- (LF) Fund of Funds - Global Emerging Markets	EUR
- (LF) Fund of Funds - Balanced Blend Global	EUR

- (LF) Fund of Funds - Global Protect 80	EUR
- (LF) Fund of Funds - Life Cycle 2037	EUR

The combined financial statements of the Fund reflecting the assets and liabilities of all portfolios are expressed in Euro.

b) Security Valuation

Securities quoted or dealt in on any stock exchange or another regulated market (included ETFs) is valued at the latest available price.

When such prices are not representative of the fair value of the relevant securities and in the case of unquoted securities, the valuation is based on the respective reasonable foreseeable sales price as determined prudently and in good faith by the Board of Directors of the Management Company of the Fund.

Cash equivalent or money market instruments with a remaining maturity of 60 days or less are stated at amortized cost, which approximates market value.

Investments in open-ended UCIs are valued on the basis of the last official NAV of the units or shares of such UCIs (except for ETFs, see above).

c) Realised gains and losses on sales of investments in securities

Investments in securities are accounted for on a trade date basis. Realised gains and losses on sales of investments in securities are based on the average cost basis.

Notes to the financial statements

As at June 30, 2022 (continued)

2. Summary of significant accounting policies (continued)

d) Foreign currency translation

The cost of investments and the transactions during the year, expressed in foreign currencies, are converted into the reporting currency of each Sub-Fund at the rate of exchange ruling at the time of the purchase or transaction.

The market value of investments and other assets and other liabilities, expressed in foreign currencies, are translated into the reporting currency of each Sub-Fund at end of period exchange rates. The combined statement is calculated at end of period exchange rates.

Closing exchange rates as at June 30, 2022 relating to EUR are:

1 BGN = 0.5113 EUR

1 PLN = 0.2132 EUR

1 RON = 0.2022 EUR

1 USD = 0.9627 EUR

e) Interest and Dividend income

Interest income is recognized on an accrual basis, net of any irrecoverable withholding tax. Dividends are recorded on an ex-dividend basis and net of any irrecoverable withholding tax.

f) Formation expenses

Formation expenses are amortised on a straight line basis over a period not exceeding 5 years.

g) Swing pricing

A Sub-Fund may suffer dilution of the net asset value per unit due to investors buying or selling shares in a Sub-Fund at a price that does not reflect dealing and other costs that arise when security trades are undertaken by the Investment Manager to accommodate cash inflows or outflows.

In order to counter this impact, a swing pricing mechanism has been adopted to protect the interests of unitholders of the Sub-Funds. If on any valuation date, the aggregate net capital activity of a Sub-Fund exceeds a pre-determined threshold, as determined and reviewed for each Sub-Fund on a periodic basis by the Board of Directors of the Fund, the net asset value per unit will be adjusted upwards or downwards to reflect costs associated with the net capital outflows respectively.

Since the dilution adjustment for each Sub-Fund will be calculated by reference to the costs of dealing in the underlying investments of that Sub-Fund, including any dealing spreads, which can vary with market conditions, the amount of the dilution adjustment can vary over time. Nevertheless, it will not exceed 2% of the relevant Net Asset Value per Unit of each Class.

The swing pricing is applied across all Sub-Funds.

As at June 30, 2022, no adjustment was made.

No Sub-Funds have applied the swing pricing adjustments in 2022.

Notes to the financial statements

As at June 30, 2022 (continued)

10. Events during the year

The first half of 2022 was marked by the Russian invasion to Ukraine and its financial impact particularly in Europe with high-energy prices. At the same time, all major economies suffered inflationary shocks that triggered a violent reversal to the so far supportive stance from central banks. Recession and stagflation fears increased. In this market environment, both equities and fixed income suffered losses with diversification across asset classes providing little or no benefit to investors.

Direct exposure to Russian or Ukrainian securities remained zero during the full first half of 2022.
