# Directors' Report

## The Company

Schroder GAIA (the 'Company') is an umbrella structured open-ended investment company with limited liability, organised as a 'société anonyme' and qualifies as a SICAV under Part I of the Law of 17 December 2010 as amended. The Company was incorporated on 21 October 2009 and its Articles were published in the Memorial on 12 November 2009 as amended.

Schroders is a FATCA compliant organisation. The FATCA classification of this entity and its GIIN is as follows: FATCA entity classification: FFI; Sponsoring entity: Schroder Investment Management (Europe) S.A. (the 'Management Company'); Sponsoring entity GIIN: 4RIMT7.00000.SP.442.

## Financial Statements

The Board of Directors (the 'Directors') of the Company submit their report and the audited financial statements for the year ended 30 September 2023.

At the date of this report, there are 11 sub-funds available for investment within the Company (the 'sub-funds'). Please refer to the current prospectus for the investment objectives of the sub-funds as well as details of investment restrictions. The Investment Manager's report for each sub-fund can be found in the quarterly investment reports, which can be obtained from the Company's registered office and are also available on the website of the Management Company (<http://www.schroders.lu>).

This report covers the period from 1 October 2022 to 30 September 2023. The last day on which prices were calculated was 29 September 2023, the last working day of the period under review. The financial statements are prepared in accordance with Luxembourg regulations relating to undertakings for collective investment.

On 30 September 2023, the total net assets of the Company were EUR 4,930,545,415 compared to EUR 5,333,186,258 on 30 September 2022, representing a decrease of 7.55%.

## Directors' Responsibilities

The responsibility of the Board is governed by Luxembourg law. With respect to the financial statements of the Company, the Board of Directors are required to prepare financial statements for each financial year which give a true and fair view of the assets, liabilities and financial position of the Company and each of its sub-funds as at the financial year end and of the profit or loss of the Company and each of its sub-funds for the financial year.

The Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are reasonable and prudent;
- state whether they have been prepared in accordance with the applicable accounting standards, identify those standards, and note the effect and the reasons for any material departure from those standards; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Funds will continue in business.

The Directors are responsible for ensuring the maintenance of adequate accounting records. In this regard, they have entrusted the assets of the Funds to Brown Brothers Harriman (Luxembourg) S.C.A. (the "Depositary") for safe-keeping. The Directors have responsibility for taking such steps as are reasonably open to them to prevent and detect fraud and other irregularities.

The Directors have responsibility for taking such steps as are reasonably open to them to prevent and detect fraud and other irregularities.

## Board Meetings

During the year to 30 September 2023, there were 8 board meetings held.

## Corporate Governance

The Company is subject to corporate governance based on:

1. Its obligations as defined by the UCITS Directive 2009/65/EC dated 13 July 2009, as implemented in Luxembourg law which is available for inspection at the registered office of the Company at 5, rue Höhenhof, 1736 Senningerberg, Grand Duchy of Luxembourg.
2. Its Articles of Incorporation which are available for inspection at the registered office of the Company and at the Luxembourg corporate and trade register, Registre de Commerce et des Sociétés ('RCSL').
3. The obligations in respect of the management of the Company, for which the Company has appointed Schroder Investment Management (Europe) S.A., which is subject to the requirements of the Management Company Directive 2010/43/EC and the Alternative Investment Fund Managers Directive 2011/61/EU, as implemented in Luxembourg law.
4. The Association of the Luxembourg Fund Industry ('ALFI') Code of Conduct for Luxembourg Investment Funds, the principles of which the Company has voluntarily adopted.

## Internal Control and Risk Management Systems

The Board of Directors is responsible for establishing and maintaining adequate internal control and risk management systems of the Company in relation to the financial reporting process. Such systems are designed to manage rather than eliminate the risk of error or fraud in achieving the Company's financial reporting objectives and can only provide reasonable and not absolute assurance against material misstatement or loss.

The Board of Directors has contracted with the Management Company to put procedures in place to ensure all relevant accounting records are properly maintained and are readily available including the production of annual reports. The annual reports of the Company are required to be approved by the Board of Directors of the Company and filed with the Commission de Surveillance du Secteur Financier ('CSSF') and, in the case of annual reports, with the Registre de Commerce et des Sociétés ('RCSL'). The annual statutory financial statements are required to be audited by independent auditors who report to the Board of Directors on their findings.

The Board meets at least four times a year and ensures that the Company maintains high standards of integrity and control in its operations and that it possesses adequate governance and means of control as law and regulation demand.

## Sustainable Finance Disclosure Regulation

Information about the environmental or social characteristics and sustainable investment objective, as applicable, is available in Appendix III – Sustainable Finance Disclosure (Unaudited).

\* Schroder GAIA SEG US Equity was launched by way of fund merger with Select Equity/Short UCITS Fund. Select Equity/Short UCITS Fund effectively closed at the point of merger as at 30 June 2023 with all investors and assets moving to GAIA SEG US Equity Fund.

# Directors' Report (cont)

## 3. Sub-Fund liquidations

During the year under review, one sub-fund was liquidated:

Sub-Fund	Sub-Fund Base Currency	Liquidation Date
Schroder GAIA Tellworth UK Dynamic Absolute Return Fund	GBP	19 September 2023

Schroder GAIA UK Dynamic Absolute Return Fund changed name to Schroder GAIA Tellworth UK Dynamic Absolute Return Fund on 5 December 2022.

## Significant Events During the Year

The ongoing conflict between Russia and the Ukraine continues to have an impact on the valuation of the Russian securities held within the Company. The board have continued to apply appropriate valuation principles in accordance with our pricing processes. At the year end, Schroder GAIA Helix held 38,000,000 shares of Russian assets, which were valued at 116,803 USD.

In March 2023, following financial difficulties and a number of media scandals, Credit Suisse collapsed and was bought out by fellow Swiss bank UBS. At the year end, Schroder GAIA Wellington Pagosa Fund held USD 2,392,000 nominal bonds with Credit Suisse, which were valued at Nil.

The following sub fund has exposure to Russian and Ukrainian securities:

Schroder GAIA Helix

For the year ended 30 September 2023, the Independent Auditor of the Company was changed from PricewaterhouseCoopers Société cooperative to KPMG Audit S.à r.l.

## The Board of Directors

Schroder GAIA

30 September 2023

# Investment Manager's Report

The Funds in the Schroder GAIA range can take advantage of positive or adverse market conditions through long or short exposures. This approach can sometimes result in quite diverse performance in the short term relative to the markets in which the sub-funds invest.

## Economic review

During the 12-month period, investor focus was primarily on rising inflation and the policy responses from major central banks. There were growing fears that rising interest rates could lead to a recession.

In Europe, the ongoing war in Ukraine was a further negative factor, and concerns grew going into winter 2022 that the region could experience gas shortages. Ongoing COVID-19 related lockdowns in China also weighed on economic activity and stock market returns in late 2022.

In the UK, the period started on a volatile note amid the short-lived government of Liz Truss, who became prime minister in September 2022. The new government announced a fiscal package, which was poorly received by markets. UK bond yields soared, and sterling fell to an all-time low versus the US dollar. However, markets stabilised after Liz Truss stepped down in October 2022 and a new government was formed under Rishi Sunak.

The picture for markets turned more positive at the start of 2023. Global economic growth generally remained resilient, despite further interest rate rises from major central banks. In Europe, warmer weather helped limit the impact of high gas prices.

China's decision to abandon its strict lockdown measures at the end of 2022 also enabled mobility and economic activity to pick up. However, as 2023 progressed, Chinese data showed that the economic recovery was weaker than many had hoped, with the property sector coming under pressure.

Volatility heightened in March 2023 as several regional US banks, including Silicon Valley Bank, collapsed due to a lack of liquidity. In Europe, this was followed by the takeover of Credit Suisse by UBS.

Further uncertainty emerged amid concerns that the US would breach its debt ceiling. However, a deal to extend the debt ceiling was reached in early June 2023.

Towards the end of the period, inflation readings in major economies began to soften. But resilient growth raised fears that this might not mean the end of the interest rate hiking cycle.

## Equity market review

Against this backdrop, global shares nonetheless made gains. Developed market equities, as measured by the MSCI World index, returned 22.0% (in US dollars).

The growth investment style outperformed, with MSCI World Growth returning 26.6% versus 17.1% for MSCI World Value (both in US dollars). The so-called "Magnificent Seven" (Apple, Microsoft, Meta, Amazon, Alphabet, Nvidia, and Tesla) were responsible for much of the outperformance of growth. Their gains were partially spurred by a wave of investor enthusiasm for the potential of artificial intelligence. With these large companies continuing to be favoured by investors, smaller companies continued to lag, albeit still posting positive returns overall.

Emerging market (EM) shares underperformed with the MSCI EM index returning 11.7% (US dollars). Some of the emerging European markets performed very strongly, having lagged earlier in 2022 when the Russia-Ukraine war broke out. China underperformed the MSCI EM index amid lacklustre economic recovery and problems in the real estate sector.

## Bond market review

The US economy continued to surprise in its resilience, with the labour market remaining relatively robust and signs of improvement in the manufacturing sector contributing to a more optimistic outlook. Concerns over rising US debt issuance weighed on the Treasury market and in August, Fitch Ratings downgraded the US' AAA rating to AA+, citing the growing debt burden and an 'erosion of governance' as reasons for its decision.

Despite a significant rise in oil prices, there were better news on the inflation front as the 12-months progressed, with year-on-year core measures easing across most economies towards the end of the period. This allowed many major central banks to signal a pause in further rate hikes. Following earlier rate hikes, both the US Federal Reserve (Fed) and the Bank of England (BoE) kept interest rates steady in September. The European Central Bank (ECB) raised rates but indicated that the current rates might now be restrictive enough to bring inflation back to target.

However, with inflation remaining elevated, the market anticipated that interest rates would need to remain high for longer. This was the key driver of market weakness over the quarter. Government bond yields rose sharply, and curves steepened across most major markets as longer-dated bonds underperformed.

The 10-year US Treasury yield rose from 3.80% to 4.57%; the UK 10-year yield increased from 4.09% to 4.44%; and the German 10-year yield rose from 2.11% to 2.84%.

Corporate bond markets outperformed government bonds. Despite a weaker growth trajectory, European credit outperformed the US.

The information contained in this report is historical and not necessarily indicative of future performance.

# Investment Manager's Report (cont)

## Outlook

While inflation has been moving in the right direction, resilient growth has raised concerns that this rate-hiking cycle isn't over yet.

The Schroders economics team has revised up its growth forecasts for the US this year to 2.3% (previously 1.5%) but slashed the projection for China to 4.8% (from 6.5%). These moves largely cancel each other out, leaving the global GDP forecast little changed at 2.5%. Global growth is expected to decelerate further in 2024 to 2.1% as monetary policy continues to bite on activity.

Global inflation is expected to moderate from 7.2% last year to 4.4% this year and 3.1% next year. Within this, there is a marked divergence between the advanced economies and emerging markets, with inflation cooling in the former and rising in the latter as China lifts itself out of deflation.

Policy rates are close to their peak and will fall next year, although the easing cycle is delayed, reflecting the challenge of beating inflation.

## REPORT OF THE REVISEUR D'ENTREPRISES AGREE

### Report on the audit of the financial statements

#### Opinion

We have audited the financial statements of Schroder GAIA and each of its sub-funds ("the Fund"), which comprise the Statement of Net Assets and the Portfolio of Investments as at September 30, 2023, and the Statement of Operations and the Statement of Changes in Net Assets for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of Schroder GAIA and each of its sub-funds as at September 30, 2023, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

#### Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession ("Law of 23 July 2016") and with International Standards on Auditing ("ISAs") as adopted for Luxembourg by the Commission de Surveillance du Secteur Financier ("CSSF"). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the « Responsibilities of the "réviseur d'entreprises agréé" for the audit of the financial statements » section of our report. We are also independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants ("IESBA Code") as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

# Audit Report (cont)

## Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our report of the “réviseur d’entreprises agréé” thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

## Responsibilities of the Board of Directors of the Fund for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund’s and each of its sub-funds’ ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

## Responsibilities of the “réviseur d’entreprises agréé” for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the “réviseur d’entreprises agréé” that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

# Audit Report (cont)

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund.
- Conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the "réviseur d'entreprises agréé" to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the "réviseur d'entreprises agréé". However, future events or conditions may cause the Fund or any of its sub-funds to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

# Notes to the Financial Statements as at 30 September 2023

## The Company

The Company is an open-ended investment company organised as a société anonyme<sup>1</sup> under the laws of the Grand Duchy of Luxembourg and qualifies as a Société d'Investissement à Capital Variable ('SICAV'). The exclusive objective of the Company is to place the sub-funds available to it in transferable securities of any kind and other permitted assets, including financial derivative instruments, with the purpose of spreading investment risks and affording its Shareholders the results of the management of its portfolios.

The investment strategy of each sub-fund is based on an alternative investment strategy which has been designed and is currently managed by each of the Investment Managers.

## Classes of Shares

Shares are generally issued as Accumulation Shares. Distribution Shares will only be issued within any sub-fund at the Directors' discretion. Investors may enquire at the Management Company or their Distributor whether any Distribution Shares are available within each Share Class and sub-fund.

The Directors may decide to create within each sub-fund different Share Classes whose assets will be commonly invested pursuant to the specific investment policy of the relevant sub-fund, but where a specific fee structure, currency of denomination or other specific feature may apply to each Share Class. A separate Net Asset Value per Share, which may differ as a consequence of these variable factors, will be calculated for each Share Class. The classes of share available for each sub-fund are set out in detail in the current prospectus.

E Share Class is not available through Schroders' global network of distributors. For any questions in this regard, please contact the Management Company.

## Initial Charge

The Management Company and Distributors are entitled to an initial charge, which can be partly or fully waived at the Directors' discretion.

Share Classes	Initial Charge
A <sup>1</sup> , A2 and K Shares	Up to 3.09278% of the Net Asset Value per Share
A1 Shares	Up to 2.04081% of the Net Asset Value per Share
C, C1, E and F Shares	Up to 1.01010% of the Net Asset Value per Share
I, IF, IZ, N, PI, R, R1, R2, R3, R4, R5, S, X, Y, Y1 and Y2 Shares	No initial charge

<sup>1</sup> Initial charge for Schroder GAIA Cat Bond Share Class A is up to 1.01010% of the Net Asset Value per Share.

## Distribution Charge

As at the date of this report, there is a distribution charge of 0.50% on all Schroder GAIA A1 Share Classes. There are no other distribution charges attributable to any other classes of Shares available for investment within the Company.

## Swing Pricing

A sub-fund may suffer dilution of the Net Asset Value per Share due to investors buying or selling Shares in a sub-fund at a price that does not reflect the dealing and other costs that arise when security trades are undertaken by the Investment Manager to accommodate cash inflows or outflows. In order to counter this impact, a Swing Pricing mechanism may be adopted to protect the interests of the Shareholders of the sub-fund. If on any Valuation Day, the aggregate net transactions in Shares of a sub-fund exceed a pre-determined threshold, as determined and reviewed for each sub-fund on a periodic basis by the Management Company, the Net Asset Value per Share may be adjusted upwards or downwards to reflect net inflows and outflows respectively.

The net flow will be determined by the Management Company based on the latest available information at the time of calculation of the Net Asset Value per Share. The extent of the price adjustment will be set by the Management Company to reflect dealing and other costs. Such adjustment may vary from sub-fund to sub-fund and will not exceed 2% of the original Net Asset Value per Share.

The mechanism has been implemented for Schroder GAIA sub-funds since their inception.

On 30 September 2023, the last Calculation Day of the year under review, a swing pricing adjustment was not applied to any sub-fund.

## Summary of Significant Accounting Policies

The financial statements are prepared and presented in accordance with generally accepted accounting principles in Luxembourg for investment funds on a going concern basis. Sub-funds that have been liquidated during the year are prepared on a non-going concern basis.

At the reporting date the cash amount held at custody for the liquidated sub-fund Schroder GAIA Tellworth UK Dynamic Absolute Return\* was GBP 1,994.

## Net Asset Value

### Calculation of Net Asset Value per Share

The Net Asset Value per Share of each Share Class is calculated on the Calculation Day in the currency of the relevant Share Class. It will be calculated by dividing the Net Asset Value attributable to each Share Class, being the proportionate value of its assets less its liabilities, by the number of Shares of such Share Class then in issue. The resulting sum shall be rounded to the nearest up to four decimal places. Further details on rules that apply in valuing total assets can be found in the current prospectus.

The financial statements are prepared on the basis of the last NAV calculated during the year (29 September 2023 for all sub-fund) and presented in accordance with Luxembourg generally accepted accounting principles for investment funds.

### Valuation of the Assets of the Company

The value of any cash in hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued as aforesaid and not yet received shall be deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof shall be arrived at after making such discount as the Company may consider appropriate in such case to reflect the true value thereof.

The value of securities, financial derivative instruments and assets is determined on the basis of the prices at the close of market on the Business Day, on the stock exchange or any other Regulated Market on which these securities or assets are traded or admitted for trading. If a security is not traded or admitted on any official stock exchange or any Regulated Market, or in the case of securities so traded or admitted the last available price of which does not reflect their true value, the Directors are required to proceed on the basis of their expected sales price, which shall be valued with prudence and in good faith.

The financial derivative instruments which are not listed on any official stock exchange or traded on any other organised market are subject to reliable and verifiable valuation on a daily basis and can be sold, liquidated or closed by an offsetting transaction at any time at their fair value at the Company's initiative.

Should any of the aforesaid valuation principles not reflect the valuation method commonly used in specific markets or if any such valuation principles do not seem accurate for the purpose of determining the value of the Company's assets, the Directors may fix different valuation principles in good faith and in accordance with generally accepted valuation principles and procedures.

Units or Shares in open-ended UCIs shall be valued on the basis of their last available Net Asset Value as reported by such UCIs.

\* Please refer to the Directors' Report for details of all corporate actions that occurred during the year under review.

# Notes to the Financial Statements as at 30 September 2023 (cont)

## Net Asset Value (cont)

The total financial statements are expressed in EUR, the currency of the Company, and the financial statements of the Sub-Funds are expressed in the relevant base currency. The applicable exchange rates prevailing at the end of the year are used to translate currencies other than EUR into EUR for the Statement of Net Assets, Statement of Operations and Statement of Changes in Net Assets.

## Fair Value Pricing

The Directors reserve the right to implement fair value pricing whenever they deem it appropriate.

As at 30 September 2023, the fair value adjustment was applied to the following securities:

Sub-Fund	Security name
Schroder GAIA Cat Bond	LionRock SideCar 2021-1 perpetual, ZCP
Schroder GAIA Helix	CFD on MAGNIT PJSC CFD on TRINITY LIMITED
Schroder GAIA Wellington Pagosa	Clementia Pharmaceuticals

## Taxation

The Company is not subject to any taxes in Luxembourg on income or capital gains.

The only tax to which the Company is subject is the 'taxe d'abonnement' at a rate of 0.05% per annum based on the Net Asset Value of each sub-fund at the end of the relevant quarter, calculated and paid quarterly.

In respect of any Share Class or sub-fund which comprises only institutional Investors (within the meaning of Article 174 of the Law of 17 December 2010 as amended), the tax levied will be at the rate of 0.01% per annum.

Interest and dividend income received by the Company may be subject to non-recoverable withholding tax in the source countries. The Company may further be subject to tax on the realised or unrealised capital appreciation of its assets in the countries of origin, and provisions in this respect may be recognised in certain jurisdictions.

## Management Fees

The Investment Managers are entitled to receive management fees for their services, which are calculated and accrued daily by reference to the Net Asset Value of the sub-funds and are paid monthly. The actual rates payable for the year under review are set out in the following table:

Sub-Funds	Share Class	Management Fee
Schroder GAIA Asian Equity Long Short*	A Shares	2.00%
	C and IZ Shares	1.25%
	I Shares	None
Schroder GAIA BlueTrend	A Shares	1.60%
	C, E and N Shares	1.00%
Schroder GAIA Cat Bond	A and F Shares	1.50%
	C and IF Shares	1.10%
	PI Shares (effective rate)	up to 1.10% (0.46%)
	Y Shares (effective rate)	up to 1.10% (0.88%)
	Y1 Shares (effective rate)	up to 1.50% (1.28%)
	Y2* Shares (effective rate)	up to 1.10% (0.24%)
	I Shares	None

	K Shares	1.90%
Schröder GAIA Wellington Pagosa	A Shares	2.00%
	C and C1 Shares	1.25%
	E Shares	0.75%

These fees may be partially waived at the discretion of the Management Company.

## Directors' Fees

Marie-Jeanne Chèvremont-Lorenzini received a remuneration of EUR 20,167 for the year under review. Bernard Herman and Eric Bertrand received a remuneration of EUR 17,646 each for the year under review. Hugh Mullan received a remuneration of EUR 16,000 for the year under review. The remaining directors have waived their remuneration.

## Performance Fees

The performance fee becomes due in the event of outperformance, that is if the increase in the Net Asset Value per Share during the relevant performance year exceeds the High Water Mark, i.e. by reference to the highest Net Asset Value per Share at the end of any previous performance year (the High Water Mark).

A Share Class performance fee is accrued on each Business Day and included in the Net Asset Values of the sub-funds on the following Calculation Day, on the basis of the difference between the Net Asset Value per Share determined on the same Calculation Day (before deduction of any provision for the performance fee) and the hurdle, multiplied by the average number of Shares in issue over the financial year or in the case of a performance fee based on outperformance over a benchmark the higher of the Target Net Asset Value per Share (i.e. the hypothetical Net Asset Value per Share assuming a performance based on the benchmark until the Business Day) or the High Water Mark, multiplied by the average number of Shares in issue over the financial year. No performance fee is calculated for I Shares.

Details of performance fees calculations for the year under review are shown in the table below. Further details of the calculation of performance fees can be found in the current prospectus and the fees payable for the year are shown in the Statement of Net Assets under 'Performance fees payable'. Performance fees charged per share class during the year are shown on pages 142-143.

For Schroder GAIA Asian Equity Long Short\*, Schroder GAIA Contour Tech Equity, Schroder GAIA Egerton Equity, Schroder GAIA SEG US Equity\*, Schroder GAIA Two Sigma Diversified and Schroder GAIA Tellworth UK Dynamic Absolute Return Fund\* the performance fee is 20% of the outperformance.

For Schroder GAIA Helix, Schroder GAIA Sirios US Equity and Schroder GAIA Wellington Pagosa the performance fee is 20% of the outperformance (with the exception of E Shares where the rate is 15% of the outperformance).

For Schroder GAIA BlueTrend the performance fee is 10% of the outperformance.

For Schroder GAIA Cat Bond and Schroder GAIA Oaktree Credit no performance fee is charged (with the exception of Schroder GAIA Cat Bond PI Shares where the rate is 10% of the outperformance).

## Custodian and Administration fees

The Custodian and Fund Administrator are entitled to fees for related services rendered in accordance with common practice in Luxembourg, payable monthly, out of the net assets of the Fund.

## Cash Collateral Reinvestment

For the purpose of counterparty risk mitigation, sub-funds with currency hedging transactions related to hedged Share Classes will pay or receive cash collateral on a daily basis from the counterparty, thus reducing their exposure over the duration of the forward contract.

Investment Managers may reinvest the cash collateral they receive from their counterparty in connection with currency hedging.

Collateral receivable or payable at the maturity date of the forward contracts are shown in the Statement of Net Assets as 'Net Hedged currency class forward contracts collateral receivable/payable'. Collateral calls receivable or payable are shown in the Statement of Net Assets as 'Hedged currency class forward contracts collateral calls receivable/payable'.

## Forward Foreign Exchange Contracts

Outstanding forward foreign exchange contracts were valued at the last available price at NAV Calculation Day, by reference to the forward rate of exchange applicable to the maturity of the relevant contract. The unrealised appreciation/(depreciation) is shown in the Statement of Net Assets under 'Net unrealised appreciation/(depreciation) on forward foreign exchange contracts'.

On 30 September 2023, the following sub-funds were committed to forward foreign exchange contracts:

Currency Bought	Amount Bought	Currency Sold	Amount Sold	Maturity Date	Unrealised Appreciation/ (Depreciation)
<b>Schroder GAIA Asian Equity Long Short*</b>					
Portfolio Hedging					
AUD	2,413,000	USD	1,616,651	17-Oct-2023	(64,417)

\* Please refer to the Directors' Report for details of all corporate actions that occurred during the year under review.

\*\* The Investment Manager for Schroder GAIA Tellworth UK Dynamic Absolute Return Fund\* has changed from BennBridge Ltd. to Tellworth Investments LLP effective 5 December 2022.

## Option Contracts

Option contracts were valued at the last available price at NAV Calculation Day and the market value, if it is other than 0, is shown in the Statement of Net Assets under 'Options and swaptions at market value'.

On 30 September 2023, the following sub-funds were committed to outstanding option contracts on financial indices and international listed shares:

Notional Subject to Call or Put	Contract	Counterparty	Currency	Premium Paid/ (Received)	Market Value	Unrealised Appreciation/ (Depreciation)
<b>Schroder GAIA BlueTrend</b>

## Total Return Swap Contracts

The Fund may use total return swaps. A total return swap is a bilateral financial contract which allows the Fund to enjoy all of the cash flow benefits of an asset without actually owning this asset (the 'Reference Asset'). The sub-funds will have to pay a periodic fee (fixed or floating payment) in exchange of their rights to receive the total return of the Reference Assets (coupons and/or capital gains and/or losses). The Reference Asset can be almost any asset, which constitutes an eligible investment for the sub-funds. The sub-funds may use such instruments to seek exposure to an eligible market or for hedging purposes.

The total return swaps were valued at the last available price at NAV Calculation Day. The unrealised gain or loss on total return swaps at year-end is represented by the values of interests to be received (or paid), based on relevant swap agreements' interest rates less (or plus, respectively), the value of the performance to be paid (or received, respectively), based on the total return value of underlying assets, which is made of the current fair value of equities plus the dividend distributed for such equities for the relevant swap year. The unrealised appreciation/(depreciation) is shown in the Statement of Net Assets under 'Net unrealised appreciation/(depreciation) on total return swap contracts'.

As at 30 September 2023, the following sub-funds were committed to total return swap contracts agreements:

Protection Position	Industry	Counterparty	Currency	Nominal Amount	Maturity Date	Unrealised Appreciation/ (Depreciation)

# Notes to the Financial Statements as at 30 September 2023 (cont)

## Contracts for Differences

Contracts for differences ("CFDs") are valued based on the closing market price of the underlying security converted into the base currency of the contract for differences, less any financing charges attributable to each contract which are booked separately. On entering a contract for differences, the Fund may be required to pledge an amount of cash and/or other assets to the broker which is equal to a certain percentage of the contract amount ('initial margin'). Subsequently, payments known as 'variation margins' are made or received by the Fund periodically, depending on the fluctuations in the value of the underlying security. Realised gains or losses at the closure of the contract are equal to the difference between the value of the contract for differences at the time it was opened (including any financial changes) and the value at the time it was closed. Dividends (net of withholding taxes) attributable to open contracts for differences are deemed to be dividends receivable at the end of the year. The result of these revaluations is shown in the Statement of Net Assets under 'Net unrealised appreciation/(depreciation) on contracts for differences'.

As at 30 September 2023, the following sub-funds were entered into contracts for differences on financial indices and futures contracts:

## Credit Default Index Swap Contracts

A credit default index swap allows the transfer of default risk. This allows a Fund to effectively buy insurance on a reference index obligation it holds (hedging the investment), or buy protection on a reference index obligation it does not physically own in the expectation that the credit will decline in quality. One party, the protection buyer, makes a stream of payments to the seller of the protection, and a payment is due to the buyer if there is a credit event (a decline in credit quality, which will be predefined in the agreement between the parties). If the credit event does not occur the buyer pays all the required premiums and the swap terminates on maturity with no further payments. The risk of the buyer is therefore limited to the value of the premiums paid. In addition, if there is a credit event and the Fund does not hold the underlying reference obligation, there may be a market risk as the Fund may need time to obtain the reference index obligation and deliver it to the counterparty. Furthermore, if the counterparty becomes insolvent, the Fund may not recover the full amount due to it from the counterparty. The market for credit default indices may sometimes be more illiquid than the bond markets. The Company will mitigate this risk by monitoring in an appropriate manner the use of this type of transaction.

Credit default indices were valued at their intrinsic value. The valuation method involves the current value of the interest-rate series and the current value of the credit spread traded on the market at the closing date. The result of these revaluations together with any interest receivable/payable in relation to credit default index is shown in the Statement of Net Assets under 'Net unrealised appreciation/(depreciation) on credit default index swap contracts'.

On 30 September 2023, the following sub-funds were committed to credit default indices agreements on financial indices:

Protection Position	Description	Counterparty	Currency	Nominal Amount	Interest (Paid)/Received %	Maturity Date	Unrealised Appreciation/(Depreciation)

## Credit Default Swap Contracts

A credit default swap allows the transfer of default risk. This allows the Fund to effectively buy insurance on a reference obligation it holds (hedging the investment), or buy protection on a reference obligation it does not physically own in the expectation that the credit will decline in quality. One party, the protection buyer, makes a stream of payments to the seller of the protection, and a payment is due to the buyer if there is a credit event (a decline in credit quality, which will be predefined in the agreement between the parties). If the credit event does not occur the buyer pays all the required premiums and the swap terminates on maturity with no further payments. The risk of the buyer is therefore limited to the value of the premiums paid. In addition, if there is a credit event and the sub-fund does not hold the underlying reference obligation, there may be a market risk as the sub-fund may need time to obtain the reference obligation and deliver it to the counterparty. Furthermore, if the counterparty becomes insolvent, the sub-fund may not recover the full amount due to it from the counterparty. The market for credit default swaps may sometimes be more illiquid than the bond markets. The Company will mitigate this risk by monitoring in an appropriate manner the use of this type of transaction.

Credit default swaps were valued at their intrinsic value. The valuation method involves the current value of the interest-rate series and the current value of the credit spread traded on the market at the closing date. The result of these revaluations together with any interest receivable/payable in relation to credit default swaps is shown in the Statement of Net Assets under 'Net unrealised appreciation/(depreciation) on credit default swap contracts'.

## Cross Currency Swap Contracts

The cross currency swaps were valued at the last available price at NAV Calculation Day. The Unrealised appreciation/(depreciation) is disclosed in the Statement of Net Assets under 'Net unrealised appreciation/(depreciation)' on cross currency swap contracts'. A cross currency swap is a contract by which two parties commit themselves during a given year to exchange interest payments denominated in two different currencies.

On 30 September 2023, the following sub-fund was entered in to cross currency swap contracts:

Counterparty	Paying Currency	Nominal	Receiving Currency	Nominal	Maturity	Paying Rate	Receiving Rate	Unrealised Appreciation/(Depreciation)
<b>Schroder GAIA Wellington Pagosa</b>								
Morgan Stanley	USD	21,907,219	AUD	30,014,000	20-Mar-2029	USD SOFR 1 day	AUD BBR 3 months	(8,887)
Morgan Stanley	USD	23,258,410	NOK	205,816,000	20-Mar-2029	USD SOFR 1 day	NOK NIBOR 3 months	3,919

<b>USD</b>								<b>19,444</b>

# Notes to the Financial Statements as at 30 September 2023 (cont)

## Inflation Rate Swap Contracts

An inflation rate swap allows the transfer of inflation risk. One party to the contract seeks to reduce their risk (by hedging), while the other increases exposure to the risk (by speculating). The party looking to hedge their inflation risk pays the floating rate linked to an inflation index while receiving fixed cash flows. By swapping floating for fixed, it reduces the hedging party's exposure to inflation risk and increases their certainty of future cash flows. Inflation rate swaps were valued at the last available price at NAV Calculation Day. The Unrealised appreciation/(depreciation) is disclosed in the Statement of Net Assets under 'Net unrealised appreciation/(depreciation)' on inflation rate swap contracts'.

On 30 September 2023, the following sub-fund was committed to swap agreements on inflation rates:

Nominal Amount	Currency	Counterparty	Security Description	Maturity Date	Unrealised Appreciation/ (Depreciation)
<b>Schroder GAIA Wellington Pagosa</b>					
5,675,000	EUR	J.P. Morgan	Pay fixed 2.43%, Receive floating HICPX 10 year	15-Mar-2033	64,064

<b>USD</b>					<b>190,759</b>

## Interest Rate Swap Contracts

In order to hedge against interest rate fluctuations, the Company may enter into interest rate swaps provided:

- The commitments deriving therefrom do not exceed the value of the relevant assets to be hedged; and
- The total amount of such transactions does not exceed the level necessary to cover the risk of the fluctuation of the value of the assets concerned.

Such contracts must be denominated in the currencies in which the assets of such Fund are denominated, or in currencies which are likely to fluctuate in a similar manner and must be either listed on an exchange or dealt in on a Regulated Market.

Interest rate swaps were valued at the last available price at NAV Calculation Day at their intrinsic value. The valuation method involves a current value of each interest rate and capital series converted into the currency of the Fund on the closing date. The result of these revaluations together with any interest receivable/payable in relation to interest rate swaps is shown in the Statement of Net Assets under 'Net unrealised appreciation/(depreciation) on interest rate swap contracts'.

On 30 September 2023, the following sub-funds were committed to swap agreements on interest rates:

Description	Counterparty	Nominal	Currency	Maturity Date	Unrealised Appreciation/ (Depreciation)
<b>Schroder GAIA BlueTrend</b>

## Disclosure of Transaction Costs

The transaction costs are broker commission fees and taxes related to the purchase and sale of transferable securities. Bond sub-funds will generally show the figure of zero as the broker commission fees are included in the spread, which is excluded from the calculation pursuant to Annex I, Schedule B, Chapter V of Directive 2009/65/EC of the European Parliament. The transaction costs part of the acquisition cost/sale price of the related assets and the Custodian transaction costs are not included in this table. Costs for structured products are included in the market value.

The transaction costs for the year under review were as follows:

Sub-Funds	Currency	Commissions
Schroder GAIA Asian Equity Long Short*	USD	21,666
Schroder GAIA BlueTrend	USD	198,227
Schroder GAIA Cat Bond	USD	21,080
Schroder GAIA Contour Tech Equity	USD	516,929

\* Please refer to the Directors' Report for details of all corporate actions that occurred during the year under review.

# Notes to the Financial Statements as at 30 September 2023 (cont)

## Cross sub-fund investment

As at 30 September 2023, the total cross sub-fund investment amounts to EUR 10,041,145 and therefore, the total combined NAV at the year end without cross sub-fund investments would amount to EUR 4,920,504,270. The details of the cross sub-fund investments are disclosed in the following table:

Investment	Sub-Fund Currency	Market Value	% of net assets
<b>Schroder GAIA Helix</b>			
Schroder GAIA Asian Equity Long Short*		10,616,000	3.58
	<b>USD</b>	<b>10,616,000</b>	<b>3.58</b>

\* Please refer to the Directors' Report for details of all corporate actions that occurred during the year under review.

# Notes to the Financial Statements as at 30 September 2023 (cont)

## Exchange Rate

The exchange rate used for the calculation of the combined total in EUR of the Financial Statements as at 30 September 2023 is:

1 Euro = 0.94585 US Dollar

1 Euro = 1.15403 Pound Sterling

## Subsequent Events

As at the date of the approval of the Financial Statements, there were no significant subsequent events.

# Appendix I – UCITS Disclosures (Unaudited) (cont)

## UCITS remuneration disclosures for Schroder Investment Management Europe S.A. ('SIM Europe') for the year to 31 December 2022

These disclosures form part of the non-audited section of this annual report and accounts and should be read in conjunction with the Schroders plc Remuneration Report on pages 76 to 107 of the 2022 Annual Report & Accounts (available on the Group's website –<https://www.schroders.com/en/investor-relations/results-and-reports/annual-report-and-accounts-2022/>), which provides more information on the activities of our Remuneration Committee and our remuneration principles and policies.

The UCITS Material Risk Takers ('UCITS MRTs') of SIM Europe are individuals whose roles within the Schroders Group can materially affect the risk of SIM Europe or any UCITS fund that it manages. These roles are identified in line with the requirements of the UCITS Directive and guidance issued by the European Securities and Markets Authority.

The Remuneration Committee of Schroders plc has established a remuneration policy to ensure the requirements of the UCITS Directive are met for all UCITS MRTs. The Remuneration Committee and the Board of Schroders plc review remuneration strategy at least annually. The directors of SIM Europe are responsible for the adoption of the remuneration policy, for reviewing its general principles at least annually, for overseeing its implementation and for ensuring compliance with relevant local legislation and regulation. During 2022 the Remuneration Policy was reviewed to ensure compliance with the UCITS/AIFMD remuneration requirements and no significant changes were made.

The implementation of the remuneration policy is, at least annually, subject to independent internal review for compliance with the policies and procedures for remuneration adopted by the Board of SIM Europe and the Remuneration Committee. The most recent review found no fundamental issues but resulted in a range of more minor recommendations, principally improvements to process and policy documentation.

The total spend on remuneration is determined based on a profit share ratio, measuring variable remuneration charge against pre-bonus profit, and from a total compensation ratio, measuring total remuneration expense against net income. This ensures that the interests of employees are aligned with Schroders financial performance. In determining the remuneration spend each year, the underlying strength and sustainability of the business is taken into account, along with reports on risk, legal, compliance and internal audit matters from the heads of those areas.

The remuneration data that follows reflects amounts paid in respect of performance during 2022.

- The total amount of remuneration paid by SIM Europe to its 326 staff was €60.53 million of which €37.29 million was fixed remuneration (e.g. salaries, benefits in kind) and €23.24 million was variable remuneration (e.g. annual bonus awards or deferred bonus awards). Employees of other Schroders Group entities who serve as Directors of SIM Europe receive no additional fees in respect of their role on the Board of SIM Europe.
- The following disclosures relate to UCITS MRTs of SIM Europe. Most of those UCITS MRTs were employed by other Schroders group companies, including as a result of delegation by SIM Europe of investment management or other responsibilities to other Schroders group entities or third parties. Many of those UCITS MRTs provide services to other Schroders group companies and other clients. In the interests of transparency, the aggregate remuneration figures that follow reflect the full remuneration for each SIM Europe UCITS MRT. The aggregate total remuneration paid to the 224 UCITS MRTs of SIM Europe in respect of the financial year ended 31 December 2022, and attributed to SIM Europe or the UCITS funds that it manages, is €185.04 million, of which €43.86 million was paid to senior management, €132.29 million was paid to MRTs deemed to be taking risk on behalf of SIM Europe or the UCITS funds that it manages and €8.89 million was paid to other UCITS MRTs including control function MRTs. Those total remuneration values include amounts paid by delegates where available.

For additional qualitative information on remuneration policies and practices see [www.schroders.com/rem-disclosures](https://www.schroders.com/rem-disclosures).

# Appendix II – Securities Financing Transactions (Unaudited)

The sub-funds engage in Securities Financing Transactions (SFT) (as defined in Article 3 of Regulation (EU) 2015/2365, securities financing transactions include repurchase transactions, securities or commodities lending and securities or commodities borrowing, buy-sell back transactions or sell-buy back transactions and margin lending transactions). In accordance with Article 13 of the Regulation, the sub-fund involvement relating to their exposure on total return swaps for the year ended 30 September 2023 is detailed below:

## Schroder GAIA Egerton Equity

### Global Data

#### Amount of assets engaged in total return swaps

Amount of Assets - Long Positions EUR	% of AUM
7,498,620	1.82%
Amount of Assets - Short Positions EUR	% of AUM
8,365,595	2.04%
Amount of Assets - Total EUR	% of AUM
15,864,215	3.86%

### Concentration Data

#### Ten largest collateral issuers (across all SFT and total return swaps)

As at 30 September 2023, there are no collateral securities and commodities received in respect of total return swaps.

#### Top ten counterparties

Counterparty	Gross volume of outstanding transactions EUR
Goldman Sachs	5,367,989
Morgan Stanley	5,218,125
J.P. Morgan	3,592,181
Merrill Lynch	1,685,920
	<b>15,864,215</b>

The sub-fund deals with all of the above mentioned counterparties for its total return swaps.

### Aggregate transaction data

#### Type and quality of collateral

The aggregate transaction data for collateral received in respect of total return swaps is as follows:

Type	Market Value EUR
Cash	3,520,941
	<b>3,520,941</b>

#### Maturity tenor of collateral

Maturity	Market Value EUR
less than 1 day	3,520,941
1 to 7 days	-
1 to 4 weeks	-
1 to 3 months	-
3 to 12 months	-
more than 1 year	-
open maturity	-
	<b>3,520,941</b>

3 to 12 months	5,109,799	2,503,538	7,613,337
more than 1 year	2,388,821	5,073,339	7,462,160
open maturity	–	–	–
	<b>7,498,620</b>	<b>8,365,595</b>	<b>15,864,215</b>

### Country in which counterparties for total return swaps are established

Counterparty	Country
Goldman Sachs	United States of America
Morgan Stanley	United States of America
J.P. Morgan	United Kingdom
Merrill Lynch	United States of America

### Settlement and clearing

The sub-fund utilises bi-lateral settlement and clearing with its counterparty for total return swaps.

### Reuse of collateral

The sub-fund does not reuse or reinvest collaterals received, if any, on total return swaps.

## Safekeeping of collateral

### Collateral received

Custody of collateral received in respect of total return swaps is as follows:

Custodian	Market Value EUR
Morgan Stanley	3,520,941
	<b>3,520,941</b>

### Collateral granted

The proportion of collateral held in segregated accounts or in pooled accounts, or in any other accounts in respect of total return swaps is as follows:

Account Type	Market Value EUR
Segregated	25,102,046
Pooled	–
Other	–
	<b>25,102,046</b>

OTC derivative transactions entered into by the sub-fund under an ISDA Master agreement are netted together for collateral purposes. Therefore, collateral disclosures provided above are in respect of all OTC derivative transactions and not just total return swaps.

# Appendix II – Securities Financing Transactions (Unaudited) (cont)

## Schroder GAIA Egerton Equity (cont)

### Return and Cost

Return on Total Return Swaps disclosed below are included as part of 'Net income on swaps', 'Net realised gains/(losses) on total return swap contracts' and 'Net change in unrealised appreciation/(depreciation) on total return swap contracts' in the Statement of Operations and Statement of Changes in Net Assets. All returns on Total Return Swaps are attributable to the Sub-Fund and are not subject to return sharing agreements.

	Total Return Swaps Absolute – in Sub-Fund currency
To Sub-Fund	48,865,498

### Cost

The costs attributed to total return swaps are included in the spread.

# Appendix III – Sustainable Finance Disclosure (Unaudited)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

**Product :** Schroder GAIA Cat Bond

**Legal Entity Identifier :** 549300MYKDUYVX3W6F39

## Environmental and/or social characteristics

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

Did this financial product have a sustainable investment objective?

☐ Yes

No

It made sustainable investments with an environmental objective: \_\_%

It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of \_\_% of sustainable investments

In economic activities that qualify as environmentally sustainable under the EU Taxonomy

With an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

In economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

With an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

With a social objective

It made sustainable investments with a social objective: \_\_%

It promoted E/S characteristics, but did not make any sustainable investments

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

# Appendix III – Sustainable Finance Disclosure (Unaudited) (cont)

## To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and/or social characteristics promoted by the Fund were met. The Fund invested:

- at least 80% of its assets in investments linked to natural catastrophe and/or life risks with an aim of reducing the negative consequences of such events, contributing to the rebuilding of economies and societies post event and hence increasing their resilience going forward;
- at least 50% of its assets in investments linked to meteorological risks with an aim of reducing the negative consequences of such events, contributing to the rebuilding of economies and societies post event and hence increasing their resilience going forward, and potentially easing the negative consequences of climate change;
- at least 5% of its assets in investments that are designed to address the unavailability of affordable insurance cover against natural catastrophes.

The Fund also maintained a positive absolute sustainability score, based on the Investment Manager's rating system. This means that the Fund's weighted average score over a rolling six month period up to the end of the reference period was higher than zero, based on month-end data.

The sustainability score is measured by Schroders' proprietary tool that provides an estimate of the net "impact" that a transaction sponsor may create in terms of social and environmental "costs" or "benefits". It does this by using certain indicators with respect to that sponsor, and quantifying them positively and negatively to produce an aggregate notional measure of the effect that the relevant underlying sponsor may have on society and the environment. It does this using third party data as well as Schroders own estimates and assumptions and the outcome may differ from other sustainability tools and measures. Examples of such indicators are greenhouse gas emissions, water usage, and salaries compared to the living wage.

The result is expressed as an aggregate score of the sustainability indicators for each sponsor, specifically a notional percentage (positive or negative) of sales of the relevant underlying sponsor. For example, a score of +2% would mean a sponsor contributes \$2 of relative notional positive impact (i.e. benefits to society) per \$100 of sales. The sustainability score of the Fund is derived from the scores of all sponsors in the Fund's portfolio measured by Schroders' proprietary tool.

The reference period for this Fund is 1 October 2022 to 30 September 2023.

### Sustainability indicators

measure how the environmental or social characteristics promoted by the financial product are attained.

#### • *How did the sustainability indicators perform?*

The Investment Manager monitored compliance with the characteristic to invest at least: 80% of its assets in investments linked to natural catastrophe and/or life risks; 50% of its assets in investments linked to meteorological risks; and 5% of its assets in investments that are designed to address the unavailability of affordable insurance cover against natural catastrophes by using a third-party operating system for investment professionals with oversight provided by an internal portfolio compliance team.

The positive absolute sustainability score of the Fund for the reference period was 0.9%.

## Appendix III – Sustainable Finance Disclosure (Unaudited) (cont)

The sustainability score is calculated as a notional percentage as described above.

During the reference period, the top 5 indicators in Schroders' proprietary tool that contributed positively to the sustainability score of the Fund were:

- Financial Inclusion: the estimated societal benefits from the provision of financial services on local populations. Assigned in proportion to company market share of global revenue;
- High Salaries: the estimated societal benefit of paying staff above local living wage (for regions in which they operate). Assigned in proportion to the surplus companies are paying employees compared to the average living wage;
- Infrastructure: the estimated societal benefits associated with investment in infrastructure. Assigned in proportion to a country's infrastructure spend via gross capital formation (GCF) data;- Medicine: the estimated societal benefits arising from the additional social value the sale of such products and services exhibits of the wider economy. Assigned in proportion to the company's involvement in the healthcare value chain and proportion of company market share to global sub-sector revenue; and
- Medicine: the estimated societal benefits arising from the additional social value the sale of such products and services exhibits of the wider economy. Assigned in proportion to the company's involvement in the healthcare value chain and proportion of company market share to global sub-sector revenue; and
- Socio-Political Stability: the estimated societal benefit a politically and socially stable country can provide in supporting a favourable business environment and attracting investment, thus contributing to long-run economic growth.

The Investment Manager monitored compliance with the characteristic to maintain a positive absolute sustainability score by reference to the weighted average sustainability score of the Fund in Schroders' proprietary tool over a rolling six month period up to the end of the reference period, based on month-end data. The overall sustainability score aggregates the effect of sustainability indicators including but not limited to greenhouse gas emissions, water usage, and salaries compared to the living wage.

The Fund also applied certain exclusions, with which the Investment Manager monitored compliance on an ongoing basis via its portfolio compliance framework.

### • ...and compared to previous periods?

#### Sustainability score

*This table details the Fund's sustainability score, year on year*

Period	Fund (%)
Oct 2022 - Sep 2023	0.9
Oct 2021 - Sep 2022	0.8

# Appendix III – Sustainable Finance Disclosure (Unaudited) (cont)

**• What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

As the Fund did not commit to making sustainable investments, this question is not applicable for this Fund.

**• How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

This question is not applicable for this Fund.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

**How were the indicators for adverse impacts on sustainability factors taken into account?**

This question is not applicable for this Fund.

**Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

This question is not applicable for this Fund.

*The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**How did this financial product consider principal adverse impacts on sustainability factors?**

As stated in the pre-contractual disclosure for the Fund, currently, the Investment Manager is not able to consider the principal adverse impacts on sustainability factors as these metrics only apply to investments in companies, sovereign debt and real estate.

Due to the nature of the Fund's assets, being insurance-linked securities and financial

## Appendix III – Sustainable Finance Disclosure (Unaudited) (cont)

derivative instruments that are exposed to catastrophe risks, the Investment Manager could only consider adverse impacts applicable to this asset class. The Investment Manager has excluded certain transaction sponsors and certain risk classes from inclusion in its portfolios that the Investment Manager believes have the potential to cause significant adverse impacts on society.

The Fund has also excluded ILS transactions that are sponsored by the following companies on a standalone basis:

- Environmental: Companies that are active in fossil fuels extraction and production (including but not limited to oil drilling and coal mines) or power generation from oil and gas.

- Social: Companies from the following sectors: Alcohol, Tobacco, Gambling, Adult Entertainment, Conventional Weapons, Civilian Firearms, and Nuclear Weapons.

Further, the Fund has excluded certain risk classes from inclusion into its portfolio: lottery, mortgage insurance, life settlements and terror on a stand-alone basis.

### What were the top investments of this financial product?

During the reference period the top 15 investments were:

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: **1 Oct 2022 to 30 Sep 2023**

Largest Investments	Sector	% Assets	Country

Due to the structure of these assets the 'Country' shown in the table above represents the domicile of the investment vehicle. The country risk exposures of the underlying investments will generally differ from the country of domicile.

The 'Sector' shown represents the fact these are special purpose vehicles created for the purpose of risk mitigation.

# Appendix III – Sustainable Finance Disclosure (Unaudited) (cont)

The list above represents the average of the Fund's holdings at each quarter-end during the reference period.

The largest investments and % of assets referred to above are derived from the Schroders Investment Book of Record (IBoR) data source. The largest investments and % of assets detailed elsewhere in the Audited Annual Report are derived from the Accounting Book of Record (ABoR) maintained by the administrator. As a result of these differing data sources, there may be marginal differences in the largest investments and % of assets due to the differing calculation methodologies of these alternative data sources.

**Asset allocation** describes the share of investments in specific assets.

## What was the proportion of sustainability-related investments?

### • What was the asset allocation?

The Fund's investments that were used to meet its environmental or social characteristics are summarised below.

#1 Aligned with E/S characteristics includes the Fund's assets that were used to attain the environmental or social characteristics, which is equal to 93%. This percentage represents the assets in investments linked to natural catastrophe and/or life risks, investments linked to meteorological risks and investments that are designed to address the unavailability of affordable insurance cover against natural catastrophes and is based on the average of the holdings at each quarter-end during the reference period.

#2 Other includes cash which was treated as neutral for sustainability purposes. #2 also includes investments that were not scored by Schroders' proprietary sustainability tool and so did not contribute towards the Fund's sustainability score.

# Appendix III – Sustainable Finance Disclosure (Unaudited) (cont)

**#1 Aligned with E/S Characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments

## • In which economic sectors were the investments made?

During the reference period investments were made in the following economic sectors:

Sector	Sub-Sector	% Assets
Financial	Insurance	91.31
Cash	Cash	6.79
Supranational	Supranational	1.97
Derivatives	FX Derivatives	-0.05

The list above represents the average of the Fund's holdings at each quarter-end during the reference period.

The % of assets aligned to economic sectors referred to above are derived from the Schroders Investment Book of Record (IBoR) data source. The % of assets aligned to economic sectors detailed elsewhere in the Audited Annual Report are derived from the Accounting Book of Record (ABoR) maintained by the administrator. As a result of these differing data sources, there may be marginal differences in the % of assets aligned to economic sectors due to the differing calculation methodologies of these alternative data sources.

## To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

There was no extent to which the Fund's investments (including transitional and enabling activities) with an environmental objective were aligned with the Taxonomy. Taxonomy alignment of this Fund's investments has therefore not been calculated and has as a result been deemed to constitute 0% of the Fund's portfolio.

# Appendix III – Sustainable Finance Disclosure (Unaudited) (cont)

• Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?

☐ Yes:

☐ In fossil gas☐ In nuclear energy

☒ No

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies

- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

\*For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures

# Appendix III – Sustainable Finance Disclosure (Unaudited) (cont)

<sup>2</sup>As there is no Taxonomy-alignment, there is no impact on the graph if sovereign bonds are excluded (i.e. the percentage of Taxonomy-aligned investments remains 0%) and the Management Company therefore believes that there is no need to mention this information.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective

**Transitional activities** are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

## • *What was the share of investments made in transitional and enabling activities?*

As per the above, the share of investments by the Fund in transitional and enabling activities has been deemed to constitute 0% of the Fund's portfolio.

## • *How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?*

This question is not applicable.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

## **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

As the Fund did not commit to making sustainable investments, this question is not applicable for this Fund.

## **What was the share of socially sustainable investments?**

As the Fund did not commit to making sustainable investments, this question is not applicable for this Fund.

# Appendix III – Sustainable Finance Disclosure (Unaudited) (cont)

## What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

#2 Other includes cash which was treated as neutral for sustainability purposes. #2 also includes investments that were not scored by Schroders’ proprietary sustainability tool and so did not contribute towards the Fund’s sustainability score.

Minimum safeguards were applied where relevant to Money Market Instruments, derivatives used with the aim of reducing risk (hedging) or other investments by restricting (as appropriate) investments in counterparties where there were ownership links or exposure to higher risk countries (for the purpose of money laundering, terrorist financing, bribery, corruption, tax evasion and sanctions risks). A firm-wide risk assessment considers the risk rating of each jurisdiction; which includes reference to a number of public statements, indices and world governance indicators issued by the UN, the European Union, the UK Government, the Financial Action Task Force and several Non-Government Organisations (NGOs), such as Transparency International and the Basel Committee.

In addition, new counterparties were reviewed by Schroders’ credit risk team and approval of a new counterparty was based on a holistic review of the various sources of information available, including, but not limited to, quality of management, ownership structure, location, regulatory and social environment to which each counterparty is subject, and the degree of development of the local banking system and its regulatory framework. Ongoing monitoring was performed through a Schroders’ proprietary tool, which supports the analysis of a counterparty’s management of environmental, social and governance trends and challenges.

Schroders’ credit risk team monitored the counterparties and during the reference period, to the extent counterparties were removed from the approved list for all funds in line with our policy and compliance requirements, such counterparties were ineligible for use by the Fund in respect of any relevant investments from the date they were removed.

## What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The actions taken during the reference period to meet the environmental and social characteristics promoted by the Fund were the following:

- The Investment Manager applied sustainability criteria when selecting investments for the Fund;
- The Investment Manager considered the sustainability scores of the Fund and of individual investments when selecting the assets held by the Fund; and
- The Investment Manager assessed good governance practices of the Fund’s investments.

## How did this financial product perform compared to the reference benchmark?

# Appendix III – Sustainable Finance Disclosure (Unaudited) (cont)

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

No index was designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund.

• ***How did the reference benchmark differ from a broad market index?***

This question is not applicable for this Fund.

• ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

This question is not applicable for this Fund.

• ***How did this financial product perform compared with the reference benchmark?***

This question is not applicable for this Fund.

• ***How did this financial product perform compared with the broad market index?***

This question is not applicable for this Fund.

## Appendix III – Sustainable Finance Disclosure (Unaudited) (cont)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

**Product :** Schroder GAIA Helix

**Legal Entity Identifier :** 549300HTRQHGX6XKWC51

## Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

**Did this financial product have a sustainable investment objective?**

☒ Yes

☒ No

☐ It made sustainable investments with an environmental objective: \_\_%

**X** It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 61% of sustainable investments

☐ In economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐ With an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐ In economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

**X** With an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☒ With a social objective

☐ It made sustainable investments with a social objective: \_\_%

☐ It promoted E/S characteristics, but did not make any sustainable investments

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

The percentage of sustainable investments shown (which are all long positions, as short positions are not deemed to be sustainable investments) represents the sustainable investments as a proportion of the long exposure of the Fund during the reference period. This is in line with the pre-contractual disclosure for the Fund, where the Fund committed to invest at least 35% of its long exposure in sustainable investments.

For additional context, the percentage of sustainable investments as a proportion of the gross exposure of the Fund during the reference period was 28%. The gross exposure includes both long and short positions and this figure is provided for consistency with the basis of the other calculations in the asset allocation section below.

# Appendix III – Sustainable Finance Disclosure (Unaudited) (cont)

## To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and/or social characteristics promoted by the Fund were met. The Fund maintained a positive absolute sustainability score, based on the Investment Manager's rating system. This means that the Fund's weighted average score over a rolling six month period up to the end of the reference period was higher than zero, based on month-end data.

The sustainability score is measured by Schroders' proprietary tool that provides an estimate of the net "impact" that an issuer may create in terms of social and environmental "costs" or "benefits". It does this by using certain indicators with respect to that issuer, and quantifying them positively and negatively to produce an aggregate notional measure of the effect that the relevant underlying issuer may have on society and the environment. It does this using third party data as well as Schroders own estimates and assumptions and the outcome may differ from other sustainability tools and measures. Examples of such indicators are greenhouse gas emissions, water usage, and salaries compared to the living wage.

The result is expressed as an aggregate score of the sustainability indicators for each issuer, specifically a notional percentage (positive or negative) of sales or GDP of the relevant underlying issuer. For example, a score of +2% would mean an issuer contributes \$2 of relative notional positive impact (i.e. benefits to society) per \$100 of sales or GDP. The sustainability score of the Fund is derived from the scores of all issuers (including, where applicable, on a look through basis for indices and baskets of securities) in the Fund's portfolio measured by Schroders' proprietary tool. The Fund's long and short positions contribute differently to the aggregate score. Long positions with positive scores and short positions with negative scores both contribute positively towards the aggregate score, while long positions with negative scores and short positions with positive scores both detract from the aggregate score.

The reference period for this Fund is 1 October 2022 to 30 September 2023.

The Fund used derivatives extensively to implement its investment strategy and to meet the environmental and/or social characteristics promoted by the Fund. Long and short derivative positions contributed differently to the Fund's overall sustainability score as described. Equity and index derivatives (excluding options) are scored in the same way as physical holdings, on a look-through basis, and also contributed to the Fund's overall sustainability score.

The Fund also invested at least 35% of its long exposure in sustainable investments during the reference period.

### Sustainability indicators

measure how the environmental or social characteristics promoted by the financial product are attained.

#### • *How did the sustainability indicators perform?*

The positive absolute sustainability score for the reference period was 9.8%

The sustainability score is calculated as a notional percentage as described above.

During the reference period, the top 5 indicators in Schroders' proprietary tool that contributed positively to the sustainability score of the Fund were:

- Avoided Emissions: the estimated environmental benefits of companies that enable system-or economy-wide reductions in carbon emissions;

## Appendix III – Sustainable Finance Disclosure (Unaudited) (cont)

- Carbon Emissions Scope 1: the estimated environmental costs of Scope 1 greenhouse gas (GHG) emissions on climate change. Scope 1 emissions represent the direct emissions within a company's organisational boundary;
- Contraception: the estimated societal benefits attained from the production and supply of contraceptives. Assigned in proportion to company market share of global revenue; and
- Higher Salaries: the estimated societal benefit of companies over-paying staff relative to local living wages (for regions in which they operate). Assigned in proportion to the surplus companies are paying employees compared to the average living wage;
- Tobacco: the estimated societal cost of smoking (assigned to tobacco producers). Assigned in proportion to company market share of global revenue.

Tobacco and Carbon Emissions Scope 1 are societal and environmental costs respectively (and therefore were scored negatively) yet contributed positively to the sustainability score of the Fund because they represent short positions, and short positions with negative scores contribute positively towards the aggregate sustainability score of the Fund.

The Investment Manager monitored compliance with the characteristic to maintain a positive absolute sustainability score by reference to the weighted average sustainability score of the Fund in Schroders' proprietary tool over a rolling six month period up to the end of the reference period, based on month-end data. The overall sustainability score aggregates the effect of sustainability indicators including but not limited to greenhouse gas emissions, water usage, and salaries compared to the living wage.

The Fund committed to invest at least 35% of its long exposure in sustainable investments by reference to the sustainability score of each asset in Schroders' proprietary tool and in line with this commitment the Fund invested 55% of its long exposure in sustainable investments (which are all long positions, as short positions are not deemed to be sustainable investments) during the reference period, based on quarter-end data.

The Investment Manager monitored compliance with the characteristic to invest at least 35% of its long exposure in sustainable investments by reference to the sustainability score of each asset in Schroders' proprietary tool.

For additional context, during the reference period and based on quarter-end data, the Investment Manager invested 28% of the Fund's gross exposure in sustainable investments. This represents the percentage of sustainable investments as a proportion of the gross exposure of the Fund. The gross exposure includes both long and short positions and this figure is provided for consistency with the basis of the calculations in the asset allocation section below.

The Fund also applied certain exclusions, with which the Investment Manager monitored compliance on an ongoing basis via its portfolio compliance framework.

### • *...and compared to previous periods?*

# Appendix III – Sustainable Finance Disclosure (Unaudited) (cont)

## Sustainable investments

*This table details the percentage of assets invested in sustainable investments, year on year.*

Period	Fund % (Gross)	Fund % (Long)
Oct 2022 - Sep 2023	28	55
Oct 2021 - Sep 2022	26	52

## Sustainability score

*This table details the Fund's sustainability score, year on year*

Period	Fund (%)
Oct 2022 - Sep 2023	9.8
Oct 2021 - Sep 2022	8.8

For 2022 the percentage of sustainable investments was calculated as at the end of the reference period. For 2023 the percentage is calculated as an average based on quarter-end data.

### • ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

In respect of the proportion of the Fund's long portfolio that was invested in sustainable investments, each sustainable investment demonstrated a net positive effect across a range of environmental or social objectives, as scored by Schroders' proprietary tool. The objectives of the sustainable investments that the Fund made included, but were not limited to increasing benefits by way of the following:

- Avoided emissions: the estimated environmental benefits of companies that enable system-or economy-wide reductions in carbon emissions.
- Connectivity: the estimated societal benefits from companies that enable and/or support the connection of communities through telecommunication services. Assigned in proportion to the estimated global benefit of access to global communication technologies and attributing that benefit to individual companies based on their share of global revenues from telecommunication and internet connectivity markets, including social media companies;
- Contraception: the estimated societal benefits attained from the production and supply of contraceptives. Assigned in proportion to company market share of global revenue;
- Higher Salaries: the estimated societal benefit of companies over-paying staff relative to local living wages (for regions in which they operate). Assigned in proportion to the surplus companies are paying employees compared to the average living wage; and
- Medicine: the estimated societal benefits arising from the additional social value the sale of such products and services exhibits of the wider economy. Assigned in proportion to the company's involvement in the healthcare value chain and proportion of company market share to global sub-sector revenue.

# Appendix III – Sustainable Finance Disclosure (Unaudited) (cont)

The above examples of the objectives of the sustainable investments that the Fund made during the reference period, are based on the most common objectives at each quarter-end. Other objectives may have applied during the reference period.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

## • *How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?*

The Investment Manager's approach to not causing significant harm to any environmental or social sustainable investment objective included the following:

- Firm-wide exclusions applied to Schroders funds. These relate to international conventions on cluster munitions, anti-personnel mines, and chemical and biological weapons. A detailed list of all companies that are excluded is available at <https://www.schroders.com/en/sustainability/active-ownership/group-exclusions/>
- Schroders became a signatory to the UN Global Compact (UNGC) principles on 6 January 2020. The Fund excluded companies in violation of the UNGC principles from the portion of the portfolio in sustainable investments, as Schroders considers violators cause significant harm to one or more environmental or social sustainable investment objectives. The areas determining whether an issuer is an UNGC violator include issues that are covered by the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, such as human rights, bribery and corruption, labour rights, child labour, discrimination, health and safety, and collective bargaining. The list of UNGC violators is provided by a third party and compliance with the list was monitored via our automated compliance controls.
- Where relevant, although not applied at the Fund level, at the underlying strategy level, companies that derived revenues above certain thresholds from activities related thermal coal, thermal coal mining and coal fired power generation were excluded from long exposure.

Further information on all of the Fund's exclusions is to be found under "Sustainability-related disclosures" on the Fund's webpage, accessed via <https://www.schroders.com/en-lu/lu/professional/fund-centre>.

## *How were the indicators for adverse impacts on sustainability factors taken into account?*

Where the Investment Manager set levels in relation to the indicators for adverse impacts on sustainability factors, compliance with these thresholds was monitored on an ongoing basis via its portfolio compliance framework. Investee companies in breach of these levels were not eligible to be considered as a sustainable investment.

For example, the Fund excluded companies in violation of the UNGC principles (principal adverse impact (PAI) 10) from the portion of the portfolio in sustainable investments. The list of UNGC violators is provided by a third party and compliance with the list was monitored via our automated compliance controls.

In addition where relevant, although not applied at the Fund level, at the underlying strategy level companies that were deemed to contribute significantly to climate change (related to PAIs 1, 2 and 3 covering GHG emissions) were excluded from long exposure. The thresholds that were applied were companies deriving >10% revenue from thermal coal mining and >30% revenue from coal power generation. The Fund may have applied stricter thresholds, as disclosed on the website. Compliance with these exclusions was monitored via our automated compliance controls.

## Appendix III – Sustainable Finance Disclosure (Unaudited) (cont)

In other areas Schroders (including indirectly via managers of underlying strategies) set principles of engagement. We have aligned each of the PAIs to one of Schroders six core engagement themes. We summarise below the thresholds that apply and the engagement actions we have for each:

### Climate Change:

PAIs 1, 2, 3, 4, 5, 6 and PAI 4 in Table 2 relate to the Engagement Blueprint theme of Climate Change. Details of our Engagement Blueprint can be found here: ([Link https://mybrand.schroders.com/m/3222ea4ed44a1f2c/original/schroders-engagement-blueprint.pdf](https://mybrand.schroders.com/m/3222ea4ed44a1f2c/original/schroders-engagement-blueprint.pdf)). We engage to understand how companies are responding to the challenges climate change may pose to their long-term financial position. Through our engagement activity we seek to understand different areas, such as the speed and scale of emission reduction targets and steps being taken to meet climate goals.

### Biodiversity and Natural Capital:

PAIs 7, 8 and 9 align to the Engagement Blueprint theme of Biodiversity and Natural Capital. We recognise the importance of all companies assessing and reporting on their exposure to natural capital and biodiversity risk. We focus our engagement on improving disclosure around a number of themes such as deforestation and sustainable food and water.

### Human Rights:

PAIs 10 and 14 relate to the Engagement Blueprint theme of Human Rights. There is increasing pressure on the role that businesses can and should play to respect human rights. We understand the higher operational and financial risks, and the reputational risk that human rights controversies cause. Our engagement focuses on three core stakeholders: workers, communities and customers.

### Human Capital Management:

PAIs 11, 12 and 13 are aligned to the Engagement Blueprint theme of Human Capital Management. We identify human capital management as a priority issue for engagement, noting that people in an organisation are a significant source of competitive advantage and that effective human capital management is essential to drive innovation and long-term value creation. We also recognise a number of links between high standards of human capital management and the achievement of the SDGs. Our engagement activities address themes such as health and safety, corporate culture and investment into the workforce.

### Diversity and Inclusion:

PAIs 12 and 13 relate to the Engagement Blueprint theme Diversity and Inclusion. Improving disclosure on board diversity and the gender pay gap are two of the priority objectives outlined in our Engagement Blueprint. We request that companies implement a policy that requires each board vacancy to consider at least one or more diverse candidates. Our engagement approach also addresses diversity of the executive management, the workforce and in the value chain.

### Corporate Governance:

PAIs 12, 13 and PAI 4 in Table 3 align to the Engagement Blueprint theme of Corporate Governance. We engage with companies to seek to ensure businesses act in the best interest of shareholders and other key stakeholders. We also recognise that, in most cases, in order to see progress and

## Appendix III – Sustainable Finance Disclosure (Unaudited) (cont)

performance on other material ESG issues, strong governance structures need to first be in place. We therefore engage on a number of corporate governance aspects such as executive remuneration, boards and management, and strategy.

### ***Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:***

The portion of the portfolio in sustainable investments were aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights.

We used a list of UNGC violators as provided by a third party. Issuers on that list were not categorised as sustainable investments. The areas considered when determining whether an issuer is an UNGC violator included those covered by the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, such as human rights, bribery and corruption, labour rights, child labour, discrimination, health and safety, and collective bargaining.

*The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

### **How did this financial product consider principal adverse impacts on sustainability factors?**

The Fund allocated its assets across multiple underlying strategies. Some PAIs were considered at the Fund level, whilst other PAIs were considered at the level of the underlying strategies by the relevant investment manager where applicable. Further details on how these have been considered during the reference period are detailed below.

Some PAIs were considered as part of pre-investment through the application of exclusions. These included:

- Controversial weapons: PAI 14 (Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)) – applied to long and short exposures
- UNGC Violators: PAI 10 (Violations of UN Global Compact principles and OECD Guidelines for Multinational Enterprises) – applied to Sustainable Investments
- Companies that derive revenues above certain thresholds from activities related to thermal coal: (PAI 4 (Exposure to companies active in the fossil fuel sector), PAI 5 (Share of non-renewable energy consumption and production)) – applied to long exposures at the relevant underlying strategies

Compliance with these thresholds was monitored via the Investment Manager’s portfolio compliance framework.

# Appendix III – Sustainable Finance Disclosure (Unaudited) (cont)

Other PAIs were considered via active ownership, which was performed indirectly via the underlying investment managers. Where applicable, based on the underlying strategies and the relevant investment manager's own investment process, PAIs were considered post-investment through engagement in line with the approach and expectations set out in Schroders Engagement Blueprint. Priority topics considered via our Engagement Blueprint include:

- Climate Change
- Natural Capital and Biodiversity
- Human Rights
- Human Capital Management
- Diversity and Inclusion
- Corporate Governance

Examples of PAIs captured via this approach included PAI 1 (GHG emissions), PAI 2 (Carbon footprint), PAI 3 (GHG intensity of investee companies) and PAI 13 (Board gender diversity).

A summary of the Fund's engagement activity during the reference period, including the relevant engagement theme, is shown below:

Engagement Theme	# Issuers
Climate Change	47
Diversity and Inclusion	38
Human Rights	17
Human Capital Management	16
Governance and Oversight	8
Natural Capital and Biodiversity	7

The engagements shown may include engagements assigned to short positions, cash, derivatives, collective investment schemes, debt and repos held by the Fund.

Our approach is subject to ongoing review, particularly as the availability, and quality, of PAI data evolves.

## What were the top investments of this financial product?

During the reference period the top 15 investments, based on net exposure (as a % of NAV), were:

# Appendix III – Sustainable Finance Disclosure (Unaudited) (cont)

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: **1 Oct 2022 to 30 Sep 2023**

Largest Investments	Sector	% Assets (Net)	Country
SAMSUNG ELECTRONICS CO LTD	Information Technology	1.87	Korea (South), Republic of
TAIWAN SEMICONDUCTOR MANUFACTURING CO LTD	Information Technology	1.69	Taiwan (Republic of China)
HDFC BANK LTD	Financials	1.59	India
RELX PLC	Industrials	1.54	United Kingdom
AIA GROUP LTD	Financials	1.33	Hong Kong
WHITBREAD PLC	Consumer Discretionary	1.31	United Kingdom
NOVA LJUBLJANSKA BANKA DD LJUBLJANA	Financials	1.23	Slovenia
CHINA PACIFIC INSURANCE GROUP CO LTD	Financials	1.23	China
CONTEMPORARY AMPEREX TECHNOLOGY CO LTD	Industrials	1.15	China
SHENZHOU INTERNATIONAL GROUP HOLDINGS LTD	Consumer Discretionary	1.15	China
WONIK IPS CO LTD	Information Technology	0.96	Korea (South), Republic of
MEDIATEK INC	Information Technology	0.93	Taiwan (Republic of China)
MIDEA GROUP CO LTD	Consumer Discretionary	0.93	China
NATIONAL BANK OF GREECE SA	Financials	0.89	Greece
SUMITOMO MITSUI FINANCIAL GROUP INC	Financials	0.88	Japan

The list above represents the average of the Fund's net exposure as a % of NAV at each quarter-end during the reference period.

Exposures have been provided on a look through basis for index futures, index options, total return swaps (TRS) positions and contract for difference (CFD) baskets where possible and netted at the issuer level. There may be instances where a proxy has been used.

The largest investments and % of NAV referred to above are derived from the Schroders Investment Book of Record (IBoR) data source. The largest investments and % of NAV detailed elsewhere in the Audited Annual Report are derived from the Accounting Book of Record (ABoR) maintained by the administrator. As a result of these differing data sources, there may be differences in the largest investments and % of NAV due to the differing calculation methodologies of these alternative data sources.

## What was the proportion of sustainability-related investments?

**Asset allocation** describes the share of investments in specific assets.

### • What was the asset allocation?

The Fund's investments that were used to meet its environmental or social characteristics are summarised below.

#1 Aligned with E/S characteristics includes the Fund's assets that were used to attain the environmental or social characteristics, which is equal to 98% of gross exposure. The Fund maintained a positive absolute sustainability score, and so the Fund's investments (both long and short) that were scored by Schroders' proprietary sustainability tool are included within #1 on the basis that they contributed to the Fund's sustainability score (whether such individual investment had a positive or

## Appendix III – Sustainable Finance Disclosure (Unaudited) (cont)

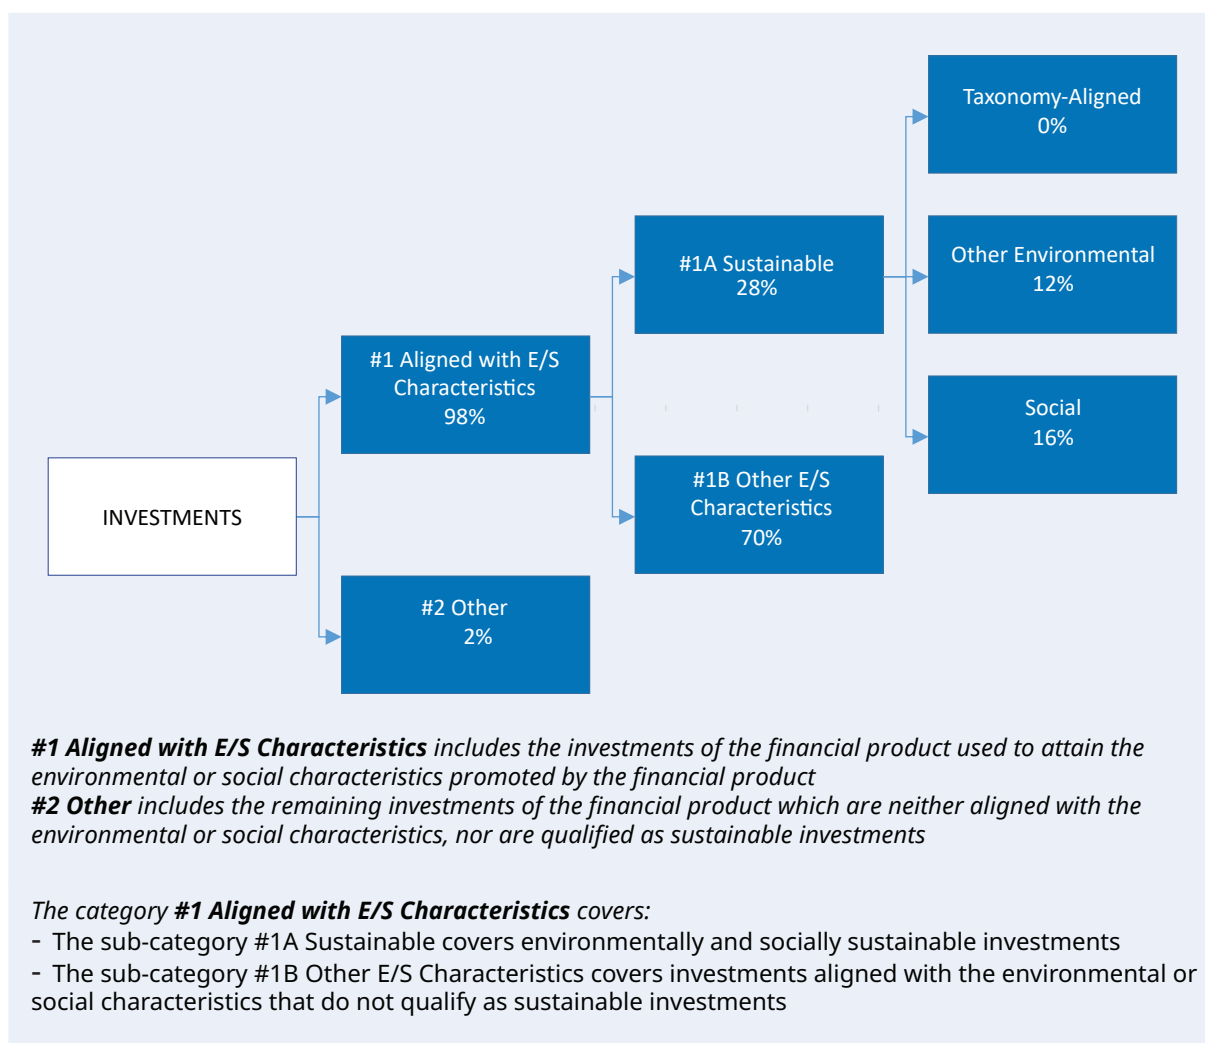

a negative score). Long positions with positive scores and short positions with negative scores both contributed positively towards the aggregate score, while long positions with negative scores and short positions with positive scores both detracted from the aggregate score. The percentage in #1 Aligned E/S characteristics represents the average during the reference period, based on quarter-end data. Also included within #1 is the proportion of gross exposure that was invested in sustainable investments, as indicated in #1A.

The sustainability score is measured by Schroders' proprietary tool that provides an estimate of the net "impact" that an issuer may create in terms of social and environmental "costs" or "benefits". It does this by using certain indicators with respect to that issuer, and quantifying them positively and negatively to produce an aggregate notional measure of the effect that the relevant underlying issuer may have on society and the environment. Examples of such indicators are greenhouse gas emissions, water usage, and salaries compared to the living wage.

During the reference period, the Fund invested 28% of its gross exposure in sustainable investments. This percentage represents the average during the reference period, based on quarter-end data. The gross exposure includes both long and short positions but the percentage only includes long positions as short positions are not deemed to be sustainable investments. Within this, 12% was invested in sustainable investments with an environmental objective and 16% was invested in sustainable investments with a social objective. However, the Fund committed to invest at least 35% of its long positions in sustainable investments. During the reference period the Fund invested 55% of its long exposure in sustainable investments. Within this, 24% was invested in sustainable investments with an environmental objective and 31% was invested in sustainable investments with a social objective. The percentage of sustainable investments with an environmental objective and the percentage of sustainable investments with a social objective may not sum to the percentage of sustainable investments, due to rounding. In respect of the proportion of the Fund's portfolio that was invested in sustainable investments, each sustainable investment demonstrated a net positive effect across a range of environmental or social objectives, as scored by Schroders' proprietary tool. With the exception of any green or social bonds, which will be classified as having an environmental and social objective respectively, a sustainable investment is classified as having an environmental or social objective depending on whether the relevant issuer has a higher score in Schroders' proprietary tool relative to its applicable peer group for its environmental indicators or its social indicators. In each case, indicators are comprised of both "costs" and "benefits".

#2 Other includes cash, cash equivalents and options, which were treated as neutral for sustainability purposes. #2 also includes investments that were not scored by Schroders' proprietary sustainability tool and so did not contribute towards the Fund's sustainability score.

## Appendix III – Sustainable Finance Disclosure (Unaudited) (cont)

The percentages shown above are calculated as a proportion of gross exposure for consistency purposes. However, the Fund committed to invest at least 35% of its long exposure in sustainable investments and during the reference period the Fund invested 55% of its long positions in sustainable investments.

Exposures have been provided on a look through basis for index futures, index options, TRS positions and CFD baskets where possible and netted at the issuer level. There may be instances where a proxy has been used. This netting was applied before determining whether an exposure was long or short, and before calculating the gross exposure.

### • In which economic sectors were the investments made?

During the reference period investments were made in the following economic sectors, based on gross and net exposure (as a % of NAV):

## Appendix III – Sustainable Finance Disclosure (Unaudited) (cont)

Sector	Sub-Sector	% Assets (Net)	% Assets (Gross)
Communication Services	Media & Entertainment	2.53	13.73
Communication Services	Telecommunication Services	-0.18	7.41
Consumer Discretionary	Automobiles & Components	-1.26	9.60
Consumer Discretionary	Consumer Discretionary Distribution & Retail	0.02	13.55
Consumer Discretionary	Consumer Durables & Apparel	3.40	15.33
Consumer Discretionary	Consumer Services	1.67	13.99
Consumer Staples	Consumer Staples Distribution & Retail	-1.17	6.99
Consumer Staples	Food, Beverage & Tobacco	-0.83	13.02
Consumer Staples	Household & Personal Products	0.24	3.36
Energy	Energy	-1.79	10.94
Financials	Banks	0.23	35.16
Financials	Financial Services	-3.47	17.52
Financials	Insurance	2.12	12.98
Health Care	Health Care Equipment & Services	0.16	8.22
Health Care	Pharmaceuticals, Biotechnology & Life Sciences	0.34	12.82
Index	Index	-1.79	0.12
Industrials	Capital Goods	3.85	43.43
Industrials	Commercial and Professional Services	1.19	9.77
Industrials	Transportation	-3.83	9.60
Information Technology	Semiconductors & Semiconductor Equipment	2.99	13.96
Information Technology	Software & Services	1.15	13.16
Information Technology	Technology Hardware & Equipment	2.44	19.21
Interest Rate / Gov Related / Gov	Interest Rate / Gov Related / Gov	1.33	1.67
Materials	Materials	-3.15	27.98
Real Estate	Equity Real Estate Investment Trusts (REITs)	-1.79	12.59
Real Estate	Real Estate Management & Development	-0.24	7.98
Utilities	Utilities	-3.76	7.39

The list above is based on the average of the Fund's gross and net exposure as a % of NAV at each quarter end during the reference period.

Exposures have been provided on a look through basis for index futures, index options, TRS positions and CFD baskets where possible and netted at the issuer level. There may be instances where a proxy has been used.

The % of NAV aligned to economic sectors referred to above are derived from the Schroders Investment Book of Record (IBoR) data source. The % of NAV aligned to economic sectors detailed elsewhere in the Audited Annual Report are derived from the Accounting Book of Record (ABoR) maintained by the administrator. As a result of these differing data sources, there may be differences in the % of NAV aligned to economic sectors due to the differing calculation methodologies of these alternative data sources.

### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

There was no extent to which the Fund's investments (including transitional and enabling activities)

# Appendix III – Sustainable Finance Disclosure (Unaudited) (cont)

with an environmental objective were aligned with the Taxonomy. Taxonomy alignment of this Fund’s investments has therefore not been calculated and has as a result been deemed to constitute 0% of the Fund’s portfolio.

• **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?**

☐ Yes:

☐ In fossil gas

☐ In nuclear energy

☒ No

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

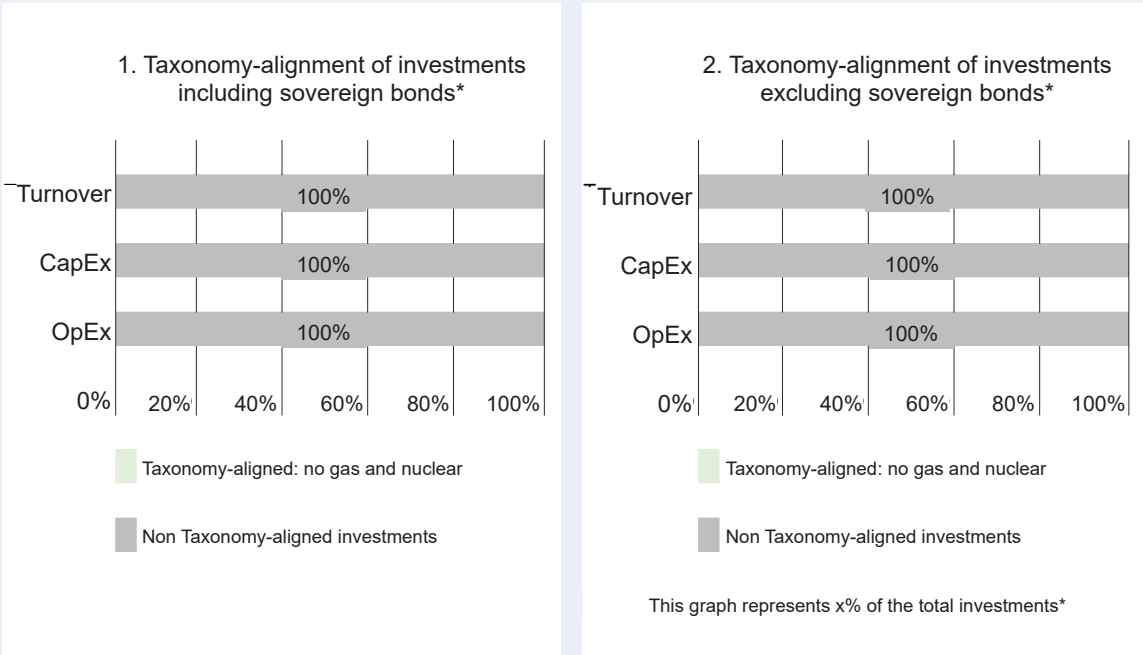

- **turnover** reflecting the share of revenue from green activities of investee companies

*The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.*

# Appendix III – Sustainable Finance Disclosure (Unaudited) (cont)

- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

*\*For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures*

<sup>2</sup>As there is no Taxonomy-alignment, there is no impact on the graph if sovereign bonds are excluded (i.e. the percentage of Taxonomy-aligned investments remains 0%) and the Management Company therefore believes that there is no need to mention this information.

**Enabling activities** directly enable otheractivities to make a substantial contribution to an environmental objective

**Transitional activities** are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

• **What was the share of investments made in transitional and enabling activities?**

As per the above, the share of investments by the Fund in transitional and enabling activities has been deemed to constitute 0% of the Fund’s portfolio.

# Appendix III – Sustainable Finance Disclosure (Unaudited) (cont)

## • How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

This question is not applicable.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

## What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

During the reference period and based on quarter-end data, the Fund invested 12% of its gross exposure in sustainable investments with an environmental objective that were not aligned with the Taxonomy. This percentage is provided for consistency with the basis of the calculations in the asset allocation section above. The Fund invested 24% of its long exposure in sustainable investments with an environmental objective that were not aligned with the Taxonomy.

## What was the share of socially sustainable investments?

During the reference period and based on quarter-end data, the Fund invested 16% of its gross exposure in sustainable investments with a social objective. This percentage is provided for consistency with the basis of the calculations in the asset allocation section above. The Fund invested 31% of its long exposure in sustainable investments with a social objective.

## What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

#2 Other includes cash, cash equivalents and options, which were treated as neutral for sustainability purposes. #2 also includes investments that were not scored by Schroders’ proprietary sustainability tool and so did not contribute towards the Fund’s sustainability score.

Minimum safeguards were applied where relevant to Money Market Instruments and options used with the aim of reducing risk (hedging) or other investments by restricting (as appropriate) investments in counterparties where there were ownership links or exposure to higher risk countries (for the purpose of money laundering, terrorist financing, bribery, corruption, tax evasion and sanctions risks). A firm-wide risk assessment considers the risk rating of each jurisdiction; which includes reference to a number of public statements, indices and world governance indicators issued by the UN, the European Union, the UK Government, the Financial Action Task Force and several Non-Government Organisations (NGOs), such as Transparency International and the Basel Committee.

In addition, new counterparties were reviewed by Schroders’ credit risk team and approval of a new counterparty was based on a holistic review of the various sources of information available, including, but not limited to, quality of management, ownership structure, location, regulatory and social environment to which each counterparty is subject, and the degree of development of the local banking system and its regulatory framework. Ongoing monitoring was performed through a Schroders’ proprietary tool, which supports the analysis of a counterparty’s management of environmental, social and governance trends and challenges.

# Appendix III – Sustainable Finance Disclosure (Unaudited) (cont)

Schroders' credit risk team monitored the counterparties and during the reference period to the extent counterparties were removed from the approved list for all funds in line with our policy and compliance requirements, such counterparties were ineligible for use by the Fund in respect of any relevant investments from the date they were removed.

## What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The actions taken during the reference period to meet the environmental and social characteristics promoted by the Fund were the following:

- The Investment Manager applied sustainability criteria when selecting investments for the Fund;
- The Investment Manager considered the sustainability score of the Fund when selecting the assets held by the Fund;
- The Investment Manager monitored the application of good governance by the underlying strategies of the Fund; and
- The Investment Manager (including indirectly via managers of underlying strategies) undertook engagements covering one or more of the six priority themes set out in our engagement blueprint (link <https://mybrand.schroders.com/m/3222ea4ed44a1f2c/original/schroders-engagement-blueprint.pdf>). A summary of the Fund's engagement activity, including the number of issuers engaged with and the related theme, is shown above in the question 'How did this financial product consider principal adverse impacts on sustainability factors?'. Through our engagement activities, we build relationships and have a two-way dialogue with our investee companies. We aim to drive change that protects and enhances the value of our investments.

## How did this financial product perform compared to the reference benchmark?

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

No index was designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund.

### • How did the reference benchmark differ from a broad market index?

This question is not applicable for this Fund.

### • How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

This question is not applicable for this Fund.

# Appendix III – Sustainable Finance Disclosure (Unaudited) (cont)

• ***How did this financial product perform compared with the reference benchmark?***

This question is not applicable for this Fund.

• ***How did this financial product perform compared with the broad market index?***

This question is not applicable for this Fund.
