Auditor	Ernst & Young Wirtschaftsprüfungsgesellschaft m.b.H.
Depository bank	Erste Group Bank AG

Dear Unit-holders,

We are pleased to present you the following annual report for the ERSTE GREEN INVEST jointly owned fund pursuant to the InvFG for the accounting year from 1 June 2025 to 31 May 2026.

Due to requirements under European law, the Fund Rules were amended relating to liquidity management for the Fund. In addition to the previously established option of suspending unit certificate transactions and/or segregating fund assets, the Management Company has additionally defined the following liquidity management tools for the protection of Unit-holders' interests: redemption restrictions and an extension of the redemption notice period.

The simultaneous application of selected liquidity management tools is permitted if required to protect Unit-holders' interests.

Development of the Fund

ERSTE GREEN INVEST is a theme fund focusing on companies engaging in business activities that are related to environmental and climate protection. The main fields here are energy, water, recycling, transformation, and adaptation to climate change. A primary consideration in investment decisions is a measurable impact on environmental or social issues. The exclusion criteria include nuclear energy, oil and gas, coal, green gene technology, animal testing, food speculation, child labour, armaments and weapons, tobacco, gambling, pornography and prostitution, and the violation of human and labour rights.

During the reporting period, global equity markets delivered positive performance overall, although the period was marked by high volatility, geopolitical tensions, and increasing divergence across regions and sectors. The USA in particular remained the key driver of global markets, supported by the ongoing boom in artificial intelligence (AI), while Europe faced structural challenges and China grappled with a weak domestic economy. At the same time, the importance of themes such as energy security, grid expansion, battery technology, and industrial transformation – all core focuses in the Fund's investment strategy – increased significantly.

After tariffs on most trading partners were suspended and the United States and China reached a temporary agreement to reduce tariffs, a broad-based market recovery took hold at the beginning of the reporting period, with several indices hitting new record highs as early as June. The US economy continued to be the dominant force shaping financial markets and proved to be more robust than had been expected by many economists despite high interest rates. Investments in data centres, semiconductors, cloud infrastructure, and AI applications fuelled strong earnings growth at major technology companies. Development in Europe was weaker with high energy costs, flagging export demand, and political uncertainty hampering industrial production and thus the equity markets, though they did post gains overall.

The reporting period was also marked by military conflicts. On 28 February 2026, the United States and Israel carried out joint air strikes on Iranian nuclear facilities, missile bases, and military installations. Iran responded with retaliatory strikes on US military bases in Qatar, the United Arab Emirates, and Bahrain, as well as by closing the Strait of Hormuz, a key shipping route for around 20% of global crude oil trade and approximately 25% of global LNG exports. The impact on energy markets was significant: the Brent crude oil price rose from around USD 71 per barrel on 27 February 2026 to more than USD 120 at times, an increase of over 55% within just a few weeks. Global equities initially reacted with price corrections, but then recovered significantly in April 2026. The S&P 500 rose by 10.4% in this month and posted new all-time highs with the strongest month-on-month advance since November 2020.

The defining theme of the reporting period was the global investment boom in AI infrastructure and the associated expansion of data centres, which resulted in a sharp rise in energy demand.

Speed is a crucial factor in data centre expansion – and solar and wind are still the energy sources that can be connected to the grid most rapidly. Renewable energy experienced a record year globally in 2025, with more than 500 GW of new capacity added worldwide, led by solar power. In addition, companies in the power transmission, grid expansion, grid modernisation, and energy storage segments are also profiting, with record orders and steeply rising revenue and earnings being reported in many cases. Sentiment improved markedly once it became clear that President Trump would not succeed in reversing the tax incentives for the cleantech sector introduced by his predecessor, and many of the Fund's holdings subsequently delivered above-average performance. Under these conditions, the Fund generated a performance of 49.11% (AT0000A2DY42) for the accounting year.

Within the Fund, we are continuing to focus strongly on the energy sector as demand should increase significantly here in the coming years due to new technologies such as artificial intelligence and electromobility. This strategy that was launched last year was continued in the reporting period, with the segments of renewable energy, energy efficiency, grid infrastructure, and energy storage in particular being expanded further. As a result, the strongest performance contributions came from the energy segment. Conversely, we reduced the weightings of the more defensive themes of water and recycling.

The Fund had an investment level of between 95% and 99.8% during the reporting period.

No exchange-traded equity index futures or options were used in the Fund in the reporting period, and no currency hedges were employed.

Further information on the Fund's sustainable investment objective can be found in the annex "Sustainability-Related Information" in this annual report.

Method of Calculating the Global Exposure

Method of calculating the global exposure:	Commitment approach
Reference assets used:	–
Value at risk:	–
Lowest value:	–
Average value:	–
Highest value:	–
Model used:	–
Leverage* when using the value-at-risk calculation method:	–
Leverage** according to § 4 of the 4 th Derivatives Risk Measurement and Reporting Regulation:	–

* Total nominal values of derivative instruments without taking into account offsetting and hedging (item 8.5. Schedule B InvFG 2011).

** Total derivative risk taking offsetting and hedging into account = total of the equivalent values of the underlying assets as a percentage of the fund assets.

Comparative Overview

Accounting year	Fund assets
2023/2024	537,560,905.86
2024/2025	406,362,986.68
2025/2026	551,736,113.78

General information about performance:

The performance of unit categories with no outstanding units at the end of the reporting period or no outstanding units during the reporting period is generally based on the dividend-adjusted performance of the overall fund. In these cases, the performance is not reported below.

When a unit category is issued during the reporting period, the performance and reinvestment are calculated from the point in time that the unit category is launched. Because of this and possible other fees and currency classes, the performance and reinvestment of this unit category differ from those of comparable unit categories.

The performance is determined assuming the reinvestment of all paid dividends and amounts at their nominal value on the day of disbursement.

Disbursement/Payment

The following disbursement or payment will be made for the accounting year from 1 June 2025 to 31 May 2026. The coupon-paying bank is obligated to withhold capital gains tax from this disbursement if the respective investor is not exempt from the payment of this tax.

The disbursement or payment will be effected on or after 1 September 2026 at

Erste Group Bank AG, Vienna,

and the respective bank managing the Unit-holder's securities account.

Income Statement and Changes in Fund Assets

1. Value Development over the Accounting Year (Fund Performance)

Calculation according to the OeKB method per unit in the unit currency not accounting for a front-end surcharge

The performance of unit categories with no outstanding units at the end of the reporting period or no outstanding units during the reporting period is generally based on the dividend-adjusted performance of the overall fund. In these cases, the “performance”, the “net earnings per unit”, and the “total value including (notional) units gained through disbursement/payment” are not reported in the following.

When a unit category is issued during the reporting period, the performance is calculated from the point in time that the unit category is launched. Because of this and possible other fees and currency classes, the performance of this unit category differs from that of comparable unit categories.

AT0000A2DY42 dividend-bearing units EUR	
Unit value at the beginning of the reporting period (513,331.476 units)	113.36
Disbursement/payment on 28.08.2025 (corresponds to roughly 0.0145 units at a calculated value of 123.86)	1.8000
Unit value at the end of the reporting period (450,603.324 units)	166.61
Total value including (notional) units gained through dividend disbursement/payment	169.03
Net earnings per unit	55.67
Value development of one unit in the period	49.11%

AT0000A2KVS3 dividend-bearing units EUR	
Unit value at the beginning of the reporting period (2,648.000 units)	91.77
Disbursement/payment on 28.08.2025 (corresponds to roughly 0.0180 units at a calculated value of 100.07)	1.8000
Unit value at the end of the reporting period (4,836.000 units)	135.17
Total value including (notional) units gained through dividend disbursement/payment	137.60
Net earnings per unit	45.83
Value development of one unit in the period	49.94%

AT0000A2KVV7 dividend-bearing units EUR	
Unit value at the beginning of the reporting period (282.157 units)	92.34

2. Fund Result

a. Realised fund result

Ordinary fund result

Income (without profit or loss from price changes)

Interest income (excluding income adjustment)	75,516.63	
Dividend income	3,303,015.81	
Other income 8)	0.00	
Total income (without profit or loss from price changes)		3,378,532.44

Interest paid - 20,108.42

Expenses

Fees paid to Investment Firm	- 6,416,716.90	
Costs for the financial auditor and tax consultation	- 11,964.00	
Publication costs	- 206,843.67	
Securities account fees	- 211,240.05	
Depository bank fees	- 513,338.34	
Costs for the external consultant	0.00	
Performance fee	-	
Fee foreign-currency unit certificates 9)	- 3,289.43	
Total expenses		- 7,363,392.39
Compensation for management costs from sub-funds 1)	0.00	

Ordinary fund result (excluding income adjustment) - 4,004,968.37

Realised profit or loss from price changes 2) 3)

Realised gains 4)	63,472,710.42	
Realised losses 5)	- 48,725,780.67	

Realised profit or loss from price changes (excluding income adjustment) 14,746,929.75

Realised fund result (excluding income adjustment) 10,741,961.38

b. Unrealised profit or loss from price changes 2) 3)

Changes in the unrealised profit or loss from price changes 7) 178,104,298.56

Result for the reporting period 6) 188,846,259.94

c. Income adjustment

Income adjustment for income in the period	- 425,396.74	
Income adjustment for profit carried forward from dividend-bearing units	0.00	

Overall fund result 188,420,863.20

3. Changes in Fund Assets

Fund assets at the beginning of the reporting period	406,362,986.68
Disbursement/payment in the accounting year	- 898,086.06
Issue and redemption of units	- 42,149,650.04
Overall fund result	
(The fund result is shown in detail under item 2.)	188,420,863.20
Fund assets at the end of the reporting period	551,736,113.78

- 1) Reimbursements (in the sense of commissions) paid by third parties are forwarded to the Fund after deduction of appropriate costs. Erste Group Bank AG receives 25% of the calculated commissions to cover administrative costs.
- 2) Realised profits and losses are not calculated precisely for the specific periods, which means that they, as is the case for the changes in the unrealised profit or loss, are not necessarily congruent with the changes in the value of the Fund in the accounting year.
- 3) Total profit or loss from price changes without income adjustment (realised profit or loss from price changes, without income adjustment, plus changes in the unrealised profit or loss): EUR 192,851,228.31.
- 4) Thereof profits from transactions with derivative instruments: EUR 0.00.
- 5) Thereof losses from transactions with derivative instruments: EUR 0.00.
- 6) The result for the accounting year includes explicitly reported transaction costs in the amount of EUR 322,891.72.
- 7) Thereof changes in unrealised gains EUR 109,822,758.05 and unrealised losses EUR 68,281,540.51.
- 8) The earnings reported under this item can be attributed to lending fees from securities lending transactions conducted with Erste Group Bank AG in the amount of EUR 0.00, to earnings from real estate funds in the amount of EUR 0.00, to other earnings in the amount of EUR 0.00, and to earnings from back-end commissions in the amount of EUR 0.00.
- 9) The Fund is charged a monthly fee per foreign-currency unit category for the management of the foreign-currency unit certificates.

Statement of Assets and Liabilities as of 31 May 2026

Value of KEST-exempt non-dividend-bearing unit	AT0000A3F8E1	EUR	130.10

The Fund is not permitted to engage in repurchase agreements pursuant to Regulation (EU) No. 2015/2365 (Regulation on Transparency of Securities Financing Transactions and of Reuse). For this reason, repurchase agreements were not employed.

No total return swaps pursuant to Regulation (EU) 2015/2365 (Regulation on Transparency of Securities Financing Transactions and of Reuse) were concluded for the Fund during the reporting period.

The Fund is not permitted to engage in securities lending agreements pursuant to Regulation (EU) No. 2015/2365 (Regulation on Transparency of Securities Financing Transactions and of Reuse). For this reason, securities lending agreements were not employed.

Explanation on disclosure pursuant to Delegated Regulation (EU) No. 2016/2251 supplementing Regulation (EU) No. 648/2012 of the European Parliament and of the Council on OTC derivatives, central counterparties, and trade repositories with regard to regulatory technical standards for risk-mitigation techniques for OTC derivative contracts not cleared by a central counterparty:

All OTC derivatives are traded through Erste Group Bank AG. For foreign currency futures contracts and foreign currency swap contracts that are not physically delivered, the collateral is swapped between the Fund and Erste Group Bank AG.

In the event of negative exposure to derivative futures contracts and foreign currency swap contracts that are not physically delivered, collateral in the form of cash or bonds is pledged to Erste Group Bank AG in accordance with the contractually agreed threshold.

In the event of positive exposure to derivative futures contracts and foreign currency swap contracts that are not physically delivered, EUR-denominated bonds from the national governments or central banks of the countries of the Eurozone are pledged by Erste Group Bank AG to the Fund in accordance with the contractually agreed threshold. A one-time discount of 4% is agreed with the counterparty for this collateral. In the event of regulatory requirements that stipulate a different discount or the provision of alternative collateral, these requirements are met.

Note: This document was signed with two qualified electronic signatures. A qualified electronic signature has the same legal effect as a hand-written signature (Article 25 of Regulation (EU) No 910/2014 (eIDAS Regulation)).

Remuneration Policy

Remuneration paid to employees of Erste Asset Management GmbH in EUR (2024 financial year of Erste Asset Management GmbH)

No investment success bonuses are paid, and no other amounts are paid directly from the investment funds.

Number of employees as of 31.12.2024	314
Number of risk bearers in 2024	156
Fixed remuneration	26,917,193
Variable remuneration (bonuses)	7,584,613
Total employee remuneration	34,501,806
Thereof remuneration for managing directors	1,405,266
Thereof remuneration for managerial risk bearers	4,234,825
Thereof remuneration for risk bearers with control functions*	2,069,780
Thereof remuneration for other risk bearers	11,214,702
Thereof remuneration for employees in the same income bracket as managers and risk bearers due to the amount of their total remuneration	0
Total remuneration for risk bearers	18,924,573

* Managers with control functions are reported in this group

Principles governing performance-based remuneration components

The Management Company has adopted remuneration principles to prevent possible conflicts of interest and to ensure compliance with the standard rules of conduct when awarding remuneration to relevant persons.

Fixed salary components make up a large enough share of the total remuneration of all employees of the Management Company that a variable remuneration policy can be applied on an individualised basis.

The total remuneration (fixed and variable components) is governed by the principle of balance and is linked to sustainability so that the acceptance of excessive risks is not rewarded. Therefore, the variable remuneration forms no more than a balanced portion of the total remuneration awarded to an employee.

The performance-based remuneration components serve the short-term and long-term interests of the Management Company and contribute to preventing risky behaviour. The performance-based remuneration components take into account individual performance as well as the profitability of the Management Company.

The size of the bonus pool is calculated based on the bonus potential that can be applied to the different employee categories. Bonus potential is a percentage of the fixed annual gross remuneration. The bonus potential can be no more than 100% of the fixed annual gross remuneration. The bonus pool is adjusted depending on the success of the Management Company. The personal bonus is linked to individual performance. The total of personal bonuses is limited by the size of the bonus pool after deduction of penalties.

The performance-based payments are capped at 100% of the annual gross remuneration for all employees, including the material risk bearers (according to the definition in the remuneration policy) and managing directors of the Management Company.

The remuneration system is made up of three components:

- 1) Fixed remuneration
- 2) Variable remuneration
- 3) Fringe benefits

The bonus potential is based on the fixed annual gross remuneration. The target agreements concluded with the employees contain qualitative and/or quantitative objectives. The payment of performance-based remuneration components is subject to a minimum profitability level for the Management Company and to performance targets.

Sixty per cent of the performance-based remuneration components are paid immediately; for employees who are involved directly in fund and portfolio management, 50% of this is paid immediately in cash and 50% is paid one year later in the form of non-cash instruments. The remaining 40% of the performance-based remuneration components are retained and paid out over a period of three years, with 50% of this also being paid in cash and 50% in the form of non-cash instruments for employees who are involved directly in fund and portfolio management. The non-cash instruments can consist of units in an investment fund that is administered by the Management Company, equivalent holdings or instruments linked to units, or equivalent non-cash instruments. Based on the principle of proportionality, the Management Company has set a materiality threshold below which there is no incentive to enter into inappropriate risks, for which reason there is no need to make delayed payment or payment in the form of a non-cash instrument. Other non-cash benefits are fringe benefits that are not associated with performance but with a specific position (e.g. company car) or that apply for all employees (e.g. holiday).

The Supervisory Board of the Management Company has set up a Remuneration Committee to ensure that the remuneration policy and its application are independently assessed. This committee consists of the following persons: Rudolf Sagmeister, Harald Gasser (remuneration expert), and Heinrich Hubert Reiner.

The complete remuneration policy of the Management Company can be viewed at http://www.erste-am.at/de/private_anleger/wer-sind-wir/investmentprozess.

The last audit of compliance with the requirements of the remuneration policy by the Supervisory Board in March 2025 revealed no deviations. There were also no material findings during the last audit by the Internal Auditing department.

No material changes were made to the remuneration policy during the past accounting year.

Audit Report*

Audit opinion

We have audited the annual report prepared by Erste Asset Management GmbH, Vienna, for the fund under its management

ERSTE GREEN INVEST
Jointly owned fund pursuant to the InvFG

consisting of the statement of assets and liabilities as of 31 May 2026, the income statement for the accounting year ending on this date, and the other information specified in Annex I Schedule B of the Austrian Investment Fund Act 2011 (InvFG 2011).

Based on the findings of our audit, we believe that the annual report satisfies the legal requirements and provides a true and fair view of the assets and financial position as of 31 May 2026 and of the earnings position of the fund for the accounting year ending on this date in accordance with the provisions of the InvFG 2011.

Basis for the audit opinion

We conducted our audit in accordance with § 49 (5) InvFG 2011 and in accordance with the Austrian principles of good auditing. These principles require the application of the International Standards on Auditing (ISA). Our responsibilities under these regulations and standards are described in the section “Responsibilities of the auditor in auditing the annual report” of our audit report. We are independent from the company as specified by the Austrian commercial and industry regulations and fulfilled our other professional obligations in accordance with these requirements. We feel that the audit evidence that we obtained up to the date of the audit report is sufficient and suitable to serve as a basis for our audit opinion as of that date.

Other information

The legal representatives are responsible for the other information. The other information includes all information in the annual report except for the statement of assets and liabilities, the income statement, the other information specified in Annex I Schedule B of the InvFG 2011, and the audit report.

Our audit opinion does not cover this other information, and we provide no assurance whatsoever for this other information.

In the context of our review of the annual report, we are responsible for reading this other information and assessing whether the other information contains material inconsistencies with the annual report or with the information gathered by us during our audit, or appears to contain other manners of material misstatements.

Should we come to the conclusion on the basis of the work completed with the other information received before the date of this audit report that this other information contains a material misstatement, we are required to report about this fact. We have nothing to report in this regard.

Management and supervisory board responsibilities relating to the annual report

The legal representatives are responsible for preparing the annual report and for ensuring that this report provides a true and fair view of the assets and financial and earnings position of the fund in accordance with the provisions of the InvFG 2011. The legal representatives are also responsible for implementing the internal controls that they deem necessary to facilitate the preparation of an annual report that is free from material misstatements due to error or fraud.

The supervisory board is responsible for the independent review of the financial reporting process of the company as regards the fund under its management in accordance with § 14 (3) InvFG.

Responsibilities of the auditor in auditing the annual report

Our goals are to ascertain with sufficient certainty whether the annual report contains material misstatements due to error or fraud and to issue an audit certificate that includes our audit opinion. Sufficient certainty is a high degree of certainty but no guarantee that an audit conducted in accordance with the Austrian standards on good auditing, which require the application of the ISA, will always discover material misstatements that may be present. Misstatements can result from fraud or errors and are considered to be material when it can be reasonably expected that individual misstatements or a combination of misstatements can influence economic decisions made by readers on the basis of this annual report.

As part of an audit conducted in accordance with the Austrian standards on good auditing, which require the application of the ISA, we exercise professional judgement and maintain professional scepticism during the entire audit process.

In addition:

- We identify and assess the risks of material misstatements in the annual report due to error or fraud, plan audit steps in response to these risks, perform the planned audit steps, and collect audit evidence that is sufficient and suitable to form a basis for our audit opinion. The risk that a material misstatement resulting from fraud will remain undiscovered is greater than for misstatements resulting from error because fraudulent activity can include collusion, the falsification of documents, intentional incomplete or misleading representations, and the circumvention of internal controls.
- We familiarise ourselves with the internal controls that are relevant for the audit to plan audit steps that are appropriate under the specific circumstances, but not so as to state an opinion on the effectiveness of the Company's internal controls.

- We assess the appropriateness of the accounting methods applied by the legal representatives and the reasonableness of the estimates made by the legal representatives in the accounts and of the associated information.
- We assess the overall presentation, the structure, and the content of the annual report including the figures as well as whether the annual report depicts the underlying transactions and events in a manner that provides a true and fair view.
- We discuss the planned scope and scheduling of the audit and any material audit findings, including material defects that we discover in the internal controls during our audit, with the supervisory board, among other issues.

To this end, the Management Company has defined three themes, and the target companies must be active in one or more of these areas to a predominant degree: Energy, water and recycling and responsible use of resources

1) Energy

The Fund invests in shares of companies offering environmentally sustainable solutions in the fields of renewable energy and mobility. Promoting and using renewable energy sources contributes to the reduction of greenhouse gas emissions. Public transport, alternative vehicle drive systems such as electricity and hydrogen, and autonomous driving reduce the need for fossil fuels for mobility and thus contribute to minimising the associated greenhouse gas emissions.

2) Water

The Fund invests in shares of companies offering environmentally sustainable water infrastructure solutions. The sustainable use of water is a prerequisite for environmentally intact water cycles and thus promotes a stable water supply for people and the economy. The responsible handling of wastewater also plays an important role in this.

3) Recycling and responsible resource use

The Fund invests in shares of companies offering environmentally sustainable solutions in the fields of recycling, resource management, and pollution avoidance. Transitioning to a circular economy is a prerequisite for sustainable growth. The sensible recycling of raw materials reduces the impact on the environment from waste and the extraction of (limited) raw materials. The reduction of hazardous emissions into the atmosphere and other biospheres contributes to the protection of intact environmental systems.

4) Transition

The Fund invests in shares of companies from traditional sectors of the economy that are in the process of strategically transitioning to environmentally sustainable solutions and future technologies. The greening of our economic systems requires a transition from traditional processes and activities that negatively impact the environment to ecologically sound, sustainable future technologies and solutions. This contributes to reducing greenhouse gases and other harmful effects on the environment.

5) Adaptation

The Fund invests in shares of companies that offer solutions for adapting to the inevitable effects of climate change.

Adapting to the inevitable effects of climate change can contribute to avoiding or reducing negative impacts on ecosystems, habitats, and economic areas in as sustainable a manner as possible.

To meet this objective, the Fund only invests in issues from companies that meet sustainable investment criteria and that have been categorised by the Management Company as environmentally and socially sustainable on the basis of a predefined screening process and that comply with the good corporate governance standards.

This is ensured by the application of the Management Company's ESG toolbox as part of the investment process.

The selection process provides, among other things, for investing in economic activities or assets that contribute to or promote one or more environmental objectives within the meaning of Art. 9 of the Taxonomy-Regulation. At the same time, the selection process does not exclude the possibility of promoting other environmental, social and corporate governance objectives with the investments underlying the investment fund than those currently provided for in the Taxonomy-Regulation.

The Taxonomy-Regulation (Art. 9) identifies environmentally sustainable activities based on their contribution to the following six environmental objectives:

- Climate change mitigation;
- Climate change adaptation;
- The sustainable use and protection of water and marine resources;
- The transition to a circular economy;
- Pollution prevention and control;
- The protection and restoration of biodiversity and ecosystems.

An economic activity is considered environmentally sustainable if it makes a significant contribution to one or more of the six environmental objectives, does not significantly compromise any of the

environmental objectives, and is carried out in compliance with the minimum safeguards set forth in Art. 18 of the Taxonomy-Regulation.

The investment fund contributes to the objectives mentioned in Art. 9 of the Taxonomy-Regulation.

Due to the insufficient data situation, it is currently not possible to make a more differentiated allocation of the contribution of the sustainable facility to the stated goals.

Compliance with the criteria for environmentally sustainable economic activities according to Art. 3 of the Taxonomy-Regulation is ensured by the investment processes outlined above and below.

In the past reporting period, sustainable investments were made with social objectives, among others. Their description is discussed above.

No derivatives have been used to meet the sustainable objectives.

If the disclosure of the companies in which investments are made does not readily indicate the extent to which the investments are made in environmentally sustainable business activities, data, if available, from ESG research partners is used.

Minimum criteria	Exclusion criteria	Norm-based Screening	ESG Risk Analysis	Best in Class						
✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓

The Management Company makes the investment decisions for this Fund on the basis of the investment universe defined through the screening process.

No benchmark has been designated for the purpose of attaining the sustainable investment objective.

The Fund has the objective of reducing carbon emissions.

There is no reference benchmark that qualifies as an EU Climate Transition Benchmark or an EU Paris-aligned Benchmark under the Regulation (EU) 2016/1011.

The reduction of carbon emissions is achieved through the investment process described above. In this, the methodological requirements of the Regulation (EU) 2020/1818 for the design of EU Climate Transition Benchmarks and EU Paris-aligned Benchmarks are applied analogously in the management of the Fund without creating or applying such a reference benchmark:

1. The thematic focus areas of the fund contribute to the reduction of global CO₂ emissions through the corresponding solutions and products. In terms of the recitals and Art. 5 of the Regulation (EU) 2020/1818, particular reference is made to the effect of the invested companies on the reduction of Scope 3 Emissions: the economic activity of the invested companies continuously contributes to the reduction of global GHG Emissions. This orientation is monitored prior to the creation of the applicable investment universe and is a selection criterion for inclusion in the investable universe of the investment fund. The emission reductions achieved by the invested companies are collected annually.
2. Likewise, the CO₂ intensity of the invested companies is calculated at least annually by the Management Company. In accordance with Art. 9 of the Regulation (EU) 2020/1818, this is at least 30% lower than that of the global equity market.
3. The exclusion criteria defined by the management company meet the criteria of Art. 12 point 1 lit. a) to g) of the Regulation (EU) 2020/1818, in particular with regard to the exclusion of fossil energies as well as of companies that violate the UN Global Compact. Their strict examination by the Management

Company within the framework of the ESGenius analysis ensures that the requirements of Art. 12 point 2 of the Regulation (EU) 2020/1818 that no investment contradicts the sustainable objectives of the fund are met. In accordance with Art. 12 of the Regulation (EU) 2020/1818, all relevant exclusion criteria of the investment fund are available on the following website.

<https://www.erste-am.at/en/private-investors/sustainability/publications-and-guidelines>

The decisions thus taken shall be documented in accordance with the requirements of Art. 13 the Regulation (EU) 2020/1818 and the methods of fund management shall be made publicly available.

Sustainability

indicators measure how the sustainable objectives of this financial product are attained.

● **How did the sustainability indicators perform?**

The overall sustainability impact of the Fund is measured annually.

This focuses in particular on carbon emission reductions through the use of renewable energy and environmentally friendly forms of mobility, the contribution to the supply of clean water and renewable energy, and the recycling of materials.

The following indicators that reflect the topics covered by the Fund are calculated to depict the overall sustainability impact of the Fund:

The data presented is based on the latest available analysis as of 05/31/2026.

1. Energy, energy efficiency, and mobility

- Carbon emission savings through the new installation of renewable energy facilities during the reporting period, calculated over the useful life of the installed facilities

1,283 million tons

- Households supplied with renewable electricity

26.5 million

- Share of renewable energy in the energy mix of the power utilities in the Fund

100.0% (cf. 47.0% in the global energy mix)

- Carbon emission savings through the shift of freight transport from the road to rail

4.9 million tons CO₂e

2. Water

- Persons supplied with clean drinking water during the reporting period

13.90 million

3. Recycling, waste, and resource efficiency

- Waste prevented through recycling

34.0 million tons

The above indicators represent the environmental contributions and performance of the portfolio companies in the course of their normal business operations. They are not calculated proportionally based on the shares held by the Fund. The Fund participates in the environmental performance of the portfolio companies through its investments. No additionality is assumed, meaning the effect is not caused directly by the Fund's investment in the individual companies.

The indicators and the methods used to calculate them are subject to continuous refinement and may thus be adapted to the current state of the art between reporting dates.

The data were collected and analysed in cooperation with ESG Plus (a spin-off of WWF Austria).

ESGenius score:

The ESGenius score depicts the ESG risk profile and quality of the ESG management of the issuer. It provides a holistic view of the performance of the analysed issuer in terms of the sustainability focuses listed above.

The minimum score required for the Fund and the average score of the investments held by the Fund are both considered.

Indicator 1: Compliance with the minimum score required for the Fund expressed in per cent of the fund assets

100% of the fund assets comply with the Fund's exclusion criteria.

Indicator 2: Average score of the investments held by the Fund during the reporting period
81.00 of 100

Exclusion criteria:

Continuous compliance with the Fund's exclusion criteria is assessed. This verification is performed daily by the Management Company's Risk Management department.

Indicator: Compliance with the Fund's exclusion criteria

100% of the fund assets comply with the Fund's exclusion criteria.

Sustainable Development Goals:

The Management Company assesses and reports to what degree the investments held by the Fund contribute to the 17 United Nations Sustainable Development Goals (SDGs). The contributions to the individual goals and the positive and negative overall contribution to the SDGs are reported.

Indicator 1: Share of the fund assets that makes a positive contribution to each of the 17 SDGs during the reporting period

SDG	% fund volume
No Poverty #1	2.86
No Hunger #2	0.07
Good Health and Well Being #3	3.47
Quality Education #4	0.06
Gender Equality #5	0.00
Clean Water and Sanitation #6	3.91
Affordable and Clean Energy #7	40.02
Reducing Inequality #10	2.86
Sustainable Cities and Communities #11	4.56
Responsible Consumption and Production #12	6.98
Climate Action #13	40.49
Life Below Water #14	0.02
Life on Land #15	0.14
Peace, Justice and Strong Institutions #16	0.16

Indicator 2: Proportion of impacts/contributions to SDGs generated by the investment fund's investments that are positive in nature:

95.65 % of the generated impacts/contributions to SDGs are positive in nature during the reporting period

Indicator 3: Proportion of impacts to SDGs generated by the investment fund's investments that are negative in nature:

4.35 % of the generated impacts to SDGs are negative in nature during the reporting period

A comprehensive description of the indicators, the most important contributions to the SDGs broken down by issuer, and the methodology upon which the calculation is based can be viewed on the following website:

<https://www.erste-am.at/en/private-investors/sustainability/publications-and-guidelines/green-pledge/#sdg-report>

Carbon footprint:

The Management Company calculates the Fund’s carbon footprint based on the 12-month average of scope 1 + 2 greenhouse gas emissions.

Indicator: Carbon footprint

The carbon footprint of the Fund amounts to 157.19 tones per 1 million EURO sales (As of 05/31/2026)

A description of the indicators and the methodology upon which the calculation is based can be viewed on the following website:

<https://www.erste-am.at/en/private-investors/sustainability/responsible/#co2-footprint>

Water footprint:

The Management Company calculates the Fund’s water footprint annually based on securities held directly in the Fund. The footprint is calculated and reported separately based on the degree of water scarcity in the regions in which the issuers in which the Fund invests consume water.

The indicator is calculated as far as there is sufficient data in the calculation systems.

Indicator: Water footprint relative to the overall global market, broken down by regions with low, medium, and high water scarcity as of 05/31/2026 (Unit of measurement: water withdrawal in m3 / thousand USD sales)

	Volume
High Stress Region	582.80
Medium Stress Region	5,850.96
Low Stress Region	3,359.77

In case of subfunds, these factors are tracked based upon available look-through data. Tracking is only guaranteed for investment funds managed by the management company.

Apart from possible certification of the sustainability process, the sustainability indicators are neither confirmed by an auditor nor verified by third parties.

● **...and compared to previous periods?**

The above indicators performed as follows in the previous periods:

Energy, energy efficiency, and mobility

	25/26	24/25	23/24	22/23
CO2 savings through the installation of new renewable energy sources in millions of tons	1,283	719.25	678.3	504
Number of households supplied with electricity from renewable energy in millions	26.5	23	22	23
Share of renewables in the energy mix	100 %	100 %	100 %	100 %
Comparative figure: Share of renewables in the global energy mix	47 %	43 %	42 %	24 %
Saving CO2 by shifting the transport of goods in millions of tons	4.9	5.3	5.3	4.8

Water

	25/26	24/25	23/24	22/23
Number of people supplied with clean drinking water in millions	13.9	201.8	13.3	8

Recycling, waste, and resource efficiency

	25/26	24/25	23/24	22/23
Waste avoided through recycling in millions of tons	34.0	31.9	32.8	36.0

ESGenius-Score

	25/26	24/25	23/24	22/23
Compliance with the required minimum score	100.00 %	100.00 %	100.00 %	100.00 %
Average score of the investments (Unit: Score 0-100)	81.00	80.00	79.00	85.00

All reported ESGenius values from the accounting year end October 31, 2024, onwards were calculated based on the average of the end-of-month values during the reporting period. Before that, the values at the end of the reporting period were used.

Exclusion criteria

	25/26	24/25	23/24	22/23
Compliance with the exclusion criteria	100.00 %	100.00 %	100.00 %	100.00 %

Sustainable Development Goals - Share of the fund assets that makes a positive contribution

	25/26	24/25	23/24	22/23

Sustainable Development Goals - Proportion of impacts/contributions to SDGs generated by the investment fund's investments

	25/26	24/25	23/24	22/23
Proportion of impacts/contributions to SDGs generated by the investments that are positive in nature	95.65 %	95.33 %	95.08 %	93.76 %
Proportion of impacts to SDGs generated by the investments that are negative in nature	4.35 %	4.67 %	4.92 %	6.24 %

All reported Sustainable Development Goals from the accounting year end October 31, 2024, onwards were calculated based on the average of the end-of-month values during the reporting period. Before that, the values at the end of the reporting period were used.

Carbon footprint

	25/26	24/25	23/24	22/23
Carbon footprint	157.19	140.26	138.77	153.72

Units: tons per 1 million EURO sales

Water footprint

	25/26	24/25	23/24	22/23
High Stress Region	582.80	1,072.32	780.07	14.44
Medium Stress Region	5,850.96	8,816.68	6,743.59	390.33
Low Stress Region	3,359.77	5,956.19	4,348.21	31.74

Units: water withdrawal in m3 / thousand USD sales

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

● **How did the sustainable investments not cause significant harm to any sustainable investment objective?**

The sustainable investments, which comprise part of this financial product, do no significant harm to the environmental or social sustainable investment objectives because this financial product invests solely in issuers that have been qualified as sustainable by the Management Company based on the sustainable investment process described above. This categorisation sets forth that issuers may have no significant adverse impacts on environmental or social factors, as such a violation would preclude an investment based on the binding ESG characteristics of this investment process.

The sustainable investment process of the Fund ensures that no investments are made in issuers that would cause significant harm to the environmental or social sustainable investment objective.

In addition, security selection taking the ESGenius score into account results in issuers being preferred for the portfolio that have a lower risk of adverse impacts on the environmental and social objectives of the Fund, and that make a positive environmental and/or social contribution through their exemplary management of these risks.

All issuers in which the Fund invests are analysed and selected before acquisition on the basis of a predefined sustainability process. The proprietary ESGenius process provides a comprehensive ESG analysis of each issuer based on its specific ESG risk profile and the measures taken to mitigate these risks. Based on the results of this analysis, the ESGenius rating, only those issuers that achieve a score of at least 50 of 100 possible points are eligible for investment based on a best-in-class approach. This minimum score can be higher depending on the sector of the economy in which the issuer is active. All issuers are also evaluated for violations of the Fund's exclusion criteria. This excludes at least half of the analysed issuers from the eligible universe of the Fund.

In addition, alignment with the social and environmental investment objective is ensured through the application of exclusion criteria.

These can be viewed on the following website:

<https://www.erste-am.at/en/private-investors/sustainability/publications-and-guidelines>

The investment universe is assessed regularly for compliance with these criteria and updated as needed. Compliance with the eligible investment universe is verified daily. Securities from issuers that no longer meet the sustainability criteria of the Fund are sold while protecting the Unit-holder interests.

The Management Company also exercises an active ownership function. Through Commitment to Issuers and the Exercise of Voting Rights with issuers in the analysed investment universe, contributions are made to the improvement of the environmental and social performance of these companies.

The focus topics of the ESG analysis, selection process, and active ownership practices are adapted to the specific ESG risk profile of each issuer.

How were the indicators for adverse impacts on sustainability factors taken into account?

Consideration and reduction of key adverse impacts on sustainability factors ("Principle Adverse Impact - "PAI") was performed during the reporting period through the following procedures and methods:

- Application of social and/or environmental exclusion criteria.

These can be viewed on the following website:

<https://www.erste-am.at/en/exclusioncriteria>

- All issuers invested in the Fund are analysed and selected before acquisition using a predefined sustainability process.

During the reporting period, this led to a significant reduction in the principal adverse impacts on sustainability factors from the investments held by the Fund.

All PAIs from Table 1 of the RTS, that apply to the investment fund were taken into account. The investment fund also takes the following PAIs from Tables 2 and 3, Annex I of the RTS into account:

- Indicator 8 (Table 2) - Exposure to areas of high water stress (share of investments in investee companies with sites located in areas of high water stress without a water management policy)
- Indicator 14 (Table 3) - Number of identified cases of severe human rights issues and incidents (number of cases of severe human rights issues and incidents connected to investee companies on a weighted average basis)

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Sustainable investments are made by applying the exclusion criteria described above and taking into account the ESG analysis of issuers following the OECD Guidelines for Multinational Enterprises and the United Nations Guiding Principles on Business and Human Rights. Details on the relevant criteria are available on the following website:

<https://www.erste-am.at/en/exclusioncriteria>

The investment process described above was reviewed and adhered to throughout the reporting period.

How did this financial product consider principal adverse impacts on sustainability factors?

The investment strategy of this Fund takes into account the principal adverse impacts (PAI) on sustainability factors.

The process described here was complied with throughout the reporting period.

All climate and other environment-related indicators and indicators for social and employee, respect for human rights, anti-corruption, and anti-bribery matters as set forth in Annex I of the RTS are taken into account in principle. However, it must be noted that not every indicator is relevant for every investment made by the Fund. The investment process ensures that all environmental, social, and corporate governance criteria that are relevant for the assessment of the respective investment are taken into account in the assessment of that investment.

In addition to taking the above indicators into account, the investment process also employs the optional indicators from Tables 2 and 3 of Annex I to the RTS where sufficient data is available

The Management Company considers the avoidance of greenhouse gas emissions, the responsible use of water, and respecting human rights to be the most important PAI.

Fundamentally, the PAI are taken into account not using quantitative requirements, but through the structured inclusion of the respective criteria in the sustainability analysis that is part of the Fund's investment process.

The most important PAI of the Fund are taken into account through multiple elements of the investment process. The following table shows the key process elements where this occurs on the basis of the Management Company's ESG toolbox.

Erste Asset Management ESG-Toolbox – PAI Consideration

Principal Adverse Impacts (PAI)		Exclusion Criteria			ESG Analysis / Best in Class		Integration	Engagement	Voting	Themed Funds	Focused sustainability impact	Austrian ECO label / FNG label
		Minimum Criteria	Exclusions	Normbased Screening	ESG Risk Analysis	Best in Class						
Environment	Greenhouse gas emissions	✓	✓		✓	✓		✓	✓	✓	✓	not applicable
	Biodiversity	✓			✓	✓		✓	✓	✓	✓	
	Water				✓	✓		✓	✓	✓	✓	
	Waste		✓		✓	✓		✓	✓	✓	✓	
Social & employee matters	UN Global Compact		✓	✓	✓	✓		✓	✓			
	OECD Guidelines for Multinational Enterprise		✓	✓	✓	✓		✓	✓			
	Gender equality		✓	✓	✓	✓		✓	✓			
	Controversial weapons	✓										

In this, measures including the following are taken:

1. GHG emissions
2. Carbon footprint
3. GHG intensity of investee companies
4. Exposure to companies active in the fossil fuel sector
5. Share of non-renewable energy consumption and production
6. Energy consumption intensity per high impact climate sector
7. Activities negatively affecting biodiversity-sensitive areas
8. Emissions to water
9. Hazardous waste and radioactive waste ratio
10. Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises
11. Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises
12. Unadjusted gender pay gap
13. Board gender diversity
14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)

Quantitative PAI statement

Indicators applicable to investments in investee companies

Adverse sustainability indicator	Metric	Impact
----------------------------------	--------	--------

CLIMATE AND OTHER ENVIRONMENT-RELATED INDICATORS

Greenhouse gas emissions	1. GHG emissions	Scope 1 GHG emissions of investee companies expressed in tonnes of CO2 equivalent	14,876.24
--------------------------	------------------	---	-----------

	Scope 2 GHG emissions of investee companies expressed in tonnes of CO2 equivalent	6,281.8
	Scope 3 GHG emissions of investee companies expressed in tonnes of CO2 equivalent	209,878.35
	Total GHG emissions of investee companies expressed in tonnes of CO2 equivalent	231,036.4
2. Carbon footprint	Total GHG emissions expressed in tonnes of CO2 equivalent per million EUR invested	486.98
3. GHG intensity of investee companies	GHG emissions in tonnes per million EUR of revenue of investee companies	1,136.63
4. Exposure to companies active in the fossil fuel sector	Share of investments in companies active in the fossil fuel sector	2.27 %
5. Share of non-renewable energy consumption and production	Share of non-renewable energy consumption and non-renewable energy production of investee companies from non-renewable energy sources compared to renewable energy sources, expressed as a percentage of total energy sources	66.77 %
6. Energy consumption intensity per high impact climate sector	Energy consumption in GWh per million EUR of revenue of investee companies, per high impact climate sector	
	A - AGRICULTURE, FORESTRY AND FISHING	0
	B - MINING AND QUARRYING	0
	C - MANUFACTURING	0.36
	D - ELECTRICITY, GAS, STEAM AND AIR CONDITIONING SUPPLY	0.87
	E - WATER SUPPLY; SEWERAGE, WASTE MANAGEMENT AND REMEDIATION ACTIVITIES	0.5
	F - CONSTRUCTION	0.22
	G - WHOLESALE AND RETAIL TRADE; REPAIR OF MOTOR VEHICLES AND MOTORCYCLES	0.07
	H - TRANSPORTATION AND STORAGE	1.8
	L - REAL ESTATE ACTIVITIES	0

Biodiversity	7. Activities negatively affecting biodiversity-sensitive areas	Share of investments in investee companies with sites/operations located in or near to biodiversity-sensitive areas where activities of those investee companies negatively affect those areas	13.48 %
Water	8. Emissions to water	Tonnes of emissions to water generated by investee companies per million EUR invested	0
Waste	9. Hazardous waste ratio	Tonnes of hazardous waste generated by investee companies per million EUR invested	1.26

INDICATORS FOR SOCIAL AND EMPLOYEE, RESPECT FOR HUMAN RIGHTS, ANTI-CORRUPTION AND ANTI-BRIBERY MATTERS

Social and employee matters	10. Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	Share of investments in investee companies that have been involved in violations of the UNGC principles or OECD Guidelines for Multinational Enterprises	0 %
	11. Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises	Share of investments in investee companies without policies to monitor compliance with the UNGC principles or OECD Guidelines for Multinational Enterprises or grievance /complaints handling mechanisms to address violations of the UNGC principles or OECD Guidelines for Multinational Enterprises	0 %
	12. Unadjusted gender pay gap between female and male employees	Average gender pay gap between female and male employees of investee companies	12.65 %
	13. Management and supervisory board gender diversity	Average ratio of female to male management and supervisory board members in investee companies, expressed as a percentage of all board members	36.34 %
	14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)	Share of investments in investee companies involved in the manufacture or selling of controversial weapons	0 %
Additional Indicators	1. Exposure to areas of high water stress	Share of investments in investee companies with sites located in areas of high water stress without a water management policy	38.59 %
	2. Number of identified cases of severe human rights issues and incidents	Number of cases of severe human rights issues and incidents connected to investee companies on a weighted average basis	0 number of cases

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 01.06.2025 - 31.05.2026

Asset allocation describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

● What was the asset allocation?

During the reporting period, the Fund invested 98.19 % of the fund assets in sustainable investments in accordance with Art 2 no 17 of the Disclosure Regulation.

Environmentally sustainable investments were made to the extent of 98.19 %.

Of this, 39.20 % were environmentally sustainable investments in accordance with the Taxonomy-Regulation.

Other environmentally sustainable investments comprised 58.99 % of the fund assets.

98.19 % of the fund assets fulfil the characteristics of socially sustainable investments.

Non-sustainable investments accounted for 1.81 %.

All investments must confirm with this sustainability approach at the time of purchase, and thus qualify as sustainable in the sense of the Disclosure Regulation. In the event that an investment is identified as no longer qualifying as sustainable during the regular update of the ESG analysis, it must be sold while protecting the interests of Unit-holders.

Apart from a possible certification of the sustainability process, compliance with the requirements for environmentally sustainable business activities set out in Art. 3 of the Taxonomy-Regulation is neither confirmed by an auditor nor verified by third parties.

The level of investment in environmentally sustainable business activities is measured in terms of sales revenue based on available data. This allows for better comparability (also for investors) with other indicators to show sustainability. The management company currently receives this data from third parties (research providers).

The asset allocation in previous periods was as follows:

	25/26	24/25	23/24	22/23
Sustainable investments within the meaning of Article 2(17) of the Disclosure Regulation	98.19 %	98.46 %	98.51 %	96.72 %
Environmental sustainable investments	98.19 %	98.46 %	98.51 %	96.72 %
Sustainable investments within the meaning of the Taxonomy Regulation	39.20 %	33.02 %	38.30 %	37.14 %
Other environmental sustainable investments	58.99 %	65.43 %	60.21 %	59.58 %
Socially sustainable investments	98.19 %	98.46 %	98.51 %	96.72 %
Other investments	1.81 %	1.54 %	1.49 %	3.28 %

● ***In which economic sectors were the investments made?***

<i>Economic sectors</i>	<i>% Share</i>
C - MANUFACTURING	51.84
D - ELECTRICITY, GAS, STEAM AND AIR CONDITIONING SUPPLY	14.18
M - PROFESSIONAL, SCIENTIFIC AND TECHNICAL ACTIVITIES	13.44
F - CONSTRUCTION	5.83
G - WHOLESALE AND RETAIL TRADE; REPAIR OF MOTOR VEHICLES AND MOTORCYCLES	4.50
E - WATER SUPPLY; SEWERAGE, WASTE MANAGEMENT AND REMEDIATION ACTIVITIES	3.99
L - REAL ESTATE ACTIVITIES	2.79
K - FINANCIAL AND INSURANCE ACTIVITIES	1.82

H - TRANSPORTATION AND STORAGE	0.96
N - ADMINISTRATIVE AND SUPPORT SERVICE ACTIVITIES	0.59
S - OTHER SERVICE ACTIVITIES	0.07
J - INFORMATION AND COMMUNICATION	0.01

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

☐ Yes ☐ In fossil gas ☐ In nuclear energy

☒ No

Sales from fossil gas and/or nuclear energy are not included in the taxonomy report. Only after the completion of the corresponding calculation methods by the European legislator and the complete availability of data, the disclosure of a possible share can be made.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Due to the insufficient data situation, it is currently not possible to make a more differentiated allocation of the contribution of the sustainable facility to the stated goals.

Where the disclosure of the companies invested in does not readily indicate the extent to which the investments are in environmentally sustainable business activities, data, where available, from ESG Research Partners is used.

● **What was the share of investments made in transitional and enabling activities?**

No data available.

● **How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?**

The proportion of taxonomy-compliant investments in previous periods was as follows:

	25/26	24/25	23/24	22/23
Taxonomy-alignment of investments including sovereign bonds	39.20 %	33.02 %	38.30 %	37.14 %
Taxonomy alignment of investments excluding sovereign bonds	39.20 %	32.57 %	38.30 %	37.14 %

Apart from a possible certification of the sustainability process, compliance with the requirements for environmentally sustainable business activities set out in Art 3 of the Taxonomy-Regulation is neither confirmed by an auditor nor verified by third parties.

The level of investment in environmentally sustainable business activities is measured in terms of sales revenue based on available data. This allows for better comparability (also for investors) with other indicators to show sustainability. The management company currently receives this data from third parties (research providers).

What was the share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy?

Other environmentally sustainable investments comprised 58.99 % of the fund assets.

The Taxonomy-Regulation currently only takes into account ecologically sustainable products and services from environmental technologies that are offered commercially. Ecologically sustainable business activities in the production of goods of other economic sectors are not referenced.

The management company believes that any action should also be evaluated according to its positive or negative contribution, and that such positive contributions are essential in the transition to a climate-friendly and/or environmentally sustainable economy. The investment process of this investment fund analyzes the ecologically sustainable business conduct of all invested companies and selects those companies where an ecologically responsible economic activity is recognized, also outside of pure environmental technologies as defined by the Taxonomy-Regulation. These investments had to comply with this sustainability approach at the time of acquisition and can therefore be classified as ecologically sustainable within the meaning of the Disclosure Regulation, irrespective of their categorization as ecologically sustainable economic activities within the meaning of the Taxonomy-Regulation.

What was the share of socially sustainable investments?

98.19 % of the fund assets qualify as socially sustainable investments.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

are sustainable investments with an environmental objective that **do not take into account** the criteria for environmentally sustainable economic activities under the EU Taxonomy.

What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?

Item #2 includes demand deposits, time deposits and derivatives. Demand deposits and time deposits refer to cash held as additional liquidity. Derivatives held by the investment fund are used for hedging purposes, liquidity management and as part of the investment strategy.

The achievement of the sustainable investment objective is not permanently impaired by these investments falling under item #2 and their use because these assets are currently considered either neutral from an environmental and social perspective or sustainability standards have been applied to ensure minimum social and environmental protection.

All other investments held in the Fund (# Item 1) must be qualified by the Management Company as sustainable on the basis of the predefined screening process at the time of acquisition. The application of social and environmental exclusion criteria and the proprietary ESG analysis along with the Best-In-Class approach that is based on this analysis afford a minimum degree of comprehensive basic environmental and social protection for the entire Fund.

What actions have been taken to attain the sustainable investment objective during the reference period?

The investment process described above was applied in full. The ESG criteria were complied with continuously in terms of the environmental, social, and ethical exclusion criteria as well as the ESG analysis conducted via the Management Company's proprietary EGenius model. This was ensured by the quarterly review and update of the investable universe by the responsible Responsible Investments team as well as a daily review of the investment fund by Risk Management.

The Fund is subject to the engagement policy that the Management Company has defined in accordance with Article 3g of Regulation (EU) 2007/36. This sets forth extensive focuses on environmental and social topics.

The complete engagement policy can be found on the Management Company's website:
https://cdn0.erstegroup.com/content/dam/at/eam/common/files/ESG/stewardship-policy/Stewardship_Policy_EN.pdf

All engagement activities undertaken by the Management Company are presented in the annual engagement reports.

These can be viewed on the following website:
<https://www.erste-am.at/en/private-investors/sustainability/publications-and-guidelines#/active-ownership>

The management company exercises its rights as a shareholder in accordance with its voting policy. This policy and the detailed voting behavior of the management company for the past calendar year are available on the following website:
https://cdn0.erstegroup.com/content/dam/at/eam/common/files/ESG/VotingPolicy/EAM_Voting_Policy_EN.pdf

How did this financial product perform compared to the reference sustainable benchmark?

No index has been designated as a reference benchmark for the purpose of attaining the sustainable investment objective.

- **How did the reference benchmark differ from a broad market index?**
 Not applicable

Reference benchmarks are indexes to measure whether the financial product attains the sustainable objective.

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the sustainable investment objective?***

Not applicable

- ***How did this financial product perform compared with the reference benchmark?***

Not applicable

- ***How did this financial product perform compared with the broad market index?***

Not applicable

Fund Rules

ERSTE GREEN INVEST

The Fund Rules for **ERSTE GREEN INVEST**, jointly owned fund pursuant to the **Austrian Investment Fund Act (Investmentfondsgesetz; InvFG) 2011 as amended**, were approved by the Austrian Financial Market Authority (FMA).

The Fund is an undertaking for collective investment in transferable securities (UCITS) and is managed by Erste Asset Management GmbH (the “Management Company” in the following), which has its registered office in Vienna.

Article 1 Fund Units

The joint ownership of the fund assets is evidenced by certificates having the characteristics of a bearer unit.

The unit certificates are depicted in separate global certificates for each unit category. For this reason, individual unit certificates cannot be issued.

Article 2 Depositary Bank (Depositary)

The depositary bank (depositary) appointed for the Fund is Erste Group Bank AG, Vienna.

The payment offices for unit certificates are the depositary bank (depositary) and any other payment offices named in the prospectus.

Article 3 Investment Instruments and Principles

The following assets may be selected for the Fund in accordance with the InvFG.

The Fund invests predominantly, in other words at least 51% of its assets, in stocks from companies that have been identified as providing a particular benefit to the environment on the basis of a predefined screening process and have thus been classified as sustainable. These investments are made in the form of directly purchased individual instruments, in other words not indirectly or directly through investment funds or through derivatives. The Management Company is not subject to any restrictions in the selection of the issuers with regard to the locations of their registered offices.

In total, this Fund invests at least 80% of its assets in investments used to meet environmental and/or social characteristics and/or sustainable investment objectives.

In addition, investments in companies that are listed in Article 12 (1) a to g of CDR (EU) 2020/1818 are excluded.

The fund assets are invested in the following instruments in accordance with the investment focus described above.

The Fund may invest in units in investment funds with investment restrictions that deviate from those of the Fund in terms of the investment focus described above and the restrictions regarding investment instruments defined below. This will not impair compliance with the investment focus described above at any time.

a) Transferable securities

Transferable securities (including securities with embedded derivative financial instruments) comprise **at least 51%** of the fund assets.

b) Money market instruments

Money market instruments may comprise **up to 49%** of the fund assets.

c) Transferable securities and money market instruments

The Fund may purchase transferable securities and money market instruments that are not fully paid up as well as subscription rights for these types of instruments and other financial instruments that are not fully paid up amounting to a **maximum of 10%** of the fund assets.

Transferable securities and money market instruments may be purchased for the Fund when they meet the criteria regarding listing or trading on a regulated market or a securities exchange pursuant to the InvFG.

Transferable securities and money market instruments that do not meet the criteria described in the previous paragraph may comprise **up to 10%** of the fund assets **in total**.

d) Units in investment funds

Units in investment funds (UCITS, UCI) may comprise **up to 10%** of the fund assets per individual issue and may comprise **up to 10% in aggregate total**, provided that the target funds themselves (UCITS or UCI) **do not invest more than 10%** of their fund assets in units of other investment funds.

e) Derivative financial instruments

Derivative financial instruments can be used as part of the investment strategy and for hedging purposes, and may comprise **up to 35%** of the fund assets.

f) Risk measurement method(s) of the Fund

The Fund applies the following risk measurement method: **commitment approach**

The commitment value is determined according to § 3 of the 4th FMA Regulation on Risk Calculation and Reporting of Derivative Instruments (4. Derivate-Risikoberechnungs- und MeldeV) as amended.

g) Demand deposits or deposits with the right to be withdrawn

Demand deposits and deposits with the right to be withdrawn with a maximum term of 12 months may comprise **up to 49%** of the fund assets.

There are no minimum bank balance requirements.

However, in the course of the restructuring of the fund portfolio and/or in the case of the justified expectation of impending losses experienced by transferable securities, the Fund can hold a proportion of transferable securities as well as a proportion of investments used to meet environmental and/or social characteristics and/or sustainable investment objectives below the specified limit and a higher proportion of demand deposits or deposits with the right to be withdrawn with a maximum term of 12 months.

h) Acceptance of short-term loans

The Management Company may accept short-term loans for the account of the Fund **up to an amount of 10%** of the total fund assets.

i) Repurchase agreements

Does not apply.

j) Securities lending

Does not apply.

Investment instruments may only be purchased for the entire Fund and not for individual unit categories or groups of unit categories.

This does not apply to currency hedging transactions, however. Such transactions can also be concluded solely for a single unit category. Expenses and income resulting from currency hedging transactions shall be allocated solely to the respective unit category.

Article 3a Liquidity Management Measures

The Management Company has defined the following liquidity management measures for the protection of Unit-holders' interests: redemption restrictions and an extension of the redemption notice period. The simultaneous application of selected liquidity management measures is permitted if required to protect Unit-holders' interests.

A redemption restriction may be temporarily applied, taking market conditions and expected payment flows into consideration.

The Management Company may temporarily extend the redemption notice period. This does not impact the redemption frequency.

Article 4 Issue and Redemption Procedure

The unit value shall be calculated in the currency of the respective unit category.

The unit value is calculated at the same time as the issue and redemption price.

Issue of units and front-end surcharge

The issue price will be calculated and units issued on each Austrian exchange trading day with the exception of bank holidays.

The issue price shall be made up of the unit value plus a surcharge per unit amounting to **up to 5.00%** to cover the costs incurred by the Management Company in issuing the unit, rounded up to the next equivalent sub-unit of the currency unit specified for the respective unit category in the prospectus.

The Management Company shall be entitled to apply a sliding front-end surcharge scale at its own discretion.

There is no limit on the issue of units in principle. However, the Management Company reserves the right to temporarily or permanently suspend the issue of unit certificates.

Redemption of units and back-end commission

The redemption price will be calculated and units redeemed on each Austrian exchange trading day with the exception of bank holidays.

The redemption price is the unit value rounded down to the next equivalent sub-unit of the currency unit specified for the respective unit category in the prospectus. No back-end commission will be charged.

Upon request by the Unit-holder, his units shall be redeemed at the current redemption price in return for the unit certificate.

Article 5 Accounting Year

The accounting year of the Fund is from 1 June to 31 May.

Article 6 Unit Categories and Use of Earnings

The Fund features three different unit categories and the corresponding certificates: dividend-bearing units, non-dividend-bearing units with capital gains tax payment, and non-dividend-bearing units without capital gains tax payment, with certificates being issued for one unit each and also for fractional units.

Various unit categories may be issued for this Fund. The creation of unit categories and the issue of units of a specific category shall be decided at the discretion of the Management Company.

Use of earnings for dividend-bearing units

The earnings generated during the accounting year (interest and dividends) less all costs can be distributed as deemed appropriate by the Management Company. Dividend disbursement may be omitted in the interests of the Unit-holders. Dividends may also be disbursed at the discretion of the Management Company from earnings generated by the sale of fund assets, including subscription rights. Disbursements of fund assets and interim dividends may be paid.

The fund assets may in no case fall below the legally stipulated minimum volume for termination as a result of dividend disbursements.

The amounts shall be paid to the holders of dividend-bearing units on or after **1 September** of the following accounting year. The remaining amount shall be carried forward.

An amount calculated in accordance with the InvFG must also be paid out on or after **1 September** to cover the capital gains tax assessed by the tax authorities on the dividend-equivalent earnings from the fund units unless the Management Company provides suitable proof from the banks managing the corresponding securities accounts that the unit certificates can only be held by Unit-holders who are not subject to Austrian personal income tax or corporation tax or who meet the conditions for

exemption from capital gains tax according to § 94 of the Austrian Income Tax Act (Einkommensteuergesetz) at the time of payment.

Use of earnings for dividend-bearing units without capital gains tax payment (dividend-bearing units [foreign investors])

Dividend-bearing units without capital gains tax payment are not sold in Austria.

The earnings generated during the accounting year (interest and dividends) less all costs can be distributed as deemed appropriate by the Management Company. Dividend disbursement may be omitted in the interests of the Unit-holders. Dividends may also be disbursed at the discretion of the Management Company from earnings generated by the sale of fund assets, including subscription rights. Disbursements of fund assets and interim dividends may be paid.

The fund assets may in no case fall below the legally stipulated minimum volume for termination as a result of dividend disbursements.

The amounts shall be paid to the holders of dividend-bearing units on **or after 1 September** of the following accounting year. The remaining amount shall be carried forward.

The Management Company shall provide suitable proof that the unit certificates could only be held by Unit-holders who are not subject to Austrian personal income tax or corporation tax or who meet the conditions for exemption from capital gains tax according to § 94 of the Austrian Income Tax Act (Einkommensteuergesetz) at the time of payment.

Use of earnings for non-dividend-bearing units with capital gains tax payment (non-dividend-bearing units)

The earnings generated by the Fund during the accounting year less all costs will not be paid out. In the case of non-dividend-bearing units, an amount calculated in accordance with the InvFG must be paid out on or after **1 September** to cover the capital gains tax assessed by the tax authorities on the dividend-equivalent earnings from the fund units unless the Management Company provides suitable proof from the banks managing the corresponding securities accounts that the unit certificates can only be held by Unit-holders who are not subject to Austrian personal income tax or corporation tax or who meet the conditions for exemption from capital gains tax according to § 94 of the Austrian Income Tax Act (Einkommensteuergesetz) at the time of payment.

Use of earnings for non-dividend-bearing units without capital gains tax payment (KESt-exempt non-dividend-bearing units)

The earnings generated by the Fund during the accounting year less all costs will not be paid out. No payment pursuant to the InvFG will be made. The reference date for the exemption from KESt payment for the profit for the year for the purposes of the InvFG shall be **1 September** of the following accounting year.

The Management Company shall provide suitable proof from the banks managing the corresponding securities accounts that the unit certificates can only be held by Unit-holders who are not subject to Austrian personal income tax or corporation tax or who meet the conditions for exemption from capital gains tax according to § 94 of the Austrian Income Tax Act (Einkommensteuergesetz) at the time of payment.

If these requirements are not met at the time of payment, the amount calculated pursuant to the InvFG must be paid out by the credit institution managing the respective securities account.

Article 7

Management Fee, Compensation for Expenses, Liquidation Fee

The Management Company shall receive an **annual** fee for its administrative activities amounting to **up to 1.80%** of the fund assets as calculated and accrued on the basis of the daily fund volume. The fee will be charged to the fund assets once per month.

The Management Company shall be entitled to compensation for all expenses incurred in the administration of the Fund.

The Management Company shall be entitled to apply a sliding management fee scale at its own discretion.

The costs for the introduction of new unit categories for existing investment funds shall be assessed against the unit price of the new unit categories.

Upon liquidation of the Fund, the party processing the liquidation shall receive a fee in the amount of **0.50%** of the fund assets.

Further information and details about this Fund can be found in the prospectus.

Annex to the Fund Rules

List of exchanges with official trading and organised markets

(As of November 2025)

1. Exchanges with official trading and organised markets in the Member States of the EEA as well as exchanges in European countries outside of the EEA considered to be equivalent to regulated markets

Every Member State must maintain a current list of the authorised markets within its territory. This list must be submitted to the other Member States and the ESMA. The ESMA publishes a list of all regulated markets on its website and updates it regularly.

1.1. The currently valid list of regulated markets can be found at

https://registers.esma.europa.eu/publication/searchRegister?core=esma_registers_upreg

To open the list, select “Regulated market” under “Entity type” in the column on the left side of the page and then click “Search” (or “Show table columns” and “Update”). The link can be changed by the ESMA.

1.2. Recognised markets in the EEA according to § 67 (2) 2 InvFG:

Markets in the EEA that have been classified as recognised markets by the competent supervisory authorities.

2. Exchanges in European countries outside of the EEA

2.1.	Bosnia and Herzegovina:	Sarajevo, Banja Luka
2.2.	Channel Island	The International Stock Exchange (TISE)
2.3.	Montenegro:	Podgorica
2.4.	Russia:	Moscow Exchange
2.5.	Switzerland:	SIX Swiss Exchange AG, BX Swiss AG
2.6.	Serbia:	Belgrade
2.7.	Turkey:	Istanbul (only “National Market” on the stock market)
2.8.	United Kingdom of Great Britain and Northern Ireland:	Cboe Europe Equities Regulated Market – Integrated Book Segment, London Metal Exchange, Cboe Europe Equities Regulated Market – Reference Price Book Segment, Cboe Europe Equities Regulated Market – Off-Book Segment, London Stock Exchange Regulated Market (derivatives), NEX Exchange Main Board (non-equity), London Stock Exchange Regulated Market, NEX Exchange Main Board (equity), Euronext London Regulated Market, ICE FUTURES EUROPE, ICE FUTURES EUROPE – AGRICULTURAL PRODUCTS DIVISION, ICE FUTURES EUROPE – FINANCIAL PRODUCTS DIVISION, ICE FUTURES EUROPE – EQUITY PRODUCTS DIVISION, and Gibraltar Stock Exchange

3. Exchanges in non-European countries

3.1.	Australia:	Sydney, Hobart, Melbourne, Perth
3.2.	Argentina:	Buenos Aires
3.3.	Brazil:	Rio de Janeiro, Sao Paulo
3.4.	Chile:	Santiago
3.5.	China:	Shanghai Stock Exchange, Shenzhen Stock Exchange
3.6.	Hong Kong:	Hong Kong Stock Exchange
3.7.	India:	Mumbai National Stock Exchange of India Limited (NSE) India International Exchange (IFSC)
3.8.	Indonesia:	Jakarta
3.9.	Israel:	Tel Aviv
3.10.	Japan:	Tokyo, Osaka, Nagoya, Fukuoka, Sapporo
3.11.	Canada:	Toronto, Vancouver, Montreal
3.12.	Colombia:	Bolsa de Valores de Colombia

3.13.	Korea:	Korea Exchange (Seoul, Busan)
3.14.	Malaysia:	Kuala Lumpur, Bursa Malaysia Berhad
3.15.	Mexico:	Mexico City
3.16.	New Zealand:	Wellington, Auckland
3.17.	Peru:	Bolsa de Valores de Lima
3.18.	Philippines:	Philippine Stock Exchange
3.19.	Singapore:	Singapore Stock Exchange
3.20.	South Africa:	Johannesburg
