each other with comprehensive administrative assistance are exempt from corporate income tax for legal persons and private foundations pursuant to §10 (1) Items 5 and 6 KStG, as amended by the Austrian Taxation Amendment Act (*Abgabenänderungsgesetz, AÄG*) 2011.
- 3) The fictitious offsettable amount in accordance with the double taxation agreement (matching credit) may only be claimed as part of a tax assessment.
- 4) In principle, not relevant for private investors and corporate investors/natural persons as the foreign dividends have taxation at source status upon deduction of the investment income tax. In individual cases (in case of direct recourse to the double taxation agreement), these amounts may be offset as part of a tax assessment and the investment income tax reimbursed.
- 5) The amount offset may not exceed the Austrian income/corporate income tax applicable pro rata for the corresponding capital income, whereby sources of income outside this fund must also be taken into consideration.
- 6) Withheld taxes are only offsettable/reimbursable for unitholders holding certificates as of the cut-off date for the financial statements.
- 7) The applicable double taxation agreements stipulate that upon application the withholding taxes levied in the relevant source country are to be reimbursed where not offsettable. The reimbursement applications must be submitted by the relevant unitholders. The necessary forms may be obtained from the website of the Austrian Federal Finance Ministry (<https://www.bmf.gv.at>).
- 8) For private investors and corporate investors/natural persons, the investment income has taxation at source status upon deduction of the investment income tax. In individual cases (if the income tax is less than the investment income tax), these amounts may be taxed as part of a tax assessment and the investment income tax may be (partially) offset or reimbursed.
- 9) Not applicable for corporate investors presenting an investment income tax exemption declaration in accordance with §94 Item 5 EStG 1988. If no such declaration is presented, the investment income tax is offsettable against the income tax/corporate income tax, where taxation at source status does not apply.
- 10) For private investors, income is taxed at source upon deduction of investment income tax. For corporate investors/natural persons, taxation at source status only applies in relation to income attracting investment income tax (excluding capital gains pursuant to §27 (3) and (4) EStG). In individual cases (if the income tax is less than the investment income tax), these amounts may be taxed as part of a tax assessment and the investment income tax may be (partially) offset or reimbursed.
- 11) For private foundations, these amounts are subject to taxation (including the optional interest portion for which the foundation is unable to opt for investment income tax deduction in the absence of a legal framework).
- 12) Investment income tax withheld for capital gains in relation to natural persons' business assets may be offset against income tax.
- 13) For taxpayers who are required to prepare balance sheets, the corresponding balance-sheet item must be written down accordingly.
- 14) To avoid double taxation, dividend-equivalent income will increase the acquisition costs, while distributions will reduce the acquisition costs for the fund unit. The custodian bank will take into consideration the revised acquisition costs for customers' portfolios which are subject to investment income tax.
- 15) The actual maximum setoff amount per unit is determined as follows, deviating from the values specified here: Total amount of offsettable taxes (amount under 8.1.1. to 8.1.6 multiplied by the number of units at the end of the fund's financial year) divided by the number of units as of the reporting date.

## Tax treatment per accumulation unit for PM 3 (USD)

All figures relate to the units outstanding as of the cut-off date for the financial statements and to Austrian investors with unlimited tax liability. Investors whose headquarters, place of residence or place of normal domicile is outside Austria must comply with applicable national legislation.

- 1) Under §240 (3) BAO, private investors are able to apply to their competent tax office for reimbursement of the investment income tax or claim this as part of their income tax assessment. For corporate investors, this tax exemption and the associated offsetting of investment income tax against income tax/corporate income tax are granted as part of the tax assessment.
- 2) Profit shares resulting from investments in corporate bodies in the EU, Norway and from investments in foreign corporate bodies which are analogous to an Austrian corporate body within the scope of §7 (3) and whose countries of residence and Austria provide each other with comprehensive administrative assistance are exempt from corporate income tax for legal persons and private foundations pursuant to §10 (1) Items 5 and 6 KStG, as amended by the Austrian Taxation Amendment Act (*Abgabenänderungsgesetz, AÄG*) 2011.
- 3) The fictitious offsettable amount in accordance with the double taxation agreement (matching credit) may only be claimed as part of a tax assessment.
- 4) In principle, not relevant for private investors and corporate investors/natural persons as the foreign dividends have taxation at source status upon deduction of the investment income tax. In individual cases (in case of direct recourse to the double taxation agreement), these amounts may be offset as part of a tax assessment and the investment income tax reimbursed.
- 5) The amount offset may not exceed the Austrian income/corporate income tax applicable pro rata for the corresponding capital income, whereby sources of income outside this fund must also be taken into consideration.
- 6) Withheld taxes are only offsettable/reimbursable for unitholders holding certificates as of the cut-off date for the financial statements.
- 7) The applicable double taxation agreements stipulate that upon application the withholding taxes levied in the relevant source country are to be reimbursed where not offsettable. The reimbursement applications must be submitted by the relevant unitholders. The necessary forms may be obtained from the website of the Austrian Federal Finance Ministry (<https://www.bmf.gv.at>).
- 8) For private investors and corporate investors/natural persons, the investment income has taxation at source status upon deduction of the investment income tax. In individual cases (if the income tax is less than the investment income tax), these amounts may be taxed as part of a tax assessment and the investment income tax may be (partially) offset or reimbursed.
- 9) Not applicable for corporate investors presenting an investment income tax exemption declaration in accordance with §94 Item 5 EStG 1988. If no such declaration is presented, the investment income tax is offsettable against the income tax/corporate income tax, where taxation at source status does not apply.
- 10) For private investors, income is taxed at source upon deduction of investment income tax. For corporate investors/natural persons, taxation at source status only applies in relation to income attracting investment income tax (excluding capital gains pursuant to §27 (3) and (4) EStG). In individual cases (if the income tax is less than the investment income tax), these amounts may be taxed as part of a tax assessment and the investment income tax may be (partially) offset or reimbursed.
- 11) For private foundations, these amounts are subject to taxation (including the optional interest portion for which the foundation is unable to opt for investment income tax deduction in the absence of a legal framework).
- 12) Investment income tax withheld for capital gains in relation to natural persons' business assets may be offset against income tax.
- 13) For taxpayers who are required to prepare balance sheets, the corresponding balance-sheet item must be written down accordingly.
- 14) To avoid double taxation, dividend-equivalent income will increase the acquisition costs, while distributions will reduce the acquisition costs for the fund unit. The custodian bank will take into consideration the revised acquisition costs for customers' portfolios which are subject to investment income tax.
- 15) The actual maximum setoff amount per unit is determined as follows, deviating from the values specified here: Total amount of offsettable taxes (amount under 8.1.1. to 8.1.6 multiplied by the number of units at the end of the fund's financial year) divided by the number of units as of the reporting date.

## Fund Regulations pursuant to InvFG 2011

The Austrian Financial Market Authority (FMA) has approved the Fund Regulations for the Investment Fund **PM 3 (USD)**, a co-ownership fund pursuant to the **Austrian Investment Fund Act 2011, as amended** (InvFG).

The Investment Fund is an undertaking for collective investment in transferable securities (UCITS) and is managed by LLB Invest Kapitalanlagegesellschaft m.b.H. (hereinafter: the "Management Company") which is headquartered in Vienna.

### Article 1 - Co-ownership interests

The co-ownership interests are embodied in unit certificates that are negotiable instruments which are issued to bearer.

The unit certificates are represented by global certificates for each unit class. Therefore, physical securities certificates cannot be issued.

### Article 2 - Custodian bank (depository)

The Investment Fund's custodian bank (depository) is Liechtensteinische Landesbank (Österreich) AG, Vienna.

The custodian bank (depository) and other paying agents referred to in the Prospectus are the paying agents for unit certificates.

### Article 3 - Investment instruments and principles

**The following assets may be selected for the Investment Fund, as stipulated in InvFG:**

PM 3 (USD) pursues an investment goal of long-term capital growth.

Bonds or other securitized debt securities may be purchased for the Investment Fund directly or indirectly through other investment funds or derivative instruments, together with money market instruments, for **up to 100 percent** of the assets of the Fund.

In addition, equities and equity-equivalent securities may be purchased directly or indirectly through other investment funds or derivative instruments for **up to 100 percent** of the assets of the Fund.

The following investment instruments are purchased for the assets of the Fund, subject to compliance with the above description.

- **Securities**

Securities (including securities featuring embedded derivative instruments) may be purchased for **up to 100 percent** of the assets of the Fund.

- **Money market instruments**

Money market instruments may be purchased for **up to 100 percent** of the assets of the Fund.

- **Securities and money market instruments**

Not fully paid-in securities or money market instruments and subscription rights for such instruments or other not fully paid-in financial instruments may be purchased.

Securities and money market instruments may be purchased where they comply with the criteria for listing and trading on a regulated market or a stock exchange pursuant to InvFG.

Securities and money market instruments which do not fulfill the criteria laid down in the above paragraph may be purchased for **up to 10 per cent** of the assets of the Fund in aggregate.

- **Units of investment funds**

Units of investment funds (UCITS, UCIs) **may each be purchased for up to 20 per cent** of the assets of the Fund – and **up to 100 per cent** of the assets of the Fund **in aggregate** – insofar as these UCITS or UCIs do not for their part invest more than **10 per cent** of their fund assets in units of other investment funds.

Units of UCIs may be purchased for **up to 30 per cent** of the assets of the Fund **in aggregate**.

- **Derivative instruments**

Derivative instruments may account for **up to 100 percent** of the assets of the Fund within the framework of the Investment Fund's investment strategy and for hedging purposes.

- **Investment fund's risk measurement method**

The Investment Fund uses the following risk measurement method:

**Commitment approach**

The commitment value is calculated pursuant to the 3rd chapter of the 4th Austrian Derivatives Risk Calculation and Reporting Ordinance (*Derivate-Risikoberechnungs- und Meldeverordnung, DeRiMV*), as amended.

- **Demand deposits and callable deposits**

Demand deposits and callable deposits with a term not exceeding 12 months may amount to **up to 100 per cent** of the assets of the Fund.

No minimum bank balance need be maintained.

- **Short-term loans**

The Management Company may take up short-term loans of **up to 10 per cent** of the assets of the Fund for account of the Investment Fund.

- **Repurchase agreements**

Not applicable.

- **Securities lending**

Not applicable.

- Investment instruments may only be acquired uniformly for the entire investment fund, not for an individual unit class or for a group of unit classes.
- However, this does not apply for currency hedging transactions. These transactions may also be entered into exclusively in relation to a single unit class. Expenses and income resulting from a currency hedging transaction shall exclusively be allocated to the relevant unit class.

#### **Article 4 - Issuance and redemption procedures**

The unit value will be calculated in **USD**.

The value of units will be calculated **on any Austrian banking day**, except for Good Friday and New Year's Eve.

##### **- Issuance and subscription fee**

Units will be issued on any Austrian banking day, except for Good Friday and New Year's Eve.

The issue price is the unit value plus a fee per unit of **max. 10 percent** to cover the Management Company's issuing costs, rounded up to the nearest 1 cent.

Issuance of the units shall not be limited in principle; however, the Management Company reserves the right to cease issuing unit certificates either temporarily or permanently.

The Management Company shall be entitled to introduce a graduated subscription fee.

##### **- Redemption and redemption fee**

Units will be redeemed on any Austrian banking day, except for Good Friday and New Year's Eve.

The redemption price corresponds to the unit value, rounded down to the nearest 1 cent.

No redemption fee will be charged.

At the request of a unitholder, his unit shall be redeemed out of the Investment Fund at the applicable redemption price against surrender of the unit certificate.

#### **Article 5 - Accounting year**

The Investment Fund's accounting year runs from December 1 to November 30.

#### **Article 6 - Unit classes and application of income**

Distribution unit certificates and/or accumulation unit certificates with investment income tax paid and accumulation unit certificates without investment income tax paid may be issued for the Investment Fund, with each certificate documenting one unit or fractions thereof.

Various classes of unit certificates may be issued for this Investment Fund. The establishment of unit classes and issuance of units in a given unit class are at the discretion of the Management Company.

##### **- Application of income for distribution unit certificates (*income distribution*)**

The income received during the past accounting year (interest and dividends), net of expenses, may be distributed at the discretion of the Management Company. The Management Company may opt not to make any distribution, subject to due consideration of the interests of the unitholders. The distribution of income from the sale of assets of the Investment Fund, including subscription rights, is likewise at the discretion of the Management Company. The fund assets may be distributed. Interim distributions are permitted.

The fund assets may not, as a result of distributions, fall below the minimum volume for a termination which is stipulated by law.

These amounts will be distributed to holders of distribution unit certificates from **January 15** of the following accounting year. The remainder will be carried forward to new account.

In any case, from **January 15** the amount calculated pursuant to InvFG must be paid out, to be used, where applicable, to meet any investment income tax liability on the dividend-equivalent income for

those unit certificates unless the Management Company ensures, by furnishing proof from the custodian institutions, that at the time of payment, the unit certificates are only held by unitholders who are either not subject to Austrian income tax or corporate income tax or who fulfill the requirements for exemption pursuant to §94 EStG or for an investment income tax exemption.

- **Application of income for accumulation unit certificates with investment income tax paid**  
**(income accumulation)**

The income received during the accounting year that remains, net of expenses, will not be distributed. In case of accumulation unit certificates, from **January 15** the amount calculated pursuant to InvFG must be paid out, to be used, where applicable, to meet any investment income tax liability on the dividend-equivalent income for those unit certificates unless the Management Company ensures, by furnishing proof from the custodian institutions, that at the time of payment, the unit certificates are only held by unitholders who are either not subject to Austrian income tax or corporate income tax or who fulfill the requirements for exemption pursuant to §94 EStG or for an investment income tax exemption.

- **Application of income for accumulation unit certificates without payment of investment income tax**  
**(full income accumulation)**

The income received during the accounting year that remains, net of expenses, will not be distributed. No payment pursuant to InvFG will be made. The key date pursuant to InvFG in case of non-payment of investment income tax on the Fund's annual income is **from January 15** of the following accounting year.

The Management Company must ensure, by furnishing proof from the custodian institutions, that at the time of payment the unit certificates are only held by unitholders who are either not subject to Austrian income tax or corporate income tax or who fulfill the requirements for exemption pursuant to §94 EStG or for an investment income tax exemption.

If these preconditions have not been met as of the payment date, the amount calculated pursuant to InvFG shall be paid out by the custodian bank in the form of credit.

- **Application of income for accumulation unit certificates without payment of investment income tax**  
**(full income accumulation, foreign tranche)**

Accumulation unit certificates without payment of investment income tax will be exclusively distributed outside Austria.

The income received during the accounting year that remains, net of expenses, will not be distributed. No payment pursuant to InvFG will be made.

The Management Company must ensure, by furnishing appropriate proof, that at the time of payment the unit certificates are only held by unitholders who are either not subject to Austrian income tax or corporate income tax or who fulfill the requirements for exemption pursuant to §94 EStG or for an investment income tax exemption.

#### **Article 7 - Management fee, reimbursement of expenses, liquidation fee**

For its management activity, the Management Company receives annual remuneration of up to **2 percent p.a.** This remuneration will be calculated on the basis of the month-end values, accrued daily and paid out monthly.

The Management Company shall be entitled to introduce a graduated management fee.

The Management Company is entitled to reimbursement of all expenses associated with its management activities.

The costs arising at the introduction of new unit classes for existing asset portfolios shall be deducted from the unit prices of the new unit classes.

At the liquidation of the Investment Fund, the liquidator shall receive remuneration amounting to **0.50 percent** of the assets of the Fund.

**Please refer to the Prospectus for further information regarding this Investment Fund.**

## Annex

### List of stock exchanges with official trading and organized markets

#### 1. Stock exchanges with official trading and organized markets in the Member States of the EEA as well as stock exchanges in European countries outside of the Member States of the EEA which are considered to be equivalent to regulated markets

Each Member State is required to maintain an updated list of markets authorized by it. Such list is to be made available to the other Member States and to the European Commission.

Pursuant to the Directive, the European Commission is obliged to publish once per year a list of the regulated markets of which it has received notice.

Due to increasing deregulation and to trading segment specialization, the list of “regulated markets” is undergoing great changes. Consequently, the European Commission will, in addition to yearly publication of a list in the Official Journal of the European Union, maintain an updated version of this list on its official website.

##### 1.1. The current list of regulated markets is available at:
