### Legal notice

The software used performs calculations on the basis of more than the two decimal places displayed. Minor discrepancies cannot be ruled out due to further calculations using published results.

The value of a unit is calculated by dividing the entire value of the investment fund inclusive of its income by the number of units. The total value of the investment fund is calculated on the basis of the current market prices of the securities, money market instruments and subscription rights in the fund plus the value of the fund's financial investments, cash holdings, credit balances, receivables and other rights net of its payables. That value will be calculated by the custodian bank.

The net assets are calculated in accordance with the following principles:

- a) The value of assets quoted or traded on a stock exchange or other regulated market shall be determined, in principle, on the basis of the most recently available price.
- b) Where an asset is not quoted or traded on a stock market or another regulated market or where the price for an asset quoted or traded on a stock market or another regulated market does not appropriately reflect its actual market value, the prices provided by reliable data providers or, alternatively, market prices for equivalent securities or other recognized market valuation methods shall be used.

Raiffeisen KAG calculates performance based on the published fund price, using the OeKB methodology. Individual costs – such as transaction fees, the subscription fee (not exceeding 0.00 %), the redemption fee (not exceeding 0.00 %) or custody charges of the investor – and taxes are not included in the performance calculation. These would reduce the performance if they were included. Past value is not a reliable indicator of the fund's future performance.

Dear unitholder,

Raiffeisen Kapitalanlage-Gesellschaft m.b.H. is pleased to present its semi-annual fund report for Raiffeisen Global Bonds for the reporting period from Feb 1, 2021 to Jul 31, 2021. The accounting is based on the price calculation as of Jul 30, 2021.

## Fund investment policy report

Raiffeisen Global Bonds consists of a varied, highly-diversified global bond portfolio. The fund's strategic orientation includes investments in various currency regions and, within these regions, investments in a wide range of securities. This mainly comprises government bonds or quasi-government bonds and, to a lesser extent, non-government bonds or corporate bonds, covered bonds and supranationals, etc. In line with its global fund character, Raiffeisen Global Bonds comprises both developed markets bonds and emerging markets bonds, the latter to a small degree. Complying with this diversification principle, securities are generally not hedged against currency or interest rate risks, or are only hedged on tactical grounds. Furthermore, emerging markets bonds are mostly included via (sub)funds. This is done to ensure that the addition of emerging markets is efficient and broadly diversified. The proportionally largest securities currency (as at the reference day and broken down) is the US dollar at approx. 46 % of the fund volume, followed by the euro at around 25 %, the Japanese yen at around 16 % and the British pound at approx. 5 %. The fund holds a strategic volume of eastern European currencies and emerging markets currencies totaling around 4 %. As at the reference date, the interest rate sensitivity was approx. 8 years, which is moderately higher than the average figure of the last few years. As described above, the various currency bonds mostly consist of government bonds and, to a lesser extent, corporate bonds. On tactical grounds or due to varying risk-return expectations in different markets or asset classes, the fund deviates from the above figures when necessary or in the case of risk-return estimates. The quota of corporate bonds and the quota of foreign currency securities approximately mirrored the track record.

Securities lending transactions were entered into in order to generate additional income.

## Makeup of fund assets in EUR

Any discrepancies in terms of the market value or the share of the fund assets result from rounding-off.

**UCITS** refers to units in an undertaking for collective investment in transferable securities

**§ 166 InvFG** refers to units in investment funds in the form of "other asset portfolios"

**§ 166 (1) item 2 InvFG** refers to units in special funds

**§ 166 (1) item 3 InvFG** refers to units in undertakings for collective investment in transferable securities pursuant to § 166 (1) item 3 InvFG  
(such as alternative investments/hedge funds)

**§ 166 (1) item 4 InvFG** refers to units in real estate funds

- Identity of the counterparties for securities lending transactions:

Raiffeisen Bank International AG (as a recognized securities lending system within the meaning of § 84 InvFG)

- Nature and value of eligible collateral received by the investment fund versus the counterparty risk:

Under the master agreement on securities lending transactions concluded between the management company and Raiffeisen Bank International AG, Raiffeisen Bank International AG is obliged to provide collateral for loaned securities. Bonds, equities and units in investment funds are permitted as collateral. The bonds used as collateral may be issued by sovereigns, supranational issuers and/or companies etc. No stipulations apply in relation to the terms of these bonds. Within the scope of provision of collateral, pursuant to § 4 of the Austrian Securities Lending and Repurchase Agreement Ordinance (Verordnung zu Wertpapierleih- und Pensionsgeschäften, WPV), diversification and correlation with risk diversification achieved through quantitative issuer limits in particular and appropriate liquidity for collateral for the purpose of tradability and realizability will be ensured. This collateral will be valued on each banking day, subject to an add-on compared to the valuation of the securities loaned from the fund in accordance with provisions of EU Regulation 575/2013 (CRR). For bonds, this add-on will be determined on the basis of the credit rating of the issuer and the remaining term of the bond and will amount to no less than 0.5 %. For equities and units in investment funds, this add-on will amount to 10.607 %. The value of the required collateral, thus calculated, will result in the ongoing overcollateralization of the fund's outstanding securities lending positions.

On the reporting date the collateral had the following makeup:

ISIN	Security title	Regulated market	Currency	Asset class	Issuer	Rating	Volume Jul 30, 2021	Market value in portfolio currency
US71567RAH93	PERUSAHAAN PENERBIT SBSN INDOIS 4.15 03/29/27	LISTED	USD	Bonds	Perusahaan Penerbit SBSN Indonesia III	bbb	25,000,000	23,570,617.19
XS1891574441	CHINA GOVT INTL BOND CHINA 3 1/2 10/19/28	LISTED	USD	Bonds	People's Republic of China	a	9,000,000	8,636,879.97

In relation to securities lending transactions, the investment fund is not entirely collateralized by means of securities which are either issued or guaranteed by an EEA member state.

Collateral holding period: unlimited

Period of securities lending:

Duration / Days	< 1 day	1-7 days	7-30 days	30-90 days	90-360 days
	0 %	0 %	0 %	0 %	100 %

Country of counterparty (Raiffeisen Bank International AG): Austria

Settlement: bilateral

- Reuse of collateral:

Collateral received is not reused.

- Custody of collateral which the investment fund has received in connection with securities lending transactions:

The collateral will be held in a separate sub-account with the custodian bank/depository for each fund.

- Custody of collateral which the investment fund has provided in connection with securities lending transactions:

Within the limits stipulated by law (§ 84 InvFG), the management company is merely permitted to lend securities to third parties. However, it is not permitted to borrow securities. Accordingly, the investment fund will not provide any collateral within the scope of securities lending transactions.

#### Further information on repurchase agreements

During the reporting period, no repurchase agreements were concluded on behalf of the fund. Accordingly, the information concerning repurchase agreements which is stipulated in § 8 of the Austrian Securities Lending and Repurchase Agreement Ordinance and Art. 13 of Regulation (EU) No. 2015/2365 is not required.

#### Total return swaps and similar derivative instruments

A total return swap is a credit derivative instrument. Income and fluctuations in the value of the underlying financial instrument (underlying instrument or reference asset) are exchanged for fixed interest payments.

The fund did not enter into total return swaps or similar derivative instruments in the period under review.
