Schroder International Selection Fund

The Company

Schroder International Selection Fund (the “Company”) organised as a “société anonyme” is an open-ended ‘umbrella’ company incorporated under Luxembourg law, which enables investors to choose from ‘Sub-Funds’ (specific portfolios of assets and liabilities within the Company having their own net asset value and represented by a separate class or classes of shares) offering different investment objectives.

This report covers the period from 1 January 2022 to 30 June 2022. The financial statements are prepared in accordance with Luxembourg regulations relating to undertakings for collective investment. The last day on which prices were calculated was 30 June 2022, the last working day of the period and 29 June 2022 Schroder ISF China A, Schroder ISF China A All Cap and Schroder ISF Japan DGF.

At the date of this report, 136 Sub-Funds were available for investment. Sanctions imposed following Russia's invasion of Ukraine, combined with the partial closure of the Russian Stock Exchange and the resultant inability of market participants to trade and achieve settlement reliably in Russian assets, has prevented certain assets from being able to be valued and disposed of. Consequently, the Board suspended the calculation of the net asset value (NAV) per share and the issue, switch and redemption of all share classes of Schroder ISF Emerging Europe on 25 February 2022 and at the date of these financial statements, the Sub-Fund remains suspended. Please refer to the current prospectus for the investment objectives of the Sub-Funds as well as details of investment restrictions. The monthly factsheets for each Sub-Fund can be obtained from the Company's registered office and are also available on the website of Schroder Investment Management (Europe) S.A. (<http://www.schroders.lu>).

Hereafter, names of the Sub-Funds will be preceded by “Schroder ISF”, e.g. Schroder ISF Global Equity Alpha.

Schroders is a FATCA compliant organisation. The FATCA classification of this entity and its GIIN is as follows: FATCA entity classification: FFI; Sponsoring entity: Schroder Investment Management (Europe) S.A.; Sponsoring entity GIIN: 4RIMT7.00000.SP.442

For sub-funds registered in the UK, as required by the Financial Conduct Authority (FCA), Schroders entered into the Temporary Permissions Regime (TPR). This regime allows registered sub-funds to be distributed and marketed in the UK/to UK investors post Brexit.

Corporate Governance

The Company is subject to corporate governance based on:

1. Its obligations as defined by the UCITS Directive 2009/65/EC dated 13 July 2009, as implemented in Luxembourg law which is available for inspection at the registered office of the Company at 5, rue Höhenhof, 1736 Senningerberg, Grand Duchy of Luxembourg.
2. Its articles of incorporation which are available for inspection at the registered office of the Company and at the Luxembourg corporate and trade register, Registre de Commerce et des Sociétés (“RCSL”).
3. Its obligations in respect of the management of the Company, for which the Company has appointed Schroder Investment Management (Europe) S.A. (the “Management Company”), which is subject to the requirements of the Management Company Directive 2010/43/EC, as implemented in Luxembourg law.
4. The Association of the Luxembourg Fund Industry (“ALFI”) code of conduct, the principles of which the Company has voluntarily adopted.

Internal Control and Risk Management Systems

The Board of Directors is responsible for establishing and maintaining adequate internal control and risk management systems of the Company in relation to the financial reporting process. Such systems are designed to manage rather than eliminate the risk of error or fraud in achieving the Company's financial reporting objectives and can only provide reasonable and not absolute assurance against material misstatement or loss.

The Board of Directors has contracted with the Management Company to put procedures in place to ensure all relevant accounting records are properly maintained and are readily available, including the production of annual and semi-annual reports. The annual and semi-annual reports of the Company are required to be approved by the Board of Directors of the Company and filed with the Commission de Surveillance du Secteur Financier (“CSSF”) and, in the case of annual reports, with the RCSL.

The annual statutory financial statements are required to be audited by independent auditors who report to the Board of Directors on their findings.

The Board meets at least four times a year and ensures that the Company maintains high standards of integrity and control in its operations and that it possesses adequate governance and means of control as law and regulation demand.

Investment Manager's Report

Economic review

As 2022 began, concerns were already growing over rising inflation and the possible need for major central banks to raise interest rates swiftly. Those inflation worries were exacerbated by Russia's invasion of Ukraine in February. As well as causing untold human suffering, the invasion also sparked Western nations to impose sanctions on Russian oil and other commodities, which fed through into further price rises.

Over the first six months of 2022, the US Federal Reserve (Fed) increased interest rates from 0.25% to 1.75%, with further rises likely as inflation remained elevated. The US consumer price index (CPI) inflation rate hit 9.1% year-on-year in June 2022. The Fed's faster pace of interest rate rises contributed to dollar strength over the period. Rising inflation was a contributor to weaker growth and the US economy contracted by an annualised 1.6% in Q1 2022.

Inflation also rose rapidly in the eurozone, with annual inflation estimated at 8.6% in June. However, the European Central Bank (ECB) was slower to act than the Fed. The ECB's deposit rate remained at -0.5% over the period but the central bank said it would increase interest rates at its July meeting. Even Japan, after decades of ultra-low inflation, saw annual inflation hit a seven-year high of 2.5% in April 2022.

Emerging markets faced a slightly different picture. While other economies remained open with few pandemic restrictions, China continued its "zero Covid" policy. Given the outbreak of the highly contagious Omicron variant of Covid-19, this resulted in numerous Chinese cities – including Shanghai – being locked down for prolonged periods. This also contributed to the rise in inflation around the world. China is central to global supply chains and the restrictions put in place to contain Covid severely hampered manufacturing activity and caused a logjam in transport infrastructure.

The zero Covid strategy had a severe impact on economic activity in China, with GDP contracting by a seasonally adjusted 2.6% quarter-on-quarter in the second quarter, according to official data released in July. However, forward-looking data showed activity beginning to rebound in June as lockdown restrictions were lifted.

Equity market review

Global equity markets experienced sharp losses over the six month period against the backdrop of elevated inflation, rising interest rates, supply chain disruptions and the war in Ukraine. The MSCI World index fell 20.5% in US dollar terms. The rising rate environment saw steep falls for "growth" stocks as higher interest rates reduces the value of their future cash flows.

At a sector level, energy saw a strong advance but was the only sector to register a positive return. Certain more defensive sectors such as consumer staples and utilities saw shallower falls than other parts of the market, given their greater resilience at times of economic stress. The steepest falls came in those sectors most exposed to an economic slowdown, such as consumer discretionary and information technology.

On a regional view, the UK's larger weighting to energy and some defensive sectors meant it suffered relatively smaller declines than other major markets. The UK's FTSE All-Share Index fell 4.6% over the six months in sterling terms. Japan was also a relative winner with the Topix falling 4.8% in yen terms.

Overall, emerging markets saw similar declines to their developed counterparts. The MSCI Emerging Markets index fell 17.6% in US dollar terms. The best performing markets were commodity exporters such as Brazil, Qatar and Saudi Arabia. Eastern European markets were among the weakest given their proximity to the Russian-Ukraine war and the supply disruptions caused by the conflict. Elsewhere, Korean shares fared poorly amid the tech sell-off.

Fixed income review

Bond markets took a volatile turn over the period with yields and spreads rising markedly, resulting in significant negative returns. Inflationary pressures became increasingly elevated, prompting hawkish shifts from central banks and rising interest rates.

The Federal Reserve (Fed) raised interest rates in March and in early-May implemented its first 0.5% point hike since 2000. The 10-year US Treasury yield rose from 1.51% to 2.97%. With investors pricing higher interest rates, short-dated yields saw even larger moves. The US 2-year yield increased from 0.73% to 2.93%.

The UK 10-year yield increased from 0.97% to 2.24% and the 2-year yield from 0.68% to 1.88% as the Bank of England (BoE) implemented a succession of interest rate hikes.

The German 10-year yield rose from -0.18% to 1.37%. The European Central Bank (ECB) said it would bring an end to its bond purchase programme in Q3 with rate hikes likely to follow. Italian yields were impacted by concerns over tightening, with the 10-year rising from 0.86% to 3.39%. The ECB sought to calm concerns, calling an extraordinary meeting to discuss an "anti-fragmentation" programme likely entailing some form of support for heavily indebted nations.

Corporate bonds saw negative total returns (local currency) and underperformed government bonds.

Outlook

The peak in global inflation is probably not far away, but there are several reasons to think that it will fall relatively slowly. Lockdowns in China have caused bottlenecks in global supply chains to re-emerge, upside risks to commodity prices remain, wage growth is accelerating and demand is re-orientating towards services where inflation is picking up.

Whereas consumers have so far been able to stomach higher prices, cracks are beginning to appear in demand. Consumer confidence has collapsed as real wages contract, tighter financial conditions are feeding through in weaker housing activity and savings are not as plentiful as they were during the height of the Covid-19 pandemic.

Central banks have set out their stalls to fight inflation and interest rates are set to rise sharply. The mood music amongst policymakers may change once inflation has eased and attention turns back to growth, but it will be difficult to engineer a soft landing and the risks of recession are rising.

Notes to the Financial Statements as at 30 June 2022

The Company

The Company was incorporated in Luxembourg on 5 December 1968 as a 'société anonyme'. Pursuant to an Extraordinary General Meeting of Shareholders held on 31 January 1989, the form and name of the Company, as well as its establishment period, was changed to a 'société d'investissement à capital variable' ('SICAV') established for an unlimited period under the name of Schroder International Selection Fund. The Company qualifies as an undertaking for collective investment (UCI) regulated by the provisions of Part I of the Luxembourg Law of 17 December 2010, as amended, regarding undertaking for collective investment (the '2010 law').

Classes of Shares

At the date of this report, twenty seven classes of shares are available within the Funds: A, A1, AX, B, C, CN, CX, D, E, F, I, IA, IB, IC, IE, IZ, J K1, R, S, U, X, X1, X2, X3, Y and Z shares. At the date of this report Schroder ISF Emerging Europe was not available for investment following its suspension on 25 February 2022.

All Sub-funds offer A, B and C shares, apart from the following Sub-funds:

Schroder ISF Emerging Markets Equity Alpha (offers only A, C, E, I & IZ);
Schroder ISF Global Gold (offers only A, A1, C, I, IZ, S & U);
Schroder ISF Indian Opportunities (offers only A, A1, C, E, F, I & IZ);
Schroder ISF Japanese Opportunities (offers only A, A1, C & I);
Schroder ISF Nordic Micro Cap* (offers only A, C, I & IZ);
Schroder ISF Nordic Smaller Companies* (offers only A, C, I & IZ);

Schroder ISF Sustainable Global Growth and Income (offers only C, I, IZ & S);
Schroder ISF Sustainable Multi-Factor Equity (offers only C, I & IZ);
Schroder ISF QEP Global Core (offers only C, I, IZ, X & X1);
Schroder ISF QEP Global Emerging Markets (offers only A, A1, C, I, IZ, K1 & Z);
Schroder ISF QEP Global ESG (offers only A, C, I, IZ & S);
Schroder ISF QEP Global ESG ex Fossil Fuels (offers only A, C, I, IE & IZ);
Schroder ISF Sustainable Emerging Markets Synergy (offers only A, C, E, I & IZ);
Schroder ISF Cross Asset Momentum Component (offers only I);
Schroder ISF Global Managed Growth (offers only A, C, E, I & IZ);
Schroder ISF Global Target Return (offers only A, A1, AX, C, I, IZ & U);
Schroder ISF Japan DGF (offers only C, I, IZ & X);
Schroder ISF Sustainable Conservative (offers only A, A1, C, I & IZ);
Schroder ISF Hong Kong Dollar Bond (offers only A, A1, C, I & IZ);
Schroder ISF Sustainable US Dollar Short Duration Bond (offers only A, A1, C, E, I & Y);
Schroder ISF Dynamic Indian Income Bond (offers only A, C, I & IZ);
Schroder ISF Emerging Markets Local Currency Bond (offers only A, C, I & IZ);
Schroder ISF Securitised Credit (offers only A, A1, C, E, I & IZ);

Shares are generally issued as Accumulation shares. Distribution shares may be issued within any Sub-Fund at the Directors' discretion. A list of available Distribution shares may be obtained upon request at the Management Company.

In accordance with the provisions of the current prospectus, the Directors may also offer classes in multiple currency denominations. The respective Investment Managers have the ability to hedge the shares of such classes in relation to the Sub-Fund currency or in relation to currencies in which the relevant Sub-Fund's underlying assets are denominated. Where hedging of this kind is undertaken, the respective Investment Managers may engage, for the exclusive account of such share class, in currency forwards, currency futures, currency option transactions and swaps in order to preserve the value of the reference currency against the Sub-Fund currency. Where undertaken, the effects of this hedging will be reflected in the Net Asset Value and, therefore, in the performance of such additional share class. Similarly, any expenses arising from such hedging transactions will be borne by the class in relation to which they have been incurred. The classes of share available for each Sub-Fund are set out in detail in the current prospectus. The Directors may decide from time to time for some or all of the Bond Funds to issue duration hedged share classes. Duration hedged share classes utilise hedging strategies that seek to reduce the share class' sensitivity to changes in interest rate movements. There is no assurance that these hedging strategies will be successful. Where undertaken, the effects of this hedging will be reflected in the Net Asset Value and, therefore, in the performance of the share class. Similarly, any expenses arising from such hedging transactions will be borne by the duration hedged share class. The performance of the duration hedged share classes may underperform other share classes in the Bond Funds depending on interest rate movements. Duration hedged share classes can be issued in relation to any type of available share classes of Bond Funds.

The naming convention used for the share classes is as follows:

A Acc for base currency share class;

A Acc 'CCY' for a multicurrency share class;

A Acc 'CCY' Hedged for a hedged share class.

* Please refer to the Directors' Report for details of all corporate actions that occurred during the period under review.

In accordance with the provisions of the current prospectus, minimum amounts for subscription, additional subscription and holding are as follows:

A, A1, AX, B, C, CN, CX, D, E, F, U and Y shares	<p>The minimum initial subscription, additional subscription and holding amount is EUR 1,000 or USD 1,000 or their near equivalent in any other freely convertible currency.[†]</p> <p>E shares will only be available with prior agreement of the Management Company. F shares will only be offered to investors who, at the time the relevant subscription order is received, are Singapore Investors utilising the Central Provident Fund ("CPF") to subscribe into the Company. U shares will only be available, with the prior agreement of the Management Company, through certain Distributors. U shares will only be available for distribution in non-EEA countries. Y shares are only available at the Management Company's discretion to certain clients of Schroders. Before the Management Company can accept a subscription into Y shares, a legal agreement must be in place between the Investor and Schroders containing terms specific to investment in Y shares.</p>
I, J and IE shares	<p>The minimum initial subscription and holding amount is EUR 5,000,000 or USD 5,000,000 or their near equivalent in any other freely convertible currency. The minimum additional subscription amount is EUR 2,500,000 or USD 2,500,000 or their near equivalent in any other freely convertible currency.[†]</p> <p>I shares will only be offered to investors who, at the time the relevant subscription order is received, are clients of Schroders with an agreement covering the charging structure relevant to the clients' investments in such shares and who are Institutional Investors. J shares will only be offered to and can only be acquired by Japanese Fund of Funds, which are Institutional Investors.</p>
IA shares	<p>The minimum initial subscription and holding amount is EUR 250,000,000 or USD 250,000,000 or their near equivalent in any other freely convertible currency. The minimum additional subscription amount is EUR 20,000,000 or USD 20,000,000 or their near equivalent in any other freely convertible currency.[†]</p>
IB shares	<p>The minimum initial subscription and holding amount is EUR 300,000,000 or their near equivalent in any other freely convertible currency. The minimum additional subscription amount is EUR 20,000,000 or their near equivalent in any other freely convertible currency.[†]</p>
IC shares	<p>The minimum initial subscription and holding amount is EUR 350,000,000 or their near equivalent in any other freely convertible currency. The minimum additional subscription amount is EUR 20,000,000 or their near equivalent in any other freely convertible currency.[†]</p>
IZ & Z shares	<p>The minimum initial subscription and holding amount is EUR 100,000,000 or USD 100,000,000 or their near equivalent in any other freely convertible currency. The minimum additional subscription amount is EUR 20,000,000 or USD 20,000,000 or their near equivalent in any other freely convertible currency.[†]</p> <p>IZ shares will only be offered to and can only be acquired by Institutional Investors, with prior agreement of the Management Company. Z shares will be offered in limited circumstances to professional investors for distribution in certain countries and through certain Distributors, with the prior agreement of the Management Company.</p>
X shares	<p>The minimum initial subscription and holding amount is EUR 25,000,000 or their near equivalent in any other freely convertible currency. The minimum additional subscription amount is EUR 12,500,000 or their near equivalent in any other freely convertible currency.[†]</p> <p>X shares will only be available, with prior agreement of the Management Company, to institutional investors, as may be defined from time to time by the guidelines or recommendations issued by the Luxembourg supervisory authority.</p>
X1, X2 and X3 shares	<p>The minimum initial subscription and holding amounts are EUR 22,500,000 for X1, EUR 20,000,000 for X2 and EUR 17,500,000 for X3 or their near equivalent in any other freely convertible currency. The minimum additional subscription amount is EUR 12,500,000 or their near equivalent in any other freely convertible currency.[†]</p> <p>X1 and X2 shares will only be available, with prior agreement of the Management Company, to institutional investors, as may be defined from time to time by the guidelines or recommendations issued by the Luxembourg supervisory authority.</p>
K1, R and S shares	<p>There are no minimum subscription or holding amounts.</p>

[†] These minima may be waived from time to time at the discretion of the Directors.

Further details on specific features of the different classes of shares and the conditions under which initial and distribution fees are calculated can be found in the current prospectus.

Notes to the Financial Statements as at 30 June 2022 (continued)

Accounting Policies

Summary of Significant Accounting Policies

The financial statements are prepared and presented in accordance with generally accepted accounting principles in Luxembourg for investment funds on a going concern basis. Sub-Funds that have been liquidated or are intended to be liquidated after the period end are prepared on a non-going concern basis. The application of the non-going concern basis of accounting has not led to material adjustments to the Sub-Funds published net asset values. This cash is monitored by management and will be redistributed to the investors once all outstanding costs are paid.

At the reporting date the cash amounts held at custody for the following liquidated Sub-Funds were:

Sub-Funds	Cash held at custody as at reporting date
Schroder ISF European Opportunities	21,684 EUR
Schroder ISF UK Alpha Income	(663) GBP
Schroder ISF QEP Global Value Plust	66,126 USD
Schroder ISF Asian Long Term Value	13,689 USD
Schroder ISF Global Multi-Factor Equity	19,698 USD
Schroder ISF QEP Global Blend	11,232 USD
Schroder ISF Korean Equity	37 USD
Schroder ISF Middle East	1,223 USD
Schroder ISF European Equity Absolute Return	1,674 EUR
Schroder ISF Global Conservative Convertible Bond	8,115 USD

Net Asset Value

Calculation of Net Asset Value per share

The Net Asset Value ('NAV') per Share of each Class is calculated on each Dealing Day in the currency of the relevant class. It is calculated by dividing the NAV attributable to each Class, being the proportionate value of its assets less its liabilities, by the number of Shares of such Class then in issue. The resulting sum is rounded to the nearest up to four decimal places. Further details on rules that apply in valuing total assets can be found in the current prospectus.

Valuation of the Assets of the Company

The value of securities, derivative instruments and assets is determined on the last day on which prices were calculated. The basis for this value uses the available price at the valuation point for each fund on the stock exchange or any other regulated market on which those securities or assets are traded or admitted for trading. Where such securities or other assets are quoted or dealt in on more than one stock exchange or any other regulated market, the Directors shall make regulations for the order of priority in which stock exchanges or other regulated markets shall be used for the provision of prices of securities or other assets.

If a security is not traded on or admitted to any official stock exchange or any other regulated market or, in the case of securities so traded or admitted, the price does not reflect their true value, the Directors are required to proceed on the basis of their expected sales price, which shall be valued with prudence and in good faith.

The value of any cash in hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued as aforesaid and not yet received shall be deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof shall be arrived at after making such discount as the Company may consider appropriate in such case to reflect the true value thereof.

Financial derivative instruments, which are not listed on any official stock exchange or any other regulated market, are valued in accordance with market practice. The swaps are valued at their fair value based on the underlying securities (at close of business or intraday) as well as on the characteristics of the underlying commitments.

Liquid assets and Money Market Instruments will be valued at Mark-to-Market or Mark-to-Model where the use of Mark-to-Market is not possible or the market data is not of sufficient quality.

Units or shares in open-ended undertakings for collective investment are valued on the basis of the latest available reported Net Asset Value.

If any of the aforesaid valuation principles do not reflect the valuation method commonly used in specific markets or if any such valuation principles do not seem accurate for the purpose of determining the value of the Company's assets, the Directors may fix different valuation principles in good faith and in accordance with generally accepted valuation principles and procedures. Any assets or liabilities in currencies other than the base currency of the Sub-Funds are converted using the relevant spot rate quoted by a bank or other responsible financial institution.

The Directors are authorised, to the extent allowed by applicable law, to apply other appropriate valuation principles for the assets of the Sub-Funds and/or the assets of a given Share Class if the aforesaid valuation methods appear impossible or inappropriate due to extraordinary circumstances or events.

As of 30 June 2022, fair valuation was applied to the following securities:

Fair Value Pricing

In accordance with the provisions of the current prospectus, pricing may be implemented to protect the interests of the Company's Shareholders against market timing practices. Accordingly, if a Sub-Fund is primarily invested in markets that are closed for business at the time the Sub-Fund is valued, the Directors may, during periods of market volatility and by derogation from the provisions above under 'Calculation of Net Asset Value per share', cause the Sub-Fund Administrator to allow for the Net Asset Value per share to be adjusted to reflect more accurately the fair value of the Sub-Fund's investments at the point of valuation. The level of adjustment is based upon a systematic process involving a multi-factor regression approach that incorporates global, regional and security specific factors up until the point of valuation.

The Directors, however, reserve the right to extend the implementation of fair value pricing in respect of other Sub-Funds wherever they deem it appropriate.

On 30 June 2022, the last working day of the period under review, the following Sub-Funds were adjusted.

Sub-Fund	Currency	Total Adjustment
Schroder ISF Asian Opportunities	USD	29,139,424

Swing Pricing Adjustment

A Sub-Fund may suffer dilution of the Net Asset Value per Share due to investors buying or selling Shares in a Sub-Fund at a price that does not reflect the dealing and other costs that arise when security trades are undertaken by the Investment Manager to accommodate cash inflows or outflows. In order to counter this impact, a Swing Pricing mechanism may be adopted to protect the interests of Shareholders of the Sub-Fund. If on any Valuation Date, the aggregate net transactions in Shares of a Sub-Fund exceed a pre-determined threshold, as determined and reviewed for each Sub-Fund on a periodic basis by the Directors, the Net Asset Value per Share may be adjusted upwards or downwards to reflect net inflows and net outflows respectively.

The net inflows and net outflows is determined by the Management Company based on the latest available information at the time of calculation of the Net Asset Value per Share. The Swing Pricing mechanism may be applied across all Sub-Funds. The extent of the price adjustment will be set by the Management Company to reflect dealing and other costs. Such adjustment may vary from Sub-Fund to Sub-Fund and in normal market conditions is not expected to exceed 2% of the unadjusted Net Asset Value per Share of the relevant Fund on any Dealing Day. However, under unusual or exceptional market conditions (such as significant market volatility, market disruption or significant economic contraction, a terrorist attack or war (or other hostilities), a pandemic or other health crisis, or a natural disaster), the Management Company may decide, on a temporary basis, to adjust the Net Asset Value of a Fund by more than 2% when such a decision is justified as being in the best interests of the shareholders. Any such decision to adjust the Net Asset Value by more than 2% will be published on the following website: www.schroders.lu. The swing pricing mechanism has been applied to the Company's Sub-Funds since 12 January 2009.

The swing pricing mechanism has been applied to the Company's Sub-Funds since 12 January 2009.

On 30 June 2022, the last working day of the period under review, swing pricing adjustment was applied to Schroder ISF China A All Cap, Schroder ISF QEP Global Emerging Markets, Schroder ISF Sustainable Emerging Markets Synergy, Schroder ISF EURO Credit Absolute Return and Schroder ISF European Alpha Absolute Return. The official Net Asset Values per share of these Sub-Funds following the application of the swing pricing adjustment are shown in the following table. All other financial information stated in this report is shown before any adjustments for swing pricing.

Cash Collateral Reinvestment

For the purpose of counterparty risk mitigation, Sub-Funds with currency hedging transactions related to hedged share classes will pay or receive cash collateral on a daily basis from the counterparty, thus reducing their exposure over the duration of the forward contract. Investment Managers may reinvest the cash collateral they receive from their counterparty in connection with currency hedging.

Realised Gains and Losses on Sales of Investments in Securities

Realised gains and losses on sales of investments in securities are determined on the average cost basis and include transactions cost.

Forward Currency Exchange Contracts

Outstanding forward currency exchange contracts are valued at the last available price on 30 June 2022 NAV calculation day by reference to the forward rate of exchange applicable to the maturity of the contracts. The unrealised gain/(loss) is shown in the Combined Statement of Net Assets under 'Unrealised gain/(loss) on forward currency exchange contracts'.

Futures Contracts

Futures contracts were valued at the last available price on 30 June 2022. The unrealised gain/(loss) is shown in the Combined Statement of Net Assets under 'Unrealised gain/(loss) on financial futures contracts'.

Options Contracts

Options contracts were valued at the last available price on 30 June 2022 and the net market value is shown in the Combined Statement of Net Assets under 'Options purchased and swaptions contracts at market value' for assets and under 'Options written and swaptions contracts at market value' for liabilities.

Inflation Rate Swap Contracts

The Company invests in inflation swaps as part of the investment strategy. Inflation swaps were valued at the last available price on 30 June 2022 at their intrinsic value. The valuation method involves the determination of the net present value of future cash flows at the closing date. The result of these revaluations together with any interest receivable/payable in relation to inflation swaps on 30 June 2022 is shown in the Combined Statement of Net Assets under 'Swap contracts at fair value'.

Interest Rate Swap Contracts

In order to hedge against interest rate fluctuations, the Company may enter into interest rate swaps. Such contracts must be denominated in the currencies in which the assets of such Sub-Fund are denominated, or in currencies which are likely to fluctuate in a similar manner and must be either listed on an exchange or dealt in on a Regulated Market. Interest rate swaps were valued at the last available price on 30 June 2022 at their intrinsic value. The valuation method involves a current value of each interest rate and capital series converted into the currency of the Sub-Fund on the closing date. The result of these revaluations together with any interest receivable/payable in relation to interest rate swaps on 30 June 2022 is shown in the Combined Statement of Net Assets under 'Swap contracts at fair value'.

Credit Default Swap Contracts

A credit default swap contract is a credit derivative transaction in which two parties enter into an agreement, whereby one party pays the other a fixed periodic coupon for the specified life of the agreement. The other party makes no payments unless a credit event, relating to a predetermined reference asset, occurs. If such an event occurs, the party will then make a payment to the first party, and the swap will terminate. The value of the underlying securities shall be taken into account for the calculation of the investment and borrowing powers applicable to individual issuers. The market values are recorded under "Swap contracts at fair value" in the Combined Statement of Net Assets. The changes in unrealised gains or losses are included in the Combined Statement of Operations and Changes in Net Assets under "Net change in unrealised appreciation/(depreciation) on Swaps contracts". When a contract is closed, the realised gains or losses are recorded under "Net change in realised appreciation/(depreciation) on swap contracts" in the Combined Statement of Operations and Changes in Net Assets.

Total Return Swap

The Company may use total return swaps. A total return swap is a bilateral financial contract which allows the Company to enjoy all of the cash flow benefits of an asset without actually owning this asset (the 'Reference Asset'). The Company will have to pay a periodic fee (fixed or floating payment) in exchange of its right to receive the total return of the Reference Asset (coupons, dividends and capital gains or losses). The Reference Asset can be almost any asset, index or basket of asset which constitutes an eligible investment for the Company. The Company may use such instruments to seek exposure to an eligible market or for hedging purposes.

The Company will only enter into a total return swap transaction with financial institutions specialised in this type of transaction. In addition, the use of total return swaps must comply with the investment objectives and policies and risk profile of the relevant Sub-Fund. The total commitments arising from the use of total return swaps together with the total commitments arising from the use of other derivative instruments may not, at any time, exceed the net assets of the relevant Sub-Fund.

Notes to the Financial Statements as at 30 June 2022 (continued)

Total Return Swap (continued)

The total return swaps were valued at the last available price on 30 June 2022. The unrealised gain or loss on total return swaps at the period end is represented by the values of interests to be received (or paid), based on relevant swap agreements' interest rates less (or plus, respectively), the value of the performance to be paid (or received, respectively), based on the total return value of underlying assets, which is made of the current fair value of the bonds plus the coupon for such debt instruments for the relevant swap period. The unrealised gain/(loss) is shown in the Combined Statement of Net Assets under 'Swap contracts at fair value'.

Fees and Expenses

Expense Subsidy

The administration fees, custodian fees, distribution fees, management fees and statutory fees are calculated and accrued daily by reference to the Net Asset Value of the Sub-Funds and are paid monthly. These fees were monitored to ensure the total expenses incurred were not deemed to be significant relative to the Net Asset Value of the Sub-Funds (above threshold agreed by the Board of Directors).C

Operating Expenses

The Sub-Funds pay other Operating expenses incurred in the operation of the Company which are composed of statutory fees and are mainly audit, legal and publication fees, please refer to the 'Operating Expenses' shown in the Combined Statement of Operations and Change in Net Assets.

Directors' Fees

For the period from 1 January 2022 to 30 June 2022, Richard Mountford received in remuneration the amount of EUR 29,000, Hugh Mullan received in remuneration the amount of EUR 25,000. Bernard Herman, Eric Bertrand and Marie-Jeanne Chevremont each received EUR 27,083 in remuneration.

The remaining directors have waived their remuneration.

Management Fees

Sub-Funds may invest in UCITS and other UCI's qualifying as transferable securities within the meaning of UCITS rules (including investment trusts) managed by Schroders. The management fees applicable on any of these securities will be rebated to the Sub-fund. No management fees are payable out of the net assets for I and J share classes, however the Investors are charged directly by Schroders. The actual rates payable as at 30 June 2022, which vary from Sub-Fund to Sub-Fund and from share class to share class are set out in the table on pages 927 - 954. Please refer to the Directors report for changes to the management fees that occurred during the period under review.

Performance Fees

For the period under review, performance fees terms were applied to 6 Sub-Funds. Accordingly, the Investment Managers of the relevant Sub-Funds are entitled to receive from the Sub-Funds a performance fee, in addition to management fee, provided that the increase in the Net Asset Value per share of the Sub-Funds over the calendar year outperforms their relevant benchmarks over the same period, in accordance with the high water mark principle, i.e. by reference to the Net Asset Value per Share at the end of any previous performance period (the High Water Mark). The performance period shall normally be each financial year except that where the Net Asset Value per Share as at the end of the financial year is lower than the High Water Mark, the performance period will commence on the date of the High Water Mark.

If a performance fee is introduced on a Sub-Fund during a financial year, then its first performance period will commence on the date on which such fee is introduced. The performance fee is 15% of the outperformance (except for Schroder ISF European Alpha Absolute Return, Schroder ISF European Equity Absolute Return* and Schroder ISF Sustainable European Market Neutral which is set at 20%) and is payable annually in January. Further details of the calculation of the performance fees can be found in the current prospectus.

The Sub-Funds in relation to which performance fees were calculated during the period under review as well as details of the relevant Investment Managers and benchmarks are set out in the following table.

* Please refer to the Directors' Report for details of all corporate actions that occurred during the period under review.

Notes to the Financial Statements as at 30 June 2022 (continued)

The actual amounts payable for the period ended 30 June 2022, which vary from Sub-Fund to Sub-Fund and from share class to share class are set out in the table on page 955.

Taxation

The Company is not subject to any taxes in Luxembourg on income or capital gains. The only tax to which the Company in Luxembourg is subject is the 'taxe d'abonnement' to a rate of 0.05% per annum based on the net asset value of each Sub-Fund at the end of the relevant quarter, calculated and paid quarterly. In respect of any Share Class or Sub-Fund which comprises only institutional investors (within the meaning of article 174 of the Law of 17 December 2010), the tax levied will be at the rate of 0.01% per annum.

Interest and dividend income received by the Company may be subject to non-recoverable withholding tax in the source countries. The Company may further be subject to tax on the realised or unrealised capital appreciation of its assets in the countries of origin, and provisions in this respect may be recognised in certain jurisdictions.

Changes in the Sub-Funds

A list specifying the total purchases and sales for each Sub-Funds, which took place during the period under review, may be obtained free of charge upon request at the Company's registered office.

Transactions made for a Purpose other than Hedging

In accordance with the provisions of the current prospectus, the Company may, for a purpose other than hedging, purchase and sell futures contracts, forward foreign exchange contracts, financial derivative instruments that are traded OTC including, without limitation, total return swaps, contracts for difference or other financial derivative instruments with similar characteristics and equity swaps provided that the Company will only enter into equity swap transactions with highly rated financial institutions specialised in this type of transactions.

Securities Lending

There has been no securities lending activity on the Company's Sub-Funds since December 2012.

Disclosure of Transaction Costs

The transaction costs are broker commission fees and taxes related to the purchase and sale of transferable securities. Custodian transaction costs are not included in this table, please refer to the Depository Fees' shown in the Combined Statement of Operations and Change in Net Assets which includes custody transaction costs that represent fixed rate charges per market levied by the custodian for the servicing of portfolio transactions. Bond Sub-Funds will generally show the figure of zero as the broker commission fees are included in the spread, which is excluded from the calculation pursuant to Annex I, Schedule B, Chapter V of Directive 2009/65/EC of the European Parliament. Transaction costs for baskets of CFD are included in the market value. The transactions costs for the period under review are as follows:

Subsequent Events

On **18 July 2022**, Schroder ISF Emerging Europe was re-opened following its suspension on 25 February 2022. Alongside its reopening, the Sub-Fund was reorganised with the creation of new share classes to which the portfolio of Russian assets are allocated. These classes are denominated in Euro and are closed for subscriptions and redemptions.

On **18 July 2022**, the following share classes were launched.

Schroder ISF Emerging Europe Class X9 Acc

Schroder ISF Emerging Europe Class Y9 Acc

On **20 July 2022**, the following share classes were launched.
