Dear Unit-holder,

We are pleased to present you the following annual report for the ERSTE BOND EURO CORPORATE jointly owned fund pursuant to the InvFG for the accounting year from 1 August 2021 to 31 July 2022.

The calculated value could not be determined for 27 October 2021 due to a technical problem. For this reason, the issue and redemption of unit certificates was temporarily suspended.

Even as the COVID-19 pandemic spreads, we are not losing sight of our responsibility to manage the assets entrusted to our care in a manner that maintains our ability to act on the capital markets and that enables us to make the best possible allocation decisions.

Modern technology also allows us to meet these obligations in full via teleworking.

Development of the Fund

The performance of the European bond market was very good in 2021, after a rather weak year in 2020. The sectors that had been hit particularly hard by the coronavirus crisis enjoyed especially strong performance. The easing of restrictions was good above all for companies in the event, tourism, and transport sectors. The risk of a rapid rise in inflation was also still minimal in the Eurozone. It is important to note here that issuers succeeded in rolling their debt forward and improved their financial metrics, which kept the default rates low. In this phase, we preferred names that profited especially from the sustained recovery discussed above. The performance of motorway operators and freight carriers is particularly noteworthy in this context as they profited from the slow reopening of the economy. We made no changes to the portfolio in this phase.

There were also no more calls for the European Central Bank to extend its support measures. The market seemed to be demanding neither a new purchase programme for corporate bonds nor the continuation of the low interest rate policy. There were also few effects from the fears of rising inflation and resulting interest rate hikes. We thus maintained our positioning during this long, calm phase. This means that we held our overweighting of bonds with long remaining terms to maturity.

When risk premiums on corporate bonds reached their absolute lows for the year in September 2021, the fixed-income market was enjoying its best phase. The market was experiencing high liquidity and low volatility, there were many new issues and high turnover on the secondary market. But then the fourth quarter of 2021 came, and it seems that market participants have wanted to adapt to a new reality since then. Yields and spreads on corporate bonds are rising. We used the continued high liquidity and took profits, investing the proceeds in cheap bank issues. Especially financial issues offered an attractive risk/return profile here, which we used to the advantage of the Fund.

In light of continuing increases in the prices of commodities and especially crude oil, investors began positioning themselves for higher interest rate levels – which brought both a steeper yield curve for German government bonds and widening spreads on corporate bonds. This caused outflows of around EUR 1.2 billion from this asset class in the final quarter of 2021 alone. However, we maintained our underweighting of companies and government bonds that are dependent on commodities in this phase.

The vast majority of companies have very good liquidity for 2022. The fundamental data have even improved, such that the overall debt of the issuers has declined to the lowest level since 2014. This should help the majority of companies make it through 2022 without taking on fresh capital. The companies that are in need of capital are in a better position, have a better rating, and should have no trouble floating bonds on the primary market.

Even though spreads began to widen in January 2022 due to growing interest rate worries, we maintained our positioning here as well. This also applies to bonds and companies with a higher level of risk or short-term refinancing needs. Any redemptions in this phase were not reinvested, and the cash share was increased.

In February 2022, European corporate bonds weakened further in the wake of rising inflation worries because the tensions between Russia and Ukraine blossomed into a full-blown military conflict. The Russian invasion of Ukraine caused the blockage of transport routes, sanctions against Russia, and production stops. The euro bond market trended even weaker due to the sustained inflationary pressure, the lack of any signs of an easing of the conflict between Russia and Ukraine, and increasing fears of a recession, and market volatility was high. The fact that we had no exposure in Ukraine or Russia in this phase was a positive factor. During this period, we preferred holdings in issuers with the best ratings within the fixed income spectrum as well as financials.

At the end of the reporting period, global and geopolitical factors continued to fuel uncertainty. In addition to the war in Ukraine, high inflation rates around the world are dampening the bond markets. In reaction to this, the European Central Bank raised its key rate by 50 basis points to 0.5% in July. Despite this, the markets stabilised gradually and the spread on euro investment grade corporate bonds narrowed by 37 basis points from the high for the year to date of 218 basis points to 187 basis points.

No changes were made to the Fund's strategy. It is based on a continuous analysis of inefficiencies (e.g. creditor rights for financial instruments) and market distortions and the ongoing monitoring of the portfolio in terms of yield potential and degree of risk, as well as on the subscription of attractive new issues. Broad diversification in the selected corporate bonds additionally reduces the default risk for the overall portfolio.

The Fund is oriented towards the strict sustainability criteria of Erste Asset Management.

The Fund posted a negative performance of 9.93% (AT0000724216) for the accounting year.

General information about performance:

The performance of unit categories with no outstanding units at the end of the reporting period or no outstanding units during the reporting period is generally based on the dividend-adjusted performance of the overall fund. In these cases, the performance is not reported below.

When a unit category is issued during the reporting period, the performance and reinvestment are calculated from the point in time that the unit category is launched. Because of this and possible other fees and currency classes, the performance and reinvestment of this unit category differ from those of comparable unit categories.

The performance is determined assuming the reinvestment of all paid dividends and amounts at their nominal value on the day of disbursement.

Income Statement and Changes in Fund Assets

1. Value Development over the Accounting Year (Fund Performance)

Calculation according to the OeKB method per unit in the unit currency not accounting for a front-end surcharge

The performance of unit categories with no outstanding units at the end of the reporting period or no outstanding units during the reporting period is generally based on the dividend-adjusted performance of the overall fund. In these cases, the "performance", the "net earnings per unit", and the "total value including (notional) units gained through disbursement/payment" are not reported in the following.

When a unit category is issued during the reporting period, the performance is calculated from the point in time that the unit category is launched. Because of this and possible other fees and currency classes, the performance of this unit category differs from that of comparable unit categories.

Explanation on disclosure pursuant to Delegated Regulation (EU) No. 2016/2251 supplementing Regulation (EU) No. 648/2012 of the European Parliament and of the Council on OTC derivatives, central counterparties, and trade repositories with regard to regulatory technical standards for risk-mitigation techniques for OTC derivative contracts not cleared by a central counterparty:

All OTC derivatives are traded through Erste Group Bank AG.

In the event of negative derivatives exposure, collateral in the form of cash or bonds is pledged to Erste Group Bank AG in accordance with the contractually agreed threshold.

In the event of positive derivatives exposure, EUR-denominated government bonds from the Republic of Austria and/or the Federal Republic of Germany are pledged by Erste Group Bank AG to the Fund in accordance with the contractually agreed threshold. A one-time discount of 4% is agreed with the counterparty for this collateral. Collateral that would require a higher discount pursuant to Annex II to Delegated Regulation (EU) No. 2016/2251 is not accepted.

Principles governing performance-based remuneration components

The Management Company has adopted remuneration principles to prevent possible conflicts of interest and to ensure compliance with the standard rules of conduct when awarding remuneration to relevant persons.

Fixed salary components make up a large enough share of the total remuneration of all employees of the Management Company that a variable remuneration policy can be applied on an individualised basis.

The total remuneration (fixed and variable components) is governed by the principle of balance and is linked to sustainability so that the acceptance of excessive risks is not rewarded. Therefore, the variable remuneration forms no more than a balanced portion of the total remuneration awarded to an employee.

The performance-based remuneration components serve the short-term and long-term interests of the Management Company and contribute to preventing risky behaviour. The performance-based remuneration components take into account individual performance as well as the profitability of the Management Company.

The size of the bonus pool is calculated based on the bonus potential that can be applied to the different employee categories. Bonus potential is a percentage of the fixed annual gross remuneration. The bonus potential can be no more than 100% of the fixed annual gross remuneration. The bonus pool is adjusted depending on the success of the Management Company. The personal bonus is linked to individual performance. The total of personal bonuses is limited by the size of the bonus pool after deduction of penalties.

The performance-based payments are capped at 100% of the annual gross remuneration for all employees, including the material risk bearers (according to the definition in the remuneration policy) and managing directors of the Management Company.

The remuneration system is made up of three components:

- 1) Fixed remuneration
- 2) Variable remuneration
- 3) Fringe benefits

The bonus potential is based on the fixed annual gross remuneration. The target agreements concluded with the employees contain qualitative and/or quantitative objectives. The payment of performance-based remuneration components is subject to a minimum profitability level for the Management Company and to performance targets.

Sixty per cent of the performance-based remuneration components are paid immediately; for employees who are involved directly in fund and portfolio management, 50% of this is paid immediately in cash and 50% is paid one year later in the form of non-cash instruments. The remaining 40% of the performance-based remuneration components are retained and paid out over a period of three years, with 50% of this also being paid in cash and 50% in the form of non-cash instruments for employees who are involved directly in fund and portfolio management. The non-cash instruments can consist of units in an investment fund that is administered by the Management Company, equivalent holdings or instruments linked to units, or equivalent non-cash instruments. Based on the principle of proportionality, the Management Company has set a materiality threshold below which there is no incentive to enter into inappropriate risks, for which reason there is no need to make delayed payment or payment in the form of a non-cash instrument. Other non-cash benefits are fringe benefits that are not associated with performance but with a specific position (e.g. company car) or that apply for all employees (e.g. holiday).

The Supervisory Board of the Management Company has set up a Remuneration Committee to ensure that the remuneration policy and its application are independently assessed. This committee consists of the following persons: Rudolf Sagmeister, Harald Gasser (remuneration expert), and Heinrich Hubert Reiner.

The complete remuneration policy of the Management Company can be viewed at http://www.erste-am.at/de/private_anleger/wer-sind-wir/investmentprozess.

The last audit of compliance with the requirements of the remuneration policy by the Supervisory Board in March 2022 revealed no deviations. There were also no material findings during the last audit by the Internal Auditing department.

No material changes were made to the remuneration policy during the past accounting year.

Audit Report*

Statement on the annual report

Audit opinion

We have audited the annual report prepared by Erste Asset Management GmbH, Vienna, for the fund under its management

ERSTE BOND EURO CORPORATE
Jointly owned fund pursuant to the InvFG

consisting of the statement of assets and liabilities as of 31 July 2022, the income statement for the accounting year ending on this date, and the other information specified in Annex I Schedule B of the Austrian Investment Fund Act 2011 (InvFG 2011).

Based on the findings of our audit, we believe that the annual report satisfies the legal requirements and provides a true and fair view of the assets and financial position as of 31 July 2022 and of the earnings position of the fund for the accounting year ending on this date in accordance with Austrian commercial law and the provisions of the InvFG 2011.

Basis for the audit opinion

We conducted our audit in accordance with § 49 (5) InvFG 2011 and in accordance with the Austrian principles of good auditing. These principles require the application of the International Standards on Auditing (ISA). Our responsibilities under these regulations and standards are described in the section “Responsibilities of the auditor in auditing the annual report” of our audit report. We are independent from the company as specified by the Austrian commercial and industry regulations and fulfilled our other professional obligations in accordance with these requirements. We feel that the audit evidence that we obtained up to the date of the audit certificate is sufficient and suitable to serve as a basis for our audit opinion as of that date.

Other information

The legal representatives are responsible for the other information. The other information includes all information in the annual report except for the statement of assets and liabilities, the income statement, the other information specified in Annex I Schedule B of the InvFG 2011, and the audit report.

Our audit opinion does not cover this other information, and we provide no assurance whatsoever for this other information.

In the context of our review of the annual report, we are responsible for reading this other information and assessing whether the other information contains material inconsistencies with the annual report or with the information gathered by us during our audit, or appears to contain other manners of material misstatements.

Should we come to the conclusion on the basis of the work completed with the other information received before the date of the audit report that this other information contains a material misstatement, we are required to report about this fact. We have nothing to report in this regard.

Management and supervisory board responsibilities relating to the annual report

The legal representatives are responsible for preparing the annual report and for ensuring that this report provides a true and fair view of the assets and financial and earnings position of the fund in accordance with Austrian commercial law and the provisions of the InvFG 2011. The legal representatives are also responsible for implementing the internal controls that they deem necessary to facilitate the preparation of an annual report that is free from material misstatements due to error or fraud.

The supervisory board is responsible for monitoring the accounting process of the company as it applies to the fund under its management.

Responsibilities of the auditor in auditing the annual report

Our goals are to ascertain with sufficient certainty whether the annual report contains material misstatements due to error or fraud and to issue an audit certificate that includes our audit opinion. Sufficient certainty is a high degree of certainty but no guarantee that an audit conducted in accordance with the Austrian standards on good auditing, which require the application of the ISA, will always discover material misstatements that may be present. Misstatements can result from fraud or errors and are considered to be material when it can be reasonably expected that individual misstatements or a combination of misstatements can influence economic decisions made by readers on the basis of this annual report.

As part of an audit conducted in accordance with the Austrian standards on good auditing, which require the application of the ISA, we exercise professional judgement and maintain professional scepticism during the entire audit process.

In addition:

- We identify and assess the risks of material misstatements in the annual report due to error or fraud, plan audit steps in response to these risks, perform the planned audit steps, and collect audit evidence that is sufficient and suitable to form a basis for our audit opinion. The risk that a material misstatement resulting from fraud will remain undiscovered is greater than for misstatements resulting from error because fraudulent activity can include collusion, the falsification of documents, intentional incomplete or misleading representations, and the circumvention of internal controls.
- We familiarise ourselves with the internal control systems that are relevant for the audit to plan audit steps that are appropriate under the specific circumstances, but not so as to state an opinion on the effectiveness of the company's internal control system.

- We assess the appropriateness of the accounting methods applied by the legal representatives and the reasonableness of the estimates made by the legal representatives in the accounts and of the associated information.
- We assess the overall presentation, the structure, and the content of the annual report including the figures as well as whether the annual report depicts the underlying transactions and events in a manner that provides a true and fair view.
- We discuss the planned scope and scheduling of the audit and any material audit findings, including material defects that we discover in the internal control system during our audit, with the supervisory board, among other issues.

Annex Sustainability-Related Information

Information pursuant to Article 11 paragraph 1a) of Regulation (EU) 2019/2088 (Disclosure Regulation):

The environmental or social characteristics for the purposes of Article 8 of the Disclosure Regulation are described in the prospectus and item 12 of the Information for Investors pursuant to § 21 AIFMG. All criteria that are described there for this Fund were met.

Information pursuant to Article 6 of Regulation (EU) 2020/852 (Taxonomy Regulation):

The currently pursued investment strategy takes sustainable characteristics into account, among other considerations. To meet these sustainable characteristics, corresponding factors can be integrated into the investment process, or the eligible financial instruments for the Fund can be limited to securities that have been categorised as sustainable by the Management Company on the basis of a predefined screening process. One criterion of the screening process is investing in economic activities and assets that contribute to or promote one or more of the environmental objectives as set out in Article 9 of the Taxonomy Regulation. However, the screening process does not preclude the attainment of other environmental, social, or good corporate governance objectives than those currently stated in the Taxonomy Regulation through the Fund's investments.

In the Taxonomy Regulation (Article 9), environmentally sustainable activities are determined on the basis of their contribution to the following six environmental objectives:

- Climate change mitigation;
- Climate change adaptations;
- The sustainable use and protection of water and marine resources;
- The transition to a circular economy;
- Pollution prevention and control;
- The protection and restoration of biodiversity and ecosystems.

An economic activity qualifies as environmentally sustainable if it makes a substantial contribution to one or more of the six environmental objectives, does no significant harm to any of the environmental objectives, and is carried out in compliance with the minimum safeguards specified in Article 18 of the Taxonomy Regulation.

Determination of the environmental sustainability of the investments underlying the Fund:

Information on the environmental objective or environmental objectives set out in Article 9 of the Taxonomy Regulation to which the investments underlying the financial product contribute:

The Fund contributes to the objectives set out in Article 9 of the Taxonomy Regulation.

Share of investments in economic activities that qualify as environmentally sustainable that have been selected for the Fund:

The share of environmentally sustainable investments amounted to 2.15033% of the fund assets at the end of the accounting year.

Contribution to the stabilisation of greenhouse gas concentrations as set out in Article 10 (2) of the Taxonomy Regulation

An economic activity for which there is no technologically and economically feasible low-carbon alternative qualifies as contributing substantially to climate change mitigation where it supports the transition to a climate-neutral economy consistent with a pathway to limit the temperature increase to 1.5 °C above pre-industrial levels, including by phasing out greenhouse gas emissions, in particular emissions from solid fossil fuels, and where that activity a) has greenhouse gas emission levels that correspond to the best performance in the sector or industry, b) does not hamper the development and deployment of low-carbon alternatives, and c) does not lead to a lock-in of carbon-intensive assets, considering the economic lifetime of those assets.

The contribution to the stabilisation of greenhouse gas concentrations cannot be reported at the end of the Fund's accounting year because no reliable data that conform with the EU criteria were available from the standard providers for the calculation of the contribution.

Share of enabling activities as set out in Article 16 of the Taxonomy Regulation

An economic activity qualifies as contributing substantially to one or more of the environmental objectives by directly enabling other activities to make a substantial contribution to one or more of those objectives.

The share of enabling activities cannot be reported at the end of the Fund's accounting year because no reliable data that conform with the EU criteria were available from the standard providers for the calculation of the contribution.

The principle of not significantly harming is only applied to the underlying investments of the financial product that take the EU criteria for environmentally sustainable economic activities into account.

The remaining underlying investments of this financial product do not take the EU criteria for environmentally sustainable economic activities into account.

Fund Rules

The Fund Rules for ERSTE BOND EURO CORPORATE, jointly owned fund pursuant to the Austrian Investment Fund Act (Investmentfondsgesetz; InvFG) 2011 as amended, were approved by the Austrian Financial Market Authority (FMA).

The Fund is an undertaking for collective investment in transferable securities (UCITS) and is managed by Erste Asset Management GmbH (the "Management Company" in the following), which has its registered office in Vienna.

Article 1 Fund Units

The joint ownership of the fund assets is evidenced by certificates having the characteristics of a bearer unit.

The unit certificates are depicted in separate global certificates for each unit category. For this reason, individual unit certificates cannot be issued.

Article 2 Depositary Bank (Depositary)

The depositary bank (depositary) appointed for the Fund is Erste Group Bank AG, Vienna.

The payment offices for unit certificates are the depositary bank (depositary) and any other payment offices named in the prospectus.

Article 3 Investment Instruments and Principles

The following assets may be selected for the Fund in accordance with the InvFG.

The Fund invests predominantly, in other words at least 51% of its assets, in EUR-denominated corporate bonds from issuers that are either registered in Europe or whose business activities focus predominantly on Europe; the bonds must be in the investment grade (or other comparable) segment in terms of ratings assigned by recognised rating agencies.

These bonds must be purchased directly, in other words not indirectly or directly through investment funds or through derivatives.

The Management Company is not subject to any restrictions in the selection of the issuers with regard to the respective economic sectors in which they are active.

The fund assets are invested in the following instruments in accordance with the investment focus described above.

The Fund may invest in units in investment funds with investment restrictions that deviate from those of the Fund in terms of the investment focus described above and the restrictions regarding investment instruments defined below. This will not impair compliance with the investment focus described above at any time.

a) Transferable securities

Transferable securities (including securities with embedded derivative financial instruments) comprise at least 51% of the fund assets.

b) Money market instruments

Money market instruments may comprise up to 49% of the fund assets.

c) Transferable securities and money market instruments

Transferable securities and money market instruments may be purchased for the Fund when they meet the criteria regarding listing or trading on a regulated market or a securities exchange pursuant to the InvFG.

Transferable securities and money market instruments that do not meet the criteria described in the previous paragraph may comprise up to 10% of the fund assets in total.

d) Units in investment funds

Units in investment funds (UCITS, UCI) may comprise up to 10% of the fund assets per individual issue and may comprise up to 10% in aggregate total, provided that the target funds themselves (UCITS or UCI) do not invest more than 10% of their fund assets in units of other investment funds.

e) Derivative financial instruments

Derivative financial instruments can be used as part of the investment strategy and for hedging purposes, and may comprise up to 49% of the fund assets.

f) Risk measurement method(s) of the Fund

The Fund applies the following risk measurement methods: commitment approach

The commitment value is determined according to § 3 of the 4th FMA Regulation on Risk Calculation and Reporting of Derivative Instruments (4. Derivate-Risikoberechnungs- und MeldeV) as amended.

g) Demand deposits or deposits with the right to be withdrawn

Demand deposits and deposits with the right to be withdrawn with a maximum term of 12 months may comprise up to 49% of the fund assets.

There are no minimum bank balance requirements.

However, in the course of the restructuring of the fund portfolio and/or in the case of the justified expectation of impending losses experienced by transferable securities, the Fund can hold a proportion of transferable securities below the specified limit and a higher proportion of demand deposits or deposits with the right to be withdrawn with a maximum term of 12 months.

h) Acceptance of short-term loans

The Management Company may accept short-term loans for the account of the Fund up to an amount of 10% of the total fund assets.

i) Repurchase agreements

Does not apply.

j) Securities lending

Securities lending transactions may comprise up to 30% of the fund assets.

Investment instruments may only be purchased for the entire Fund and not for individual unit categories or groups of unit categories.

This does not apply to currency hedging transactions, however. Such transactions can also be concluded solely for a single unit category. Expenses and income resulting from currency hedging transactions shall be allocated solely to the respective unit category.

Article 4 Issue and Redemption Procedure

The unit value shall be calculated in the currency of the respective unit category.

The unit value is calculated at the same time as the issue and redemption price.

Issue of units and front-end surcharge

The issue price will be calculated and units issued on each Austrian exchange trading day with the exception of bank holidays.

The issue price shall be made up of the unit value plus a surcharge per unit amounting to up to 3.5% to cover the costs incurred by the Management Company in issuing the unit, rounded up to the next equivalent sub-unit of the currency unit specified for the respective unit category in the prospectus.

The Management Company shall be entitled to apply a sliding front-end surcharge scale at its own discretion.

There is no limit on the issue of units in principle. However, the Management Company reserves the right to temporarily or permanently suspend the issue of unit certificates.

Redemption of units and back-end commission

The redemption price will be calculated and units redeemed on each Austrian exchange trading day with the exception of bank holidays.

The redemption price is the unit value rounded down to the next equivalent sub-unit of the currency unit specified for the respective unit category in the prospectus. No back-end commission will be charged.

Upon request by the Unit-holder, his units shall be redeemed at the current redemption price in return for the unit certificate.

Article 5

Accounting Year

The accounting year of the Fund is from 1 August to 31 July.

Article 6

Unit Categories and Use of Earnings

The Fund features three different unit categories and the corresponding certificates: dividend-bearing units, non-dividend-bearing units with capital gains tax payment, and non-dividend-bearing units without capital gains tax payment, with certificates being issued for one unit each and also for fractional units.

Various unit categories may be issued for this Fund. The creation of unit categories and the issue of units of a specific category shall be decided at the discretion of the Management Company.

Use of earnings for dividend-bearing units

The earnings generated during the accounting year (interest and dividends) less all costs can be distributed as deemed appropriate by the Management Company. Dividend disbursement may be omitted in the interests of the Unit-holders. Dividends may also be disbursed at the discretion of the Management Company from earnings generated by the sale of fund assets, including subscription rights. Disbursements of fund assets and interim dividends may be paid.

The fund assets may in no case fall below the legally stipulated minimum volume for termination as a result of dividend disbursements.

The amounts shall be paid to the holders of dividend-bearing units on or after 2 November of the following accounting year. The remaining amount shall be carried forward.

An amount calculated in accordance with the InvFG must also be paid out on or after 2 November to cover the capital gains tax assessed by the tax authorities on the dividend-equivalent earnings from the fund units unless the Management Company provides suitable proof from the banks managing the corresponding securities accounts that the unit certificates can only be held by Unit-holders who are not subject to Austrian personal income tax or corporation tax or who meet the conditions for exemption from capital gains tax according to § 94 of the Austrian Income Tax Act (Einkommensteuergesetz) at the time of payment.

Use of earnings for non-dividend-bearing units with capital gains tax payment (non-dividend-bearing units)

The earnings generated by the Fund during the accounting year less all costs will not be paid out. In the case of non-dividend-bearing units, an amount calculated in accordance with the InvFG must be paid out on or after 2 November to cover the capital gains tax assessed by the tax authorities on the dividend-equivalent earnings from the fund units unless the Management Company provides suitable proof from the banks managing the corresponding securities accounts that the unit certificates can only be held by Unit-holders who are not subject to Austrian personal income tax or corporation tax or who meet the conditions for exemption from capital gains tax according to § 94 of the Austrian Income Tax Act (Einkommensteuergesetz) at the time of payment.

Use of earnings for non-dividend-bearing units without capital gains tax payment (KESt-exempt non-dividend-bearing units)

The earnings generated by the Fund during the accounting year less all costs will not be paid out. No payment pursuant to the InvFG will be made. The reference date for the exemption from KESt payment for the profit for the year for the purposes of the InvFG shall be 2 November of the following accounting year.

The Management Company shall provide suitable proof from the banks managing the corresponding securities accounts that the unit certificates could only be held by Unit-holders who are not subject to Austrian personal income tax or corporation tax or who met the conditions for exemption from capital gains tax according to § 94 of the Austrian Income Tax Act (Einkommensteuergesetz) at the time of payment.

If these requirements are not met at the time of payment, the amount calculated pursuant to the InvFG must be paid out by the credit institution managing the respective securities account.

Article 7

Management Fee, Compensation for Expenses, Liquidation Fee

The Management Company shall receive an annual fee for its administrative activities amounting to up to 0.60% of the fund assets as calculated and accrued on the basis of the daily fund volume. The fee will be charged to the fund assets once per month.

The Management Company shall be entitled to compensation for all expenses incurred in the administration of the Fund.

The Management Company shall be entitled to apply a sliding management fee scale at its own discretion.

The costs for the introduction of new unit categories for existing investment funds shall be assessed against the unit price of the new unit categories.

Upon liquidation of the Fund, the party processing the liquidation shall receive a fee in the amount of 0.5% of the fund assets.

Further information and details about this Fund can be found in the prospectus.

Annex to the Fund Rules

List of exchanges with official trading and organised markets (As of October 2021)

1. Exchanges with official trading and organised markets in the Member States of the EEA as well as exchanges in European countries outside of the EEA considered to be equivalent to regulated markets

Every Member State must maintain a current list of the authorised markets within its territory. This list must be submitted to the other Member States and the Commission.

According to this provision, the Commission is required to publish a list of the regulated markets registered with it by the Member States once per year.

Because of lower entry barriers and specialisation in different trading segments, the list of “regulated markets” is subject to significant changes.
